

**MODESTO CITY COUNCIL
RESOLUTION NO. 2019-01**

RESOLUTION APPROVING THE FIRST AMENDMENT INCREASING THE AGREEMENT AMOUNT WITH DOKKEN ENGINEERING, FOR PROFESSIONAL DESIGN SERVICES FOR THE STATE ROUTE 132 WEST FREEWAY/EXPRESSWAY - PHASE 1 PROJECT BY \$344,096 FROM \$7,000,000 TO A TOTAL AMOUNT OF \$7,344,096, AND AUTHORIZING THE CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE THE FIRST AMENDMENT

WHEREAS, the purpose of the State Route 132 West Freeway/Expressway - Phase 1 Project is to improve regional and interregional circulation, relieve traffic congestion along existing State Route 132, and enhance safety and operations for the existing and proposed transportation network, and

WHEREAS, on May 2, 2017, by Resolution No. 2017-174, the City Council approved an agreement with Dokken Engineering for professional design services in the amount of \$6,400,000, plus \$600,000 for additional services, for a total contract amount of \$7,000,000, and

WHEREAS, on December 18, 2018, Dokken Engineering submitted to the City a budget augmentation for additional tasks in the amount of \$344,096, for a total contract amount of \$7,344,096, and

WHEREAS, these additional needs are described by task as follows:

Task 1.2: Coordination/Administration

Task 6.1: 100% Submittal Roadway Plans

Task 7.1: Bid Support (Hourly)

Task 12.4: TIGER and Other Grant Support

Task 14.1: BCS & ADL PS&E; Hazardous Materials Testing Coordination

Task 14.2: Aerially Deposited Lead Testing on SR-99

Task 15.1: Staking Utilities and Right of Way (Hourly), and

WHEREAS, as Dokken Engineering has nearly completed the originally identified scope of services, a First Amendment to the Dokken Engineering Agreement is needed to increase the contract by a total of \$344,096.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the First Amendment increasing the agreement amount with Dokken Engineering, for professional design services for the State Route 132 West Freeway/Expressway - Phase 1 Project by \$344,096 from \$7,000,000 to a total amount of \$7,344,096.

BE IT FURTHER RESOLVED, that the City Manager, or his designee, is authorized to execute the First Amendment, in a form approved by the City Attorney.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 22nd day of January, 2019, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Grewal, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2019-02**

RESOLUTION AMENDING THE FISCAL YEAR 2018-2019 CAPITAL IMPROVEMENT PROGRAM (CIP) BUDGET, PROJECT #100614 IN THE AMOUNT OF \$344,096 FOR THE STATE ROUTE 132 WEST FREEWAY/EXPRESSWAY - PHASE 1 PROJECT AND APPROPRIATION OF FUNDS FROM THE STREETS CAPITAL FACILITY FEES FUND RESERVES, AND AUTHORIZING THE CITY MANAGER, OR HIS DESIGNEE TO IMPLEMENT THE PROVISIONS OF THIS RESOLUTION

WHEREAS, the purpose of the State Route 132 West Freeway/Expressway - Phase 1 Project is to improve regional and interregional circulation, relieve traffic congestion along existing State Route 132, and enhance safety and operations for the existing and proposed transportation network, and

WHEREAS, on May 2, 2017 the City Council, by Resolution No. 2017-175 authorized the appropriation of \$4,000,000 in Streets Capital Facility Fees reserve funds to the State Route 132 West Expressway Project, and

WHEREAS, on May 2, 2017, by Resolution No. 2017-174, the City Council approved an agreement with Dokken Engineering for professional design services in the amount of \$6,400,000, plus \$600,000 for additional services, for a total contract amount of \$7,000,000, and

WHEREAS, on December 18, 2018, Dokken Engineering submitted to the City a budget augmentation for additional tasks in the amount of \$344,096, for a total contract amount of \$7,344,096, and

WHEREAS, as Dokken Engineering has nearly completed the originally identified scope of services, a First Amendment to the Dokken Engineering Agreement is needed to increase the contract by a total of \$344,096, and

WHEREAS, the Fiscal Year 2018-2019 Capital Improvement Program Budget needs to be amended by \$344,096 for the State Route 132 West Freeway/Expressway - Phase 1 Project and funds need to be appropriated from the Streets Capital Facility Fees reserve funds, and

WHEREAS, staff will seek reimbursement from the Regional Measure L funds managed by the Stanislaus Council of Governments (StanCOG) to cover the cost of this First Amendment to the Dokken Engineering Agreement.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby amends the Fiscal Year 2018-2019 Capital Improvement Program (CIP) Budget, project #100614 in the amount of \$344,096 for the State Route 132 West Freeway/Expressway - Phase 1 Project and appropriation of funds from the Streets Capital Facility Fees fund reserves.

BE IT FURTHER RESOLVED, that the City Manager, or his designee, is authorized to implement the provisions of this resolution.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 22nd day of January, 2019, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Grewal, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2019-03**

RESOLUTION APPROVING A WILL SERVE LETTER AND OUTSIDE SERVICE AGREEMENT BETWEEN THE CITY OF MODESTO AND ALVERNAN INVESTMENTS, LLC, A CALIFORNIA LIMITED LIABILITY COMPANY TO CONNECT TO THE CITY OF MODESTO'S EXISTING SEWER SYSTEM FOR THE PROPERTY LOCATED AT 212 CRATER AVENUE (APN: 038-026-008), AND AUTHORIZING THE CITY MANAGER, OR HIS DESIGNEE, TO SIGN THE WILL SERVE LETTER AND EXECUTE THE OUTSIDE SERVICE AGREEMENT

WHEREAS, Alvernaz Investments, LLC, a California limited liability company owns commercial property located at 212 Crater Avenue which is located outside of Modesto City Limits and inside the City's Sphere of Influence, and

WHEREAS, the property located at 212 Crater Avenue, is not connected to City's sewer system and is requesting a sewer connection due to a failing septic system, and

WHEREAS, on November 25, 2014, City Council approved Resolution No. 2014-473 amending City Council Policy 5.002, and

WHEREAS, on December 9, 2014, City Council approved adoption of Ordinance No.3612-C.S. amending City of Modesto Municipal Code Section 11-1.05, and

WHEREAS both of these amendments included language allowing the City Manager, upon the recommendation of the Director responsible for utility system planning to approve standard agreements of service for extension of sewer services into certain unincorporated areas without City Council approval, and

WHEREAS, the property located at 212 Crater Avenue is not located within one of those designated areas and therefore requires City Council approval prior to allowing the sewer connection, and

WHEREAS, City staff has completed an analysis and determined that it is reasonable for the City of Modesto to provide sewer service to this property, and

WHEREAS, consistent with adopted LAFCO Policy 15, the extension of sewer service is proposed to remedy a health and safety concern in an area with failing septic system, and

WHEREAS, the sewer connection fees shall be paid and associated permits will be obtained prior to connecting to the City sewer system, and

WHEREAS, the property owner has executed an Outside Service Agreement for sewer service with the City as required to receive sewer service outside the City limits.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the Will Serve Letter and Outside Service Agreement for sewer service for the property located at 212 Crater Avenue (APN: 038-026-008) in Modesto.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to approve the Will Serve letter and execute the Outside Service Agreement for sewer service.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 22nd day of January, 2019, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Grewal, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2019-05**

**RESOLUTION AMENDING THE FISCAL YEAR 2018-2019 ANNUAL
OPERATING AND CAPITAL IMPROVEMENT FUND BUDGETS**

WHEREAS, a financial analysis has been completed and it has been determined that a budget adjustment is required to the Annual and Capital Improvement Budgets of the City of Modesto for Fiscal Year 2018-19.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves amending the Fiscal Year 2018-19 Annual Operating and Capital Improvement budget as shown in **Exhibit A**, which is **attached** hereto and incorporated by reference herein.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to take the necessary steps to implement the provisions of this resolution.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 22nd day of January, 2019, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Grewal, was upon roll call carried and the resolution adopted by the following vote:

EXHIBIT A

FISCAL YEAR 2018-19

FIRE DEPARTMENT

A budget adjustment is necessary for Project #100960 – AMR/General EMS to reduce the transfer in from General Fund by \$11,040 as there will not be any more funds transferred from General Fund and increase the revenue for the American Medical Response Contract by \$134,839 to recognize revenue received and expected to be received during the fiscal year. Additionally, the project expense budget is being increased by \$204,125 to account for anticipated expenditures this fiscal year and balance the project revenue and expense budget.

Fund	Fund Name	Account - Revenue/Expense	Current Budget	Increase/Decrease	Revised Budget
0180	Fire Department Unrestricted Non-Capital Projects	Revenue - Transfer In from 0100 General Fund	\$80,000	(\$11,040)	\$68,960
0180	Fire Department Unrestricted Non-Capital Projects	Revenue – CS-PS-AMR Contract and Miscellaneous Revenue	\$272,418	\$134,839	\$407,257
0180	Fire Department Unrestricted Non-Capital Projects	Project #100960 Expenditures	\$272,092	\$204,125	\$476,217

**MODESTO CITY COUNCIL
RESOLUTION NO. 2019-06**

RESOLUTION APPROVING AN AGREEMENT WITH ZOLL DATA SYSTEMS, INC. FOR HOSTED SERVER SERVICES FOR BOTH EPCR AND FIRERMS RECORDS MANAGEMENT AND REPORTING SOFTWARE IN AN ANNUAL AMOUNT OF \$42,780, AND A ONE-TIME STARTUP FEE FOR PROFESSIONAL SERVICES AND TRAINING IN THE AMOUNT OF \$12,000, FOR A TOTAL THREE-YEAR AGREEMENT NOT TO EXCEED \$140,340 AND AUTHORIZING THE CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE THE AGREEMENT

WHEREAS, the Modesto Fire Department has been utilizing ZOLL's FireRMS as the department's records management system for more than 15 years; and

WHEREAS, when Modesto Fire joined the Joint Powers Authority, Modesto Regional Fire Authority (MRFA) in 2011, the servers were transitioned to being owned and operated by Stanislaus County's IT Department (SBT); and

WHEREAS, in the four years since Modesto Fire Department has been re-established and the hosting of the ZOLL software servers has remained with SBT there have been numerous situations in which the time delays to address technical concerns has impeded reporting and operations; and

WHEREAS, this transition to a hosted environment has been reviewed with the Information Technology (IT) Department as well as the County Strategic Business Technology (SBT) Department and is the best route to ensure timely and appropriate resolution to problems with the ePCR program; and

WHEREAS, Modesto Municipal Code (MMC) Section 8-3.203 generally requires all purchases that meet or exceed \$50,000 for material, equipment or contractual services to be formally bid. However, there are exceptions to the rule set forth in the MMC Section, MCC 8-3.204 (d), where the Purchasing Manager, in her discretion, determines

that a process other than the formal bid procedure set forth in Section 8.3-203 will result in procurement for the City at the lowest possible cost commensurate with the desired quality. Working directly with Zoll will eliminate approximately 200 hours of staff time in trying to work through third parties to resolve issues. The elimination of third parties will create an increase in department efficiencies and cost savings of staff time, estimated at approximately \$15,000 per year; and

WHEREAS, funds have been identified to cover the annual cost of \$42,780 for the three year contract; and

WHEREAS, the total cost of the three year contract will be \$140,340.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves an agreement with ZOLL Data Systems, Inc. for the hosted server services for both ePCR and FireRMS records management and reporting software in an annual amount of \$42,780, and a one-time startup fee for professional services and training in the amount of \$12,000, for a total three-year agreement not to exceed \$140,340.

BE IT FURTHER RESOLVED, that the City Manager or his designee is hereby authorized to execute the agreement, in a form approved by the City Attorney.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 22nd day of January, 2019, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Grewal, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2019-07**

RESOLUTION APPROVING THE AWARD OF PROPOSAL AND AGREEMENT FOR CITYWIDE REGULATORY SAFETY TRAINING AND CONSULTATION TO YORK RISK SERVICES GROUP, INC. A NEW YORK COMPANY, SACRAMENTO, CALIFORNIA, FOR A TWO YEAR AGREEMENT WITH THREE ONE-YEAR EXTENSION OPTIONS, FOR AN ANNUAL COST NOT TO EXCEED \$85,120 AND A TOTAL AMOUNT NOT TO EXCEED \$425,600 OVER FIVE YEARS; AND AUTHORIZING THE CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE THE AGREEMENT

WHEREAS, the City recognizes the right of all employees to a safe workplace and values the importance of education and training for all staff to ensure safe work practices are understood and adhered to, and to aid in recognizing and mitigating hazards in the workplace, and

WHEREAS, through an extensive and on-going safety needs assessment, the City has identified the need for citywide safety training and consultation services to achieve and maintain compliance with Federal, State, and local regulations, and

WHEREAS, the Purchasing Division issued Request for Proposals (RFP) 1718-13 for Safety Training and Consultant Services, and

WHEREAS, a selection committee comprised of staff representing pertinent divisions for citywide safety needs reviewed all proposals and vendor presentations, and

WHEREAS, the selection committee chose York Risk Services Group (formerly Bickmore) as the City's next Safety Consultant/Training Provider, and

WHEREAS, York Risk Services Group will provide mandatory safety training, prepare/update written safety programs and provide additional guidance and consultation, and

WHEREAS, this agreement will authorize the necessary funds and authorities to provide continuous, ongoing mandatory training.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the award of proposal and agreement for citywide regulatory safety training and consultation to York Risk Services Group, Inc. a New York Company, Sacramento, California, for a two year agreement with three one-year extension options, for an annual cost not to exceed \$85,120 and a total amount not to exceed \$425,600 over five years.

BE IT FUTHER RESOLVED, that the City Manager, or designee, is hereby authorized to execute the contract, in a form approved by the City Attorney.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 22nd day of January, 2019, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Grewal, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2019-10**

RESOLUTION APPROVING THE SECOND AMENDMENT INCREASING THE AGREEMENT AMOUNT WITH AARONSON MANAGEMENT GROUP, INC. (DBA STORYPOWERED) FOR PHASE II WORK ON THE CONVENTION AND VISITOR'S BUREAU TRANSITION TO AN INDEPENDENT AGENCY BY \$50,000 FROM \$102,000 TO A NEW TOTAL AMOUNT OF \$152,000, EXTENDING THE TERM OF THE AGREEMENT FROM JANUARY 31, 2019 TO JUNE 30, 2019, AND AUTHORIZING THE CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE THE AMENDMENT

WHEREAS, in June 2015, the City Council adopted Resolution No. 2015-224 assigning the duties and functions of the Convention and Visitor's Bureau (CVB) to the Community and Economic Development Department, and

WHEREAS, Resolution No. 2018-107 initiated the start of moving forward to have a fully functioning CVB, and restoring it as an independent agency, and

WHEREAS, steps toward restoring the CVB include hiring a consultant to oversee the transition and activities of the Convention and Visitor's Bureau, establishing the Mayor and Council and the Interim Board of Directors, and drafting an agreement to provide funding from the Transient Occupancy Tax, using the previous agreement as a guide, and

WHEREAS, on March 27, 2018, the City executed an Agreement for Consultant Services with Aaronson Management Group, Inc. (DBA StoryPowered) (Agreement), to oversee Phase I of the CVB transition, and

WHEREAS, on September 4, 2018, by Resolution No. 2018-362, the City executed a First Amendment to the Agreement (First Amendment) to oversee Phase II of the CVB transition, and

WHEREAS, several unanticipated factors have affected Consultant's ability to complete the balance of Phase II work as scheduled, and

WHEREAS, the City desires to amend the Agreement to extend the term from January 31, 2019 to June 30, 2019 to complete Phase 2 leading to the launch of a new Convention and Visitors Authority in mid-2019, and

WHEREAS, the cost of Phase II is \$47,500 plus reimbursable expenses in an amount not to exceed \$2,500, and

WHEREAS, funding for Phase II is budgeted in the Fiscal Year 2018-2019 Operating budget of the Convention & Visitors Bureau in the General Fund (0100-34300-53300).

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the Second Amendment to the Consultant Services Agreement with Aaronson Management Group, Inc. (DBA StoryPowered), for Phase II work on the Convention and Visitor's Bureau transition to an independent agency, in an amount not to exceed \$50,000, for a total agreement amount not to exceed \$152,000.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to execute the Second Amendment to the Agreement, in a form approved by the City Attorney.

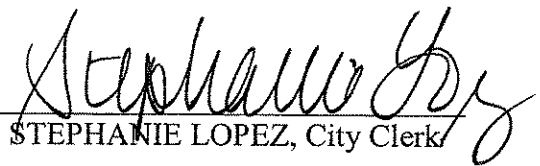

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 22nd day of January, 2019, by Councilmember Ridenour, who moved its adoption, which motion being duly seconded by Councilmember Madrigal, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2019-11**

RESOLUTION APPROVING THE SUBMITTAL OF AN APPLICATION FOR THE 2020 OFFICE OF TRAFFIC SAFETY SELECTIVE TRAFFIC ENFORCEMENT PROGRAM (STEP) GRANT IN THE AMOUNT OF \$652,500, AND AUTHORIZING THE CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE THE NECESSARY DOCUMENTS

WHEREAS, the Modesto Police Department desires to undertake a certain project designated as the Selective Traffic Enforcement Program (STEP) grant from the Office of Traffic Safety (OTS), and

WHEREAS, the Police Department is seeking approval to apply for a grant in the sum of \$652,500 from OTS, and

WHEREAS, acceptance of said \$652,500 grant will increase enforcement for speed, DUI, and other special traffic enforcement operations, while also reducing collisions with speed, DUI, and special operations, and

WHEREAS, OTS will pay overtime for officers, training, and equipment to assist in traffic studies and other traffic related enforcement equipment, and

WHEREAS, the term of this grant will be from October 1, 2019, through September 30, 2020.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the submittal of an application for the 2020 office of traffic safety selective traffic enforcement program (step) grant in the amount of \$652,500.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to execute the necessary application documents.

RESOLUTION NO. 2019-14**

RESOLUTION APPROVING THE PLANS AND SPECIFICATIONS, ACCEPTING THE BID, AND APPROVING A CONSTRUCTION CONTRACT WITH TIM PAXIN'S PACIFIC EXCAVATION, INC. OF ELK GROVE, CA, FOR THE PROJECT TITLED, "UPGRADE TRAFFIC SIGNALS 2015" IN THE AMOUNT OF \$518,561, PLUS \$52,000 FOR ADDITIONAL SERVICES, IF NEEDED, FOR AN AGREEMENT TOTAL NOT TO EXCEED \$570,561, AND AUTHORIZING THE CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE THE AGREEMENT

WHEREAS, on April 15, 2015, City Staff applied for Highway Safety Improvement Program (HSIP) funds for preliminary engineering to upgrade Traffic Signals at the following three intersections in the City of Modesto: Dale Rd. at Veneman Ave., Kansas Ave. at Emerald Ave., and Paradise Rd. at Martin Luther King Dr., and

WHEREAS, construction of this project would upgrade the traffic signals at the specified intersections and meet current Americans with Disabilities Act (ADA) standards, and

WHEREAS, staff has worked diligently with Caltrans for project funding and approval, and

WHEREAS, on September 18, 2018, the project was advertised for bids and

WHEREAS, on October 16, 2018 , bids were publicly opened pursuant to Modesto Municipal Code Section 8-3.403 and later tabulated by the Director of Public Works for the consideration of Council, and

WHEREAS, the Director of Finance and the City Manager have recommended that the bid of \$518,561 received from Tim Paxin's Pacific Excavation, Inc. of Elk Grove, CA, be accepted and awarded as the lowest responsive and responsible bid.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the plans and specifications, accept the bid, and award the construction contract for the project titled, "Upgrade Traffic Signals – 2015 to Tim Paxin's Pacific Excavation Inc., of Elk Grove, CA in the amount of \$516,561, plus \$52,000, if needed, for an agreement total not to exceed \$570,561.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to execute the contract, in a form approved by the City Attorney.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 22nd day of January, 2019, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Grewal, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION NO. 2019-15**

RESOLUTION AMENDING THE FISCAL YEAR 2018-2019 CAPITAL IMPROVEMENT PROGRAM BUDGET, IN THE AMOUNT OF \$144,061 FOR PROJECT #100939 - UPGRADE TRAFFIC SIGNALS 2015 AND ESTABLISHING A TRANSFER FROM SURFACE TRANSPORTATION FUND (STF) TO THE PROJECT, AND AUTHORIZING THE CITY MANAGER, OR HIS DESIGNEE, TO IMPLEMENT THE PROVISIONS OF THIS RESOLUTION

WHEREAS, on April 15, 2015, the City applied for the Highway Safety Improvements Program (HSIP) grant and was granted \$100,000 for Preliminary Engineering, and

WHEREAS, on March 22, 2016, by Resolution 2016-105, Council authorized the budget adjustment to use these funds, and

WHEREAS, on June 30, 2016 staff applied for the construction portion of funds for the HSIP grant and was approved by Department of Transportation (Caltrans) to use the funds on July 28, 2018, and

WHEREAS, on September 13, 2016, by Resolution 2016-348, Council authorized the budget adjustment for the use of these funds, and

WHEREAS, the City will be reimbursed for expenses covered by the HSIP grant by Caltrans, and

WHEREAS, additional funding is needed for the project as the construction bids came in higher than what is funded by the grant, and

WHEREAS, there are sufficient funds in the Surface Transportation Fund (STF) reserves to transfer into the project, and

WHEREAS, certain budgetary adjustments are required to complete the project.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby amends the Fiscal Year 2018-2019 Capital Improvement Program Budget to adjust capital project #100939 and establish a transfer of funds from STF reserves to the project in the amount of \$144,061.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to implement the provisions of this resolution.

**MODESTO CITY COUNCIL
RESOLUTION NO. 2019-16**

RESOLUTION APPROVING AN AGREEMENT WITH ITERIS, SANTA ANA, CA, FOR THE TRAFFIC SIGNAL SYSTEM ENGINEERING SERVICES PROJECT IN THE AMOUNT OF \$218,378 FOR THE IDENTIFIED SCOPE OF SERVICES, PLUS \$31,622 FOR ADDITIONAL SERVICES (IF NEEDED), FOR AN AGREEMENT TOTAL NOT TO EXCEED \$250,000, AND AUTHORIZING THE CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE THE AGREEMENT

WHEREAS, the City's traffic signal system has effectively served the City for approximately 25 years and is nearing its useful life, and

WHEREAS, the City would like to update the traffic signal system to a state-of-art system to provide continuous operations and advance future goals of implementing connected and autonomous vehicles (CV/AV) technology with a focus on the Vehicle to Infrastructure component, and

WHEREAS, a state-of-the-art traffic signal system uses the latest infrastructure and computer technology that contains excess volume for hardware improvements and flexible computer software that allows for interchangeability from one technology to another, and

WHEREAS, on September 4, 2018, by Resolution No. 2018-380, Council approved Measure L projects which included Traffic Signal Analysis Study System Wide, and

WHEREAS, the Traffic Signal Analysis Study System Wide project consists of a qualified consultant to improve traffic signal equipment, traffic specifications, Advanced Traffic Management System (ATMS), traffic engineering operations, a 5-year plan, and funding options for the City, and

WHEREAS, in accordance with Administrative Directive 3.1, Selection Procedures for Professional Consultants Who Provide Architectural & Engineering

Services for Capital Projects, Staff solicited and formally advertised for a Request for Proposal (RFP) through Planet Bids (#101125) for consulting services to review Traffic Signal System operations, and

WHEREAS, on September 18, 2018, Staff received two proposals for the Traffic Signal Analysis Study System Wide project, and

WHEREAS, three City of Modesto staff members, one City of Tracy staff member, and one Stanislaus County staff member rated each of the proposals based on various categories and objectives, and

WHEREAS, from the rating of the two proposals, Iteris received the top score, and

WHEREAS, staff negotiated a final Scope of Services and Cost Proposal with Iteris in an amount not to exceed \$218,378 for the identified scope of services, plus \$31,622 for additional services (if needed), for a maximum amount not to exceed \$250,000, and

WHEREAS, in accordance with Modesto Municipal Code 8-3.204(a) Exceptions to Formal Bidding Requirements, this agreement is for professional services and, therefore, exempt from the bid requirement.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves an Agreement with Iteris, Santa Ana, CA, for the Traffic Signal System Engineering Services project in the amount of \$218,378 for the identified scope of services, plus \$31,622 for additional services (if needed), for an agreement total not to exceed \$250,000.

BE IT FURTHER RESOLVED, that the City Manager, or his designee, is authorized to execute the Agreement, in a form approved by the City Attorney.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 22nd day of January, 2019, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Grewal, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION NO. 2019-19**

RESOLUTION ACCEPTING THE AWARD FOR THE STATE OF GOOD REPAIR FUNDS IN THE AMOUNT OF \$32,364 TO REHABILITATE THE DOWNTOWN TRANSIT CENTER, AND AUTHORIZING THE CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE THE GRANT DOCUMENTS

WHEREAS, the City of Modesto is an eligible project sponsor and received State of Good Repair (SGR) funds in the amount of \$32,364 to rehabilitate the Downtown Transit Center, and

WHEREAS, the statutes related to state-funded transit projects require a local or regional implementing agency to abide by various regulations, and

WHEREAS, Senate Bill 1 (SB1) (2017) named the Department of Transportation (Caltrans) as the administrative agency for the SGR program, and

WHEREAS, Caltrans developed guidelines for the purpose of administering and distributing SGR funds to eligible project sponsors (local agencies), and

WHEREAS, a project list was developed and submitted to Caltrans to improve the conditions of the facilities, rolling stock and equipment needed to operate the Modesto Area Express (MAX) bus system.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby accepts the award in the amount of \$32,364 in State of Good Repairs funds for the City of Modesto Transit Division.

BE IT FURTHER RESOLVED that the fund recipient agrees to comply with all conditions and requirements set forth in the Certification and Assurances document and applicable statutes, regulations and guidelines for all State of Good Repair funded transit projects.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to execute and file all required documents of the State of Good Repair program and any Amendments thereto with the California Department of Transportation.

**MODESTO CITY COUNCIL
RESOLUTION NO. 2019-21**

RESOLUTION APPROVING A PURCHASING AGREEMENT WITH MSC INDUSTRIAL SUPPLY CO., INC. BY UTILIZING THE COMPETITIVE BID PROCESS WITH NASPO VALUEPOINT FOR THE PURCHASE AND MAINTENANCE OF BIN STOCK ITEMS FOR A TWO-YEAR AGREEMENT WITH THREE ONE-YEAR EXTENSION OPTIONS, FOR AN ANNUAL COST NOT TO EXCEED \$110,000 AND A TOTAL AMOUNT NOT TO EXCEED \$550,000 OVER FIVE YEARS, AND AUTHORIZING THE PURCHASING MANAGER, OR HER DESIGNEE, TO ISSUE THE PURCHASING AGREEMENT

WHEREAS, the Fleet Services Division and Wastewater Division have an ongoing need for the purchase and maintenance of bin stock items, including but not limited to, miscellaneous nuts, bolts, fasteners, bulbs, fuses, machine tools, welding supplies, consumable shop supplies, etc., for the repair and maintenance of the City's specialized vehicles and equipment owned by the City of Modesto as well as specialized facilities and equipment repair as it relates to the treatment of wastewater in the City, and

WHEREAS, as repairs are made, miscellaneous nuts, bolts, fasteners, bulbs, fuses, machine tools, welding supplies and consumable shop supplies are needed throughout the work, and it is extremely cost effective to have a continuous stock of this type of material in order to not slow down work progress, and

WHEREAS, having a service maintain these bins is beneficial as we would spend many hours weekly monitoring usage, and

WHEREAS, these types of services are typical in repair and maintenance facilities, and the time spent ordering each consumable item when required would be cost prohibitive, and

WHEREAS, on August 14, 2018, the City Manager authorized the Purchasing Division to issue a formal Request for Bids (RFB). While researching to prepare for the

RFB, Purchasing staff discovered a Request for Proposal (RFP) issued by the State of Oregon for member states of the NASPO ValuePoint Cooperative Purchasing Program and other Purchasing entities, and

WHEREAS, the State of Oregon, on behalf of participating members of the NASPO ValuePoint Cooperative Purchasing Program and other Purchasing Entities, issued a RFP on 11/15/2017 to establish one or more Master Agreement(s) with qualified offerors, and the State of Oregon, NASPO ValuePoint Cooperative Purchasing Program and other Purchasing Entities successfully negotiated a contract and executed an agreement with MSC Industrial Supply Co., Inc., with an effective date of June 22, 2018 for an initial one-year term with four, one-year renewal options, and

WHEREAS, MMC 8-3.204(d) “Where the Purchasing Manager, in her discretion, determines that a process other than the formal bid procedure set forth in Section 8-3.203 will result in procurement for the City at the lowest possible cost commensurate with the desired quality.” In addition, MMC 8-3.202 (d) encourages the Purchasing Manager to join with the State of California and other units of government in cooperative purchasing plans when the best cost savings and interest of the City would be served, and for these reasons this purchase qualifies for an exemption from the formal bidding process, and

WHEREAS, sufficient funds have been budgeted and approved in Fiscal Year 18/19 in the following accounts with estimated amounts for each account:

PW – Fleet Vehicle & Equip. Maintenance	No: 5400-32555-58105	\$45,000
PW – Transit Maintenance	No: 4540-53244-58105	\$10,000
UTL – Sutter Plant Maintenance	No: 4210-44313-53150	\$11,000
UTL – Jennings Plant Maintenance	No: 4210-44314-53150	\$10,000
UTL – Sewer Lift Stations	No: 4210-44315-53150	\$12,000
UTL – Tertiary Treatment	No: 4210-44316-53150	\$15,000
UTL – Stormwater Lift Stations	No: 4480-44311-53150	\$7,000

TOTAL

\$110,000

NOW THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the purchasing agreement with MSC Industrial Supply Co., Inc. by utilizing i.e., "piggybacking" a competitively bid contact with NASPO ValuePoint, for the purchase and maintenance of bin stock items, for a two-year agreement with three one-year extension options, for an annual cost not to exceed \$110,000, and a total cost not to exceed \$550,000 over five years.

BE IT FURTHER RESOLVED that the Purchasing Manager, or her designee, is hereby authorized to issue this purchasing agreement.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 22nd day of January, 2019, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Grewal, was upon roll call carried and the resolution adopted by the following vote:

WHEREAS, in accordance with Administrative Directive 3.1, Selection Procedures for Professional Consultants Who Provide Architectural and Engineering Services for Capital Projects, a request for Qualifications and Proposals was issued July 10, 2018, and

WHEREAS, responses were received from sixteen firms, and

WHEREAS, a selection committee consisting of the City's Utilities staff evaluated the responses and met August 23, 2018 to discuss the evaluations and review ranking, and

WHEREAS, the committee recommended negotiating with the top two firms deemed most responsive and qualified to enter into one-year on-call agreements, not to

exceed \$45,000 per year, with the possibility of two (2) one-year extension periods, at the sole discretion of the City, and

WHEREAS, no new budget allocation will be sought because the project-specific task orders under the agreement will be paid from existing CIPs, and

WHEREAS, ATC Group Services will submit a written scope of services outlining the specific work, schedule, and cost estimate associated with each task order, and

WHEREAS, ATC Group Services will perform no service until Utilities management has approved the proposed specific task order and a written Notice to Proceed (NTP) is prepared and sent to ATC Group Services prior to commencement of services.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves an Agreement with ATC Group Services for On-call Environmental Site Assessment Services for one year, with two one-year extension options at the sole discretion of the City in an amount not to exceed \$45,000 per year, for a total amount not to exceed \$135,000.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to execute said Agreement, in a form approved by the City Attorney.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 22nd day of January, 2019, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Grewal, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION NO. 2019-25**

RESOLUTION APPROVING AN AMENDMENT TO THE PURCHASING AGREEMENT WITH SUBSITE, LLC, PETALUMA, CA, FOR A CLOSED CIRCUIT TELEVISION (CCTV) EQUIPMENT RETROFIT BY \$10,268, FROM \$127,040 TO \$137,308, AND AUTHORIZING THE PURCHASING MANAGER, OR HER DESIGNEE, TO ISSUE AN AMENDED PURCHASING AGREEMENT

WHEREAS, the Utilities Department, Wastewater Division, maintains approximately 655 miles of sanitary sewer pipelines ranging in sizes from 4" to 96", and

WHEREAS, Wastewater Collections uses remotely operated CCTV systems to regularly inspect the wastewater pipelines, and

WHEREAS, CCTV inspection is used to determine the structural and maintenance condition of the pipelines and if the pipeline needs capital improvement, spot repairs, root control, FOG (Fats, Oils, and Grease) control, and/or increased cleaning frequency, and

WHEREAS, on September 11, 2018, by Resolution No. 2018-397, Council approved a purchasing agreement with Subsite, LLC, Petaluma, CA, for a cost not to exceed \$127,040 for replacement CCTV equipment, and

WHEREAS, when staff started the process of entering the requisition for the purchase of the CCTV equipment, it was discovered that the funding was short by \$10,268 due to cost of freight and sales tax; therefore, staff is requesting an increase to add \$10,268 to complete the purchase of CCTV equipment from Subsite, LLC, Petaluma, CA.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves an amendment to the purchasing agreement with Subsite, LLC,

Petaluma, CA, for a Closed Circuit Television (CCTV) equipment retrofit by \$10,268, from \$127,040 to \$137,308.

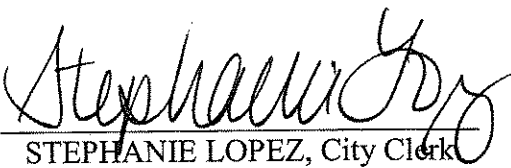

BE IT FURTHER RESOLVED the Purchasing Manager, or her designee, is hereby authorized to issue the purchasing agreement.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 22nd day of January, 2019, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Grewal, was upon roll call carried and the resolution adopted by the following vote:

**RESOLUTION APPROVING THE PLANS AND SPECIFICATIONS,
ACCEPTING THE BID, AND APPROVING A CONSTRUCTION CONTRACT
WITH ROADRUNNER DRILLING & PUMP COMPANY, INC., OF
WOODLAND, CA, FOR THE WELL 71 (REPLACING WELL 226) PROJECT,
IN THE AMOUNT OF \$629,609 AND AUTHORIZING THE CITY MANAGER,
OR HIS DESIGNEE, TO EXECUTE THE CONTRACT**

WHEREAS, specifications have been prepared for the Well 71 (Replacing Well 226) Project, and

WHEREAS, on November 20, 2018 staff received bids from three companies that were responsible and responsive, including a bid from Roadrunner Drilling & Pump Company, Inc., and

WHEREAS, MMC 8-3.203 states that all purchases, in excess of fifty thousand dollars (\$50,000), or when directed by the City Manager for any purchase of fifty thousand dollars (\$50,000) or less, shall follow formal bid procedures, and

WHEREAS, and the award of bid for the Well 71 (Replacing Well 226) Project conforms to the Modesto Municipal code based on providing the overall lowest cost, while providing improved service, and

WHEREAS, the Director of Utilities has recommended that the bid of \$629,609 received from Roadrunner Drilling & Pump Company, Inc., be accepted as the lowest responsible and responsive bid and the contract be awarded to Rolfe Construction Company.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby consider approving the plans and specifications, accepting the bid and

awarding a contract to Roadrunner Drilling & Pump Company, Inc., of Woodland, CA for the Well 71 (Replacing Well 226) Project in the amount of \$629,609.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to execute the contract, in a form approved by the City Attorney.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 22nd day of January, 2019, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Grewal, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION NO. 2019-27**

RESOLUTION AMENDING THE FISCAL YEAR 2018-19 CAPITAL IMPROVEMENT PROGRAM BUDGET IN THE AMOUNT OF \$134,067 TO BE TRANSFERRED INTO THE PROJECT FROM WATER FUND RESERVES IN ORDER TO FULLY FUND THE CONSTRUCTION, CONTINGENCY, CONSTRUCTION ADMINISTRATION, CITY CONSTRUCTION FORCES, AND DESIGN SUPPORT DURING CONSTRUCTION FOR THE WELL 71 (REPLACING WELL 226) PROJECT

WHEREAS, certain budgetary transactions are necessary in the amount of \$134,067 in order to fund construction, contingency, construction administration, City construction forces, and design support during construction plus City staff support for the Well 71 (Replacing Well 226) Project, and

WHEREAS, the Fiscal Year 2018-2019 Capital Improvement Program Budget must be amended as shown in **Exhibit A**, which is incorporated by reference herein.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the amendment of the Fiscal Year 2018-2019 Capital Improvement Program Budget as shown in **Exhibit A**, **attached** hereto.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to implement the provisions of this resolution.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 22nd day of January, 2019, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Grewal, was upon roll call carried and the resolution adopted by the following vote:

**RESOLUTION AUTHORIZING AN INCREASE IN THE DIRECTOR'S
AUTHORITY TO ISSUE CHANGE ORDERS FOR THE WELL 71 (REPLACING
WELL 226) PROJECT FROM 10 PERCENT (\$62,961) TO 25 PERCENT
(\$157,402) OF THE CONSTRUCTION CONTRACT AMOUNT**

WHEREAS, on January 22, 2019, the City Council is concurrently awarding a \$629,609 contract to Roadrunner Drilling & Pump Company, Inc., of Woodland, CA for the construction of the Well 71 (Replacing Well 226) Project, and

WHEREAS, given the nature of the project, additional work may be needed to address unexpected conditions that require changes in project scope, and

WHEREAS, the additional costs may exceed the Director's authority for the project as established by the Council's Change Order Approval Policy adopted by Resolution No. 94-443.

NOW, THEREFORE BE IT RESOLVED by the Council of the City of Modesto that it hereby authorizes the Director of Utilities to issue change orders for the Well 71 (Replacing Well 226) Project from 10 percent (\$62,961) to 25 percent (\$157,402) of the construction contract price of \$629,609 with Roadrunner Drilling & Pump Company, Inc, of Woodland, CA.

**MODESTO CITY COUNCIL
RESOLUTION NO. 2019-33**

RESOLUTION APPROVING A PURCHASING AGREEMENT WITH W.W. GRAINGER, INC., LAKE FOREST, IL, BY UTILIZING THE COMPETITIVE BID PROCESS WITH NATIONAL INTERGOVERNMENTAL PURCHASING ALLIANCE (NATIONAL IPA), UNIVERSITY OF CALIFORNIA, OFFICE OF THE PRESIDENT, FOR MAINTENANCE, REPAIR AND OPERATION SUPPLIES FOR A TWO-YEAR AGREEMENT WITH THREE ONE-YEAR EXTENSION OPTIONS, FOR AN ANNUAL COST NOT TO EXCEED \$113,500 AND A TOTAL AMOUNT NOT TO EXCEED \$567,500, AND AUTHORIZING THE PURCHASING MANAGER, OR HER DESIGNEE, TO ISSUE THE PURCHASE AGREEMENT

WHEREAS, the City has had a blanket purchase order with W. W. Grainger, Inc. (Grainger) for the past several years for maintenance, repair and operation supplies, and

WHEREAS, over the last year, the Grainger blanket purchase order has needed to be increased to accommodate expenditures, and

WHEREAS, to control the expenditures, purchasing staff has determined that an agreement would better serve the needs of staff, and

WHEREAS, the City Manager authorized the Purchasing Division to issue a formal Request for Bids (RFB) for maintenance, repair and operation (MRO) supplies on November 2, 2018, and

WHEREAS, while researching to prepare for the RFB, Purchasing staff discovered that Grainger has an agreement through National IPA, and

WHEREAS, the University of California issued an RFP on January 31, 2018, to establish a national cooperative contract for MRO supplies and related services, and

WHEREAS, the University of California, National IPA, and Grainger successfully negotiated a contract with an effective date of July 1, 2018, for an initial five-year term with two additional one-year options, and

WHEREAS, Grainger offers MRO supplies through a National Market Basket of 1300+ items that were competitively bid and Site Specific Market Basket of 1000+ items offering discounts from 5% to 35% off catalog prices; other cooperative purchasing agreements included Grainger competitors, such as, Fastenal, MSC, and Mallory Safety. Staff reviewed pricing from other agreements on the Top 50 items, and determined that Grainger had the best pricing for MRO Supplies, and

WHEREAS, by utilizing Grainger through National IPA, staff will be able to purchase items conveniently at a competitive price. The City will also receive the following incentives:

- Annual Growth Incentive: 1% on 10 %< prior year sales, 2% on 20%< prior year sales.
- E-commerce Rebate: 1% on 50%-74% sales through ecommerce, 2% on 75%< through ecommerce.
- Grainger Choice: 1% incentive paid on all Grainger Choice purchases if a minimum of 25% is met for total sales.
- Green product Incentive: 1% incentive paid on all Certified Grainger Green Product purchases if a minimum of 20% is met for total sales.

WHEREAS, Modesto Municipal Code Section 8-3.203 generally requires all purchases, which meet or exceed \$50,000 for material, equipment or contractual services to be formally bid, and

WHEREAS, however, exceptions to the formal bidding process are granted in MMC 8-3.204(d) “Where the Purchasing Manager, in his or her discretion, determines that a process other than the formal bid procedure set for in Section 8-3.203 will result in procurement for the City at the lowest possible cost commensurate with the desired quality,” and

WHEREAS, in addition, MMC 8-3.202(h) encourages joining with the State of California and other units of government in cooperative purchasing plans when the best interest of the City would be served; this purchase qualifies for the exemption from the formal bidding process as we are utilizing the University of California existing contract with competitive pricing and control of expenses.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves a purchasing agreement with W.W. Grainger, Inc., Lake Forest, IL, by utilizing the competitive bid process with National Intergovernmental Purchasing Alliance (National IPA), University of California, Office of the President, for maintenance, repair and operation supplies for a two-year agreement with three one-year extension options, for an annual cost not to exceed \$113,500 and a total amount not to exceed \$567,500.

BE IT FURTHER RESOLVED the Purchasing Manager, or her designee, is hereby authorized to issue the purchasing agreement.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 22nd day of January, 2019, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Grewal, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2019-34**

RESOLUTION APPROVING A DISPOSITION AND DEVELOPMENT AGREEMENT WITH EAH HOUSING, INC., A NONPROFIT HOUSING CORPORATION, FOR THE TRANSFER OF A CITY-OWNED PARCEL ON 9TH STREET TO EAH HOUSING, INC. FOR THE CONSTRUCTION OF 74 AFFORDABLE MULTIFAMILY UNITS AND AUTHORIZING THE CITY MANAGER OR HIS DESIGNEE TO TAKE ALL ACTIONS AND EXECUTE ANY DOCUMENTS AND/OR AGREEMENTS RELATED TO THE DISPOSITION AND DEVELOPMENT AGREEMENT

WHEREAS, Archway Commons is collaboration between the City of Modesto and EAH Housing, Inc. (EAH) for 150-unit housing development for low-income families and seniors, and

WHEREAS, Phase I was completed in 2013 and the 76 units were fully leased and occupied immediately after completion, and

WHEREAS, Archway Commons Phase II proposes to acquire the site and develop 74 family affordable housing units; this is the final phase in a 150-unit combined, two phase project, and

WHEREAS, Phase II consists of nine, two-story wood framed buildings consistent with the Phase I design. As proposed, the anticipated Phase II unit mix includes (1) 1-BR/1-BA at 710 square feet, (52) 2-BR/1-BA each at 825 square feet, and (20) 3-BR/2-BA apartments each 1150 square feet, and

WHEREAS, the Developer's construction and operation of this development are not financially feasible without the City's financial assistance; it is therefore, recommended that the City transfers the Property to the Developer in accordance with the terms set forth in a Disposition and Development Agreement, to provide the Developer

with the Acquisition Loan, in consideration for the Developer's agreement to construct and operate the Development, and

WHEREAS, the amount of the Acquisition Loan provided pursuant to this Agreement does not exceed the amount of City's assistance necessary to make the Developer's acquisition of the Property and the construction and operation of the Development, as restricted by this Agreement, financially feasible, and

WHEREAS, in order to move forward with Phase II of the Project, the Developer needs additional time to secure non-City financing for Phase II, and

WHEREAS, this is crucial as the City's HOME funds cannot be committed to Phase II until all other funding sources have been secured, and

WHEREAS, a DDA is essential for EAH and Phase II of the project, and

WHEREAS, this agreement will show the City's commitment to the project and funding committed to the project and therefore allows EAH to leverage this funding with other sources of funding associated with the project, and

WHEREAS, the Phase II DDA is designed to grant the Developer an option to acquire the Property for a purchase price of One Million Three Hundred Eighty-One Thousand (\$1,381,000), which will be paid through a carry-back loan (the "Acquisition Loan"), and

WHEREAS, the purchase price was established in accordance with a third-party appraisal.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that a Disposition and Development Agreement with EAH Inc., a nonprofit housing

corporation, the transfer of a City-owned parcel on 9th street to EAH Inc. for the construction of 74 affordable multifamily units.

BE IT FURTHER RESOLVED that the City Manager or his designee is hereby authorized to execute any documents related to the Disposition and Development Agreement, in a form approved by the City Attorney.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 22nd day of January, 2019, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Ah You, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION APPROVING A CAPITAL FACILITIES FEES EXEMPTION AGREEMENT IN THE AMOUNT OF \$737,484, WITH EAH HOUSING, INC. FOR 74 SENIOR AND FAMILY UNITS, LOCATED AT 1101 CARVER ROAD, MODESTO, CA AND AUTHORIZING THE CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE THE AGREEMENT

WHEREAS, the City of Modesto Capital Facilities Fees (CFF) Program was established in 1989, and

WHEREAS, the current CFF Policies and Procedures state, with respect to very low and low income housing exemptions, the total number of housing exemptions granted are not to exceed two percent (2%) of the cumulative total CFF program housing units, and

WHEREAS, the CFF Policies and Procedures also allows an applicant to submit an application and request CFF be waived on new affordable units for households earning sixty (50%) or less of the Area Median Income, and

WHEREAS, since 1989, a total of 18,826 residential building permits have been issued of which 680 were granted CFF exemptions, and

WHEREAS, on December 4, 2018, EAH Housing, Inc. (EAH) submitted a CFF Exemption Application for its project located at 1101 Carver Road, Modesto (Project), and

WHEREAS, the Project will provide 74 senior and family units, and

WHEREAS, the Project will be affordable to low and very low income households and will have a fifty-five year affordability covenant, and

WHEREAS, staff reviewed EAH's CFF Exemption Application and found it complies with the CFF Policies & Procedures as all 74 units will be affordable to very low and low income households.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves a Capital Facilities Fees Exemption Agreement in the amount of \$737,484, with EAH, Housing Inc. for 74 Senior and Family Units, located at 1101 Carver Road, Modesto, CA.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to execute the Agreement, in a form approved by the City Attorney.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 22nd day of January, 2019, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Ah You, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2019-36**

**RESOLUTION APPROVING A MID-YEAR RATE ADJUSTMENT TO THE
MAXIMUM RATE SCHEDULE FOR CITY SOLID WASTE COLLECTION
SERVICES FOR AN INCREASE OF \$1.40 PER MONTH FOR RESIDENTIAL
SERVICES, \$2.38 PER CUBIC YARD PER MONTH FOR COMMERCIAL
SERVICES, AND \$22.79 PER PULL FOR INDUSTRIAL SERVICES
RETROACTIVE TO JANUARY 1, 2019, AND RESCINDING RESOLUTION NO.
218-475 FOR THE OCTOBER 1, 2018 QUARTERLY FUEL ADJUSTMENT**

WHEREAS, with the adoption of Ordinance No. 3068-C.S. in November of 1997, the City no longer sets rates for the collection of garbage in Modesto, and instead performs a comprehensive review of cost information submitted by the contract garbage haulers, and

WHEREAS, the City sets the maximum rate that the haulers may charge for the various types of services provided under the contracts based on cost data provided by the lowest cost hauler, and

WHEREAS, Section f (2) of the City's Service Agreements with its solid waste collectors requires that when the City makes adjustments to the collection services provided under the Agreements, any additional costs should be covered by adjustments to the maximum rates, and

WHEREAS, in addition, maximum rates for solid waste collection services are reviewed annually as per the Agreements with the City's garbage collection companies, and

WHEREAS, in June 2018, by Resolution No. 2018-242, Council approved the annual rate adjustment to the Maximum Rate Schedule for Solid Waste Services conducted by SCS Engineers, Inc. based on the haulers FY 15/16 audited financial statements, and

WHEREAS, during the rate hearing staff proposed a mid-year rate review utilizing the FY 16/17 audited financial statements with any adjustments to become effective January 1, 2019, and

WHEREAS, Council approved the proposal for a mid-year rate review by Resolution No. 2018-242, and

WHEREAS, Geer Road Landfill is jointly owned by the City of Modesto and Stanislaus County, and closure and post closure costs and maintaining financial assurances for the life of a closed landfill are the responsibility of the owners of the landfill. In order to ensure enough funds are available for continued and future post closure costs, the following fees are necessary: \$0.15 per household per month on residential rates, \$0.36 per cubic yard per month on commercial rates, and \$4.12 per pull on industrial rates, and

WHEREAS, as part of the Solid Waste Rate Study, an analysis was conducted to determine a methodology for charging for additional garbage and organics recycling containers. It was found that the actual cost of service for collection of an additional garbage container was \$13 per month, and the actual cost of service for collection of an organics recycling container was \$8 per month, and

WHEREAS, staff analyzed this and discussed this with the garbage collection companies, the decision was made to only charge the actual cost of service for each additional garbage container at \$13 per month for residential collection services, and \$8 per month for each additional organics recycling container for residential collection services, and

WHEREAS, in FY 96/97 the City of Modesto went to a solid waste collection system for residential customers of two 96-gallon containers; one for garbage and one for yard waste. At the rate review for July 1, 1996, by Resolution No. 96-375, Council

approved the Charges for Garbage Service rate sheet. The rate sheet specified that existing customers with 60-gallon containers prior to July 1, 1996 would pay the existing rates, however new sign-ups for service or changes to service after July 1, 1996 would be charged the standard container rate regardless of the size of container, and

WHEREAS, Resolution No. 96-375 was rescinded at the next rate review but the “grandfathered rates” remained on the newly approved rate sheet and have continued to remain on the Maximum Rate Schedule for Garbage Service since 1996, and

WHEREAS, during the Solid Waste Rate and Fee Study the validity of continuing this practice was put into question and staff committed to research this rate. During this research staff discovered that this rate was only intended to be a temporary way to assist existing customers through the transition of the new collection system and was not intended to remain in place for 22 years, and

WHEREAS, there are approximately 500 customers receiving the grandfathered rate, which is \$24.41 per month, a difference of \$9.50 from the current standard container rate, and

WHEREAS, staff is recommending all residential customers who have standard container service pay the same rate as set forth on **Attachment A**, pursuant to the intent of the original rate sheet in July 1996 and that there no longer be a grandfathered 60-gallon container rate, and

WHEREAS, in September 2007, under US EPA Region 9 grant the City implemented a voluntary commercial food waste pilot program. To encourage businesses to participate a 25% reduction off the Maximum Monthly Rates for Detachable Container services was approved. There were 24 businesses participating at that time. Currently, there are 15 businesses still receiving the 25% discount, and

WHEREAS, in 2015, State Assembly Bill 1826, the Mandatory Commercial Organics Recycling law, was passed requiring all businesses that produced eight yards of organic waste per week, and multi-family residences with five or more dwellings, recycle their organic waste. Each year the State has reduced the threshold as to who must comply with this law, and

WHEREAS, effective January 1, 2019, all businesses that produce four or more cubic yards of regular waste per week will have to recycling any organic waste they produce. This encompasses most of the City's businesses with commercial bin service. Staff is therefore recommending due to this mandatory law, that the 25% discount off the Maximum Monthly Rates for Detachable Containers be discontinued, and

WHEREAS, it was found and determined by the Council of the City of Modesto that the existing schedules of rates and charges for garbage service in the City of Modesto should be revised as recommended, and

WHEREAS, the fiscal impact related to the proposed adjustments for residential, commercial and industrial garbage and recycling services will increase revenue over the next six months to the Geer Road Landfill Fund by \$102,000, the General Fund by \$51,500, and the Streets Fund by \$24,000.

NOW, THEREFORE, BE IT RESOLVED, by the Council of the City of Modesto that it hereby approves the Maximum Charges for Garbage Services, as **attached** hereto, marked **Attachment A**, dated January 1, 2019, and incorporated herein by reference. Said Maximum Charges for Garbage Service shall include all other services as stipulated in the Service Agreements and shall become effective retroactive to January 1, 2019, and shall remain in effect until revised or rescinded by Council.

BE IT FURTHER RESOLVED, that Resolution No. 2018-475 for the October 1,

2018 quarterly fuel adjustment is hereby rescinded effective January 1, 2019.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 22nd day of January, 2019, by Councilmember Ridenour, who moved its adoption, which motion being duly seconded by Councilmember Grewal, was upon roll call carried and the resolution adopted by the following vote:

NOTATION: Pursuant to Section 11-6.16(c)(2) of the Modesto Municipal Code, the garbage company may require a deposit equivalent to two (2) months service charge from customers prior to beginning service. The deposit will be credited back to the customer after 18 months under specified conditions.

**MODESTO CITY COUNCIL
RESOLUTION NO. 2019-37**

RESOLUTION APPROVING THE USE OF RETIRED EMPLOYEE, JOHN BEAR ON A PART-TIME, AS NEEDED BASIS, FOR THE PURPOSES OF ASSISTING IN THE OVERSIGHT OF THE OPERATIONS OF THE ANIMAL CONTROL UNIT OF THE MODESTO POLICE DEPARTMENT

WHEREAS, the City requests authorization to utilize the services of retired annuitant John Bear on a part-time basis, and

WHEREAS, changes in the California Public Employee Retirement System (CalPERS), requires that a retiree serve a 180 day waiting period prior to being allowed to work for a CalPERS agency with the following exceptions, and

WHEREAS, pursuant to Government Code TITLE I. DIVISION 7. MISCELLANEOUS [6000.-7598.] CHAPTER 21. Public Pension Retirement Plans 7522.56(f)(1-4), section 7522.56 (f)(1) serves as the applicable exception for this request: “The employer certifies the nature of this employment and that the appointment is necessary to fill a critically needed position before 180 days has passed and the appointment has been approved by a governing body of the employer in a public meeting. The appointment may not be placed on a consent calendar.”, and

WHEREAS, CalPERS Publication 33 stipulates certain conditions must all be met in order for an appointment to move forward. These conditions are:

1. Appointee has specialized skills needed to perform work of limited duration or the employment is needed during an emergency to prevent stoppage of public business.
2. Temporary employment will not exceed 960 hours in a fiscal year (July 1st through June 30th).

3. The compensation cannot exceed the maximum monthly base salary paid to other employees performing comparable duties, divided by 173.333 to equal an hourly rate.

4. Retired annuitants cannot receive any benefit, incentive, compensation in lieu of benefits, or other form of compensation in addition to the hourly pay rate, and

WHEREAS, John Bear has worked for the City of Modesto for 18 years and possesses the expertise and skills necessary to alleviate any disruption to the operations of the Animal Control Unit, and

WHEREAS, given the knowledge and history with the City of Modesto, John Bear will assist in critical functions with the Animal Control Unit until such a time as vacancies can be filled, and

WHEREAS, the compensation will be on an hourly basis within the pay schedule of employees performing comparable duties, and cannot exceed the maximum monthly base salary paid to those employees. It will be calculated by dividing the monthly base pay by 173.333 to equal an hourly rate.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the use of retired employee, John Bear on a part-time, as needed basis, for the purposes of assisting in the oversight of the Animal Control Unit of the Modesto Police Department beginning February 5, 2019 through July 22, 2019.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 22nd day of January, 2019, by Councilmember Ridenour, who moved its adoption, which motion being duly seconded by Councilmember Ah You, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2019-38**

**RESOLUTION OF SUPPORT FOR FURLOUGHED U.S. GOVERNMENT
EMPLOYEES AND FEDERALLY FUNDED BUSINESSES PROVIDING THE
CITY MANAGER AUTHORITY TO TEMPORARILY SUSPEND LATE FEES
AND OTHER PENALTIES RESULTING FROM LATE PAYMENT OF UTILITY
FEES TO THE CITY OF MODESTO**

WHEREAS, it has recently come to the attention of the City Council, that certain U.S. Government employees who are currently furloughed, will not be receiving a second consecutive pay check, and some continue to work for free; and

WHEREAS, the City Council believed that a Federal solution to this critical issue would have been reached before the posting of the January 22, 2019 City Council Meeting Agenda, however, the City Council is presently informed that furloughed U.S. Government employees will continue to not be paid for the indefinite future; and

WHEREAS, the City Council recognizes that U.S. Government employees provide critical services within and in the surrounding areas of the City of Modesto; and

WHEREAS, the services provided to the City of Modesto by furloughed U.S. Government employees are of an essential nature, and are necessary to protect the health, safety, and welfare of all Modesto residents; and

WHEREAS, financial constraints placed upon furloughed U.S. Government employees, having not received two successive pay checks, may cause them to seek other employment; and

WHEREAS, the City of Modesto recognizes that furloughed U.S. Government employees are vital to providing the services that residents and businesses of the City of Modesto require; and

WHEREAS, the City of Modesto, as one of the City's utility providers, possesses the authority to temporarily stay late fees and other penalties resulting from utility usage, and wishes to do so for furloughed U.S. Government employees and federally funded businesses.

NOW THEREFORE, BE IT RESOLVED, the City Council of the City of Modesto hereby resolves as follows:

1. The City Manager is hereby authorized and directed to establish a policy to temporarily suspend late fees and other penalties including interruptions of service resulting from late payment of utility fees to the City of Modesto, to the extent provided by the Modesto Municipal Code and Charter, for those current U.S. Government employees and that have been and remain furloughed or unpaid.
2. This resolution shall remain in effect until the earlier of: (i) revocation by the City Manager following the resolution of the current partial Federal Government shutdown; (ii) after sixty (60) days; or (iii) upon the revocation of this resolution by the City Council.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 22nd day of January, 2019, by Councilmember Grewal, who moved its adoption, which motion being duly seconded by Councilmember Ridenour, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION NO. 2019-39**

RESOLUTION APPROVING THE REAPPOINTMENT OF PHILIP S. ANSELMO JR. TO THE DISABLED ACCESS APPEALS BOARD TO A SECOND FOUR-YEAR TERM, WITH A TERM EXPIRATION OF FEBRUARY 10, 2023

WHEREAS, Section 1102 of the Charter of the City of Modesto authorizes the City Council to appoint members to various Boards and Commissions, and

WHEREAS, the City Council approved, by Resolution Number 2015-34 , and the appointment of Philip S. Anselmo Jr. for the term ending February 10, 2019, and

WHEREAS, Philip S. Anselmo Jr. has expressed interest in continuing to serve as a member of the Disabled Access Appeals Board.

NOW, THEREFORE, BE IT RESOLVED, by the Council of the City of Modesto that it hereby approves the reappointment Philip S. Anselmo Jr. to the Disabled Access Appeals Board to a second four-year term, with a term expiration of February 10, 2023.

BE IT FURTHER RESOLVED, that City Clerk is hereby directed to transmit a copy of this resolution to the appointed member of the Disabled Access Appeals Board, and the Secretary thereof.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 5th day of February, 2019, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Madrigal, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION NO. 2019-40**

**RESOLUTION AWARDING \$189,600 IN COMMUNITY DEVELOPMENT
BLOCK GRANT FUNDS TO STANISLAUS COUNTY AFFORDABLE HOUSING
CORPORATION FOR THE ACQUISITION OF PROPERTY LOCATED AT 615
5TH STREET, MODESTO CA, AND AUTHORIZING THE CITY MANAGER OR
HIS DESIGNEE TO EXECUTE THE AGREEMENTS**

WHEREAS, the Program Year 2018-2019 Annual Action Plan's Community Development Block Grant (CDBG) budget includes funding for acquisition of Affordable Housing – Acquisition Activities, and

WHEREAS, the intent of this program is to allow the City to partner with local affordable housing providers to acquire properties, make any necessary site improvements, and achieve innovative, affordable, and safe residential housing solutions, while meeting the myriad of regulatory requirements associated with the federal entitlement funds that the City receives, and

WHEREAS, it has been documented that affordable housing is severely constrained and have been scarce in the current competitive housing market, and

WHEREAS, to assist with this shortage, the City works with local affordable housing providers to acquire and/or develop affordable housing units, using federal entitlement program funds such as CDBG and HOME, with the goal of supplementing affordable housing inventory within the City, and

WHEREAS, Stanislaus County Affordable Housing Corporation (STANCO) is seeking funding to acquire a 2 bedroom, 1-bath affordable rental housing unit on property located at 615 5th Street, Modesto CA 95351, and

WHEREAS, the subject property is adjacent to STANCO's existing Garden Gate Respite (GGR) project which provides short-term crisis housing for individuals with

known or suspected mental illness, who are at risk for homelessness, incarceration, victimization or psychiatric hospitalization, and

WHEREAS, the property will serve as an additional short-term transitional housing unit for the same population groups currently served at GGR, and

WHEREAS, this project will provide short-term affordable rental housing to individuals with incomes below 80% of the area median income.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the awarding of \$189,600 in Community Development Block Grant funds to Stanislaus County Affordable Housing Corporation for the acquisition of property located at 615 5th Street, Modesto CA.

BE IT FURTHER RESOLVED that the City Manager or his designee, is hereby authorized to execute the agreement.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 5th day of February, 2019, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Ah You, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION NO. 2019-41**

RESOLUTION AMENDING THE MULTI-YEAR PROJECT 101143 BUDGET TO ALLOCATE \$189,600 OF COMMUNITY DEVELOPMENT BLOCK GRANT FUNDS TO STANISLAUS COUNTY AFFORDABLE HOUSING CORPORATION FOR ACQUISITION ACTIVITIES AND \$5,000 FOR ELIGIBLE ACTIVITY DELIVERY COSTS AND AUTHORIZING THE CITY MANAGER, OR HIS DESIGNEE, TO TAKE THE NECESSARY STEPS TO IMPLEMENT THE PROVISIONS OF THIS RESOLUTION

WHEREAS, the City of Modesto receives annual entitlements from HUD based on its population size, number of households living below poverty level and number of sub-standard housing units, and

WHEREAS, the Program Year 2018-2019 Annual Action Plan's Community Development Block Grant (CDBG) budget includes funding for acquisition of Affordable Housing – Acquisition Activities, and

WHEREAS, Stanislaus County Affordable Housing Corporation (STANCO) is seeking funding to acquire a 2 bedroom, 1-bath affordable rental housing unit on property located at 615 5th Street, Modesto CA 95351, and

WHEREAS, STANCO is seeking funding to acquire the property to serve as an additional short-term transitional housing unit, and

WHEREAS, this project will provide short-term affordable rental housing to individuals with incomes below 80% of the area median income, and

WHEREAS, the Affordable Housing – Acquisition Project 101143, funded through the Community Development Block Grant Entitlement Funds, must be amended as shown in **Exhibit A**, which is incorporated by reference herein.

NOW, THEREFORE, BE IT RESOLVED, amending the multi-year project 101143 budget to allocate \$189,600 of Community Development Block Grant Funds to

Stanislaus County Affordable Housing Corporation for acquisition activities and \$5,000 for eligibility activity delivery costs as shown in **Exhibit A attached** hereto.

BE IT FURTHER RESOLVED, that the City Manager, or his designee, is hereby authorized to implement the provision of this resolution.

**MODESTO CITY COUNCIL
RESOLUTION NO. 2019-42**

RESOLUTION APPROVING A CITYWIDE PROFESSIONAL SERVICES AGREEMENT FOR SECURITY SERVICES, WITH UNIVERSAL PROTECTION SERVICE LP (DBA ALLIED UNIVERSAL SECURITY SERVICES), FOR A FIVE-YEAR AGREEMENT WITH TWO ONE-YEAR EXTENSION OPTIONS, FOR AN ESTIMATED ANNUAL COST NOT TO EXCEED \$741,230 FOR THE FIRST YEAR OF SERVICE, WITH ANNUAL INCREASES RANGING FROM THREE TO EIGHT PERCENT OVER THE SEVEN YEAR PERIOD, AND A TOTAL AMOUNT NOT TO EXCEED \$5,880,468, OVER SEVEN YEARS; AND A SECONDARY CITYWIDE PROFESSIONAL SERVICES AGREEMENT FOR SECURITY SERVICES WITH RANK INVESTIGATION & PROTECTION, INC. FOR A FIVE-YEAR AGREEMENT WITH TWO ONE-YEAR OPTIONS, FOR AN ESTIMATED ANNUAL COST NOT TO EXCEED \$112,378 FOR THE FIRST YEAR OF SERVICE, WITH ESTIMATED ANNUAL INCREASES RANGING FROM THREE TO EIGHT PERCENT OVER THE SEVEN YEAR PERIOD AND A TOTAL AMOUNT NOT TO EXCEED \$891,916, AUTHORIZING THE DIRECTOR OF FINANCE, OR HER DESIGNEE, TO ADJUST FINANCIAL AMOUNTS BETWEEN BOTH PROVIDERS WITHOUT EXCEEDING AN ESTIMATED ANNUAL COST OF \$853,608 AND OVERALL COST OF \$6,772,384, AND AUTHORIZING THE CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE THE AGREEMENTS

WHEREAS, Stanislaus County recently completed a competitive RFP process for security guard services, and

WHEREAS, based on being ranked highest in total evaluation criteria Stanislaus County Board of Supervisors, approved Board Action No. 2018-0587, authorizing the award of a Master Agreement to Universal Protection Service LP, doing business as Allied Universal Security Services, Stockton, CA, and

WHEREAS, by accessing the terms or “piggybacking”, City staff recommends the award of contract for the furnishing of security guard services for Citywide use to Allied Universal Security Services, San Jose, CA, and

WHEREAS, due to the emergency shelter crisis and homelessness declared on December 11, 2018 City staff recommends a secondary agreement be established to provide services, and

WHEREAS, based on informal process to evaluate service and rates, City staff recommends the award of secondary contract for the furnishing of security guard service to Rank Investigations and Protection, and

WHEREAS, Modesto Municipal Code (MMC), Section 8-3.203, generally requires all purchases, which meet or exceed \$50,000.00 for material, equipment or contractual services to be formally bid. MMC 8-3.204 (d), is available where the Purchasing Manager, in his discretion, determines that a process other than the usual formal bid procedure set forth in Section MMC 8-3.203 will result in procurement for the City at the lowest possible cost commensurate with the desired quality. MMC 8-3.202 (h) encourages the Purchasing Manager to join with the State of California and other units of government in cooperative purchasing plans when the best interest of the City would be served. In addition, MMC 8-3.204 (c) states “Where the Purchasing Manager, in his or her discretion, determines that calling for bids on a competitive basis as set forth in Section 8-3.203 is undesirable due to exigent circumstances”, and

WHEREAS, the furnishing of security guard services for Citywide use, conforms by accessing the terms of a competitively bid Master Agreement from Stanislaus County, Board Action No. 2018-0587, to Universal Protection Service LP, doing business as Allied Universal Security Services, Stockton, CA, conforms to code, and Rank conforms based on exigent circumstances, lower cost for armed services and proven quality of service.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the award of proposal for security services, with Universal Protection Service LP (dba Allied Universal Security Services), for a five-year Agreement with two one-year extension options, for an estimated annual cost not to exceed \$741,230 for the first year of service, with annual increases ranging from three to eight percent over the seven year period, and a total amount not to exceed \$5,880,468, over seven years; and a secondary agreement for security services with Rank Investigation & Protection, Inc. for a five-year Agreement with two one-year options, for an estimated annual cost not to exceed \$112,378 for the first year of service, with estimated annual increases ranging from three to eight percent over the seven year period and a total amount not to exceed \$891,916.

BE IT FURTHER RESOLVED, that the Director of Finance, or her designee, is hereby authorized to adjust financial amounts between both providers without exceeding an estimated annual cost of \$853,608 and overall cost of \$6,772,384.

BE IT FURTHER RESOLVED, that the City Manager, or his designee, is hereby authorized to execute the agreements, in a form approved by the City Attorney.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 5th day of February, 2019, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Ah You, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2019-43**

RESOLUTION APPROVING A LICENSE AGREEMENT WITH MODESTO ON ICE, LLC, A CALIFORNIA LIMITED LIABILITY COMPANY, TO OPERATE A SEASONAL ICE SKATING RINK, AND AUTHORIZING THE CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE THE LICENSE AGREEMENT

WHEREAS, the City determined the downtown would benefit from increased activity with the installation of a seasonal ice skating rink, and

WHEREAS, on October 29, 2015, the City entered into a License Agreement with Modesto on Ice, a California Limited Liability Company, to operate a seasonal ice skating rink, and

WHEREAS, the ice skating rink operated for four seasons on a portion of the Modesto Centre Parking lot located at the intersection of 11th and L Streets, and

WHEREAS, Modesto on Ice contributed approximately \$20,000 in improvements on the lot, and

WHEREAS, the City waived rental fees for the use of the Modesto Centre Plaza parking lot, and

WHEREAS, the License Agreement expired on January 31, 2019, and

WHEREAS, the City and Modesto on Ice desire to enter into a new License Agreement for five seasons starting on November 5, 2019 through January 31, 2024, and

WHEREAS, each season will commence on the first Tuesday of November and end on January 31st, and

WHEREAS, Modesto on Ice will pay rental fees for use of the southeast corner of the Modesto Centre Plaza parking lot.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves a License Agreement with Modesto on Ice, LLC, a California Limited Liability Company.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is authorized to execute the License Agreement, in a form approved by the City Attorney.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 5th day of February, 2019, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Ah You, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION NO. 2019-44**

**RESOLUTION REJECTING ALL BIDS RECEIVED FOR REQUEST FOR BID
(RFB) NO. 1819-08 FOR LED INFORMATION SIGNS, AND AUTHORIZING
STAFF TO REISSUE THE RFB AT A FUTURE DATE**

WHEREAS, the Transit Division and Fleet Division required a contractor to install two 3'x8' 12 mm RGB full color video display information signs at the City's Bus Maintenance Facility, and

WHEREAS, the City Manager authorized the Transit and Fleet Divisions to issue a Request for Bids (RFB) for LED Information signs. On September 10, 2018, they issued RFB No. 1819-08 on the City's website, and on October 9, 2018, bids closed and were opened in the City Clerk's Office, and

WHEREAS, after reviewing the bids received and bid packages, it was determined that the bid documents did not contain all of the required Federal Transit Administration (FTA) clauses and the Independent Cost Estimate (ICE) was not completed, and

WHEREAS, in the Best Practices Procurement and Lessons Learned Manual, it states that the City must include all Federal clauses in any FTA related procurements, and

WHEREAS, the City and its Contractor must comply with various Federal laws and regulations that apply to FTA funded procurements, including a completed ICE form required by the FTA, and

WHEREAS, the ICE is a tool to assist in determining the reasonableness or unreasonableness of the bid or proposal being evaluated and is required for all procurements regardless of dollar amount, and

WHEREAS, for these reasons, staff believes it is in the City's best interest to

reject all bids received under RFB No. 1819-08, and

WHEREAS, staff will work on updating the bid documents to include all required FTA clauses and a completed ICE, and it's the intention of staff to issue a new RFB with the required item and release a new bid in February 2019.

NOW THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby rejects all bids received for Request for Bid No. 1819-08 for LED Information Signs and authorizes staff to reissue the RFB at a future date.

**MODESTO CITY COUNCIL
RESOLUTION NO. 2019-45**

RESOLUTION APPROVING A PROFESSIONAL SERVICES AGREEMENT WITH GEORGE OSNER, AICP, SAN ANSELMO, CA, FOR ON-CALL ENVIRONMENTAL PLANNING SUPPORT SERVICES FOR AN ANNUAL COST NOT TO EXCEED \$45,000, WITH TWO ONE-YEAR EXTENSION OPTIONS, AT THE CITY'S DISCRETION, FOR A TOTAL AMOUNT NOT TO EXCEED \$135,000 AND AUTHORIZING THE CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE THE AGREEMENT

WHEREAS, the Utilities Department will require environmental planning support services related to Capital Improvement Projects that may be beyond staff's ability to efficiently accomplish, and

WHEREAS, retaining an on-call consultant will allow the Department to have quick access to specific environmental planning support services when needed to ensure that complex California Environmental Quality Act (CEQA) documentation is completed thoroughly and filed correctly with State and local agencies, and

WHEREAS, George Osner, AICP, a former planner for the City, has demonstrated the ability to provide quality service in a timely manner on past and current projects, and

WHEREAS, Mr. Osner is familiar with the City's existing infrastructure, policies, and personnel, and has an in-depth knowledge of CEQA requirements, and

WHEREAS, the existing Agreement for On-Call Environmental Planning Support Services with Mr. Osner, that was approved by Council October 27, 2015, by Resolution No. 2015-405 expired October 27, 2018, and

WHEREAS, in accordance with Modesto Municipal Code 8-3.204(a), "Exceptions to Formal Bidding Requirements," agreements for professional services are exempt from the bidding requirements of Modesto Municipal Code 8-3.203.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves an Agreement with George Osner, AICP for On-Call Environmental Planning Support Services for an annual cost not to exceed \$45,000, with two one-year extension options, at the City's discretion, for a total amount not to exceed \$135,000.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to execute the agreement, in a form approved by the City Attorney.

**MODESTO CITY COUNCIL
RESOLUTION NO. 2019-46**

RESOLUTION APPROVING THE FIRST AMENDMENT INCREASING THE AGREEMENT AMOUNT WITH GROVER LANDSCAPE SERVICES, INC., MODESTO, CA, FOR LANDSCAPE SERVICES BY \$1,253,264, FROM \$8,331,208 TO A NEW TOTAL AMOUNT OF \$9,584,472, FOR SITE CHANGES, ADDITIONAL REPAIRS AND SERVICE LEVEL INCREASES AND AUTHORIZING THE CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE THE AMENDMENT

WHEREAS, on October 25, 2016, by Resolution No. 2016-436, Council awarded the bid and five-year agreement for Landscape Maintenance Services to Grover Landscape Services, Inc. for Parks, Right Of Ways and Public Landscaping owned and/or maintained by the City of Modesto for a total amount of \$8,352,935, and

WHEREAS, in November 2017, the City undertook a comprehensive review of all Agreements made with and by the City, and

WHEREAS, several issues were discovered pertaining to the Grover Landscaping agreement, and

WHEREAS, City and Grover desire to amend the agreement to correct cost totals and expand the list of sites to be serviced annually; set an annual spending limit for irrigation repairs and miscellaneous work assignments; and including services for unanticipated repairs or extra work.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the First Amendment increasing the agreement amount with Grover Landscape Services, Inc., Modesto, CA, for landscape services by \$1,253,264, from \$8,331,208 to a new total amount of \$9,584,472, for site changes, additional repairs and service level increases.

BE IT FURTHER RESOLVED, that the City Manager or his designee is authorized to execute the Agreement, in a form approved by the City Attorney.

**MODESTO CITY COUNCIL
RESOLUTION NO. 2019-47**

**RESOLUTION APPROVING A DEVELOPMENT PLAN FOR PLANNED
DEVELOPMENT ZONE, P-D(606)**

WHEREAS, a verified application for an amendment to Section 11-3-8 of the Zoning Map was filed by NRB Investments LLC on September 11, 2018, to reclassify from Low Density Residential Zone, R-1, and Medium High Density Residential Zone, R-3, to Planned Development Zone, P-D(606) to allow the development of a small lot single-family residential subdivision, property located west of Dale Road and north of Vintage Faire Mall, described as follows:

R-1 to P-D

All that certain real property situate in the City of Modesto, County of Stanislaus, State of California, lying within the Northeast Quarter of Section 11, Township 3 South, Range 8 East, Mount Diablo Meridian, described as follows:

All that portion of Parcel 2 as shown on that map filed in the Office of the Recorder of the County of Stanislaus on May 10, 2018 in Book 57 of Parcel Maps at Page 76, being more particularly described as follows:

Beginning at the South corner common to Parcels 2 and 3 as shown on said Parcel Map; thence South 89°25'29" West along the South line of said Parcel 2, a distance of 136.00 feet; thence North 00°19'12" West, a distance of 602.45 feet to a point on the North line of said Parcel 2; thence North 89°17'47" East along last said North line, a distance of 161.00 feet to the Northeast corner of said Parcel 2, also being a point on the West line of said Parcel 3; thence South along the dividing line between said Parcels 2 and 3, the following six (6) courses:

1. South 00°19'12" East, a distance of 451.28 feet to a point of curvature of a tangent curve, concave northeasterly and having a radius of 40.00 feet; thence
2. Southerly along the arc of said curve. Through a central angle of 35°39'33", an arc distance of 24.89 feet to a point of reverse curvature, concave southwesterly and having a radius of 40.00 feet of which the radius point bears South 54°01'15" West; thence

3. Southerly along the arc of said curve, through a central angle of 35°39'33", an arc distance of 24.89 feet; thence
4. South 00°19'12" East, a distance of 40.00 feet to a point of curvature of a tangent curve, concave northwesterly and having a radius of 40.00 feet; thence
5. Southwesterly along the arc of said curve, through a central angle of 90°00'00", an arc distance of 62.83 feet; thence
6. South 00°19'12" East, a distance of 25.00 feet to the point of beginning.

Containing 2.24 acres gross, more or less.

Subject to all easements and/or rights of way of record.

R-1 to P-D

All that certain real property situate in the City of Modesto, County of Stanislaus, State of California, lying within the Northeast Quarter of Section 11, Township 3 South, Range 8 East, Mount Diablo Meridian, described as follows:

Parcel 3 as shown on that map filed in the Office of the Recorder of the County of Stanislaus on May 10, 2018 in Book 57 of Parcel Maps at Page 76.

Containing 7.18 acres gross more or less.

Subject to all easements and/or rights of way of record.

WHEREAS, after a public hearing held on December 3, 2018, in the Tenth Street Place Chambers located at 1010 Tenth Street, Modesto, California, it was found and determined by the Planning Commission, by its Resolution No. 2018-16, that rezoning of the property as requested will not be detrimental to the public health, safety or welfare because the rezone to a Planned Development to allow for a small-lot residential subdivision would provide for development that meets City Standards for a medium density residential development, the requested zone change will result in an orderly planned use of land because a residential subdivision will be compatible with the

residential uses adjacent to the site, and the requested zone change is in accordance with the community objectives as set forth in the Modesto Urban Area General Plan and any applicable specific plans(s) because the allowable uses of the Planned Development Zone, P-D(606) is consistent with the General Plan Land Use Designation of “Mixed Use” which allows for medium density residential uses, and

WHEREAS, said matter was set for a public hearing of the City Council to be held on February 5, 2019, in the Tenth Street Place Chambers located at 1010 Tenth Street, Modesto, California, at which date and time said duly noticed public hearing was held, and

WHEREAS, after said public hearing the Council found and determined that the application of NRB Investments LLC for a Planned Development Zone will not be detrimental to the public health, safety or welfare, will result in an orderly planned use of land, and is in accordance with the community objectives as set forth in the Modesto Urban Area General Plan and any applicable specific plans(s) for the reasons set forth in Planning Commission Resolution No. 2018-16 and quoted above, and

WHEREAS, the Council has introduced Ordinance No. 3692-C.S. on the 5th day of February, reclassifying the above-described property from Low Density Residential Zone R-1, and Medium High Density Residential Zone, R-3, to Planned Development Zone, P-D(606).

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto as follows:

1. DEVELOPMENT PLAN. The development plan for Planned Development Zone, P-D(606), is hereby approved subject to the following conditions:

1. Prior to the issuance of a building permit, all development shall conform to the Development Plan and building elevations titled "The Trails at Vintage" stamped approved by the City Council.
2. Prior to the issuance of a building permit for any residential lot within the development plan for The Trails at Vintage, a Final Map for The Trails at Vintage subdivision shall be recorded.
3. Prior recordation of a Final Map, new street names for "Street A" and "Court A" shall be proposed and approved by both the City and the County.
4. At the time of building permit application, any future expansion to homes, via patio covers or other structural additions and/or accessory buildings, shall submit plans for administrative amendment review and approval by the Director of Community and Economic Development or designee in accordance to Modesto Municipal Code Section 10-7.108(c), and lot coverage shall not exceed that as provided by the Medium Density Residential (R-2) Zone.
5. Garages that are proposed to be sited at a minimum distance of eighteen (18) feet from the front property line shall maintain a minimum setback of twenty (20) feet from the back of sidewalk.
6. Any public improvements that are missing damaged or not to current City standards shall be designed per City standards in accordance with City Code (Article 7-1.701), standards and specifications. Such improvements may include, but not be limited to curb & gutter, drive approach, sidewalk, ADA access ramps, fire hydrants and street lights. All public improvement plans shall be designed by a Registered Engineer, reviewed and approved by the City Engineer prior to issuance of an Encroachment permit.
7. Improvement plans for required improvements shall be prepared by a Registered Civil Engineer and submitted for approval by the City Engineer. The improvement plans shall include but not be limited to the following:
 - a. Right-of-Way addition and associated improvements such as curb and gutter, ADA access ramps, fire hydrants and street lights for Landmark Circle, "Street A" and "Court A";
 - b. The 20-foot wide emergency vehicle access/pedestrian access between "Court A" and Vintage Drive;
 - c. Landscaping and irrigation plans for all street improvements, the emergency vehicle/pedestrian access and the three landscaped lots (Lots A, B and C) as shown on the tentative map;

- d. Installation of speed humps on Vintage Drive in the vicinity of the emergency vehicle access.
8. Storm drainage calculations showing tributary area and elevations, runoff amounts, storage method and volumes, percolation and other geotechnical information, storm water pollution management, and other required information per City Standards shall be submitted to City staff for review prior to approval of the improvement plans.
9. Prior to certificate of occupancy for the first building, the proposed block wall between homes and the adjacent commercial zone shall be constructed as an eight-foot high decorative masonry wall with cap treatment in accordance to City Standards. Where the wall is visible from the south side of Vintage Drive at the landscape lot, the planting of vines along the wall shall be incorporated into the landscape design to discourage tagging.
10. Prior to certificate of occupancy for the first building, a six-foot high decorative masonry wall with cap treatment shall be installed along the residential property lines adjacent to Landscape Lot B as shown on the Development Plan, with climbing vines to discourage tagging.
11. Prior to the issuance of a Grading, Demolition, or Building Permit, Developer shall submit improvement plans conforming to design requirements of the most current edition of the City of Modesto Guidance Manual for Development, Stormwater Quality Control Measures and the City of Modesto Municipal Code.
12. Prior to the issuance of a Grading, Demolition, or Building Permit, Developer shall submit a plan to integrate Low Impact Development (LID) principles into the project design. The plan shall retain, treat, and infiltrate the first 0.5” of stormwater runoff on site, and incorporate pervious landscape features into the project design wherever possible.
13. Prior to the issuance of a Grading, Demolition, or Building Permit, Developer shall submit a plan to provide permanent, post-construction treatment (grass swale, bioretention, vegetative strip, or other approved proprietary device) to remove pollutants from the first 0.5” of stormwater run-off from site.
14. Prior to the issuance of a Grading, Demolition, or Building Permit, Property Owner shall provide a signed and notarized Stormwater Treatment Device Access and Maintenance Agreement to Land Development Engineering, Stormwater for recording.
15. Prior to the issuance of a Grading, Demolition, or Building Permit, Property Owner shall obtain coverage for project under the State Water Resources

Control Board (SWRCB) General Permit for Stormwater Discharges Associated with Construction and Land Disturbance Activities Order No. 2009-0009-DWQ, National Pollutant Discharge Elimination System (NPDES) General Permit No. CAS000002, as amended by 2010-0014-DWQ and 2012-0006-DWQ.

16. The Construction General Permit requires the Property Owner to develop a Stormwater Pollution Prevention Plan (SWPPP) for the project. The SWPPP shall include a description of all erosion, sediment, and pollution control BMPs to be used at the construction or demolition site to prevent sediment and other sources of pollution from entering the City storm drain system as well as a site plan showing their placement. Prior to issuance of a Grading, Demolition, or Building Permit, provide one paper copy of SWPPP to Land Development Engineering, Stormwater.
17. Speed humps shall be designed in accordance to City Standards to accommodate the travel of fire department apparatus without impact to emergency response times.
18. Public or street hydrants for residential areas are required at the designated distribution and spacing of 500' on center.
19. Fire hydrants and apparatus access roads must be installed and in working order for use prior to the start of building construction.
20. Proposed development designs shall comply with building codes adopted by the City of Modesto at time of building permit application, and be "wet" stamped by engineer.
21. In advance of house designs, design roof areas of the proposed Single-Family Dwellings to comply with mandated "Solar Ready" roof areas dedicated to solar panel installations. Refer to current requirements, 2016 Title 24 Residential Building Energy Efficiency Standards, Section 110.10 for further information.
22. Applicant shall submit Landscape and Irrigation plans for review and approval by the City's Parks Planning and Development Division. L&I plans shall meet current State of California water use requirements, MMC requirements and City of Modesto standards at time of submittal.
23. Applicant shall provide a minimum ten foot (10') landscape setback along Vintage Drive at Landscape Lots A and B and at Lot C along Landmark Circle and "Street A".

24. Applicant shall provide street trees along Vintage Drive. Tree shall be spaced thirty five (35') feet on center and located within seven feet (7') of the sidewalk or curb.
25. Applicant shall provide landscape and irrigation for Lots A, B, and C as well as parkway on south side of Vintage Drive.
26. LID control and treatment measures shall be vegetated for erosion protection and sediment entrapment to collect/treat storm water run-off before entering the storm drain system. Storm drainage basins shall be appropriately landscaped and irrigated to address the specific type of storm water control measure.
27. The project shall be subject to all conditions, requirements and recommendations from all other affected departments/agencies, provided on the **attached** reports/memorandums.
28. All existing underground and aboveground utilities, irrigation, and electrical lines shall be protected, relocated, or removed as required by the City Engineer or designee. Easements for utilities, irrigation, and electrical lines to remain shall be reserved as required.
29. All landscaping, fences, and walls shall be maintained and the premises shall be kept free of weeds, trash, and other debris.
30. At the time of issuance of a building permit, the developer shall pay development impact fees at the established rate. Such fees may include but are not limited to, sewer and water connection fees, community facility fees, building permit and plan check fees.
31. Prior to Certificate of Occupancy for any structure, cable television service shall be stubbed into all units.
32. Prior to start of construction, all-weather, hard-surfaced roadways shall be constructed and maintained free of obstructions at all times during construction as required by Director of Community and Economic Development.
33. The property owner and developer shall, at their sole expense, defend, indemnify and hold harmless the City of Modesto, its agents, officers, directors and employees, from and against all claims, actions, damages, losses, or expenses of every type and description, including but not limited to payment of attorneys' fees and costs, by reason of, or arising out of, this development approval. The obligation to defend, indemnify and hold harmless shall include but is not limited to any action to arbitrate, attack, review, set aside, void or annul this development approval on any grounds

whatsoever. The City of Modesto shall promptly notify the developer of any such claim, action, or proceeding and shall cooperate fully in the defense.

In addition, the following recommended Conditions of Approval are mitigation measures from the Modesto Urban Area General Plan Master Environmental Impact Report that shall be applied to the project:

34. All disturbed areas, including storage piles, which are not being actively utilized for construction purposes, shall be effectively stabilized of dust emissions using water, chemical stabilizer/suppressant, covered with a tarp or other suitable cover or vegetative ground cover.
35. All on-site unpaved roads and off-site unpaved access roads shall be effectively stabilized of dust emissions using water or chemical stabilizer/suppressant.
36. All land clearing, grubbing, scraping, excavation, land leveling, grading, cut & fill, and demolition activities shall be effectively controlled of fugitive dust emissions utilizing application of water or by presoaking.
37. When materials are transported off-site, all material shall be covered, or effectively wetted to limit visible dust emissions, and at least six inches of freeboard space from the top of the container shall be maintained.
38. All operations shall limit or expeditiously remove the accumulation of mud or dirt from adjacent public streets at the end of each workday. (the use of dry rotary brushes is expressly prohibited except where preceded or accompanied by sufficient wetting to limit the visible dust emissions.) (Use of blower devices is expressly forbidden.)
39. Following the addition of materials to, or the removal of materials from, the surface of outdoor storage piles, said piles shall be effectively stabilized of fugitive dust emissions utilizing sufficient water or chemical stabilizer/suppressant.
40. Within urban areas, track out shall be immediately removed when it extends 50 or more feet from the site and at the end of each workday.
41. Any site with 150 or more vehicle trips per day shall prevent carryout and track out.

The following measures should be implemented at construction sites when required to mitigate significant PM10 impacts (note, these measures are to be implemented in addition to Regulation VIII requirements):

42. Limit traffic speeds on unpaved roads to 15 mph; and
43. Install sandbags or other erosion control measures to prevent silt runoff to public roadways from sites with a slope greater than one percent (1%).
44. Install wheel washers for all exiting trucks, or wash off all trucks and equipment leaving the site.
45. Install wind breaks at windward side(s) of construction areas.
46. Suspend excavation and grading activity when winds exceed 20 mph. Regardless of windspeed, an owner/operator must comply with Regulation VIII's 20 percent (20%) opacity limitation.
47. Limit the area subject to excavation, grading and other construction activity at any one time.
48. The project shall comply with the City's noise ordinance. Construction equipment and vehicles should be equipped with properly operating mufflers according to the manufacturers' recommendations. Air compressors and pneumatic equipment should be equipped with mufflers, and impact tools should be equipped with shrouds or shields. Equipment that is quieter than standard equipment should be utilized. Haul routes that affect the fewest number of people should be selected.
49. Prior to excavation and construction, the prime construction contractor and any subcontractors shall be cautioned on the legal and/or regulatory implications of knowingly destroying cultural resources or removing artifacts, human remains, bottles, or other cultural materials from the project area.
50. The project sponsor shall identify a qualified archeologist prior to any demolition, excavation, or construction. The City will approve the project sponsor's selection of a qualified archeologist. The archeologist would have the authority to temporarily halt excavation and construction activities in the immediate vicinity (ten-meter radius) of a find if significant or potentially significant cultural resources are exposed and/or adversely affected by construction operations.
51. Reasonable time shall be allowed for the qualified archeologist to notify the proper authorities for a more detailed inspection and examination of the exposed cultural resources. During this time, excavation and construction would not be allowed in the immediate vicinity of the find; however, those activities could continue in other areas of the project site.

52. If any find is determined to be significant by the qualified archeologist, representatives from the construction contractor and the City, the qualified archeologist, and a representative of the Native American community (if the discovery is an aboriginal burial) would meet to determine the appropriate course of action.
53. All cultural materials recovered as part of a monitoring program would be subject to scientific analysis, professional curation, and a report prepared according to current professional standards.
54. Construction activities shall comply with the requirements of the City's Storm Water Management Plan under its municipal NPDES stormwater permit, and the State Water Resources Control Board's General Permit for Discharges of Storm Water Associated with Construction Activity.

2. DEVELOPMENT SCHEDULE. The following development schedule is hereby approved for said Planned Development Zone, P-D(606):

The entire construction program be accomplished in one phase, construction to begin on or before February 5, 2021, and completion to be not later than February 5, 2023.

3. CHANGES IN DEVELOPMENT PLAN. Any changes in the above approved development plan shall be made in accordance with the provisions of Section 10-7.108 of the Modesto Municipal Code.

4. COMPLIANCE WITH CODE PROVISIONS, ETC. In all other respects said planned development shall be accomplished in accordance with and in strict adherence to the provisions of Article 1 of Chapter 7 of Title 10 of the Modesto Municipal Code relating to Planned Development Zones and other applicable City laws, rules, regulations and procedures.

5. EFFECTIVE DATE. This resolution shall not become effective unless and until the ordinance reclassifying the above-described property to Planned Development Zone, P-D(606), becomes effective.

BE IT FURTHER RESOLVED that the conditions of project approval set forth herein include certain fees, dedication requirements, reservations requirements, and other exactions, and that pursuant to Government Code Section 66020(d)(1), these conditions constitute written notice of a statement of the amount of such fees, and a description of the dedications, reservations, and other exactions.

BE IT FURTHER RESOLVED that the applicant is hereby further notified that the ninety (90) days approval period in which a protest of these fees, dedications, reservations, and other exactions, pursuant to Government Code Section 66020(a) can be filed, begins on the 5th day of February, 2019, and that if a protest is not filed within this ninety (90)-day period complying with all of the requirements of Section 66020, the applicant will be legally barred from later challenging such exactions.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 5th day of February, 2019, by Councilmember Ah You, who moved its adoption, which motion being duly seconded by Councilmember Madrigal, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Ah You, Grewal, Kenoyer, Madrigal, Ridenour, Zoslocki, Mayor Brandvold

**MODESTO CITY COUNCIL
RESOLUTION NO. 2019-48**

RESOLUTION FINDING THAT THE FOLLOWING SUBSEQUENT PROJECT IS WITHIN THE SCOPE OF THE PROJECT COVERED BY THE MODESTO URBAN AREA GENERAL PLAN MASTER ENVIRONMENTAL IMPACT REPORT (SCH NO. 2007072023): REZONE FROM LOW DENSITY RESIDENTIAL (R-1) ZONE AND MEDIUM HIGH DENSITY RESIDENTIAL (R-3) ZONE, TO PLANNED DEVELOPMENT ZONE, P-D(606) PROPERTY LOCATED WEST OF DALE ROAD, NORTH OF VINTAGE FAIRE MALL

WHEREAS, on October 14, 2008, the City Council of the City of Modesto certified the Final Master Environmental Impact Report (“Master EIR”) (SCH No. 2007072023) for the Modesto Urban Area General Plan, and

WHEREAS, NRB Investments LLC has proposed a rezone of 9.42 acres from Low Density Residential (R-1) Zone and Medium High Density Residential (R-3) Zone to Planned Development Zone P-D(606) to allow for a small-lot single-family residential subdivision, and

WHEREAS, pursuant to Section 21157.1 of the Public Resources Code, the City of Modesto’s Community & Economic Development Department prepared an Environmental Assessment Initial Study EA/C&ED 2018-26 (“Initial Study”) which analyzed whether the subsequent project may cause any significant effect on the environment that was not examined in the Master EIR and whether the subsequent project was described in the Master EIR as being within the scope of the report, and

WHEREAS, in accordance with CEQA guidelines beginning on January, 16, 2019, the City caused to be published a 20-day notice of the City’s intent to make a finding that the subsequent project conforms with the Master EIR, and

WHEREAS, said matter was considered by the City Council at a duly noticed public hearing which was held on February 5, 2019, at 5:30 p.m., in the Tenth Street Place Chambers located at 1010 Tenth Street, Modesto, California.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council has reviewed and considered the Initial Study prepared for the proposed rezone, a copy of which is **attached** hereto as **Exhibit "A"**, and incorporated herein by reference, and based on substantial evidence in the Initial Study makes the following findings:

1. An Initial Study was prepared by the City of Modesto that analyzed whether the subsequent project may cause any significant effect on the environment that was not examined in the Master EIR and whether the subsequent project was described in the Master EIR as being within the scope of the report.
2. The subsequent project will have no additional significant effect on the environment, as defined in subdivision (d) of Section 21158 of the Public Resources Code, that was not identified in the Master EIR.
3. No new or additional mitigation measures or alternatives are required.
4. The subsequent project is within the scope of the project covered by the Master EIR.
5. All applicable policies, regulations, and mitigation measures identified in the Master EIR have been applied to the subsequent project or otherwise made conditions of approval of the subsequent project.
6. No substantial changes have occurred with respect to the circumstances under which the Master EIR was certified, and no new information, which was not known and could not have been known at the time that the Master EIR was certified as complete, has become available.

BE IT FURTHER RESOLVED by the Council of the City of Modesto that the Community & Economic Development Director is hereby authorized and directed to file a notice of approval or determination within five (5) business days with the Stanislaus County Clerk pursuant to Section 21152 of the Public Resources Code.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 5th day of February, 2019, by Councilmember Ah You, who moved its adoption, which motion being duly seconded by Councilmember Madrigal, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Ah You, Grewal, Kenoyer, Madrigal, Ridenour, Zoslocki, Mayor Brandvold

City of Modesto

Master EIR Initial Study Environmental Checklist

I. PURPOSE

CEQA allows for the limited environmental review of subsequent projects under the City's Master Environmental Impact Report ("Master EIR" or "MEIR"). This Initial Study Environmental Checklist ("Initial Study") is used in determining whether the proposed rezone to Planned Development and tentative subdivision map ("Project") is "within the scope" of the project analyzed in the Modesto Urban Area General Plan Master EIR (SCH# 2007072023) (Public Resources Code section 21157.1). When the Initial Study supports this conclusion, the City will issue a finding of conformance.

A subsequent project is "within the scope" of the Master EIR when:

1. it will have no additional significant effects on the environment that were not addressed as significant effects in the Master EIR; and
2. no new or additional mitigation measures or alternatives are required.

"Additional significant effects" means a project-specific effect that was not addressed as a significant effect in the Master EIR. [Public Resources Code Section 21158(d)]

The determination must be based on substantial evidence in the record. "Substantial evidence" means facts, reasonable assumptions predicated upon facts, or expert opinion based on facts. It does not include speculation or unsubstantiated opinion. (CEQA Guidelines Section 15384)

II. PROJECT DESCRIPTION

- A. Title: PDZ-18-001/TSM-18-002: The Trails at Vintage--Rezone of 8.9 Acres from Low Density Residential (R-1) Zone and Medium-High Density (R-3) Zone to Planned Development (P-D) Zone, with Vesting Tentative Subdivision Map for 73 Single Family Residential Lots and Three Landscape Lots
- B. Address or Location: Future Vintage Drive, west of Dale Road and north of Vintage Faire Mall
- C. Applicant: NRB Investments, LLC; 1701 W. March Lane, Suite D; Stockton, CA 95207
- D. City Contact Person: Katharine Martin, Associate Planner

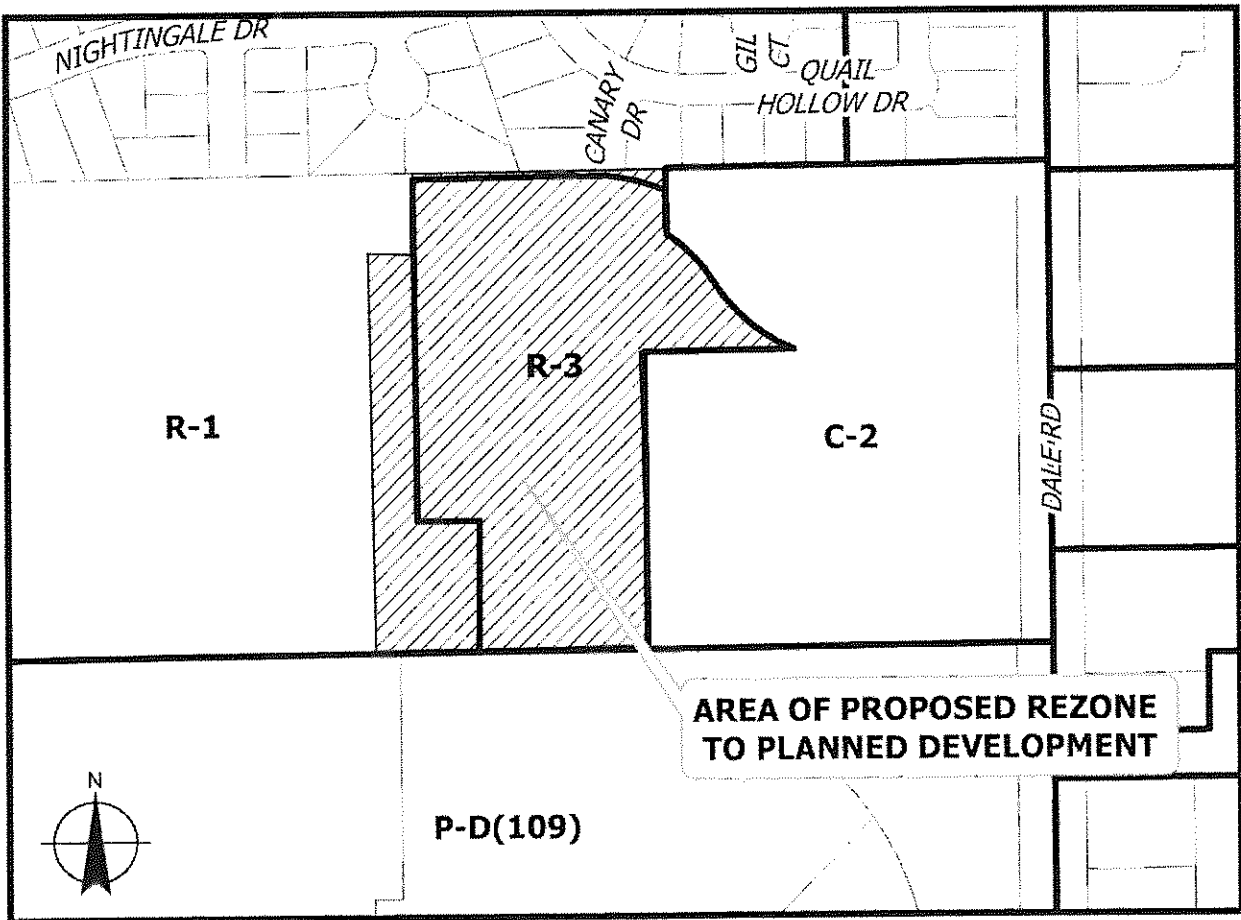

Project Manager: Katharine Martin
Department: Community and Economic Development, Planning Division
Phone Number: 209-577-5465
E-mail address: kamartin@modestogov.com

- E. Current General Plan Designation(s): Mixed Use (MU)
- F. Current Zoning Classification(s): R-3, Medium High Density Residential
- G. Surrounding Land Uses:
North: Low Density Residential (R-1) Zone, Single-Family Residential uses

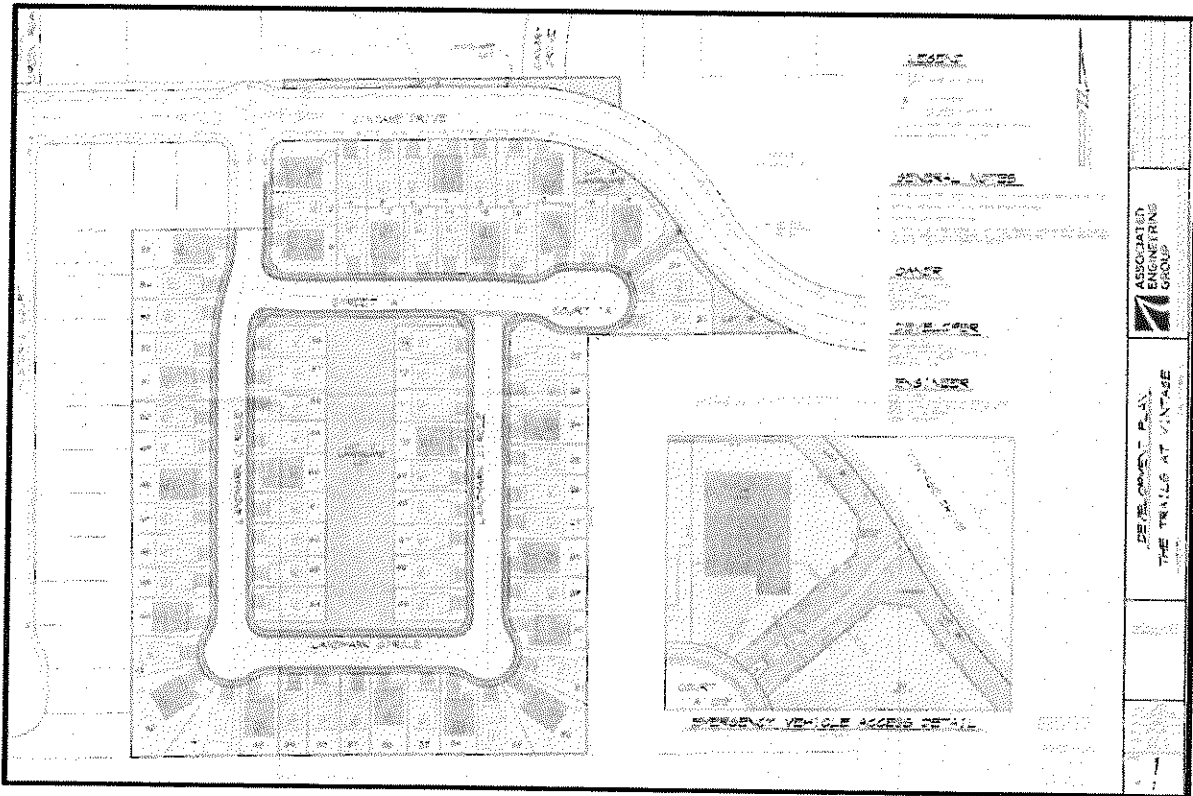

South: Planned Development Zone P-D(109), Vintage Faire Mall
 East: Planned Development Zone P-D(399), Vintage Faire Convalescent Hospital;
 Professional Office (P-O) Zone, Vacant Land
 West: Low Density Residential (R-1) Zone, Single-Family Residential uses; Planned
 Development Zone P-D(166), Residential Condominiums

H. Project Description, including the project type listed in Section II.C (Anticipated Future Projects) of the Master EIR (Attach additional maps/support materials as needed for complete record):

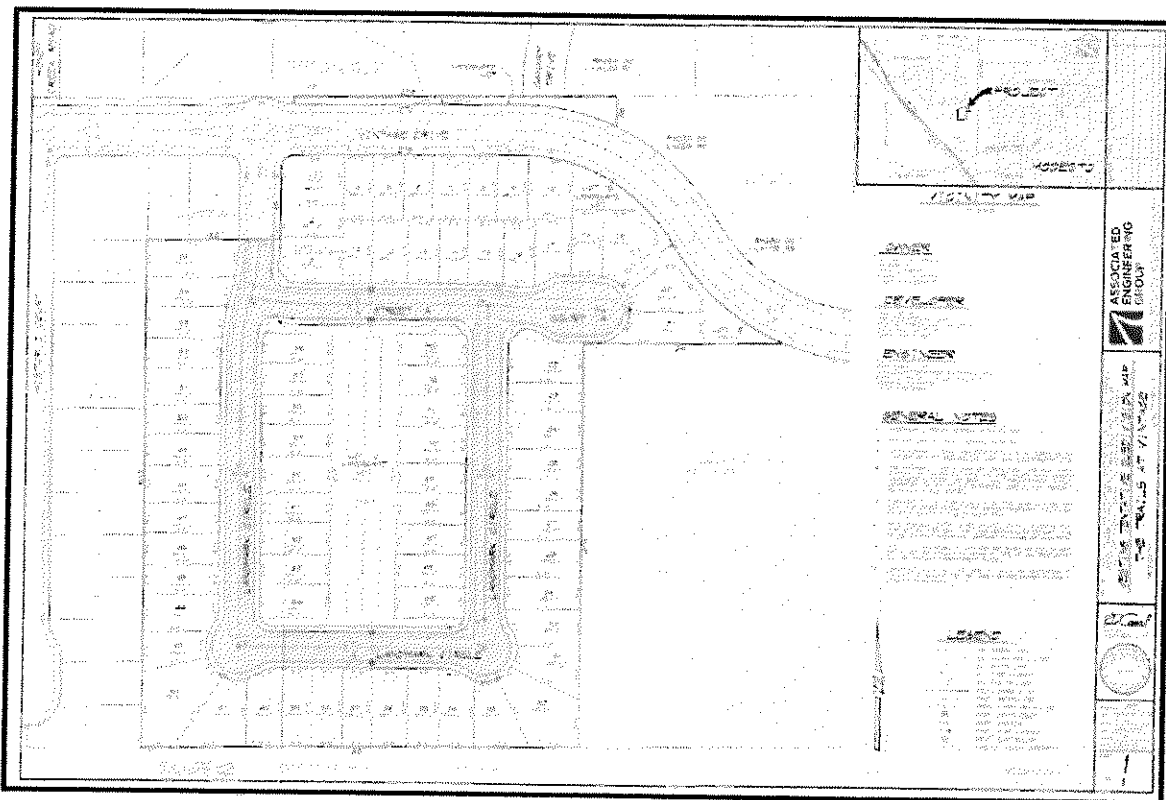

Rezone of 8.9 acres from Low Density Residential (R-1) Zone and Medium-High Density Residential (R-3) Zone to Planned Development (P-D) Zone to allow for a new small-lot residential development, with Vesting Tentative Subdivision Map for a 73 single-family residential lots and three open space lots.

**PDZ-18-002/TSM-18-002
 AREA MAP**

**PDZ-18-002
DEVELOPMENT PLAN**

**TSM-18-002
VESTING TENTATIVE SUBDIVISION MAP**

I. Other Public Agencies Whose Approval is Required: None.

III. FINDINGS/DETERMINATION (SELECT ONE ON THE BASIS OF THE ANALYSIS IN SECTION IV)

1. X **Within the Scope** - The project is within the scope of the Master EIR and no new environmental document or Public Resources Code Section 21081 findings are required. All of the following statements are found to be true:
- A. The subsequent project will have no additional significant effect on the environment, as defined in subdivision (d) of Section 21158 of the Public Resources Code, that was not identified in the Master EIR.
 - B. No new or additional mitigation measures or alternatives are required.
 - C. The subsequent project is within the scope of the project covered by the Master EIR.
 - D. All applicable policies, regulations, and mitigation measures identified in the Master EIR have been applied to the subsequent project or otherwise made conditions of approval of the subsequent project.
 - E. No substantial changes have occurred with respect to the circumstances under which the Master EIR was certified, and no new information, which was not known and could not have been known at the time that the Master EIR was certified as complete, has become available.
2. _____ **Mitigated Negative Declaration Required** - On the basis of the above determinations, the project is not within the scope of the Master EIR. A mitigated negative declaration will be prepared for the project. The following statements are all found to be true:
- A. The subsequent project is within the scope of the project covered by the Master EIR.
 - B. All applicable policies, regulations, and mitigation measures identified in the Master EIR have been applied to the subsequent project or otherwise made conditions of approval of the subsequent project.
 - C. The project will have one or more potential new significant effects on the environment that were not addressed as significant effects in the Master EIR. New or additional mitigation measures are being required of the project that will reduce the effects to a less-than-significant level.
 - D. No substantial changes have occurred with respect to the circumstances under which the Master EIR was certified, and no new information, which was not known and could not have been known at the time that the Master EIR was certified as complete, has become available.
3. _____ **Focused EIR Required**- On the basis of the above determinations, the project is not within the scope of the Master EIR. A Focused EIR will be prepared for the project. All of the following statements are found to be true:
- A. The subsequent project is within the scope of the project covered by the Master EIR.

- B. All applicable policies, regulations, and mitigation measures identified in the Master EIR have been applied to the subsequent project or otherwise made conditions of approval of the subsequent project.
- C. The project will have one or more new significant effects on the environment that were not addressed as significant effects in the Master EIR. New or additional mitigation measures or alternatives are required as a result.
- D. No substantial changes have occurred with respect to the circumstances under which the Master EIR was certified, and no new information, which was not known and could not have been known at the time that the Master EIR was certified as complete, has become available.

Title

October 31, 2018

Date

4. Within the Scope Analysis of this Document:

The Master EIR allows projects to be found within the scope of the MEIR if certain criteria are met. If the following statements are found to be true for all 21 impact categories included in this Initial Study, then the proposed project is addressed by the MEIR analysis and is within the scope of the MEIR. Any "No" response must be discussed.

		YES	NO
(1)	The lead agency for subsequent projects shall be the City of Modesto or a responsible agency identified in the Master EIR.	<input checked="" type="checkbox"/>	<input type="checkbox"/>
(2)	City policies which reduce, avoid, or mitigate environmental effects will continue to be in effect and, therefore, would be applied to subsequent projects where appropriate. The policies are described in the list of policies in place and mitigation measures attached to the Initial Study template. Project impacts would be mitigated to a less-than-significant level using MEIR mitigations only.	<input checked="" type="checkbox"/>	<input type="checkbox"/>
(3)	Federal, State, regional, and Stanislaus County regulations do not change in a manner that is less restrictive on development than current law (i.e., would not offer the same level of protection assumed under the Master EIR).	<input checked="" type="checkbox"/>	<input type="checkbox"/>
(4)	No specific information concerning the known or potential presence of significant resources is identified in future reports, or through formal or informal input received from responsible or trustee agencies or other qualified sources.	<input checked="" type="checkbox"/>	<input type="checkbox"/>
(5)	The development will occur within the boundaries of the City's planning area as established in this Urban Area General Plan.	<input checked="" type="checkbox"/>	<input type="checkbox"/>
(6)	Development within the project will comply with all appropriate mitigation measures contained and enumerated in the 2008 General Plan Master EIR.	<input checked="" type="checkbox"/>	<input type="checkbox"/>

5. Currency of the Master EIR Document

The MEIR should be reviewed on a regular basis to determine its currency, and whether additional analysis/mitigation should be incorporated into the MEIR via a Supplemental or Subsequent EIR (CEQA Section 21157.6). Staff has reviewed Sections 1 through 21 of this document in light of the criteria listed below to determine whether the MEIR is current. The analysis contained within the Master EIR is current as long as the following circumstances have not changed. Any "no" response must be explained.

		YES	NO
(1)	Certification of the General Plan Master EIR occurred less than five years prior to the filing of the application for this subsequent project.	<input type="checkbox"/>	<input checked="" type="checkbox"/>
(2)	This project is described in the Master EIR and its approval will not affect the adequacy of the Master EIR for any subsequent project because the City can make the following findings:	<input checked="" type="checkbox"/>	<input type="checkbox"/>
(a)	No substantial changes have occurred with respect to the circumstances under which the Master EIR was certified.	<input checked="" type="checkbox"/>	<input type="checkbox"/>
(b)	No new information, which was not known and could not have been known at the time the Master EIR was certified as complete, has become available.	<input checked="" type="checkbox"/>	<input type="checkbox"/>
(c)	Policies remain in effect which require site-specific mitigation, and avoidance or other	<input checked="" type="checkbox"/>	<input type="checkbox"/>

mitigation of impacts as a prerequisite to future development.		
--	--	--

Discussion:

- (1) The General Plan Master EIR was certified on October 14, 2008, so more than five years has passed since the MEIR was certified. However, the analysis contained in the MEIR is still adequate for subsequent projects, as documented in the discussion below.
- (2) The project is consistent with the analysis contained in the MEIR. This is documented in the discussion of the individual issue areas of this initial study.
 - (2)(a) There have been no substantive changes to the General Plan since the MEIR was certified that would create additional significant environmental effects that were not analyzed by the MEIR.
 - (2)(b) There has been no new information that would affect the adequacy of the analysis contained in the MEIR.
 - (2)(c) All policies contained in the MEIR that require site-specific mitigation or avoidance of impacts remain in effect and will be applied to the project as appropriate.

IV. ENVIRONMENTAL ANALYSIS

This Initial Study, in accordance with Section 21157.1(b) of the Public Resources Code, discloses whether the proposed project may cause any project-specific significant effect on the environment that was not examined in the Final Master EIR (MEIR) for the General Plan and whether new or additional mitigation measures or alternatives may be required as a result. The Initial Study thereby documents whether or not the project is "within the scope" of the Master EIR.

Pursuant to Public Resources Code Section 21157.1, no new environmental document or findings are necessary for projects that are determined to be within the scope of the MEIR. Adoption of the findings specified in Section III.1, above after completion of the Initial Study fulfills the City's obligation in that situation.

All environmental effects cited reflect 2025 conditions resulting from the Urban Area General Plan, as identified in the Master EIR.

The environmental impact analysis in the Master EIR for the Urban Area General Plan is organized in twenty-one subject areas. The following analysis is based on the impact analyses contained in Chapter V of the Master EIR. For ease of reference, the sections are numbered in the same order as the analyses in Chapter V.

1. TRAFFIC AND CIRCULATION

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable traffic and circulation impacts expected after application of mitigations / policies:

Direct Impacts

Effect: Increased automobile traffic will result in roadway segments (see MEIR on Table 1-7, pages V-1-32 to V-1-34) operating at LOS D, Modesto's significance threshold for automobile traffic, or lower (LOS E or F).

Effect: The substantial increase in traffic relative to the existing load and capacity of the street system will cause, either individually or cumulatively, the violation of automobile service standards established by StanCOG's Congestion Management Plan for designated roads and highways.

Effect: A substantial increase in automobile vehicle miles traveled and automobile vehicle hours of travel and a decrease in average automobile vehicle speed (see MEIR Table 1-6, page V-1-31).

Cumulative Impacts

Effect: Potential for growth inducement or acceleration of development resulting from highway and local road projects.

Effect: Substantial increase in traffic in relation to the existing traffic load and capacity of the street system, including a violation, either individually or cumulatively, of an automobile LOS standard established by the Congestion Management Plan for designated roads and highways.

Effect: Increased demand for capacity-enhancing alterations to existing roads or automobile traffic reduction.

Other impact categories affected by Traffic and Circulation are addressed throughout this Initial Study (see also Section 2, Degradation of Air Quality; Section 3, Generation of Noise; Section 7 Loss of Sensitive Wildlife and Plant Habitat; Section 8, Disturbance of Archaeological/Historic Sites; Section 14 Increased Demand for Fire Services; Section 18, Energy; Section 19, Visual Resources; Section 20, Land Use and Planning, and Section 21, Climate Change).

b. Master EIR and/or New Mitigation Measures Applied to the Project

Traffic and Circulation mitigation measures pertinent to this project are found on MEIR pages V-1-9 through V-1-28. All mitigation measures appropriate to the project, including any new measures, will be incorporated into or made conditions of approval of this project and are listed in Section V, Mitigation Measures Applied to Project.

Discussion:

The appropriate mitigation to be applied to this project includes none from the MEIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-1.B of the Master EIR provides analysis of Traffic and Circulation impacts of development of the General Plan, the following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: A subsequent development project will have a new significant effect on the environment if it would exceed the following criteria:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
1. TRAFFIC AND CIRCULATION				
1) The proposed project exceeds traffic generation assumptions in the Master EIR for the site by 100 trips or more and City Engineering and Transportation staff has determined that the project would have additional potentially significant project-specific effects that are not avoided or reduced by the Master EIR's mitigation measures.	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
2) Exceed, either individually or cumulatively, a level of service standard established by the county congestion management agency for designated roads or highways?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
3) The proposed project would cause additional roadway segments in the General Plan area to exceed LOS D and/or cause additional violations of standards in the Congestion Management Plan, and/or cause an increase in automobile vehicle miles or vehicle hours of travel or a decrease in automobile travel speed, as compared to the impacts disclosed in the Master EIR.	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
4) The proposed project would cause emergency response times to exceed acceptable standards established by the Fire Department, as compared to impacts disclosed in the Master EIR (see Section 14, Increased Demand for Fire Services).	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
5) The proposed project would result in less parking than required by the Municipal Code or as determined by staff.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
6) The proposed project would conflict with adopted policies, plans, or programs that support alternative transportation, including, but not limited to the Regional Transportation Plan, the Sustainable Communities Strategy, the Bicycle Action Plan, etc.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
7) The proposed project would result in an increase in automobile vehicle miles traveled on a per capita	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
basis, in excess of that considered in the Urban Area General Plan MEIR.				

Discussion:

- (1) The project consists of a rezone of 8.9 acres from the existing Medium-High Density Residential (R-3) and Low Density Residential (R-1) Zone to Planned Development to allow for 73 small-lot residential single-family lots. The site is located in the Mixed Use (MU) land use designation of the General Plan, which allows for residential uses. The project was referred to Land Development Engineering, Traffic, who indicated no concerns with the project exceeding traffic generation assumptions in the City's General Plan.
- (2) The rezone would facilitate the development of 73 small-lot single-family residential lots. The project was referred out to Community and Economic Development, Traffic Engineering, who indicated no concerns that the project would exceed a level of service standard established by the county congestion management agency (StanCOG).
- (3) No indication of concern was given by Land Development Engineering, Traffic with regards to level of service, or violations of standards in the Congestion Management Plan, or any increase in automobile vehicle miles or vehicle hours of travel or decrease in automobile travel speed, as compared to the impacts disclosed in the Master EIR.
- (4) Police and Fire Staff have reviewed the project and indicated no concerns with emergency access.
- (5) Off-street parking spaces of two per dwelling unit will be provided in accordance to the residential requirements of the Modesto Municipal Code.
- (6) The project would not conflict with adopted policies, plans, or programs that support alternative transportation, including, but not limited to the Regional Transportation Plan, the Sustainable Communities Strategy, the Bicycle Action Plan. The project was referred to the City's Transit and Transportation Engineering and Design departments, who indicated no concerns.
- (7) The proposed project would not result in a significant increase in automobile vehicle miles traveled (per capita) in excess of what was considered in the Urban Area General Plan.

2. DEGRADATION OF AIR QUALITY

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable air quality impacts expected after application of mitigations / policies:

Direct Impacts

Effect: Expected automobile traffic will result in increased operational emissions of reactive organic gases (ROG) and oxides of nitrogen (NO_x) (see MEIR Table 2-8, page V-2-27).

Effect: Expected automobile traffic will result in increased emissions of particulate matter 10 microns or less (PM₁₀) and 2.5 microns or less in diameter (PM_{2.5}) (see MEIR Table 2-8, page V-2-27).

Effect: Expected automobile traffic will result in increased carbon monoxide (CO) levels in the project area (see MEIR Table 2-7, page V-2-26, and Table 2-8, page V-2-27).

Cumulative Impacts

The Master EIR indicates the same impacts identified as direct impacts above will contribute to regional impacts on air quality for the criteria pollutants ROG, NO_x, PM₁₀, and PM_{2.5}.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Air quality mitigation measure(s) pertinent to the proposed project are found on pages V-2-13 through V-2-24 of the Master EIR. All mitigation measures appropriate to the project will be incorporated into or made conditions of approval of this project and are listed in Section V, Mitigation Measures Applied to Project.

Discussion:

The appropriate mitigation to be applied to this project includes AQ-42 through AQ-44, and AQ-46 through AQ-56 from the MEIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-2.B of the Master EIR is the analysis of air quality impacts resulting from development of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not analyzed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
2. DEGRADATION OF AIR QUALITY				
1) The proposed project exceeds the project-level emissions thresholds established for CO, ROG, NO _x , PM ₁₀ , and PM _{2.5} by the San Joaquin Valley Air Pollution Control District (SJVUAPCD) and is not consistent with the development assumptions for the project site, as established in the Urban Area General Plan and Master EIR.	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
2) The proposed project does not incorporate the best management practices established by the	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
SJVAPCD for CO, ROG, NO _x , PM _{10r} , and PM _{2.5} .				
3) The proposed project does not comply with the air quality policies in the Modesto Urban Area General Plan.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
4) The proposed project would expose sensitive receptors to pollutant concentrations in excess of those expected to occur as a result of implementation of the Urban Area General Plan.	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
5) The proposed project would create objectionable odors affecting a substantial number of people.	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>

Discussion:

- (1) The project consists of a rezone to a Planned Development Zone to facilitate the development of 73 single-family residential lots. Emissions associated with the project would result from construction-related activity and residential traffic volumes. The net increase in emissions generated by these activities and other secondary sources would not exceed the thresholds of significance recommended by the San Joaquin Valley Air Pollution Control District or the development assumptions established in the Master EIR.
- (2) The project was referred to the San Joaquin Valley Unified Air Pollution Control District (SJVUAPCD) for comments. Best management practices established by the SJVAPCD for CO, ROG, NO_x, PM₁₀, and PM_{2.5} will be incorporated into the as conditions of approval. The project is required to comply with SJVUAPCD Rule VIII (Fugitive Dust Rules) per MEIR Mitigation Measures MEIR AQ-42 – MEIR AQ-56, which identifies control measures for PM₁₀ emissions during the construction phase, as described above.

In addition, the project is subject to SJVAPCD rule 9510 (Indirect Source Review). This rule fulfills the SJVAPCD's emission reduction commitments in the PM₁₀ and Ozone Attainment Plans through design features or by payment of applicable off-site mitigation fees.

- (3) The project is consistent with the City's policies regarding air quality. Therefore, project-specific effects will be less than significant.
- (4) The project site is surrounded on two sides by single- and multi-family residential uses and a regional commercial shopping mall to the south. The project is not in itself a significant contributor to air pollution levels. The primary source of air pollution associated with the project would be residential traffic related, and would not result in a significant impact. The PM₁₀ emissions created through construction activity will be mitigated as called for by the MEIR with the measures listed above.
- (5) Construction activities for the project could potentially include the application of architectural coatings and asphalt paving materials that could generate localized temporary odors. The use of diesel-powered construction equipment could also generate localized temporary odors. Construction activities will be mitigated as called for by the MEIR with the mitigation measures listed above.

3. GENERATION OF NOISE

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable noise impacts expected after application of mitigations / policies:

Direct Impacts

Effect: Future automobile traffic noise levels and roadway construction and maintenance activities resulting from development of the Urban Area General Plan will exceed the City's noise thresholds at various locations, but particularly in areas adjacent to heavily traveled roadways (see MEIR Table 3-3, page V-3-10, and Figure VII-2 and Table 3-6, pages V-3-18 and V-3-19).

Effect: Expected noise from airport operations and airport construction projects may expose up to 468 dwellings and three churches to noise levels of 65 dB CNEL and up to eight dwellings to noise levels of 70 dB CNEL.

Effect: Expose noise-sensitive land uses to noise from the construction of bicycle and transit projects.

Effect: Expose noise-sensitive land uses to noise from freight and passenger rail operations.

Cumulative Impacts

Effect: Traffic from development in the City of Modesto would, when combined with traffic from new development in the County and other cities, contribute to a cumulative increase in roadside noise levels on major roads and highways throughout Stanislaus County.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Noise policies and mitigation measures pertinent to the project being analyzed in this Initial Study are found on pages V-3-11 through V-3-15 of the Master EIR. All mitigation measures appropriate to the project will be incorporated into or made conditions of approval of this project and any new measures are listed in Section V, Mitigation Applied to Project.

Discussion:

The appropriate mitigation to be applied to this project includes N-3 from the Master EIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-3.B of the MEIR discloses noise impacts resulting from development of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not analyzed in the Master EIR.

Significance Criteria: Determination of the proposed project's effects are based on the following thresholds. Project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
3. GENERATION OF NOISE				
1) The proposed project will exceed the standards for noise level and hours of operation established by the Modesto noise ordinance.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
2) The proposed project will not comply with the noise policies of, or otherwise be inconsistent with, the Modesto Urban Area General Plan.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
3) The proposed project will result in an increase in ambient noise levels in the project vicinity above those disclosed in the Master EIR.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
4) The proposed project will result in a substantial temporary or periodic increase in ambient noise levels in the project vicinity above levels disclosed in the Master EIR implementation of the Urban Area General Plan.	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>

Discussion:

- (1) The project would not generate a significant amount of noise. Construction activities could potentially cause a temporary increase in noise levels; however, mitigation measure N-3 will be applied to the project, which would mitigate those impacts to a less than significant level.
- (2) The project would comply with the noise policies of the General Plan.
- (3-4) Aside from temporary construction-related noise which will be mitigated through the application of mitigation measure N-3, the project would not in itself cause an increase in ambient noise above those disclosed in the General Plan MEIR.

4. EFFECTS ON AGRICULTURAL LANDS

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on agricultural lands expected after application of mitigations / policies:

Direct Impacts

Effect: Between 1995 and 2025, development of the Urban Area General Plan may convert up to approximately 26,000 acres of farmland in various categories in the Planned Urbanizing Area to urban uses.

Effect: Approximately 1,200 acres of urban development along a 28.5-mile boundary 350 feet wide between urban and agricultural uses could be affected by continued agricultural operations, including noise, dust, and chemical overspray or drift.

Cumulative Impacts

Effect: Growth within Modesto’s planning area would contribute considerably to the loss of agricultural land within Stanislaus County, accounting for the conversion of as much as approximately 26,000 acres of farmland in various categories in the Planned Urbanizing Area from 1995 to 2025.

b. Master EIR and/or New Mitigation Measures Pertinent to the Project

Agricultural land mitigation measures pertinent to the proposed project are found on pages V-4-6 to and V-4-8 of the Master EIR. All mitigation measures appropriate to the project and any new mitigation to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Applied to Project.

Discussion:

No mitigation measures regarding agricultural lands from the MEIR are required. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-4.B of the Master EIR discloses the impacts resulting from the implementation of the Urban Area General Plan on agricultural lands. The following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not previously analyzed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
4. EFFECTS ON AGRICULTURAL LANDS				
1) The proposed project is inconsistent with the Urban Area General Plan’s policies relating to agricultural land.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
2) The proposed project will either directly or indirectly result in the development of land outside the 2008 Urban Area General Plan’s planning area boundary.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
3) The proposed project will conflict with existing zoning for agricultural use, or there is an existing Williamson Act contract on the project site.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
4) The proposed project will involve other changes in the existing environment not anticipated in the Master EIR which, due to their location or nature, could result in conversion of farmland to non-	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
agricultural use.				

Discussion:

- (1-2) The project site is vacant land located within the Baseline Urbanized Area and is completely surrounded by urban uses. The project would not be inconsistent with General Plan policies regarding agricultural land, and would not directly or indirectly result in development of land outside of the General Plan boundary.
- (3) The site is predominately zoned for Medium-High Density Residential (R-3) uses (6.5 acres) and the rest zoned for Low Density Residential (R-1) uses. The site is classified as vacant or disturbed land by the California Department of Conservation, is not zoned for agricultural uses and is not subject to a Williamson Act contract.
- (4) The project would not cause changes to the environment that could cause the conversion of farmland to a non-agricultural use. The surrounding properties are developed with single- and multi-family residential uses, a regional shopping mall, and professional office uses.

5. INCREASED DEMAND FOR LONG-TERM WATER SUPPLIES

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on long-term water supplies expected after application of mitigations / policies:

Direct Impacts

Effect: No residual significant direct impacts have been disclosed in the Master EIR.

Cumulative Impacts

Effect: Operational yields of the Modesto and Turlock subbasins, both of which underlie the City of Modesto, are unknown, although the City is participating in a study with the United States Geological Survey in order to quantify the operational yields of both subbasins. Groundwater withdrawals from both basins by the City, when combined with other users' withdrawals, may result in overdrafting both subbasins.

Effect: Despite available options, during drought years, significant water shortages are forecast for the San Joaquin River basin, which includes both the Modesto and Turlock subbasins, by 2020. Modesto would make a cumulatively considerable contribution to the cumulative impact on water supply under drought conditions.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Water supply mitigation measures pertinent to the proposed project are found on pages V-5-6 through V-5-12 of the Master EIR. All mitigation measures appropriate to the project to be

incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Measures Applied to Project.

Discussion:

No mitigation measures regarding water supply from the Master EIR are required. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-5.B of the Master EIR discloses impacts on long-term water supplies resulting from implementation of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
5. INCREASED DEMAND FOR LONG-TERM WATER SUPPLIES				
1) The proposed project is inconsistent with water supply policies in the Urban Area General Plan.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
2) Water demand for the proposed project will exceed estimates for similar projects or for development on the project site anticipated in the Urban Area General Plan or sufficient water supplies are not otherwise available to serve the project from existing entitlements and resources.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
3) The proposed project would deplete groundwater supplies to a greater degree than anticipated in the Urban Area General Plan or would interfere with groundwater recharge.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Discussion:

- (1) The project is consistent with the water supply policies in the General Plan.
- (2) The project was referred to the Land Development Engineering Department, who indicated no concerns with water supply demands of the project.
- (3) The proposed project is consistent with the ground water demands assumed in the General Plan. The project would not have a significant effect on ground water recharge or depletion of long-term water supplies.

6. INCREASED DEMAND FOR SANITARY SEWER SERVICES

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on sanitary sewer services after application of mitigations / policies:

Direct Impacts

Effect: Development resulting from implementation of the Urban Area General Plan will require substantial new sewage treatment and disposal capacity, treatment plant improvements, sewer mains and collection lines, and pump stations. The Wastewater Master Plan anticipates the need for these facilities and its EIR evaluates the impact of developing those facilities. Potential impacts include degradation of water quality through erosion and chemical releases; localized flooding; and construction noise. All of these impacts are mitigated to a less-than-significant level.

Additional impacts that are not mitigated to a less-than-significant level include loss of farmland caused by construction of the Phase IA tertiary treatment facility at the Jennings Road Secondary Treatment Facility, an increase in pollutant loads from increased wastewater flows to the San Joaquin River, and an increase in noise and criteria air pollutants due to construction activities, including traffic.

Cumulative Impacts

Effect: No additional cumulative impacts were identified in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Sewer service mitigation measures pertinent to the proposed project are found on pages V-6-3 through V-6-8 of the Master EIR. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Measures Applied to Project.

Discussion:

No mitigation measures from the Master EIR are required. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-6.B of the Master EIR discloses impacts on the Increased Demand for Sanitary Sewer Service resulting from implementation of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
6. INCREASED DEMAND FOR SANITARY SEWER SERVICES				
1) The proposed project is inconsistent with wastewater policies in the Urban Area General Plan.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
2) The proposed project will generate sewage flows greater than those anticipated in the Urban Area General Plan for the project site.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
3) The proposed project will result in a determination by the wastewater treatment provider which serves or may serve the project that it has inadequate capacity to serve the project's projected demand in addition to the provider's existing commitments.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Discussion:

- (1) The project is consistent with the wastewater policies in the General Plan.
- (2-3) The project was referred to Land Development Engineering staff, who indicated no concerns with generation of sewer flows or capacity generated by the project.

7. LOSS OF SENSITIVE WILDLIFE AND PLANT HABITAT

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on sensitive wildlife and plant habitat expected after application of mitigations / policies:

Direct Impacts

Effect: No residual significant impacts on sensitive wildlife and plant habitat are expected to occur with the application of the policies contained in the Urban Area General Plan.

Cumulative Impacts

Effect: Implementation of the Urban Area General Plan will contribute to the cumulative impact of habitat loss in the San Joaquin Valley. Requiring denser development than has occurred in the past or that is expected in the future would minimize the City's contribution to the cumulative loss of habitat. Nonetheless, this is a significant and unavoidable impact.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Wildlife and plant habitat mitigation measures pertinent to the proposed project are found on pages V-7-17 through V-7-24 of the Master EIR. All mitigation measures appropriate to the project to be

incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Measures Applied to Project.

Discussion:

No mitigation measures regarding wildlife and plant habitat from the MEIR are required. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-7.B of the Master EIR discloses impacts on the Loss of Sensitive Wildlife and Plant Habitat resulting from implementation of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
7. LOSS OF SENSITIVE WILDLIFE AND PLANT HABITAT				
1) The project is inconsistent with the policies pertaining to the loss of sensitive wildlife and plant habitat contained in the Urban Area General Plan.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
2) Consultation with the California Department of Fish and Game or the U.S. Fish and Wildlife Service determines that the project would have a significant effect on a candidate, sensitive, or special status species in excess of the impact disclosed in the Master EIR.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
3) The proposed project would have a substantial adverse effect on federally protected wetlands as defined by Section 404 of the Clean Water Act through direct removal, filling, hydrological interruption, or other means, in excess of the impact disclosed in the Master EIR.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
4) The proposed project would substantially interfere with the movement of any native resident or migratory fish or wildlife species or with established native resident or migratory wildlife corridors, or impede the use of native wildlife nursery sites.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
5) Conflict with local policies or ordinances protecting biological resources, such as a tree preservation policy or ordinance.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
6) The proposed project would conflict with provisions of an adopted habitat conservation plan, natural community conservation plan, or other approved local, regional, or state habitat conservation plan.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Discussion:

- (1-2) The project site is vacant land within the Baseline Urbanized Area that is surrounded by residential and commercial uses. The project would not be inconsistent with General Plan policies regarding sensitive plant and wildlife habitat. The California Department of Fish and Wildlife were consulted in the course of preparing the General Plan MEIR.
- (3) The project site is not located within a wetland area and does not qualify as a federally protected wetland per Section 404 of the Clean Water Act.
- (4) The project site is a vacant parcel that is not within a biologically sensitive site as defined by Figures V-7-1a through V 7-1e of the MEIR.
- (5) The project would not interfere with local policies or ordinances protecting biological resources.
- (6) The proposed project would not conflict with any adopted habitat conservation plan, natural community conservation plan, or other approved local, regional, or state habitat conservation plan.

8. DISTURBANCE OF ARCHAEOLOGICAL/HISTORICAL SITES

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on archaeological/historical sites expected after application of mitigations / policies:

Direct Impacts

Effect: Modification resulting in a substantial adverse change in the significance of a historic resource or the demolition of a listed or eligible historic resource.

Effect: The modification or demolition of a structure more than 50 years in age may be significant.

Effect: Discovery of archaeological resources, in areas outside of the riparian corridors, as a result of construction activities.

Effect: Construction in an area of high archaeological sensitivity.

Cumulative Impacts

Effect: No additional cumulative impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Archaeological or historic mitigation measures pertinent to the project being analyzed in this Initial Study are found on page V-8-16 through V-8-20 of the Master EIR. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Applied to Project:

Discussion:

The appropriate mitigation to be applied to this project includes the measures specified in Table V-8-1(b-f) from the Master EIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-8.B of the MEIR discloses impacts on archaeological/historical resources resulting from implementation of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
8. DISTURBANCE OF ARCHAEOLOGICAL/HISTORICAL SITES				
1) The proposed project is inconsistent with the archaeological / historical resource policies in the Urban Area General Plan.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
2) The proposed project would demolish a building eligible for listing as a historic resource or remove a landmark from the Modesto inventory.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
3) The proposed project would modify or demolish a structure more than 50 years old.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
4) The project would adversely affect a cultural resource that is either listed or eligible for listing in the California Register of Historical Resources.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
5) The project would adversely affect a Tribal Cultural Resource identified and/or defined by the applicable Tribe.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Discussion:

- (1) The project is consistent with the archeological and historical resource policies in the General Plan.
- (2-3) The project site is vacant land with no structures.
- (4) The project would not affect a resource that is listed or eligible for listing in the California Register of Historic Resources.
- (5) The project would not conflict with local policies affecting biological resources.

9. INCREASED DEMAND FOR STORM DRAINAGE

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on storm drainage expected after application of mitigations / policies:

Direct Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR.

Cumulative Impacts

Effect: The population of Stanislaus County is projected to increase in a fashion similar to that of Modesto, resulting in additional urban development and associated increases in impervious surface area and associated increases in storm water runoff. Cumulative hydrologic impacts of storm water flows from Modesto urban areas and other areas of the County could occur due to the fixed capacity of MID and TID irrigation canals to convey drainage west to the San Joaquin River. If drainage channels in some areas prove insufficient to handle the increased drainage discharges, existing storm water runoff from urban and agricultural areas during large storm events would have to be interrupted until water levels receded to a point allowing the resumption of discharges to the channel. Ceasing discharges to drainage channels could cause inundation in and around the drainage conveyance pipeline systems, surface drainage channels, detention basins, and other urban areas. This cumulative impact is considered significant and unavoidable.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Storm Drainage mitigation measures pertinent to the project being analyzed in this Initial Study are found on pages V-9-4 through V-9-9. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Measures Applied to Project:

Discussion:

The appropriate mitigation to be applied to this project includes: SD-9 from the Master EIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-9.B of the MEIR discloses impacts on the demand for storm drainage resulting from development of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
9. INCREASED DEMAND FOR STORM DRAINAGE				
1) The proposed project is inconsistent with the storm drainage policies in the Urban Area General Plan.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
2) The proposed project would substantially increase the rate or amount of surface runoff in a manner that would result in flooding on- or offsite, as compared to impacts anticipated to result from the Urban Area General Plan or create substantial unanticipated sources of polluted runoff.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
3) The proposed project does not utilize Low Impact Development strategies to reduce runoff from the site and increase infiltration, resulting in no net increase in runoff before and after development.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Discussion:

- (1) The proposed project is consistent with the storm drainage policies in the Urban Area General Plan.
- (2) The project was referred to the Land Development Engineering Department who indicated no concerns with storm water runoff. The project will not contribute additional water runoff that would exceed the capacity of the storm drainage system.
- (3) The project will utilize low impact strategies and meet the standards contained in the "Guidance Manual for New Development-Storm Water Quality Control Measures." This requirement will be implemented as a condition of project approval.

10. FLOODING AND WATER QUALITY

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on flooding and water quality expected after application of mitigations / policies:

Direct Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR.

Cumulative Impacts

Effect: No residual significant cumulative impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Flooding and Water Quality mitigation measures pertinent to the project being analyzed in this Initial Study are found on pages V-10-6 through V-10-9 of the Master EIR. All mitigation measures appropriate to the project will be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Applied to Project:

Discussion:

The appropriate mitigation to be applied to this project includes: FWQ-13 from the Master EIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-10.B of the Master EIR provides analysis of Flooding and Water Quality impacts of development of the General Plan, the following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not previously analyzed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
10. FLOODING AND WATER QUALITY				
1) The proposed project is inconsistent with the flooding and water quality policies in the Urban Area General Plan.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
2) The proposed project does not comply with the regulatory requirements of the federal Clean Water Act or the State Porter-Cologne Act.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
3) The proposed project would place more housing within a 100-year flood hazard zone than assumed in the Urban Area General Plan.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
4) The proposed project would place structure within a 100-year flood hazard area so that they would impede or redirect floodwater or would substantially alter the existing on-site drainage	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
pattern or a watercourse, in such a way as to cause flooding on- or off-site.				
5) The proposed project does not comply with Modesto's Guidance Manual for New Development Storm Water Quality Control Measures.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
6) The proposed project would violate water quality standards or waste discharge requirements.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
7) The proposed project would substantially alter the existing drainage pattern of the site or area or a watercourse in a manner that would result in substantial erosion or siltation on- or offsite in excess of the assumptions of the General Plan.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
8) The proposed project would create or contribute runoff, which would exceed the capacity of existing or planned storm water drainage systems or provide substantial additional sources of polluted runoff, not expected as part of General Plan implementation.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Discussion:

- (1) The proposed project is consistent with the flooding and water quality policies in the Urban Area General Plan.
- (2) The project would comply with the Federal Clean Water Act and the Porter Cologne Act requirements.
- (3-4) The project site is not within a 100-year flood hazard zone as established by the Federal Emergency Management Agency (FEMA)
- (5) The project will comply with the Guidance Manual for New Development Storm Water Quality Control Measures (MIER Policy SD-11). This will be implemented as a condition of project approval.
- (6) The project will not violate water quality standards or waste discharge requirements.
- (7) The project would not substantially alter the existing drainage pattern of the site, area or a watercourse in a manner that would result in erosion or siltation.
- (8) The City's Land Development Engineering Staff have reviewed the project and indicated no concerns that the project would cause significant flooding or unanticipated sources of runoff. The project will not contribute additional water runoff that would exceed the capacity of the storm drainage system.

11. INCREASED DEMAND FOR PARKS AND OPEN SPACE

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on parks and open space expected after application of mitigations / policies:

Direct Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR.

Cumulative Impacts

Effect: No residual significant cumulative impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Parks and open space mitigation measures pertinent to the proposed project are found on pages V-11-3 through V-11-9 of the Master EIR. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Applied to Project:

Discussion:

No mitigation measures from the Master EIR are required. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-11.B of the MEIR discloses impacts of the Urban Area General Plan on parks and open space. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. Project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
11. INCREASED DEMAND FOR PARKS AND OPEN SPACE				
1) The proposed project is inconsistent with the parks and open space policies in the Urban Area General Plan.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
2) The proposed project would eliminate parks or open space.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
3) The proposed project would cause an increase in the use of existing neighborhood and regional parks	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
or other recreational facilities such that substantial physical deterioration of the facility in question would occur or be accelerated or the proposed project would include recreational facilities or require the construction or expansion of recreational facilities which might have an adverse physical effect on the environment.				

Discussion:

- (1) The project is consistent with the parks and open space policies in the General Plan.
- (2) The project would not eliminate an existing park or designated open space. The project is on a vacant site currently zoned for Low- and Medium-High Density Residential uses. The project proposes rezoning to a Planned Development to allow for small-lot single-family residential lots.
- (3) The project would result in an increase in the use of existing park facilities; however, deterioration or other physical changes to the facilities are not expected to occur as a result of the project. The project was referred to the City's Parks Planning Division, who indicated no concerns with impacts to nearby parks.

12. INCREASED DEMAND FOR SCHOOLS

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on school facilities expected after application of mitigations / policies:

Direct Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR. By statute, the impact of new students is considered to be mitigated below a level of significance by payment of school impact fees and the exercise of any or all of the financing options set out in Government Code Section 65997.

Cumulative Impacts

Effect: Similar to direct impacts of implementation of the Urban Area General Plan, no residual significant direct impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Mitigation relies upon the implementation of the policies in place under the Modesto Urban Area General Plan. As long these policies are applied to all subsequent projects, no new mitigation is necessary. Further, payment of school impact fees and compliance with SB 50 is statutorily deemed

to be full mitigation of school impacts (Government Code Section 65995).

The following schools mitigation measures on pages V-12-5 through V-12-7 of the Master EIR are pertinent to the proposed project. All mitigation measures appropriate to the project will be incorporated into or made conditions of approval of this project. Those measures are listed in Section V, Mitigation Applied to Project.

Discussion:

No mitigation measures from the Master EIR are required. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-12.B of the Master EIR discloses impacts resulting from implementation of the Urban Area General Plan associated with increased demand for schools. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
12. INCREASED DEMAND FOR SCHOOLS				
1) The proposed project is inconsistent with the policies relating to schools in the Urban Area General Plan.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
2) The proposed project does not comply with SB 50/Proposition 1A funding provisions, or succeeding measures which state that compliance results in less-than-significant impacts on schools.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Discussion:

- (1) The project is consistent with the policies relating to schools in the General Plan.
- (2) The project was referred to Modesto City Schools and the Salida School District, who indicated no opposition to the project.

13. INCREASED DEMAND FOR POLICE SERVICES

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on police services expected after application of mitigations / policies:

Direct Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR.

Cumulative Impacts

Effect: No residual significant cumulative impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Police services mitigation measures pertinent to the proposed project are found on pages V-13-2 through V-13-5 of the Master EIR. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Measures Applied to Project.

Discussion:

No mitigation measures from the Master EIR are required. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-13.B of the Master EIR discloses impacts on police services resulting from implementation of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
13. INCREASED DEMAND FOR POLICE SERVICES				
1) The proposed project is inconsistent with policies relating to police services in the Urban Area General Plan.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
2) The proposed project would result in the need for new or significantly altered facilities not considered as part of the Urban Area General Plan or Master EIR which could cause new significant environmental impacts in order to maintain acceptable service ratios, response times, or other performance objectives.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Discussion:

(1) The project is consistent with the policies relating to police services in the General Plan.

- (2) The project would not result in the need for construction of new or significantly altered facilities which could cause new significant environmental impacts in order to maintain acceptable service ratios, response times or other performance objectives. The project meets City Standards for emergency services access.

14. INCREASED DEMAND FOR FIRE SERVICES

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on fire services expected after application of mitigations / policies:

Direct Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR.

Cumulative Impacts

Effect: No residual significant cumulative impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Fire Services mitigation measure(s) pertinent to the project being analyzed in this Initial Study are found on pages V-14-4 through V-14-7 of the Master EIR. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Measures Applied to Project.

Discussion:

No mitigation measures from the Master EIR are required. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-14.B of the Master EIR discloses impacts on fire services resulting from implementation of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
14. INCREASED DEMAND FOR FIRE SERVICES				
1) The proposed project is inconsistent with the fire service policies in the Urban Area General Plan.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
2) The proposed project would result in the need for new or significantly altered facilities not considered as part of the Urban Area General Plan or Master EIR which could cause new significant environmental impacts in order to maintain acceptable service ratios, response times, or other performance objectives.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
3) The proposed project, based upon substantial evidence, would cause the erosion or elimination of fire protection services in adjoining fire protection districts.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Discussion:

- (1) The project is consistent with the fire service policies in the General Plan.
- (2) The project would not result in the need for construction of new or significantly altered facilities which could cause new significant environmental impacts in order to maintain acceptable service ratios, response times or other performance objectives. The project was referred to the Modesto City Fire Department, who indicated no concerns.
- (3) The project would not significantly impact adjacent fire districts or result in the elimination of fire protection services.

15. GENERATION OF SOLID WASTE

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on solid waste expected after application of mitigations / policies:

Direct Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR.

Cumulative Impacts

Effect: No residual significant cumulative impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Solid waste mitigation measures pertinent to the proposed project are found on pages V-15-4 through V-15-7 of the Master EIR. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Applied to Project.

Discussion:

No mitigation measures from the Master EIR are required. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-15.B of the Master EIR discloses solid waste impacts resulting from implementation of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. Project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
15. GENERATION OF SOLID WASTE				
1) The project is inconsistent with the solid waste policies in the Urban Area General Plan.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
2) The County is unable to expand its solid waste disposal capacity, as expected, causing all new development to result in cumulative impacts on the County's disposal capacity.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Discussion:

- (1) The project is consistent with the solid waste policies in the General Plan.
- (2) This project was referred to the Solid Waste Division for review, who indicated no concerns over service to the project area.

16. GENERATION OF HAZARDOUS MATERIALS

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts regarding hazardous materials expected after application of mitigations / policies:

Direct Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR.

Cumulative Impacts

Effect: No residual significant cumulative impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Hazardous materials mitigation measures pertinent to the proposed project are found on pages V-16-8 through V-16-13 of the Master EIR. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Measures Applied to Project.

Discussion:

No mitigation measures from the Master EIR are required. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-16.B of the Master EIR discloses impacts on hazardous materials resulting from implementation of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
16. GENERATION OF HAZARDOUS MATERIALS				
1) The project is inconsistent with the hazardous materials policies in the Urban Area General Plan.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
2) The proposed project would emit hazardous emissions or handle hazardous or acutely hazardous materials, substances, or waste within one-quarter mile of an existing or proposed school.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
3) The proposed project would be located on a site which is included on a list of hazardous materials sites compiled pursuant to Government Code Section 65962.5 and as a result, would create a significant hazard to the public or the environment.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
4) The proposed project would be constructed on a contaminated site not known to the State of California as of March 2008.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Discussion:

- (1) The project is consistent with the hazardous materials policies in the General Plan.

- (2) The project would comply with all applicable federal, state, and county standards and regulations relative to the handling, storage, disposal, and transport of hazardous or toxic materials or wastes. (No hazardous materials will be involved with this project).
- (3) The project area is not be located on a site which is included on a list of hazardous materials sites compiled pursuant to Government Code Section 65962.5, and as a result, would not create a significant hazard to the public or the environment.
- (4) The project site is not known to contain any contaminants.

17. GEOLOGY, SOILS, AND MINERAL RESOURCES

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts related to geology, soils, and mineral resources expected after application of mitigations / policies:

Direct Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR.

Cumulative Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Geology, soils, and mineral resource mitigation measures pertinent to the proposed project are found on pages V-17-9 and V-17-10 of the Master EIR. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of the proposed project are listed in Section V, Mitigation Measures Applied to Project.

Discussion:

No mitigation measures from the Master EIR are required. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-17.B of the Master EIR discloses geology, soils, and mineral resource impacts resulting from implementation of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. Project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
--	---------------------------------------	---	-------------------------------------	------------------

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
17. GEOLOGY, SOILS, AND MINERAL RESOURCES				
1) The project is inconsistent with policies relating to geology, soils, and mineral resources contained in the Urban Area General Plan.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
2) The proposed project would expose people or structures to potential substantial adverse effects including the risk of loss, injury, or death involving fault rupture, strong seismic activity; location on an expansive soil; result in the loss of topsoil; location on soils incapable of adequately supporting the use of septic tanks or alternative wastewater disposal systems in areas where sewers are not available for the disposal of wastewater; result in the loss of known mineral resources that would be of value to the region and the state; or result in the loss of availability of a locally important mineral resource recovery site delineated on a local general plan, specific plan, or other land use plan.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Discussion:

- (1) The project is consistent with policies related to geology, soils and mineral resources in the General Plan.
- (2) The project would not be located on soil that is unstable or that would become unstable as a result of the project. There are no known mineral resources of value to the region or state at the project site.

18. ENERGY

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts pertaining to energy expected after application of mitigations / policies:

Direct Impacts

Effect: Continued development in the Planned Urbanizing Area would have an impact on available energy supplies. Energy consumption likely would increase substantially by 2025 as a result of implementation of the Urban Area General Plan.

Cumulative Impacts

Effect: Implementation of the Urban Area General Plan will have a cumulatively considerable impact on energy consumption.

b. Master EIR and/or New Mitigation Measures Applied to the Project

The following energy mitigation measures pertinent to the proposed project are found on pages V-18-2 through V-18-8 in the Master EIR. All mitigation measures appropriate to the project will be incorporated into or made conditions of approval of this project. Those measures will be listed in Section V, Mitigation Applied to Project.

Discussion:

No mitigation measures from the Master EIR are required. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-18.B of the Master EIR discloses impacts of implementing the Urban Area General Plan on energy resources. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
18. ENERGY				
1) The proposed project is inconsistent with policies relating to energy in the Urban Area General Plan.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
2) The proposed project would result in energy consumption during construction, operation, maintenance, or removal that is more wasteful, inefficient, and unnecessary than assumed in the Urban Area General Plan.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Discussion:

- (1) The project is consistent with the energy policies in the General Plan.
- (2) The project would not result in energy consumption during construction, operation, maintenance or removal that is more wasteful, inefficient and unnecessary than assumed in the General Plan.

19. EFFECTS ON VISUAL RESOURCES

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on visual resources expected after application of mitigations / policies:

Direct Impacts

Effect: New development in the Planned Urbanizing Area will occur in areas that are in agricultural production or are otherwise lightly developed, which could lead to the introduction of light and glare in areas that have little nighttime illumination.

Cumulative Impacts

Effect: No additional cumulative impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

The following visual resources mitigation measures pertinent to the proposed project are found on pages V-19-3 and V-19-4 in the Master EIR. All mitigation measures appropriate to the proposed project will be incorporated into or made conditions of approval of this project. Those measures will be listed in Section V, Mitigation Applied to Project.

Discussion:

No mitigation measures from the Master EIR are required. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-18.B of the Master EIR discloses impacts of implementing the Urban Area General Plan on energy resources. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
19. EFFECTS ON VISUAL RESOURCES				
1) The proposed project is inconsistent with policies relating to visual resources in the Urban Area General Plan.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
2) The proposed project would degrade views from riverside areas and parks to a greater degree than assumed in the Urban Area General Plan.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
3) The proposed project would degrade views of riverside areas from public roadways and nearby properties to a greater degree than assumed in the Urban Area General Plan.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Discussion:

- (1) The project is consistent with the policies related to the visual resources in the General Plan.
- (2-3) The project site is not in the vicinity of riverside areas and parks, and would not degrade views to riverside areas. The site is completely surrounded by residential and commercial uses. The nearest river is the Stanislaus River, four miles to the north.

20. LAND USE AND PLANNING

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts pertaining to land use and planning expected after application of mitigations / policies:

Direct Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR.

Cumulative Impacts

Effect: No residual significant cumulative impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

The following land use and planning mitigation measures pertinent to the proposed project are found on pages V-20-6 through V-20-17 in the Master EIR. All mitigation measures appropriate to the project will be incorporated into or made conditions of approval of this project. Those measures will be listed in Section V, Mitigation Applied to Project.

Discussion:

No mitigation measures from the Master EIR are required. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-20.B of the Master EIR discloses impacts of implementing the Urban Area General Plan on land use and planning. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
20. LAND USE AND PLANNING				
1) The proposed project is inconsistent with land use and planning policies in the Urban Area General Plan.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
2) The proposed project contains elements that would physically divide an established community in a way not assumed in the Urban Area General Plan.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
3) The proposed project conflicts with a land use plan, policy or regulation established for the purpose of avoiding or mitigating an environmental impact by an agency that has jurisdiction over the proposed project.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
4) The proposed project conflicts with an applicable habitat conservation plan or natural community conservation plan.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Discussion:

- (1) The land use for the site is designated as Mixed Use (MU) in the General Plan. The designation provides for residential uses; therefore, the project is consistent with the land use and planning policies in the General Plan.
- (2) The proposed project would not divide an established community. The area is developed with residential uses to the north and west and commercial uses to the south and east. Previous project approvals in the area provided for the continuance of Vintage Drive from Blue Bird Drive to Dale Road, establishing a new collector street connection to Dale Road. The proposed rezone and subsequent tentative subdivision map is consistent with the surrounding uses and would not divide the existing neighborhood.
- (3) The project does not conflict with the land use plan, policies and regulations of the City of Modesto designed to mitigate project impacts.
- (4) The project does not conflict with applicable habitat conservation plans or natural community conservation plans.

21. CLIMATE CHANGE

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts pertaining to climate change expected after application of mitigations / policies:

Direct Impacts

Effect: Impacts resulting from implementation of the Urban Area General Plan are not substantial enough to result in a significant direct impact on climate change, as disclosed in the Master EIR.

Cumulative Impacts

Effect: Implementation of the Urban Area General Plan will have a cumulatively considerable impact on climate change.

b. Master EIR and/or New Mitigation Measures Applied to the Project

The following climate change mitigation measures pertinent to the proposed project are found on pages V-21-7 through V-21-10 in the Master EIR. All mitigation measures appropriate to the project will be incorporated into or made conditions of approval of this project. Those measures will be listed in Section V, Mitigation Applied to Project.

Discussion:

No mitigation measures from the Master EIR are required. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-18.B of the Master EIR discloses impacts of implementing the Urban Area General Plan on climate change. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
21. CLIMATE CHANGE				
1) The proposed project is inconsistent with policies relating to climate change in the Urban Area General Plan.	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
2) The proposed project would result in average automobile trip lengths or CO ₂ emissions higher than those assumed in the Master EIR.	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
3) The proposed project would conflict with the Sustainable Communities Strategy or Alternative Planning Strategy that the Air Resources Board has	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
agreed will achieve the goals of AB 32.				

Discussion:

- (1) The project would be consistent with General Plan policies relating to climate change. As part of the development, installation of new street trees and common lot landscaping will be required in accordance to City codes and standards.
- (2-3) The project is consistent with General Plan policies relating to climate change and transportation and is not expected to result in trip lengths greater than those assumed in the General Plan Master EIR. No impacts greater than those assumed in the General Plan MEIR are expected to occur and no mitigation is required.

V. MITIGATION MEASURES APPLIED TO THE PROPOSED PROJECT

If the Initial Study results in the determination that a Finding of Conformance can be adopted for the proposed project Section A below applies. If the Initial Study results in the determination that a Finding of Conformance cannot be adopted and a Mitigated Negative Declaration/EIR must be prepared for the project then Section B, below applies.

A. Master EIR Mitigation Measures Applied to the Project

Pursuant to Public Resources Code Section 21157.1(c), in order for a Finding of Conformance to be made, all appropriate mitigation measures from the Master EIR shall be incorporated into the proposed project. Urban Area General Plan Policies/Master EIR mitigation measures shall be made part of the proposed project prior to approval by means of conditions of project approval or incorporation into the appropriate document or plan.

All applicable and appropriate mitigation measures have been applied to the project (see mitigation measures listed below).

B. New or Additional Mitigation Measures or Alternatives Required

Where the project's effects would exceed the significance criteria for each environmental impact category, a mitigated negative declaration or Focused EIR must be prepared. Staff has reviewed the project against the significance criteria thresholds established in the Master EIR for all impact categories in this Initial Study.

A Mitigated Negative Declaration or Focused EIR shall be prepared for the project. The following additional project-specific mitigation measures listed below are necessary to reduce the identified new significant effect:

Traffic and Circulation:

N/A

Degradation of Air Quality:

AQ-42: All disturbed areas, including storage piles, which are not being actively utilized for construction purposes, shall be effectively stabilized of dust emissions using water, chemical stabilizer/suppressant, covered with a tarp or other suitable cover or vegetative ground cover.

AQ-43: All on-site unpaved roads and off-site unpaved access roads shall be effectively stabilized of dust emissions using water or chemical stabilizer/suppressant.

AQ-44: All land clearing, grubbing, scraping, excavation, land leveling, grading, cut & fill, and demolition activities shall be effectively controlled of fugitive dust emissions utilizing application of water or by presoaking.

AQ-46: When materials are transported off-site, all material shall be covered, or effectively wetted to limit visible dust emissions, and at least six inches of freeboard space from the top of the container shall be maintained.

AQ-47: All operations shall limit or expeditiously remove the accumulation of mud or dirt from adjacent public streets at the end of each workday. (the use of dry rotary brushes is expressly prohibited except where preceded or accompanied by sufficient wetting to limit the visible dust emissions.) (Use of blower devices is expressly forbidden.)

AQ-48: Following the addition of materials to, or the removal of materials from, the surface of outdoor storage piles, said piles shall be effectively stabilized of fugitive dust emissions utilizing sufficient water or chemical stabilizer/suppressant.

AQ-49: Within urban areas, track out shall be immediately removed when it extends 50 or more feet from the site and at the end of each workday.

AQ-50: Any site with 150 or more vehicle trips per day shall prevent carryout and track out.

The following measures should be implemented at construction sites when required to mitigate significant PM10 impacts(note, these measures are to be implemented in addition to Regulation VIII requirements):

AQ-51: Limit traffic speeds on unpaved roads to 15 mph; and

AQ-52: Install sandbags or other erosion control measures to prevent silt runoff to public roadways from sites with a slope greater than one percent (1%).

AQ-53: Install wheel washers for all exiting trucks, or wash off all trucks and equipment leaving the site.

AQ-54: Install wind breaks at windward side(s) of construction areas.

AQ-55: Suspend excavation and grading activity when winds exceed 20 mph. Regardless of windspeed, an owner/operator must comply with Regulation VIII's 20 percent (20%) opacity limitation.

AQ-56: Limit the area subject to excavation, grading and other construction activity at any one time.

Generation of Noise:

N-3: The project shall comply with the City's noise ordinance. Construction equipment and vehicles should be equipped with properly operating mufflers according to the manufacturers' recommendations. Air compressors and pneumatic equipment should be equipped with mufflers, and impact tools should be equipped with shrouds or shields. Equipment that is quieter than standard equipment should be utilized. Haul routes that affect the fewest number of people should be selected.

Effects on Agricultural Lands:

N/A

Increased Demand for Long-Term Water Supplies:

N/A

Increased Demand for Sanitary Sewer Services:

N/A

Loss of Sensitive Wildlife and Plant Habitat:

N/A

Disturbance of Archaeological/Historic Sites:

Table V-8-1(b-f):

- b. Prior to excavation and construction, the prime construction contractor and any subcontractors shall be cautioned on the legal and/or regulatory implications of knowingly destroying cultural resources or removing artifacts, human remains, bottles, or other cultural materials from the project area.
- c. The project sponsor shall identify a qualified archeologist prior to any demolition, excavation, or construction. The City will approve the project sponsor's selection of a qualified archeologist. The archeologist would have the authority to temporarily halt excavation and construction activities in the immediate vicinity (ten-meter radius) of a find if significant or potentially significant cultural resources are exposed and/or adversely affected by construction operations.
- d. Reasonable time shall be allowed for the qualified archeologist to notify the proper authorities for a more detailed inspection and examination of the exposed cultural resources. During this time, excavation and construction would not be allowed in the immediate vicinity of the find; however, those activities could continue in other areas of the project site.
- e. If any find is determined to be significant by the qualified archeologist, representatives from the construction contractor and the City, the qualified archeologist, and a representative of the Native American community (if the discovery is an aboriginal burial) would meet to determine the appropriate course of action.
- f. All cultural materials recovered as part of a monitoring program would be subject to scientific analysis, professional curation, and a report prepared according to current professional standards.

Increased Demand for Storm Drainage:

SD-9: Construction activities shall comply with the requirements of the City's Storm Water Management Plan under its municipal NPDES stormwater permit, and the State Water Resources Control Board's General Permit for Discharges of Storm Water Associated with Construction Activity. (UAGP Policy V-E.3[h])

Flooding and Water Quality:

FWQ-13: Construction activities shall comply with the requirements of the City's Storm Water Management Plan under its municipal NPDES Stormwater permit, and the State Water Resources Control Board's General Permit for Discharges of Storm Water Associated with Construction Activity. **MODESTO CITY COUNCIL
RESOLUTION NO. 2019-49**

**RESOLUTION ACCEPTING THE UNITED STATES DEPARTMENT OF
TRANSPORTATION (USDOT) GRANT FUNDS IN THE AMOUNT OF
\$9,000,000 AND APPROVING A GRANT AGREEMENT WITH THE USDOT
FOR THE STATE ROUTE 132 WEST FREEWAY/EXPRESSWAY - PHASE
1 PROJECT, AND AUTHORIZING THE CITY MANAGER, OR HIS
DESIGNEE, TO EXECUTE THE NECESSARY GRANT FUND
DOCUMENTS AND GRANT AGREEMENT**

WHEREAS, the purpose of the State Route (SR) 132 West Freeway/Expressway - Phase 1 Project is to improve regional and interregional circulation, relieve traffic congestion along existing SR132, and enhance safety and operations for the existing and proposed transportation network, and

WHEREAS, Phase 1 of the Project is approximately four miles in length and will replace the existing 2-lane highway segment of SR132 along Maze Boulevard from SR99 to Dakota Avenue, and

WHEREAS, the City of Modesto was selected as a recipient for an award of \$9,000,000 under the provisions of the Consolidated Appropriations Act, 2017 (Pub. L. 115-31, May 5, 2017), regarding National Infrastructure Investments, and

WHEREAS, the purpose of the USDOT award is to advance capital investments in surface transportation infrastructure that will have a significant impact on the nation, a metropolitan area, or a region, and

WHEREAS, Counsel recommends and Staff agrees that the City should accept the grants funds and execute the Grant Agreement as presented, and

WHEREAS, this grant funding is essential to support the construction of the project, which is scheduled to start in June 2019, and

WHEREAS, the Federal Highway Administration is requiring execution of the Grant Agreement and will administer the agreement on behalf of the USDOT, and

WHEREAS, to avoid delays and potential loss of funding, Staff recommends that the City Council accept the grant funds and approve the Grant Agreement as presented by USDOT.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby accepts the United States Department of Transportation (USDOT) grant funds in the amount of \$9,000,000 and approves a Grant Agreement with the USDOT for the State Route 132 West Freeway/Expressway - Phase 1 Project.

BE IT FURTHER RESOLVED, that the City Manager, or his designee, is hereby authorized to execute the necessary grant fund documents and Grant Agreement.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 5th day of February, 2019, by Councilmember Ridenour, who moved its adoption, which motion being duly seconded by Councilmember Zoslocki, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Ah You, Grewal, Kenoyer, Madrigal, Ridenour, Zoslocki, Mayor Brandvold

**MODESTO CITY COUNCIL
RESOLUTION NO. 2019-51**

RESOLUTION ACCEPTING TRADE CORRIDOR ENHANCEMENT PROGRAM (TCEP) FUNDS FROM THE CALIFORNIA TRANSPORTATION COMMISSION (CTC) IN THE AMOUNT OF \$21,000,000 AND APPROVING A MEMORANDUM OF UNDERSTANDING WITH THE STANISLAUS COUNCIL OF GOVERNMENTS (STANCOG) FOR THE STATE ROUTE 132 WEST FREEWAY/EXPRESSWAY - PHASE 1 PROJECT, AND AUTHORIZING THE CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE THE MEMORANDUM OF UNDERSTANDING AND THE NECESSARY FUNDING DOCUMENTS

WHEREAS, the purpose of the State Route (SR) 132 West Freeway/Expressway - Phase 1 Project is to improve regional and interregional circulation, relieve traffic congestion along existing SR132, and enhance safety and operations for the existing and proposed transportation network, and

WHEREAS, Phase 1 of the Project is approximately four miles in length and will replace the existing 2-lane highway segment of SR132 along Maze Boulevard from SR99 to Dakota Avenue, and

WHEREAS, Stanislaus Council of Governments (StanCOG) made an application for Trade Corridor Enhancement Program (TCEP) funds for the State Route 132 West project and these funds were awarded by the California Transportation Commission (CTC) in the amount of \$21,000,000, and

WHEREAS, the City is the implementing agency responsible for managing the scope, cost and schedule of Phase 1 of the State Route 132 West project and application of the TCEP funds to the project, and

WHEREAS, the 2018 Trade Corridor Enhancement Program Final Guidelines provide that where the project is to be implemented by an agency other than the

applicant, the allocation request must include a copy of the Agreement between the project applicant and the implementing agency, and

WHEREAS, the CTC will allocate funds only when the City requests an allocation that has been prepared in accordance with the CTC Guidelines, and

WHEREAS, prior to requesting an allocation from the CTC, the City shall provide the allocation request to StanCOG for review and approval, and

WHEREAS, in order to comply with the CTC Guidelines, StanCOG and the City of Modesto desire to enter into this Agreement for phase 1 of the State Route 132 West project, and

WHEREAS, Counsel recommends and Staff agrees that the City should accept the funds and execute the Agreement as written, and

WHEREAS, this funding is essential to support the construction of the project, which is scheduled to start in June 2019, and

WHEREAS, to avoid delays and potential loss of funding, Staff recommends that the City Council accept the TCEP funds and approve the Memorandum of Understanding.

NOW THEREFORE BE IT RESOLVED by the Council of the City of Modesto that it hereby accepts the Trade Corridor Enhancement Program (TCEP) Funds from the California Transportation Commission (CTC) in the amount of \$21,000,000 and approves a Memorandum of Understanding with the Stanislaus Council of Governments (StanCOG) for the State Route 132 West Freeway/Expressway - Phase 1 Project.

BE IT FURTHER RESOLVED, that the City Manager, or his designee, is hereby authorized to execute the Agreement and the necessary funding documents.

RESOLUTION NO. 2019-53**

**RESOLUTION ENDING EXISTING BROKER SERVICES PROVIDED FOR
THE CITY'S MEDICAL INSURANCE COVERAGE PLANS BY PETER C. FOY
& ASSOCIATES INSURANCE SERVICES, INC.**

WHEREAS, the City of Modesto provides its employees with employee and dependent health insurance coverage; and

WHEREAS, Peter C. Foy was recommended by the Employee Benefits Advisory Committee (EBAC) consisting of representatives from each of the City's bargaining groups who reviewed options and made recommendations to City management regarding health insurance coverage; and

WHEREAS, on October 25, 2016 under Resolution 2016-427, Council approved an agreement between the City of Modesto and Peter C. Foy and Associates Insurance Services, Inc.; and

WHEREAS, the City has been experiencing significant delays in health insurance claim payments being paid to our providers, including claims being directed to collection agencies; and

WHEREAS, the City is electing to cease its relationship with Peter C. Foy and Associates Insurance Services, Inc.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby authorizes the City Manager to end the broker relationship between the City of Modesto and Peter C. Foy & Associates for group medical insurance coverage plans, and authorize the City Manager, or his designee, to execute all necessary notices.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 5th day of February, 2019, by Councilmember Ridenour, who moved its adoption, which motion being duly seconded by Councilmember Ah You, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION NO. 2019-54**

RESOLUTION APPROVING AN AGREEMENT WITH ALLIANT INSURANCE SERVICES, INC. FOR INSURANCE BROKER SERVICES FOR THE CITY'S MEDICAL COVERAGE PLAN AND AUTHORIZING THE CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE THE AGREEMENT

WHEREAS, the City of Modesto provides its employees with employee and dependent health insurance coverage; and

WHEREAS, the City contacted Alliant Insurance Services immediately following notice of the current health plan provider's failures to obtain alternative coverage options; and

WHEREAS, Alliant Insurance Services obtained quotes directly from the market and from EIA Health through CSAC, a Joint Power Agency (JPA); and

WHEREAS, after reviewing options, EIA Health was determined most comprehensive and affordable; and

WHEREAS, the City's self-insured dental and vision plan designs and administration will remain the same.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council hereby approves an agreement with Alliant Insurance Services, Inc. for participation in group medical insurance coverage.

BE IT FURTHER RESOLVED that the Council hereby approves the continuation of dental and vision coverage through the City's self-insured programs.

BE IT FURTHER RESOLVED that the Director of Human Resources is hereby authorized to serve as the coordinator for the various plans.

BE IT FURTHER RESOLVED that the City Manager is authorized to pay the difference between the old premiums and the new premiums for a period not to exceed 4 months from the Employee Benefits Fund as to minimize the harm or disruption as a result of this unplanned transition in health insurance premiums.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to execute all necessary agreements relating to employee and dependent health care as set forth herein, in a form approved by the City Attorney.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 5th day of February, 2019, by Councilmember Ridenour, who moved its adoption, which motion being duly seconded by Councilmember Ah You, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION NO. 2019-55**

RESOLUTION APPROVING A MEMORANDUM OF UNDERSTANDING TO JOIN THE CSAC EXCESS INSURANCE AUTHORITY FOR THE PURPOSE OF JOINTLY FUNDING AND ESTABLISHING EXCESS AND OTHER INSURANCE PROGRAMS; AND AUTHORIZING THE CITY MANAGER OR HIS DESIGNEE TO EXECUTE ALL AGREEMENTS

WHEREAS, on January 15, 2019 the City was notified that one of the City's medical plan providers, Fortress/Riverstone, was cancelling services, effective March 1, 2019 ; and

WHEREAS, the City reacted immediately to identify alternate options in health plan to ensure there is not a lapse in our health plans; one of the options includes to join the CSAC Excess Insurance Authority; and

WHEREAS, Article 1, Chapter 5, Division 7, Title 1 of the California Government Code (Section 6500 et seq.) permits two or more public agencies by agreement to exercise jointly powers common to the contracting parties; and

WHEREAS, the City of Modesto recommends to join together with the members of the CSAC Excess Insurance Authority (Authority) for the purpose of jointly funding and/or establishing excess and other insurance programs as determined; and

WHEREAS, the Authority has determined that it is necessary for each member of the Authority to delegate a position of authority to act on the member's behalf in matters relating to the member and the Authority.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto as follows:

1. The City Council hereby approves becoming a member of the CSAC Excess Insurance Authority.

2. Authorizes the City Manager to execute the CSAC Excess Insurance Authority Joint Powers Agreement, in form approved by the City Attorney.

3. Authorizes the City Manager, or his designee, to take all other actions necessary in matters relating to the City being a member of the Authority and to act on the City's behalf.

RESOLUTION NO. 2019-56**

RESOLUTION APPROVING A SECOND AMENDMENT TO THE RESTATED LEGAL SERVICES AGREEMENT WITH ARATA, SWINGLE, VAN EGMOND & GOODWIN IN THE AMOUNT OF \$245,000, FOR A TOTAL NOT TO EXCEED AMOUNT OF \$500,000 TO CONTINUE REPRESENTING THE CITY OF MODESTO IN TORT CASES, AND AUTHORIZING THE CITY MANAGER OR HIS DESIGNEE, TO EXECUTE THE AGREEMENT

WHEREAS, by Resolution No. 2014-241, Council approved an agreement with Arata, Swingle, Van Egmond & Goodwin, in the amount of \$200,000 to represent the City in the following types of cases: tort, trip and fall, sidewalk, road and other similar cases; and

WHEREAS, on December 12, 2017, by Resolution No. 2017-500, Council approved a Restated Legal Services Agreement in the amount of \$130,000; and

WHEREAS, on August 14, 2018, by Resolution No. 2018-328, Council approved a First Amendment to the Restated Legal Services Agreement in the amount of \$125,000, for a total agreement amount of \$255,000; and

WHEREAS, the City Attorney's Office is still in need of outside counsel services; and

WHEREAS, the City Attorney's office has drafted a Second Amendment to the Restated Legal Services agreement with Arata, Swingle, Van Egmond and Goodwin.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves a Second Amendment to the Restated Legal Services Agreement with Arata, Swingle, Van Egmond & Goodwin, in the amount of \$245,000, for a total amount not to exceed \$500,000 to continue representing the City of Modesto in tort matters, as provided in **Exhibit A attached** hereto and incorporated herein, and further

authorizes the City Attorney to execute such agreement in a form substantially similar to
Exhibit A.

BE IT FURTHER RESOLVED, that the City Manager or his designee, are hereby authorized to execute the agreement, in a form approved by the City Attorney.

The foregoing resolution was introduced in a regular meeting of the Council of the City of Modesto held on the 12th day of February, 2019, by Councilmember Ridenour, who moved its adoption, which motion being duly seconded by Councilmember Madrigal, was upon roll call carried and the resolution adopted by the following vote:

SECOND AMENDMENT TO RESTATED LEGAL SERVICES AGREEMENT

This Second Amendment to the Restated Legal Services (this “**Second Amendment**”), is made and entered into on _____ day of _____ 2019 (“**Effective Date**”), by and between the **CITY OF MODESTO**, a California Municipal Corporation (“**City**”), and **ARATA, SWINGLE, VAN EGMOND AND GOODWIN**, a Professional Corporation (“**Attorney**”), located at 1207 I Street, Modesto, California 95354. City and Attorney are hereinafter collectively referred to as the “**Parties**,” and singularly as “**Party**”.

RECITALS

WHEREAS, City and Attorney entered into a Restated Legal Services Agreement (“**Agreement**”) to provide legal advice, representation and assistance to City in defense of tort claims, as assigned; and

WHEREAS, Attorney is specially trained, experienced and competent to perform such services; and

WHEREAS, the public interest, economy and general welfare will be served by the Agreement; and

WHEREAS, City and Attorney desire to amend the Restated Agreement for further service by increasing the previously approved amount of fees from \$255,000 to \$500,000.

NOW, THEREFORE, it is hereby agreed that the Restated Legal Services Agreement between the City of Modesto and Arata, Swingle, Van Egmond and Goodwin dated December 12, 2017 authorized by Resolution No. 2017-500, amended by Resolution No. 2018-328 is amended as follows:

1. Section 2(a) of Paragraph 2, “Fees and Costs,” Hourly Rates is amended to state as follows:

“The total of all fees paid to Attorney for the performance of all services set forth in Section 1 (hereafter the “**Service**”), and for all authorized Reimbursable Expenses (as defined hereafter), shall not exceed a total sum of five hundred thousand dollars (\$500,000).”

2. **Entire Agreement.** The parties to this Second Amendment understand and agree that except as stated herein all terms and conditions of the original Agreement, dated December 12, 2017, remain in full force and effect to the extent they are not in conflict with this Second Amendment. This document, including all exhibits, contain the entire amendment to the Agreement between the Parties and supersedes whatever oral or written understanding they may have had prior to the execution of this Second Amendment. No alteration to the terms of this Second Amendment shall be valid unless approved in writing by Attorney and by City, in accordance with applicable provision of the Modesto City Code.

3. **Authority.** The person signing this Second Amendment for Attorney hereby represents and warrants that he/she is fully authorized to sign this Second Amendment on behalf of Attorney and to bind Attorney to the performance of its obligations hereunder.

IN WITNESS WHEREOF, the Parties have executed this Second Amendment as of the dates stated below.

**MODESTO CITY COUNCIL
RESOLUTION NO. 2019-57**

RESOLUTION ACCEPTING THE PUBLIC IMPROVEMENTS FOR HILLGLEN PARKS SUBDIVISION, LOCATED AT THE INTERSECTION OF HILLGLEN AVENUE AND CADEN DRIVE, AUTHORIZING THE CITY CLERK TO FILE A NOTICE OF COMPLETION WITH THE STANISLAUS COUNTY RECORDER'S OFFICE, AND TO RELEASE SECURITIES UPON EXPIRATION OF STATUTORY PERIODS

WHEREAS, NHC Holdings, LLC, a California limited liability company ("SUBDIVIDER"), is the subdivider of a tract of land consisting of 10.56 acres being subdivided into 62 residential lots and 3 Landscaping lots situated in the City of Modesto, known as the Hillglen Parks Subdivision ("SUBDIVISION"), and

WHEREAS, the City Engineer has verified that all required Public Improvements for this project have been satisfactorily completed and all inspection fees have been paid, and

WHEREAS, City crews will assume maintenance responsibilities upon acceptance of the Public Improvements, which includes the water main, sanitary sewer main, storm drainage facilities, landscape and irrigation, street trees, sidewalk and ADA ramps, streets, curbs and gutters, and street lights, and

WHEREAS, pursuant to the Subdivision Agreement, SUBDIVIDER has filed a Faithful Performance Bond in the amount of \$189,444 for SUBDIVISION, and

WHEREAS, pursuant to the Subdivision Agreement, SUBDIVIDER has filed a Payment Bond in the amount of \$189,444 for SUBDIVISION, and

WHEREAS, pursuant to the Subdivision Agreement, SUBDIVIDER has filed a Warranty Bond in the amount of \$170,869.16 for SUBDIVISION, and

WHEREAS, the developer has requested that the improvements be accepted and the securities be released, and

WHEREAS, the City Engineer has indicated that it would be in order for the City Council to accept said Public Improvements as complete and has certified that the work covered has been satisfactorily completed.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto as follows:

1. The said Public Improvements constructed by the SUBDIVIDER are hereby accepted, and the City Clerk is hereby authorized to file a Notice of Completion.
2. The City Clerk is hereby authorized to release the Subdivision Faithful Performance Bond in the amount of \$189,444 for SUBDIVISION, upon recordation of the Notice of Completion.
3. The City Clerk is hereby authorized to release the Payment Bond in the amount of \$189,444 for SUBDIVISION, sixty (60) days after recordation of the Notice of Completion, provided no claim is made thereon.
4. The City Clerk is hereby authorized to release the Warranty Bond in the amount of \$170,869.16 for SUBDIVISION one year and one day after the effective date of this resolution, provided no claim is made thereon.

The foregoing resolution was introduced in a regular meeting of the Council of the City of Modesto held on the 12th day of February, 2019, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Grewal, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2019-58**

RESOLUTION ACCEPTING THE PUBLIC IMPROVEMENTS FOR LINCOLN PARKS SUBDIVISION, LOCATED IN VILLAGE ONE AT THE SOUTH-WEST CORNER OF THE INTERSECTION OF KODIAK DRIVE AND LINCOLN OAK DRIVE, AUTHORIZING THE CITY CLERK TO FILE A NOTICE OF COMPLETION WITH THE STANISLAUS COUNTY RECORDER'S OFFICE, AND TO RELEASE SECURITIES UPON EXPIRATION OF STATUTORY PERIODS

WHEREAS, Modesto Mable, LLC, a California limited liability company ("SUBDIVIDER"), is the subdivider of a tract of land consisting of 9.52 acres, being subdivided into 58 residential lots and 4 landscaping lots known as the Lincoln Park Subdivision ("SUBDIVISION"), and

WHEREAS, the City Engineer has verified that all required Public Improvements for this project have been satisfactorily completed and all inspection fees have been paid, and

WHEREAS, City crews will assume maintenance responsibilities upon acceptance of the Public Improvements, which includes: water main, sanitary sewer main, storm drainage facilities, landscape and irrigation, street trees, sidewalk and ADA ramps, streets, curbs and gutters, and street lights, and

WHEREAS, pursuant to the Subdivision Agreement, SUBDIVIDER has filed a Faithful Performance Bond in the amount of \$1,051,231 for SUBDIVISION, and

WHEREAS, pursuant to the Subdivision Agreement, SUBDIVIDER has filed a Payment Bond in the amount of \$1,051,231 for SUBDIVISION, and

WHEREAS, pursuant to the Subdivision Agreement, SUBDIVIDER has filed a Warranty Bond in the amount of \$105,123 for SUBDIVISION, and

WHEREAS, the developer has requested that the improvements be accepted and the Bonds be released, and

WHEREAS, the City Engineer has indicated that it would be in order for the City Council to accept said Public Improvements as complete and has certified that the work covered has been satisfactorily completed.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto as follows:

1. The said Public Improvements constructed by the SUBDIVIDER are hereby accepted, and the City Clerk is hereby authorized to file a Notice of Completion.
2. The City Clerk is hereby authorized to release the Subdivision Faithful Performance Bond in the amount of \$1,051,231 for SUBDIVISION, upon recordation of the Notice of Completion.
3. The City Clerk is hereby authorized to release the Payment Bond in the amount of \$1,051,231 for SUBDIVISION, sixty (60) days after recordation of the Notice of Completion, provided no claim is made thereon.
4. The City Clerk is hereby authorized to release the Warranty Bond in the amount of \$105,123 for SUBDIVISION one year and one day after the effective date of this resolution, provided no claim is made thereon.

The foregoing resolution was introduced in a regular meeting of the Council of the City of Modesto held on the 12th day of February, 2019, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Grewal, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION NO. 2019-59**

**RESOLUTION AMENDING FISCAL YEAR 2018-2019 ANNUAL OPERATING
AND CAPITAL IMPROVEMENT FUND BUDGETS**

WHEREAS, a financial analysis has been completed and it has been determined that a budget adjustment is required to the Annual and Capital Improvement Budgets of the City of Modesto for Fiscal Year 2018-19.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves amending the Fiscal Year 2018-19 Annual Operating and Capital Improvement budget as shown in **Exhibit A**, which is **attached** hereto and incorporated by reference herein.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to take the necessary steps to implement the provisions of this resolution.

The foregoing resolution was introduced in a regular meeting of the Council of the City of Modesto held on the 12th day of February, 2019, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Madrigal, was upon roll call carried and the resolution adopted by the following vote:

EXHIBIT A

FISCAL YEAR 2018-19

UTILITIES

A budget adjustment in the amount of \$905,000 is necessary to establish project #101152, Colorado S&R Water Mains, in the Water CIP Fund (Fund 4180). This project will provide funding to replace the existing water main along Colorado Avenue generally bounded by Pelton Avenue to the South, South Avenue to the North, Roselawn Avenue to the East and Sutter Avenue to the West. The water line will be installed as a part of the Sutter Trunk realignment project which will install a 16" trunk line down Colorado Avenue. The existing water main along Colorado in this area is an old 4" undersized steel main which is prone to leaking and low pressures. The project will replace the existing system with City Standard water mains, valves and hydrants to improve system reliability, flows and pressures.

A budget adjustment in the amount of \$2,123,700 is necessary to establish project #101153, Well 68 GAC Treatment, in the Water CIP Fund (Fund 4180). This project will install a treatment system for the Del Rio Well 68. The treatment system will be located within the Tank and Well site. The City recently constructed and tested Well 68 with water quality testing performed by the City's design consultants. As a result, the presence of dibromochloropropane (DBCP) was found. Subsequent testing determined the DBCP concentration was above the maximum contaminant level (MCL) and also detected was 123 trichloropropane (TCP). In order to mitigate the two contaminants, a granular activated carbon (GAC) adsorption treatment facility will be required to be constructed at the Del Rio Tank 14, Pump Station and Well 68 site.

A budget adjustment in the amount of \$1,085,000 is necessary to establish project #101154, Sutter Avenue S&R Water Mains, in the Water CIP Fund (Fund 4180). This project will provide funding to replace approximately 3,747 LF of aged existing water mains within Stanislaus County generally bounded by Sunset Avenue on the East, Rouse Ave to the North, Sutter Ave on the West, and Pelton Avenue on the South. Existing water mains in this area are old, undersized steel mains which are prone to leaking and low pressures. This project will replace the existing system with City standard water mains, valves and hydrants to improve system reliability, flows and pressures.

A budget adjustment in the amount of \$438,000 is necessary to establish project #101155, Litt Road Gas Extension, in the Water CIP Fund (Fund 4180). The project is a critical path project as it will install the required PG&E & Comcast infrastructure to serve the newly Water Corporation Yard Project. The Water Corporation Yard is currently under construction with a completion date of October 3, 2019. The gas line will need to be installed prior to final completion of the Water Corporation Yard where it will be extended approximately 3,300 LF from Sylvan Avenue.

A budget adjustment in the amount of \$490,000 is necessary to establish project #101156, Colorado Sewer Main, in the Wastewater Fund (Fund 4210). This project will construct sewer main improvements along Colorado as part of the overall the River Trunk Realignment project. Stanislaus County is pursuing grant funding to reimburse City for construction costs.

Fund	Fund Name	Account - Revenue/Expense	Current Budget	Increase/ Decrease	Revised Budget
4180	Water Fund – CIP Projects	Project #101152 Expenditures	\$0	\$905,000	\$905,000
4180	Water Fund – CIP Projects	Project #101153 Expenditures	\$0	\$2,123,700	\$2,123,700
4180	Water Fund – CIP Projects	Project #101154 Expenditures	\$0	\$1,085,000	\$1,085,000
4180	Water Fund – CIP Projects	Project #101155 Expenditures	\$0	\$438,000	\$438,000
4210	Sewer Operations Fund (Wastewater)	Project #101156 Expenditures	\$0	\$490,000	\$490,000

RESOLUTION NO. 2019-60**

**RESOLUTION APPROVING THE PLANS AND SPECIFICATIONS FOR THE
MELLIS PARK IMPROVEMENTS PROJECT AND AWARDING THE BID AND
A CONSTRUCTION CONTRACT TO ANV CONTRACTORS, INC. OF
ATWATER, CA, IN THE AMOUNT OF \$323,390 AND AUTHORIZING THE
CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE A CONTRACT**

WHEREAS, the existing pavilion, constructed in 1996 out of large wooden cross beams, was designed to shade the picnic tables and provide a vibrant area for both large groups and families to enjoy the park, and

WHEREAS, after sustaining 25+ years of weathering, the structure is deteriorating and will soon requiring demolition or replacement, and

WHEREAS, due to the high popularity of the park as a picnic destination, staff proposes to replace the wooden beam shade structure with a lighter and more durable, metal design, and

WHEREAS, the newly designed structure will greatly increase ADA accessibility as well as provide longevity to the shade structure, and

WHEREAS, the Mellis Park renovation is one of the projects approved in the 2018/19 CIP budget, and

WHEREAS, the project was advertised for bids on December 21, 2018, and bids from 8 contractors were publically opened on January 22, 2019 pursuant to City Charter Section 1307, and

WHEREAS, ANV Contractors, Inc. of Atwater, CA, was the responsible bidder with the lowest responsive bid at 4.99% below the Engineer's Estimate.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the plans and specifications for the Mellis Park Improvements

Project and awards the bid and a construction contract to ANV Contractors, Inc. of Atwater, CA, in the amount of \$323,390.

BE IT FURTHER RESOLVED, that the City Manager, or his designee, is authorized to execute a contract, in a form approved by the City Attorney.

The foregoing resolution was introduced in a regular meeting of the Council of the City of Modesto held on the 12th day of February, 2019, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Madrigal, was upon roll call carried and the resolution adopted by the following vote:

**RESOLUTION APPROVING THE FISCAL YEAR 2017-2018 SINGLE AUDIT
REPORT FOR THE CITY OF MODESTO FROM EXTERNAL AUDITORS
HUDSON HENDERSON & COMPANY, INC**

WHEREAS, the City of Modesto Single Audit reports are federally mandated by the provisions of the Federal Single Audit Act Amendments of 1996 and Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance), which requires an audit to be conducted for any non-Federal entity that expends \$750,000 or more a year in Federal awards, and

WHEREAS, this audit was conducted by the City's external auditors, Hudson Henderson & Company, Inc., and the main objectives were to ensure a fair presentation of the basic financial statements and the schedule of expenditures of Federal awards, and to also audit the City's internal controls and compliance with legal requirements, with special emphasis on internal controls and legal requirements involving the administration of federal awards expended during the fiscal year, and

WHEREAS, as part of the City's Fiscal Year 2017-2018 Single Audit report, three audit findings were reported for the Department and Transportation and Housing Urban Development.

NOW, THEREFORE, BE IT RESOLVED, by the Council of the City of Modesto that it hereby accepts the Fiscal Year 2017-2018 Single Audit report for the City of Modesto.

**MODESTO CITY COUNCIL
RESOLUTION NO. 2019-66**

RESOLUTION APPROVING THE FISCAL YEAR 2018-19 MAINTENANCE OF EFFORT TO FUND BOTH MEASURE L AND THE ROAD REPAIR ACCOUNTABILITY ACT - ROAD MAINTENANCE AND REHABILITATION ACCOUNT AND AMENDING THE FISCAL YEAR 2018-19 OPERATING BUDGET IN THE AMOUNT OF \$1,538,605 TO BE FUNDED WITH FISCAL YEAR 2017-18 GENERAL FUND CARRYOVER FUNDS

WHEREAS, on November 6, 2016, the County voters approved Measure L, enacting a half-cent sales tax for 25 years to fund transportation improvements, and

WHEREAS, Section 9.03.01 of Measure L includes a Maintenance of Effort (MOE) requirement whereby local jurisdictions must contribute no less than its three-year average of annual expenditures from its general fund during the prior three fiscal years, and

WHEREAS, On April 28, 2017, the Governor approved Senate Bill No. 1, known as the Road Repair and Accountability Act of 2017, and

WHEREAS, the Act establishes a new Road Maintenance and Rehabilitation Account and a percentage of this new funding will be apportioned to eligible cities and counties for basic road maintenance, rehabilitation, and critical safety projects on local streets and roads systems, and

WHEREAS, the Act requires a local agency to meet the MOE requirement in order to receive funding and states that a city must maintain general fund spending for street, road, and high purposes at no less than the average of 2009-10, 2010-11, and 2011-12 fiscal years, and

WHEREAS, the City has confirmed with Stanislaus Council of Governments (StanCOG) regarding the Measure L MOE and confirmed the required amount for FY 2018-19 is \$243,000 to meet the MOE requirement, and

WHEREAS, the City has confirmed with the State Controller's Office regarding the Road Repair Accountability Act-Road Maintenance and Rehabilitation Account MOE and confirmed the required amount for FY 2018-19 is \$1,538,605 to meet the MOE requirement, and

WHEREAS, the Fiscal Year 2018-2019 Operating budget must be amended to appropriate and transfer \$1,538,605 from FY 2017-18 General Fund carryover funds to meet both the Measure L and Road Repair Accountability Act-Road Maintenance and Rehabilitation Account Maintenance of Effort FY 2018-19 requirement.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the Fiscal Year 2018-19 Maintenance of Effort to fund both Measure L and the Road Repair Accountability Act-Road Maintenance and Rehabilitation Account and amends the Fiscal Year 2018-19 operating budget to appropriate and transfer \$1,538,605 from FY 2017-18 General Fund carryover funds.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to implement the provisions of this resolution.

The foregoing resolution was introduced in a regular meeting of the Council of the City of Modesto held on the 12th day of February, 2019, by Councilmember Ridenour, who moved its adoption, which motion being duly seconded by Councilmember Ah You, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2019-67**

**RESOLUTION APPROVING A CITY CONTRIBUTION PLAN FOR THE
AWESOME SPOT PLAYGROUND (TASP) IN THE AMOUNT OF \$380,000**

WHEREAS, in 1968 the plot of land located at 3700 Beyer Park Drive was purchased with the intent to develop a community park for the enjoyment of the community, and

WHEREAS, in 1976 Council approved the master plan and the development of Beyer Community Park began in 1978, and

WHEREAS, in 1986, the play equipment at Beyer Community Park was installed, and was used and enjoyed by the community for more than 30 years, and

WHEREAS, in 2017 the City determined that the equipment had become a safety hazard and must be removed for the protection of the public, and

WHEREAS, in 2015, the community members and staff began the planning and design of a playground that would be considered “inclusive,” and provide accessibility to people of all ages with a wide range of physical abilities to be able to play together side-by-side, and

WHEREAS, in March of 2016, by Resolution No. 2016-103, Council approved a Grant and License Agreement with Shane’s Inspiration for the design services related to the development of an inclusive playground at Beyer Community Park that has been since officially titled “The Awesome Spot Playground” (TASP), and

WHEREAS, on June 5, 2018, By Resolution 2018-191, Council approved an updated fiscal sponsorship agreement with Valley Mountain Regional Center (VMRC) to

act as the non-profit sponsor of the project, and fund raising for the project began in earnest, and

WHEREAS, to date The Awesome Spot Playground Team has in hand or committed funding of approximately \$819,000, and

WHEREAS, in June of 2018, at the request of the TASP Team during the budget hearings, City Council recognized the value of this playground for our community and agreed to consider direct funding of the project from the General Fund carryover from FY17/18 once the final budget numbers were determined in fall 2018, and

WHEREAS, at Council's request, each City department considered the most feasible and appropriate way to support TASP development and prepared a contribution plan that would sponsor TASP for a total not to exceed \$380,000.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves a City contribution plan for The Awesome Spot Playground (TASP) in the amount of \$380,000.

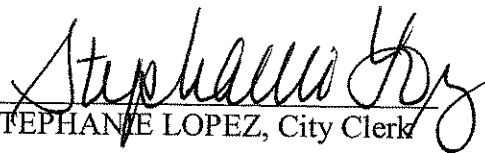

The foregoing resolution was introduced in a regular meeting of the Council of the City of Modesto held on the 12th day of February, 2019, by Councilmember Madrigal, who moved its adoption, which motion being duly seconded by Councilmember Kenoyer, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION NO. 2019-69**

**RESOLUTION DIRECTING STAFF TO PREPARE AND FILE THE 2019-2020
ANNUAL ENGINEER'S REPORT FOR CITY OF MODESTO LANDSCAPE
MAINTENANCE ASSESSMENT DISTRICT NO. 1**

WHEREAS, Resolution No. 88-935 adopted by the Council of the City of Modesto on December 13, 1988, initiated proceedings for the formation of Landscape Assessment District No. 1 (LMAD No. 1) to provide funding for the landscape maintenance in the public right-of-way, street medians and adjacent to the access control walls in Dry Creek Meadows Subdivisions Nos. 1-6, and

WHEREAS, LMAD No. 1 was formed in accordance with the Landscaping and Lighting Act of 1972 (Streets and Highways Code Sections 22500 through 22679), and comprised of 749 single-family residential lots and three (3) public agency owned parcels, and

WHEREAS, Section 22620 et. seq. of the Streets and Highways Code requires the legislative body (the City Council) adopt a resolution which shall generally describe any proposed new improvements or any substantial changes in existing improvements and orders the preparation and filing of the report, and

WHEREAS, the annual assessment for LMAD No. 1 has remained the same since 1996, and

WHEREAS, staff does not anticipate any new improvements or substantial changes in existing improvements.

NOW, THEREFORE, BE IT RESOLVED that the City Engineer is designated by this Council as the Engineer of Work for LMAD No. 1, and is hereby directed to prepare and file an annual report in accordance with the provisions of the Landscaping and

Lighting Act of 1972, as amended (Streets and Highways Code Sections 22500 through 22679).

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 26th day of February, 2019, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Zoslocki, was upon roll call carried and the resolution adopted by the following vote:

**RESOLUTION DIRECTING STAFF TO PREPARE AND FILE THE 2019-2020
ANNUAL ENGINEER'S REPORT FOR LANDSCAPE MAINTENANCE
ASSESSMENT DISTRICT NO. 2**

WHEREAS, Resolution No. 89-460, adopted by the Council of the City of Modesto on April 4, 1989, initiated proceedings for the formation of Landscape Maintenance Assessment District No. 2 (LMAD No. 2) to provide funding for the landscape maintenance in the public right-of-way, street medians, and areas adjacent to the access control walls in Dry Creek Meadows Subdivisions Nos. 7 through 10, Creekwood Meadows Subdivision, and Yosemite Meadows Subdivisions Units 1 and 2, and

WHEREAS, LMAD No. 2 was formed in accordance with the Landscaping and Lighting Act of 1972 (Streets and Highways Code Sections 22500 through 22679), and

WHEREAS, Section 22620 of the Streets and Highways Code requires the legislative body (the City Council) to adopt a resolution which shall generally describe any proposed new improvements or any substantial changes in existing improvements and direct staff to prepare and to file a report accordingly, and

WHEREAS, the annual assessment for LMAD No. 2 has gradually increased since July 2000, and

WHEREAS, staff does not anticipate any new improvements or substantial changes in existing improvements.

NOW, THEREFORE, BE IT RESOLVED, that the City Engineer is designated by this City Council as the Engineer of Work for LMAD No. 2, and is hereby directed to prepare and file an annual report in accordance with the provisions of the Landscaping

and Lighting Act of 1972, as amended, (Streets and Highways Code Sections 22500 through 22679).

RESOLUTION NO. 2019-71**

**RESOLUTION DIRECTING STAFF TO PREPARE AND FILE THE 2019-2020
ANNUAL ENGINEER'S REPORT FOR THE SHACKELFORD LANDSCAPE
AND LIGHTING DISTRICT**

WHEREAS, on June 29, 1999, the County of Stanislaus formed the Shackelford Landscape and Lighting District (Shackelford LLD) for the purpose of administering the maintaining seventy-seven (77) 200-watt high-pressure sodium streetlights, and

WHEREAS, the Shackelford LLD was formed in accordance with the Landscaping and Lighting Act of 1972 (Streets and Highways Code Sections 22500 through 22679), and

WHEREAS, the Shackelford LLD is comprised of approximately 153 acres, includes 496 lots with both residential and commercial development, and is bounded by Crows Landing Road on the west, East Hatch Road on the south, Union Pacific Railroad on the east, and State Route 99 on the north, and

WHEREAS, on July 1, 2012, the City of Modesto assumed jurisdiction of the Shackelford Landscape and Lighting District from the County of Stanislaus, and

WHEREAS, Section 22620 of the Streets and Highways Code requires the legislative body (the City Council) to adopt a resolution which shall generally describe any proposed new improvements or any substantial changes in existing improvements and direct staff to prepare and to file a report accordingly, and

WHEREAS, the annual assessment for the Shackelford LLD has gradually increased since June 1999, and

WHEREAS, staff does not anticipate any new improvements or substantial changes in existing improvements.

NOW, THEREFORE, BE IT RESOLVED that the City Engineer is designated by this Council as the “Engineer of Work” for the Shackelford LLD, and is hereby directed to prepare and file an annual report in accordance with the provisions of the Landscaping and Lighting Act of 1972, as amended (Streets and Highways Code Sections 22500 through 22679).

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 26th day of February, 2019, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Zoslocki, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2019-72**

RESOLUTION APPROVING A PURCHASE AND SALE AGREEMENT WITH JOANNE DEMATTOS, ET AL. FOR ACQUISITION OF 2,606 SQUARE FEET (0.060 ACRES) LOCATED AT 525 CLARATINA AVENUE, IN MODESTO, (APN: 082-009-009), IN THE AMOUNT OF \$10,500, FOR THE HETCH HETCHY AND CLARATINA AVENUE STRUCTURAL CROSSING PROJECT, AND AUTHORIZING THE CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE THE AGREEMENT AND ALL DOCUMENTS REQUIRED TO CLOSE ESCROW

WHEREAS, the Hetch Hetchy and Claratina Avenue Structural Crossing Project (Project) intends to widen Claratina Avenue between McHenry Avenue and Coffee Road and to build a structural utility crossing as part of its widening of Claratina Avenue, and

WHEREAS, in order to construct the Project, the City will need to acquire narrow strips of land from properties on the north side of Claratina Avenue, and

WHEREAS, on May 31, 2017, the City Manager approved an agreement with Associated Right of Way Services (ARWS) to provide negotiation and acquisition services, and

WHEREAS, on April 24, 2018, staff received Council authorization to present the Appraisal Summary Statement and Summary of the Basis for Just Compensation to JoAnne DeMattos, et al. (Owner) for a partial acquisition of a 2,606 square foot portion of real property of the affected parcel (A.P.N. 082-009-009) located at 525 Claratina Avenue, and

WHEREAS, the Owner rejected the offer presented by ARWS and submitted a counter offer to the City for consideration, and

WHEREAS, further negotiations were conducted pursuant to authority given by Council, which has been agreed upon by the Owner for Partial Fee Acquisition in the

amount of \$10,000 and Owner Notary Fee expenses in the amount of \$500 for a total amount of \$10,500, and

WHEREAS, estimated closing costs of \$1,351 are in addition to Owner compensation, and

WHEREAS, this item was considered by the Economic Development Committee on February 6, 2019, which recommended it to be forward to Council for approval, and

WHEREAS, City staff recommends approving the Purchase and Sale Agreement for acquisition of the property.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves a Purchase and Sale Agreement with JoAnne DeMattos, et al. for acquisition of 2,606 square feet (0.060 acres) located at 525 Claratina Avenue, in Modesto, (APN: 082-009-009), in the amount of \$10,500, for the Hetch Hetchy and Claratina Avenue Structural Crossing Project.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is authorized to execute the agreement and all documents required to close escrow.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 26th day of February, 2019, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Zoslocki, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION NO. 2019-73**

RESOLUTION APPROVING THE GRANT DEED FROM JOANNE DEMATTOS, ET AL. CONSISTING OF 2,606 SQUARE FEET (0.060 ACRES) LOCATED AT 525 CLARATINA AVENUE, IN MODESTO, (APN: 082-009-009), FOR THE HETCH HETCHY AND CLARATINA AVENUE STRUCTURAL CROSSING PROJECT, AND AUTHORIZING THE CITY MANAGER, OR HIS DESIGNEE, TO SIGN THE CERTIFICATE OF ACCEPTANCE FOR THE GRANT DEED

WHEREAS, the Hetch Hetchy and Claratina Avenue Structural Crossing Project (Project) intends to widen Claratina Avenue between McHenry Avenue and Coffee Road and to build a structural utility crossing as part of its widening of Claratina Avenue, and

WHEREAS, in order to construct the Project, the City will need to acquire narrow strips of land from properties on the north side of Claratina Avenue, and

WHEREAS, a Grant Deed is required from the property owner to transfer the property to the City of Modesto, and

WHEREAS, the Grant Deed requires signatures of the property owner and of the City of Modesto, and

WHEREAS, City staff is recommending the City execute and accept the Grant Deed.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves a Grant Deed from JoAnne DeMattos, et al. for acquisition of 2,606 square feet (0.060 acres) located at 525 Claratina Avenue, in Modesto, (APN: 082-009-009), for the Hetch Hetchy and Claratina Avenue Structural Crossing Project.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to sign the Certificate of Acceptance for acquisition of 2,606 square feet

(0.060 acres) located at 525 Claratina Avenue, in Modesto, (APN: 082-009-009) to be conveyed to the City of Modesto.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 26th day of February, 2019, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Zoslocki, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2019-74**

RESOLUTION FINDING THAT THE “HETCH HETCHY AND CLARATINA AVENUE STRUCTURAL CROSSING” AND “CLARATINA AVENUE WIDENING - MCHENRY TO COFFEE PHASE 2” PROJECTS ARE WITHIN THE SCOPE OF THE PROJECTS COVERED BY THE MODESTO URBAN AREA GENERAL MASTER PLAN ENVIRONMENTAL IMPACT REPORT (SCH#2007072023)

WHEREAS, on October, 14, 2008, Resolution No. 2008-582 certified the Modesto Urban Area General Plan Master Environmental Impact Report (Master EIR) (SCH No. 2007072023), and

WHEREAS, the City of Modesto has proposed the “Hetch Hetchy and Claratina Avenue Structural Crossing” and “Claratina Avenue Widening - McHenry to Coffee Phase 2” projects will widen Claratina Avenue between McHenry Avenue and Coffee Road and build a structural utility crossing as part of its widening of Claratina Avenue, and

WHEREAS, pursuant to Section 21157.1 of the Public Resources Code, the City of Modesto’s Community & Economic Development Department has prepared an Environmental Assessment Initial Study C&ED No. 2017-003 (“Initial Study”), which analyzed whether the “Claratina Avenue Widening” project, may cause any significant effect on the environment that was not examined in the Master EIR and whether the subsequent project was described in the Master EIR as being within its scope, and

WHEREAS, in accordance with CEQA guidelines, beginning on February 25, 2018, the City caused to be published a 10-day notice of the City’s intent to make a finding that the proposed project conforms with the Master EIR, and

WHEREAS, said matter was considered by the City Council at a regular meeting

on February 26, 2019, at 5:30 p.m., in the Tenth Street Place Chambers, 1010 Tenth Street, Modesto, California.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it has reviewed and considered the Initial Study prepared for the proposed Project, a copy of which is **attached** hereto as **Exhibit "A"** and incorporated herein by reference, and based on the substantial evidence included in the Initial Study makes the following findings:

1. An Initial Study was prepared by the City of Modesto that analyzed whether the subsequent project may cause any significant effect on the environment that was not examined in the Master EIR and whether the subsequent project was described in the Master EIR as being within the scope of the report.
2. The subsequent project will have no additional significant effect on the environment, as defined in subdivision (d) of Section 21158 of the Public Resources Code, that was not identified in the Master EIR and Tivoli Specific Plan EIR.
3. No new or additional mitigation measures or alternatives are required.
4. The subsequent project is within the scope of the project covered by the Master EIR and the Tivoli Specific Plan EIR.
5. All applicable policies, regulations, and mitigation measures identified in the Master EIR and Tivoli Specific Plan EIR have been applied to the subsequent project or otherwise made conditions of approval of the subsequent project.
6. No substantial changes have occurred with respect to the circumstances under which the Master EIR was certified, and no new information, which was not known and could not have been known at the time that the Master EIR and Tivoli Specific Plan EIR was certified as complete, has become available.

BE IT FURTHER RESOLVED by the Council of the City of Modesto that the Director of Community & Economic Development Department is hereby authorized and directed to file a notice of determination within five (5) business days with the Stanislaus County Clerk, pursuant to Section 21152 of the Public Resources Code.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 26th day of February, 2019, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Zoslocki, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Ah You, Grewal, Kenoyer, Madrigal, Ridenour, Zoslocki, Mayor Brandvold

City of Modesto

Master EIR Initial Study Environmental Checklist

I. PURPOSE

CEQA allows for the limited environmental review of subsequent projects under the City's Master Environmental Impact Report ("Master EIR" or "MEIR"). This Initial Study Environmental Checklist ("Initial Study") is used in determining whether the Claratina Avenue widening project is "within the scope" of the project analyzed in the Modesto Urban Area General Plan Master EIR (SCH# 2007072023) and Tivoli Specific Plan EIR (SCH#2005072125) (Public Resources Code section 21157.1). When the Initial Study supports this conclusion, the City will issue a finding of conformance.

A subsequent project is "within the scope" of the Master EIR when:

1. it will have no additional significant effects on the environment that were not addressed as significant effects in the Master EIR; and
2. no new or additional mitigation measures or alternatives are required.

"Additional significant effects" means a project-specific effect that was not addressed as a significant effect in the Master EIR. [Public Resources Code Section 21158(d)]

The determination must be based on substantial evidence in the record. "Substantial evidence" means facts, reasonable assumptions predicated upon facts, or expert opinion based on facts. It does not include speculation or unsubstantiated opinion. (CEQA Guidelines Section 15384)

The Tivoli Specific Plan EIR (SCH #2005072125) is referred to for its traffic analysis, as the Tivoli Specific Plan area lies approximately one mile east of the terminus of this project, the intersection of Claratina Avenue and Coffee Road. San Francisco Public Utilities Commission's Mitigated Negative Declaration for the Rehabilitation of the Existing San Joaquin Pipelines (SCH#2010082008) is referred to for a description of impacts relating to the installation of a portion of pipeline under the proposed bridge and inspection and rehabilitation of the existing pipelines under the proposed bridge. A description of work is on pages A-7 through A-11 and construction practices on pages A-28 through A-29.

II. PROJECT DESCRIPTION

- A. Title: Claratina Avenue widening
- B. Address or Location: Between McHenry Avenue and Coffee Road
- C. Applicant: City of Modesto
- D. City Contact Person: Vickey Dion, City Engineer

Project Manager: Scott Collins
Department: Community & Economic Development
Phone Number: (209) 577-5426
E-mail address: scollins@modestogov.com

- E. Current General Plan Designation(s): Claratina Avenue is designated a six-lane expressway in the General Plan.
- F. Current Zoning Classification(s): Not applicable to a roadway.
- G. Surrounding Land Uses:
North: Car dealerships, entertainment, and small farms in Modesto's Sphere of Influence / Stanislaus County (planned for commercial and residential)
South: Mostly automobile-related businesses and residential development in Modesto
East / West: East of Coffee Road and west of McHenry Avenue, the land uses are similar to that described above. Properties north of Pelandale Avenue / Claratina Avenue are within Modesto's Sphere of Influence.

- H. Project Description, including the project type listed in Section II.C (Anticipated Future Projects) of the Master EIR (Attach additional maps/support materials as needed for complete record):

The project is located at the northern edge of Modesto, just east of McHenry Avenue / State Route 108, as shown on **Figure 1**. Claratina Avenue is the easterly extension of Pelandale Avenue, which is a six-lane expressway from State Route 99 to McHenry Avenue / State Route 108.

The General Plan designates this facility as a six-lane expressway, which allows for, but does not mandate, widening up to six lanes, nor does the General Plan specify a year by which it must be widened. Typically, roads are widened in response to need (traffic volumes and congestion) and available funding. A traffic study will be prepared to help determine how many lanes will be built at this time and whether the intersection of Claratina Avenue and Coffee Road will be built as a roundabout or as a signalized intersection.

This evaluation assumes the worst-case scenario of widening to six lanes unless stated otherwise. Two other options are under consideration: widening to five lanes (three eastbound lanes and two westbound lanes) and widening to four lanes. Widening to six lanes would include purchases of larger pieces of adjoining lots than would be required for widening to four lanes. One dwelling, located at 301 Claratina Avenue (APN 082-009-003), would be demolished as part of the right of way acquisition, displacing the tenants of that building. Road widening to six lanes would encroach on all properties located at the Claratina Avenue / Coffee Road intersection, including the fenced portion of the PG & E substation located near the southwest corner of the intersection of Claratina Avenue and Coffee Road. Additionally, the project would change the Claratina Avenue right-of-way crossing of the San Francisco Public Utilities Commission's (SFPUC) San Joaquin Pipeline System, referred to locally as Hetch Hetchy, requiring additional infrastructure to protect the water transmission pipelines and mitigate potential impacts to operations and maintenance of this system.

The proposed project is comprised of two phases, which are being designed separately, but which may be built either consecutively or concurrently. Typical features include:

- A maximum road width of 135 feet for the six-lane option, 124 feet for the five-lane option, and 124 feet for the four-lane option. (The four-lane option would include a median swale.)
- Travel lanes and turn pockets would typically be 11 to 12 feet wide.
- Sidewalks would typically be 10 feet wide.
- Where turn pockets and acceleration / deceleration lanes are proposed, they would typically be 12 to 14 feet wide.
- A variable-width raised median (typically 16 feet wide) would separate two-way traffic.
- A variable width shoulder (typically eight feet wide) would lie along much of the road.

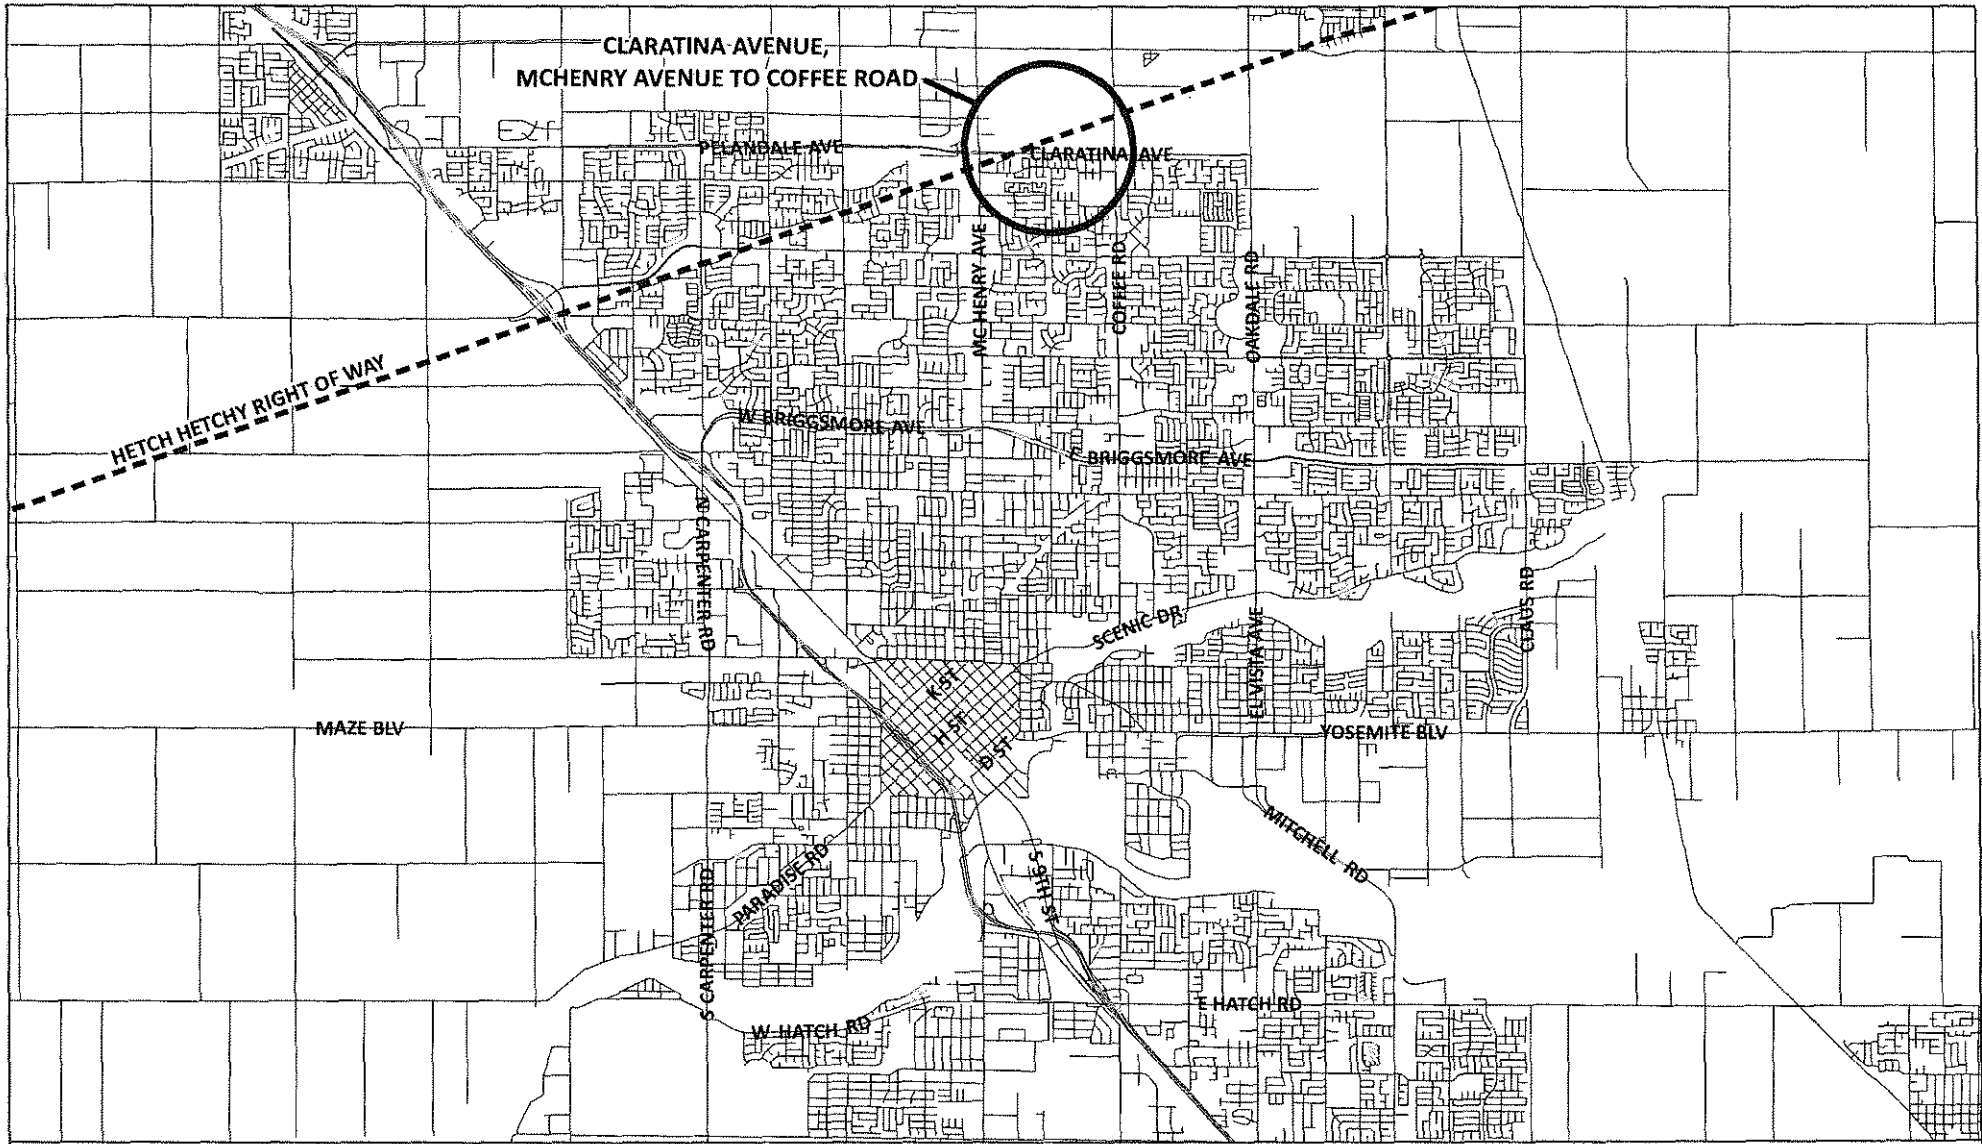

Figure 1: Claratina Avenue Widening, Vicinity Map

City of Modesto
 General Plan Master EIR

Initial Study EA No. 2017-03

January 26, 2018

(Intentional Blank Page)

- A Class I bike path (typically 20 to 30 feet with landscaping) would be located on the south side of Claratina Avenue.
- Utilities will be relocated and street lighting, curb and gutter, storm drainage improvements, irrigation, and landscaping.

Studies to consider road widening and intersection design, storm drainage, irrigation, and landscaping will be prepared prior to final design of Phase 2.

Since the Claratina Avenue widening project will expand the roadway and include additional infrastructure (e.g. sidewalk, bike path, lighting) over the SFPUC's San Joaquin Pipelines, the SFPUC must assess the condition of the pipelines, perform necessary repairs arising pursuant to this condition assessment, and install necessary protective infrastructure. Where these subsurface pipelines are crossed by the Claratina Avenue widening project, the City of Modesto will construct a protective bridge structure over the pipelines during Phase 1 of the project. At this time, the SFPUC will excavate the pipelines, perform a condition assessment, re-coat and repair the pipelines as necessary, and install cathodic protection and a redundant pipeline segment. This will eliminate the need to disturb the bridge structure and roadway for pipeline maintenance or in the event there is a failure of one of the San Joaquin Pipelines under the Claratina Avenue crossing.

Phase 1 is the construction of a bridge over the San Joaquin Pipelines, which carry water from Hetch Hetchy Reservoir in the Sierra Nevada Mountains to the San Francisco Bay Area. Currently, there are three pipelines, but a 350-foot segment of pipeline will be installed adjacent to the other pipelines to provide for redundancy. While work on the bridge is under way, the City and County of San Francisco will excavate San Joaquin Pipeline Number 1 and San Joaquin Pipeline Number 3 for inspection and re-coating to prevent corrosion. The excavated trench for each pipe will be approximately 12 feet deep, 30 feet wide, and extend 25 feet beyond the edge of roadway for an approximate length of 350 feet each trench.

The bridge would be about 100 feet wide to allow the construction of a six-lane expressway, compared to the existing approximately 26-foot-wide roadway. Bent and abutment footings will be about three feet deep, but pier depths will be approximately 37.5 to 51 feet deep and the excavated dirt will be hauled off site for disposal. Groundwater has been located at approximately 40 feet in the vicinity, so dewatering may be necessary. The redundant pipeline segment will be installed as part of the bridge widening and the pipeline segment is expected to extend approximately 25 feet beyond the north and south ends of the bridge to avoid disturbing the proposed new bridge and to provide access to the ends of the new pipeline segment under the bridge. The total length of the excavated trench for the redundant pipeline will be approximately 350 feet and will be 12 feet deep and 30 feet wide.

Phase 2 is the widening of Claratina Avenue to either (a) two lanes in each direction, (b) three lanes in each direction, or (c) three lanes eastbound and two lanes westbound, depending upon what is needed at this time. In accordance with the City's adopted roundabout policy (City Council Resolution 2004-451), the City Engineer will recommend road widening and intersection treatment based upon the results of the traffic evaluation.

The intersection of Claratina Avenue and Coffee Road will either be a roundabout or a signalized intersection. A signalized intersection is more likely to have a larger footprint than a roundabout and would require the acquisition of more right of way.

Conceptual roadway cross sections for Claratina Avenue are illustrated on **Figure 2**. **Figure 3** shows the six-lane maximum facility and **Figure 4** shows the maximum roundabout and signalized intersection options for the project.

Impacts for Phase 1 and Phase 2 of the project described in the below analysis are similar unless specified. This analysis assumes the worst-case scenario and the largest area of disturbance.

I. Other Public Agencies Whose Approval is Required:

- ▶ City and County of San Francisco
- ▶ County of Stanislaus: Modesto secured approval from the Board of Supervisors at the Board's November 21, 2017, meeting to allow the City of Modesto to acquire right of way for the widening of Claratina Avenue.

III. FINDINGS/DETERMINATION (SELECT ONE ON THE BASIS OF THE ANALYSIS IN SECTION IV)

1. **Within the Scope** - The project is within the scope of the Master EIR and Tivoli Specific Plan EIR and no new environmental document or Public Resources Code Section 21081 findings are required. All of the following statements are found to be true:

- A. The subsequent project will have no additional significant effect on the environment, as defined in subdivision (d) of Section 21158 of the Public Resources Code, that was not identified in the Master EIR and Tivoli Specific Plan EIR.
- B. No new or additional mitigation measures or alternatives are required.
- C. The subsequent project is within the scope of the project covered by the Master EIR and the Tivoli Specific Plan EIR.
- D. All applicable policies, regulations, and mitigation measures identified in the Master EIR and Tivoli Specific Plan EIR have been applied to the subsequent project or otherwise made conditions of approval of the subsequent project.
- E. No substantial changes have occurred with respect to the circumstances under which the Master EIR was certified, and no new information, which was not known and could not have been known at the time that the Master EIR and Tivoli Specific Plan EIR was certified as complete, has become available.

2. **Mitigated Negative Declaration Required** - On the basis of the above determinations, the project is not within the scope of the Master EIR. A mitigated negative declaration will be prepared for the project. The following statements are all found to be true:

- A. The subsequent project is within the scope of the project covered by the Master EIR.
- B. All applicable policies, regulations, and mitigation measures identified in the Master EIR have been applied to the subsequent project or otherwise made conditions of approval of the subsequent project.
- C. The project will have one or more potential new significant effects on the environment that were not addressed as significant effects in the Master EIR. New or additional mitigation measures are being required of the project that will reduce the effects to a less-than-significant level.
- D. No substantial changes have occurred with respect to the circumstances under which the Master EIR was certified, and no new information, which was not known and could not have been known at the time that the Master EIR was certified as complete, has become available.

3. **Focused EIR Required**- On the basis of the above determinations, the project is not within the scope of the Master EIR. A Focused EIR will be prepared for the project. All of the following statements are found to be true:

- A. The subsequent project is within the scope of the project covered by the Master EIR.

- B. All applicable policies, regulations, and mitigation measures identified in the Master EIR have been applied to the subsequent project or otherwise made conditions of approval of the subsequent project.
- C. The project will have one or more new significant effects on the environment that were not addressed as significant effects in the Master EIR. New or additional mitigation measures or alternatives are required as a result.
- D. No substantial changes have occurred with respect to the circumstances under which the Master EIR was certified, and no new information, which was not known and could not have been known at the time that the Master EIR was certified as complete, has become available.

Project Manager

Title

Date

4. Within the Scope Analysis of this Document:

The Master EIR allows projects to be found within the scope of the MEIR if certain criteria are met. If the following statements are found to be true for all 21 impact categories included in this Initial Study, then the proposed project is addressed by the MEIR analysis and is within the scope of the MEIR. Any "No" response must be discussed.

	YES	NO
(1) The lead agency for subsequent projects shall be the City of Modesto or a responsible agency identified in the Master EIR.	X	<input type="checkbox"/>
(2) City policies which reduce, avoid, or mitigate environmental effects will continue to be in effect and, therefore, would be applied to subsequent projects where appropriate. The policies are described in the list of policies in place and mitigation measures attached to the Initial Study template. Project impacts would be mitigated to a less-than-significant level using MEIR mitigations only.	X	<input type="checkbox"/>
(3) Federal, State, regional, and Stanislaus County regulations do not change in a manner that is less restrictive on development than current law (i.e., would not offer the same level of protection assumed under the Master EIR).	X	<input type="checkbox"/>
(4) No specific information concerning the known or potential presence of significant resources is identified in future reports, or through formal or informal input received from responsible or trustee agencies or other qualified sources.	X	<input type="checkbox"/>
(5) The development will occur within the boundaries of the City's planning area as established in this Urban Area General Plan.	X	<input type="checkbox"/>
(6) Development within the project will comply with all appropriate mitigation measures contained and enumerated in the 2008 General Plan Master EIR.	X	<input type="checkbox"/>

Discussion:

- (1) The City of Modesto is the lead agency for this project, which concerns the widening of a local road.
- (2) Mitigation measures drawn from the General Plan Master EIR and enumerated in this environmental document will be applied to the proposed project.
- (3) No revisions to existing regulations are known to have occurred that would be less restrictive than existing law. Current regulatory protections are similar to those assumed in the General Plan Master EIR.
- (4) There are known significant resources in the vicinity of the road widening project.
- (5) The widening of Claratina Avenue will occur entirely within the corporate limits of the City of Modesto or within the city's Sphere of Influence, as set forth in the General Plan and its Master EIR.
- (6) The proposed project will implement all appropriate mitigation measures from the General Plan Master EIR. The mitigation measures appropriate to this project are included in this environmental document.

5. Currency of the Master EIR Document

The MEIR should be reviewed on a regular basis to determine its currency, and whether additional analysis/mitigation should be incorporated into the MEIR via a Supplemental or Subsequent EIR (CEQA Section 21157.6). Staff has reviewed Sections 1 through 21 of this document in light of the criteria listed below to determine whether the MEIR is current. The analysis contained within the Master EIR is current as long as the following circumstances have not changed. Any "no" response must be explained.

		YES	NO
(1)	Certification of the General Plan Master EIR occurred less than five years prior to the filing of the application for this subsequent project.	<input type="checkbox"/>	<input checked="" type="checkbox"/>
(2)	This project is described in the Master EIR and its approval will not affect the adequacy of the Master EIR for any subsequent project because the City can make the following findings:	<input checked="" type="checkbox"/>	<input type="checkbox"/>
(a)	No substantial changes have occurred with respect to the circumstances under which the Master EIR was certified.	<input checked="" type="checkbox"/>	<input type="checkbox"/>
(b)	No new information, which was not known and could not have been known at the time the Master EIR was certified as complete, has become available.	<input checked="" type="checkbox"/>	<input type="checkbox"/>
(c)	Policies remain in effect which require site-specific mitigation, and avoidance or other mitigation of impacts as a prerequisite to future development.	<input checked="" type="checkbox"/>	<input type="checkbox"/>

Discussion:

- (1) The General Plan Master EIR was certified on October 14, 2008, so more than five years has passed since the MEIR was certified. However, the analysis contained in the MEIR is still adequate for subsequent projects, as documented in the discussion below.
- (2) The proposed project is described in the General Plan and is consistent with the analysis contained in the General Plan Master EIR. This is documented in the discussion of the individual issue areas of this initial study.
 - (2)(a) There have been no substantive changes to the General Plan since the MEIR was certified that would create additional significant environmental effects that were not analyzed by the MEIR.
 - (2)(b) There has been no new information that would affect the adequacy of the analysis contained in the MEIR.
 - (2)(c) All policies contained in the MEIR that require site-specific mitigation or avoidance of impacts remain in effect and will be applied to the project as appropriate.

IV. ENVIRONMENTAL ANALYSIS

This Initial Study, in accordance with Section 21157.1(b) of the Public Resources Code, discloses whether the proposed project may cause any project-specific significant effect on the environment that was not examined in the Final Master EIR (MEIR) for the General Plan and whether new or additional mitigation measures or alternatives may be required as a result. The Initial Study thereby documents whether or not the project is "within the scope" of the Master EIR.

Pursuant to Public Resources Code Section 21157.1, no new environmental document or findings are necessary for projects that are determined to be within the scope of the MEIR. Adoption of the findings specified in Section III.1, above after completion of the Initial Study fulfills the City's obligation in that situation.

All environmental effects cited reflect 2025 conditions resulting from the Urban Area General Plan, as identified in the Master EIR.

The environmental impact analysis in the Master EIR for the Urban Area General Plan is organized in twenty-one subject areas. The following analysis is based on the impact analyses contained in Chapter V of the Master EIR. For ease of reference, the sections are numbered in the same order as the analyses in Chapter V.

1. TRAFFIC AND CIRCULATION

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable traffic and circulation impacts expected after application of mitigations / policies:

Direct Impacts

Effect: Increased automobile traffic will result in roadway segments (see MEIR on Table 1-7, pages V-1-32 to V-1-34) operating at LOS D, Modesto's significance threshold for automobile traffic, or lower (LOS E or F).

Effect: The substantial increase in traffic relative to the existing load and capacity of the street system will cause, either individually or cumulatively, the violation of automobile service standards established by StanCOG's Congestion Management Plan for designated roads and highways.

Effect: A substantial increase in automobile vehicle miles traveled and automobile vehicle hours of travel and a decrease in average automobile vehicle speed (see MEIR Table 1-6, page V-1-31).

Cumulative Impacts

Effect: Potential for growth inducement or acceleration of development resulting from highway and local road projects.

Effect: Substantial increase in traffic in relation to the existing traffic load and capacity of the street system, including a violation, either individually or cumulatively, of an automobile LOS standard established by the Congestion Management Plan for designated roads and highways.

Effect: Increased demand for capacity-enhancing alterations to existing roads or automobile traffic reduction.

Other impact categories affected by Traffic and Circulation are addressed throughout this Initial Study (see also Section 2, Degradation of Air Quality; Section 3, Generation of Noise; Section 7 Loss of Sensitive Wildlife and Plant Habitat; Section 8, Disturbance of Archaeological/Historic Sites; Section 14 Increased Demand for Fire Services; Section 18, Energy; Section 19, Visual Resources; Section 20, Land Use and Planning, and Section 21, Climate Change).

b. Master EIR and/or New Mitigation Measures Applied to the Project

Traffic and Circulation mitigation measures pertinent to this project are found on MEIR pages V-1-9 through V-1-28 and in the Tivoli Specific Plan EIR. All mitigation measures appropriate to the project, including any new measures, will be incorporated into or made conditions of approval of this project and are listed in Section V, Mitigation Measures Applied to Project.

Discussion:

There is no need to mitigate project impacts beyond what is described in the General Plan Master EIR, as this project was described and was evaluated in the Master EIR. General Plan MEIR policies applied to this project include TC-5 TC-9, TC-25, TC-29, TC-34, TC-35, and TC-36. Tivoli Specific Plan EIR mitigations include D.3 (page IV.D.48) and D.4 (page IV.D.53). No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-1.B of the Master EIR provides analysis of Traffic and Circulation impacts of development of the General Plan, the following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: A subsequent development project will have a new significant effect on the environment if it would exceed the following criteria:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
1. TRAFFIC AND CIRCULATION				
1) The proposed project exceeds traffic generation assumptions in the Master EIR for the site by 100 trips or more and City Engineering and Transportation staff has determined that the project would have additional potentially significant project-specific effects that are not avoided or reduced by the Master EIR's mitigation measures.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	X
2) Exceed, either individually or cumulatively, a level of service standard established by the county congestion management agency for designated roads or highways?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	X
3) The proposed project would cause additional roadway segments in the General Plan area to exceed LOS D and/or cause additional violations of standards in the Congestion Management Plan, and/or cause an increase in automobile vehicle miles or vehicle hours of travel or a decrease in automobile travel speed, as compared to the impacts disclosed in the Master EIR.	<input type="checkbox"/>	<input type="checkbox"/>	X	<input type="checkbox"/>
4) The proposed project would cause emergency response times to exceed acceptable standards established by the Fire Department, as compared to impacts disclosed in the Master EIR (see Section 14, Increased Demand for Fire Services).	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	X
5) The proposed project would result in less parking than required by the Municipal Code or as determined by staff.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	X
6) The proposed project would conflict with adopted policies, plans, or programs that support alternative transportation, including, but not limited to the Regional Transportation Plan, the Sustainable Communities Strategy, the Bicycle Action Plan, etc.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	X
7) The proposed project would result in an increase in automobile vehicle miles traveled on a per capita basis, in excess of that considered in the Urban Area General Plan MEIR.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	X

Discussion:

- (1) The proposed project consists of two phases. Phase 1 is the widening of the bridge over the Hetch Hetchy pipeline to accommodate a fourth pipe and the ultimate widening of Claratina Avenue to six lanes and Phase 2 is the widening of Claratina Avenue to four, five, or six lanes and the construction of either a roundabout or a signalized intersection at the intersection of Coffee Road and Claratina Avenue.

The General Plan identifies Pelandale Avenue / Claratina Avenue as a maximum six-lane expressway. Because this project is described in the General Plan Master EIR and because it is a roadway widening, there would be no increase in traffic generated by the project itself and no increase in traffic on Claratina Avenue or Coffee Road that in excess of what was anticipated in the Master EIR.

The Tivoli Specific Plan was prepared during a period of substantial development activity in Modesto and the Specific Plan EIR assumed that construction in the Specific Plan area would commence in 2007 or 2008 following certification of the EIR. However, the recession that began in 2008 delayed development in the Tivoli Specific Plan area and delayed the construction of roadway improvements that would serve northeast Modesto. As of 2017, no development applications have been received in the Tivoli Specific Plan area.

The Specific Plan EIR anticipated constructing two lanes on Claratina Avenue from Coffee Road to Oakdale Road by 2012, four or five years after development was anticipated to begin in the Tivoli area. On page IV.D.17, the EIR assumes that a two-lane roundabout will be constructed at Claratina Avenue and Coffee Road as part of the Claratina Avenue extension from Coffee Road to Oakdale Road. Widening of Claratina Avenue from two to four lanes is provided in Mitigation Measure D.4, page IV.D.53, expected at 100 percent specific plan completion in 2017. The Tivoli Specific Plan EIR assumed that approximately 75 percent of development, Mitigation Measure D.3g (page IV.D.48) is to be implemented, for a traffic study to determine the adequacy of intersection control (roundabout) at Claratina Avenue and Coffee Road.

- (2,3,4,7) The proposed widening of Claratina Avenue was evaluated in the General Plan Master EIR. No impacts greater than those disclosed in the Master EIR would be anticipated. The potential incremental widening of the road from two to four, five, or six lanes is not expected to result in traffic impacts. The General Plan Master EIR considered widening the roadway to its ultimate capacity, however, the incremental widening of the roadway to accommodate traffic as the need arises without incurring undue expenses of right of way acquisition, road construction, and maintenance is consistent with assumptions made in the Tivoli Specific Plan EIR and with City policy. The incremental widening of Claratina Avenue is being considered in a detailed traffic analysis. This traffic analysis is being prepared consistent with General Plan Master EIR Policy TC-36, which refers to the City's roundabout policy (City Council Resolution 2004-451). A higher rate of growth in background traffic (1.5 percent annually) is being used in that study than the rate of growth assumed in the General Plan Master EIR (1.3 percent annually), which will yield a more conservative set of recommendations. To reduce impacts to a less-than-significant level, recommendations from the traffic study will be followed.
- (5) This issue is not applicable to the proposed widening of Claratina Avenue.
- (6) The widening of Claratina Avenue to four, five, or six lanes includes a Class I bicycle facility on the south side of Claratina Avenue. No conflicts with General Plan Master EIR Policies TC-5, TC-9, TC-29, and TC-35 relating to bicycle and non-motorized transportation are supported by the proposed design. TC-25 and TC-34 relating to a balanced transportation system for all modes are also supported by the proposed design. The widening of Claratina Avenue would present no conflicts for the transit system.

2. DEGRADATION OF AIR QUALITY

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable air quality impacts expected after application of mitigations / policies:

Direct Impacts

Effect: Expected automobile traffic will result in increased operational emissions of reactive organic gases (ROG) and oxides of nitrogen (NO_x) (see MEIR Table 2-8, page V-2-27).

Effect: Expected automobile traffic will result in increased emissions of particulate matter 10 microns or less (PM₁₀) and 2.5 microns or less in diameter (PM_{2.5}) (see MEIR Table 2-8, page V-2-27).

Effect: Expected automobile traffic will result in increased carbon monoxide (CO) levels in the project area (see MEIR Table 2-7, page V-2-26, and Table 2-8, page V-2-27).

Cumulative Impacts

The Master EIR indicates the same impacts identified as direct impacts above will contribute to regional impacts on air quality for the criteria pollutants ROG, NO_x, PM₁₀, and PM_{2.5}. The SFPUC identifies worst-case construction impacts, which are temporary.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Air quality mitigation measure(s) pertinent to the proposed project are found on pages V-2-13 through V-2-24 of the Master EIR. The SFPUC identifies mitigation on pages E.7-1 through E.7-9. All mitigation measures appropriate to the project will be incorporated into or made conditions of approval of this project and are listed in Section V, Mitigation Measures Applied to Project.

Discussion:

The appropriate mitigation to be applied to this project includes AQ-18, AQ-39, AQ-42, AQ-43, AQ-44, AQ-46, AQ-47, AQ-48, AQ-49, AQ-50, AQ-51, AQ-52, AQ-53, AQ-54, AQ-55, and AQ-56 from the General Plan MEIR. SFPUC Mitigation Measure M-AQ-1 will also be applied. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-2.B of the Master EIR is the analysis of air quality impacts resulting from development of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not analyzed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
2. DEGRADATION OF AIR QUALITY				
1) The proposed project exceeds the project-level emissions thresholds established for CO, ROG, NO _x , PM ₁₀ , and PM _{2.5} by the San Joaquin Valley Air Pollution Control District (SJVAPCD) and is not consistent with the development assumptions for the project site, as established in the Urban Area General Plan and Master EIR.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	X
2) The proposed project does not incorporate the best management practices established by the SJVAPCD for CO, ROG, NO _x , PM ₁₀ , and PM _{2.5} .	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	X
3) The proposed project does not comply with the air quality policies in the Modesto Urban Area General Plan.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	X
4) The proposed project would expose sensitive receptors to pollutant concentrations in excess of those expected to occur as a result of implementation of the Urban Area General Plan.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	X
5) The proposed project would create objectionable odors affecting a substantial number of people.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	X

Discussion:

(1-5) The proposed widening of Claratina Avenue from two lanes to four, five, or six lanes is anticipated in the General Plan and the Master EIR, in which Claratina Avenue is designated a maximum six-lane expressway. No new impacts are expected to occur, as compared to the impacts disclosed in the Master EIR. The proposed project will incorporate best management practices and comply with air quality policies in the General Plan. No unusual odors are expected to occur. Construction activities will include truck hauling of excavated dirt for off-site disposal due to trenching for pipeline maintenance and the addition of the redundant pipeline stub and for construction of piers and abutments. Groundwater may be encountered during excavation for piers, which may necessitate dewatering. Construction activities are temporary and will result in temporary air quality impacts. None of the necessary construction activities associated with this project is unusual and thus is not expected to exceed construction impacts analyzed in the General Plan Master EIR, which included the widening of Claratina Avenue.

The project has been designed to be consistent with general plan policies AQ-2-2b, AQ-2-2c, AQ-2-2d. Implementation of construction air quality measures AQ-18, AQ-39, AQ-42, AQ-43, AQ-44, AQ-46, AQ-47, AQ-48, AQ-49, AQ-50, AQ-51, AQ-52, AQ-53, AQ-54, AQ-55, and AQ-56 will limit impacts to those anticipated in the General Plan Master EIR. SFPUC's Mitigation Measure M-AQ-1 will be applied to hauling activities.

3. GENERATION OF NOISE

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable noise impacts expected after application of mitigations / policies:

Direct Impacts

Effect: Future automobile traffic noise levels and roadway construction and maintenance activities resulting from development of the Urban Area General Plan will exceed the City's noise thresholds at various locations, but particularly in areas adjacent to heavily traveled roadways (see MEIR Table 3-3, page V-3-10, and Figure VII-2 and Table 3-6, pages V-3-18 and V-3-19).

Effect: Expected noise from airport operations and airport construction projects may expose up to 468 dwellings and three churches to noise levels of 65 dB CNEL and up to eight dwellings to noise levels of 70 dB CNEL.

Effect: Expose noise-sensitive land uses to noise from the construction of bicycle and transit projects.

Effect: Expose noise-sensitive land uses to noise from freight and passenger rail operations.

Cumulative Impacts

Effect: Traffic from development in the City of Modesto would, when combined with traffic from new development in the County and other cities, contribute to a cumulative increase in roadside noise levels on major roads and highways throughout Stanislaus County.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Noise policies and mitigation measures pertinent to the project being analyzed in this Initial Study are found on pages V-3-11 through V-3-15 of the Master EIR. The SFPUC identifies mitigation on pages E.6-1 through E.6-17. All mitigation measures appropriate to the project will be incorporated into or made conditions of approval of this project and any new measures are listed in Section V, Mitigation Applied to Project.

Discussion:

The appropriate mitigation to be applied to this project includes N-2 and N-3 from the Master EIR, relating to construction noise. SFPUC Mitigation Measures M-NO-2 and M-NO-3 will also be applied. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-3.B of the MEIR discloses noise impacts resulting from development of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not analyzed in the Master EIR.

Significance Criteria: Determination of the proposed project's effects are based on the following thresholds. Project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
3. GENERATION OF NOISE				
1) The proposed project will exceed the standards for noise level and hours of operation established by the Modesto noise ordinance.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	X
2) The proposed project will not comply with the noise policies of, or otherwise be inconsistent with, the Modesto Urban Area General Plan.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	X
3) The proposed project will result in an increase in ambient noise levels in the project vicinity above those disclosed in the Master EIR.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	X
4) The proposed project will result in a substantial temporary or periodic increase in ambient noise levels in the project vicinity above levels disclosed in the Master EIR implementation of the Urban Area General Plan.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	X

Discussion:

- (1-4) Modesto’s noise ordinance applies only to stationary sources. As such, construction activity is subject to the noise ordinance, but traffic resulting from project completion is not. Construction activities will comply with the City’s noise ordinance, as expressed in General Plan MEIR mitigations N-2 and N-3. Sources of construction noise are anticipated to result from trucks hauling away excavated dirt, from possible dewatering activities for bridge piers, and from grading and paving equipment. SFPUC’s Mitigation Measures M-NO-2 and M-NO-3 will be applied to reduce the noise from stationary construction equipment through the use of quieter equipment and temporary noise barriers.

Traffic noise impacts on properties adjacent to the south are expected to be similar to those assumed in the Master EIR and have been reduced to the extent possible by the existing block wall. The project does not contain features that are expected to result in noise impacts greater than those evaluated in the Master EIR, therefore, no new mitigation is required.

4. EFFECTS ON AGRICULTURAL LANDS

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on agricultural lands expected after application of mitigations / policies:

Direct Impacts

Effect: Between 1995 and 2025, development of the Urban Area General Plan may convert up to approximately 26,000 acres of farmland in various categories in the Planned Urbanizing Area to urban uses.

Effect: Approximately 1,200 acres of urban development along a 28.5-mile boundary 350 feet wide between urban and agricultural uses could be affected by continued agricultural operations, including noise, dust, and chemical overspray or drift.

Cumulative Impacts

Effect: Growth within Modesto's planning area would contribute considerably to the loss of agricultural land within Stanislaus County, accounting for the conversion of as much as approximately 26,000 acres of farmland in various categories in the Planned Urbanizing Area from 1995 to 2025.

b. Master EIR and/or New Mitigation Measures Pertinent to the Project

No mitigation measures to reduce impacts on agricultural land will be applied to this project.

Discussion:

No impacts are expected to occur that are greater than the impacts disclosed and evaluated in the General Plan Master EIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-4.B of the Master EIR discloses the impacts resulting from the implementation of the Urban Area General Plan on agricultural lands. The following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not previously analyzed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
4. EFFECTS ON AGRICULTURAL LANDS				
1) The proposed project is inconsistent with the Urban Area General Plan's policies relating to agricultural land.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	X
2) The proposed project will either directly or indirectly result in the development of land outside the 2008 Urban Area General Plan's planning area boundary.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	X
3) The proposed project will conflict with existing zoning for agricultural use, or there is an existing Williamson Act contract on the project site.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	X
4) The proposed project will involve other changes in the existing environment not anticipated in the Master EIR which, due to their location or nature, could result in conversion of farmland to non-agricultural use.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	X

Discussion:

- (1-4) The General Plan Master EIR disclosed significant unavoidable adverse impacts on agricultural land, as a result of the adoption and development of the Modesto General Plan. The proposed project was included in the General Plan Master EIR and would result in no new impacts, as compared to those identified in the Master EIR. None of the policies relating to development or conversion of agricultural land would be applied to this project, because those policies are intended to be applied to development projects, rather than to infrastructure projects.

5. INCREASED DEMAND FOR LONG-TERM WATER SUPPLIES

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on long-term water supplies expected after application of mitigations / policies:

Direct Impacts

Effect: No residual significant direct impacts have been disclosed in the Master EIR.

Cumulative Impacts

Effect: Operational yields of the Modesto and Turlock subbasins, both of which underlie the City of Modesto, are unknown, although the City is participating in a study with the United States Geological Survey in order to quantify the operational yields of both subbasins. Groundwater withdrawals from both basins by the City, when combined with other users' withdrawals, may result in overdrafting both subbasins.

Effect: Despite available options, during drought years, significant water shortages are forecast for the San Joaquin River basin, which includes both the Modesto and Turlock subbasins, by 2020. Modesto would make a cumulatively considerable contribution to the cumulative impact on water supply under drought conditions.

b. Master EIR and/or New Mitigation Measures Applied to the Project

No mitigation measures to reduce impacts on long-term water supplies will be applied to this project.

Discussion:

No impacts are expected to occur that are greater than the impacts disclosed and evaluated in the General Plan Master EIR. As a roadway widening, long-term water supplies would not be committed in order to build or operate the roadway. Project construction would, however, require some water, primarily for the purpose of minimizing dust. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-5.B of the Master EIR discloses impacts on long-term water supplies resulting from implementation of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
5. INCREASED DEMAND FOR LONG-TERM WATER SUPPLIES				
1) The proposed project is inconsistent with water supply policies in the Urban Area General Plan.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	X
2) Water demand for the proposed project will exceed estimates for similar projects or for development on the project site anticipated in the Urban Area General Plan or sufficient water supplies are not otherwise available to serve the project from existing entitlements and resources.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	X
3) The proposed project would deplete groundwater supplies to a greater degree than anticipated in the Urban Area General Plan or would interfere with groundwater recharge.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	X

Discussion:

- (1-3) Long-term water supplies would not be committed in order to build or operate the widened roadway. Water would be used during construction to minimize dust. As such, no impacts on long-term water supplies are expected to occur as a result of this project.

6. INCREASED DEMAND FOR SANITARY SEWER SERVICES

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on sanitary sewer services after application of mitigations / policies:

Direct Impacts

Effect: Development resulting from implementation of the Urban Area General Plan will require substantial new sewage treatment and disposal capacity, treatment plant improvements, sewer mains and collection lines, and pump stations. The Wastewater Master Plan anticipates the need for these facilities and its EIR evaluates the impact of developing those facilities. Potential impacts include degradation of water quality through erosion and chemical releases; localized flooding; construction noise; exposure of construction workers and the public to hazardous materials; and on the habitat of the elderberry longhorn beetle, burrowing owl, and Swainson's hawk, as well as certain other regulated habitats. All of these impacts are mitigated to a less-than-significant level.

Additional impacts that are not mitigated to a less-than-significant level include loss of farmland cause by construction of the Phase IA tertiary treatment facility at the Jennings Road Secondary Treatment Facility, an increase in pollutant loads from increased wastewater flows to the San Joaquin River, and an increase in noise and criteria air pollutants due to construction activities, including traffic.

Cumulative Impacts

Effect: No additional cumulative impacts were identified in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

No mitigation measures to reduce impacts on sewer service will be applied to this project.

Discussion:

No impacts on sewer service are expected to result from the widening of Claratina Avenue.

c. Project-Specific Effects

Section V-6.B of the Master EIR discloses impacts on the Increased Demand for Sanitary Sewer Service resulting from implementation of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
6. INCREASED DEMAND FOR SANITARY SEWER SERVICES				
1) The proposed project is inconsistent with wastewater policies in the Urban Area General Plan.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	X
2) The proposed project will generate sewage flows greater than those anticipated in the Urban Area General Plan for the project site.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	X
3) The proposed project will result in a determination by the wastewater treatment provider which serves or may serve the project that it has inadequate capacity to serve the project's projected demand in addition to the provider's existing commitments.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	X

Discussion:

(1-3) Roadway construction does not create demand for sewer services. Construction crews typically use portable toilets during construction, but that impact is short-term and has no appreciable impact on demand for sewer service. No sewer mitigation will be applied to the proposed project.

7. LOSS OF SENSITIVE WILDLIFE AND PLANT HABITAT

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on sensitive wildlife and plant habitat expected after application of mitigations / policies:

Direct Impacts

Effect: No residual significant impacts on sensitive wildlife and plant habitat are expected to occur with the application of the policies contained in the Urban Area General Plan.

Cumulative Impacts

Effect: Implementation of the Urban Area General Plan will contribute to the cumulative impact of habitat loss in the San Joaquin Valley. Requiring density development than has occurred in the past or that is expected in the future would minimize the City's contribution to the cumulative loss of habitat. Nonetheless, this is a significant and unavoidable impact.

b. Master EIR and/or New Mitigation Measures Applied to the Project

No mitigation measures to reduce impacts on wildlife and plant habitat will be applied to this project.

Discussion:

No impacts on wildlife and plant habitat are expected to result from the widening of Claratina Avenue. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-7.B of the Master EIR discloses impacts on the Loss of Sensitive Wildlife and Plant Habitat resulting from implementation of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
7. LOSS OF SENSITIVE WILDLIFE AND PLANT HABITAT				
1) The project is inconsistent with the policies pertaining to the loss of sensitive wildlife and plant habitat contained in the Urban Area General Plan.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	X
2) Consultation with the California Department of Fish and Game or the U.S. Fish and Wildlife Service determines that the project would have a significant effect on a candidate, sensitive, or special status species in excess of the impact disclosed in the Master EIR.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	X
3) The proposed project would have a substantial adverse effect on federally protected wetlands as defined by Section 404 of the Clean Water Act through direct removal, filling, hydrological interruption, or other means, in excess of the impact disclosed in the Master EIR.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	X
4) The proposed project would substantially interfere with the movement of any native resident or migratory fish or wildlife species or with established native resident or migratory wildlife corridors, or impede the use of native wildlife nursery sites.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	X
5) Conflict with local policies or ordinances protecting biological resources, such as a tree preservation policy or ordinance.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	X
6) The proposed project would conflict with provisions of an adopted habitat conservation plan, natural community conservation plan, or other approved local, regional, or state habitat conservation plan.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	X

Discussion:

(1-6) There is a mature native oak tree growing on the south side of Claratina Avenue east of Lifescapes Drive in the vicinity of 4228 Riggins Court. Phase 2 of the project, consisting of the widening from east of the bridge over the Hetch Hetchy pipelines to Coffee Road, is being designed to preserve this tree. The area on either side of the existing Claratina Avenue, where the widening would occur, is heavily disturbed and is not known to support any plant or animal life of interest in the Master EIR. The project is consistent with general plan policies relating to biological impacts. There are no wetlands near the proposed project site, nor are streams or rivers affected that could result in an effect on migratory species. Modesto has no policies or ordinances that protect plant or animal species and there is no Habitat Conservation Plan or Natural Community Conservation Plan that would be affected by the project.

8. DISTURBANCE OF ARCHAEOLOGICAL/HISTORICAL SITES

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on archaeological/historical sites expected after application of mitigations / policies:

Direct Impacts

Effect: Modification resulting in a substantial adverse change in the significance of a historic resource or the demolition of a listed or eligible historic resource.

Effect: The modification or demolition of a structure more than 50 years in age may be significant.

Effect: Discovery of archaeological resources, in areas outside of the riparian corridors, as a result of construction activities.

Effect: Construction in an area of high archaeological sensitivity.

Cumulative Impacts

Effect: No additional cumulative impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Archaeological or historic mitigation measures pertinent to the project being analyzed in this Initial Study are found on page V-8-16 through V-8-20 of the Master EIR. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Applied to Project:

Discussion:

The appropriate mitigation to be applied to this project includes AH-16 from the Master EIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-8.B of the MEIR discloses impacts on archaeological/historical resources resulting from implementation of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
8. DISTURBANCE OF ARCHAEOLOGICAL/ HISTORICAL SITES				
1) The proposed project is inconsistent with the archaeological / historical resource policies in the Urban Area General Plan.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	X
2) The proposed project would demolish a building eligible for listing as a historic resource or remove a landmark from the Modesto inventory.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	X
3) The proposed project would modify or demolish a structure more than 50 years old.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	X
4) The project would adversely affect a cultural resource that is either listed or eligible for listing in the California Register of Historical Resources.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	X
5) The project would adversely affect a Tribal Cultural Resource identified and/or defined by the applicable Tribe.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	X

Discussion:

- (1-3) The proposed widening of Claratina Avenue is consistent with all general plan policies related to archaeological and historic resources. No historic resources or potential historic resources are known to exist in the area that will be affected by the proposed project. No mitigation measures relating to historic resources will be applied to the project.
- (4-5) The project lies in an area where there are no known archaeological or historic resources. Earthwork for road widening tends to be shallow (typically less than three feet). This project will involve slightly more earthwork in order to widen the bridge over the Hetch Hetchy Aqueduct and for placement of utility poles, signage, and similar objects. Should any archaeological resources be inadvertently encountered during construction, Mitigation Measure AH-16 will be applied to reduce any potential impacts to a less-than-significant level.

9. INCREASED DEMAND FOR STORM DRAINAGE

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on storm drainage expected after application of mitigations / policies:

Direct Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR.

Cumulative Impacts

Effect: The population of Stanislaus County is projected to increase in a fashion similar to that of Modesto, resulting in additional urban development and associated increases in impervious surface area and associated increases in storm water runoff. Cumulative hydrologic impacts of storm water flows from Modesto urban areas and other areas of the County could occur due to the fixed capacity of MID and TID irrigation canals to convey drainage west to the San Joaquin River. If drainage channels in some areas prove insufficient to handle the increased drainage discharges, existing storm water runoff from urban and agricultural areas during large storm events would have to be interrupted until water levels receded to a point allowing the resumption of discharges to the channel. Ceasing discharges to drainage channels could cause inundation in and around the drainage conveyance pipeline systems, surface drainage channels, detention basins, and other urban areas. This cumulative impact is considered significant and unavoidable.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Storm Drainage mitigation measures pertinent to the project being analyzed in this Initial Study are found on pages V-9-4 through V-9-9. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Measures Applied to Project:

Discussion:

The appropriate mitigation to be applied to this project includes SD-3, SD-4, SD-5, and SD-9 in the Master EIR. Although these measures are listed under "Baseline Developed Area," they are appropriate for roadway construction. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-9.B of the MEIR discloses impacts on the demand for storm drainage resulting from development of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
9. INCREASED DEMAND FOR STORM DRAINAGE				
1) The proposed project is inconsistent with the storm drainage policies in the Urban Area General Plan.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	X
2) The proposed project would substantially increase the rate or amount of surface runoff in a manner that would result in flooding on- or offsite, as compared to impacts anticipated to result from the Urban Area General Plan or create substantial unanticipated sources of polluted runoff.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	X
3) The proposed project does not utilize Low Impact Development strategies to reduce runoff from the site and increase infiltration, resulting in no net increase in runoff before and after development.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	X

Discussion:

(1-3) The proposed project is consistent with the storm water drainage policies contained in the General Plan. Widening Claratina Avenue would result in a substantial increase in impervious surface between McHenry Avenue and Coffee Road, however, the road widening was anticipated in the General Plan and evaluated in the Master EIR. A storm water drainage study will be prepared after it is determined whether Claratina Avenue will be designed as a six-lane, five-lane, or a four-lane facility. The study will consider how storm drainage from a 100-year, 24-hour storm will be accommodated. Drainage from Phase 1 will likely be at least partially accommodated in a basin just south of the roadway in the Coffee-Claratina Specific Plan area. Drainage from Phase 2 will likely be accommodated using low-impact design solutions, such as swales, near the roadway which will retain water and allow it to percolate into the soil and recharge groundwater. Storm drainage will be consistent with general plan policy and Master EIR measures SD-3, SD-4, SD-5, and SD-9, which will eliminate the potential for new impacts, as compared to impacts anticipated in the General Plan Master EIR.

10. FLOODING AND WATER QUALITY

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on flooding and water quality expected after application of mitigations / policies:

Direct Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR.

Cumulative Impacts

Effect: No residual significant cumulative impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Flooding and Water Quality mitigation measures pertinent to the project being analyzed in this Initial Study are found on pages V-10-6 through V-10-9 of the Master EIR. The SFPUC identifies mitigation on pages E.15-1 through E.15-19. All mitigation measures appropriate to the project will be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Applied to Project:

Discussion:

No General Plan Master EIR mitigation measures will be applied to the proposed project. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level. SFPUC Mitigation Measure M-HY-2 will also be applied. The potential for damage to the Hetch Hetchy pipelines related to flooding will be limited or eliminated through an encroachment permit and protocols established by the City and County of San Francisco, as discussed below.

c. Project-Specific Effects

Section V-10.B of the Master EIR provides analysis of Flooding and Water Quality impacts of development of the General Plan, the following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not previously analyzed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
10. FLOODING AND WATER QUALITY				
1) The proposed project is inconsistent with the flooding and water quality policies in the Urban Area General Plan.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	X
2) The proposed project does not comply with the regulatory requirements of the federal Clean Water Act or the State Porter-Cologne Act.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	X
3) The proposed project would place more housing within a 100-year flood hazard zone than assumed in the Urban Area General Plan.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	X
4) The proposed project would place structures within a 100-year flood hazard area so that they would impede or redirect floodwater or would substantially alter the existing on-site drainage pattern or a watercourse, in such a way as to cause flooding on- or off-site.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	X
5) The proposed project does not comply with Modesto's Guidance Manual for New Development Storm Water Quality Control Measures.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	X
6) The proposed project would violate water quality standards or waste discharge requirements.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	X
7) The proposed project would substantially alter the existing drainage pattern of the site or area or a watercourse in a manner that would result in substantial erosion or siltation on- or offsite in excess of the assumptions of the General Plan.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	X
8) The proposed project would create or contribute runoff, which would exceed the capacity of existing or planned storm water drainage systems or provide substantial additional sources of polluted runoff, not expected as part of General Plan implementation.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	X

Discussion:

- (1-2) The proposed widening of Claratina Avenue will be designed to be consistent with the flooding and water quality policies contained in the General Plan. No impacts greater than those evaluated in the General Plan MEIR are expected. The project will comply with the Clean Water Act and the Porter-Cologne Act.
- (3-4) The project is located more than one mile from the nearest 100-year flood hazard area and is not expected to have an impact on or be affected by the 100-year flood zone. No mitigation measures addressing the 100-year flood hazard zone will be applied to the proposed project.

- (5-6) Both Phases 1 and 2 of the proposed road widening will be designed to comply with the Guidance Manual for New Development Storm Water Quality Control Measures. No impact on water quality standards or discharge requirements is expected to occur and no mitigation will be applied to the proposed project.

- (7-8) The San Joaquin Pipelines are the only course expected to be affected by the proposed widening of Claratina Avenue. Because the widening project will expand the roadway and include additional infrastructure over the SFPUC's pipelines, the additional infrastructure of a bridge is necessary to protect the pipelines and the SFPUC must assess the condition of the pipelines and perform any necessary maintenance. To avoid duplication of effort, the bridge (Phase 1) will be built wide enough to accommodate the eventual widening of Claratina Avenue to six lanes, regardless of whether Phase 2 consists of four, five, or six lanes. In the Modesto area, the pipelines are completely enclosed and thus do not erode the surrounding soil or pick up silt.

Building a bridge over the San Joaquin Pipelines (Phase 1) requires an encroachment permit from the City and County of San Francisco and close coordination with their staff to ensure the pipelines are not damaged. City staff has been coordinating with San Francisco staff on the plans and specifications that agency will require before work may begin. San Francisco staff will meet with City staff and / or the City's contractor on a daily basis to ensure construction activities are proceeding in accordance with approved plans. The inspector may stop work at any time. Any leaks in or damage to the pipelines during construction must be immediately reported to the inspector, who will take appropriate action to prevent or limit flooding. Adherence to plans and protocols as approved by the City and County of San Francisco will avoid significant impacts.

SFPUC is currently pursuing an inspection and maintenance program for the San Joaquin Valley portion of the pipelines. Crews have not yet reached Modesto, but SFPUC is taking advantage of the opportunity presented by the construction of the new bridge over the pipelines to inspect and maintain the pipelines and install a segment of redundant pipeline. When SFPUC's maintenance crews arrive in Modesto, they will be able to bypass the portion of the pipelines that cross under Pelandale Avenue, thereby reducing traffic disruption. As noted elsewhere, groundwater has been encountered at approximately 40 feet below grade, which should not impact SFPUC's activities, but if groundwater is found at depths that do affect construction, SFPUC's Mitigation Measure M-HY-2 will be implemented.

Because the road widening will increase impervious surface, an increase in runoff is expected to occur. Some of the runoff will be conveyed away from the roadway to a nearby drainage basin south of Claratina Avenue. However, that drainage basin lacks capacity to accommodate all of the runoff from a widened Claratina Avenue, so low-impact solutions that maximize rainwater capture and percolation to groundwater, such as swales, will be explored in a subsequent study prior to final design. Flood control will be designed to accommodate a 100-year, 24-hour event, consistent with City policy. No impact is expected to occur beyond that disclosed in the General Plan Master EIR and no mitigation measures will be applied to the project. This issue is further addressed in Section 9 above.

11. INCREASED DEMAND FOR PARKS AND OPEN SPACE

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on parks and open space expected after application of mitigations / policies:

Direct Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR.

Cumulative Impacts

Effect: No residual significant cumulative impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Parks and open space mitigation measures pertinent to the proposed project are found on pages V-11-3 through V-11-9 of the Master EIR. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Applied to Project:

Discussion:

No General Plan Master EIR mitigation measures will be applied to the proposed project. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-11.B of the MEIR discloses impacts of the Urban Area General Plan on parks and open space. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. Project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
11. INCREASED DEMAND FOR PARKS AND OPEN SPACE				
1) The proposed project is inconsistent with the parks and open space policies in the Urban Area General Plan.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	X
2) The proposed project would eliminate parks or open space.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	X
3) The proposed project would cause an increase in the use of existing neighborhood and regional parks or other recreational facilities such that substantial physical deterioration of the facility in question would occur or be accelerated or the proposed project would include recreational facilities or require the construction or expansion of recreational facilities which might have an adverse physical effect on the environment.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	X

Discussion:

(1-3) The proposed widening of Claratina Avenue will have no effect on parks and open space. The project will not increase demand for parks because it will have no impact on the size of the population of Modesto greater than that disclosed in the General Plan Master EIR and the project will not reduce parks or open space acreage. Additionally, there is no reason to expect that the road widening will cause an increase in the use of existing parks. No impact greater than that disclosed in the General Plan Master EIR is expected and no mitigation will be applied.

12. INCREASED DEMAND FOR SCHOOLS

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on school facilities expected after application of mitigations / policies:

Direct Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR. By statute, the impact of new students is considered to be mitigated below a level of significance by payment of school impact fees and the exercise of any or all of the financing options set out in Government Code Section 65997.

Cumulative Impacts

Effect: Similar to direct impacts of implementation of the Urban Area General Plan, no residual significant direct impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Mitigation relies upon the implementation of the policies in place under the Modesto Urban Area General Plan. As long these policies are applied to all subsequent projects, no new mitigation is necessary. Further, payment of school impact fees and compliance with SB 50 is statutorily deemed to be full mitigation of school impacts (Government Code Section 65995).

The following schools mitigation measures on pages V-12-5 through V-12-7 of the Master EIR are pertinent to the proposed project. All mitigation measures appropriate to the project will be incorporated into or made conditions of approval of this project. Those measures are listed in Section V, Mitigation Applied to Project.

Discussion:

No General Plan Master EIR mitigation measures will be applied to the proposed project. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-12.B of the Master EIR discloses impacts resulting from implementation of the Urban Area General Plan associated with increased demand for schools. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
12. INCREASED DEMAND FOR SCHOOLS				
1) The proposed project is inconsistent with the policies relating to schools in the Urban Area General Plan.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	X
2) The proposed project does not comply with SB 50/Proposition 1A funding provisions, or succeeding measures which state that compliance results in less-than-significant impacts on schools.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	X

Discussion:

- (1-2) The proposed project will have no impact on schools, and is not required to pay school impact fees allowed by SB 50. No impacts greater than those disclosed in the General Plan Master EIR are expected to occur and no mitigation will be applied to the project.

13. INCREASED DEMAND FOR POLICE SERVICES

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on police services expected after application of mitigations / policies:

Direct Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR.

Cumulative Impacts

Effect: No residual significant cumulative impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Police services mitigation measures pertinent to the proposed project are found on pages V-13-2 through V-13-5 of the Master EIR. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Measures Applied to Project.

Discussion:

No General Plan Master EIR mitigation measures associated with demand for police services will be applied to the proposed project. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-13.B of the Master EIR discloses impacts on police services resulting from implementation of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
13. INCREASED DEMAND FOR POLICE SERVICES				
1) The proposed project is inconsistent with policies relating to police services in the Urban Area General Plan.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	X
2) The proposed project would result in the need for new or significantly altered facilities not considered as part of the Urban Area General Plan or Master EIR which could cause new significant environmental impacts in order to maintain acceptable service ratios, response times, or other performance objectives.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	X

Discussion:

- (1-2) The widening of Claratina Avenue east to Oakdale Road as a six-lane expressway is a project anticipated in the General Plan and evaluated in the Master EIR. The project is consistent with general plan policies relating to police service and will not result in the need for new or altered police facilities. Response times may decline slightly, as compared to existing conditions. Service ratios (officers to citizens) will not change, as the project will add no new dwellings to Modesto. Impacts from this project are expected to be less than or equal to those anticipated in the General Plan Master EIR. No mitigation related to police services will be applied to the proposed project.

14. INCREASED DEMAND FOR FIRE SERVICES

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on fire services expected after application of mitigations / policies:

Direct Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR.

Cumulative Impacts

Effect: No residual significant cumulative impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Fire Services mitigation measure(s) pertinent to the project being analyzed in this Initial Study are found on pages V-14-4 through V-14-7 of the Master EIR. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Measures Applied to Project.

Discussion:

No General Plan Master EIR mitigation measures associated with demand for police services will be applied to the proposed project. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-14.B of the Master EIR discloses impacts on fire services resulting from implementation of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
14. INCREASED DEMAND FOR FIRE SERVICES				
1) The proposed project is inconsistent with the fire service policies in the Urban Area General Plan.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	X
2) The proposed project would result in the need for new or significantly altered facilities not considered as part of the Urban Area General Plan or Master EIR which could cause new significant environmental impacts in order to maintain acceptable service ratios, response times, or other performance objectives.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	X
3) The proposed project, based upon substantial evidence, would cause the erosion or elimination of fire protection services in adjoining fire protection districts.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	X

Discussion:

(1-3) The widening of Claratina Avenue east to Oakdale Road as a six-lane expressway is a project anticipated in the General Plan and evaluated in the Master EIR. The project, the widening of Claratina Avenue from McHenry Avenue to Coffee Road, is consistent with general plan policies relating to fire service and will not result in the need for new or altered fire department facilities. Response times may decline slightly, as compared to existing conditions. Service ratios (firefighters to citizens) will not change, as the project will add no new dwellings to Modesto. Impacts from this project are expected to be less than or equal to those anticipated in the General Plan Master EIR. No mitigation related to fire services will be applied to the proposed project.

15. GENERATION OF SOLID WASTE

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on solid waste expected after application of mitigations / policies:

Direct Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR.

Cumulative Impacts

Effect: No residual significant cumulative impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Solid waste mitigation measures pertinent to the proposed project are found on pages V-15-4 through V-15-7 of the Master EIR. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Applied to Project.

Discussion:

No General Plan Master EIR mitigation measures associated with the generation of solid waste will be applied to the proposed project. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-15.B of the Master EIR discloses solid waste impacts resulting from implementation of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. Project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
15. GENERATION OF SOLID WASTE				
1) The project is inconsistent with the solid waste policies in the Urban Area General Plan.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	X
2) The County is unable to expand its solid waste disposal capacity, as expected, causing all new development to result in cumulative impacts on the County's disposal capacity.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	X

Discussion:

- (1-2) Solid waste generation related to the project is limited to the incidental waste generated by the construction crews and other staff, such as containers and wrappers from prepared food. This sort of waste is not as much associated with the project itself as it is with the people and is not considered a project impact. No General Plan Master EIR mitigations for solid waste will be applied to the proposed project.

16. GENERATION OF HAZARDOUS MATERIALS

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts regarding hazardous materials expected after application of mitigations / policies:

Direct Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR.

Cumulative Impacts

Effect: No residual significant cumulative impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Hazardous materials mitigation measures pertinent to the proposed project are found on pages V-16-8 through V-16-13 of the Master EIR. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Measures Applied to Project.

Discussion:

No General Plan Master EIR mitigation measures associated with the hazardous materials will be applied to the proposed project. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-16.B of the Master EIR discloses impacts on hazardous materials resulting from implementation of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
16. GENERATION OF HAZARDOUS MATERIALS				
1) The project is inconsistent with the hazardous materials policies in the Urban Area General Plan.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	X
2) The proposed project would emit hazardous emissions or handle hazardous or acutely hazardous materials, substances, or waste within one-quarter mile of an existing or proposed school.	<input type="checkbox"/>	<input type="checkbox"/>	X	<input type="checkbox"/>
3) The proposed project would be located on a site which is included on a list of hazardous materials sites compiled pursuant to Government Code Section 65962.5 and as a result, would create a significant hazard to the public or the environment.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	X
4) The proposed project would be constructed on a contaminated site not known to the State of California as of March 2008.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	X

Discussion:

- (1-2) Road maintenance and construction often involves a certain amount of hazardous waste. Some of the striping used to demarcate space on the pavement contains lead. Such material is sent to a special disposal facility equipped to safely handle lead. Because it is largely comprised of petroleum, asphalt is considered a hazardous waste if it is not reused. Asphalt is removed from a road when it is resurfaced or widened. The removed material is usually recycled into new road paving, but if it must be disposed of, it is sent to a special disposal facility that can accommodate the hazardous waste. No impacts greater than those anticipated in the General Plan Master EIR are expected to occur as a result of this project and no mitigation measures are anticipated other than compliance with State law for the handling of the hazardous materials identified herein.
- (3-4) The project site is not on California's list of contaminated sites, nor is the site known to be contaminated with hazardous materials. No mitigation measures associated with hazardous sites will be applied to the project.

17. GEOLOGY, SOILS, AND MINERAL RESOURCES

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts related to geology, soils, and mineral resources expected after application of mitigations / policies:

Direct Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR.

Cumulative Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Geology, soils, and mineral resource mitigation measures pertinent to the proposed project are found on pages V-17-9 and V-17-10 of the Master EIR. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of the proposed project are listed in Section V, Mitigation Measures Applied to Project.

Discussion:

No General Plan Master EIR mitigation measures associated with geology, soils, and mineral resources will be applied to the proposed project. SFPUC Mitigation Measure M-GE-1 will be applied, utilizing the geotechnical study prepared for this project. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-17.B of the Master EIR discloses geology, soils, and mineral resource impacts resulting from implementation of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. Project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
17. GEOLOGY, SOILS, AND MINERAL RESOURCES				
1) The project is inconsistent with policies relating to geology, soils, and mineral resources contained in the Urban Area General Plan.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	X
2) The proposed project would expose people or structures to potential substantial adverse effects including the risk of loss, injury, or death involving fault rupture, strong seismic activity; location on an expansive soil; result in the loss of topsoil; location on soils incapable of adequately supporting the use of septic tanks or alternative wastewater disposal systems in areas where sewers are not available for the disposal of wastewater; result in the loss of known mineral resources that would be of value to the region and the state; or result in the loss of availability of a locally important mineral resource recovery site delineated on a local general plan, specific plan, or other land use plan.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	X

Discussion:

- (1) The proposed roadway widening will be implemented consistent with general plan policies relating to geology, soils, and mineral resources. Within the general plan boundary, impacts associated with these resources are very limited, as there are few known hazards and resources. No general plan policies will be applied to this project.
- (2) Seismic impacts in the Modesto area are very limited, as the risk of fault rupture is considered to be low and risks from seismic shaking are relatively low although shaking does occur. Widening Claratina Avenue will have no impact on exposure of residents or roadway users to seismic impact or reduce the availability of mineral resources, or result in other impacts due to soils and geology. No general plan policies will be applied to this project.

Phase 1 of the proposed project will build a bridge over the Hetch Hetchy pipelines to accommodate the redundant pipeline segment and to accommodate the widening of Claratina Avenue to six lanes. The bridge piers will be 37.5 to 51 feet below grade. The four major soil associations described in the General Plan Master EIR are typically well-drained sandy loams, although some soils contain more clay. These soils are less well-drained than the sandy loams and some may be slightly susceptible to expansion. A geologic report was prepared for the proposed project in order to identify the appropriate design and ensure stability for the bridge and roadway. The results of that report were used in the project design and will be used by SFPUC to develop an excavation, backfilling, and grading plan in accordance with its Mitigation Measure M-GE-1.

18. ENERGY

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts pertaining to energy expected after application of mitigations / policies:

Direct Impacts

Effect: Continued development in the Planned Urbanizing Area would have an impact on available energy supplies. Energy consumption likely would increase substantially by 2025 as a result of implementation of the Urban Area General Plan.

Cumulative Impacts

Effect: Implementation of the Urban Area General Plan will have a cumulatively considerable impact on energy consumption.

b. Master EIR and/or New Mitigation Measures Applied to the Project

The following energy mitigation measures pertinent to the proposed project are found on pages V-18-2 through V-18-8 in the Master EIR. The SFPUC identifies mitigation on pages E.14-1 through E.14-11. All mitigation measures appropriate to the project will be incorporated into or made conditions of approval of this project. Those measures will be listed in Section V, Mitigation Applied to Project.

Discussion:

No General Plan Master EIR mitigation measures associated with energy consumption will be applied to the proposed project. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-18.B of the Master EIR discloses impacts of implementing the Urban Area General Plan on energy resources. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
18. ENERGY				
1) The proposed project is inconsistent with policies relating to energy in the Urban Area General Plan.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	X
2) The proposed project would result in energy consumption during construction, operation, maintenance, or removal that is more wasteful, inefficient, and unnecessary than assumed in the Urban Area General Plan.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	X

Discussion:

(1-2) The proposed widening of Claratina Avenue is consistent with the general plan, which anticipates the road widening in the Circulation Element. Energy use associated with construction and use of the road was taken into account in the General Plan Master EIR. Because some or possibly all of the existing asphalt will be reused to construct this project, energy used in the manufacture and transport of asphalt is expected to be somewhat less than anticipated in the Master EIR. The general plan boundaries have not changed and no additional traffic is anticipated to use widened Claratina Avenue than was disclosed in the Master EIR. Consistent with general plan policies, a grade-separated (Class I) bicycle facility will be constructed adjacent to the eastbound (southern segment) Claratina Avenue to encourage and facilitate the use of bicycles for transportation, consistent with General Plan Master EIR mitigations identified in the traffic and circulation and air quality analyses sections. Additionally, this project is designed to comply with General Plan Master EIR energy mitigation E-17. No significant impacts are expected to occur and no mitigation will be applied to the proposed project.

19. EFFECTS ON VISUAL RESOURCES

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on visual resources expected after application of mitigations / policies:

Direct Impacts

Effect: New development in the Planned Urbanizing Area will occur in areas that are in agricultural production or are otherwise lightly developed, which could lead to the introduction of light and glare in areas that have little nighttime illumination.

Cumulative Impacts

Effect: No additional cumulative impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

The following visual resources mitigation measures pertinent to the proposed project are found on pages V-19-3 and V-19-4 in the Master EIR. All mitigation measures appropriate to the proposed project will be incorporated into or made conditions of approval of this project. Those measures will be listed in Section V, Mitigation Applied to Project.

Discussion:

No General Plan Master EIR mitigations relating to visual resources will be applied to this project, as no impacts are expected that are greater than those anticipated in the Master EIR.

c. Project-Specific Effects

Section V-18.B of the Master EIR discloses impacts of implementing the Urban Area General Plan on energy resources. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
19. EFFECTS ON VISUAL RESOURCES				
1) The proposed project is inconsistent with policies relating to visual resources in the Urban Area General Plan.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	X
2) The proposed project would degrade views from riverside areas and parks to a greater degree than assumed in the Urban Area General Plan.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	X
3) The proposed project would degrade views of riverside areas from public roadways and nearby properties to a greater degree than assumed in the Urban Area General Plan.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	X

Discussion:

- (1-3) The project is consistent with general plan policies related to visual resources. There are no views of riverside areas or parks from this segment of Claratina Avenue, therefore no impacts on views to or from parks or riverside areas would be affected. No impacts are expected to occur.

20. LAND USE AND PLANNING

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts pertaining to land use and planning expected after application of mitigations / policies:

Direct Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR.

Cumulative Impacts

Effect: No residual significant cumulative impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

The following land use and planning mitigation measures pertinent to the proposed project are found on pages V-20-6 through V-20-17 in the Master EIR. All mitigation measures appropriate to the project will be incorporated into or made conditions of approval of this project. Those measures will be listed in Section V, Mitigation Applied to Project.

Discussion:

The proposed project is consistent with the general plan and proposes no changes to land use designations. No impacts are expected and no mitigation is required.

c. Project-Specific Effects

Section V-20.B of the Master EIR discloses impacts of implementing the Urban Area General Plan on land use and planning. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
20. LAND USE AND PLANNING				
1) The proposed project is inconsistent with land use and planning policies in the Urban Area General Plan.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	X
2) The proposed project contains elements that would physically divide an established community in a way not assumed in the Urban Area General Plan.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	X
3) The proposed project conflicts with a land use plan, policy or regulation established for the purpose of avoiding or mitigating an environmental impact by an agency that has jurisdiction over the proposed project.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	X
4) The proposed project conflicts with an applicable habitat conservation plan or natural community conservation plan.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	X

Discussion:

- (1-4) The proposed widening of Claratina Avenue is consistent with the general plan, which has evaluated this facility as a six-lane expressway and does not affect land use designations. The project will have no effect on habitat conservation plans or natural community conservation plans. No impacts are expected to occur that were not addressed in the General Plan MEIR and no mitigation is necessary.

21. CLIMATE CHANGE

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts pertaining to climate change expected after application of mitigations / policies:

Direct Impacts

Effect: Impacts resulting from implementation of the Urban Area General Plan are not substantial enough to result in a significant direct impact on climate change, as disclosed in the Master EIR.

Cumulative Impacts

Effect: Implementation of the Urban Area General Plan will have a cumulatively considerable impact on climate change.

b. Master EIR and/or New Mitigation Measures Applied to the Project

The following climate change mitigation measures pertinent to the proposed project are found on pages V-21-7 through V-21-10 in the Master EIR. All mitigation measures appropriate to the project will be incorporated into or made conditions of approval of this project. Those measures will be listed in Section V, Mitigation Applied to Project.

Discussion:

The proposed project is consistent with the general plan and 2014 Sustainable Communities Strategy. No impacts are expected and no mitigation is required.

c. Project-Specific Effects

Section V-18.B of the Master EIR discloses impacts of implementing the Urban Area General Plan on climate change. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
21. CLIMATE CHANGE				
1) The proposed project is inconsistent with policies relating to climate change in the Urban Area General Plan.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	X
2) The proposed project would result in average automobile trip lengths or CO ₂ emissions higher than those assumed in the Master EIR.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	X
3) The proposed project would conflict with the Sustainable Communities Strategy or Alternative Planning Strategy that the Air Resources Board has agreed will achieve the goals of AB 32.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	X

Discussion:

- (1-3) The widening of Claratina Avenue is consistent with general plan policies relating to climate change and transportation and thus would not result in trip lengths greater than those assumed in the General Plan MEIR. The project was included in StanCOG's 2014 Regional Transportation Plan Sustainable Communities Strategy and is therefore consistent with it. No impacts greater than those assumed in the General Plan MEIR are expected to occur and no mitigation is required.

V. MITIGATION MEASURES APPLIED TO THE PROPOSED PROJECT

If the Initial Study results in the determination that a Finding of Conformance can be adopted for the proposed project Section A below applies. If the Initial Study results in the determination that a Finding of Conformance cannot be adopted and a Mitigated Negative Declaration/EIR must be prepared for the project then Section B, below applies.

A. Master EIR Mitigation Measures Applied to the Project

Pursuant to Public Resources Code Section 21157.1(c), in order for a Finding of Conformance to be made, all appropriate mitigation measures from the Master EIR shall be incorporated into the proposed project. Urban Area General Plan Policies/Master EIR mitigation measures shall be made part of the proposed project prior to approval by means of conditions of project approval or incorporation into the appropriate document or plan.

All applicable and appropriate mitigation measures have been applied to the project (see mitigation measures listed below).

B. New or Additional Mitigation Measures or Alternatives Required

Where the project's effects would exceed the significance criteria for each environmental impact category, a mitigated negative declaration or Focused EIR must be prepared. Staff has reviewed the project against the significance criteria thresholds established in the Master EIR for all impact categories in this Initial Study.

A Mitigated Negative Declaration or Focused EIR shall be prepared for the project. The following additional project-specific mitigation measures listed below are necessary to reduce the identified new significant effect:

Traffic and Circulation:

General Plan MEIR policies applied to this project include TC-5 TC-9, TC-25, TC-29, TC-34, TC-35, and TC-36. Tivoli Specific Plan EIR mitigations include D.3 (page IV.D.48) and D.4 (page IV.D.53).

Degradation of Air Quality:

The appropriate General Plan MEIR mitigation to be applied to this project includes measures AQ-18, AQ-39, AQ-42, AQ-43, AQ-44, AQ-46, AQ-47, AQ-48, AQ-49, AQ-50, AQ-51, AQ-52, AQ-53, AQ-54, AQ-55, and AQ-56 from the General Plan MEIR.

SFPUC Mitigation Measure M-AQ-1, specifying that vehicles used for off-site hauling will be model year 2000 or new will also be applied.

Generation of Noise:

The appropriate mitigation to be applied to this project includes measures N-2 and N-3. SFPUC Mitigation Measure M-NO-2 relating to the use of quieter stationary construction equipment and M-NO-3 relating to the use of temporary noise barriers to reduce impacts at sensitive receptors will be implemented.

Effects on Agricultural Lands:

None.

Increased Demand for Long-Term Water Supplies:

None.

Increased Demand for Sanitary Sewer Services:

None.

Loss of Sensitive Wildlife and Plant Habitat:

None.

Disturbance of Archaeological/Historic Sites:

The appropriate General Plan MEIR mitigation to be applied to this project is AH-16.

Increased Demand for Storm Drainage:

The appropriate mitigations to be applied to this project are SD-3, SD-4, SD-5, and SD-9 in the Master EIR.

Flooding and Water Quality:

No General Plan Master EIR mitigation measures will be applied to the proposed project. The potential for damage to the Hetch Hetchy pipelines related to flooding will be limited or eliminated through an encroachment permit and protocols established by the City and County of San Francisco. Should SFPUC's maintenance crews encounter groundwater, Mitigation Measure M-HY-2, relating to the preparation of an excavation dewatering and groundwater management plan will be implemented.

Increased Demand for Parks and Open Space:

None.

Increased Demand for Schools:

None.

Increased Demand for Police Services:

None.

Increased Demand for Fire Services:

None.

Generation of Solid Waste:

None.

Generation of Hazardous Materials:

None.

Geology, Soils, and Mineral Resources:

The geotechnical study prepared for this project will be used by SFPUC to develop an excavation, backfilling, and grading plan in accordance with its Mitigation Measure M-GE-1.

Energy:

None.

Effects on Visual Resources:

None.

Land Use and Planning:

None.

Climate Change:

None.

**MODESTO CITY COUNCIL
RESOLUTION NO. 2019-75**

RESOLUTION APPROVING A PURCHASE AND SALE AGREEMENT WITH RAVI K. GOGNA AND HARJIT R. GOGNA, TRUSTEES OF THE GOGNA 2017 TRUST DATED SEPTEMBER 26, 2017, FOR ACQUISITION OF 4,735 SQUARE FEET (0.109 ACRES) LOCATED AT 407 CLARATINA, MODESTO, (APN: 082-009-007), IN THE AMOUNT OF \$11,000, FOR THE HETCH HETCHY AND CLARATINA AVENUE STRUCTURAL CROSSING PROJECT AND AUTHORIZING THE CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE THE AGREEMENT AND ALL DOCUMENTS REQUIRED TO CLOSE ESCROW

WHEREAS, the Hetch Hetchy and Claratina Avenue Structural Crossing Project (Project) intends to widen Claratina Avenue between McHenry Avenue and Coffee Road and to build a structural utility crossing as part of its widening of Claratina Avenue, and

WHEREAS in order to construct the Project, the City will need to acquire narrow strips of land from properties on the north side of Claratina Avenue, and

WHEREAS, on May 31, 2017, the City Manager approved an agreement with Associated Right of Way Services (ARWS) to provide negotiation and acquisition services, and

WHEREAS, on April 24, 2018, staff received Council authorization to present the Appraisal Summary Statement and Summary of the Basis for Just Compensation to Ravi K. Gogna and Harjit R. Gogna, (Owners) for a partial acquisition of a 4,735 square foot portion of real property and a 402 square foot Temporary Construction Easement of the affected property (A.P.N. 082-009-007) at 407 Claratina Avenue, and

WHEREAS, the Owner rejected the offer presented by ARWS and submitted a counter offer to the City for consideration, and

WHEREAS, further negotiations were conducted pursuant to authority given by Council which has been agreed upon by the Owner for Partial Fee Acquisition in the

amount of \$7,205, a Temporary Construction Easement in the amount of \$110 and for miscellaneous site improvements in the amount of \$3,685 for a total amount of \$11,000, and

WHEREAS, estimated closing costs of \$1,091 are in addition to Owner compensation.

NOW, THEREFORE, BE IT RESOLVED, by the Council of the City of Modesto that it hereby approves a Purchase and Sale Agreement with Ravi K. Gogna and Harjit R. Gogna, Trustees of the Gogna 2017 Trust Dated September 26, 2017, for acquisition of 4,735 square feet (0.109 acres) located at 407 Claratina, Modesto, (APN: 082-009-007), in the amount of \$11,000, for the Hetch Hetchy and Claratina Avenue Structural Crossing Project.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is authorized to execute the agreement and all documents required to close escrow.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 26th day of February, 2019, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Zoslocki, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Ah You, Grewal, Kenoyer, Madrigal, Ridenour, Zoslocki, Mayor Brandvold

NOES: Councilmembers: None

ABSENT: Councilmembers: None

**MODESTO CITY COUNCIL
RESOLUTION NO. 2019-76**

RESOLUTION APPROVING THE GRANT DEED FROM RAVI K. GOGNA AND HARJIT R. GOGNA, TRUSTEES OF THE GOGNA 2017 TRUST DATED SEPTEMBER 26, 2017 AND AUTHORIZING THE CITY MANAGER, OR HIS DESIGNEE, TO SIGN THE CERTIFICATE OF ACCEPTANCE FOR THE GRANT DEED, CONSISTING OF 4,735 SQUARE FEET (0.109 ACRES) LOCATED AT 407 CLARATINA, MODESTO, (APN: 082-009-007), FOR THE HETCH HETCHY AND CLARATINA AVENUE STRUCTURAL CROSSING PROJECT

WHEREAS, the Hetch Hetchy and Claratina Avenue Structural Crossing Project (Project) intends to widen Claratina Avenue between McHenry Avenue and Coffee Road and to build a structural utility crossing as part of its widening of Claratina Avenue, and

WHEREAS, in order to construct the Project, the City will need to acquire narrow strips of land from properties on the north side of Claratina Avenue, and

WHEREAS, a Grant Deed is required from the property owner to transfer the property to the City of Modesto, and

WHEREAS, the Grant Deed requires signatures of the property owner and of the City of Modesto.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves a Grant Deed from Ravi K. Gogna and Harjit R. Gogna, Trustees of the Gogna 2017 Trust Dated September 26, 2017 for acquisition of 4,735 square feet (0.109 acres) located at 407 Claratina, Modesto, (APN: 082-009-007), for the Hetch Hetchy and Claratina Avenue Structural Crossing Project.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to sign the Certificate of Acceptance for acquisition of 4,735 square feet

(0.109 acres) located at 407 Claratina, Modesto, (APN: 082-009-007) to be conveyed to the City of Modesto.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 26th day of February, 2019, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Zoslocki, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION NO. 2019-77**

**RESOLUTION APPROVING THE GRANT OF TEMPORARY
CONSTRUCTION EASEMENT FROM RAVI K. GOGNA AND HARJIT R.
GOGNA, TRUSTEES OF THE GOGNA 2017 TRUST DATED SEPTEMBER 26,
2017 AND AUTHORIZING THE CITY MANAGER, OR HIS DESIGNEE, TO
SIGN THE CERTIFICATE OF ACCEPTANCE FOR THE GRANT OF
TEMPORARY CONSTRUCTION EASEMENT, CONSISTING OF 402 SQUARE
FEET (0.009 ACRES) LOCATED AT 407 CLARATINA AVENUE, IN
MODESTO, (APN: 082-009-007), FOR THE HETCH HETCHY AND
CLARATINA AVENUE STRUCTURAL CROSSING PROJECT**

WHEREAS, the Hetch Hetchy and Claratina Avenue Structural Crossing Project (Project) intends to widen Claratina Avenue between McHenry Avenue and Coffee Road and to build a structural utility crossing as part of its widening of Claratina Avenue, and

WHEREAS, the City Council directed staff to proceed with acquiring property to facilitate the construction of the Project, and

WHEREAS, the Grant of Temporary Construction Easement is needed for access and construction of the Project.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves a Grant of Temporary Construction Easement from Ravi K. Gogna and Harjit R. Gogna, Trustees of the Gogna 2017 Trust Dated September 26, 2017, consisting of 402 square feet (0.009 acres) located at 407 Claratina Avenue, in Modesto, (APN: 082-009-007), for the Hetch Hetchy and Claratina Avenue Structural Crossing Project.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to sign the Certificate of Acceptance for acquisition of 402 square feet (0.009 acres) located at 407 Claratina Avenue, in Modesto, (APN: 082-009-007) to be conveyed to the City of Modesto.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 26th day of February, 2019, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Zoslocki, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2019-78**

RESOLUTION APPROVING SECOND AMENDMENTS TO THE AGREEMENTS WITH GILTON SOLID WASTE MANAGEMENT, INC. AND BERTOLOTTI MODESTO DISPOSAL, INC. TO PERFORM BILLING AND COLLECTION SERVICES FOR CERTAIN SOLID WASTE SERVICE CHARGES FOR SINGLE-FAMILY RESIDENTIAL CUSTOMERS WITHIN THE CITY LIMITS OF MODESTO THROUGH DECEMBER 31, 2019, AND AUTHORIZING THE CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE THE AGREEMENT

WHEREAS, the City of Modesto Solid Waste Division contracts with Gilton Solid Waste and Bertolotti Modesto Disposal to provide garbage hauling services for the city, both residential and commercial, and

WHEREAS, on April 26, 2005, by Resolution No. 2005-185, Council approved an agreement with the two City contracted garbage haulers, Gilton Solid Waste and Bertolotti Modesto Disposal, to provide billing and collection services on behalf of the two companies with an automatic extension of the agreements each year, and

WHEREAS, on May 26, 2011 a First Amendment was made to the original agreements changing the methodology of the annual cost per bill increase, utilizing the Consumer Price Index for the Bay Area, and

WHEREAS, a comprehensive review of the billing agreement has not been completed since 2011, and

WHEREAS, this Second Amendment will provide an end date of December 31, 2019 and allow time for staff to work with both garbage companies to complete a thorough review of the agreement, completing any necessary revisions as mutually agreed upon by both parties, and

WHEREAS, this item was heard by Finance Committee on January 28, 2018 and forwarded to Council for approval.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves Second Amendments to the agreements with Gilton Solid Waste Management, Inc. and Bertolotti Modesto Disposal, Inc. to perform billing and collection services for certain solid waste service charges for single-family residential customers within the City limits of Modesto through December 31, 2019.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to execute the agreement, in a form approved by the City Attorney.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 26th day of February, 2019, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Zoslocki, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2019-79**

RESOLUTION APPROVING A TRANSIENT OCCUPANCY TAX FUNDING AGREEMENT WITH THE MODESTO CONVENTION AND VISITORS BUREAU FOR CONVENTION AND TOURISM SERVICES, AND AUTHORIZING THE CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE THE AGREEMENT

WHEREAS, on June 24, 2003, by Resolution No. 2003-316, Council approved an Agreement with the City to provide convention and visitor services, and

WHEREAS, on August 3, 2005, by Resolution No. 2005-382, Council approved a new agreement, and

WHEREAS, on July 6, 2010, by Resolution No. 2010-285, Council extended the 2005 agreement, and

WHEREAS, funding for all prior agreements was based on Transient Occupancy Tax (TOT) collections received by the City, and

WHEREAS, in June 2015, the City chose not to exercise its option to extend the 2005 agreement another five years, and

WHEREAS, on June 23, 2015, by Resolution Nos 2015-224 through 2015-227, Council approved the transference of the duties, functions, and staffing of the CVB to the Community and Economic Development Department, and

WHEREAS, TOT funding for the duties, functions, and staffing were budgeted in the City's operating budget, and

WHEREAS, on March 13, 2018, by Resolution No. 2018-107, Council accepted an information report on the Destination Modesto Task Force and plans to restore the CVB as an independent agency, and

WHEREAS, in April 2018, the City hired StoryPowered to assist with the CVB transition process, and

WHEREAS, in August 2018, StoryPowered prepared and presented a Tourism Business Plan to the Economic Development Committee, and

WHEREAS, by Resolution No. 2018-189, the Council approved the Mayor and Council as the Interim Board of Directors for the CVB, and

WHEREAS, by Resolution No. 2018-534, Council adopted the amended bylaws for the CVB, and

WHEREAS, the City prepared the terms and conditions for funding the CVB when restored as an independent non-profit agency, and

WHEREAS, on February 6, 2019, the Finance Committee approved the terms and conditions for the funding agreement.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the Transient Occupancy Tax Funding Agreement with the Modesto Convention and Visitors Bureau for convention and tourism services.

BE IT FURTHER RESOLVED that the Transient Occupancy Tax Funding Agreement will commence on March 1, 2019.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to execute the agreement, in a form approved by the City Attorney.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 26th day of February, 2019, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Zoslocki, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2019-80**

RESOLUTION APPROVING AN AGREEMENT WITH MARK THOMAS & COMPANY, INC., OF FRESNO, CA FOR THE PREPARATION OF CONSTRUCTION DOCUMENTATION (DESIGN) FOR THE VIRGINIA CORRIDOR PHASE 7 IN THE AMOUNT OF \$523,899, PLUS \$52,389 FOR CONTINGENCY, IF NEEDED, FOR A TOTAL NOT TO EXCEED \$576,288, AND AUTHORIZING THE CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE THE AGREEMENT

WHEREAS, the Virginia Corridor Trail is the result of conversion of the original Tidewater Southern/Union Pacific Railroad Corridor into a Class I bicycle and pedestrian trail, and

WHEREAS, the long-term plan for the corridor is to provide a Class I trail extending from Modesto Junior College's East Campus at the southern terminus to Kiernan Ave at the northern terminus (approximately 5 miles), and

WHEREAS, phases 1 through 6 are complete and the trail now crosses over Briggsmore Avenue and reaches to Woodrow Avenue, and

WHEREAS, on June 5, 2018 by Resolution 2018-211, Council accepted \$3,193,401 from the California Urban Greening Grant Program to fund construction of the Virginia Corridor Phase 7 Trail, and

WHEREAS, the design of the project was advertised for bids on August 7, 2018, and bids from 3 consultants were opened on September 4, 2018 pursuant to Administrative Directive 3.1, and

WHEREAS, firms were formally interviewed by a selection committee and ranked by qualifications, and

WHEREAS, based on the results of the RFQ/P, staff recommends approval of an agreement with Mark Thomas and Company, Inc., of Fresno, CA to complete the

construction documentation for the Virginia Corridor Phase 7 in the amount of \$523,899,
and

WHEREAS, staff recommends a 10% contingency in the amount of \$52,389 to
allow for change orders due to unforeseen conditions, delays or expenses for an
agreement total not to exceed \$576,288.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto
that it approves an agreement with Mark Thomas & Company, Inc., of Fresno, CA for the
preparation of Construction Documentation for the Virginia Corridor Phase 7 in the
amount of \$523,899, plus \$52,389 for contingency, if needed, for a total not to exceed
\$576,288.

BE IT FURTHER RESOLVED, that the City Manager, or his designee, is
authorized to execute the agreement, in a form approved by the City Attorney.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 26th day of February, 2019, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Zoslocki, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION NO. 2019-82**

**RESOLUTION APPROVING AN AGREEMENT WITH O'DELL
ENGINEERING, INC., OF MODESTO, CA FOR THE PREPARATION OF
CONSTRUCTION DOCUMENTATION FOR THE NEECE DRIVE BOAT
LAUNCH AND RIVER ACCESS FACILITY IN THE AMOUNT OF \$131,574,
PLUS \$13,157 FOR CONTINGENCY, IF NEEDED, FOR AN AGREEMENT
TOTAL NOT TO EXCEED \$144,731, AND AUTHORIZING THE CITY
MANAGER, OR HIS DESIGNEE, TO EXECUTE AN AGREEMENT**

WHEREAS, in 1972 the City of Modesto, the City of Ceres and Stanislaus County formed a Joint Powers Authority (JPA) commission to build and operate the Tuolumne River Regional Park (TRRP), and

WHEREAS, the JPA purchased land parcels along the Tuolumne River for the eventual development of the Tuolumne River Regional Park, and

WHEREAS, the City and the JPA partners have put significant effort into developing the land, the waterway itself has been an area that has received very little recreational development over the years, and

WHEREAS, the City of Modesto needs additional boating facilities for recreational and emergency river access, because there are currently no Tuolumne River boat ramp launch facilities within the City of Modesto, and

WHEREAS, on March 13, 2018, by Resolution No. 2018-125, Council accepted \$780,000.00 in grant funds from the California Division of Boating and Waterways (DBW) Recreational Boating and Facilities with Public Access Grant Program to design and construct a public access non-motorized boat launch and river access facility on the Tuolumne River, and

WHEREAS, the project was advertised for bids on August 28, 2018, and bids from 2 consultants were opened on September 25, 2018 pursuant to Administrative Directive 3.1, and

WHEREAS, firms were formally interviewed by a selection committee and ranked by qualifications, and

WHEREAS, based on the results of the RFQ/P, staff recommends approval of an agreement with O'Dell Engineering Inc., of Modesto, CA to complete the Construction Documentation for the Neece Drive Boat Launch and River Access Facility in the TRRP in the amount of \$131,574, and

WHEREAS, staff recommends a 10% contingency in the amount of \$13,157 to allow for change orders due to unforeseen conditions, delays or expenses for an agreement total not to exceed \$144,731.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it approves an agreement with O'Dell Engineering, Inc., of Modesto, CA for the preparation of construction documentation for the Neece Drive Boat Launch and River Access Facility in the amount of \$131,574, plus \$13,157 for contingency, if needed, for an agreement total not to exceed \$144,731.

**MODESTO CITY COUNCIL
RESOLUTION NO. 2019-84**

**RESOLUTION APPROVING THE REBRAND OF THE MODESTO AREA
DIAL-A-RIDE TO MAX MOBILITY AND AUTHORIZING THE TRANSIT
MANAGER TO BEGIN IMPLEMENTATION**

WHEREAS, the Transit Division operates the Modesto Area Dial a Ride (MADAR) system that provides ADA paratransit bus service to Modesto and neighboring communities, and

WHEREAS, the rebrand is a component of ADA paratransit enhancements that put MAX on a path to improve public transportation in Modesto by improving the systems, processes and public perception of transit in Modesto, and

WHEREAS, the launch of MAX Mobility in conjunction with a new operations contract provides a fresh new feel to ADA Paratransit while accruing no additional cost to the City, and

WHEREAS, the City's transit staff conducted community outreach meetings reaching several hundred members of the public, at which all attendees were invited to vote on their preferred name with MAX Mobility receiving the majority of all votes, and

WHEREAS, a survey was conducted of all ADA paratransit passengers riding the system on February 7, 2019 resulted in an overwhelming vote for the name MAX Mobility.

NOW, THEREFORE, BE IT RESOLVED, by the Council of the City of Modesto that it hereby approves rebranding the City's ADA paratransit system as MAX Mobility.

BE IT FURTHER RESOLVED, that the Transit Manager is authorized to begin implementation of the rebrand.

**MODESTO CITY COUNCIL
RESOLUTION NO. 2019-85**

RESOLUTION APPROVING THE AWARD OF BID AND A PURCHASING AGREEMENT FOR A GLOBAL POSITIONING SYSTEM (GPS) AND TELEMATICS SYSTEM FOR THE CITY'S FLEET TO ASSETWORKS, LLC, WAYNE, PA, FOR A TWO-YEAR AGREEMENT WITH THREE ONE-YEAR EXTENSION OPTIONS, FOR AN ANNUAL COST NOT TO EXCEED \$116,850 AND A TOTAL COST NOT TO EXCEED \$594,236 OVER A FIVE YEAR PERIOD, AND AUTHORIZING THE PURCHASING MANAGER, OR HER DESIGNEE, TO ISSUE THE PURCHASING AGREEMENT

WHEREAS, the Fleet Services Division of the Public Works Department operates and maintains a fleet of 1,060 vehicles and equipment that is used by all City departments in their daily operations while providing essential services to the citizens of Modesto, and

WHEREAS, Fleet Services has been in need of a new Global Positioning System (GPS) system for approximately two years now because the 2G network that most of the current system runs on is obsolete, non-functional and unsupported, and

WHEREAS, on June 12, 2017, the Purchasing Division issued RFP 1617-39 for the purchase of GPS and Telematics System on the City's website under the commodity codes for GIS software, Intelligent Transportation Systems Software, Satellite Global Information Positioning System Services and Telemetry, and

WHEREAS, all prospective bidders were notified online of the bid opportunity, and 26 companies chose to download the bid document and nine companies responded, none of which were local vendors, and

WHEREAS, on July 11, 2017, bids were formally opened in the City Clerk's office, nine companies chose to respond and all companies provided a responsive and responsible bid, and

WHEREAS, an evaluation committee was formed, and evaluated each proposal

based on a list of criteria and the overall highest scoring vendor was selected, based on proposal content, system functionality and online demonstrations, and

WHEREAS, AssetWorks, LLC's GPS system runs on a state-of-the art 4G Network, and this is the only vendor that fully integrates and communicates real-time with our existing AssetWorks Fleet Management System, and

WHEREAS, MMC Section 8-3.203 generally requires all purchases, which meet or exceed \$50,000 for material, equipment or contractual services to be formally bid, and

WHEREAS, the Fleet Services Division requests the award of bid for the purchase of GPS and Telematics Systems to AssetWorks, LLC, Wayne, PA, because it was the lowest responsive and responsible bidder, for a total cost not to exceed \$594,239 over a five year period will conform to MMC Section 8-2.203, and

WHEREAS, the Fleet Services Division will purchase 250 units during the first year, which will include the tracking devices, all associated hardware for installation, plus 50% of the annual monitoring fees for a total annual cost not to exceed \$92,632, and year two will consist of purchasing the remaining 250 units, all associated hardware and paying 100% of the monitoring fees for a total annual cost not to exceed \$151,057, and years three through five will consist of monitoring fees for an annual cost not to exceed \$116,850 for a total cost not to exceed \$594,239 over a five year period.

NOW THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the award of bid and a purchasing agreement for a Global Positioning System and Telematics System for the City's fleet to AssetWorks, LLC, Wayne, PA for a two year agreement with three one-year extension options.

BE IT FURTHER RESOLVED, that the Purchasing Manager, or her designee, is

authorized to issue a purchase order for an annual cost not to exceed \$116,850, and a total cost not to exceed \$594,236 over a five year period.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 26th day of February, 2019, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Zoslocki, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2019-86**

**RESOLUTION APPROVING A MEMORANDUM OF UNDERSTANDING
(MOU) FOR THE TRANSFER OF A PIERCE LADDER TRUCK TO THE
SALIDA FIRE PROTECTION DISTRICT IN EXCHANGE FOR A 2007
CHEVROLET SILVERADO PICKUP TRUCK, FOR USE BY THE MODESTO
FIRE DEPARTMENT, AND AUTHORIZING THE CITY MANAGER, OR HIS
DESIGNEE, TO EXECUTE THE AGREEMENT**

WHEREAS, the City of Modesto Fire Department (MFD) has a Pierce Ladder Truck valued at approximately \$15,000 that is no longer in service, and

WHEREAS, the MFD'S unit has been in surplus for a year and has been listed on Public Surplus twice and listed continuously on various other fire specific websites for close to a year and the highest bid received was \$7,500, and

WHEREAS, the City would like to do a vehicle exchange transfer with the Salida Fire Protection District for a 2007 Chevrolet Silverado Crew Cab pickup that has a Kelly Blue Book value of \$15,000, and

WHEREAS, the Salida Fire Protection District initiated contact requesting a surplus property transfer of a 2007 Chevrolet Silverado Crew Cab pickup for the Pierce Ladder Truck, and

WHEREAS, this surplus vehicle exchange will satisfy the needs of the division and the Salida Fire District, and

WHEREAS, MMC Section 8-3.501(c) states, "the Purchasing Manager, when designated by the City Manager, may also transfer any surplus personal property to another governmental agency or to a quasi-public agency by negotiated sale, exchange, loan, or gift; provided that gifts hereunder to any agency shall not exceed an aggregate value of five thousand dollars (\$5,000) annually, "Quasi-public agency," as used in this

subsection, means a tax exempt nonprofit corporation which is currently engaged in a public project financed in whole or in part by public funds pursuant to contract or grant agreement with a governmental agency, whose assets, upon dissolution, will not be distributable to or for any private person or purpose, and

WHEREAS, by initiating a surplus property transfer with Salida Fire District, the City will be acquiring a pickup with a Kelly Blue Book value almost twice the amount of the highest bid received for the Pierce ladder truck while it was posted on the Public Surplus website, and it will also provide a cost savings to the MFD as they will not have to budget for a new vehicle in the next fiscal year.

NOW THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the Memorandum of Understanding (MOU) for the transfer of a Pierce Ladder Truck to the Salida Fire Protection District in exchange for a 2007 Chevrolet Silverado pickup truck for use by the Modesto Fire Department.

RESOLUTION APPROVING AN AGREEMENT WITH ITERIS, SANTA ANA, CA, FOR THE TRAFFIC SIGNAL SYNCHRONIZATION OUTSIDE THE DOWNTOWN PROJECT IN THE AMOUNT OF \$389,384 FOR THE IDENTIFIED SCOPE OF SERVICES, PLUS \$38,938 FOR ADDITIONAL SERVICES (IF NEEDED), FOR AN AGREEMENT TOTAL NOT TO EXCEED \$428,322, AND AUTHORIZING THE CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE THE AGREEMENT

WHEREAS, there are currently 156 signalized intersections outside the Central Business District, and

WHEREAS, Caltrans owns and maintains 32 traffic signals within the City on State Routes 99, 108, and 132, while the City maintains the other 124 traffic signals outside the downtown area, and

WHEREAS, the Federal Highway Administration (FHWA) – Traffic Signal Timing Manual recommends synchronizing the traffic signals every three to five years to improve the traffic flow due to changes in population, construction and traffic flow patterns, and

WHEREAS, the City applied for a Congestion Mitigation and Air Quality (CMAQ) Grant for Traffic Signal Synchronization on April 22, 2010, and was granted approval to proceed with the project, and

WHEREAS, the City requested for a Cooperative Work Agreement (CWA) Extension on October 19, 2017 to revise the lapsing date to utilize funding until June 30, 2020, and

WHEREAS, Caltrans approved the CWA extension request on March 12, 2018, and

WHEREAS, in accordance with Administrative Directive 3.1, Selection Procedures for Professional Consultants Who Provide Architectural & Engineering

Services for Capital Projects, Staff solicited and formally advertised for a Request for Proposal (RFP) through Planet Bids (#100762) for consulting services to review Traffic Signal System operations, and

WHEREAS, on August 21, 2018, Staff received three proposals for the Traffic Signal Synchronization Outside the Downtown project, and

WHEREAS, from the rating of the three proposals, Iteris received the top score, and

WHEREAS, staff negotiated a final Scope of Services and Cost Proposal with Iteris in an amount not to exceed \$389,384 for the identified scope of services, plus \$38,938 for additional services (if needed), for a maximum amount not to exceed \$428,322.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves an Agreement with Iteris, Santa Ana, CA, for the Traffic Signal Synchronization Outside the Downtown project in the amount of \$389,384 for the identified scope of services, plus \$38,938 for additional services (if needed), for an agreement total not to exceed \$428,322.

**MODESTO CITY COUNCIL
RESOLUTION NO. 2019-90**

RESOLUTION APPROVING A PROPOSAL TO UPGRADE HIGH VOLTAGE STREET CIRCUITS TO LOW VOLTAGE BY CONTRACTING \$500,000 OF THE HIGH VOLTAGE WORK TO CONVERT 50 STREET LIGHTS AND ALLOCATING \$500,000 FOR CITY STAFF TO CONVERT 100 STREET LIGHTS

WHEREAS, the City has a total of 11,576 streets lights, of which 539 are high voltage street lights, and

WHEREAS, the 539 high voltage streets lights are on 29 high voltage circuits (HVC) that are between 51 and 117 years old, and

WHEREAS, the estimate cost to replace the 29 high voltage circuits and the 539 street lights with normal voltage Light Emitting Diode (LED) street lights is \$6,000,000, approximately \$11,100 per street light, and

WHEREAS, on March 24, 2015, Council approved \$600,000 in one-time general fund dollars for HVC replacement per Resolution No. 2015-101, and

WHEREAS, staff was able to replace 155 street lights on six HVC which was a cost of \$3,870 per street light, and

WHEREAS, the future of the HVC will include more failures as the HVC continue to age and deteriorate, and

WHEREAS, the recommended approach to replace the HVC is a \$1,000,000 per year program that will replace approximately 150 high voltage street lights each year with completion of the process in five years or less, and

WHEREAS, staff reviewed multiple options to make the HVC street lights more reliable and safer and recommend the following:

1. Contract \$500,000 of the work for construction, contingencies, and construction engineering to convert 50 street lights.
2. Use \$500,000 for city staff consisting of an Electrician, Electrician Assistant, Equipment Operator, Maintenance Worker, and equipment to convert 100 street lights.

WHEREAS, the Safety and Communities Committee recommended the following modification:

1. Contract \$500,000 of the work for construction, contingencies, and construction engineering to convert 50 street lights.
2. Use \$500,000 for city staff consisting of an Electrician, Electrician Assistant, Two Three Year Limited Term Equipment Operators, and equipment to convert 100 street lights.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the proposal to upgrade high voltage street circuits to low voltage by contracting \$500,000 of the high voltage work to convert 50 street lights and by allocating \$500,000 for city staff to convert 100 street lights.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 26th day of February, 2019, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Zoslocki, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2019-91**

**RESOLUTION AMENDING THE FISCAL YEAR 2018-2019 CAPITAL
IMPROVEMENT PROGRAM BUDGET, IN THE AMOUNT OF \$1,000,000 TO
ESTABLISH A NEW PROJECT AND TRANSFER FUNDS FROM THE GAS
TAX AND SENATE BILL 1-ROAD MAINTENANCE REHABILITATION
ACCOUNT FUNDS TO THE PROJECT**

WHEREAS, the City has a total of 11,576 streets lights, of which 539 are high voltage street lights, and

WHEREAS, the 539 high voltage streets lights are on 29 high voltage circuits (HVC) that are between 51 and 117 years old, and

WHEREAS, the estimate cost to replace the 29 high voltage circuits and the 539 street lights with normal voltage Light Emitting Diode (LED) street lights is \$6,000,000, approximately \$11,100 per street light, and

WHEREAS, the future of the HVC will include more failures as the HVC continue to age and deteriorate, and

WHEREAS, the recommended approach to replace the HVC is a \$1,000,000 per year program that will replace approximately 150 high voltage street lights each year with completion of the process in five years or less.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby amends the Fiscal Year 2018-2019 Capital Improvement Program Budget to establish a new capital project and transfer of funds from the Gas Tax Fund reserves and Senate Bill 1 – Road Maintenance Rehabilitation Account funds to the project in the amount of \$1,000,000.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to implement the provisions of this resolution.

**MODESTO CITY COUNCIL
RESOLUTION NO. 2019-92**

RESOLUTION ALLOCATING TWO FULL-TIME EQUIPMENT OPERATOR POSITIONS TO THE STREETS MAINTENANCE DIVISION FOR A PERIOD OF THREE YEARS, AMENDING THE POSITION ALLOCATION FOR FISCAL YEAR 2018-2019 AS ADOPTED IN THE OPERATING BUDGETS, AND INCREASING THE STREET MAINTENANCE OPERATING BUDGET BY \$80,605

WHEREAS, a Position Allocation for the City of Modesto was adopted by Modesto City Council on June 12, 2018, as part of the Annual Budget of the City of Modesto for Fiscal Year 2018-2019 by resolution 2018-244, and

WHEREAS, staff has proposed to replace approximately 150 high voltage street lights each year with completion of the process in five years or less, and

WHEREAS, two additional full-time equipment operator positions for a period of three years are needed to complete the proposed high voltage street light project, and

WHEREAS, position changes will be effective the first full pay period following Council adoption (Pay Period beginning March 5, 2019), and

WHEREAS, the Street Maintenance division operating budget will need to be amended by \$80,605 to fund the positions for the remainder of Fiscal Year 2018-2019.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves amending the Position Allocation and the Fiscal Year 2018-2019 Operating Budget in the amount of \$80,605 to allocate two Equipment Operators in the Streets Maintenance Division of the Public Works Department for a period of three years.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 26th day of February, 2019, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Zoslocki, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2019-93**

RESOLUTION APPROVING A MEMORANDUM OF UNDERSTANDING, RIGHT OF ENTRY PROCUREMENT AND CONSTRUCTION AGREEMENT WITH THE COUNTY OF STANISLAUS AND SALVATION ARMY OF MODESTO TO PROVIDE INFRASTRUCTURE IMPROVEMENTS AND OPERATIONAL SUPPORT FOR THE SALVATION ARMY LOW-BARRIER SHELTER FACILITY LOCATED AT THE SOUTHEAST CORNER OF THE INTERSECTION AT 9TH STREET AND D STREET, MODESTO, IN AN AMOUNT NOT TO EXCEED \$378,326; AND AN ASSOCIATED GROUND LEASE WITH THE COUNTY OF STANISLAUS FOR A PERMANENT ACCESS CENTER; AND AUTHORIZING THE CITY MANAGER, OR HIS DESIGNEE, TO NEGOTIATE AND EXECUTE THE AGREEMENTS, AND PROVIDE COUNCIL WITH SEMI-ANNUAL UPDATES FOLLOWING OPENING OF THE SHELTER

WHEREAS, On December 11, 2018, by Resolution No. 2018-564, Council declared a shelter crisis in Modesto, pursuant to SB 850 (Chapter 48, Statutes of 2018 and Government Code 8698.2); and

WHEREAS, homelessness has emerged as a key priority for the State of California and the region as a result of the steady growing population of individuals experiencing homelessness; and

WHEREAS, the City, in partnership with the County of Stanislaus, and public/private sector partners are working diligently to alleviate the concerns from the homeless community by exploring all options for temporary and permanent shelter in addition to pursuing long-term programs; and

WHEREAS, the Salvation Army of Modesto has available property and facilities that will support a low-barrier shelter and associated services in partnership with the County of Stanislaus to provide a permanent access center for homeless outreach and engagement; and

WHEREAS, the County of Stanislaus is committed to providing operational and programming support to facilitate the expansion of the north warehouse and the permanent access center on adjacent property owned by the City; and

WHEREAS, the County of Stanislaus will provide portable buildings, project management, construction services within the north warehouse, and ongoing social services needs to support the operation; and

WHEREAS, the Salvation Army is leasing their existing north warehouse to the County of Stanislaus to provide low-barrier shelter and transitional housing services; and

WHEREAS, it is necessary that the Memorandum of Understanding between the City of Modesto, the County of Stanislaus, and the Salvation Army of Modesto serve as the primary agreement connecting the Right of Entry for Procurement and Construction and Ground Lease agreements together in support of a singular project to provide low-barrier shelter and permanent access center services to the homeless population within the community; and

WHEREAS, the City of Modesto will provide utility infrastructure services as stated within **Exhibit C** of the Memorandum of Understanding to increase parking, water, and sewer infrastructure needed to provide the services as stated in an amount not to exceed \$378,326.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves a Memorandum of Understanding, Right of Entry Procurement and Construction Agreement with the County of Stanislaus and Salvation Army of Modesto to provide infrastructure improvements and operational support for the Salvation Army low-barrier shelter facility located at the southeast corner of the

intersection at 9th Street and D Street, Modesto, in an amount not to exceed \$378,326; and an associated Ground Lease with the County of Stanislaus for a permanent access center.

BE IT FURTHER RESOLVED, staff will provide semi-annual progress reports to Council following the opening of the shelter facility.

BE IT FURTHER RESOLVED, that the City Manager or his designee, are hereby authorized to negotiate and execute the agreements, in a form approved by the City Attorney.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 26th day of February, 2019, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Zoslocki, was upon roll call carried and the resolution adopted by the following vote:

DRAFT SUBJECT TO FINAL NEGOTIATION

**MEMORANDUM OF UNDERSTANDING
BETWEEN THE COUNTY OF STANISLAUS,
THE CITY OF MODESTO, AND
AND THE SALVATION ARMY OF MODESTO
FOR COLLABORATION ON HOMELESS PROGRAMS AND SHELTERING**

This Memorandum of Understanding (this **MOU**) is made effective as of _____, 2019, between the COUNTY OF STANISLAUS, a general law county (**County**), the CITY OF MODESTO, a charter city (**City**), and THE SALVATION ARMY, a California Corporation (**Salvation Army**), individually referred to as a "Party" and collectively referred to as the "Parties", and is for the purpose of collaborating on development of a long-term plan to create a sustainable system of care for the homeless in Stanislaus County, California.

RECITALS

WHEREAS: On October 28, 2014, the County established the Focus on Prevention initiative (**FOP**) to improve the quality of life in Stanislaus County, and Focus on Prevention has initiated a community transformation process in areas critical to quality of life: Homelessness, Strengthening Families, Investing in and Supporting Young Children and Reducing Recidivism; and

WHEREAS: In 2017, the Stanislaus County Housing and Support Services Collaborative/Continuum of Care and the Homelessness Action Council merged efforts. The Stanislaus Community System of Care (**CSOC**) now leads homelessness efforts, led by a 25 member Council representing all major sectors of the community; and

WHEREAS: On August 1, 2017, the County and its partners celebrated the opening of the Initial Outreach and Engagement Center (IOEC) at 825 12th Street. The IOEC serves as a physical entry point that centralizes connections to housing and necessary supports, provides assessments and referrals, and helps individuals navigate the wide range of homelessness services available throughout Stanislaus County; and

WHEREAS: As part of the FOP initiative, an Access Center visioning process was conducted throughout 2017 to create a plan for an Access Center to address the homelessness crisis in Stanislaus County; the Vision of that effort is: "Through Dignity and Respect Empowering People at Risk or Experiencing Homelessness Towards a Hopeful and Independent Life;" and

WHEREAS: On February 27, 2018, the Stanislaus County Board of Supervisors (**Board**) adopted a vision of a Permanent Access Center (**PAC**) strategy to serve those at risk for experiencing homelessness. The vision of the PAC is a "one-stop shop" where coordinated services can be provided along with critical housing supported by a community-wide increase in transitional affordable housing as a key factor to reduce homelessness; and

WHEREAS: On June 26, 2018, the Board and the Modesto City Council (**Council**) adopted a joint CARE Multi-Disciplinary Team Strategy and pilot program to address

DRAFT SUBJECT TO FINAL NEGOTIATION

vagrancy and individuals in distress due to severe mental illness, substance use disorders and high risk health issues in Stanislaus County; and

WHEREAS: On September 17, 2018, Beard Brook Park became a temporary camping destination for homeless individuals; and

WHEREAS: On December 11, 2018, the Board declared that a "Shelter Crisis" exists in the unincorporated areas of Stanislaus County under California Government Code Section 8698(d); and

WHEREAS: On December 11, 2018, the Board affirmed CSOC's designation of the County's Community Services Agency as the Administrative Entity to accept and administer \$7.2 million in federal Home Energy Assistance Program (**HEAP**) funds granted by the State of California to the County; and

WHEREAS: On December 11, 2018, the City declared that a "Shelter Crisis" exists in the unincorporated areas of Stanislaus County under California Government Code Section 8698(d); and

WHEREAS: The Salvation Army was founded on March 1, 1890 and offers a multitude of programs to the Greater Modesto community including development of a long-term plan to create a sustainable system of care for the homeless and to strategize the funding of multiple years of operations; and

WHEREAS: The Parties recognize that The Salvation Army is a religious organization that seeks to bring salvation to the poor, destitute, and hungry by meeting both their "physical and spiritual needs." As such, The Salvation Army will be conducting religious programs in their adjacent Shelter, none of which will be mandatory for occupants who are not Salvation Army clients; and

NOW, THEREFORE, the parties hereby agree as follows:

1. Definitions.

Capitalized terms not defined elsewhere in this MOU shall have the following meanings:

Agreement or **MOU** mean this Memorandum of Understanding.

Applicable Codes means the California Building Code applicable to City and County, as those regulations may be amended during the term of this Agreement, including, but not limited to, codes for building, electrical, energy, mechanical, plumbing, fire and safety.

City means the City of Modesto, California.

County means the County of Stanislaus, California.

Emergency Shelter means the County's Emergency Shelter described in paragraph 2(b) of this MOU, and in Exhibit A attached hereto, as modified from time to time pursuant to this MOU.

DRAFT SUBJECT TO FINAL NEGOTIATION

Emergency Shelter Operator or **Operator** means the qualified third-party operator (including successors) to operate the Emergency Shelter, whose anticipated duties are generally described in Exhibit B attached hereto.

Existing Shelter Operations means the Salvation Army's existing shelter operations at its Berberian Shelter location.

2. Purpose of MOU. This MOU defines and memorializes each Party's legal obligations with respect to the following various phases, each of which represents a portion of the Parties' overall strategy for addressing homelessness issues in Stanislaus County:

(a) This MOU establishes a framework for ongoing financial support of existing Salvation Army shelter operations as well as those operations created pursuant to this MOU. Financial and non-financial obligations and duties with respect to homelessness-related operations created by the Parties at a future date shall be subject to mutual agreement by the Parties.

(b) The construction by the Salvation Army of upgrades to be funded by others, including but not limited to new beds and kitchen equipment, plumbing systems, utility upgrades, and other infrastructure improvements within the Salvation Army's current existing kitchen facility and shelter located on the south wing of the Salvation Army's property at 330 9th Street, Modesto for the purpose of increasing the Salvation Army's capacity to provide food services to the occupants of the County's Emergency Shelter described in paragraph 2(b) below ("South Wing Phase");

(c) The construction by the County of an Emergency Shelter in the Salvation Army's existing warehouse on the north wing of its 330 9th Street property to accommodate up to 180 occupants that will be operated by the County's separately retained Operator and for whom the Salvation Army will provide food services via a voucher system ("Emergency Shelter Phase");

(d) The County shall procure and install a 6,500 square foot modular facility for Salvation Army administration and programs on the Salvation Army's property at 301 10th Street ("Modular Facility Phase");

(e) The purchase by the County of the Salvation Army's Community Center and parking lots located at 625 I Street, located at the intersection of 7th and I Street in Modesto for the purpose of constructing Transitional Youth / Family Housing ("Family Housing Phase");

(f) The County shall acquire and install modular facilities for use as a Permanent Access Center on adjacent City property (APN 106-046-003) ("PAC Phase"); and

(g) The City shall perform site upgrades on adjacent property at 216 9th Street for the purpose of providing parking and a potential outdoor area per the City of Modesto Worklist attached hereto as Exhibit C ("Site Upgrades Phase").

3. Collectively, the South Wing Phase, Emergency Shelter Phase, Modular Facility Phase, Family Housing Phase, PAC Phase, and Site Upgrades Phase, as respectively set forth in subsections 2(a)-(f) above, shall hereinafter be referred to as the "Project". **Term.** This MOU is effective on mutual execution by the Parties ("Effective Date"), and terminates five years after the date the Emergency Shelter commences operations ("Opening Date") unless extended by written agreement of the Parties or sooner terminated in accordance with the terms hereof.

DRAFT SUBJECT TO FINAL NEGOTIATION

4. **Budget and Project Schedule.** The current Project funding sources and uses and timeline are attached hereto as Exhibit D and Exhibit E, respectively. The Parties will update the Exhibits D and E in a mutually agreed upon manner as further information becomes available.

5. **Negotiation and Execution of Agreements Required to Accomplish MOU Objectives**

The Parties agree to negotiate and execute those agreements and other documentation necessary to carry out the objectives of this MOU, including but not limited to the following:

- (a) A rate-based food services contract between the County and the Salvation Army whereby the Salvation Army will upgrade and utilize its kitchen facility (located in the south half of the Salvation Army site at 320 9th Street) to provide meals for the County's Emergency Shelter to be located in the north half of the Salvation Army warehouse located at 330 9th Street and operated by Turning Point. A meal tracking system will be implemented for the provision of daily meals to 180 individuals on an agreed-upon schedule and scope of food services to be provided pursuant to the rate-based food services contract.
- (b) A Facility Lease between the County and the Salvation Army for the lease and tenant improvements by the County of 18,000 square feet inside the north half of the Salvation Army warehouse located at 330 9th Street for the creation of an Emergency Shelter:
 - 1) Lessor: The Salvation Army
 - 2) Lessee: County
 - 3) Purpose: Emergency Shelter
 - 4) County will pay a lease price of \$.75 per square foot
 - 5) County will hire an architect to design the space plan
 - 6) County will hire a contractor to construct the renovations
 - 7) Installation of separate utility meters for the space subject to the Facility Lease and for the Emergency Shelter reception area
 - 8) County will install an emergency generator that will be available as backup power for all Emergency Shelter operations
 - 9) County will be responsible for procuring and constructing the Emergency Shelter pursuant to all laws, regulations, Applicable Codes, the Facility Lease and this MOU
 - 10) The Salvation Army will provide meals to the occupants of the County's Emergency Shelter pursuant to the rate-based food services contract described in paragraph 5(a) above.
 - 11) The County will procure operator services for the County's Emergency Shelter. A general overview of anticipated Operator services is provided in Exhibit B attached hereto.
 - a. The County agrees to ensure the Operator Agreement will include pest control services for the entire Salvation Army facility (north and south sections) that includes but is not limited to a professional bed bug extermination plan. The bed bug extermination plan will be approved by the Salvation Army to ensure the plan meets their requirements to ensure a pest-free facility.
 - b. The County agrees to ensure the Operator Agreement will include on-site private security services. The hours and areas/facilities to be secured will be

DRAFT SUBJECT TO FINAL NEGOTIATION

- based on an annual assessment by The Salvation Army, the Emergency Shelter Operator, and the County on a 24 hour per day, 7 day a week basis.
- 12) For the period of the Facility Lease, neither the Lessor nor the Operator will impose barriers on sheltered persons.
 - 13) Parking will be the City of Modesto will construct client parking with 40-50 parking stalls in accordance with the City of Modesto Workplan attached hereto as Exhibit C.
- (c) A Right of Entry granted by the Salvation Army to the County and the City to enter the Salvation Army's property at 301 10th Street [**Administration Facility Site**] for the following purposes:
- 1) Grantor: The Salvation Army
 - 2) Grantees: County and City
 - 3) The County shall be granted a right to enter and construct to perform the Modular Facility Phase work, including procurement and installation of an approximately 6,500 square foot modular facility to be utilized for Salvation Army administration ("Administration Facility")
 - 4) The City of Modesto shall be granted a right to enter and construct to connect sewer and water services to the Administration Facility in accordance with the City of Modesto Workplan attached hereto as Exhibit C The City of Modesto will provide parking adjacent to the Administration Facility Site in accordance with the City of Modesto Workplan attached hereto as Exhibit C
 - 5) The City of Modesto will provide fire riser and connection to a City water main for fire protection services for the Administration Facility in accordance with the City of Modesto Workplan attached hereto as Exhibit C
 - 6) The County will construct the remainder of the site package for the modular facility
 - 7) County and City will install separate utility meters for electricity and natural gas to be utilized by the Administration Facility
- (d) A Purchase and Sale Agreement for purchase by the County for Fair Market Value of The Salvation Army's Community Center and parking lots located at 625 I Street at which site the County will construct a Transitional Youth / Family Housing.
- 1) The County will comply with Government Code noticing requirements regarding this transaction
 - 2) The County has been assured by City staff that its intended use is consistent with the City's zoning code
 - 3) Following the closing of the sale and prior to commencing construction work, the County may lease back the Community Center to the Salvation Army as it transitions to its new Administrative Facility
- (e) A \$1 Ground Lease between the County and the City for that portion of the City's property adjacent to the Salvation Army emergency shelter and north of the water tower (APN 106-046-003) upon which the County will perform the PAC Phase, including installation of modular facilities for the Permanent Access Center, subject to the following exceptions:
- 1) The City of Modesto will demolish and clear the existing structure and fencing from the site and cap off all utilities
 - 2) The City of Modesto provide any and all sewer and water lateral connections

DRAFT SUBJECT TO FINAL NEGOTIATION

- 3) The City of Modesto will construct 20-25 parking stalls adjacent to the site
 - 4) The City and County will maintain a lane for Salvation Army delivery trucks north of the County's Permanent Access Center
- (f) A Ground Lease between the County and Stanislaus Foods for Stanislaus Foods' property at 216 9th Street City of Modesto. It is possible this property may also be used for pop up tents and/or picnic tables.

6. Other Commitments of the Parties.

- (a) The County will coordinate the identification and distribution of various grant and donor funds toward the various projects required to carry out the objectives of this MOU.
- (b) The County will construct the specific improvements identified in this MOU.
- (c) The County will draft the various agreements amongst the Parties and others required to carry out the objectives of this MOU.
- (d) The Parties will present this MOU and its objectives to their various governing Boards or Council, with recommendations of approval.
- (e) The City will carry out the commitments enunciated on that certain work list (the "City's Work List") attached hereto and incorporated by reference herein as Exhibit "C" that identifies various approvals, construction work and utility upgrades required for the various phases required to carry out the objectives of this MOU.

7. Grant Funding.

(a) The Parties agree to cooperate in seeking any and all grant funding to be used for the purposes identified in this MOU.

(b) The Parties acknowledge and agree that The Salvation Army shall not under any circumstances be obligated to provide additional funding in the event Grant Funding amounts aren't sufficient for the purposes of this MOU.

8. Creation of Operating Oversight Committee.

(a) The Salvation Army, the County, and the City of Modesto will create an Operating Oversight Committee ("Committee") comprised of representatives of the Salvation Army, the County, the City, the Operator, the FOP, and the CSOC. The County's contract with its Operator will require Operator's participation in the Committee. The purpose of the Committee is to collaborate on activities related to the operations and security of the projects created pursuant to this MOU and to avoid adverse impacts to the other Parties.

(b) The Parties will work together with the Committee to implement, correct and modify joint operations plans to ensure safe and effective operations of the Emergency Shelter and other facilities created pursuant to this MOU.

(c) One of the Committee's priorities will be identifying long term, sustainable funding, including future donor opportunities, to support the system of care for the homeless that is being established by this MOU and the projects described in this MOU.

9. Other Responsibilities.

DRAFT SUBJECT TO FINAL NEGOTIATION

(a) Each Party shall use reasonable efforts to obtain the grant funding described in this MOU.

(b) For each of the Phases described in this MOU and for any other projects deemed necessary by the Parties to carry out the objectives of this MOU, each Party shall be responsible for ensuring that all required and reasonable insurance is maintained, and that prevailing wages are paid if required for the projects for which they are responsible.

(c) For the term of this MOU, and three years thereafter, the Parties shall maintain in accordance with their standard record retention procedures (and require any Operator or other third party vendors hired to assist in carrying out the objectives of this MOU to maintain) and permit the other Parties to audit (and require any Operator or other third party vendors hired to assist in carrying out the objectives of this MOU to permit the other Parties to audit) all records pertaining to expenditures of funds relating to the construction and operation of the projects described in this MOU, including correspondence, internal memoranda, calculations, books and accounts, accounting records, and invoices, payrolls, records and all other data related to matters covered by this MOU. The audit rights described herein include the right to audit, examine and make copies, excerpts and transcripts from such records. Such rights shall be specifically enforceable.

(d) Upon completion or termination of this MOU, the Parties will reconcile all relevant accounts to confirm that any contributed funds that have not been spent or encumbered for the authorized purposes under this Agreement are returned to the donors on an equitable basis considering the relative total amount of contributions by a donor during the term of this Agreement.

(e) The Parties will cooperate to obtain and/or provide all required entitlements, permits and approvals for the projects described in this MOU and for any other projects deemed necessary by the Parties to carry out the objectives of this MOU.

(f) The Parties shall reasonably cooperate to ensure their safe and effective coexistence on those sites and/or within those facilities they share.

10. Indemnification.

(a) For this MOU and for each of the agreements the Parties enter into in order to carry out the requirements of this MOU, County shall defend, indemnify and hold harmless the Salvation Army and its members, governing bodies, officers, employees, departments, officials, representatives, inspectors, contractors, consultants and agents from and against all claims, suits, actions, losses and liability of every kind, nature and description, including but not limited to claims and fines of regulatory agencies and attorney's fees and consultant's fees, arising out of, connected with or resulting from the County's negligence, willful misconduct, or breach of this MOU.

(b) For this MOU and for each of the agreements the Parties enter into in order to carry out the requirements of this MOU, City shall defend, indemnify and hold harmless the Salvation Army and its members, governing bodies, officers, employees, departments, officials, representatives, inspectors, contractors, consultants and agents from and against all claims, suits, actions, losses and liability of every kind, nature and description, including but not limited to claims and fines of regulatory agencies and attorney's fees and consultant's fees, arising out

DRAFT SUBJECT TO FINAL NEGOTIATION

of, connected with or resulting from the County's negligence, willful misconduct, or breach of this MOU.

(c) For this MOU and for each of the agreements the Parties enter into in order to carry out the requirements of this MOU, the Salvation Army shall defend, indemnify and hold harmless the County, its members, governing bodies, officers, employees, departments, officials, representatives, inspectors, contractors, consultants and agents from and against all claims, suits, actions, losses and liability of every kind, nature and description, including but not limited to claims and fines of regulatory agencies and attorney's fees and consultant's fees, to the extent arising out of, connected with or resulting from the Salvation Army's negligence, willful misconduct, or breach of this MOU.

(d) For this MOU and for each of the agreements the Parties enter into in order to carry out the requirements of this MOU, the Salvation Army shall defend, indemnify and hold harmless the City, its members, governing bodies, officers, employees, departments, officials, representatives, inspectors, contractors, consultants and agents from and against all claims, suits, actions, losses and liability of every kind, nature and description, including but not limited to claims and fines of regulatory agencies and attorney's fees and consultant's fees, to the extent arising out of, connected with or resulting from the Salvation Army's negligence, willful misconduct, or breach of this MOU.

(e) For this MOU and for each of the agreements the Parties enter into in order to carry out the requirements of this MOU, the Parties shall ensure that their contracts with their contractors and vendors including the Operator will require those contractors and vendors to indemnify the other Parties to this MOU for their construction and operation activities. Contractors' and Operator's indemnification obligations shall not be limited to valid and collectible insurance.

11. Termination. This MOU may also be terminated in advance of its expiration date:

(a) If the Parties agree in writing.

(b) If:

(1) One Party fails to perform its material responsibilities for three consecutive months,

(2) The performing Party(ies) notifies the non-performing Party of its failure to perform in writing and provides a reasonable opportunity to cure (not to exceed 90 days), and

(3) The non-performing Party fails to cure within the designated cure period;

(c) If the Salvation Army provides County with ninety (90) days prior written notice that funding is insufficient to continue operations; or

(d) For The Salvation Army's convenience only after The Salvation Army has provided and the Parties have aligned upon a feasible plan for suitable substitute arrangements.

The Parties' insurance and indemnification obligations shall survive the termination of this MOU.

DRAFT SUBJECT TO FINAL NEGOTIATION

12. Damages. The Parties hereby agree that, in the event of default, any damages awarded or arising under this MOU shall be exclusively limited to actual direct damages incurred and which have been demonstrated with substantial certainty. In no instance shall the Parties be entitled to special, incidental, indirect, consequential or punitive damages, lost profits or attorney's fees. By acceptance and execution of this MOU, the Parties hereby agree that the only monetary damages contemplated by them as arising from this MOU are actual or direct damages.

13. Ownership of Improvements. The Parties agree that upon the completion or termination of this MOU, all improvements constructed pursuant to this MOU and the agreements this MOU requires at 320 9th Street, 330 9th Street, and 310 10th Street shall become the property of The Salvation Army for improvements on and within The Salvation Army facilities and property. The Right of Entry to the Alley and Abandoned C Street shall remain with the Salvation Army upon completion and/or termination of this MOU.

14. Representations and Warranties.

Each Party represents, warrants and covenants to the other party as follows:

(a) Authority. Such Party has the legal power and authority to execute and deliver this MOU and to perform its obligations under this MOU.

(b) Due Authorization. The approval, execution, and delivery of this MOU, and the performance by such Party of its obligations under this MOU, have been authorized by all requisite actions of such Party.

(c) Due Execution and Delivery. The persons executing this MOU on behalf of such Party are duly authorized to execute and deliver this MOU on behalf of such Party.

(d) No Conflict. The approval, execution, delivery and performance of this MOU does not conflict with any other agreement to which such Party is a party and does not violate or require any action which has not been taken under any law, statute, rule, regulation, ordinance, general plan, tribal law, specific plan or court order or decree applicable to such Party.

15. Notices. Any notices required or permitted hereunder shall be in writing and may be personally delivered, or delivered via the U.S. Postal Services, first class postage prepaid, or by a reputable overnight delivery service (such as U.S. Express Mail, Priority Mail, Federal Express, UPS, or DHL), addressed as follows or to such other place as each Party may designate by subsequent written notice to each other:

16. General Provisions.

(a) Further Assurances. The Parties shall cooperate with each other and execute such instruments or documents and take such other actions as may reasonably be requested from time to time in order to carry out, evidence or confirm their rights or obligations under this MOU. In addition to the foregoing, the City of Modesto and the County of Stanislaus agree to negotiate and amend this agreement if necessary to address any fees and costs related to this project including, but not limited to:

- One-time utility connection fees (Water/Sewer)
- Change in cost of materials and/or services
- Curb cuts, if approved by CALTRANS

(b) Modification. No provision of this Agreement shall be amended, modified, or waived other than by an instrument in writing signed by an authorized representative of each Party.

(c) Enforceability. This MOU constitutes the legal, valid and binding obligation of each Party, enforceable against such Party, and its successors and assigns, in accordance with its terms, and, once executed and delivered, cannot be invalidated pursuant to any subsequent action of a Party, as applicable.

(d) Waivers. A waiver of any breach of any provision of this MOU shall not constitute or operate as a waiver of any other breach of such provision or of any other provisions, nor shall any failure to enforce any provision operate as a waiver of such provision or of any other provisions.

(e) Governing Law. This MOU shall be governed by, and construed in accordance with, the laws of the State of California, excluding choice of law rules.

(f) Construction of Agreement. This MOU, including all recitals, together with all Exhibits, constitutes the entire agreement between the Parties and supersedes all prior negotiations, representations, drafts regarding this MOU, whether written or oral. In the event of a dispute between the Parties as to the language of this MOU or any amendment to this MOU or the construction or meaning of any term contained in this MOU or any amendment to this MOU, this MOU or any amendment to this MOU shall be deemed to have been drafted by the Parties in equal parts so that no presumptions or inferences concerning its terms or

DRAFT SUBJECT TO FINAL NEGOTIATION

interpretation may be construed against, or in favor of, any Party based on the preparation or negotiation of this MOU or any amendment to this MOU. The headings contained in this MOU are for convenience of reference only and shall not effect this MOU's construction or interpretation.

(g) Binding Agreement. This MOU is intended to be, and shall be construed to be, binding upon the Parties and all successors and successors-in-interest of each party, including all officers, agents and employees.

IN WITNESS WHEREOF, the parties have executed this MOU as of the effective date set forth above.

FORM OF PROFESSIONAL SERVICES AGREEMENT

OPERATOR AGREEMENT

Between

TURNING POINT COMMUNITY PROGRAMS

and

STANISLAUS COUNTY

For the

330 9th Street Emergency Shelter in Modesto, CA

Amount

\$ _____

Dated March ____, 2019

DRAFT SUBJECT TO FINAL NEGOTIATION

OPERATOR AGREEMENT BETWEEN
TURNING POINT COMMUNITY PROGRAMS AND STANISLAUS COUNTY

THIS PROFESSIONAL SERVICES AGREEMENT ("**Agreement**") is dated this ____ day of _____, 2019, in the City of Modesto, State of California, by and between **TURNING POINT COMMUNITY PROGRAMS**, hereinafter referred to as ("**Operator**") and **STANISLAUS COUNTY**, hereinafter referred to as ("**County**").

RECITALS

WHEREAS, The Salvation Army, the County, and the City of Modesto (the "Parties") entered into a Memorandum of Understanding for Collaboration on Homeless Programs and Sheltering, dated _____, 2019 ("MOU"). Among other things, the MOU (Section 2(b)) contemplates Operator and the County entering into an agreement for the operation of the emergency shelter located in the north wing of the Salvation Army's 330 9th Street Modesto property; and

WHEREAS, by entering into this Agreement, the County intends to comply with, and perform, its legal obligations under MOU Section 2(b), in furtherance of the Parties' overall strategy for addressing homelessness issues in Stanislaus County.

NOW THEREFORE, FOR GOOD AND VALUABLE CONSIDERATION, the receipt and sufficiency of which are hereby acknowledged, stipulated and agreed, Operator and County hereby agree as follows:

1. **Scope of Professional Services.** For the Project described in Appendix A ("**Project**"), the Operator shall perform the professional services described in Appendix B ("**Services**") for the compensation set forth in Appendix C ("**Compensation**"), which appendices are attached and made a part of this Agreement.

2. **Term.** This Agreement shall become effective upon its execution by Operator and by County (following approval by the County Board of Supervisors). All Services whenever performed shall be deemed performed under this Agreement, and all compensation whenever paid to Operator on account of the Services shall be deemed as payments of the Compensation and subject to the terms of this Agreement.

3. **Standard of Performance.** Operator represents that it possesses all necessary training, licenses and permits to perform the Services, and that its performance of the Services will conform to the highest standards of practice of a professional having experience and expertise in performing professional services of like nature and complexity of the Services working on similar, successfully completed projects.

4. **Subconsultants.** Operator shall hire only qualified persons or firms who are experienced in performing work of like nature and complexity to the Services, and who agree to be bound to the terms of the Agreement to the extent of their scope of services. Operator shall be fully responsible for the work of its subconsultants.

DRAFT SUBJECT TO FINAL NEGOTIATION

5. **Representatives for Both Parties.** Both parties shall designate a representative, authorized to act on the parties' behalf with respect to this Agreement. The parties or such authorized representatives shall render required decisions promptly, to avoid unreasonable delay in the progress of Operator's services. The parties may delegate all or some of the representatives' role and function to some other representative.

6. **Indemnification and Liability.**

6.1 To the fullest extent permitted by law (including, without limitation, California Civil Code Section 2782 *et. seq.*), Operator shall defend (with legal counsel reasonably acceptable to County), indemnify and hold harmless County and its landlords, officers, agents, departments, officials, representatives and employees (collectively "**Indemnitees**") from and against any and all claims, loss, cost, damage, injury (including, without limitation, injury to or death of an employee of Operator or its subconsultants), expense and liability of every kind, nature and description (including, without limitation, incidental and consequential damages, court costs, attorneys' fees, litigation expenses and fees of expert consultants or expert witnesses incurred in connection therewith and costs of investigation) that arise out of, pertain to, or relate to the negligence, recklessness or willful misconduct of Operator, anyone directly or indirectly employed by Operator, or anyone that Operator may employ, oversee, supervise, or control (collectively "**Liabilities**"). Such obligations to defend, hold harmless and indemnify any Indemnitee shall not apply to the extent that such Liabilities are caused in whole or in part by the active/sole negligence, or willful misconduct of such Indemnitee, but shall apply to all other Liabilities.

6.2 Operator shall defend (with legal counsel reasonably acceptable to County), indemnify and hold harmless Indemnitees from all loss, cost, damage, expense, liability or claims, in law or in equity, including reasonable attorneys' fees, court costs, litigation expenses and fees of expert consultants or expert witnesses, that may at any time arise for any infringement of the patent rights, copyright, trade secret, trade name, trademark, service mark or any other proprietary right of any person or persons in consequence of the use by County, or any of the other Indemnitees, of articles or Services to be supplied in the performance of this Agreement.

6.3 Operator shall place in its subconsulting agreements and cause its subconsultants to agree to indemnities and insurance obligations in favor of County and other Indemnitees in the exact form and substance of those contained in this Agreement.

7. **Notices and Communications.** County and Operator shall provide notices to the other in the form of writing, sent by certified mail return receipt requested, or by overnight courier or delivery service with signature required, as follows:

TURNING POINT COMMUNITY PROGRAMS
(Contact and Address Information)

COUNTY
County of Stanislaus
Chief Executive Office
1010 10th Street, Suite 6400
Modesto, CA 95354

Notices may also be provided to such other place as either party may similarly in writing designate to the other. Notices shall be effective three business days after mailing by certified mail, or upon receipt if delivered by overnight courier or delivery service. All notices and normal project communications must be addressed to and/or copied to the County's Representative

DRAFT SUBJECT TO FINAL NEGOTIATION

(_____) or such other person designated in writing by County), including but not limited to notices, payment requests, information requests, approval requests, coordination requests, authorization requests, confirmations of conversations, routine correspondence and deliverables.

8. **Insurance.** Operator shall comply with all requirements of Appendix D, which is attached and made a part of this Agreement.

9. **Independent Contractor.** Operator shall at all times be deemed an independent contractor wholly responsible for the manner in which it performs the Services, and fully liable for the acts and omissions of its employees, subconsultants and agents. Under no circumstances shall this Agreement be construed as creating an employment, agency, joint venture or partnership relationship between County and Operator, and no such relationship shall be implied from performance of this Agreement. Terms in this Agreement referring to direction from County shall be construed as providing for direction as to policy and the result of services only, and not as to means and methods by which such a result is obtained. Operator shall pay all taxes (including California sales and use taxes) levied upon this Agreement, the transaction, or the Services and/or goods delivered pursuant hereto without additional compensation, regardless of which party has liability for such tax under applicable law, and any deficiency, interest or penalty asserted with respect thereto. Operator represents that it will collect, report, and pays all sales and or use taxes to the State Board of Equalization. Upon full payment, the Operator will issue County a receipt pursuant to California Revenue and Taxation Code Section 6203, relieving County of all liability for any tax relating to the scope of this Agreement. The Operator shall pay all other taxes including but not limited to any applicable City of Modesto business license fees and/or taxes, not explicitly assumed in writing by County hereunder. The Operator shall comply with all valid administrative regulations respecting the assumption of liability for the payment of payroll taxes and contributions as above described and to provide any necessary information with respect thereto to proper authorities.

10. **Conflict of Interest; Confidentiality.**

10.1 Operator represents that it is familiar with Section 1090 and Section 87100 et seq. of the Government Code of the State of California, and that it does not know of any facts arising from the execution of this Agreement that constitute a violation of said sections.

10.2 Operator represents that it has completely disclosed to County all facts bearing upon any possible interests, direct or indirect, which Operator believes any member of County, or other officer, agent or employee of County or any department presently has, or will have, in this Agreement, or in the performance thereof, or in any portion of the profits hereunder. Willful failure to make such disclosure, if any, shall constitute ground for termination of this Agreement by County for cause. Operator agrees to comply with all conflict of interest codes adopted by the County and its reporting requirements.

10.3 Operator covenants that it presently has no interest, and shall not have any interest, direct or indirect, which would conflict in any manner with the performance of Services required under this Agreement. Without limitation, Operator represents to and agrees with County that Operator has no present, and will have no future, conflict of interest between providing County the Services hereunder and any interest Operator may presently have, or will have in the future, with respect to any other person or entity (including but not limited to any federal or state wildlife, environmental or regulatory agency) which has any interest adverse or

DRAFT SUBJECT TO FINAL NEGOTIATION

potentially adverse to County, as determined in the reasonable judgment of County. The provisions of this Section shall remain fully effective indefinitely after termination of Services to County hereunder.

10.4 Operator acknowledges and agrees that, in the performance of the Services under this Agreement or in the contemplation thereof, Operator may have access to private or confidential information which may be owned or controlled by County and that such information may contain proprietary or confidential details, the disclosure of which to third parties may be damaging to County. Operator agrees that all information disclosed by County to or discovered by Operator shall be held in strict confidence and used only in performance of the Agreement. Operator shall exercise the same standard of care to protect such information as a reasonably prudent Operator would use to protect its own proprietary data, and shall not accept employment adverse to County's interests where such confidential information could be used adversely to County's interests. Operator agrees to notify County immediately in writing if it is requested to disclose any information made known to or discovered by Operator during the performance of or in connection with this Agreement.

10.5 Any publicity or press releases with respect to the Project or Services shall be under County's sole discretion and control. Operator shall not discuss the Services or Project, or matters pertaining thereto, with the public press, representatives of the public media, public bodies or representatives of public bodies, without County's prior written consent. Operator shall have the right, however, without County's further consent, to include representations of Services among Operator's promotional and professional material, and to communicate with persons or public bodies where necessary to perform under this Agreement.

10.6 Operator shall not employ, or attempt to employ, any person who is or was employed by County at any time that this Agreement is in effect, during the term of this Agreement and for a period of six months after the termination of this Agreement or the completion of the Work, without the written consent of the County.

10.7 Operator and County agree that Operator's unique talents, knowledge and experience form a basis for this Agreement and that therefore the services to be performed by Operator under this Agreement are personal in character and neither this Agreement nor any duties or obligations hereunder shall be assigned or delegated by Operator unless approved by written instrument executed and approved in the same manner as this Agreement.

10.8 The provisions of this Section shall remain fully effective indefinitely after termination of Services to County hereunder.

11. Suspension and Termination of Services.

11.1 County may direct Operator to suspend, delay or interrupt Services, in whole or in part, for such periods of time as County may determine in its sole discretion. County may issue such directives without cause. County will issue such directives in writing.

11.2 County may terminate performance of the Services under this Agreement in whole, or from time to time in part, for default, should Operator commit a material breach of this Agreement, or part thereof, and not cure such breach within ten (10) calendar days of the date of County's written notice to Operator demanding such cure. In the event County terminates this Agreement for default, Operator may recover costs expended up to termination,

DRAFT SUBJECT TO FINAL NEGOTIATION

but which shall be offset by Operator's liability to County for all loss, cost, expense, damage and liability resulting from such breach and/or termination.

11.3 County may terminate performance of the Services under this Agreement in whole, or from time to time in part, for convenience, whenever County determines that such termination is in County's best interests. In the event County terminates this Agreement for convenience, Operator shall be entitled to recover its costs expended up to the date of termination plus reasonable profit thereon, up to the amount that Operator would have otherwise earned under the Agreement up to the date of the termination, but may recover no other cost, damage or expense. If such part terminated is severable or priced separately in the Agreement, however, then such severable or separate pricing shall determine the deductive price for the termination.

13. Audit/Inspection of Records.

13.1 Operator shall maintain all documents and records prepared by or furnished to Operator during the course of performing the Services for at least three (3) years following completion of the Services. Such records include, but are not limited to, correspondence, internal memoranda, calculations, books and accounts, accounting records documenting its work under its Agreement, and invoices, payrolls, records and all other data related to matters covered by this Agreement. Operator shall permit County to audit, examine and make copies, excerpts and transcripts from such records. The State of California or any federal agency having an interest in the subject of Agreement shall have the same rights conferred to County by this section. Such rights shall be specifically enforceable.

13.2 Operator shall maintain full and adequate records in accordance with County requirements to show the actual costs incurred by the Operator in the performance of this Agreement. If such books and records are not kept and maintained by Operator within a radius of fifty (50) miles from the offices of Stanislaus County, 1010 10th Street, Modesto, CA 95354, Operator shall, upon request of County, make such books and records available to County for inspection at a location within said fifty (50) mile radius or Operator shall pay to County the reasonable, and necessary costs incurred by County in inspecting Operator's books and records, including, but not limited to, travel, lodging and subsistence costs. Operator shall provide such assistance as may be reasonably required in the course of such inspection. County further reserves the right to examine and reexamine said books, records and data during the three (3) year period following termination of this Agreement or completion of all work hereunder, as evidenced in writing by County, and the Operator shall in no event dispose of, destroy, alter, or mutilate said books, records, accounts, and data in any matter whatsoever for three (3) years after County makes the final or last payment or within three (3) years after any pending issues between County and Operator with respect to this Agreement are closed, whichever is later.

14. **Non-discrimination.** Operator shall not discriminate against any employee or applicant for employment, nor against any subconsultant or applicant for a subcontract, because of race, color, religious creed, age, sex, actual or perceived sexual orientation, national origin, disability as defined by the ADA or veteran's status. To the extent applicable, Operator shall comply with all federal, state and local laws (including, without limitation, County of Stanislaus and City of Modesto ordinances, rules and regulations) regarding non-discrimination, equal employment opportunity, affirmative action and occupational-safety-health concerns, shall comply with all applicable rules and regulations hereunder, and shall comply with same as each may be amended from time to time. Operator shall provide all information reasonably requested

DRAFT SUBJECT TO FINAL NEGOTIATION

by County to verify compliance with such matters. Operator stipulates, acknowledges and agrees that County has the right to monitor Operator's compliance with all applicable non-discrimination requirements, and may impose sanctions upon a finding of a willful, knowing or bad faith noncompliance or submission of information known or suspected to be false or misleading.

15. **Disputes.** Operator shall continue its work throughout the course of any dispute, and Operator's failure to continue work during a dispute shall be a material breach of this Agreement. Operator shall provide County with written notice of claims for additional compensation within a reasonable time of knowledge thereof (but no later than 20 calendar days after first knowledge), supported by correspondence and written materials evidencing the change in the scope of the Services (within 20 additional days), for the purpose of negotiations of the claim and resolution thereof; otherwise, such claim is waived. Claim negotiations shall occur a minimum of two times, once at the project level, and then at the executive level. Should claim negotiations prove unsuccessful, and if Operator files a Government Code section 910 claim, then pursuant to Government Code Section 930.2, the time period to do so shall be no later than 120 days following completion or termination of the Services (whichever first occurs). The parties must thereafter engage in non-binding mediation using a mediator pre-qualified by the American Arbitration Association for construction industry mediation, as a precondition of any litigation.

16. **No Incidental or Special Damages.** Notwithstanding any other provision of this Agreement, in no event shall County be liable, regardless of whether any claim is based on contract or tort, for any special, consequential, indirect or incidental damages, including, but not limited to, lost profits or revenue, arising out of or in connection with this Agreement or the Services performed in connection with this Agreement.

17. **California Law.** This Agreement shall be deemed to have been executed in the City of Modesto, Stanislaus County, California. Enforcement of this Agreement shall be governed by the laws of the State of California, excluding its conflict of laws rules. Any action or proceeding to enforce or interpret any provision of this Agreement, to the extent permitted by law, shall be brought, commenced or prosecuted in the applicable State or federal (including without limitation Eastern District of California) courts in or having jurisdiction over Stanislaus County, California. Should any clause, provision or aspect of this Agreement be determined at any time to be unenforceable or in contravention of law, then the remaining clauses and provisions of this Agreement shall be enforceable to the fullest extent permitted by law and construed to give effect to fullest extent possible the intent of this Agreement.

18. **No Third Party Beneficiaries.** Except as expressly provided in this Agreement, nothing in this Agreement shall operate to confer rights or benefits on persons or entities not party to this Agreement. Time is of the essence in the performance of this Agreement.

19. **Entire Agreement.** This Agreement shall supersede all prior or contemporaneous purchase orders, letter agreements or any other agreements (oral or written) that may apply to Services. This Agreement and any written modification shall represent the entire and integrated agreement between the parties hereto regarding the subject matter of this Agreement, shall constitute the exclusive statement of the terms of the parties' agreement, and shall supersede any and all prior negotiations, representations or agreements, written or oral, express or implied, that relate in any way to the subject matter of this Agreement or written modification. All prior negotiations are merged into this Agreement and shall be inadmissible in any enforcement of this Agreement.

DRAFT SUBJECT TO FINAL NEGOTIATION

20. No Waiver. The granting of any payments, and any inspections, reviews, approvals or oral statements by any County representative, or certification by any governmental entity, shall in no way limit Operator's obligations under this Agreement. Either party's waiver of any breach, or the omission or failure of either party, at any time, to enforce any right reserved to it, or to require strict performance of any provision of this Agreement, shall not be a waiver of any other right to which any party is entitled, and shall not in any way affect, limit, modify or waive that party's right thereafter to enforce or compel strict compliance with every provision hereof (including, but not limited to, provisions previously not enforced). This Agreement may not be modified, nor may compliance with any of its terms be waived, except by written instrument executed and approved by fully authorized representatives of County and Operator.

21. Severability. Any provision or portion thereof of this Agreement prohibited by, or made unlawful or unenforceable under any applicable law of any jurisdiction, shall as to such jurisdiction be ineffective without affecting other provisions or portions thereof of this Agreement. If the provisions of such applicable law may be waived, they are hereby waived to the end that this Agreement may be deemed to be a valid and binding agreement enforceable in accordance with its terms to the greatest extent permitted by applicable law.

IN WITNESS WHEREOF, the parties hereto have executed this Agreement as of the day first mentioned above.

PROJECT DESCRIPTION

This is an Appendix attached to, and made a part of and incorporated by reference to the Agreement dated _____, 2019, by and between **TURNING POINT COMMUNITY PROGRAMS**, hereinafter referred to as "**Operator**" and **STANISLAUS COUNTY**, hereinafter referred to as "**County**" for a period of five (5) years commencing on the Commencement Date of (_____) (anticipated to be October 1, 2019)).

1. **PROJECT DESCRIPTION.**

1.1 Operator will provide professional Operator services for the 330 9th Street Emergency Shelter in Modesto, California.

END OF APPENDIX A

DRAFT SUBJECT TO FINAL NEGOTIATION

APPENDIX B TO PROFESSIONAL SERVICES AGREEMENT

SCOPE OF SERVICES TO BE PROVIDED BY OPERATOR

This is an Appendix attached to, and made a part of and incorporated by reference to the Agreement dated _____, 2019, by and between **TURNING POINT COMMUNITY PROGRAMS**, hereinafter referred to as "**Operator**" and the **STANISLAUS COUNTY**, hereinafter referred to as "**County**" providing for professional Operator services.

1. GENERAL REQUIREMENTS OF OPERATOR'S SERVICES.

1.1 The Emergency Shelter will have a collaborative approach to providing services. The Operator will oversee the shelter's day-to-day operations and provide direct rehabilitative services, and establish a coordinated services plan to broker services provided through a Stanislaus Community System of Care agency or community partner. Operator will provide or coordinate the following minimum services for Emergency Shelter residents.

1.1.1. Provide low-barrier shelter services such as showers and restrooms, storage, housing for pets, food preparation and dining, laundry, etc., and allowing residents shelter with their partners, pets and possessions.

1.1.2. Provide connection to community supports by mobilizing and organizing community-based homelessness efforts to support residents.

1.1.3. Provide housing readiness training for residents that do not have the skills to live independent and sheltered lives.

1.1.4. Provide intensive case management services for residents with the aim of connecting them to essential community supports and rehabilitative services. The following service providers will be providing on-site case management services to the residents:

1.1.1.1. Behavioral Health and Recovery Services provides mental illness and substance use disorder treatment.

2.1.1.1. Community Services Agency provided access to public aid and basic needs.

3.1.1.1. Workforce Development Services provides access to employment and job trainings services

4.1.1.1. The Homelessness Court Program provides an opportunity for individuals involved in the criminal justice system to address unresolved court issues by participating in rehabilitative services.

5.1.1.1. The Housing Assessment Team provides assessments and coordinated access to supportive services and housing.

6.1.1.1. The Golden Valley Health Center Mobile Medicine Program staff will connect residents with essential healthcare services.

DRAFT SUBJECT TO FINAL NEGOTIATION

7.1.1.1. The Community Housing and Shelter Services Housing Specialist and Disability Income Advocate will provide access to permanent disability based income and housing.

1.1.5. Provide immediate and daily cash-based employment opportunities to build job skills and readiness.

1.1.6. The Operator will employ shelter residents to perform daily job duties related to the cleaning of the shelter facilities and grounds. The shelter will actively strive to be the cleanest property in the neighborhood. Residents will be paid cash on a daily basis, following the applicable tax and employment laws.

DRAFT SUBJECT TO FINAL NEGOTIATION

**APPENDIX C
TO PROFESSIONAL SERVICES AGREEMENT**

PAYMENTS TO OPERATOR

This is an Appendix attached to, and made a part of and incorporated by reference to the Agreement dated _____, 2019, by and between **TURNING POINT COMMUNITY PROGRAMS**, hereinafter referred to as "**Operator**" and **STANISLAUS COUNTY**, hereinafter referred to as "**County**" providing for professional Operator services.

1. **METHODS OF PAYMENT FOR OPERATOR'S SERVICES AND EXPENSES.**

1.1 For Basic Services. County shall pay Operator as basic services are rendered under Appendix B in the following sums: [\$ _____] on a monthly basis as approved by the County.

1.2 For Additional Services.

1.2.1. For Additional Services (and for services of its subconsultants) rendered at the County's request and prior written approval, Operator shall negotiate with County a lump sum amount for each Additional Service sought, which amount shall be paid monthly as earned based upon the Billing Rates of each Operator and subconsultant employee, as provided in Exhibit 1 to Appendix C.

1.2.2. The Billing Rates used as a basis for payment apply to all of Operator's and subconsultants' principals, Operator personnel and others engaged directly on the Project. The Billing Rates shall remain constant throughout this Agreement, including for additional services and shall not be adjusted for inflation, salary adjustments, cost changes, or any other reason.

2. **TIMES OF PAYMENTS.**

2.1 Operator shall submit monthly statements for Basic and any Additional Services rendered in a format acceptable to the County. County shall promptly review Operator's monthly statement, and provided it is acceptable, shall make prompt payment thereon.

3. **DEFINITIONS.**

3.1 "**Additional Services**" mean services beyond the scope of the Services defined in this Agreement, provided that the Additional Services are not due to the errors and/or omissions of Operator.

3.2 The "**Billing Rates**" are the hourly rates indicated on Exhibit 1 to Appendix D attached hereto.

DRAFT SUBJECT TO FINAL NEGOTIATION

END OF APPENDIX C

DRAFT SUBJECT TO FINAL NEGOTIATION

APPENDIX D
TO PROFESSIONAL SERVICES AGREEMENT

INSURANCE

This is an Appendix attached to, and made a part of and incorporated by reference to the Agreement dated _____, 2019, by and between **TURNING POINT COMMUNITY PROGRAMS**, hereinafter referred to as "**Operator**" and **STANISLAUS COUNTY**, hereinafter referred to as "**County**" providing for professional Operator services.

- A. **General Requirements.** Before commencing the performance of services under this Agreement, and at all other times this Agreement is effective, Operator must procure and maintain the following types of insurance with coverage limits complying, at a minimum, with the limits set forth below:

Type of Insurance	Limits (combined single)
Commercial General Liability	\$2,000,000
Business Automobile Liability	\$1,000,000
Professional Liability	\$2,000,000
Workers Compensation	Statutory Requirement

- B. **Commercial General Liability Insurance.** This policy must meet or exceed the requirements of ISO-CGL Form No. CG 00 01 11 85 or 88. The amount of insurance set forth above must be a combined single limit per occurrence for bodily injury, personal injury, and property damage for the policy coverage. The insurance must be on an "occurrence" not a "claims-made" basis.
- C. **Business Automobile Insurance.** Automobile coverage must be written on ISO Business Auto Coverage Form CA 00 01 06 92, including symbol 1 (Any Auto) and Endorsement CA 0025, or equivalent forms subject to the written approval of County.
- D. **Professional Liability Insurance (If Applicable).** Professional liability coverage will be on an "occurrence basis" if such coverage is available, or on a "claims made basis" if not available. When coverage is provided on a "claims made basis," Operator will continue to maintain the insurance in effect for a period of three (3) years after this Agreement expires or is terminated ("extended insurance"). Such extended insurance will have the same coverage and limits as the policy that was in effect during the term of this Agreement and will cover Operator for all claims made by County arising out of any errors or omissions of Operator or its officers, employees or agents during the time this Agreement was in effect.
- E. **Workers Compensation.** Operator must have a State of California approved policy form providing the statutory benefits required by law with employer's liability limits of no less than \$1,000,000 per accident for all covered losses, or Operator must provide evidence of an approved self-insurance program.
- F. **Additional Insureds.** Commercial General Liability Insurance policy must provide that County, its officials, officers, employees, agents and volunteers are "additional insureds" under the terms of the policy, and must provide that an act or omission of one of the insureds will not reduce or avoid coverage to the other insureds.
- G. **Deductibles and Self-Insured Retention.** Any deductibles or self-insured retentions applicable to the insurance policies required under this Agreement must be declared to and approved by County. In no event may any required insurance policy have a

DRAFT SUBJECT TO FINAL NEGOTIATION

deductible, self-insured retention or other similar policy provision in excess of \$5,000 without prior written approval by County in its sole discretion. At the option of County, either the insurer will reduce or eliminate such deductibles or self-insured retentions with respect to County's additional insureds or Operator will procure a bond guaranteeing payment of any losses, damages, expenses, costs or settlements up to the amount of such deductibles or self-insured retentions.

- H. **Primary Insurance.** Each of the insurance policies maintained by Operator under this Agreement must state that such insurance will be deemed "primary" so that any insurance that may be carried by County will be deemed excess to that of Operator. This endorsement must be reflected on ISO Form No. CG 20 10 11 85 or 88, or equivalent form as determined by County.
- I. **Certificates of Insurance and Endorsements.** Prior to commencing any services under this Agreement, Operator must file with County certificates of insurance and endorsements evidencing the existence of all insurance required by this Agreement, along with such other evidence of insurance or copies of policies as may reasonably be required by County. These certificates of insurance and endorsements must be in a form approved by the County Counsel. Operator must maintain current certificates and endorsements on file with County during the term of this Agreement reflecting the existence of all required insurance. Each of the certificates must expressly provide that no material change in the policy, or termination thereof, will be effective except upon 30 days' prior written notice to County by certified mail, return receipt requested. The delivery to County of any certificates of insurance or endorsements that do not comply with the requirements of this Agreement will not waive County's right to require compliance.
- J. **Insurance Rating.** All insurance required to be maintained by Operator under this Agreement must be issued by companies licensed by or admitted to conduct insurance business in the State of California by the California Department of Insurance and must have a rating of A or better and Class VIII or better by the latest edition of A.M. Best's Key Rating Guide.
- K. **Aggregate Limits.** The aggregate limits for each insurance policy required under this Agreement must apply separately and solely to the services performed under this Agreement. If the required policies do not have an endorsement providing that the aggregate limit applies separately to the services being performed, or if defense costs are included in the aggregate limit, then the required aggregate limits must be increased to an amount satisfactory to County.
- L. **Waiver of Subrogation Rights.** Operator and each insurer providing any insurance required by this Agreement must waive all rights of subrogation against County, its officials, officers, employees, agents and volunteers, and each insurer must issue a certificate to County evidencing this waiver of subrogation rights.
- M. **Effect of Coverage.** The existence of the required insurance coverage under this Agreement shall not be deemed to satisfy or limit Operator's indemnity obligations under this Agreement. Operator acknowledges that the insurance coverage and policy limits set forth in this Agreement constitute the minimum coverage and policy limits required. Any insurance proceeds available to County in excess of the limits and coverage required by this Agreement, and which is applicable to a given loss, must be made available to County to compensate it for such losses.

**MODESTO CITY COUNCIL
RESOLUTION NO. 2019-94**

**RESOLUTION APPROVING THE RESIGNATION OF MARTIN CAMPBELL;
AND THE APPOINTMENTS OF JIM MCKAY, SHANE COOPER, AND STEVE
HATZIGEORGIU TO THE MODESTO CITY-COUNTY AIRPORT
ADVISORY COMMITTEE WITH A TERM EXPIRATION OF MARCH 20, 2021**

WHEREAS, the City of Modesto operates the Modesto City-County Airport (Airport) for the benefit of all businesses, industries, visitors and residents in the City of Modesto, Stanislaus County and surrounding areas, and

WHEREAS, the Modesto City Council and the Stanislaus Board of Supervisors seek to ensure that the Airport is maintained and developed in such a manner that it will continue to be a high quality aviation facility for its users and a good neighbor in the community, recognizing that both the users and community may change as the surrounding area continues to grow and develop, and

WHEREAS, Section 1102 of the Charter of the City of Modesto authorizes the City Council to appoint members to various Boards and Commissions, and

WHEREAS, Council has considered the resignation of Martin Campbell from position of Commercial Provider / Service Provider on the City of Modesto Airport Advisory Committee, and

WHEREAS, Council has considered the experience and qualifications of candidate, Lt. Steve Hatzigeorgiou, and find that he would be appropriate to fill the position of the Commercial/Service Provider member being vacated by Martin Campbell, and

WHEREAS, Council has considered the experience and qualifications of candidate, Jim McKay, and find that he would be appropriate to fill the position of Public at Large member being vacated by Tim Fischer, and

WHEREAS, Council has considered the experience and qualifications of candidate, Shane Cooper, and find he would be appropriate to fill the position of Business Owner/Service Provider member being vacated by Dick Braner.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the resignation of Martin Campbell from the position of Commercial Provider/Service Provider on the City of Modesto Airport Advisory Committee.

BE IT FURTHER RESOLVED by the Council of the City of Modesto that it hereby approves the appointments of Lt. Steve Hatzigeorgiou, representing a Commercial Provider/Service Provider; Jim McKay, representing the Public at Large; and Shane Cooper, representing a Business Owner / Service Provider to the Airport Advisory Committee for a term of two years with a term expiration of March 20, 2021.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 5th day of March, 2019, by Councilmember Ah You, who moved its adoption, which motion being duly seconded by Councilmember Kenoyer, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2019-104**

RESOLUTION APPROVING THE 2020 CENSUS PARTNERSHIP

WHEREAS, the U.S. Census Bureau is required by the U.S. Constitution to conduct a count of the population and provides a historic opportunity to help shape the foundation of our society and play an active role in American democracy, and

WHEREAS, the City of Modesto is committed to ensuring every resident is counted, and

WHEREAS, Federal and State funding is allocated to communities, and decisions are made on matters of national and local importance based, in part, on census data and housing, and

WHEREAS, census data helps determine how many seats each state will have in the U.S. House of Representatives and is necessary for the an accurate and fair redistricting of state legislative seats, county and city councils and voting districts, and

WHEREAS, information from the 2020 Census and American Community Survey are vital tools for economic development and increased employment, and

WHEREAS, the information collected by the census is confidential and protected by law, and

WHEREAS, a united voice from business, government, community-based and faith-based organizations, educators, media and others will enable the 2020 Census message to reach more of our citizens, and

NOW, THEREFORE, BE IT RESOLVED that City of Modesto is committed to partnering with the U.S. Census Bureau and the California State legislature will:

1. Support the goals and ideals for the 2020 Census and will disseminate 2020

Census information.

2. Encourage all city residents to participate in events and initiatives that will raise the overall awareness of the 2020 Census and increase participation.

3. Provide Census advocates speaking to city and Community Organizations.

4. Support census takers as they help our city complete an accurate count.

5. Strive to achieve a complete and accurate count of all persons within our borders.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 5th day of March, 2019, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Madrigal, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2019-105**

RESOLUTION APPROVING A FIRST AMENDMENT INCREASING THE AGREEMENT AMOUNT WITH OCCU-MED LTD, FRESNO, CA, FOR THE OCCUPATIONAL MEDICINE SERVICES BY \$390,000 FROM \$577,220 TO \$967,220 OVER FIVE (5) YEARS; AND AUTHORIZING THE CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE THE AMENDMENT

WHEREAS, on an annual basis the City provides over 650 medical exams to employees and applicants in order to properly evaluate and determine whether the physical capabilities and work-related safety requirements of the job, as well as the essential job functions, can be performed by an individual, and

WHEREAS, on May 15, 2015, by Resolution No. 2015-145, Council approved the award of proposal and contract for the furnishing of occupational medicine services for the Human Resources Department to Occu-Med Ltd., Fresno, CA, for a two (2) year agreement with three (3) one-year extension options at the sole discretion of the City, for an estimated annual cost of \$115,444, and over five (5) years of \$577,220 with a scheduled termination date of May 11, 2020 based on the City exercising the remaining options for extension, and

WHEREAS, the annual spending rate of \$115,444 wasn't maintained because HR/Risk did not anticipate the higher utilization rate for occupational medicine citywide, and

WHEREAS, as part of the extensive purchasing review completed in 2017, it had been discovered by City staff the Occu-Med agreement had been established in the City's purchasing system but the supplier invoices were being paid through the non-Purchase Order payment process, and

WHEREAS, due to the necessity of this service, the City has continued to utilize this service to avoid any disruption in these occupational services such as annual physicals, federal and state mandated alcohol and drug testing, and pre-employment physicals.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves a First Amendment to the agreement with Occu-Med LTD, Fresno, CA for occupational medicine services, by \$390,000 from \$577,220 to \$967,220 over five (5) years.

BE IT FURTHER RESOLVED, that the City Manager, or his designee, is authorized to execute the amendment, in a form approved by the City Attorney.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 5th day of March, 2019, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Madrigal, was upon roll call carried and the resolution adopted by the following vote:

**RESOLUTION APPROVING A PROFESSIONAL SERVICES AGREEMENT
WITH TROY & BANKS, BUFFALO, NY TO PERFORM A UTILITY AND
TELECOMMUNICATION AUDIT AND AUTHORIZING THE CITY
MANAGER, OR HIS DESIGNEE, TO EXECUTE THE AMENDMENT**

WHEREAS, the City of Modesto currently maintains approximately 140 electric and gas accounts, 422 active interdepartmental utility billing accounts and approximately 100 telecommunication accounts which include approximately 1200 numbers, fax lines, alarms, communications, etc., and

WHEREAS, due to the high volume of accounts across both types of services (utilities and telecommunications), the City is in need of an external audit in order to ensure that all of these accounts are accurate and being billed by the various companies in an accurate manner as well as ensuring they are actively being used by the City, and

WHEREAS, the City was able to find a cooperative purchasing agreement that it will be able to piggyback off of from the City of Lafayette, and

WHEREAS, this agreement, if awarded, will allow the City to contract with Troy and Banks, Inc (T&B) to perform a forensic audit of the City's numerous utility and telecommunication accounts, and

WHEREAS, Modesto Municipal Code ("MMC") Section 8-3.203 generally requires all purchases, which meet or exceed \$50,000 for material, equipment or contractual services to be formally bid. However, exceptions to the formal bidding process are granted in MMC Section 8-3. 204. Specifically, MMC Section 8-3.204(a) permits contracts for professional services, including auditing services, to be exempt from the formal bidding process. Further, MMC Section 8-202(d) encourages the

Purchasing Manager, with Council approval, to join with the State of California and other units of government in cooperative purchasing plans when the best cost saving interest of the City would be served. The proposed agreement with T&B meets the requirements of MMC Section 8-3.204(a).

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves a Professional Services Agreement Troy & Banks, Buffalo, NY to perform a utility and telecommunication audit.

BE IT FURTHER RESOLVED, that the City Manager, or his designee, is hereby authorized to execute the agreement, in a form approved by the City Attorney.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 5th day of March, 2019, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Madrigal, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Ah You, Kenoyer, Madrigal, Ridenour, Zoslocki, Mayor Brandvold

NOES: Councilmembers: None

**MODESTO CITY COUNCIL
RESOLUTION NO. 2019-107**

RESOLUTION APPROVING THE SOLE SOURCE PURCHASE WITH MCCAIN INC., VISTA, CA, FOR THE PURCHASE OF TRAFFIC SIGNAL CONTROLLERS AND CONFLICT MONITORS TO UPGRADE THE REMAINING 60 TRAFFIC SIGNALS FOR AN ESTIMATED COST NOT TO EXCEED \$149,932, AND AUTHORIZING THE PURCHASING MANAGER, OR HER DESIGNEE, TO EXECUTE THE AGREEMENT

WHEREAS, the City of Modesto currently has 160 traffic signals, and

WHEREAS, the City uses Type 170 traffic signal controllers purchased in the 1980's, which generally last about 30 years, and

WHEREAS, today manufacturers are having a difficult time making Type 170 controllers due to obsolete computer chips and other electronic parts, and

WHEREAS, on July 5, 2017, by Resolution No. 2017-269, Council approved Measure L projects for Fiscal Year 2017/2018 which included the purchase of 100 – 2070 traffic signal controllers in the amount of \$585,000, and

WHEREAS, on February 6, 2018, by Resolution No. 2018-57, Council approved a sole source purchase of 2070 LX traffic signal controllers, 2010 conflict monitors, timing conversions, and Transparency Software from McCain Inc., Vista, CA with a one year Service Agreement in the amount of \$460,570 for the modernization of our Advanced Traffic Management System (ATMS), and

WHEREAS, this was the first step in making our traffic signal network ready for future, traffic adaptive systems, autonomous vehicles and standardized communications with all other devices, and

WHEREAS, the 100 - 2070 LX traffic controllers purchased by Resolution No. 2017-269, cannot replace all the controllers at the 160 intersections within the City, and

WHEREAS, approximately 25 of the remaining 60 locations needing new controllers have 2070 E controllers instead of the old 170's, and

WHEREAS, instead of buying brand new controllers for these locations, the 2070 E units have the capability of converting to a 2070 LX by swapping the Central Processing Unit (CPU) which is much more cost effective than buying brand new controllers, and

WHEREAS, on September 4, 2018, by Resolution No. 2018-380, Council approved Measure L projects for Fiscal Year 2018/2019 which included the replacement of 35 obsolete traffic signal controllers and 25 CPU cards for \$178,250, and

WHEREAS, staff worked with the Purchasing Division to secure a quote from McCain to purchase 35 - 2070 LX controllers, 60 - 2010 IP addressable conflict monitors, 25 CPUs to change 2070E traffic signal controllers to 2070 LX traffic signal controllers for \$149,322, and

WHEREAS, Modesto Municipal Code Section 8-3.204 generally requires all purchases involving an expenditure of City funds in the amount of \$50,000 or less, shall be purchased, when feasible and when in the best interest of the City, and

WHEREAS, exceptions to the formal bidding process are granted in MMC 8-3.204(b) "Where the Purchasing Agency's requirements can be solely met by a single article or process; and MMC 8-3.204(d) "Where the Purchasing Manager, in her discretion, determines that a process other than the formal bid procedure set for in Section 8-3.203 will result in procurement for the City at the lowest possible cost commensurate with the desired quality," and

WHEREAS, such alternatives may include, but are not limited to, a “two-step” procurement process or a procurement based solely on a technical evaluation, and

WHEREAS, this purchase qualifies for the exemption from the formal bidding process for these reasons.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the sole source purchase agreement with McCain Inc., Vista, CA, for the purchase of traffic signal controllers and conflict monitors to upgrade the remaining 60 traffic signals for an estimated cost not to exceed \$149,932.

BE IT FURTHER RESOLVED, that the Purchasing Manager, or her designee, is hereby authorized to execute the agreement.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 5th day of March, 2019, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Madrigal, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Ah You, Kenoyer, Madrigal, Ridenour, Zoslocki, Mayor Brandvold

**MODESTO CITY COUNCIL
RESOLUTION NO. 2019-108**

RESOLUTION MAKING CERTAIN FINDINGS CONCERNING MITIGATION OF ENVIRONMENTAL IMPACTS, MAKING FINDINGS CONCERNING ALTERNATIVES, ADOPTING A STATEMENT OF OVERRIDING CONSIDERATIONS, AND CERTIFYING THE FINAL MASTER ENVIRONMENTAL IMPACT REPORT FOR THE URBAN AREA GENERAL PLAN (SCH NO. 2014042081)

WHEREAS, on October 14, 2008, the Modesto City Council certified the Master Environmental Impact Report (“EIR”) (SCH No. 2007072023) for the Modesto Urban Area General Plan (“UAGP”); and

WHEREAS, the City of Modesto (“City”) has completed a subsequent amendment to the Urban Area General Plan (“Project”); and

WHEREAS, the City, on April 29, 2014, published a Notice of Preparation for the Project, which identified the Project and potentially significant environmental impacts attributable to the Project, on which basis the City determined that an EIR was required for the Project; and

WHEREAS, on May 21, 2014, the City held a public scoping meeting to receive public comments regarding the scope and content of the Master EIR; and

WHEREAS, the City published and distributed a Draft Master EIR for the Project (SCH No. 2014042081) for public comment on June 25, 2018, in accordance with Section 21091 of the California Environmental Quality Act (“CEQA”); and

WHEREAS, the Draft Master EIR was available for public comment for a period of at least 45 days as required by Section 21091 of CEQA, the close of the public comment period being August 10, 2018; and

WHEREAS, during the 45-day public comment period the City received 31 individual written comments, mostly submitted electronically; and

WHEREAS, the City prepared written responses to all written comments received from reviewers of the Draft Master EIR, said responses being contained in a Final Master EIR for the Project (SCH No. 2014042081) (“Final MEIR”) prepared pursuant to Section 15089 of the CEQA Guidelines; and

WHEREAS, the Final Master EIR was published and distributed on January 18, 2019, and consists of the Draft EIR, a list of commenters, copies of all written comments received, responses to those comments, and any revisions to the text of the Draft Master EIR made in response to the comments, as required by Section 15132 of the CEQA Guidelines; and

WHEREAS, CEQA requires that, in connection with the approval of a project for which an EIR has been prepared which identifies one or more significant environmental effects, the lead agency responsible for said project make certain findings regarding those effects; and

WHEREAS, the Final Master EIR identified several potentially significant impacts that will be reduced to a less than significant level due to specified UAGP policies. Approval of the Project by the City Council will therefore require adoption of findings on impacts and mitigating policies; and

WHEREAS, the Final Master EIR identified significant and unavoidable environmental impacts of the project and approval of the Project by the City Council will therefore require adoption of Findings and a Statement of Overriding Considerations; and

WHEREAS, a duly notices public hearing on the Project was held by the Planning Commission on January 28, 2019, at 6:00 p.m. in the Chambers, Tenth Street Place, 1010 Tenth Street, Modesto, California, at which hearing evidence both oral and documentary was received and considered; and

WHEREAS, a Staff Report for the Planning Commission, dated January 28, 2019, and incorporated herein by reference, described and analyzed the Project and contained information on the Final Master EIR; and

WHEREAS, the Planning Commission has received and considered the Final Master EIR for the Urban Area General Plan amendment (SCH No. 2014042081) that analyzed the potential environmental effects of the proposed Project; and

WHEREAS, after said public hearing, the Planning Commission adopted Resolution No. 2019-01, recommending that the City Council certify the Final Master EIR; and

WHEREAS, said matter was set for a public hearing of the City Council to be held on March 5, 2019, in the Tenth Street Place Chambers located at 1010 Tenth Street, Modesto, California, at which date and time said duly noticed public hearing of the Council was held for the purpose of receiving public comment on the proposed amendment to the Modesto Urban Area General Plan.

NOW, THEREFORE, BE IT RESOLVED by the Modesto City Council, that it has reviewed and analyzed the Final Master EIR and other information in the record, and taken such other actions as are necessary and appropriate to make the following findings:

1. That the Final Master EIR has been completed in compliance with CEQA and adequately describes the proposed Project, its significant environmental impacts, mitigating policies and a reasonable range of alternatives to the proposed Project; that the City Council has reviewed and analyzed the Final MEIR and other information in the record and has considered the information contained therein, including the written and oral comments received at the public hearings on the Final Master EIR and the Project, prior to acting upon or approving the Project; and that the Final Master EIR represents the independent judgment of the City of Modesto. The Final MEIR provides information to the decision-makers and the public on the environmental consequences of the proposed Project.
2. That the Findings and recommendations set forth in **Exhibit “A,”** and incorporated herein by reference, be made by the City Council as the City’s findings under CEQA (Pub. Resources Code § 21000 et seq.) and the CEQA Guidelines (Ca. Code Regs., Title 14, §15000 et seq.) relating to the Project. The Findings provide the written analysis and conclusions of the City Council regarding the Project’s environmental impacts, mitigating policies and alternatives to the Project.
3. That pursuant to Public Resources Code Section 21081 and CEQA Guidelines Sections 15091 *et seq.*, the City Council of the City of Modesto adopts and makes the following statement of overriding considerations regarding the remaining unavoidable impacts of the Project and the anticipated economic, social and other benefits of the Project.

a. Significant Unavoidable Impacts

With respect to the foregoing findings, as set forth in **Exhibit “A,”** and in recognition of those facts which are included in the record, the City has determined the following:

- i. that the Project will cause significant, unavoidable impacts to Traffic and Circulation, Air Quality and GHG Emissions, Generation of Noise, Effects on Agricultural Lands, and Potential Demolition of Significant Historical Structures, as described in **Exhibit “B;”** and,
- ii. that the Project will contribute to significant, unavoidable cumulative impacts to Traffic and Circulation, Air Quality and GHG Emissions, Generation of Noise, Effects on Agricultural Lands, and Loss of Sensitive Wildlife and Plant Habitat, as described in **Exhibit “B.”**

These impacts cannot be avoided or substantially reduced by feasible changes or alterations to the Project, other than the changes or alterations already adopted.

b. Overriding Considerations

The City Council specifically adopts and makes this Statement of Overriding Considerations that this Project includes all feasible measures that would eliminate or substantially lessen the significant impacts of the Project on the environment, and that the

remaining significant, unavoidable impacts of the Project are acceptable in light of the environmental, economic, social and other considerations set forth herein because the benefits of the Project outweigh the significant and adverse impacts of the Project. The City Council finds that each of the overriding considerations set forth below, and each of the overriding considerations set forth in **Exhibit “B,”** constitutes a separate and independent ground for finding that the benefits of the Project outweigh its significant adverse environmental impacts and sets forth an overriding consideration warranting approval of the Project. These matters are supported by evidence in the record.

c. Benefits of Proposed Project

The City Council has considered the Final Master EIR, the public record of proceedings on the proposed Project and other written materials presented to the City as well as oral and written testimony at all public hearings related to the Project, and does hereby determine that implementation of the Project as specifically provided in the Project documents would result in the substantial public benefits described in **Exhibit “B.”**

The City Council has weighed the benefits of the proposed Project against its unavoidable environmental risks and adverse environmental effects identified in the Final Master EIR and hereby determines that those benefits outweigh the risks and adverse

environmental effects and, therefore, further determines that these risks and adverse environmental effects are acceptable;

4. The City Council hereby finds and recognizes that the Final MEIR contains additions, clarifications, modifications and other information in its responses to comments on the Draft Master EIR for the Project and also incorporates information obtained by the City since the Draft Master EIR was issued. This Council hereby finds and determines that such changes and additional information are not significant new information as that term is defined under the provisions of CEQA, because such changes and additional information do not indicate that any new significant environmental impacts not already evaluated would result from the Project and do not reflect any substantial increase in the severity of any environmental impact; that no feasible mitigation measures considerably different from those previously analyzed in the Draft Master EIR have been proposed that would lessen significant environmental impacts of the Project; and that no feasible alternatives considerably different from those analyzed in the Draft Master EIR have been proposed that would lessen significant environmental impacts of the Project. Accordingly, this Council hereby finds and determines that recirculation of the Final Master EIR for further public review and comment is not warranted.
5. The City Council does hereby designate the Community and Economic Development Director of the City of Modesto, at his office at 1010 Tenth Street, Modesto, California 95354, as the custodian of documents and record of proceedings on which the decision is based.

6. The City Council does hereby make the foregoing findings with respect to the significant effects on the environment of such Project, as identified in the Final Master EIR, with the stipulations that all information in these findings is intended as a summary of the full administrative record supporting the Final MEIR, which full administrative record should be consulted for the full details supporting these findings, and that any mitigation measures and/or alternatives that were suggested by commenters to the Draft Master EIR and were not adopted as part of the Final Master EIR are hereby expressly rejected for the reasons stated in the responses to the comments set forth in the Final Master EIR and elsewhere in the record which are incorporated herein by reference.

BE IT FURTHER RESOLVED by the City Council that, prior to the approval of the Project, the Final Master EIR for the Urban Area General Plan amendment (SCH No. 2014042081), **attached** as **Exhibit “C”** is certified as complete, adequate and in compliance with CEQA. The City Council hereby makes all environmental findings required under CEQA for Project approval as set forth in **Exhibits “A” and “B,”** and adopts a Statement of Overriding Considerations for the Project.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 5th day of March, 2019, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Zoslocki, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Kenoyer, Ridenour, Zoslocki, Mayor Brandvold

NOES: Councilmembers: Ah You, Madrigal

ABSENT: Councilmembers: Grewal

EXHIBIT A

**STATEMENT OF FINDINGS OF SIGNIFICANT IMPACTS
AND REJECTION OF ALTERNATIVES**

EXHIBIT B

STATEMENT OF OVERRIDING CONSIDERATIONS

EXHIBIT C

**FINAL MASTER ENVIRONMENTAL IMPACT REPORT FOR THE URBAN AREA
GENERAL PLAN**

Final documentation on file with the Planning Division of the Community and Economic
Development Department.

STATEMENT OF FINDINGS OF SIGNIFICANT IMPACTS AND REJECTION OF ALTERNATIVES

Pursuant to Public Resources Code Section 21081 and Section 15091 of the State CEQA Guidelines (14 California Code of Regulations 15000, et seq.), the City of Modesto cannot approve a project where its certified Environmental Impact Report (EIR) identifies significant effects on the environment, unless it adopts findings with respect to each significant effect. Prior to approving the project with significant and unavoidable impacts, the City must also find that there are specific considerations that would make infeasible the project alternatives identified in the EIR that would substantially lessen those impacts.

In Section A below, the City will make the following finding for each of the significant effects identified in the Master EIR:

Changes or alterations have been incorporated into the project that would mitigate or avoid the significant effects on the environment.

Section 15091 provides that when a project would have a significant and unavoidable impact, the following finding is to be made relative to mitigation measures:

Specific economic, legal, social, technological, or other considerations, including considerations for the provision of employment opportunities for highly trained workers, make infeasible *the mitigation measures identified in the EIR.*
(emphasis added)

This Master EIR contains no discrete mitigation measures. Instead, it relies upon the policies being proposed within the Urban Area General Plan (UAGP) to limit potential impacts. Since there are no mitigation measures identified in the Master EIR, this finding cannot be made.

In Section B below, the City will make the following finding(s) regarding each of the alternatives identified in the Master EIR.

Specific economic, legal, social, technological, or other considerations, including considerations for the provision of employment opportunities for highly trained workers, make infeasible the alternatives identified in the Master EIR.

Alternatives can also be rejected if they do not further most of the Project Objectives or would not substantially lessen significant impacts of the proposed Project.

Section 21081 provides that the City may also find that "changes or alterations are within the responsibility and jurisdiction of another public agency and have been, or can and should be, adopted by that other agency." That finding does not apply to any of the significant effects identified in the Master EIR.

A. FINDINGS REGARDING SIGNIFICANT IMPACTS

Traffic and Circulation Needs Impact: The project would result in an increase in traffic, with a related reduction in the level of service (LOS) to below LOS D on various streets within the planning area.

Finding:

Changes or alterations have been incorporated into the project that would reduce or avoid the significant effects on the environment. The resulting impact will be significant and unavoidable.

Supporting Evidence:

The City has not adopted discrete mitigation measures as part of the Master EIR. However, proposed UAGP policies described as items TC-14 through TC-72 in Section V-1 of the Master EIR would mitigate these effects. These policies address efficient use of existing roadways, requirements for enhancing and improving roadways to meet increased demand due to growth, and provision and improvement of facilities for non-auto transportation, including walking, biking, and transit to reduce auto trips.

An Initial Study prepared for any subsequent project(s) under the Master EIR (as required by Public Resources Code Section 21157.1) would determine whether the projected traffic from the subsequent project(s) would exceed the applicable LOS standard under the UAGP and, if so, would require an analysis and mitigation of the excess traffic.

City policies identified as items TC-28 through TC-31 in Master EIR Section V-1 require that subsequent projects that would exceed the allowable LOS D standard would be subject to additional analyses. Where the project site is located on a road segment projected for LOS F and would cause further substantial degradation of traffic conditions, or would involve adoption of a Specific Plan within a Comprehensive Planning District (CPD), a comprehensive traffic study would be required if the project would generate more than one hundred (100) peak-hour trips greater than the number of trips expected to occur with development consistent with the UAGP and the MEIR, or if the project would require a general plan amendment, in order to assess the level of impact(s). Under certain circumstances, individual site-specific development would be required to prepare a site access study to identify potential impacts.

These policies would reduce the impact, but not to a less than significant level. No further feasible mitigation is available to reduce this impact to a less than significant level, and the impact remains significant and unavoidable.

The anticipated increase in traffic giving rise to this potential impact is the result of social and economic conditions that favor continued automobile-dependent growth within California and Stanislaus County. State Planning Law, in particular the requirements for housing elements, requires Modesto to plan for its fair share of future housing needs (Government Code Section 65580 et seq.). The

City cannot choose to restrict housing opportunities below those identified in its regional housing need allocation. Accordingly, the City is legally bound to plan for additional growth.

Traffic and Circulation Needs Cumulative Impact: The project would contribute to the substantial cumulative impacts associated with the StanCOG Regional Transportation Plan (RTP) road network improvements.

Finding:

Changes or alterations have been incorporated into the project that would reduce or avoid the significant effects on the environment. The resulting impact will be significant and unavoidable.

Supporting Evidence:

City policies identified as items TC-14 through TC-82 in Section V-1 of the Master EIR would reduce the UAGP's contribution to the cumulative impacts. Nonetheless, there would be a cumulative impact that growth and development outlined in the UAGP would make a considerable contribution to. These policies would reduce the impact, but not to a less than significant level. No feasible mitigation is available to further reduce this cumulative impact, and the impact remains significant and unavoidable.

The UAGP traffic and circulation element and the amendments being proposed are consistent with the RTP. The EIR prepared for StanCOG's 2007 RTP analyzed the potential impacts of the proposed RTP road network improvements. StanCOG analyzed future traffic volumes to 2025 based on its travel demand model. Significance findings were based on whether the RTP projects would result in an LOS in excess of LOS D in urban areas and LOS C in rural areas of the county. StanCOG identified numerous significant and unavoidable impacts that would result from its 2007 RTP.

The anticipated increase in traffic giving rise to this potential cumulative impact is the result of conditions that favor continued automobile-dependent growth within California and Stanislaus County. State Planning Law, in particular the requirements for housing elements, requires the County and its cities, including Modesto, to plan for its fair share of future housing needs (Government Code Section 65580 et seq.). Neither the County nor the City may choose to restrict housing opportunities.

Degradation of Air Quality Cumulative Impact: The San Joaquin Valley Air Basin is an air quality non-attainment area for ozone and particulate matter. Certain contributions to air pollution in a non-attainment area are considered a significant cumulative air quality impact. Motorized traffic from development in the City of Modesto would contribute, with motorized traffic from other new development in the County and region, toward a cumulative increase in roadside air pollutant levels on major roads and highways throughout the County.

Within the City itself, the traffic analysis and corresponding traffic air pollutant analysis takes into account cumulative traffic volumes and is inherently cumulative in nature. The traffic study data includes cumulative traffic volumes which were utilized as an input to the air quality modeling analysis.

Due to the size of Modesto and the future growth projected under its General Plan, it will make a considerable contribution to this cumulative effect. Planned growth in Modesto under the amended UAGP will make a considerable contribution to the cumulative air quality impact within the SJVAB.

Finding:

Changes or alterations have been incorporated into the project that would reduce or avoid the significant effects on the environment. The resulting impact will be significant and unavoidable.

Supporting Evidence:

Activities within the City of Modesto are subject to regulation by the SJVAPCD. These regulations are designed to improve regional air quality over time so that the basin will reach air quality attainment. However, in the shorter term, these measures do not avoid the cumulative effect. The City of Modesto policies described as items AQ-1 through AQ-117 in Section V-2 of the Master EIR would reduce the UAGP's contribution to the cumulative impact, but not to a less than significant level. No further feasible mitigation is available to reduce this impact to a less than significant level, and the impact remains significant and unavoidable.

Generation of Noise Impact: Traffic noise levels under future conditions have the potential to result in exceedances of the City's noise significance standards.

Finding:

Changes or alterations have been incorporated into the project that would reduce or avoid the significant effects on the environment. The resulting impact will be significant and unavoidable.

Supporting Evidence:

The UAGP policies, described as items Noise-3 through Noise-14 in Section V-3 of the Master EIR, would moderate the effects of increased noise from traffic and business or land use activities. These include the Noise Ordinance, which limits noise to daytime hours and prohibits the production of loud noises from stationary engines, and UAGP policies requiring mitigation of noise through setbacks, building standards and noise buffers. These policies are to be implemented through the Initial Study process applied to all proposed discretionary projects.

These policies would reduce the impact, but not to a less than significant level. No further feasible mitigation is available to reduce this impact to a less than significant level, and the impact remains significant and unavoidable.

Generation of Noise Impact: Noise levels resulting from construction activities and certain land uses under future conditions have the potential to result in exceedances of the City's noise significance standards.

Finding:

Changes or alterations have been incorporated into the project that would reduce or avoid the significant effects on the environment. The resulting impact will be significant and unavoidable.

Supporting Evidence:

The UAGP policies, described as items Noise-3 through Noise-14 in Section V-3 of the Master EIR, would moderate the effects of increased noise from traffic and business or land use activities. These include the Noise Ordinance, which limits noise to daytime hours and prohibits the production of loud noises from stationary engines, and UAGP policies requiring mitigation of noise through setbacks, building standards and noise buffers. These policies are implemented through the Initial Study process that is applied to all proposed discretionary projects. These policies would reduce the impact, but not to a less than significant level. No further feasible mitigation is available to reduce this impact to a less than significant level, and the impact remains significant and unavoidable.

Generation of Noise and Vibration Impact: Vibration levels resulting from demolition and construction activities have the potential to result in exceedances of the City's applicable significance standards.

Finding:

Changes or alterations have been incorporated into the project that reduce or avoid the significant effects on the environment. The resulting impact will be significant and unavoidable.

Supporting Evidence:

UAGP policies described as items Noise-15 and Noise-16 in Section V-3 of the Master EIR requires demonstration that demolition and/or construction would not exceed Caltrans construction vibration threshold. These policies will reduce the impact, but not to a less than significant level. No further feasible mitigation is available to reduce this impact to a less than significant level, and the impact remains significant and unavoidable.

Generation of Noise Impact: Traffic from development in the City of Modesto would contribute, with traffic from new development in the County and region, toward a cumulative increase in roadside noise levels on major roads and highways throughout the County. Within the City itself, the traffic analysis and corresponding traffic noise analysis take into account cumulative traffic volumes. The traffic study data includes cumulative traffic volumes, which were utilized as an input to the noise modeling analysis. Noise level projections based on the traffic levels anticipated in the UAGP indicate that noise will exceed the UAGP and noise ordinance standards. This is a significant cumulative effect. The development allowable under the UAGP would make a considerable contribution to that effect.

Finding:

Changes or alterations have been incorporated into the project that reduce or avoid the significant effects on the environment. The resulting impact will be significant and unavoidable.

Supporting Evidence:

Although UAGP policies will reduce noise impacts, cumulative future noise is projected to exceed UAGP standards, even with implementation of the UAGP policies described as items Noise-3 through Noise-14 in Section V-3 of the Master EIR. No further feasible mitigation is available and the impact remains significant and unavoidable.

As described above in the discussion of air quality impacts, California Planning Law and the County's growth rate combine to limit the ability of the City to restrict growth and avoid increases in noise associated with additional growth (including traffic). Individual project contributions, although moderated by the City Noise Ordinance and General Plan policies described above, would be sufficient to result in a cumulative exceedance of City noise standards in some situations.

Effects on Agricultural Land Impact: Development consistent with the UAGP would convert land from agricultural to urban use, particularly in the Planned Urbanizing Area. This impact would be less than significant in the Downtown and Baseline Developed Area since this conversion has already taken place. Development under the UAGP would convert substantial areas of farmland to urban uses within the Planned Urbanizing Area. This development would also place urban uses in proximity to existing agricultural activities, creating a potential conflict between urban and agricultural land uses, which could indirectly result in the conversion of additional areas of farmlands from agricultural uses to other uses.

Finding:

Changes or alterations have been incorporated into the project that reduce or avoid the potentially significant effects on the environment. The resulting impact will be significant and unavoidable.

Supporting Evidence:

The UAGP policies described as items AL-12 through AL-21 in Section V-4 of the Master EIR require the orderly conversion of agricultural land as available developable land is occupied within the City. The UAGP reflects policies intended to encourage compact growth, including the policies of UAGP Section III.C.3. These policies would result in development at higher densities than would otherwise occur, thereby reducing the total amount of farmland that would otherwise be converted to meet growth projections. These policies would reduce the impact, but not to a less than significant level. No further feasible mitigation is available to reduce this impact to a less than significant level, and the impact remains significant and unavoidable.

As described above in the discussion of air quality impacts, California Planning Law and the County's growth rate combine to limit the ability of the City to restrict growth and avoid conversion of agricultural land associated with additional growth. Individual project contributions, although moderated by the UAGP policies described above, would result in conversion of agricultural lands.

Effect on Agricultural Land Impact: Modesto's growth would contribute to the cumulative impact of County-wide growth on agricultural lands.

Finding:

Changes or alterations have been incorporated into the project that reduce or avoid the significant effects on the environment. The resulting impact will be significant and unavoidable.

Supporting Evidence:

As described above in the discussion of air quality impacts, California Planning Law and the County's growth rate combine to limit the ability of the City to restrict growth and avoid the conversion of agricultural land associated with additional growth (including traffic). The UAGP reflects policies intended to encourage compact growth, including the policies of UAGP Section III.C.3. These policies would result in higher densities of development than might occur without those policies, thereby reducing the total amount of farmland that must be converted to meet growth projections. These policies would reduce the impact, but not to a less than significant level. No further feasible mitigation is available to reduce this impact to a less than significant level, and the impact remains significant and unavoidable.

Increased Demand for Long-Term Water Supplies Impact: Development consistent with the UAGP would contribute to the cumulative impact of future groundwater overdraft within the San Joaquin River basin during drought years.

Finding:

Changes or alterations have been incorporated into the project that reduce or avoid the significant effects on the environment.

Supporting Evidence:

The population of Stanislaus County is projected to increase at a rate similar to Modesto. The California Department of Finance (DOF) estimates that the county population, approximately 550,000 persons in 2017 will reach approximately 700,000 persons by 2040. This will result in substantial additional demands on the available water supplies. Cumulative impacts to water supplies could occur from increased groundwater extraction adjacent to the Modesto planning area boundaries that may result in overdrafting of the aquifer.

Starting in 2005, the City began retrofitting single-family, flat-rate customers to meters at a rate of six percent (6%) per year. Based on the City's metering plan, existing single-family flat-rate customers will be gradually converted to metered rates once all non-metered, flat-rate customers have been converted to metered use. Charging customers for their actual water consumption rather than at a flat rate will ultimately decrease the amount of per capita water use.

However, during drought years, despite available options, significant water shortages are forecast for the San Joaquin River basin by 2030. Modesto would make a cumulatively considerable contribution to the cumulative impact on water supply under drought conditions.

Implementation of the UAGP policies described as items WS-11 through WS-24 in Section V-5 of the Master EIR, which include requirements for water conservation, obtaining new surface water supplies, and implementing a conjunctive groundwater / surface water management program, will reduce the impact(s) to a less than significant level.

As described above in the discussion of air quality impacts, California Planning Law and the County's growth rate combine to limit the ability of the City to restrict growth and water consumption associated with additional growth. Individual project contributions, although moderated by the UAGP policies described above, would be sufficient to result in this impact.

Increased Demand for Sanitary Sewer Services Impact: Development consistent with the UAGP would contribute to increased demand for sanitary sewer services.

Finding:

Changes or alterations have been incorporated into the project that reduce or avoid the significant effects on the environment.

Supporting Evidence:

The UAGP includes policies intended to help manage wastewater collection and treatment. Implementation of these policies described as items SS-4 through SS-25 in Section V-6 of the Master EIR, which include requirements to comply with all applicable state and federal laws – in addition to any permit(s) issued by state and/or federal agencies – would reduce this impact(s) to a less than significant level.

Increased Demand for Sanitary Sewer Services Impact: Development consistent with the UAGP would contribute to the cumulative impact(s) associated with increased demand for sanitary sewer services.

Finding:

Changes or alterations have been incorporated into the project that reduce or avoid the significant effects on the environment.

Supporting Evidence:

The UAGP includes policies intended to help manage wastewater collection and treatment. Implementation of these policies described as items SS-4 through SS-25 in Section V-6 of the Master EIR, which include requirements to comply with all applicable state and federal laws – in addition to any permit(s) issued by state and/or federal agencies – would reduce any cumulative impact(s) to a less than significant level.

Loss of Sensitive Wildlife and Plant Habitat Impact: Development consistent with the UAGP would result in the loss or degradation of sensitive wildlife and plant habitat, and may result in impacts to valley foothill riparian, riverine, fresh emergent wetland and vernal pool habitats in the Planned Urbanizing Area.

Finding:

Changes or alterations have been incorporated into the project that reduce or avoid these significant effects on the environment.

Supporting Evidence:

Except for lands within the designated riparian corridors (which are generally protected from development by applicable UAGP policies), lands within the Downtown and Baseline Developed Areas are of limited habitat value. Any impacts within these areas are less than significant.

Within the Planned Urbanizing Area, development will be subject to further environmental / CEQA review, as well as the federal Clean Water Act, the state and federal Endangered Species Acts, and the California Fish & Game Code, when Comprehensive Planning Districts (CPDs) are proposed for development. During the preparation of the specific plan for each CPD, appropriate measures will be required, including urban design and development standards, to avoid taking of listed species. Implementation of these policies described as SWPH-11 through SWPH-15 (and requiring implementation of Table 7-1 of the Master EIR) in Section V-7 of the Master EIR and measures in the Tuolumne River Regional Park Master Plan will protect sensitive habitats. With implementation of these policies, the impact is reduced to a less than significant level.

Cumulative Loss of Sensitive Wildlife and Plant Habitat Impact: Development consistent with the UAGP would contribute to the cumulative loss of sensitive wildlife and plant habitat.

Finding:

Changes or alterations have been incorporated into the project that reduce or avoid the significant effects on the environment. The resulting impact will be significant and unavoidable.

Supporting Evidence:

Within the Planned Urbanizing Area, development will be subject to further environmental review if required by CEQA, as well as the federal Clean Water Act, the state and federal Endangered Species Acts, and the California Fish & Game Code, when CPDs are proposed for development. During the preparation of the specific plan for each CPD, appropriate measures will be required, including urban design and development standards, to avoid taking of listed species. Implementation of these policies described as SWPH-11 through SWPH-15 (and requiring implementation of Table 7-1 of the Master EIR) in Section V-7 of the Master EIR and measures in the Tuolumne River Regional Park Master Plan will protect sensitive habitats. These policies will reduce the impact, but not to a less than significant level. No further feasible mitigation is available to reduce this impact to a less than significant level, and the impact remains significant and unavoidable.

As described above in the discussion of air quality impacts, California Planning Law and the County's growth rate combine to limit the ability of the City to restrict growth and thereby avoid loss of some habitat lands. The amount of growth and development that is forecast to occur in the San Joaquin Valley, Stanislaus County, and Modesto by the year 2040 portends significant losses of habitat within the region.

Potential Disturbance of Archaeological or Historical Sites Impact: Substantial changes to existing historical resources and structures resulting from Zoning Ordinance requirements such as parking and landscaping, or demolition of such a structure, could have a significant effect.

Finding:

Changes or alterations have been incorporated into the project that reduce or avoid the significant effects on the environment. For demolition of historic buildings, the resulting impact will be significant and unavoidable.

Supporting Evidence:

Known historical resources are primarily located within the Baseline Developed Area, which is already developed. Impacts from new construction, therefore, apply to development within 100 feet of a structure more than 50 years old because construction activities may affect that structure. If a site-specific project involves the modification or demolition of a qualifying structure more than 50 years old, the impacts may be significant. The City Zoning Ordinance requires that when substantial changes to a structure are proposed, the development will be required to comply with other Zoning Ordinance provisions such as parking or landscaping requirements. This could result in modifications to the structure which substantially reduce its historical significance. This would be a less than significant impact with the imposition of UAGP policies described as items AH-3 through AH-17 in Section V-8 of the Master EIR. In particular, items AH-4 through AH-8 require protection of existing archaeological and historical resources within the planning area through implementation of existing

federal and state regulations, preparation inventories of significant resources, requiring specific evaluation of potential resources prior to construction, and adopting flexible zoning regulations for historic structures.

Demolition of a significant historic building cannot be mitigated to a less than significant level, and, even with implementation of the policies, the impact would be significant and unavoidable.

Potential Disturbance of Archaeological or Historical Sites Impact: Construction could result in impacts to currently unknown archaeological resources within and outside of riparian corridors.

Finding:

Changes or alterations have been incorporated into the project that reduce or avoid the significant effects on the environment.

Supporting Evidence:

Implementation of the UAGP policies described as items AH-3 through AH-21 in Section V-8 of the Master EIR, which require investigation and assessment of potential archaeological or historic resources at the time of application for development involving effects on structures of 50 years of age or more for earthmoving, will reduce this effect to less than significant levels. These UAGP policies require protection of archaeological and historical resources within the planning area.

Increased Demand for Storm Drainage Impact: New development will require improvements to existing stormwater drainage systems.

Finding:

Changes or alterations have been incorporated into the project that reduce or avoid the significant effects on the environment.

Supporting Evidence:

The potential impacts from storm drainage that could occur from the project were qualitatively evaluated with respect to several factors, including the extent of the projected increase in urban surface area compared to undeveloped ground, the magnitude of projected changes to hydrologic and physical site characteristics of the study area compared to existing conditions, the regulatory criteria and guidelines, and professional judgment. Based on the above threshold of significance, the potential impacts of the UAGP on storm drainage are considered less than significant because the UAGP includes policies that require new development in all three sections of the planning area to install approved drainage facilities. These policies are identified as items SD-2 through SD-15 in Section V-9 of the Master EIR.

New development is required under the policies of the UAGP to install storm drainage facilities that restrict the amount of post-development runoff from exceeding predevelopment conditions. Additionally, the UAGP includes policies for the City to maintain and upgrade storm drainage facilities as needed.

Pursuant to the RWQCB's recent directive to the City to incorporate Low Impact Development design elements into new development, small, onsite infiltration will be utilized wherever possible, allowing large, regional basins and other storm drainage structures to be downsized. Implementation of the UAGP policies will reduce the impact to a less than significant level.

Increased Demand for Storm Drainage Impact: Development consistent with the UAGP will contribute to a cumulative impact on the capacity of Modesto Irrigation District and Tuolumne Irrigation District canals to convey drainage waters.

Finding:

Changes or alterations have been incorporated into the project that reduce or avoid the significant effects on the environment.

Supporting Evidence:

The population of Stanislaus County is projected to increase in a fashion similar to that of Modesto, resulting in additional urban development and associated increases in impervious areas and associated urban storm drainage. Cumulative hydrologic impacts of stormwater flows from Modesto urban areas and other areas of the county could occur due to the fixed capacity of MID and TID irrigation canals to convey drainage west to the San Joaquin River. If drainage channels in some areas prove insufficient to handle the increased drainage discharges, existing stormwater runoff from urban and agricultural areas during large storm events would have to be interrupted until water levels receded to a point that would allow the resumption of discharges to the channel. Ceasing discharges to drainage channels could cause inundation in and around the drainage conveyance pipeline systems, surface drainage channels, detention basins, and other urban areas.

This impact is considered potentially significant. Implementation of the UAGP policies described above and described as items SD-2 through SD-15 in Section V-9 of the Master EIR will reduce the impact to less than significant.

Flooding and Water Quality Impact: Increased development could contribute to runoff, contributing to flooding problems in the urban area. Development of urban areas could increase discharges of erosion and wastes to surface waters through urban runoff, affecting surface water quality.

Finding:

Changes or alterations have been incorporated into the project that reduce or avoid significant effects on the environment.

Supporting Evidence:

UAGP policies described as items FWQ-3 through FWQ-16 in Section V-10 of the Master EIR, including policies to restrict development in the floodplain and thus

avoiding exposing persons and property to flood hazards, and requiring new development under the UAGP install stormwater drainage facilities that restrict the amount of post-development runoff from exceeding pre-development conditions will reduce this impact to a less than significant level.

City policies and capital improvement projects for stormwater drainage facilities would minimize discharges of urban pollutants to natural waterways. The City drainage program policies require new development to prepare drainage plans and implement urban runoff control measures; larger Specific Plan developments must have storm drainage systems designed to control pollutant runoff. The City's implementation policies for the municipal NPDES stormwater permit require new development to implement an appropriate selection of permanent pollution control measures. Implementation of the UAGP policies will reduce erosion and water quality impacts to a less than significant level.

Flooding and Water Quality Impact: Cumulative impacts could occur from the project's contributions to runoff and discharges of waste and erosion.

Finding:

Changes or alterations have been incorporated into the project that reduce or avoid the significant effects on the environment.

Supporting Evidence:

UAGP policies described as items FWQ-3 through FWQ-16 in Section V-10 of the Master EIR, including policies to restrict development in the floodplain and thus avoiding exposing persons and property to flood hazards, and requiring new development under the UAGP install stormwater drainage facilities that restrict the amount of post-development runoff from exceeding pre-development conditions will reduce the project's contribution to the cumulative impact to less than cumulatively considerable.

City policies and capital improvement projects for stormwater drainage facilities would minimize discharges of urban pollutants to natural waterways. The City drainage program policies require new development to prepare drainage plans and implement urban runoff control measures; larger Specific Plan developments must have storm drainage systems designed to control pollutant runoff. The City's implementation policies for the municipal NPDES stormwater permit require new development to implement an appropriate selection of permanent pollution control measures. Implementation of the UAGP policies will reduce the project's contribution to the cumulative impact to less than cumulatively considerable.

Increased Demand for Parks and Open Space Impact: Increased population under the UAGP would increase demand for park and open space facilities, requiring new facilities to be constructed in the Planned Urbanizing Area and contributing to a significant cumulative impact.

Finding:

Changes or alterations have been incorporated into the Project that reduce or avoid significant effects associated with increased demand for parks and open space.

Supporting Evidence:

UAGP goals and policies described as items POS-2 through POS-42 in Section V-11 of the Master EIR, including the goals and policies in UAGP section VI-D, require the provision of park facilities as new development occurs in the Planned Urbanizing Area. The required minimum acreages can be met through the application of existing policies and regulations, including also Government Code Section 66474, which enables the City to require developers to pay Parks Capital Facilities Fees to fund the acquisition of appropriate parkland acreage. With implementation of the UAGP policies, the direct impact on the demand for parks and open space in the Planned Urbanizing Area will be reduced to less than significant and the UAGP's contribution to a cumulative impact will be reduced to less than cumulatively considerable.

Increased Demand for Schools Impact: Additional demand for schools will be created by increased population as development occurs consistent with the UAGP.

Finding:

Changes or alterations have been incorporated into the project that reduce or avoid the significant effects on the environment.

Supporting Evidence:

Compliance with UAGP policies described as items S-1 through S-7 in Section V-12 of the Master EIR, including the City's requiring that school impact fees be paid, will reduce impacts related to increased demand for schools to a less than significant level.

Increased Demand for Police Services Impact: Additional demand for police services / facilities will be created by increased population as development occurs consistent with the UAGP.

Finding:

Changes or alterations have been incorporated into the project that reduce or avoid the significant effects on the environment.

Supporting Evidence:

Compliance with UAGP policies described as items PS-2 through PS-7 in Section V-13 of the Master EIR, in addition to the policy that requires a long-range financing strategy for each CPD, will allow the City to provide the resources

necessary to extend service to the newly growing Planned Urbanizing Area – and maintain services in the Baseline Developed Area. Implementation of the UAGP policies will reduce impacts related to police services to a less than significant level through increased staffing and better building design and site planning.

Increased Demand for Fire Protection Services Impact: Additional demand for fire services, resulting in the need for new facilities in order to maintain acceptable response times, could cause significant environmental impacts.

Finding:

Changes or alterations have been incorporated into the project that reduce or avoid the significant effects on the environment.

Supporting Evidence:

Compliance with UAGP policies described as items FS-1 through FS-14 in Section V-14 of the Master EIR, in addition to the policy that requires a long-range financing strategy for each CPD, will allow the City to provide the resources necessary to extend service to the newly growing Planned Urbanizing Area – and maintain services in the Baseline Developed Area. Implementation of the UAGP policies will reduce impacts related to increased demand for fire services to a less than significant level through increased staffing and better building design and site planning.

Generation of Solid Waste Impact: Additional demand for solid waste disposal will be created by increased population as development occurs consistent with the UAGP.

Finding:

Changes or alterations have been incorporated into the project that reduce or avoid the significant effects on the environment.

Supporting Evidence:

Compliance with UAGP policies described as items SW-6 through SW-11 in Section V-15 of the Master EIR will reduce impacts related to generation of solid waste to a less than significant level.

Generation of Hazardous Materials Impact: Generation, transportation, storage, and/or disposal of hazardous materials within the Baseline Developed Area and the Planned Urbanizing Area could contribute to significant impacts, similar to of past occurrences where spills or contamination have occurred.

Finding:

Changes or alterations have been incorporated into the project that reduce or avoid potentially significant effects on the environment.

Supporting Evidence:

UAGP policies as described as items HM-3 through HM-8 in Section V-16 of the Master EIR require avoidance of impacts in new development through compliance with applicable regulations and preparation of various studies / plans. In addition, federal and state laws regulating the transportation, storage, disposal, and clean-up of hazardous materials and wastes, including those programs administered by Stanislaus County, are described in Section V-16 of the Master EIR. Together, these will reduce the potential impact(s) to a less than significant level.

Geologic Hazards Impact: New development could be subject to hazards related to earthquakes, soils conditions and erosion.

Finding:

Changes or alterations have been incorporated into the project that reduce or avoid the significant effects on the environment.

Supporting Evidence:

Impacts related to exposure of new development to earthquake, soils conditions and/or erosion hazards within the UAGP planning area would be assessed through the City's development review process and mitigated through UAGP Policies described as items GSM-1 through GSM-13, which require conformance with the most recent UBC standards and the preparation of site-specific geotechnical studies for new development. With these policies implemented, impacts related to earthquakes, soils conditions and/or erosion would be reduced substantially, and any residual impact is considered less than significant.

Energy Impact: Continued development in the Planned Urbanizing Area would increase demand for energy.

Finding:

Changes or alterations have been incorporated into the project that reduce or avoid the significant effects on the environment.

Supporting Evidence:

Continued development within the Planned Urbanizing Area would have an impact on available energy supplies. Energy consumption likely would increase substantially by 2040 as a result of the increase in population of nearly 2x the 2014 current population. UAGP Policies described as items AQ-1 through AQ-30 in Section V-2 of the Master EIR would promote energy-saving strategies and would help to reduce energy-related impacts resulting from continued development of the Modesto planning area. Title 24 CCR (California Building Standards – including energy efficiency standards) would also reduce energy use

and infrastructure impacts by ensuring that continued development in the UAGP would not exceed local, state, and federal energy standards for new construction. Additionally, the City, in partnership with MID, is in a better position to manage its own energy supply portfolio as a result of access to hydroelectric power sources. With the policies described here being implemented, energy-related impacts would be reduced substantially, and any residual impact is considered less than significant and contribution to cumulative impacts would be less than cumulatively considerable.

Visual Resources Impact: Continued development in the Planned Urbanizing Area would alter the visual character of the area.

Finding:

Changes or alterations have been incorporated into the project that reduce or avoid the significant effects on the environment.

Supporting Evidence:

The UAGP would allow urban development on currently flat or vacant land, or land that is developed with agricultural uses. Such new development would change the visual character of the land. The UAGP incorporates policies described as items VR-2 through VR-5 in Section V-19 of the Master EIR, which place value on the preservation of visual resources and important vistas and viewsheds. These UAGP policies encourage the visual enhancement of neighborhoods, planning districts, and parks. The UAGP has specific policies guiding the visual quality of riverside parks under the proposed River Greenway Program, which emphasize the preservation of views from these parks, including the City's two river parks (Dry Creek Park and TRRP). With implementation of these policies, the impact is reduced to a less than significant level.

Visual Impact: Continued development in the Planned Urbanizing Area would increase light and glare and contribute to a cumulative impact.

Finding:

Changes or alterations have been incorporated into the project that reduce or avoid the significant effects on the environment.

Supporting Evidence:

Adoption of the Growth Strategy Diagram for the Planned Urbanizing Area, as presented in Chapter II of the Master EIR, would lead to new development in areas that are currently vacant or used for agricultural purposes. This would lead to the introduction of light and glare in areas that are not illuminated currently. Additionally, the adoption of proposed UAGP actions and policies that would lead to an expanded street system and enhanced transit system would increase light and glare in the planning area. The City has adopted Guidelines for Small-Lot Single-Family Residential Developments, and Design Guidelines for Commercial & Industrial Development, which include standards for the design of outdoor lighting fixtures. These standards limit the size of fixtures and require that

fixtures focus their light to avoid spilling onto nearby properties. With implementation of these policies, the impact is reduced to a less than cumulatively significant level.

Land Use & Planning: Continued development in the Planned Urbanizing Area would increase the potential for adverse environmental impacts related to land use and planning.

Finding:

Changes or alterations have been incorporated into the project that reduce or avoid potentially significant effects on the environment.

Supporting Evidence:

Adoption of the Growth Strategy Diagram for the Planned Urbanizing Area, as presented in Chapter II of the Master EIR, would lead to new development in areas that are currently vacant or used for agricultural purposes. The UAGP incorporates policies described as items LUP-11 through LUP-25 in Section V-20 of the Master EIR, which place value on high-quality development that integrates well with surrounding neighborhoods and the existing City. The City has adopted Neighborhood Compatibility Guidelines, and Design Guidelines for Commercial & Industrial Development, which include considerations for compatibility of new development with existing development. With implementation of these policies and programs, any residual impact(s) will be less than significant and any contribution to cumulative impacts would be less than cumulatively considerable.

B. FINDINGS SUPPORTING REJECTION OF ALTERNATIVES

The Final MEIR discussed and evaluated a range of alternatives as required by CEQA Guidelines Section 15126.6. In order to reject an alternative, the City must find:

Specific economic, legal, social, technological, or other considerations, including considerations for the provision of employment opportunities for highly trained workers, make infeasible the alternatives identified in the Master EIR.

Alternatives can also be rejected if they do not further most of the Project Objectives or would not substantially lessen significant impacts of the proposed Project.

Following are the findings supporting rejection of each of the alternatives.

Alternative 1. No Project Alternative: The No-Project Alternative is the continuation of the 1995 UAGP, as amended. The No-Project Alternative would not include any of the new policies being added to the UAGP with the current project.

Findings for rejection:

Specific legal and fiscal considerations make infeasible the Alternative 1 as identified in the Master EIR. Alternative 1 would also generally not promote the Project objectives, nor would it result in reduced impacts as compared to the proposed Project.

Supporting Evidence:

The California Planning and Zoning Law (Government Code Section 65300, et seq.) requires each City to adopt a long-term general plan for its physical development. The general plan is expected to be comprehensive, internally consistent, and have a long-term perspective (Chapter 1, *State General Plan Guidelines*, Office of Planning and Research, 1998). Furthermore, the provisions of the circulation element must be "correlated" with the land use element (Government Code Section 65302(b)). In addition, in a charter City such as Modesto, subdivisions of land, specific plans, development agreements, capital improvement plans, and comprehensive plans must be consistent with the general plan (Government Code Sections 66474, 65454, 65867.5, 65103, and 65300.5, respectively). Generally, a City is expected to update its general plan at least every ten years. The current UAGP amendment project responds to changes in federal, state, and local policies that have occurred since the UAGP was adopted by the Modesto City Council in 1995 and last amended in 2008.

Since the 1995 adoption of the UAGP, the City has revised its job generation estimates, refined its traffic model, and identified numerous cultural resources, among other things. These will change the way in which the City considers land use projects. Accordingly, these changes must be represented in revisions to the UAGP roadway network (in order to maintain correlation with the land use element), cultural resources section, and other policies in the UAGP so that they may be reflected in the review of subdivisions, specific plans, and other City actions that require consistency with the UAGP. In order to ensure that the UAGP consistently reflects proposed changes to the City's roadway network, cultural resources preservation policies, and other policies described in Chapter III (Project Description) of the Master EIR, the City is required to incorporate these proposed changes into the UAGP itself.

The California Environmental Quality Act provides that a Master EIR should be examined within five years of its last certification date to ensure that it continues to reflect the environment and current information about environmental effects (Public Resources Code Section 21157.6). Since the certification of the Master EIR for the UAGP in 1995, the City has consistently cross-referenced new information from later environmental analyses, such as the EIR prepared for the Kaiser Medical Center and the Master EIR for the Wastewater Master Plan, to the UAGP Master EIR. Furthermore, the "No Project" alternative would not allow the City to address climate change, environmental justice and other State legislative actions through implementation of certain proposed new policies. In order to ensure that its Master EIR meets the spirit – and the letter – of the law, Modesto is updating the UAGP and certifying this update of its Master EIR.

Alternative 2. Increased Density: Under Alternative 2, the UAGP land use diagram would reflect higher density / intensity “nodes” of mixed-use, transit-oriented development, at major intersections (arterial-arterial or higher). Revisions to land use designations along major transportation corridors, to accommodate mixed-use development between major intersections, would also occur. The growth and development contemplated under this alternative would largely occur within the most urbanized parts of the existing city. Other features and assumptions associated with Alternative 2 would be the same as the proposed Project.

Findings for Rejection:

Specific legal and technical considerations make infeasible the Alternative 2 identified in the Master EIR. Furthermore, Alternative 2 would not result in reduced impacts as compared to the proposed Project.

Supporting Evidence:

Alternative 2 would generally meet both the land use- and transportation-related objectives for the proposed UAGP amendment, as all the proposed policy language would remain. The potential impacts associated with Alternative 2 are very similar in scope and magnitude as compared to those of the proposed Project.

This alternative would increase the density / intensity of UAGP development along mixed-use corridors and at major intersections. Under this alternative greater transportation impacts along those roads could occur than under the proposed project (the draft UAGP), which could exacerbate impacts associated with traffic, air quality and noise. Alternative 2 would also conflict with certain project objectives and policies of the UAGP amendment.

Government Code Section 65300.5 states that “the general plan and elements and parts thereof [must] comprise an integrated, internally consistent and compatible statement of policies for the adopting agency.” Alternative 2 is rejected because it would not provide for future growth consistent with UAGP amendment Figure III-1, which reflects new development at certain thresholds and densities. This would result in and internally inconsistent UAGP.

Alternative 3. Reduced Density: Under Alternative 3, development in the Downtown area would feature *reduced* density / intensity as compared to the proposed Project, essentially maintaining the status quo. Residential densities and non-residential intensities (e.g. Floor Area Ratio) would be reduced within the Planned Urbanizing Area, and the proposed “BCR” land use designation would not be proposed. Under this scenario, the City would expand at the expense of more Farmland on a unit-per-acre basis than the proposed Project, resulting in a less efficient use of resources. Similarities between Alternative 3 and the proposed Project include the maintenance and enhancement of existing neighborhoods, and the transportation network design / layout.

Findings for Rejection:

Specific legal and technical considerations make infeasible the Alternative 2 identified in the Master EIR. Furthermore, Alternative 3 would not result in reduced impacts as compared to the proposed Project.

Supporting Evidence:

Alternative 3 would not meet the stated project objectives of providing adequate land for economic development. Otherwise, the potential impacts associated with Alternative 3 would be similar to those of the proposed Project, although inefficiencies associated with lower-density sprawl-type development would result in somewhat increased adverse environmental impacts related to air quality, agricultural land conversion, biological resources and energy.

This alternative would reduce the density / intensity of UAGP development in the Downtown area, and would also result in more segregated land uses. Under this alternative, due to increased vehicle miles traveled, potentially greater impacts related to transportation and air quality could be expected. Alternative 3 would also conflict with certain project objectives, policies and certain other UAGP content (e.g. Exhibit III-1).

Government Code Section 65300.5 states that "the general plan and elements and parts thereof [must] comprise an integrated, internally consistent and compatible statement of policies for the adopting agency." Alternative 3 is rejected because it would not provide for future growth consistent with UAGP amendment Figure III-1, which reflects new development at certain thresholds and densities. This would result in an internally inconsistent UAGP.

STATEMENT OF OVERRIDING CONSIDERATIONS

Pursuant to Public Resources Code Section 21081 and Section 15093 of the State CEQA Guidelines (14 California Code of Regulations 15000, et seq.), the City of Modesto cannot approve a project for which an Environmental Impact Report (EIR) has been certified that identifies significant unavoidable effects on the environment, unless it adopts a statement of overriding considerations finding that specific overriding economic, legal, social, technological or other benefits of the project outweigh its significant effects on the environment.

A. SIGNIFICANT UNAVOIDABLE IMPACTS

The Draft Master EIR identifies the following adverse effects of the project that cannot be mitigated below a level of significance:

- Traffic and Circulation (direct and cumulative impacts)
- Air Quality and GHG Emissions (direct and cumulative impacts)
- Generation of Noise (direct and cumulative impacts)
- Effects on Agricultural Lands (direct and cumulative impacts)
- Loss of Sensitive Wildlife and Plant Habitat (cumulative impact)
- Potential Demolition of Significant Historical Structures (direct impact)

B. STATEMENT OF OVERRIDING CONSIDERATIONS

The City Council has determined that the Modesto Urban Area General Plan Amendment 2040 should be approved and that any remaining unmitigated environmental impacts attributable to the Modesto Urban Area General Plan Amendment 2040 are outweighed by the following specific benefits. This includes a description of certain policies and outcomes associated with the General Plan Amendment that reduce identified potentially significant impacts, although not necessarily to a less than significant level.

Overriding Considerations Relating to Significant and Unavoidable Impacts (both direct and cumulative impacts)

California Planning and Zoning Law requires the City to adopt a general plan for its long-range physical development (Government Code Section 65300 et seq.). Substantial population increases are projected to occur in Stanislaus County and the City of Modesto during the planning period. The California Department of Finance projects that the population of Stanislaus County will increase by more than 25 percent by 2040, increasing to 699,000 from its current population of 558,000 (*State of California, Department of Finance, Population Projections for California Counties 2010 – 2060, September, 2018*). The policies and other content within the proposed Urban Area General Plan amendment offer the planning benefit of directing the expected population increase to efficient locations through compact development guidance, and of providing direction for providing future infrastructure and other needs. State law and the countywide growth rate both limit the ability of the City to restrict growth. The contributions of individual projects to cumulative impacts, although moderated by policies discussed here, would still result in environmental impacts.

Development associated with the Urban Area General Plan would result in approximately 120,000 new employment opportunities in total within the planning area boundary. The increased number of local jobs has the benefit of reducing local unemployment levels that are currently at 6.5 percent (*United States Department of Labor – Bureau of Labor*

Statistics, Civilian labor force and unemployment by metropolitan area, August 29, 2018), which is more than 50 percent higher than the 2018 statewide average of approximately 4.2 percent. The increase in housing will economically, socially and legally benefit the community by helping it meet its future regional fair share housing allocations, as required under Government Code Section 65580 et seq.

The proposed Urban Area General Plan amendment contains goals and policies that promote intensified development in the downtown area, which would be more difficult to achieve without the promotion of significant employment opportunities. The proposed project would benefit the City economically by enabling the creation of more than 40,000 employment opportunities and new housing opportunities for 8,700 residents in the downtown area.

Additional Overriding Considerations Relating to Traffic and Circulation Needs, Noise, and Air Quality / GHG Emissions (direct and cumulative impacts)

The proposed Urban Area General Plan amendment circulation element and the other amendments being proposed are consistent with the Stanislaus County Regional Transportation Plan. Thus, although the project will exceed Level of Service standards along numerous road segments within the planning area and contribute to regional cumulative traffic impacts, it will also contribute to improvements in the movement of goods and people throughout the region and ensure internal consistency within the General Plan and correlation of the Circulation and Land Use elements, as required under Government Code Section 65300.5.

Development consistent with the proposed Urban Area General Plan amendment will, as it increases vehicle travel and energy use, contribute to the cumulative impact(s) associated with generation of greenhouse gases and resulting climate change. The Urban Area General Plan amendment includes policies designed to reduce the City's use of energy and to reduce auto trips. Given the existing setting and available technology, new development, including construction of housing and public services, and economic activity, will necessarily increase trips and energy use.

Overriding Considerations Relating to Loss of Productive Agricultural Land (direct and cumulative impact)

Agriculture is a leading industry in Stanislaus County. The value of Stanislaus County's agricultural commodities totaled approximately \$3.65 billion in 2017 (County of Stanislaus 2018). The agriculture, forestry, and fishing industries rank second only to the public sector in the number of jobs in the San Joaquin Valley. In 2016, Stanislaus County ranked as the sixth most agriculturally productive county in California, based on the value of agricultural products sold (California Department of Food and Agriculture 2017). Nonetheless, agriculture is a seasonal occupation and is one reason for Stanislaus County's relatively high unemployment rate.

As explained above, the project has the social and economic benefits of encouraging significant new employment opportunities outside of agriculture, as the business parks identified in the Urban Area General Plan are developed. At buildout, the plan would allow up to 120,000 new employment opportunities in total within the planning area. This will create a more diversified job market. It will also enable the City to meet the economic development goals of its general plan calling for diversification of its economic base and provision of economic development opportunities (see General Plan Chapter 1, Section D, and Chapter II, Section C).

Additional Overriding Considerations Relating to Loss of Sensitive Wildlife and Plant Habitat (cumulative impact)

The policies contained within the Urban Area General Plan amendment that relate to protection of special status species within riparian corridors and the Planned Urbanizing Areas offer the benefit of enabling the City to undertake a comprehensive planning approach to major greenfield development proposals. This will provide opportunities for programmatic, large-scale approaches to the protection of special status species and their habitats.

Additional Overriding Considerations Relating to Potential Demolition of Significant Historical Structures (direct impact)

Urban Area General Plan policies described as items AH-3 through AH-21 in Section V-8 of the Master EIR require protection of archaeological and historical resources within the planning area through implementation of existing federal and state regulations, preparation inventories of significant resources, requiring specific evaluation of potential resources prior to construction, and adopting flexible zoning regulations for historic structures. The identified impact is associated only with those future projects that may affect existing historic structures. Most historic structures in the City are located in the downtown urban core and immediate vicinity. Effects to existing historic structures would likely occur as a part of the redevelopment and intensification of the existing urban core, consistent with Urban Area General Plan policies directed toward creating more compact development, reducing auto travel, and encouraging non-motorized travel modes such as bicycle and pedestrian.

**MODESTO CITY COUNCIL
RESOLUTION NO. 2019-109**

**RESOLUTION APPROVING AN URBAN AREA GENERAL PLAN
AMENDMENT FOR LAND USE AND CIRCULATION ELEMENTS**

WHEREAS, on October 14, 2008, the City Council certified the Final Master Environmental Impact Report (“Master EIR”) (SCH No. 2007072023) for the Modesto Urban Area General Plan; and

WHEREAS, a new General Plan for the City of Modesto entitled “City of Modesto Urban Area General Plan,” as recommended by the Modesto City Planning Commission, was adopted by the Council by Resolution No. 95-409 on August 15, 1995; and

WHEREAS, said General Plan has been amended by Modesto City Council Resolution Nos. 95-584, 96-20, 96-338, 96-639, 97-3, 97-137, 97-158, 98-293, 99-162, 99-564, 2000-303, 2000-633, 2001-47, 2001-476, 2002-154, 2002-526, 2003-101, 2003-122, 2004-233, 2005-70, 2007-066, 2007-599, 2008-142, 2008-583, 2009-419, 2011-253, 2011-254, 2011-435, 2012-430, 2014-17, 2014-422, 2015-262, 2016-34 and 2017-21, copies of which are on file in the office of the City Clerk; and

WHEREAS, Government Code Section 65358 permits the amendment of General Plans by the legislative body; and

WHEREAS, the City of Modesto Community and Economic Development Department (“Applicant”) desires to amend the Urban Area General Plan (“Project”) to:

1. Revise the land use and circulation elements policies and diagrams to be more consistent and compatible;

2. Address new laws enacted since the prior Urban Area General Plan amendment in 2008, and document compliance with said new laws;

3. Update the Master EIR for the Urban Area General Plan; and

WHEREAS, a Final Master Environmental Impact Report was prepared for the UAGP amendment (SCH No. 2014042081), which analyzed the potential environmental effects of the proposed Project; and

WHEREAS, on January 28, 2019, the Planning Commission held a duly noticed public hearing in the Tenth Street Place Chambers located at 1010 Tenth Street, Modesto, California, relating to this proposed amendment to the Modesto Urban Area General Plan; and

WHEREAS, after said public hearing, the Planning Commission adopted Resolution No. 2019-02, recommending to the City Council an amendment to the Modesto Urban Area General Plan; and

WHEREAS, said matter was set for a public hearing of the City Council to be held on March 5, 2019, in the Tenth Street Place Chambers located at 1010 Tenth Street, Modesto, California, at which date and time said duly noticed public hearing of the Council was held for the purpose of receiving public comment on the proposed amendment to the Modesto Urban Area General Plan.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby finds and determines that the proposed amendment to the Modesto Urban General Plan as described in **Exhibit "A," attached** hereto and incorporated herein by reference, is required for the public health, safety, and welfare of the citizens of Modesto.

BE IT FURTHER RESOLVED by the Council of the City of Modesto that it hereby adopts the proposed amendment to the Urban Area General Plan as described in **Exhibit "A," attached** hereto and incorporated herein by reference.

BE IT FURTHER RESOLVED by the Council of the City of Modesto that the Community and Economic Development Department Director is hereby authorized and directed to forward certified copies of this resolution and said amendment to the Urban Area General Plan to the Board of Supervisors, and file a Notice of Determination within five (5) business days with the Stanislaus County Clerk pursuant to Section 21152 of the Public Resources Code.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 5th day of March, 2019, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Zoslocki, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Kenoyer, Ridenour, Zoslocki, Mayor Brandvold

Final documentation on file with the Planning Division of the Community and Economic
Development Department.

**MODESTO CITY COUNCIL
RESOLUTION NO. 2019-110**

RESOLUTION APPROVING A LEASE AGREEMENT WITH BEARD LAND IMPROVEMENT COMPANY FOR THE MODESTO FIRE DEPARTMENT ADMINISTRATION BUILDING LOCATED AT 409 12TH STREET, MODESTO, CA, FOR AN ESTIMATED ANNUAL COST NOT TO EXCEED \$102,960 ANNUALLY AND A TOTAL AMOUNT NOT TO EXCEED \$706,074 OVER A SEVEN-YEAR TERM; AND AUTHORIZING THE CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE THE AGREEMENT

WHEREAS, Modesto Fire administration staff has been working out of multiple locations since returning to the City from the dissolution of Modesto Regional Fire Authority in 2014; and

WHEREAS, Fire Prevention, Training, and Administrative staff currently occupy four different sites and expend approximately \$90,000 per year; and

WHEREAS, in January 2019, the Fire Chief and City Manager decided to move the firefighters out of Fire Station 1 due to the continued degradation of the building and numerous roof leaks; and

WHEREAS, the decision was made to vacate the administration building adjacent to Station 1 and move the firefighters into the Station 1 building; and

WHEREAS, the property located at 409 12th street will accommodate the needs of the organization as well as provide fiscal efficiency with a minimum long term fiscal impact; and

WHEREAS, the expense will be funded with existing appropriations for Fiscal Year 2018-2019 Operating budget.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves a Lease Agreement with Beard Land Improvement Company for the Modesto Fire Department Administration building located at 409 12th Street,

Modesto, CA., for an amount not to exceed, \$102,960 annually and \$706,074 over a seven-year term.

BE IT FURTHER RESOLVED, that the City Manager or his designee is hereby authorized to execute the agreement, in a form approved by the City Attorney.

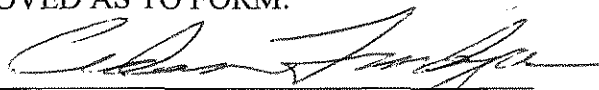

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 5th day of March, 2019, by Councilmember Ridenour, who moved its adoption, which motion being duly seconded by Councilmember Madrigal, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2019-111**

RESOLUTION APPROVING A THIRD AMENDMENT TO THE LEGAL SERVICES AGREEMENT DATED DECEMBER 21, 2016 WITH NORTON ROSE FULBRIGHT US LLP IN AN AMOUNT NOT TO EXCEED \$80,000 , FOR A TOTAL AGREEMENT AMOUNT NOT TO EXCEED \$415,000 TO CONTINUE REPRESENTING THE CITY IN FINANCE MATTERS, AND AUTHORIZING THE CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE THE AGREEMENT

WHEREAS, the City Attorney's Office is in need of outside counsel services that relate to finance matters; and

WHEREAS, Norton Rose Fulbright US LLP has represented the City in finance matters since December of 2016; and

WHEREAS, additional essential legal work needs to be performed that will result in fees exceeding the agreed upon budget of \$335,000; and

WHEREAS, the City Attorney's Office desires to extend the agreement with Norton Rose Fulbright US LLP; and

WHEREAS, the City Attorney's office has drafted a Third Amendment to the Legal Services agreement with Norton Rose Fulbright US LLP to continue services.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves a Third Amendment to the Legal Services Agreement with Norton Rose Fulbright US LLP in an amount not to exceed \$80,000, for a total agreement amount of \$415,000 to continue representing the City in finance matters, as provided in **Exhibit A attached** hereto and incorporated herein, and further authorizes the City Attorney to execute such agreement in a form substantially similar to Exhibit A.

BE IT FURTHER RESOLVED that the City Manager or his designee, are hereby authorized to execute the agreement, in a form approved by the City Attorney.

The foregoing resolution was introduced in a regular meeting of the Council of the City of Modesto held on the 12th day of March, 2019, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Grewal, was upon roll call carried and the resolution adopted by the following vote:

THIRD AMENDMENT TO LEGAL SERVICES AGREEMENT

This Third Amendment for Legal Services (this “**Third Amendment**”), is made and entered into on _____ day of _____ 2019 (“**Effective Date**”), by and between the **CITY OF MODESTO**, a California Municipal Corporation (“**City**”), and **NORTON ROSE FULBRIGHT US LLP**, a Texas limited liability partnership (“**Attorney**”), located at 580 California Street, Floor 16, San Francisco, California 94104. City and Attorney are hereinafter collectively referred to as the “**Parties**,” and singularly as “**Party**”.

RECITALS

WHEREAS, City and Attorney entered into a Legal Services Agreement (“**Agreement**”) for services for legal advice, representation and assistance on matters involving finance matters; and

WHEREAS, Attorney is specially trained, experienced and competent to perform such services; and

WHEREAS, the public interest, economy and general welfare will be served by the Agreement; and

WHEREAS, City and Attorney desire to amend the Agreement for further service by increasing the previously approved amount of fees by \$80,000.

NOW, THEREFORE, it is hereby agreed that the Legal Services Agreement between the City of Modesto and Norton Rose Fulbright US LLP, dated December 21, 2016, and amended by Resolution No. 2017-308 and Resolution No. 2017-499 is amended as follows:

1. Section 2(a) of Paragraph 2, “Fees and Costs,” Hourly Rates is amended to state as follows:

“The total of all fees paid to Attorney for the performance of all services set forth in Section 1 (hereafter the “**Service**”), and for all authorized Reimbursable Expenses (as defined hereafter), shall not exceed a total sum of four hundred and fifteen thousand dollars (\$415,000).”

2. **Entire Agreement.** The parties to this Third Amendment understand and agree that except as stated herein all terms and conditions of the original Agreement, dated December 21, 2016, remain in full force and effect to the extent they are not in conflict with this Third Amendment. This document, including all exhibits, contain the entire amendment to the Agreement between the Parties and supersedes whatever oral or written understanding they may have had prior to the execution of this Third Amendment. No alteration to the terms of this Third Amendment shall be valid unless approved in writing by Attorney and by City, in accordance with applicable provision of the Modesto City Code.

3. **Authority.** The person signing this Third Amendment for Attorney hereby represents and warrants that he/she is fully authorized to sign this Third Amendment on behalf of Attorney and to bind Attorney to the performance of its obligations hereunder.

IN WITNESS WHEREOF, the Parties have executed this Third Amendment as of the dates stated below.

**MODESTO CITY COUNCIL
RESOLUTION NO. 2019-112**

**RESOLUTION AMENDING THE FISCAL YEAR 2018-2019 ANNUAL
OPERATING AND CAPITAL IMPROVEMENT PROJECT FUND BUDGETS**

WHEREAS, a financial analysis has been completed and it has been determined that a budget adjustment is required to the Annual and Capital Improvement Budgets of the City of Modesto for Fiscal Year 2018-19.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves amending the Fiscal Year 2018-19 Annual Operating and Capital Improvement budget as shown in **Exhibit A**, which is **attached** hereto and incorporated by reference herein.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to take the necessary steps to implement the provisions of this resolution.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 12th day of March, 2019, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Grewal, was upon roll call carried and the resolution adopted by the following votes:

EXHIBIT A

FISCAL YEAR 2018-19

COMMUNITY & ECONOMIC DEVELOPMENT

A budget adjustment in the amount of \$700,000 is needed to budget the revenue and expense associated with the Downtown Modesto Community Benefit District special assessment (Fund 1210 – Downtown Modesto Community Benefit District).

FIRE DEPARTMENT

During the budget development process for this fiscal year, the Modesto Fire Department's Safer Grant was budgeted for 6 month since the grant was only going to be through December with the balance of those positions costs moved to General Fund. Since the City was not going to be able to spend the balance of the grant by December, an extension was requested and word was received on February 13, 2019 that the extension was approved until the funds run out or by May 13, 2019. Due to the extension of the grant a budget adjustment is needed to move Salary, Benefits and ISF cost back to the 2015 FEMA Safer Grant cost center within the Grants Operation Grants Reimbursed Fund in the amount of \$346,129 from the Suppression cost center within the General Fund.

POLICE DEPARTMENT

A budget adjustment is necessary to reduce Consultant Charges, Equipment Acquisition and Other Costs CIP by \$127,632 in the MPD Scheduling and Timekeeping Management Software System Project (101007) and establish a transfer out of the project to General Fund in the same amount as the invoices were paid out of the MPD Field Operations cost center. This is being processed as a transfer since the invoices were paid out of a prior fiscal year and will reimburse General Fund for the expense that it incurred.

PUBLIC WORKS DEPARTMENT

A budget adjustment is necessary to establish the budget for capital improvement project 101161- PW-Bus Turnout S.R. 132/Maze Boulevard in the amount of \$90,720 funded with Local transportation funds. This project will install a new bus turnout on Maze Boulevard by Franklin Elementary School. Funds for this project were originally budgeted in non-capital project 101023 but because of the nature of the project it was determined a new CIP should be created. This budget adjustment also reduces the budget for project 101023-PW - Bus Stops Improv/Repairs 2017 in the same amount.

Fund	Fund Name	Account - Revenue/Expense	Current Budget	Increase/ (Decrease)	Revised Budget
1210	Downtown Modesto Community Benefit District	DID Special Assessment (Revenue)	\$0	\$700,000	\$700,000
1210	Downtown Modesto Community Benefit District	Intergovernmental Services (Expenses)	\$0	\$700,000	\$700,000
1341	Grants – Operations Grants Reimbursed	2015 FEMA SAFER Grant Expenditures	\$553,267	\$346,129	\$899,396
0100	General Fund	MFD – Suppression Expenditures	\$25,315,474	(\$346,129)	\$24,969,345
3120	Special Funds for Capital Outlay	Project #101007 Expenditures	\$137,363	(\$127,632)	\$9,731
3120	Special Funds for Capital Outlay	Project #101007 Transfer Out to General Fund (0100)	\$0	\$127,632	\$127,632
0100	General Fund	Transfer In from Fund 3120 (Revenue)	\$0	\$127,632	\$127,632
4510	Bus Fixed Route Fund	Improv/Repairs	\$0	\$90,720	\$90,720

**MODESTO CITY COUNCIL
RESOLUTION NO. 2019-113**

RESOLUTION APPROVING A COOPERATIVE AGREEMENT WITH THE CALIFORNIA STATE DEPARTMENT OF TRANSPORTATION (CALTRANS) FOR THE PREPARATION OF PLANS, SPECIFICATIONS AND ESTIMATE (PS&E) FOR THE STATE ROUTE 99/PELANDALE AVENUE INTERCHANGE RECONSTRUCTION – PHASE 2 PROJECT, AND AUTHORIZING THE CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE THE AGREEMENT

WHEREAS, the State Route 99 / Pelandale Avenue Interchange Reconstruction Project is a project to increase safety, relieve congestion, and enhance traffic operations within the Interchange and along the adjacent streets, and

WHEREAS, in an effort to accelerate the planning and construction of the interchange, the City Council in their Fiscal Year 2005-06 Capital Improvement Program approved 1.3 million and subsequently approved staff's request to explore the City taking the lead on the State Route 99/Pelandale Avenue Interchange Reconstruction Project improvements, Project Approval and Environmental Document, and

WHEREAS, on February 3, 2009, by Resolution No. 2009-058, Council approved Cooperative Agreement No. 10-321 between the City of Modesto and Caltrans for the PS&E as one phase for the State Route 99/Pelandale Avenue Interchange Reconstruction Project, and

WHEREAS, an initial study with Mitigated Negative Declaration was prepared by the City's consultant and submitted to Caltrans for approval. This Document (SCH# 2009072012) was approved by Caltrans on September 28, 2009, and

WHEREAS, in December 2011, StanCOG adopted the 2012 Regional Transportation Improvement Program (STIP), which added \$4.336 million in right-of-way funds for FY 15/16 to the project ,and

WHEREAS, in early 2012, the City was informed that State Proposition 1B Saving Funds would be available in 2013 for construction of the State Route 99/Pelandale Avenue Interchange Reconstruction Project, and

WHEREAS, acquiring the “Carl’s Jr.” property (APN 135-029-022) in the timeframe necessary to accept the construction funds would not be achievable, and

WHEREAS, on May 17, 2012, a Supplemental Project Report #2 was issued indicating the right-of-way requirements for Phase 1 of the project are less than the necessary project right-of-way described in the December 2009 approved Project Report, and

WHEREAS, acquisition of the “Carl’s Jr.” property was deferred to a later date and STIP funds were reprogrammed by StanCOG to FY 16/17, and

WHEREAS, in June 2016, the \$4.336 million in Right-of-Way funds were programmed out by StanCOG from FY 16/17 to FY 17/18 due to a negative STIP fund balance, and

WHEREAS, on October 19, 2017, the California Transportation Commission approved \$4,336,000 of the STIP funds to complete right-of-way acquisition for the Project’s second phase, and

WHEREAS, this Cooperative Agreement for PS&E is required by Caltrans and formalizes the City’s Lead Agency status and outlines the agreement between the agencies for the Project’s second phase.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the Cooperative Agreement with Caltrans for the preparation of PS&E for the State Route 99/Pelandale Avenue Interchange Reconstruction – Phase 2 project.

BE IT FURTHER RESOLVED, that the City Manager, or his designee, is hereby authorized to execute the Agreement, in a form approved by the City Attorney.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 12th day of March, 2019, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Grewal, was upon roll call carried and the resolution adopted by the following vote:

WHEREAS, acquisition of the “Carl’s Jr.” property was deferred to a later date and STIP funds were reprogrammed by StanCOG to FY 16/17, and

WHEREAS, in June 2016, the \$4.336 million in right-of-way funds were programmed out by StanCOG from FY 16/17 to FY 17/18 due to a negative STIP fund balance, and

WHEREAS, on October 19, 2017, the California Transportation Commission approved \$4,336,000 of the STIP funds to complete right-of-way acquisition for the project’s second phase, and

WHEREAS, authorization to proceed (E-76) from Caltrans is needed for expenditure of STIP funds, and

WHEREAS, amending the Fiscal Year 2018/19 Capital Improvement Program Budget for project #101063 in the amount of \$4,336,000 for State Route 99/Pelandale Avenue Interchange Reconstruction - Phase 2 project upon receipt of authorization to proceed (E-76) from Caltrans is necessary.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves amending the Fiscal Year 2018/19 Capital Improvement Program Budget, project #101063 in the amount of \$4,336,000 for the State Route 99/Pelandale Avenue Interchange Reconstruction – Phase 2 project upon receipt of authorization to proceed (E-76) from Caltrans.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 12th day of March, 2019, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Grewal, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2019-117**

RESOLUTION APPROVING THE AGREEMENT WITH THE PUBLIC GROUP FOR AN ONLINE AUCTION SERVICE FOR A TWO-YEAR AGREEMENT WITH THREE ONE-YEAR EXTENSION OPTIONS, FOR AN ESTIMATED ANNUAL COST NOT TO EXCEED \$18,000 AND A TOTAL AMOUNT NOT TO EXCEED \$90,000 OVER FIVE YEARS; AND AUTHORIZING THE CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE THE AGREEMENT

WHEREAS, the City utilizes an online application for auctioning the City's obsolete, unused or surplus property items, and

WHEREAS, The Public Group's online application, which is called Public Surplus, is an online auction system that address the needs of public agencies. The agencies can use the Public Surplus system to organize, automate, and manage their entire surplus inventory operations which allows for significant returns from the sale of excess property while minimizing associated costs, and

WHEREAS, the Public Surplus system's capabilities include:

1. Helping agencies comply with state and local regulations and policies by automatically maintaining audit records
2. Ability to attract specialty buyers from across the United States
3. Allow for out of state sales due to new regulations regarding the sale of diesel-fueled vehicles

WHEREAS, The Public Group is the City's current vendor for online auction services since January 2007. Current agreement with Public Group will end on April 30, 2019, and

WHEREAS, in reviewing the competitive bidding process for the City of Tucson, they awarded a competitive Request for Proposal (RFP) for online auction services which resulted in the award of a contract to The Public Group, and

WHEREAS, Modesto Municipal Code authorizes entities to rely on terms that have already been competitively bid “piggybacking” in certain situations; based on the review of the bidding process for the City of Tucson, the City will “piggybacking” on their bid, and

WHEREAS, the Purchasing Manager has determined, pursuant to Section 8-3.204(d) of the MMC, that a process other than the formal bid procedure set forth in Section 8-3.203 will result in a procurement for the City at the lowest possible cost commensurate with the desired quality, and

WHEREAS, current estimated annual online auction services costs are approximately \$18,000 and vary each year depending on the number of items sold. There is a 5% surcharge fee payable only when items sell, and which is included as part of the overall cost to the buyer.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby authorizes an agreement with The Public Group LLC for a term of two-years with three one-year extension options, for an anticipated annual cost not to exceed \$18,000 and a total amount not to exceed \$90,000 over five years.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to execute the agreement, in a form approved by the City Attorney.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 12th day of March, 2019, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Grewal, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2019-118**

RESOLUTION APPROVING PURCHASE AGREEMENTS WITH VARIOUS VENDORS AS DEFINED UNDER ATTACHMENT A; APPROVING TERMINATION DATES FOR THE SERVICES STATED HEREIN; AND AUTHORIZING THE PURCHASING MANAGER, OR HER DESIGNEE, TO ISSUE THE IDENTIFIED ANNUAL PURCHASE AGREEMENTS TERMINATION DATES APPROVED BY COUNCIL

WHEREAS, on January 23, 2018, City staff presented to City Council the modification and extension request of various purchasing agreements which exceeded City Council's authority, and

WHEREAS, City staff has continued to work diligently in monitoring all purchasing agreements and towards implementing recommendations to establish improvements with the City's purchasing controls, and

WHEREAS, the Finance Department has implemented bi-monthly purchasing training to educate City Staff about the standards which govern the City's purchases, including the City's Charter, Municipal Code, and the implementation of Administrative Directive 7.5 Purchasing Policy, and

WHEREAS, the Finance Department has worked with the departments to address the backlog of competitive bids that need to be completed and have been working to strategize the best solution to ensure new agreements can be approved by the time existing agreements expire, and

WHEREAS, the Finance Department, via the Purchasing Division, has identified a number of agreements that require further time extensions of their termination dates (as shown in **Attachment A – Purchasing Agreement Extension Dates**), and

WHEREAS, the extension of these term dates for existing agreements will not alter the dollar amount of said agreements nor the terms and conditions of the agreements.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the purchasing agreements with various vendors as **attached**; and approves the term dates for the services stated herein.

BE IT FURTHER RESOLVED, that the Purchasing Manager, or her designee, is authorized to issue the identified Annual Purchase Agreements terms.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 12th day of March, 2019, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Grewal, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2019-119**

RESOLUTION APPROVING A SERVICE AGREEMENT WITH LOOMIS ARMORED US, LLC HOUSTON, TEXAS FOR ARMORED CAR TRANSPORT FOR A TWO-YEAR AGREEMENT WITH THREE ONE-YEAR EXTENSION OPTIONS, FOR AN ANNUAL COST NOT TO EXCEED \$48,000 FOR THE FIRST YEAR OF SERVICE, WITH ANNUAL INCREASES ESTIMATED AT TEN PERCENT OVER THE FIVE YEAR PERIOD, AND A TOTAL AMOUNT NOT TO EXCEED \$294,000 OVER FIVE YEARS; AND AUTHORIZING THE CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE THE AGREEMENT

WHEREAS, the City uses armored car transport to increase safety and lower risk of theft; this service eliminates City staff from making trips to the bank, lowers risk to both staff and customers of theft at various City facilities and to provide an economical way of getting cash deposits to the bank, and

WHEREAS, in December 2017, a bid authorization to issue a formal Request for Proposal (RFP) was approved and forwarded to the Purchasing Division, and

WHEREAS, on May 24, 2018, the Purchasing Division issued Request for Proposal (RFP) 1718-55 through PlanetBids with a proposal response due June 26, 2018, and

WHEREAS, no suppliers responded to the RFP; the Purchasing Division reached out to suppliers including the existing supplier, Loomis to understand why no response was made to the RFP, and

WHEREAS, the Purchasing Division negotiated a new Service Agreement with Loomis to provide armored car services with an initial term of two years with three one-year renewal options, and

WHEREAS, Modesto Municipal Code Section 8-3.203 generally requires all purchases, which meet or exceed \$50,000 for material, equipment or contractual services

to follow formal bid procedures; however, MMC 8-3.204(c) provides that a purchase may be exempted from the City's formal bidding requirement where the Purchasing Manager determines that calling for bids on a competitive basis is undesirable due to exigent circumstances; the City completed the formal bidding requirements but due to no response the City is moving forward with continuing services with the existing provider, Loomis Armored.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves a Service Agreement with Loomis Armored US, LLC Houston, Texas for armored car transport for a two-year agreement with three one-year extension options, for an annual cost not to exceed \$48,000 for the first year of service, with annual increases estimated at ten percent over the five year period, and a total amount not to exceed \$294,000 over five years.

BE IT FURTHER RESOLVED, that the City Manager, or his designee, is authorized to execute the agreement, in a form approved by the City Attorney.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 12th day of March, 2019, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Grewal, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2019-120**

RESOLUTION APPROVING A PURCHASING AGREEMENT WITH AVIATE ENTERPRISES, INC., MCCLELLAN, CA FOR THE PURCHASE OF A GENIE Z-30/20N RJ BOOM LIFT FOR A TOTAL COST NOT TO EXCEED \$60,817, AND AUTHORIZING THE PURCHASING MANAGER, OR HER DESIGNEE, TO EXECUTE THE AGREEMENT

WHEREAS, the City of Modesto Bus Maintenance Facility performs a variety of maintenance items required by the Federal Transit Administration (FTA) both inside and outside the facility, and

WHEREAS, the Bus Maintenance Facility currently does not have a boom lift to efficiently perform maintenance operations around the facility, and

WHEREAS, this boom lift will be utilized to maintain external lighting in the parking lots, and exterior of the facility; along with providing safe access to roof areas, solar panels, interior shop lighting, HVAC service, gutters, and security camera maintenance without the use of a ladder, and

WHEREAS, this unit was approved to support operational needs and is needed to avoid renting or outsourcing all maintenance activities, and

WHEREAS, this will also enhance the maintenance of the facility and keep it in superior condition and reducing operating costs in the future, and

WHEREAS, on October 9, 2018, the Purchasing Division issued RFB 1819-10 for the purchase of a boom lift on the City's website, and

WHEREAS, on November 13, 2018, bids were formally opened in the City Clerk's Office, with one company choosing to respond and providing a responsive and responsible bid, and

WHEREAS, sufficient funds for this unit are budgeted in the State of Good

Repair Grant awarded to the Transit Division (Fund No: 101022-PW.Transit Services-Vehicles>\$5,000-Appr.Unit C).

NOW THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the purchase agreement with Aviate Enterprises, Inc., McClellan, CA for the purchase of one Genie Z-30/20N RJ Boom Lift.

BE IT FURTHER RESOLVED, that the Purchasing Manager, or her designee, is authorized to issue a purchase order for a total cost not to exceed \$60,817.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 12th day of March, 2019, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Grewal, was upon roll call carried and the resolution adopted by the following vote:

EXECUTE THE AGREEMENT**

WHEREAS, a replacement forklift for the Traffic Operations Division will replace their current 1999 model, and will assist them with unloading supplies as part of their daily duties, and

WHEREAS, replacement units are essential in maintaining current operations, facilities, and/or services, and

WHEREAS, on December 27, 2018, the Purchasing Division issued RFB 1819-38 for the purchase of a 6,000 pound forklift, and

WHEREAS, on January 20, 2019, bids were formally opened in the City Clerk's Office and two companies chose to respond, providing responsive and responsible bids, and

WHEREAS, funds have been collected, approved and allocated in the budget adoption for Fiscal Year 2016-2017 in the Fleet Replacement Fund, and

WHEREAS, funding for this unit was collected through the Internal Service Fund for Surface Transportation Fund – Traffic Operations via straight-line depreciation over the life of the vehicles.

NOW THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the purchase of a replacement forklift from JM Equipment, Manteca, CA.

BE IT FURTHER RESOLVED, that the Purchasing Manager, or her designee, is

authorized to issue a purchase order for a total cost not to exceed \$36,982.

**RESOLUTION APPROVING AN AGREEMENT WITH GROUP SEVEN
LABORATORY SERVICES, STOCKTON, CA FOR LABORATORY TRAINING
SERVICES FOR THE ELAP TO TNI STANDARDS TRANSITION, IN THE
AMOUNT OF \$96,000, AND AUTHORIZING THE CITY MANAGER, OR HIS
DESIGNEE, TO EXECUTE THE AGREEMENT**

WHEREAS, the Utilities Department owns and operates the Water Quality Control Laboratory (WQC Lab), located at 1221 Sutter Avenue, and

WHEREAS, the WQC Lab analyzes compliance and investigative samples of water, wastewater and storm water for the City, and

WHEREAS, the WQC Lab is equipped for general physical, mineral, inorganic, bacteriological and biological testing, and

WHEREAS, California's Environmental Laboratory Accreditation Program (ELAP) recently added the requirement for all laboratories that were previously certified under ELAP to transition to the National Environmental Laboratory Accreditation Conference (NELAC) Institute standards, and

WHEREAS, the first draft of the new regulation was published in July of 2017 with a deadline for compliance of January 1, 2022, and

WHEREAS, the Utilities Department Water Division must be in compliance due to the State Water Resources Control Board Drinking Water Regulations and due to the existing partnership with MID for the purchase of surface water, MID must transition to NELAC Institute Standards requirements when testing drinking water that is supplied to the City of Modesto for our customers, and

WHEREAS, considering the specialized nature and specific requirements associated with the NELAC Institute (TNI) standards, consultant services are needed to

provide, train and assist the City and Modesto Irrigation District laboratory staff in understanding and interpreting the TNI standards for compliance, and

WHEREAS, in accordance with Modesto Municipal Code 8-3.204(a) Exceptions to Formal Bidding Requirements, this agreement is for professional services and, therefore, exempt from the bid requirement; However, May 22, 2018, staff issued a Request for Qualifications and Request for Proposal through PlanetBids for consultant services to provide training and transitional services from ELAP to TNI standards, and

WHEREAS, one Statement of Qualifications and Proposal was submitted by Group Seven Laboratory Services of Stockton, CA, and

WHEREAS, a selection committee comprised of Utilities Department Water and Wastewater staff, as well as Modesto Irrigation District laboratory staff, reviewed the qualification and proposal package and determined that Group Seven Laboratory Services were responsive and qualified to provide ELAP to TNI transitional services, update the existing quality manuals and standard operating procedures in a TNI compliant format and assist with the implementation of TNI policies, practices and procedures.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves an agreement with Group Seven Laboratory Services, Stockton, CA for Laboratory Training Services for the ELAP to TNI Standards Transition in an amount not to exceed \$96,000.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to execute the agreement, in a form approved by the City Attorney.

RESOLUTION NO. 2019-123**

RESOLUTION APPROVING THE PLANS AND SPECIFICATIONS FOR THE WELL 72 (REPLACING WELL 229) PROJECT, ACCEPTING THE BID, AND AWARDING A CONSTRUCTION CONTRACT TO NOR-CAL PUMP & WELL DRILLING, INC., OF YUBA CITY, CA IN THE AMOUNT OF 556,906, AND AUTHORIZING THE CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE THE CONTRACT

WHEREAS, specifications have been prepared for the Well 72 (Replacing Well 229) Project, and

WHEREAS, the five bids received for the Well 72 (Replacing Well 229) Project were opened at 11:00 a.m. on November 13, 2018 pursuant to Modesto Municipal Code section 8-3.403 and Charter section 1307, and

WHEREAS, the Director of Utilities has recommended that the bid of \$556,906 received from Nor-Cal Pump & Well Drilling, Inc., be accepted as the lowest responsible and responsive bid and the contract be awarded to Nor-Cal Pump & Well Drilling, Inc.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the plans and specifications for the Well 72 (Replacing Well 229) Project, accepts the bid of \$556,906 and awards Nor-Cal Pump & Well Drilling, Inc., of Yuba City, CA, the contract for the Well 72 (Replacing Well 229) Project.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to execute the contract, in a form approved by the City Attorney.

**MODESTO CITY COUNCIL
RESOLUTION NO. 2019-124**

RESOLUTION APPROVING AN AGREEMENT WITH WEST YOST ASSOCIATES, PLEASANTON, CA FOR HYDROGEOLOGICAL AND ENGINEERING DESIGN SERVICES DURING CONSTRUCTION FOR THE WELL 72 (REPLACING WELL 229) PROJECT, IN AN AMOUNT NOT TO EXCEED \$209,800 FOR THE IDENTIFIED SCOPE OF SERVICES, PLUS \$20,980 FOR ADDITIONAL SERVICES (IF NEEDED), FOR AN AMOUNT NOT TO EXCEED \$230,780, AND AUTHORIZING THE CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE THE AGREEMENT

WHEREAS, City Well 229 is strategically important to the City's water supply infrastructure, and

WHEREAS, the drilling method used originally in 1950 was not able to isolate specific water layers allowing contaminants to travel into the pumped water source, and

WHEREAS, a new, deeper replacement well, built to current well construction standards is proposed to be drilled on the existing site, and

WHEREAS, during the bidding of Well 229, staff was informed by the Department of Water Resources that well number 229 could not be re-used; Therefore, the project became Well 72 (Replacing Well 229), and

WHEREAS, given the unique and specialized expertise required for design of municipal wells, and consideration of the amount of work that was previously completed satisfactorily, the Utilities Director determined to have final subsurface design services provided by West Yost Associates, and

WHEREAS, it was determined that it was both fiscally and efficiently prudent to move forward with an agreement for Hydrogeological and Engineering Services During Construction with West Yost Associates, and

WHEREAS, in accordance with Modesto Municipal Code 8-3.204(a), "Exceptions to Formal Bidding Requirements," this agreement for professional services

is exempt from the bidding requirements of Modesto Municipal Code 8-3.203. However, the consultant was selected through the review processes outlined in the City's Administrative Directive 3.1.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves an agreement with West Yost Associates, Pleasanton, CA for Hydrogeological and Engineering Design Services During Construction for the Well 72 (Replacing Well 229) Project in an amount not to exceed \$209,800, for the identified scope of services, plus \$20,980 for additional services, if needed, for an amount not to exceed \$230,780.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to execute the agreement, in a form approved by the City Attorney.

**RESOLUTION AUTHORIZING AN INCREASE IN THE DIRECTOR'S
AUTHORITY TO ISSUE CHANGE ORDERS FOR THE WELL 72 (REPLACING
WELL 229) PROJECT FROM 10 PERCENT (\$55,691) TO 25 PERCENT
(\$139,227) OF THE CONSTRUCTION CONTRACT AMOUNT**

WHEREAS, on March 12, 2019, the City Council is concurrently awarding a \$556,906 contract to Nor-Cal Pump & Well Drilling, Inc., of Yuba City, CA for the construction of the Well 72 (Replacing Well 229) Project, and

WHEREAS, given the nature of the project, additional work may be needed to address unexpected conditions that require changes in project scope, and

WHEREAS, the additional costs may exceed the Director's authority for the project as established by the Council's Change Order Approval Policy adopted by Resolution No. 94-443.

NOW, THEREFORE BE IT RESOLVED by the Council of the City of Modesto that it hereby authorizes the Director of Utilities to issue change orders for the Well 72 (Replacing Well 229) Project from 10 percent (\$55,691) to 25 percent (\$139,227) of the construction contract price of \$556,906 with Nor-Cal Pump & Well Drilling, Inc., of Yuba City, CA.

**MODESTO CITY COUNCIL
RESOLUTION NO. 2019-127**

**RESOLUTION APPROVING AMENDMENT #2 TO THE CITY OF MODESTO
PROGRAM YEAR 2018-2019 ANNUAL ACTION PLAN, AND AUTHORIZING
THE CITY MANAGER, OR HIS DESIGNEE, TO TAKE THE NECESSARY
STEPS TO IMPLEMENT THE PROVISIONS OF THIS RESOLUTION**

WHEREAS, as a U.S. Department of Housing and Urban Development (HUD) entitlement community, the City of Modesto is required to develop an Annual Action Plan that describes proposed activities funded with Community Development Block Grant (CDBG), HOME Investment Partnerships (HOME), and Emergency Solutions Grant (ESG) funds, and

WHEREAS, the City of Modesto is required to develop an amendment to the Annual Action Plan when it makes changes to its planned or actual activities funded with Community Development Block Grant (CDBG), HOME Investment Partnerships (HOME), and Emergency Solutions Grant (ESG) funds, and

WHEREAS, an amendment to an Annual Action Plan describes the proposed changes and planned activities to address the needs and priorities established in the Consolidated Plan, and

WHEREAS, the City of Modesto is conducting an Amendment #2 to the Program Year 2018-2019 Annual Action Plan, and

WHEREAS, the purpose of Amendment #2 to the City of Modesto's Program Year 2018-2019 Annual Action is to address the U.S. Department of Housing and Urban Development (HUD) Department's reduction of the City of Modesto 2018-2019 Community Development Block Grant allocation, and

WHEREAS, the CDBG Program has a timely expenditure requirement per 24 CFR 570.902, where at 60 days prior to the end of the program year, the grantee may only have a balance of 1.5 times their annual allocation, and

WHEREAS, the City had an excess of \$385,135 on May 2, 2018 when HUD reviewed the balance, and

WHEREAS, therefore the 2018-2019 CDBG grant allocation was reduced from \$2,003,752 to \$1,618,617 which reflects a reduction of \$385,135, and

WHEREAS, a proposed amendment must be made available for public review through which the public is provided an opportunity to comment for a minimum of 30 days, and

WHEREAS, staff held eight community meetings as part of the Amendment #2 Citizen Participation process, and

WHEREAS, a 30-day public period to review and comment on the draft Amendment #2 opened February 9, 2019 and will close with a public hearing at the City Council meeting on March 12, 2019, and

WHEREAS, any comments received during the public review period or during the March 12, 2019, City Council meeting will be incorporated into the Amendment #2 to the Program Year 2018-2019 Annual Action Plan that is submitted to HUD, and

WHEREAS, there is no impact to the General Fund and Amendment #2 will address HUD's entitlement funding reduction to the CDBG program and allocate program income and revolving loan funds throughout several Annual Action Plan activities, and

WHEREAS, on February 14, 2019, the City's Citizens Housing and Community Development Committee recommended forwarding Amendment # 2 to the Program Year 2018-2019 Annual Action Plan to the City Council for consideration and approval.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves Amendment #2 to City of Modesto Program Year 2018-2019 Annual Action Plan.

BE IT FURTHER RESOLVED by the Council of the City of Modesto that the City Manager or his designee, is hereby authorized to take the necessary steps to implement the provisions of this resolution.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 12th day of March, 2019, by Councilmember Madrigal, who moved its adoption, which motion being duly seconded by Councilmember Ah You, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2019-128**

RESOLUTION AMENDING THE FISCAL YEAR 2018-2019 OPERATING, CAPITAL AND MULTI-YEAR PROJECT BUDGETS TO RE-ALLOCATE COMMUNITY DEVELOPMENT BLOCK GRANT FUNDS AS PROPOSED IN THE PROGRAM YEAR 2018-2019 ANNUAL ACTION PLAN AMENDMENT #2 AND AUTHORIZING THE CITY MANAGER, OR HIS DESIGNEE, TO TAKE THE NECESSARY STEPS TO IMPLEMENT THE PROVISIONS OF THIS RESOLUTION

WHEREAS, the City of Modesto receives annual entitlements from HUD based on its population size, number of households living below poverty level and number of sub-standard housing units, and

WHEREAS, on June 12, 2018, by Resolution 2018-238, City Council approved the Program Year 2018 Annual Action Plan, and

WHEREAS, on October 9, 2018, by Resolution 2018-455, City Council approved Amendment I to the Program Year 2018 Annual Action Plan, and

WHEREAS, certain budgetary transactions are necessary to reallocate funds during the course of the Consolidated Plan cycle when there is a change in allocation priorities, or method of distribution, carrying out new activities with CPD funds, change in purpose, scope, location or beneficiaries of an activity, and

WHEREAS, the Fiscal year 2018-19 budget must be amended as shown in **Exhibit A**, which is incorporated by reference herein to reflect an approved reallocation of funds as set forth in the Integrated Disbursement and Information System (IDIS) reporting system, and

WHEREAS, a new Multi-Year Project 101163 is being established for Acquisition activities with Revolving Loan Funds in the amount of \$443,629.

NOW, THEREFORE, BE IT RESOLVED, that the Council of the City of

Modesto that it hereby approves the amendment of the Fiscal year 2018-19 Budget as shown in **Exhibit A attached** hereto.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to implement the provision of this resolution.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 12th day of March, 2019, by Councilmember Madrigal, who moved its adoption, which motion being duly seconded by Councilmember Ah You, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION NO. 2019-129**

**RESOLUTION ACCEPTING THE RESIGNATION OF RICHARD DANIELS
FROM THE CITY OF MODESTO'S CITIZENS' HOUSING AND COMMUNITY
DEVELOPMENT COMMITTEE**

WHEREAS, the Citizens' Housing and Community Development Committee was established to make policy and funding recommendations regarding the Community Development Block Grant, Emergency Solutions Grant, and HOME Investment Partnership Grant programs; and

WHEREAS, on May 2, 2017, by Resolution No. 2017-163, Richard Daniels was appointed to the City of Modesto's Citizens' Housing and Community Development Committee; and

WHEREAS, Mr. Daniels submitted his resignation on December 11, 2018 as he will no longer be able to serve on the committee due to personal reasons.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto accepts the resignation of Richard Daniels from the City of Modesto's Citizens' Housing and Community Development Committee.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 2nd day of April, 2019, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Grewal, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2019-131**

RESOLUTION APPROVING THE AWARD OF BID AND PURCHASING AGREEMENT FOR CLEAN UP OR BOARD UP OF NUISANCE AND UNSAFE PROPERTIES TO SCOTT REDDENBAUGH CONSTRUCTION OF MODESTO, CALIFORNIA FOR A TWO YEAR AGREEMENT WITH THREE ONE-YEAR EXTENSION OPTIONS FOR AN ANNUAL AMOUNT NOT TO EXCEED \$40,000 AND A TOTAL NOT TO EXCEED \$200,000 OVER FIVE YEARS, AND AUTHORIZING THE PURCHASING MANAGER, OR HER DESIGNEE TO EXECUTE THE AGREEMENT

WHEREAS, in January 2018 the City Manager authorized the issuance of a request for bids (RFB 1819-13) for the labor and materials to complete clean ups and board ups of nuisance and unsafe properties, and

WHEREAS, bids were publicly opened on January 10, 2018 pursuant to Modesto Municipal Code Section 8-3.403 and Modesto Charter Section 1307 and two responsive bids were received, and

WHEREAS, Scott Reddenbaugh Construction of Modesto, California, is the lowest responsive and responsible bidder, and

WHEREAS, the Director of Community and Economic Development has recommended that the agreement for clean ups and board ups of nuisance and unsafe properties be awarded to Scott Reddenbaugh Construction as the lowest responsible and responsive bid, and

WHEREAS, Modesto Municipal Code Section 8-3.203 generally requires all purchases, which meet or exceed \$50,000 for material, equipment or contractual services to follow the formal bid procedures. An award of bid and agreement for clean-up and board-ups of nuisance properties for the Community and Economic Development Department use to Scott Reddenbaugh, Construction, Modesto, CA, conforms to the

Modesto Municipal Code because the City complied with the formal bid procedures and Scott Reddenbaugh Construction was the lowest responsive and responsible bidder.

NOW, THEREFORE BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the scope of work, accepts the bid, and awards the two-year agreement to Scott Reddenbaugh Construction of Modesto, California in the amount not to exceed \$40,000 per year for two years with three one-year extensions, total amount not to exceed \$200,000, for clean ups and board ups of nuisance and unsafe properties.

BE IT FURTHER RESOLVED that the Purchasing Manager, or his designee, is hereby authorized to execute the agreement in a form approved by the City Attorney.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 2nd day of April, 2019, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Zoslocki, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2019-132**

RESOLUTION ACCEPTING THE PUBLIC IMPROVEMENTS FOR HILLGLEN ROSELLE SUBDIVISION, LOCATED IN VILLAGE ONE AT THE SOUTH-EAST CORNER OF THE INTERSECTION OF HILLGLEN AVENUE AND ROSELLE AVENUE, AUTHORIZING THE CITY CLERK TO FILE A NOTICE OF COMPLETION WITH THE STANISLAUS COUNTY RECORDER'S OFFICE, AND TO RELEASE SECURITIES UPON EXPIRATION OF STATUTORY PERIODS

WHEREAS, Modesto Roselle, LLC, a California limited liability company (“SUBDIVIDER”), is the subdivider of a tract of land consisting of 8.39 acres, being subdivided into 43 residential lots and 2 landscaping lots known as the HILLGLEN ROSELLE SUBDIVISION (“SUBDIVISION”), and

WHEREAS, the City Engineer has verified that all required Public Improvements for this project have been satisfactorily completed and all inspection fees have been paid, and

WHEREAS, City crews will assume maintenance responsibilities upon acceptance of the Public Improvements, which includes: water main, sanitary sewer main, storm drainage facilities, landscape and irrigation, street trees, sidewalk and ADA ramps, streets, curbs and gutters, and street lights, and

WHEREAS, pursuant to the Subdivision Agreement, SUBDIVIDER has filed a Faithful Performance Bond in the amount of \$1,559,525 for SUBDIVISION, and

WHEREAS, pursuant to the Subdivision Agreement, SUBDIVIDER has filed a Payment Bond in the amount of \$1,559,525 for SUBDIVISION, and

WHEREAS, pursuant to the Subdivision Agreement, SUBDIVIDER has filed a Warranty Bond in the amount of \$155,952.50 for SUBDIVISION, and

WHEREAS, the developer has requested that the improvements be accepted and the Bonds be released, and

WHEREAS, the City Engineer has indicated that it would be in order for the City Council to accept said Public Improvements as complete and has certified that the work covered has been satisfactorily completed.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto as follows:

1. The said Public Improvements constructed by the SUBDIVIDER are hereby accepted, and the City Clerk is hereby authorized to file a Notice of Completion.
2. The City Clerk is hereby authorized to release the Subdivision Faithful Performance Bond in the amount of \$1,559,525 for SUBDIVISION, upon recordation of the Notice of Completion.
3. The City Clerk is hereby authorized to release the Payment Bond in the amount of \$1,559,525 for SUBDIVISION, sixty (60) days after recordation of the Notice of Completion, provided no claim is made thereon.
4. The City Clerk is hereby authorized to release the Warranty Bond in the amount of \$155,952.50 for SUBDIVISION one year and one day after the effective date of this resolution, provided no claim is made thereon.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 2nd day of April, 2019, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Zoslocki, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2019-133**

RESOLUTION APPROVING A FIFTH AMENDMENT TO THE AGREEMENT WITH DOKKEN ENGINEERING FOR THE PREPARATION OF THE PLANS, SPECIFICATIONS, AND ESTIMATES AND RIGHT OF WAY ACQUISITION FOR THE STATE ROUTE 99/PELANDALE AVENUE INTERCHANGE RECONSTRUCTION PROJECT PHASE 2 PROJECT TO INCREASE THE EXISTING AGREEMENT BY \$181,495 FOR A TOTAL AGREEMENT AMOUNT OF \$3,550,327, AND AUTHORIZING THE CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE THE FIFTH AMENDMENT

WHEREAS, the State Route 99 / Pelandale Avenue Interchange Reconstruction Project is a project to increase safety, relieve congestion, and enhance traffic operations within the Interchange and along the adjacent streets, and

WHEREAS, on March 9, 2010, by Resolution No. 2010-90, Council approved an agreement with Dokken Engineering to prepare the plans, specifications, and estimate (PS&E) for the State Route 99/Pelandale Avenue Interchange Reconstruction Project in an amount not to exceed \$3,011,832, and

WHEREAS, on February 22, 2011, by Resolution No. 2011-045, Council approved the first amendment to the agreement with Dokken Engineering to amend contract language per Caltrans request and revise Dokken's contract to a cost-plus-fixed-fee Agreement with no change in compensation, and

WHEREAS, on September 14, 2011, City Manager approved the second amendment to the agreement with Dokken Engineering to incorporate a post award audit clause to the agreement with no change in compensation, and

WHEREAS, on February 14, 2012, by Resolution No. 2012-63, Council approved the third amendment to the agreement with Dokken Engineering to incorporate right-of-

way engineering and land acquisition services for the State Route 99/Pelandale Avenue Interchange Reconstruction Project in an amount not to exceed \$338,000, and

WHEREAS, in late 2012, the City was informed that State Proposition 1B saving funds would be available in 2013 for construction of the State Route 99/Pelandale Avenue Interchange Reconstruction Project, and

WHEREAS, acquiring the “Carl’s Jr.” property (APN 135-029-022) in the timeframe necessary to accept the construction funds would not be achievable, the project was forced to split into two phases, and

WHEREAS, on January 22, 2013, by Resolution No. 2013-40, Council approved the fourth amendment to the agreement with Dokken Engineering to exclude the acquisition of the “Carl’s Jr.” property (APN 135-029-022) from the project’s first phase in an amount not to exceed \$64,000, and

WHEREAS, the Fourth Amendment to the Agreement reflected a credit of \$45,000, although Resolution No. 2013-40 did not. The amount of \$64,000 excludes the remaining contract credited amount of \$45,000, for an net increase of \$19,000 and a total contract amount of \$3,368,832, and

WHEREAS, on October 19, 2017, the California Transportation Commission approved \$4,336,000.00 of the State’s Transportation Improvement Program funds to complete the right-of-way acquisition phase for the second phase of the project.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the Fifth Amendment to the Agreement with Dokken Engineering for land acquisition services and preparation of the Plans, Specifications, and Estimates

for the second phase of the State Route 99/Pelandale Avenue Interchange Reconstruction Project to increase the existing agreement by \$181,495 for a total agreement amount of \$3,550,327.

BE IT FURTHER RESOLVED, that the City Manager, or his designee, is hereby authorized to execute the Fifth Amendment to the Agreement, in a form approved by the City Attorney.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 2nd day of April, 2019, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Zoslocki, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION NO. 2019-134**

RESOLUTION APPROVING THE PURCHASE OF 60 SAMSUNG GALAXY TABLETS INCLUDING A ONE-YEAR DATA PLAN WITH AT&T IN ASSOCIATION WITH THE USE OF THE COMPUTERIZED MAINTENANCE MANAGEMENT SYSTEMS FROM LUCITY, INC., OVERLAND PARK, KS FOR THE UTILITIES DEPARTMENT WATER DIVISION IN THE AMOUNT OF \$73,496, AND AUTHORIZING THE PURCHASING MANAGER, OR HER DESIGNEE, TO EXECUTE THE PURCHASE ORDER

WHEREAS, on January 12, 2016 by Resolution 2016-08, Council approved an agreement with Lucity Inc. for the purchase and implementation of a Computerized Maintenance Management System (CMMS) for the Utilities Department, and

WHEREAS, in March 2017 the implementation of the Lucity CMMS was completed and included the use of Lucity Mobile which provides crews within the Utilities Department the ability to receive, create, and complete work orders in real time at the work locations, and

WHEREAS, at the time of the software purchase, the Utilities Department was still working with the Information Technology Department to determine the type of tablet that would work best with the Lucity software, and

WHEREAS, after thorough specification review and testing it was determined that a windows-based tablet would be more efficient and effective for use with the software, especially for employees in the field, and that a data plan would be required to accompany the purchase of tablets for said employees, and

WHEREAS, the final specifications led to the selection of the Samsung Galaxy tablets, and

WHEREAS, the analysis performed in coordination with the Utilities Department and the Information Technology Department has determined that 60 Samsung Galaxy

Tablets along with the required data plan from AT&T for one year are necessary to make use of the mobile features of the Lucity CMMS.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the purchase of 60 Samsung Galaxy Tablets including a one-year data plan with AT&T in association with the use of the Computerized Maintenance Management Systems from Lucity, Inc., Overland Park, KS for the Utilities Department Water Division in the amount of \$73,496.

BE IT FURTHER RESOLVED, the Purchasing Manager, or her designee, is hereby authorized to execute the purchase order.

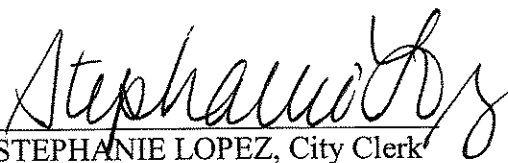

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 2nd day of April, 2019, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Zoslocki, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2019-135**

RESOLUTION APPROVING AN AMENDMENT TO THE PURCHASING AGREEMENT WITH ALL SEASON LAWN LANDSCAPING FOR LAWN MAINTENANCE SERVICES FOR WATER WELLS AND TANK SITES TO INCREASE THE COSTS IN THE FIRST YEAR BY AN AMOUNT OF \$5,200 AND \$10,400 FOR YEARS TWO THROUGH FIVE FOR A TOTAL FIVE-YEAR INCREASE AMOUNT NOT TO EXCEED \$46,800 AND THE REVISED TOTAL AMOUNT OF THE AGREEMENT NOT TO EXCEED \$357,671 OVER FIVE YEARS; AND AUTHORIZING THE PURCHASING MANAGER, OR HER DESIGNEE, TO EXECUTE THE AMENDMENT

WHEREAS, on April 4, 2018, the Purchasing Division issued RFB 1718-49 for lawn maintenance services for water wells and tanks under commodity codes for landscape architecture, grounds maintenance, mowing, edging plant trimming, tree trimming and pruning services, and

WHEREAS, on June 26, 2018, by Resolution No. 2018-263, Council approved an agreement with All Season Lawn Landscaping for an annual cost not to exceed \$38,327 in Year One, \$63,828 in Year Two, with three additional sites and services added, and a total amount not to exceed \$310,871 over five years, and

WHEREAS, Council's approval of the lawn maintenance agreement with All Season Lawn Landscaping, the supplier has recommended that additional sites be treated with pre-emergent to control weeds; by not applying pre-emergent, well and tank sites will require the use of a larger amount of herbicide as well as additional man hours which could increase the agreement cost significantly for future years.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves an amendment to the Purchasing agreement with All Season Lawn Landscaping for lawn maintenance services for water wells and tank sites to increase the costs in the first year by an amount of \$5,200 and \$10,400 for years two

through five for a total five-year increase amount not to exceed \$46,800 and the revised total amount of the agreement not to exceed \$357,671 over five years.

BE IT FURTHER RESOLVED, the Purchasing Manager, or her designee, is hereby authorized to execute the amendment.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 2nd day of April, 2019, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Zoslocki, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION NO. 2019-136**

RESOLUTION AMENDING THE POSITION ALLOCATION PLAN TO RECLASSIFY ONE ENVIRONMENTAL REVIEW SPECIALIST TO ONE HOUSING REHABILITATION SUPERVISOR IN THE COMMUNITY AND ECONOMIC DEVELOPMENT DEPARTMENT AND ELEVEN POLICE DETECTIVES TO ELEVEN POLICE OFFICERS IN THE POLICE DEPARTMENT

WHEREAS, a Position Allocation for the City of Modesto was adopted by Modesto City Council on July 10, 2018, by Resolution No. 2018-283, and

WHEREAS, classification studies are conducted to ensure that a classification system is equitable and consistent within an organization and that positions are correctly classified, and

WHEREAS, per Personnel Administrative Order 2.2-87-12, a classification study may be conducted in response to a reclassification request, to develop/revise a classification specification, or to assist in a reorganization, and

WHEREAS, classification studies were conducted by Human Resources to determine appropriate classification, and

WHEREAS, position changes will be effective the pay period in which April 2, 2019 falls, (Pay Period beginning April 2, 2019).

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves amending the Position Allocation Plan for Fiscal Year 2018-19 for various departments as follows:

1. Reallocate one (1) Environmental Review Specialist in the Community and Economic Development Department to one (1) Housing Rehabilitation Supervisor in the Community and Economic Development Department.

2. Reallocate eleven (11) Police Detectives in the Modesto Police Department to eleven (11) Police Officers in the Modesto Police Department.

WHEREAS, 33 half-ton trucks with various configurations will be used by various departments, and

WHEREAS, 23 trucks are replacement units and have been evaluated based on their age, condition, mileage and maintenance costs, and

WHEREAS, every year a Fleet Replacement List is submitted to Council and is approved as part of the new fiscal year's Fleet Replacement budget, and

WHEREAS, the addition of ten new units are for various departments and were approved by the City Manager and City Council with the adopted Fiscal Years 2016-2017, 2017-2018, 2018-2019, and

WHEREAS, the City Manager authorized the Purchasing Manager to issue formal Request for Bids (RFB) for new vehicles and heavy equipment through various competitive processes, and

WHEREAS, on December 12, 2018, the Purchasing Division used RFB 1819-29 for the purchase of 32 half-ton pickup trucks with various configurations on the City's website under commodity codes for automotive vehicles and related transportation equipment, automobiles, and automobile and other passenger vehicles maintenance and repair, automobiles and other passenger vehicles and trucks, and

WHEREAS, prospective bidders were notified online of the bid opportunity and 17 companies chose to download the RFB document, and

WHEREAS, on January 22, 2019, bids were formally opened in the City Clerk's office and four companies chose to respond, none were local vendors and all four companies provided responsive and responsible bids, and

WHEREAS, the award of bid and agreement for the purchase of 33 – 2019 half-ton pickup trucks with various configurations, to Big Valley Ford, Stockton, CA conforms to the Modesto Municipal Code because the City complied with the formal bid procedures and Big Valley Ford, Stockton, CA was the lowest responsive and responsible bidder, and

WHEREAS, sufficient funds for 23 half-ton pickup trucks with various configurations are budgeted in Fiscal Year's 2016-2017, 2017-2018, 2018-2019 in the Fleet Replacement fund, in account 5409-53246-57003, and

WHEREAS, sufficient funds for ten new additions are budgeted in Fiscal Year's 2016-2017, 2017-2018, 2018-2019 in the following accounts: (two) 0100-14220-57003, (one) 4100-45010-57003, (three) 4100-45065-57003, (three) 4210-44312-57003 and (one) 1700-53540-57003.

NOW THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the award of bid for the purchase of 33 - 2019 half-ton pickup trucks with various configurations to Big Valley Ford, Stockton, CA.

BE IT FURTHER RESOLVED, that the Purchasing Manager, or her designee, is authorized to issue a purchase order for a total cost not to exceed \$965,695.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 2nd day of April, 2019, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Zoslocki, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2019-138**

RESOLUTION APPROVING THE AWARD OF BID FOR THE PURCHASE OF SIX FORD POLICE INTERCEPTOR AWD UTILITY VEHICLES AND ONE FORD RESPONDER SUPERCREW 4X4 TO BIG VALLEY FORD, STOCKTON, CA, FOR A TOTAL COST NOT TO EXCEED \$285,172, AND AUTHORIZING THE PURCHASING MANAGER, OR HER DESIGNEE TO ISSUE THE PURCHASE ORDER

WHEREAS, six police Interceptor All Wheel Drive (AWD) utility vehicles and one Ford Police Responder Supercrew 4x4 are replacement units and will be used by the Modesto Police Department, and

WHEREAS, these units will replace various police patrol vehicles that will reach their mileage cap of 125,000 miles during this fiscal year and will replace units that have been involved in a collision and considered a total loss, and

WHEREAS, the City Manager authorized the Purchasing Manager to issue formal Request for Bids (RFB) for new vehicles and heavy equipment through various competitive processes, and

WHEREAS, on December 5, 2018, the Purchasing Division issued RFB 1819-27 for the purchase and delivery of six Ford Police Interceptor AWD utility vehicles and one Ford Police Responder Supercrew 4x4 pick-up on the City's website under the commodity codes for automotive vehicles and related transportation equipment, automobiles and automobile and other passenger vehicles repair and maintenance, and

WHEREAS, on January 15, 2019, bids were formally opened in the City Clerk's Office, and two companies chose to respond, both provided a responsive and responsible bid, and

WHEREAS, based on providing the overall lowest responsive and responsible

bid, staff recommends the award of bid for the purchase of six Police Interceptor AWD utility vehicles and one Ford Police Responder Supercrew 4x4 pick-up to Big Valley Ford, Stockton, CA for a total cost of \$285,170, and

WHEREAS, six of these vehicles will be standard black and white patrol vehicles at a cost of \$37,589 per unit before taxes and fees, and one black and white Supercrew 4x4 pick-up at a cost of \$38,762 before taxes and fees will be for the Modesto Police Department, and

WHEREAS, sufficient funds for six Ford Police Interceptor AWD utility vehicles and one Ford Responder Supercrew 4x4 pick-up have been encumbered in the Fleet Replacement Fund: 5409-53246-57003.

NOW THEREFORE, BE IT RESOLVED, by the Council of the City of Modesto that it hereby approves the award of bid for the purchase of six Ford Police Interceptor AWD utility vehicles and one Ford Responder Supercrew 4x4 to Big Valley Ford, Stockton, CA.

BE IT FURTHER RESOLVED, that the Purchasing Manager, or her designee, is authorized to issue a purchase order for an estimated total cost of \$285,172.

**MODESTO CITY COUNCIL
RESOLUTION NO. 2019-140**

RESOLUTION APPROVING A COMPOST FACILITY FLEXIBLE SALES PRICING PILOT PROGRAM TO BECOME EFFECTIVE APRIL 15, 2019, FOR A ONE-YEAR TRIAL PERIOD, WHEREIN THE INTEGRATED WASTE PROGRAM MANAGER WOULD BE ABLE TO ADVERTISE AND OFFER DISCOUNTED PRICING SUCH AS SEASON OR OVERSUPPLY SPECIALS OF UP TO 50% OFF OF THE COMPOST PRODUCT FOR SALE

WHEREAS, the City of Modesto Compost Facility began operation in January 1997 due to the City's waste being comprised of a high level of compostable materials and the City being designated as a City of Trees, and the Compost Facility would provide a way for the City to handle its own greenwaste and forestry materials, and

WHEREAS, the City also rolled out a two-can residential garbage and recycling collection program which provided a green can for all residential waste, and

WHEREAS, over time that green can functionality has expanded to include all yard waste, paper waste and food waste, and

WHEREAS, the Compost Facility's primary and state mandated purpose is to process the City's diverted yard waste, paper waste, and food waste materials into a reusable soil amendment, this keeping materials from the landfill and lowering our disposal rate, and

WHEREAS, compost is also donated to community gardens and landscape projects, parks, schools, churches, and for use in our own City projects, and

WHEREAS, annually the Facility receives approximately 65,000 tons of raw compostable waste materials and processes it into about 35,000 tons of compost, and

WHEREAS, in Fiscal Year 2017-2018 SCS Engineers, Inc. was hired to conduct a comprehensive review of the City's solid waste system, including the compost facility and its operations, and

WHEREAS, one of the findings discussed the changes in state law that made organic recycling and composting mandatory, and the demands that would have on the facility operationally and financially, but there was no discussion on what the impacts of the new influx of materials would be, or what would happen to the quality of the compost or the market conditions, and

WHEREAS, AB1826 and SB1383 mandate organics recycling resulting in a 75% diversion of organics materials out of landfills and into composting facilities, yet there are no laws mandating the public or private sectors purchase the finished product back, and

WHEREAS, the new supply of material is estimated to be over 20 million tons annually which creates an overabundance of product inventory statewide and the competition makes pricing and materials quality key factors for moving the project, and

WHEREAS, the new supply of incoming organics material is heavily contaminated with glass, plastics, and trash, and

WHEREAS, an increase in public education and enforcement will help over time, but expensive machinery and labor intensive efforts are needed long term to separate out the contamination, and

WHEREAS, due to the contamination levels, compost sales have dropped by 40% and created an oversupply of product at the facility and storing the material can lead to permit violations, and

WHEREAS, this product needs to be moved in order to continue processing incoming material, and while some of the product can be spread on City land, due to the glass it is not feasible to use it in City parks or sports fields, and nut farmers have even diminished their use of the product, and

WHEREAS, in July 2018, by Resolution No. 2018-240, Council approved the pricing for compost product sales with an annual Consumer Price Index (CPI) adjustment each year, however in order to move product so we can continue to process material, staff is requesting a flexible pricing pilot program for one year to help with the oversupply of product, and

WHEREAS, under the flexible pricing pilot program, the Integrated Waste Program Manager would be able to advertise and offer discounted pricing such as seasonal or oversupply specials up to 50% off the product as necessary to make room on the site and stay in compliance with state law, and

WHEREAS, the compost budget includes revenues from compost sales and all revenue generated as a result of the flexible pricing would help to balance the Compost Fund budget.

NOW, THEREFORE, BE IT RESOLVED, by the Council of the City of Modesto that it hereby approves a Compost Facility Flexible Sales Pricing Pilot Program to become effective April 15, 2019, for a one-year trial period, wherein the Integrated Waste Program Manager would be able to advertise and offer discounted pricing such as seasonal or oversupply specials up to 50% off of the compost product for sale.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 2nd day of April, 2019, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Zoslocki, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION NO. 2019-141**

**RESOLUTION APPROVING PLANS AND SPECIFICATIONS FOR THE
EMPIRE SANITARY SEWER TRUNK PROJECT, ACCEPTING THE BID, AND
APPROVING A CONSTRUCTION CONTRACT WITH ROLFE
CONSTRUCTION COMPANY, ATWATER, CA, IN THE AMOUNT OF
\$3,866,093 PLUS \$463,931 FOR CONTINGENCY (IF NEEDED) FOR A TOTAL
AMOUNT OF \$4,330,024 AND AUTHORIZING THE CITY MANAGER, OR HIS
DESIGNEE, TO EXECUTE THE AGREEMENT**

WHEREAS, specifications have been prepared for the Empire Sanitary Sewer Trunk Project, and

WHEREAS, on February 12, 2019 staff received bids from four companies that were responsible and responsive, including a bid from Rolfe Construction Company, and

WHEREAS, MMC 8-3.203 states that all purchases, in excess of fifty thousand dollars (\$50,000), or when directed by the City Manager for any purchase of fifty thousand dollars (\$50,000) or less, shall follow formal bid procedures, and

WHEREAS, and the award of bid for the Empire Sanitary Sewer Trunk Project conforms to the Modesto Municipal code based on providing the overall lowest cost, while providing improved service, and

WHEREAS, the Director of Utilities has recommended that the bid of \$4,330,024 received from Rolfe Construction Company, be accepted as the lowest responsible and responsive bid and the contract be awarded to Rolfe Construction Company.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the plans and specifications for the Empire Sanitary Sewer Trunk Project and accepts the bid of \$3,866,093 plus \$463,931 for contingency (if needed) for a total amount of \$4,330,024 and Awards Rolfe Construction Company, of Atwater, CA, the contract for the Empire Sanitary Sewer Trunk Project.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to execute the contract, in a form approved by the City Attorney.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 2nd day of April, 2019, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Zoslocki, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION NO. 2019-142**

**RESOLUTION AUTHORIZING AN INCREASE IN THE DIRECTOR'S
AUTHORITY TO ISSUE CHANGE ORDERS FOR THE EMPIRE SANITARY
SEWER TRUNK PROJECT FROM 8% (\$309,287) TO 12% (\$463,931) OF THE
CONSTRUCTION CONTRACT PRICE OF \$3,866,093 WITH ROLFE
CONSTRUCTION, ATWATER, CA**

WHEREAS, on April 2, 2019, Council is concurrently awarding a \$3,866,093 contract to Rolfe Construction, of Atwater, CA for the construction of the Empire Sanitary Sewer Trunk Project, and

WHEREAS, given the nature of the project, additional work may be needed to address unexpected conditions that require changes in project scope, and

WHEREAS, the additional costs may exceed the Director's authority for the project as established by the Council's Change Order Approval Policy adopted by Resolution No. 94-443.

NOW, THEREFORE BE IT RESOLVED by the Council of the City of Modesto that it hereby authorizes the Director of Utilities to issue change orders for the Empire Sanitary Sewer Trunk Project from 8 percent (\$309,287) to 12 percent (\$463,931) of the construction contract price of \$3,866,093 with Rolfe Construction, of Atwater, CA.

**MODESTO CITY COUNCIL
RESOLUTION NO. 2019-145**

RESOLUTION APPROVING AN AGREEMENT WITH GROUND ZERO ANALYSIS, INC., MODESTO, CA, FOR HYDROGEOLOGICAL DESIGN SUPPORT DURING CONSTRUCTION FOR THE GROUNDWATER MONITORING WELLS PROJECT IN AN AMOUNT NOT TO EXCEED \$75,454 FOR THE IDENTIFIED SCOPE OF SERVICES, PLUS \$7,545 IN ADDITIONAL SERVICES (IF NEEDED), FOR A TOTAL NOT TO EXCEED AMOUNT OF \$82,999 AND AUTHORIZING THE CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE THE AGREEMENT

WHEREAS, the cities of Modesto, Riverbank, Oakdale, the Modesto Irrigation District, the Oakdale Irrigation District, and Stanislaus County formed the Stanislaus and Tuolumne Rivers Groundwater Basin Association (STRGBA) to oversee and coordinate groundwater management activities in the Modesto Groundwater Subbasin, and

WHEREAS, in accordance with the Sustainable Groundwater Management Act of 2014, STRGBA is developing a Groundwater Sustainability Plan (GSP), and

WHEREAS, one of the key elements of the GSP will be to continually monitor the groundwater levels via dedicated monitoring wells, and

WHEREAS, this project provides for groundwater monitoring wells at five different locations within the City limits and throughout the City's contiguous water service area, and

WHEREAS, hydrogeological services are needed during the construction phase to evaluate subsurface data and determine well screening depths, and

WHEREAS, in accordance with Modesto Municipal Code 8-3.204(a) Exceptions to Formal Bidding Requirements, this agreement is for professional services and, therefore, exempt from the bid requirement, however, staff proceeded through a RFP process pursuant to Administrative Directive 3.1, and

WHEREAS, five proposals were received on January 11th 2019, and were reviewed by a selection committee that consisted of Utilities Department staff, and

WHEREAS, the selection committee determined that Ground Zero Analysis Inc., a local firm, was the most responsive and qualified firm to provide hydrogeological services during construction.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves an agreement with Ground Zero Analysis Inc., Modesto, CA, for hydrogeological design support during construction services for the Groundwater Monitoring Wells Project in the amount of \$75,454 for the identified scope of services, plus \$7,545 in additional services (if needed), for a total amount not to exceed \$82,999.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to execute the contract, in a form approved by the City Attorney.

**MODESTO CITY COUNCIL
RESOLUTION NO. 2019-147**

RESOLUTION APPROVING A PROFESSIONAL SERVICES AGREEMENT WITH S&S HEALTHCARE STRATEGIES, LTD. TO NEGOTIATE AND SETTLE MEDICAL CLAIMS, INCLUDING THE REIMBURSEMENT OF EMPLOYEES FOR CLAIMS PAYMENTS MADE PRIOR TO MARCH 1, 2019 THAT WERE THE RESPONSIBILITY OF RIVERSTONE AND AUTHORIZING AN AMOUNT OF \$2,626,000 TO FUND CLAIMS SETTLEMENTS, FEES AND EMPLOYEE REIMBURSEMENT; AND AUTHORIZING THE CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE THE AGREEMENT.

WHEREAS, the City of Modesto provides its employees with employee and dependent health insurance coverage; and

WHEREAS, the City contacted S&S Healthcare Strategies, Ltd. following notice of the current health plan provider's failures to pay outstanding claims; and

WHEREAS, S&S Healthcare Strategies, Ltd. offered negotiation services; and

WHEREAS, after reviewing options, S&S Healthcare Strategies, Ltd. was determined most comprehensive and affordable; and

WHEREAS, the City may fund claims settlement through the Employee Benefit Fund.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council hereby approves an agreement with S&S Healthcare Strategies, Ltd. for negotiation of unpaid medical claims.

BE IT FURTHER RESOLVED that the Council hereby approves the full reimbursement of employees who paid claims on or before March 1, 2019 that should have been paid by Riverstone Capital.

BE IT FURTHER RESOLVED that the Council hereby approves initial funding of employee reimbursement, claims negotiation and settlement in the amount of \$2,626,000.

BE IT FURTHER RESOLVED that the Director of Human Resources is hereby authorized to serve as the coordinator for the various plans.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to execute all necessary agreements relating to employee and dependent health care to fulfill the intent of this Resolution, in a form approved by Legal Counsel, including such provisions as may be necessary to meet requirements of the Independent Fiduciary.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 2nd day of April, 2019, by Councilmember Ridenour who moved its adoption, which motion being duly seconded by Councilmember Ah You, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2019-148**

**RESOLUTION AMENDING THE FISCAL YEAR 2018-2019 ANNUAL
OPERATING AND CAPITAL IMPROVEMENT FUND BUDGETS**

WHEREAS, a financial analysis has been completed and it has been determined that a budget adjustment is required to the Annual and Capital Improvement Budgets of the City of Modesto for Fiscal Year 2018-19.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves amending the Fiscal Year 2018-19 Annual Operating and Capital Improvement budget as shown in **Exhibit A**, which is **attached** hereto and incorporated by reference herein.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to take the necessary steps to implement the provisions of this resolution.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 9th day of April, 2019, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Madrigal, was upon roll call carried and the resolution adopted by the following votes:

AYES: Councilmembers: Ah You, Grewal, Kenoyer, Madrigal, Ridenour, Zoslocki, Mayor Brandvold

EXHIBIT A

FISCAL YEAR 2018-19

HUMAN RESOURCES

On February 05, 2019, the Council approved ending existing broker services provided for the City's medical insurance coverage plan and authorized the City Manager to pay the difference between the old premiums and the new premiums for a period not to exceed 4 months from the Employee Benefits Fund. This was done to minimize the harm or disruption as a result of the unplanned transition in health insurance premiums. As a result, a budget adjustment in the amount of \$1,079,811 is needed to establish a transfer from the Employee Benefits Fund (5510) to various the funds listed below, to increase the "Health Insurance" expense budget by \$1,079,811 for the funds listed below, increase the "Insurance Premiums" expense budget and "Assessments Other" revenue budget in the Health Insurance Fund (Fund 5360) by \$1,079,811.

Fund	Amount
0100 - General Fund	\$503,310
1133 - HUD Administration	\$11,676
1185 - Community System of Care	\$2,680
1300 - Capital Improvement Support	\$21,638
1342 - Grants - Police	\$10,095
1610 - Traffic Offender Fund	\$2,025
1700 - Surface Transportation Fund	\$61,070
3220 - Infrastructure Financing Program Admin	\$10,924
4000 - Parking Fund	\$6,950
4100 - Water Fund	\$135,622
4210 - Sewer Operations Fund	\$145,593
4310 - Airport Operating Fund	\$9,000
4480 - Storm Drainage Fund	\$6,765
4520 - Bus Service Fund - DAR	\$2,521
4540 - Bus Fixed Route Max Operations Fund	\$23,200
4700 - Community Center Operations Fund	\$4,271
4890 - Compost Fund	\$345
4891 - Solid Waste Fund	\$8,128
4892 - Green Waste Fund	\$37,338
5120 - Mail Services ISF Fund	\$2,521
5230 - Information Technology Fund	\$40,619
5310 - Insurance - Administration Fund	\$10,085
5400 - Fleet Management Fund	\$21,177
5520 - Employee Benefits Admin Fund	\$1,768
5800 - P/R Building Services Fund	\$475
5810 - 10th Street Place Building Services	\$14
Total	\$1,079,811

A budget adjustment in the amount of \$57,000 is needed to budget the revenue and expense of the voluntary insurance plans in the Insurance – Other Employee Fund (Fund 5380).

PUBLIC WORKS

A budget adjustment is necessary to establish the revenue and expense budget in the amount of \$102,025 for the Geer Road Landfill fund. This is for a new fee added to the Maximum Rate schedule approved on January 22, 2019 that did not include a budget adjustment to establish the Geer Road Landfill budget.

**MODESTO CITY COUNCIL
RESOLUTION NO. 2019-149**

RESOLUTION APPROVING THE PURCHASE OF 45 ETHERNET SWITCHES FROM WESTERN PACIFIC SIGNAL, LLC, SAN LEANDRO, CA, IN THE AMOUNT OF \$74,248 TO MODERNIZE TRAFFIC SIGNAL COMMUNICATIONS TO OUR ADVANCED TRAFFIC MANAGEMENT SYSTEM, AND AUTHORIZING THE PURCHASING MANAGER, OR HER DESIGNEE, TO EXECUTE THE PURCHASE ORDER

WHEREAS, on July 5, 2017, by Resolution No. 2017-269, Council approved Measure L Projects which included the purchase of Type 2070LX traffic signal controllers and Ethernet switches, and

WHEREAS, Council awarded the purchase of 100 - 2070LX Traffic Controllers to McCain Inc. and awarded the purchase of 35 Ethernet switches and a rack mounted master Ethernet switch to GDI Communications, and

WHEREAS, ethernet switches will provide better and faster communication to our traffic signals; this will allow video to be transmitted back to our ATMS system for live observations of traffic flow and to the Modesto Police Department's real time crime view center, and

WHEREAS, On January 2, 2019, the Purchasing Division issued RFB 1819-31 for the purchase of 45 ethernet switches, and

WHEREAS, on February 12, 2019, bids were formally opened in the City Clerk's office; four companies provided responsive and responsible bids, and Western Pacific Signal, LLC was the apparent low bidder, and

WHEREAS, based on providing the overall lowest responsive and responsible bid, City staff recommends the award of 45 ethernet switches to Western Pacific Signal, LLC for a total cost of \$74,248.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the purchase of 45 ethernet switches from Western Pacific Signal, LLC, San Leandro, CA, in the amount of \$74,248 to modernize traffic signal communications to our Advanced Traffic Management System,

BE IT FURTHER RESOLVED, that the Purchasing Manager, or her designee, is hereby authorized to execute the purchase order.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 9th day of April, 2019, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Madrigal, was upon roll call carried and the resolution adopted by the following votes:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2019-150**

RESOLUTION APPROVING THE FIRST AMENDMENT INCREASING THE AGREEMENT AMOUNT WITH VARSITY FACILITY SERVICES, RANCHO CORDOVA, CA, FOR THE FURNISHING OF CUSTODIAL SERVICES FOR CITY-WIDE USE BY \$567,497 FROM \$ 1,991,770 TO \$2,559,267, AND EXTENDING THE TERM OF THE AGREEMENT FROM JULY 7, 2019 TO JANUARY 7, 2020; AND AUTHORIZING THE CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE THE AMENDMENT

WHEREAS, on July 8, 2014 by Resolution No. 2014-288, Council approved the award of proposal and contract for the furnishing of furnishing of custodial services for Citywide use to Varsity Facility Services, Rancho Cordova, CA, for a two (2) year agreement with three (3) one-year extension options at the sole discretion of the City, and for an estimated annual cost of \$398,354, and over five (5) years of \$1,991,770 with the termination date scheduled for of July 7, 2019, and

WHEREAS, in 2011, the City entered into an agreement for custodial services for Modesto Centre Plaza with Pacific Maintenance Company, however in May of 2018, they exercised their contractual right to terminate services per section 10 of the contract, and

WHEREAS, Modesto Centre Plaza needed immediate coverage in order to continue to properly operate serving the public and the ability to provide safe and clean facilities And the only existing agreement within the City was the agreement between the City of Modesto and Varsity Facility Services, and

WHEREAS, the agreement with Varsity Facility Services did not contemplate the increases in costs for minimum wage rate increases resulting in a shortage of approved funds to cover the original scope detailed in the RFB executed in 2014; in order to accommodate the services required to maintain Modesto Centre Plaza and properly fund

the wage increases, staff is requesting an increase in the agreement amount and extension of termination date.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the first amendment increasing the agreement amount with Varsity Facility services, Rancho Cordova, CA, for the furnishing of custodial services for City-wide use by \$567,497 from \$ 1,991,770 to \$2,559,267, and extending the term of the agreement from July 7, 2019 to January 7, 2020.

BE IT FURTHER RESOLVED, that the City Manager, or his designee, is authorized to execute the amendment.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 9th day of April, 2019, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Madrigal, was upon roll call carried and the resolution adopted by the following votes:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2019-151**

RESOLUTION APPROVING THE SUBMISSION OF AN ALLOCATION REQUEST FOR THE LOW CARBON TRANSIT OPERATIONS PROGRAM IN THE AMOUNT OF \$865,323 FOR FREE TRANSIT FARES FOR SPECIFIC DATES AND EVENTS TO ENCOURAGE MORE RIDERSHIP ON MODESTO AREA EXPRESS (MAX) BUSES, AND AUTHORIZING THE CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE ALL GRANT AGREEMENT DOCUMENTS

WHEREAS, the City was allocated a grant from the California Department of Transportation (Caltrans) in the amount of \$865,323 in local and regional funding under the Low Carbon Transit Operations Program (LCTOP), and

WHEREAS, these funds will be used to provide free fare days on specific dates to everyone riding the Modesto Area Express (MAX) system, and

WHEREAS, this project will provide people an incentive for using the bus more often, thus increasing ridership, and

WHEREAS, these funds will be used as fare revenue to supplement the total local revenue for the system, and

WHEREAS, these funds will enable the City of Modesto to achieve the fare box revenue requirement.

NOW, THEREFORE BE IT RESOLVED, by the Council of the City of Modesto that it hereby approves the submission of an allocation request for the LCTOP in the amount of \$865,323 for free transit fares for specific dates.

BE IT FURTHER RESOLVED, that the City Manager, or his designee, is hereby authorized to execute all grant agreement documents, and to implement the provisions of this resolution.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 9th day of April, 2019, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Grewal, was upon roll call carried and the resolution adopted by the following votes:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2019-152**

RESOLUTION APPROVING AN AGREEMENT WITH BLACKWATER CONSULTING ENGINEERS, INC., MODESTO, CA FOR ENGINEERING DESIGN SERVICES FOR THE COLORADO WATER MAIN PROJECT, IN AN AMOUNT NOT TO EXCEED \$78,588 FOR THE IDENTIFIED SCOPE OF SERVICES, PLUS \$7,859 IN ADDITIONAL SERVICES (IF NEEDED), FOR A TOTAL NOT TO EXCEED AMOUNT OF \$86,447, AND AUTHORIZING THE CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE THE AGREEMENT

WHEREAS, Utilities Engineering is currently managing the River Trunk Realignment Project which will reroute major portions of the sewer trunk line away from the Tuolumne River and into public right-of- way, and

WHEREAS, this current City/County project presents an opportunity to construct and coordinate needed water main improvements along Colorado Avenue, and

WHEREAS, the coordinated effort will be less disruptive to the neighborhood and result in construction cost savings, and

WHEREAS, BlackWater Consulting Engineers, Inc. has prepared sections of the River Trunk Realignment sewer trunk design and has rendered satisfactory services with the City on previous projects, and

WHEREAS, in accordance with Modesto Municipal Code 8-3.204(a), "Exceptions to Formal Bidding Requirements," this agreement for professional services is exempt from the bidding requirements of Modesto Municipal Code 8-3.203.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves an agreement with BlackWater Consulting Engineers Inc., Modesto, CA for Engineering Design Services for the Colorado Water Main Project in an amount not to exceed \$78,558, for the identified scope of services, plus \$7,859 for additional services, if needed, for a maximum total amount of \$86,447.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to execute the agreement in a form approved by the City Attorney.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 9th day of April, 2019, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Madrigal, was upon roll call carried and the resolution adopted by the following votes:

The purpose of this action is to establish the Engineering/Design/Administration (EDA) budget of Capital Improvement Program Project 101152 - Colorado Ave S&R Water Main to cover expenses associated with an engineering design services agreement with BlackWater Consulting Engineers, Inc. and the City staff time associated with administering the agreement.

**MODESTO CITY COUNCIL
RESOLUTION NO. 2019-154**

RESOLUTION ACCEPTING THE HAHN AND RUMBLE LIFT STATION PROJECT AS COMPLETE, AUTHORIZING ALL NECESSARY STEPS TO FILE WITH THE COUNTY RECORDER, RELEASING SECURITIES, AND RELEASING PAYMENTS TOTALING \$3,129,828 TO MOUNTAIN CASCADE, INC. OF LIVERMORE, CA

WHEREAS, on March 13, 2007 by Resolution 2007-179, Council approved the 2007 WWMP which identified deficiencies for the Rumble Lift station which included site access and security issues as well as hydraulic and mechanical deficiencies, and

WHEREAS, the improvements consisted of hydraulic and access upgrades including new pumping equipment, pipe gallery, wet pit, electrical controls, and perimeter fencing. The design was completed by engineering staff, and

WHEREAS, the Hahn Lift Station was relocated to the southwest corner property, 3200 Nightingale Drive, which was purchased by the City for this purpose, and

WHEREAS, the new site allows for safer and more efficient access for City Utilities Maintenance staff, and

WHEREAS, the Rumble Lift station was identified in the WWMP for improvements due to site access and security issues as well as hydraulic and mechanical deficiencies in the station, and

WHEREAS, bids were advertised on June 20, 2016, and

WHEREAS, six bids were publicly opened on July 16, 2016, pursuant to Modesto Municipal Code section 8-3.403 and Charter Section 1307, Mountain Cascade, Inc. of Livermore, CA was the apparent low bidder.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Hahn and Rumble Lift Station project is hereby accepted as complete from said

contractor Mountain Cascade, Inc., of Livermore, CA, and that the City Clerk is authorized to complete all necessary steps to file with the County Recorder, release securities and authorize payments totaling \$3,129,828, as is authorized.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 9th day of April, 2019, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Madrigal, was upon roll call carried and the resolution adopted by the following votes:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2019-155**

RESOLUTION APPROVING THE PREQUALIFIED CONSULTANT LIST, CONSISTING OF CRAWFORD & ASSOCIATES, INC., KRAZAN & ASSOCIATES, INC., MOORE TWINNING ASSOCIATES, INC., AND GEOCON CONSULTANTS, INC. FOR GEOTECHNICAL ENGINEERING SERVICES FOR VARIOUS CAPITAL IMPROVEMENT PROGRAM PROJECTS FOR A PERIOD OF ONE YEAR, WITH THE POSSIBILITY OF THREE ADDITIONAL ONE-YEAR EXTENSIONS AT THE WRITTEN APPROVAL OF THE DEPARTMENT DIRECTOR

WHEREAS, there are a number of Capital Improvement Program (CIP) projects that may require outside consultant services for efficient project delivery, and

WHEREAS, retaining a prequalified, as-needed list of consultants allows the Utilities Department to have accelerated access to specific Geotechnical Engineering Services, when needed, and

WHEREAS, this will eliminate the need to send out repetitive Requests for Qualifications (RFQ) for projects of similar scope and/or type, saving staff time and project costs, and

WHEREAS, in accordance with the Modesto Municipal Code 8-3.204(a), Exceptions to Formal Bidding Requirements, this prequalified list is for professional services and, therefore, exempt from the bid requirement. However, staff proceeded with the RFP process pursuant to Administrative Directive 3.1, Selection Procedures for Professional Consultants Who Provide Architectural & Engineering Services for Capital Projects, which is in compliance with State of California Government Code, Sections 4526-4529, staff solicited and formally advertised an RFQ through Planet Bids for environmental site assessment services, and

WHEREAS, staff received seven (7) Statements of Qualifications (SOQs) for Geotechnical Engineering Services, two (2) of which are considered local firms, and

WHEREAS, after careful review of the SOQs by Utilities Department staff, the following firms, two of which are considered local, were selected as the most qualified: 1) Crawford & Associates, Inc., Modesto, CA; 2) Krazan & Associates, Inc., Modesto, CA; 3) Moore Twining Associates, Inc., Fresno, CA and 4) GEOCON Consultants, Inc., Livermore, CA, and

WHEREAS, when Geotechnical Engineering Services are required for CIP projects with a total budget of \$2 million or less, a Request for Proposals (RFP) with a specific scope of work may be issued to one or all of these firms, and

WHEREAS, an agreement for Geotechnical Engineering Services will then be presented to City Council for approval, and

WHEREAS, this prequalified consultant list will be active for one year from the date of Council approval, at which time the City may extend the list for three additional one-year extensions at the written approval of the Department Director, and

WHEREAS, in the event the firms listed on the pre-qualified list are deemed to lack experience or expertise for specific projects, the City retains the right to recruit consultants for individual projects and not be restricted to the approved list, and

WHEREAS, a formal process will be conducted should this situation occur.

NOW, THEREFORE BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the prequalified consultant list, consisting of 1) Crawford & Associates, Inc., Modesto, CA; 2) Krazan & Associates, Inc., Modesto, CA; 3) Moore Twining Associates, Inc., Fresno, CA and 4) GEOCON Consultants, Inc., Livermore,

CA for Geotechnical Engineering Services for various CIP projects for a period of one year, with three optional additional one-year extensions at the written approval of the Department Director.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 9th day of April, 2019, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Madrigal, was upon roll call carried and the resolution adopted by the following votes:

RESOLUTION APPROVING AN AGREEMENT WITH CRAWFORD & ASSOCIATES, INC., MODESTO, CA FOR ON-CALL GEOTECHNICAL ENGINEERING SERVICES FOR VARIOUS CITY PROJECTS FOR ONE YEAR, WITH THREE ONE-YEAR EXTENSION OPTIONS, AT THE SOLE DISCRETION OF THE CITY, IN AN AMOUNT NOT TO EXCEED \$75,000 PER YEAR, AND AUTHORIZING THE CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE THE AGREEMENT, AND UP TO THREE ONE-YEAR EXTENSION OPTIONS

WHEREAS, Geotechnical Engineering Services are regularly needed as part of Capital Improvement Projects, and

WHEREAS, in accordance with Modesto Municipal Code 8-3.204(a) Exceptions to Formal Bidding Requirements, this agreement is for professional services and, therefore, exempt from the bid requirement. However, staff proceeded with the RFQ/RFP process pursuant to Administrative Directive 3.1, Selection Procedures for Professional Consultants Who Provide Architectural and Engineering Services for Capital Projects, and

WHEREAS, responses were received from seven firms and reviewed by a selection committee who chose one firm as the most qualified to provide On-Call Geotechnical Engineering Services to the City.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves an on-call agreement with Crawford & Associates, Inc., Modesto, CA for Geotechnical Engineering Services for one year, with three one-year extension options at the sole discretion of the City in an amount not to exceed \$75,000 per year, with a total cost for three years not to exceed \$300,000.

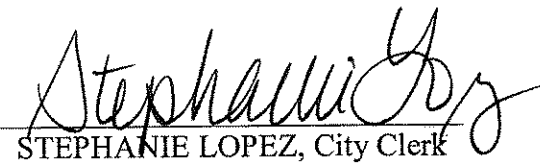

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to execute the agreement, in a form approved by the City Attorney.

**MODESTO CITY COUNCIL
RESOLUTION NO. 2019-157**

**RESOLUTION APPROVING A DEVELOPMENT PLAN FOR PLANNED
DEVELOPMENT ZONE, P-D(605)**

WHEREAS, a verified application for an amendment to Section 12-3-8 of the Zoning Map was filed by Ali Properties LLC and the Angel Family Trust on June 29, 2018, to reclassify from Low Density Residential Zone, R-1, to Planned Development Zone, P-D(605) to allow a new 50-unit apartment complex on property located at the northwest corner of Rumble Road and Conant Avenue, described as follows:

R-1 to P-D(605)

All that portion of Lot 1 of McKinney Colony, according to the Official Map or Plat thereof on file and of record in the Recorder's Office of Stanislaus County, California, and particularly described as follows, to wit:

Beginning at the southeast corner of Lot 10 of McKinney Colony; thence North along the easterly line of said Lot 240 feet to a point in said line; thence running West parallel with the southerly line of said Lot 10, 372.31 feet to a point; thence South parallel with the easterly line of said Lot 10, 240 feet to a point in the south line of said Lot 10; thence easterly along the southerly line of said Lot 10, 372.31 feet to the point of commencement.

Also including the west one-half of Conant Avenue and the north one-half of Rumble Road, being immediately adjacent to this description.

Totaling 2.25 acres, more or less.

APN: 076-042-007

WHEREAS, after a public hearing held on December 3, 2018, in the Tenth Street Place Chambers located at 1010 Tenth Street, Modesto, California, it was found and determined by the Planning Commission, by its Resolution No. 2018-15, that rezoning of the property as requested will not be detrimental to the public health, safety or welfare because the proposed development will conform to City standards, the requested zone

change will result in an orderly planned use of land because the conditions of approval will ensure that the proposed project is compatible with the adjacent residential uses, and there are other apartment complexes located on this section of Rumble Road in close proximity to the proposed development, and the requested zone change is in accordance with the community objectives as set forth in the Modesto Urban Area General Plan and any applicable specific plans(s) because the proposed change to Planned Development allowing for new multi-family residential uses is consistent with the Modesto Urban Area General Plan, which designates the property as Mixed Use (MU), which allows for multi-family residential uses, and

WHEREAS, said matter was set for a public hearing of the City Council to be held on February 5, 2019, in the Tenth Street Place Chambers located at 1010 Tenth Street, Modesto, California, at which date and time said duly noticed public hearing was held, and

WHEREAS, said meeting was continued to a date certain by the City Council to allow staff and the applicant the opportunity to address concerns raised regarding traffic and the neighboring school, and

WHEREAS, a continued public hearing of the City Council was held on April 9, 2019, in the Tenth Street Place Chambers located at 1010 Tenth Street, Modesto, California, and

WHEREAS, after said public hearing the Council found and determined that the application of Ali Properties LLC and the Angel Family Trust for a Planned Development Zone will not be detrimental to the public health, safety or welfare, will result in an orderly planned use of land, and is in accordance with the community

objectives as set forth in the Modesto Urban Area General Plan and any applicable specific plans(s) for the reasons set forth in Planning Commission Resolution No. 2018-15 and quoted above, and

WHEREAS, the Council has introduced Ordinance No. 3693-C.S. on the 9th day of April 2019, reclassifying the above-described property from R-1 Zone, to Planned Development Zone, P-D(605),

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto as follows:

1. DEVELOPMENT PLAN. The development plan for Planned Development Zone, P-D(605), is hereby approved subject to the following conditions:

1. Prior to the issuance of a building permit, all development shall conform to the Development Plan and building elevations titled "Rumble Road Multi-Family Housing" stamped approved by the City Council.
2. The wall along the north and west property lines shall be a 7-foot high solid decorative masonry wall as shown in red on the site plan, and be constructed prior to occupancy of any structure.
3. Screen landscaping shall be installed along the north and west property lines of the project site, as approved by the Parks, Recreation and Neighborhoods, prior to certificate of occupancy for the first building.
4. Prior to issuance of a building permit, the developer and/or developer's landscape architect, landscape contractor, architect, or engineer landscape architect shall confer with the property owners of those parcels immediately adjacent to the site on the design of the screen landscaping to be implemented and the timing of installation. The screen landscaping and the timing of installation shall be to the satisfaction of the Director of Community and Economic Development or designee. Record of said conference(s) shall be noted on the landscape plans prior to submittal to the City for review.
5. Prior to issuance of a building permit, trash enclosures shall be designed using building materials, colors and finishes which are consistent or compatible with those used for the residential buildings, as approved by

the Community and Economic Development Director. Climbing vines shall be included in the landscape surrounding the trash enclosures to discourage tagging.

6. The design of light fixtures and their structural supports should be architecturally compatible with the main structures on the site. Light fixtures should be architecturally integrated into the design of a structure to the satisfaction of the Director of Community and Economic Development.
7. Along pedestrian corridors, the use of low mounted bollard light standards, which reinforce pedestrian scale, shall be used. Steps and ramps should be illuminated wherever possible, with built-in light fixtures to the satisfaction of the Director of Community and Economic Development.
8. All signs shall comply with the sign requirements of the R-3 Zone.
9. Sizing and number of monument signs shall be in accordance to the requirements of the R-3 Zone. Placement of such signs shall be seventeen (17) feet back from the flow line of the street to ensure clear line of sight for vehicles exiting the development.
10. Prior to issuance of a sign permit, individual sign plans for the project shall be submitted for separate review and approval prior to installation.
11. Prior to Certificate of Occupancy of any structure, all ground mounted utility structures such as transformers and HVAC equipment shall be located out of view from a public street to the satisfaction of the Director of Community and Economic Development. Equipment shall be placed underground or adequately screened through the use of landscaping or masonry walls.
12. Exterior building elevations showing building wall materials, roof types, exterior colors and appropriate vertical dimensions shall be included in the development construction drawings.
13. Construction drawings shall demonstrate that all building drainage gutters, down spouts, vents, etc. located on exterior walls, are be completely concealed from public view or designed to be architecturally compatible (decorative) with the exterior building design and color to the satisfaction of the Director of Community and Economic Development.
14. Prior to occupancy of any structure, striping of parking stalls, aisles and driveways shall conform to the provisions of MMC Section 10-5.105, Parking Lot Design Standards.

15. Parking lot shade trees shall be provided in all new parking areas to meet current parking lot shading requirements (1 tree per 8 stalls, 50% coverage within 10 years).
16. All improvements shall be designed and constructed per City standards in accordance with City Code (Article 7-1.701). Such improvements will include, but not be limited to roadway, storm drainage, curb and gutter, drive approach, sidewalk, ADA access ramps, fire hydrants and street lights. All public improvement plans shall be designed by a Registered Engineer, reviewed and approved by the City Engineer prior to issuance of an Encroachment permit.
17. Prior to issuance of a building or encroachment permit, ten-feet of right-of-way along the Rumble Road frontage shall be dedicated.
18. Prior to issuance of a building or encroachment permit, ten-foot-wide public utility easements shall be dedicated along the frontages of Rumble Road and Conant Avenue.
19. Prior to the issuance of a Certificate of Occupancy for the first building, the crosswalks of the Conant Avenue/Rumble Road intersection shall be improved with new “ladder” striping and new solar-powered school-proximity speed-limit signs shall be installed on Conant Avenue and Rumble Road to the satisfaction of the City Engineer and City Traffic Engineer.
20. There is an existing 39-in sewer trunk in Rumble Rd, an existing 6-in sewer fly-line main in Rumble Rd and, a 6-in sewer main in Conant Ave. The existing 6-in mains are not available for new services. The 39-in trunk conveys flow to a 48-in trunk in Conant Ave. The 39-in sewer trunk and downstream sewer facilities have adequate capacity for the anticipated sewer flow demands from this proposed 50-unit apartment project. A new manhole would be required on the Rumble Rd sewer trunk to extend a new service to this proposed project.
21. The project shall manage storm water runoff on-site according to current City standards. Calculations and percolation test shall be submitted to the City for review and approval with the submittal of the improvement plans, prior to issuance of a building permit.
22. Prior to the issuance of a Grading, Demolition, or Building Permit, Developer shall submit improvement plans conforming to design requirements of the most current edition City of Modesto Guidance Manual for Development, Stormwater Quality Control Measures and the City of Modesto Municipal Code.

23. Prior to the issuance of a Grading, Demolition, or Building Permit, Developer shall submit a plan to integrate Low Impact Development (LID) principles into the project design. The plan shall retain, treat, and infiltrate the first 0.5" of stormwater run-off on site, and incorporate pervious landscape features into the project design wherever possible.
24. Prior to the issuance of a Grading, Demolition, or Building Permit, Developer shall submit a plan to provide permanent, post-construction treatment (grass swale, bioretention, vegetative strip, or other approved proprietary device) to remove pollutants from the first 0.5" of stormwater run-off from site.
25. Prior to the issuance of a Grading, Demolition, or Building Permit, Developer shall submit a plan for trash enclosures to be sufficiently elevated to prevent stormwater run-on from parking lot. Floor of enclosures shall be graded to drain into adjacent landscape areas.
26. Prior to the issuance of a Grading, Demolition, or Building Permit, Property Owner shall provide a signed and notarized Stormwater Treatment Device Access and Maintenance Agreement to Land Development Engineering, Stormwater for recording.
27. Prior to the issuance of a Grading, Demolition, or Building Permit, Property Owner shall obtain coverage for project under the State Water Resources Control Board (SWRCB) General Permit for Stormwater Discharges Associated with Construction and Land Disturbance Activities Order No. 2009-0009-DWQ, National Pollutant Discharge Elimination System (NPDES) General Permit No. CAS000002, as amended by 2010-0014-DWQ and 2012-0006-DWQ.
28. The Construction General Permit requires the Property Owner to develop a Stormwater Pollution Prevention Plan (SWPPP) for the project. The SWPPP shall include a description of all erosion, sediment, and pollution control BMPs to be used at the construction or demolition site to prevent sediment and other sources of pollution from entering the City storm drain system as well as a site plan showing their placement. Prior to issuance of a Grading, Demolition, or Building Permit, provide one paper copy of SWPPP to Land Development Engineering, Stormwater.
29. Prior to issuance of a building permit, applicant shall submit Landscape and Irrigation plans for review and approval by the City's Parks Planning and Development Division. L&I plans shall meet current State of California water use requirements, MMC requirements and City of Modesto standards at time of submittal.

30. Applicant shall install bicycle parking racks as part of the project development per MMC and Green Building Code.
31. Applicant shall provide street trees along Rumble Road and Conant Avenue to the satisfaction of the Parks Planning and Development Manager.
32. LID control and treatment measures shall be vegetated for erosion protection and sediment entrapment to collect/treat storm water run-off before entering the storm drain system. Storm drainage basins shall be appropriately landscaped and irrigated to address the specific type of storm water control measure. Provide total square feet of landscape in project information.
33. All department Conditions of Approval for the project shall be included with building plans and shall be continuously maintained on-site during project construction to the satisfaction of the Chief Building Official.
34. All construction documentation shall be coordinated for consistency, including but not limited to, architectural, structural, mechanical, electrical, plumbing, landscape and irrigation, grading, utility and street improvement plans. All such plans shall be consistent with the approved entitlement plans on file with the Planning Department.
35. Prior to issuance of a building permit, any variation from the approved site plan or building elevations on file with the City must be reviewed and approved by the Director of Community and Economic Development.
36. Prior to Certificate of Occupancy for any structure, the applicant shall enroll and participate in the City's Crime-Free Multi-Family Housing Program as administered by the Modesto Police Department.
37. All existing underground and aboveground utilities, irrigation, and electrical lines shall be protected, relocated, or removed as required by the City Engineer or designee. Easements for utilities, irrigation, and electrical lines to remain shall be reserved as required.
38. All landscaping, fences, and walls shall be maintained and the premises shall be kept free of weeds, trash, and other debris.
39. At the time of issuance of a building permit, the developer shall pay development impact fees at the established rate. Such fees may include but are not limited to, sewer and water connection fees, community facility fees, building permit and plan check fees.

40. Prior to start of construction, all-weather, hard-surfaced roadways shall be constructed and maintained free of obstructions at all times during construction as required by Director of Community and Economic Development.
41. The property owner and developer shall, at their sole expense, defend, indemnify and hold harmless the City of Modesto, its agents, officers, directors and employees, from and against all claims, actions, damages, losses, or expenses of every type and description, including but not limited to payment of attorneys' fees and costs, by reason of, or arising out of, this development approval. The obligation to defend, indemnify and hold harmless shall include but is not limited to any action to arbitrate, attack, review, set aside, void or annul this development approval on any grounds whatsoever. The City of Modesto shall promptly notify the developer of any such claim, action, or proceeding and shall cooperate fully in the defense.

In addition, the following recommended Conditions of Approval are mitigation measures from the Modesto Urban Area General Plan Master Environmental Impact Report that shall be applied to the project:

42. All disturbed areas, including storage piles, which are not being actively utilized for construction purposes, shall be effectively stabilized of dust emissions using water, chemical stabilizer/suppressant, covered with a tarp or other suitable cover or vegetative ground cover.
43. All on-site unpaved roads and off-site unpaved access roads shall be effectively stabilized of dust emissions using water or chemical stabilizer/suppressant.
44. All land clearing, grubbing, scraping, excavation, land leveling, grading, cut & fill, and demolition activities shall be effectively controlled of fugitive dust emissions utilizing application of water or by presoaking.
45. When materials are transported off-site, all material shall be covered, or effectively wetted to limit visible dust emissions, and at least six inches of freeboard space from the top of the container shall be maintained.
46. All operations shall limit or expeditiously remove the accumulation of mud or dirt from adjacent public streets at the end of each workday. (the use of dry rotary brushes is expressly prohibited except where preceded or accompanied by sufficient wetting to limit the visible dust emissions.) (Use of blower devices is expressly forbidden.)
47. Following the addition of materials to, or the removal of materials from, the surface of outdoor storage piles, said piles shall be effectively

stabilized of fugitive dust emissions utilizing sufficient water or chemical stabilizer/suppressant.

48. Within urban areas, track out shall be immediately removed when it extends 50 or more feet from the site and at the end of each workday.
49. Any site with 150 or more vehicle trips per day shall prevent carryout and track out.

The following measures are strongly encouraged at construction sites that are large in area, located near sensitive receptors, or which for any other reason warrant additional emissions reductions:

50. Install wheel washers for all exiting trucks, or wash off all trucks and equipment leaving the site.
51. Install wind breaks at windward side(s) of construction areas.
52. Suspend excavation and grading activity when winds exceed 20 mph (regardless of windspeed, an owner/operator must comply with Regulation VIII's 20 percent (20%) opacity limitation).
53. Limit the area subject to excavation, grading, and other construction activity at any one time.
54. The City has also established a noise ordinance to control noise within the City. The City's noise ordinance (Modesto Municipal Code Section 4-9.101) prohibits the "loud and raucous discharge into the open air of the steam of any steam equipment or exhaust from any stationary internal-combustion engine."
55. Additionally, the noise ordinance prohibits the loud and raucous operation or use of any of the following before 7:00 a.m. or after 9:00 p.m. daily (except Saturday and Sunday and state or federal holidays, when the prohibited time shall be before 9:00 a.m. and after 9:00 p.m.):
 - a. A hammer, or any other device or implement used to pound or strike an object.
 - b. An impact wrench, or other tool or equipment powered by compressed air.
 - c. A hand-powered saw.

- d. Any tool or piece of equipment powered by an internal-combustion engine such as, but not limited to, chain saw, backpack blower, and lawn mower.
 - e. Any electrically powered (whether by alternating current electricity or by direct current electricity) tool or piece of equipment used for cutting, drilling, or shaping wood, plastic, metal, or other materials or objects, such as, but not limited to, a saw, drill, lathe, or router.
 - f. Any of the following: heavy equipment (such as but not limited to bulldozer, steam shovel, road grader, back hoe), ground drilling and boring equipment (such as but not limited to derrick or dredge), hydraulic crane and boom equipment, portable power generator or pump, pavement equipment (such as but not limited to pneumatic hammer, pavement breaker, tamper, compacting equipment), piledriving equipment, vibrating roller, sand blaster, gunite machine, trencher, concrete truck, and hot kettle pump.
 - g. Any construction, demolition, excavation, erection, alteration, or repair activity. In the case of urgent necessity and in the interest of public health and safety, the Chief Building Official may issue a permit for exemption from these. Such period shall not exceed three (3) working days in length while the emergency continues but may be renewed for successive periods of three (3) days or less while the emergency continues. The Chief Building Official may limit such permit as to time of use and/or permitted action, depending upon the nature of the emergency and the type of action requested.
56. The project shall comply with the City's noise ordinance. Construction equipment and vehicles should be equipped with properly operating mufflers according to the manufacturers' recommendations. Air compressors and pneumatic equipment should be equipped with mufflers, and impact tools should be equipped with shrouds or shields. Equipment that is quieter than standard equipment should be utilized. Haul routes that affect the fewest number of people should be selected.
57. New development shall comply with City requirements for conveyance, retention and detention. New development shall include onsite storage of Stormwater as necessary. Rockwells shall not be allowed for new development except at infill areas smaller than three acres where no other feasible alternative is available.
58. Construction activities shall comply with the requirements of the City's Storm Water Management Plan under its municipal NPDES Stormwater

permit, and the State Water Resources Control Board's General Permit for Discharges of Storm Water Associated with Construction Activity.

2. DEVELOPMENT SCHEDULE. The following development schedule is hereby approved for said Planned Development Zone, P-D(605):

The entire construction program be accomplished in one phase, construction to begin on or before April 9, 2021, and completion to be not later than April 9, 2023.

3. CHANGES IN DEVELOPMENT PLAN. Any changes in the above approved development plan shall be made in accordance with the provisions of Section 10-7.108 of the Modesto Municipal Code.

4. COMPLIANCE WITH CODE PROVISIONS, ETC. In all other respects said planned development shall be accomplished in accordance with and in strict adherence to the provisions of Article 1 of Chapter 7 of Title 10 of the Modesto Municipal Code relating to Planned Development Zones and other applicable City laws, rules, regulations and procedures.

5. EFFECTIVE DATE. This resolution shall not become effective unless and until the ordinance reclassifying the above-described property to Planned Development Zone, P-D(605), becomes effective.

BE IT FURTHER RESOLVED that the conditions of project approval set forth herein include certain fees, dedication requirements, reservations requirements, and other exactions, and that pursuant to Government Code Section 66020(d)(1), these conditions constitute written notice of a statement of the amount of such fees, and a description of the dedications, reservations, and other exactions.

BE IT FURTHER RESOLVED that the applicant is hereby further notified that the ninety (90) days approval period in which a protest of these fees, dedications, reservations, and other exactions, pursuant to Government Code Section 66020(a) can be filed, begins on April 9, 2019, and that if a protest is not filed within this ninety (90)-day period complying with all of the requirements of Section 66020, the applicant will be legally barred from later challenging such exactions.

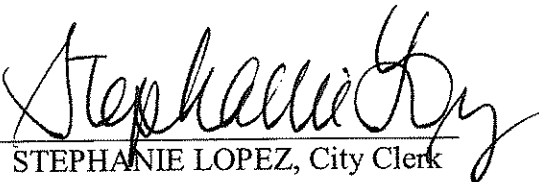

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 9th day of April, 2019, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Ridenour, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Ah You, Grewal, Kenoyer, Madrigal, Ridenour, Mayor Brandvold

**MODESTO CITY COUNCIL
RESOLUTION NO. 2019-158**

RESOLUTION FINDING THAT THE FOLLOWING SUBSEQUENT PROJECT IS WITHIN THE SCOPE OF THE PROJECT COVERED BY THE MODESTO URBAN AREA GENERAL PLAN MASTER ENVIRONMENTAL IMPACT REPORT (SCH NO. 2007072023): AMENDMENT TO SECTION 12-3-8 OF THE ZONING MAP TO REZONE 2.25 ACRES FROM R-1 ZONE TO PLANNED DEVELOPMENT ZONE P-D(605), PROPERTY LOCATED ON THE NORTHWEST CORNER OF RUMBLE ROAD AND CONANT AVENUE

WHEREAS, on October 14, 2008, the City Council of the City of Modesto certified the Final Master Environmental Impact Report (“Master EIR”) (SCH No. 2007072023) for the Modesto Urban Area General Plan, and

WHEREAS, Ali Properties LLC and the Angel Family Trust has proposed to rezone 2.25 acres from Low Density Residential Zone, R-1 to Planned Development Zone P-D(605), to allow for the development of a 50-unit apartment complex, property located at the northwest corner of Rumble Road and Conant Avenue, and

WHEREAS, pursuant to Section 21157.1 of the Public Resources Code, the City of Modesto’s Community & Economic Development Department prepared an Environmental Assessment Initial Study EA/C&ED 2018-20 (“Initial Study”) which analyzed whether the subsequent project may cause any significant effect on the environment that was not examined in the Master EIR and whether the subsequent project was described in the Master EIR as being within the scope of the report, and

WHEREAS, in accordance with CEQA guidelines beginning on January 16, 2019, the City caused to be published a 20-day notice of the City’s intent to make a finding that the subsequent project conforms with the Master EIR, and

WHEREAS, said matter was considered by the City Council at a duly noticed public hearing which was held on February 5, 2019, at 5:30 p.m., in the Tenth Street Place Chambers located at 1010 Tenth Street, Modesto, California, and

WHEREAS, said meeting was continued to a date certain by the City Council to allow staff and the applicant the opportunity to address concerns raised regarding traffic and the neighboring school, and

WHEREAS, a continued public hearing of the City Council was held on April 9, 2019, in the Tenth Street Place Chambers located at 1010 Tenth Street, Modesto, California.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council has reviewed and considered the Initial Study prepared for the proposed rezone to Planned Development Zone P-D(605), a copy of which is **attached** hereto as **Exhibit "A"**, and incorporated herein by reference, and based on substantial evidence in the Initial Study makes the following findings:

1. An Initial Study was prepared by the City of Modesto that analyzed whether the subsequent project may cause any significant effect on the environment that was not examined in the Master EIR and whether the subsequent project was described in the Master EIR as being within the scope of the report.
2. The subsequent project will have no additional significant effect on the environment, as defined in subdivision (d) of Section 21158 of the Public Resources Code, that was not identified in the Master EIR.
3. No new or additional mitigation measures or alternatives are required.
4. The subsequent project is within the scope of the project covered by the Master EIR.
5. All applicable policies, regulations, and mitigation measures identified in the Master EIR have been applied to the subsequent project or otherwise made conditions of approval of the subsequent project.

6. No substantial changes have occurred with respect to the circumstances under which the Master EIR was certified, and no new information, which was not known and could not have been known at the time that the Master EIR was certified as complete, has become available.

BE IT FURTHER RESOLVED by the Council of the City of Modesto that the Community & Economic Development Director is hereby authorized and directed to file a notice of approval or determination within five (5) business days with the Stanislaus County Clerk pursuant to Section 21152 of the Public Resources Code.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 9th day of April, 2019, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Ridenour, was upon roll call carried and the resolution adopted by the following votes:

AYES: Councilmembers: Ah You, Grewal, Kenoyer, Madrigal, Ridenour, Mayor Brandvold

EXHIBIT A

Initial Study

EA/C&ED 2018-20

City of Modesto

Finding of Conformance to General Plan Master EIR:

Initial Study Environmental Checklist C&ED No. 2018-20

For the proposed:

PDZ-18-001

**Rezone of 2.25 Acres from Low Density Residential (R-1)
Zone to Planned Development Zone, P-D(605)
for new 50-Unit Apartment Complex
2531 Rumble Road**

**Prepared by:
City of Modesto
Community & Economic Development Department
Planning Division**

August 1, 2018

(Intentional Blank Page)

City of Modesto

Master EIR Initial Study Environmental Checklist

I. PURPOSE

CEQA allows for the limited environmental review of subsequent projects under the City's Master Environmental Impact Report ("Master EIR" or "MEIR"). This Initial Study Environmental Checklist ("Initial Study") is used in determining whether the rezone from the R-1 Zone to Planned Development Zone ("project") is "within the scope" of the project analyzed in the Modesto Urban Area General Plan Master EIR (SCH# 2007072023) (Public Resources Code section 21157.1). When the Initial Study supports this conclusion, the City will issue a finding of conformance.

A subsequent project is "within the scope" of the Master EIR when:

1. it will have no additional significant effects on the environment that were not addressed as significant effects in the Master EIR; and
2. no new or additional mitigation measures or alternatives are required.

"Additional significant effects" means a project-specific effect that was not addressed as a significant effect in the Master EIR. [Public Resources Code Section 21158(d)]

The determination must be based on substantial evidence in the record. "Substantial evidence" means facts, reasonable assumptions predicated upon facts, or expert opinion based on facts. It does not include speculation or unsubstantiated opinion. (CEQA Guidelines Section 15384)

II. PROJECT DESCRIPTION

- A. Title: PDZ-18-001: Rezone of 2.25 Acres from Low Density Residential (R-1) Zone to Planned Development Zone, P-D(605)
- B. Address or Location: 2531 Rumble Road, Modesto CA
- C. Applicant(s): Ali Properties LLC, PO Box 615, Salida CA 95368
Angel Family Trust, 1384 Merle Ct., Ripon, CA 95366
- D. City Contact Person: Katharine Martin, Associate Planner

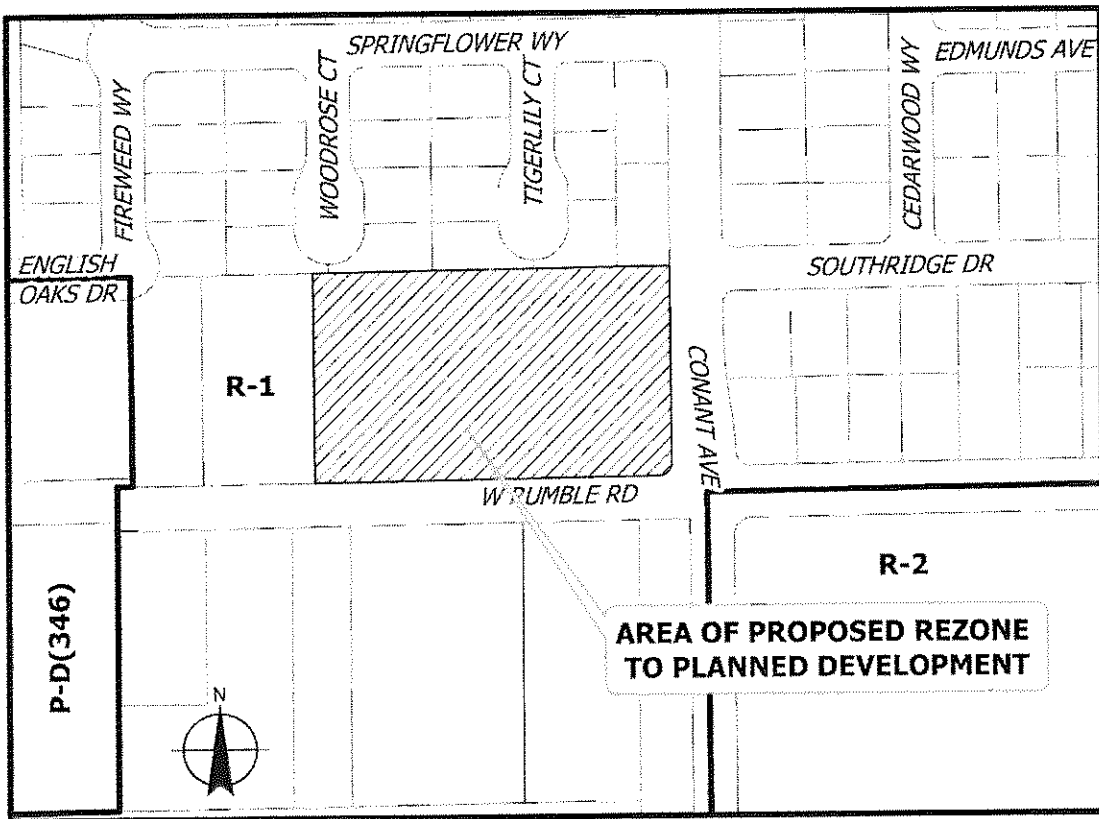

Project Manager: Katharine Martin
Department: Community & Economic Development, Planning Division
Phone Number: 209-577-5465
E-mail address: kamartin@modestogov.com

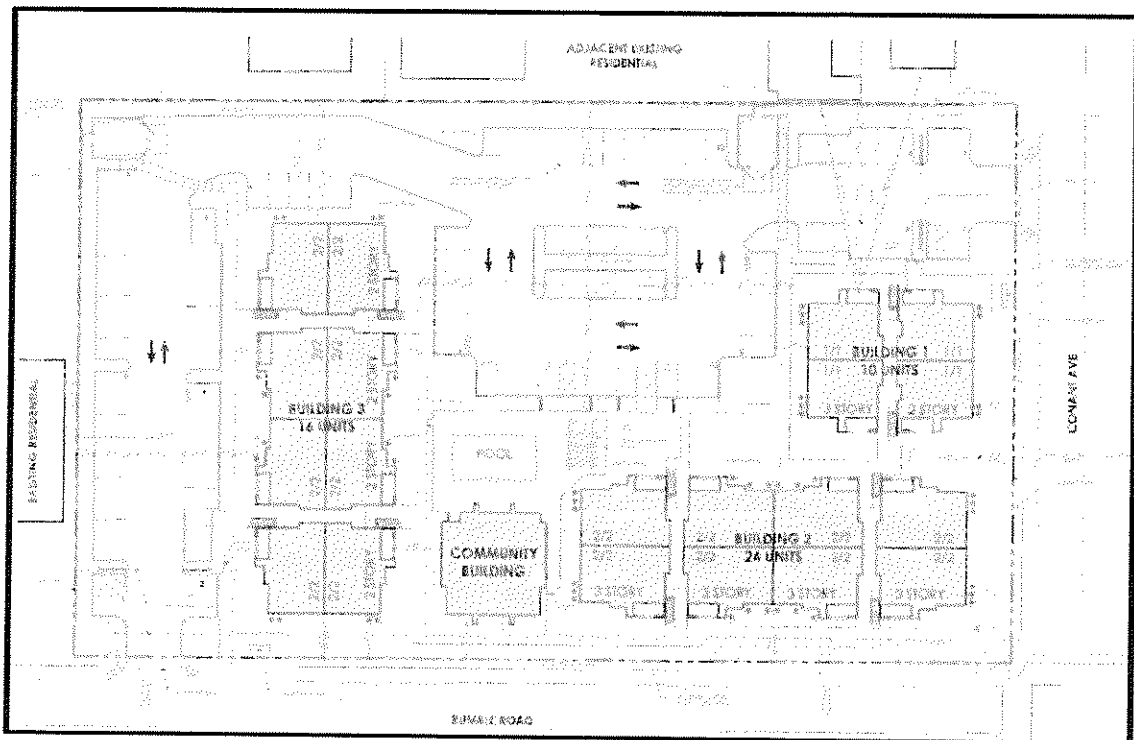

- E. Current General Plan Designation(s): Mixed Use (MU)
- F. Current Zoning Classification(s): Low Density Residential (R-1) Zone
- G. Surrounding Land Uses:
North: Low Density Residential (R-1) Zone, single-family residential

South: Low Density Residential (R-1) Zone, single-family residential; Medium Density Residential (R-2) Zone, Chrysler Elementary School
 East: Residential (R-1) Zone, single-family residential
 West: Residential (R-1) Zone, single-family residential; Planned Development P-D(346), Convalescent Hospital

H. Project Description, including the project type listed in Section II.C (Anticipated Future Projects) of the Master EIR (Attach additional maps/support materials as needed for complete record):

Rezone of 2.25 acres of semi-vacant land within the Low Density Residential (R-1) Zone to Planned Development Zone P-D(605) to allow for a 50-unit apartment complex with associated off-street parking areas and community building/pool amenities.

**SITE PLAN
PDZ-18-001**

I. Other Public Agencies Whose Approval is Required: None.

III. FINDINGS/DETERMINATION (SELECT ONE ON THE BASIS OF THE ANALYSIS IN SECTION IV)

1. **Within the Scope** - The project is within the scope of the Master EIR and no new environmental document or Public Resources Code Section 21081 findings are required. All of the following statements are found to be true:

- A. The subsequent project will have no additional significant effect on the environment, as defined in subdivision (d) of Section 21158 of the Public Resources Code, that was not identified in the Master EIR.
- B. No new or additional mitigation measures or alternatives are required.
- C. The subsequent project is within the scope of the project covered by the Master EIR.
- D. All applicable policies, regulations, and mitigation measures identified in the Master EIR have been applied to the subsequent project or otherwise made conditions of approval of the subsequent project.
- E. No substantial changes have occurred with respect to the circumstances under which the Master EIR was certified, and no new information, which was not known and could not have been known at the time that the Master EIR was certified as complete, has become available.

2. **Mitigated Negative Declaration Required** - On the basis of the above determinations, the project is not within the scope of the Master EIR. A mitigated negative declaration will be prepared for the project. The following statements are all found to be true:

- A. The subsequent project is within the scope of the project covered by the Master EIR.
- B. All applicable policies, regulations, and mitigation measures identified in the Master EIR have been applied to the subsequent project or otherwise made conditions of approval of the subsequent project.
- C. The project will have one or more potential new significant effects on the environment that were not addressed as significant effects in the Master EIR. New or additional mitigation measures are being required of the project that will reduce the effects to a less-than-significant level.
- D. No substantial changes have occurred with respect to the circumstances under which the Master EIR was certified, and no new information, which was not known and could not have been known at the time that the Master EIR was certified as complete, has become available.

3. **Focused EIR Required**- On the basis of the above determinations, the project is not within the scope of the Master EIR. A Focused EIR will be prepared for the project. All of the following statements are found to be true:

- A. The subsequent project is within the scope of the project covered by the Master EIR.

- B. All applicable policies, regulations, and mitigation measures identified in the Master EIR have been applied to the subsequent project or otherwise made conditions of approval of the subsequent project.
- C. The project will have one or more new significant effects on the environment that were not addressed as significant effects in the Master EIR. New or additional mitigation measures or alternatives are required as a result.
- D. No substantial changes have occurred with respect to the circumstances under which the Master EIR was certified, and no new information, which was not known and could not have been known at the time that the Master EIR was certified as complete, has become available.

	Associate Planner	September 7, 2018
Project Manager	Title	Date

4. Within the Scope Analysis of this Document:

The Master EIR allows projects to be found within the scope of the MEIR if certain criteria are met. If the following statements are found to be true for all 21 impact categories included in this Initial Study, then the proposed project is addressed by the MEIR analysis and is within the scope of the MEIR. Any "No" response must be discussed.

		YES	NO
(1)	The lead agency for subsequent projects shall be the City of Modesto or a responsible agency identified in the Master EIR.	<input checked="" type="checkbox"/>	<input type="checkbox"/>
(2)	City policies which reduce, avoid, or mitigate environmental effects will continue to be in effect and, therefore, would be applied to subsequent projects where appropriate. The policies are described in the list of policies in place and mitigation measures attached to the Initial Study template. Project impacts would be mitigated to a less-than-significant level using MEIR mitigations only.	<input checked="" type="checkbox"/>	<input type="checkbox"/>
(3)	Federal, State, regional, and Stanislaus County regulations do not change in a manner that is less restrictive on development than current law (i.e., would not offer the same level of protection assumed under the Master EIR).	<input checked="" type="checkbox"/>	<input type="checkbox"/>
(4)	No specific information concerning the known or potential presence of significant resources is identified in future reports, or through formal or informal input received from responsible or trustee agencies or other qualified sources.	<input checked="" type="checkbox"/>	<input type="checkbox"/>
(5)	The development will occur within the boundaries of the City's planning area as established in this Urban Area General Plan.	<input checked="" type="checkbox"/>	<input type="checkbox"/>
(6)	Development within the project will comply with all appropriate mitigation measures contained and enumerated in the 2008 General Plan Master EIR.	<input checked="" type="checkbox"/>	<input type="checkbox"/>

5. Currency of the Master EIR Document

The MEIR should be reviewed on a regular basis to determine its currency, and whether additional analysis/mitigation should be incorporated into the MEIR via a Supplemental or Subsequent EIR (CEQA Section 21157.6). Staff has reviewed Sections 1 through 21 of this document in light of the criteria listed below to determine whether the MEIR is current. The analysis contained within the Master EIR is current as long as the following circumstances have not changed. Any "no" response must be explained.

		YES	NO
(1)	Certification of the General Plan Master EIR occurred less than five years prior to the filing of the application for this subsequent project.	<input type="checkbox"/>	<input checked="" type="checkbox"/>
(2)	This project is described in the Master EIR and its approval will not affect the adequacy of the Master EIR for any subsequent project because the City can make the following findings:	<input checked="" type="checkbox"/>	<input type="checkbox"/>
(a)	No substantial changes have occurred with respect to the circumstances under which the Master EIR was certified.	<input checked="" type="checkbox"/>	<input type="checkbox"/>
(b)	No new information, which was not known and could not have been known at the time the Master EIR was certified as complete, has become available.	<input checked="" type="checkbox"/>	<input type="checkbox"/>
(c)	Policies remain in effect which require site-specific mitigation, and avoidance or other mitigation of impacts as a prerequisite to future development.	<input checked="" type="checkbox"/>	<input type="checkbox"/>

c. Project-Specific Effects

Section V-1.B of the Master EIR provides analysis of Traffic and Circulation impacts of development of the General Plan, the following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: A subsequent development project will have a new significant effect on the environment if it would exceed the following criteria:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
1. TRAFFIC AND CIRCULATION				
1) The proposed project exceeds traffic generation assumptions in the Master EIR for the site by 100 trips or more and City Engineering and Transportation staff has determined that the project would have additional potentially significant project-specific effects that are not avoided or reduced by the Master EIR's mitigation measures.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
2) Exceed, either individually or cumulatively, a level of service standard established by the county congestion management agency for designated roads or highways?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
3) The proposed project would cause additional roadway segments in the General Plan area to exceed LOS D and/or cause additional violations of standards in the Congestion Management Plan, and/or cause an increase in automobile vehicle miles or vehicle hours of travel or a decrease in automobile travel speed, as compared to the impacts disclosed in the Master EIR.	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
4) The proposed project would cause emergency response times to exceed acceptable standards established by the Fire Department, as compared to impacts disclosed in the Master EIR (see Section 14, Increased Demand for Fire Services).	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
5) The proposed project would result in less parking than required by the Municipal Code or as determined by staff.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
6) The proposed project would conflict with adopted policies, plans, or programs that support alternative transportation, including, but not limited to the Regional Transportation Plan, the Sustainable Communities Strategy, the Bicycle Action Plan, etc.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
7) The proposed project would result in an increase in automobile vehicle miles traveled on a per capita	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
basis, in excess of that considered in the Urban Area General Plan MEIR.				

Discussion:

- (1) The project consists of a rezone of 2.25 acres in the Baseline Developed Area from the Low Density Residential (R-1) Zone to Planned Development to allow for a 50-unit apartment complex. The project was referred to Land Development Engineering, Traffic, who indicated no concerns with traffic volumes exceeding 100 trips.
- (2) The rezone would facilitate the construction of 50 new apartment dwelling units. The project was referred out to Community and Economic Development, Traffic Engineering, who indicated no concerns that the project would exceed a level of service standard established by the county congestion management agency (StanCOG).
- (3) No indication of concern was given by Land Development Engineering, Traffic with regards to level of service, or violations of standards in the Congestion Management Plan, or any increase in automobile vehicle miles or vehicle hours of travel or decrease in automobile travel speed, as compared to the impacts disclosed in the Master EIR. The project will provide for improvements along both street frontages including new curb, gutter and sidewalk, provide for two gated entrances for residences with the main gate for residents and visitors, and transit stops to the Modesto Area Express (MAX) are available at the intersection of Rumble and Conant and further north on Conant Avenue.
- (4) Police and Fire Staff have reviewed this proposal and have indicated that there is no emergency access problem.
- (5) The proposed apartment complex will provide parking in accordance with the Municipal Code.
- (6) Traffic Staff have reviewed this proposal and indicated no issues with adopted plans for alternative transportation. Bus stops exist at the opposite corner of Rumble Road and Conant Avenue, and on Conant Avenue 570-feet north of the complex's main entrance.
- (7) The proposed project would not result in a significant increase in automobile vehicle miles traveled (per capita) in excess of what was considered in the Urban Area General Plan.

2. DEGRADATION OF AIR QUALITY

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable air quality impacts expected after application of mitigations / policies:

Direct Impacts

Effect: Expected automobile traffic will result in increased operational emissions of reactive organic gases (ROG) and oxides of nitrogen (NO_x) (see MEIR Table 2-8, page V-2-27).

Effect: Expected automobile traffic will result in increased emissions of particulate matter 10 microns or less (PM₁₀) and 2.5 microns or less in diameter (PM_{2.5}) (see MEIR Table 2-8, page V-2-27).

Effect: Expected automobile traffic will result in increased carbon monoxide (CO) levels in the project area (see MEIR Table 2-7, page V-2-26, and Table 2-8, page V-2-27).

Cumulative Impacts

The Master EIR indicates the same impacts identified as direct impacts above will contribute to regional impacts on air quality for the criteria pollutants ROG, NO_x, PM₁₀, and PM_{2.5}.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Air quality mitigation measure(s) pertinent to the proposed project are found on pages V-2-13 through V-2-24 of the Master EIR. All mitigation measures appropriate to the project will be incorporated into or made conditions of approval of this project and are listed in Section V, Mitigation Measures Applied to Project.

Discussion:

The appropriate mitigation to be applied to this project includes AQ-42 through AQ-50 and AQ-53 through AQ-56 from the MEIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-2.B of the Master EIR is the analysis of air quality impacts resulting from development of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not analyzed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
2. DEGRADATION OF AIR QUALITY				
1) The proposed project exceeds the project-level emissions thresholds established for CO, ROG, NO _x , PM ₁₀ , and PM _{2.5} by the San Joaquin Valley Air Pollution Control District (SJVUAPCD) and is not consistent with the development assumptions for the project site, as established in the Urban Area General Plan and Master EIR.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
2) The proposed project does not incorporate the	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
best management practices established by the SJVAPCD for CO, ROG, NO _x , PM ₁₀ , and PM _{2.5} .				
3) The proposed project does not comply with the air quality policies in the Modesto Urban Area General Plan.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
4) The proposed project would expose sensitive receptors to pollutant concentrations in excess of those expected to occur as a result of implementation of the Urban Area General Plan.	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
5) The proposed project would create objectionable odors affecting a substantial number of people.	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>

Discussion:

- (1) The project consists of a rezone of 2.25 acres in the Baseline Developed Area from the Low Density Residential (R-1) Zone to Planned Development to allow for a 50-unit apartment complex. The subsequent project would not exceed emissions thresholds established by the SJVUAPCD, and is consistent with the development standards for a residential use as established by the General Plan.
- (2) Development of the site will be required to adhere to applicable City Zoning Ordinances, Standards, and applicable best management practices during the construction process.
- (3) The project would comply with the air quality policies in the Modesto Urban Area General Plan.
- (4-5) The project upon completion would not expose sensitive receptors to pollutant concentrations or odors in excess of those expected to occur as a result of implementation of the Urban Area General Plan. Construction activities may create dust or odors but would be temporary and reduced to a less than significant level with implementation of the mitigation measures above.

3. GENERATION OF NOISE

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable noise impacts expected after application of mitigations / policies:

Direct Impacts

Effect: Future automobile traffic noise levels and roadway construction and maintenance activities resulting from development of the Urban Area General Plan will exceed the City's noise thresholds at various locations, but particularly in areas adjacent to heavily traveled roadways (see MEIR Table 3-3, page V-3-10, and Figure VII-2 and Table 3-6, pages V-3-18 and V-3-19).

Effect: Expected noise from airport operations and airport construction projects may expose up to 468 dwellings and three churches to noise levels of 65 dB CNEL and up to eight dwellings to noise levels of 70 dB CNEL.

Effect: Expose noise-sensitive land uses to noise from the construction of bicycle and transit projects.

Effect: Expose noise-sensitive land uses to noise from freight and passenger rail operations.

Cumulative Impacts

Effect: Traffic from development in the City of Modesto would, when combined with traffic from new development in the County and other cities, contribute to a cumulative increase in roadside noise levels on major roads and highways throughout Stanislaus County.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Noise policies and mitigation measures pertinent to the project being analyzed in this Initial Study are found on pages V-3-11 through V-3-15 of the Master EIR. All mitigation measures appropriate to the project will be incorporated into or made conditions of approval of this project and any new measures are listed in Section V, Mitigation Applied to Project.

Discussion:

The appropriate mitigation to be applied to this project includes N-1 through N-3 from the Master EIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-3.B of the MEIR discloses noise impacts resulting from development of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not analyzed in the Master EIR.

Significance Criteria: Determination of the proposed project’s effects are based on the following thresholds. Project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
3. GENERATION OF NOISE				
1) The proposed project will exceed the standards for noise level and hours of operation established by the Modesto noise ordinance.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
2) The proposed project will not comply with the noise policies of, or otherwise be inconsistent with, the Modesto Urban Area General Plan.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
3) The proposed project will result in an increase in ambient noise levels in the project vicinity above	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
those disclosed in the Master EIR.				
4) The proposed project will result in a substantial temporary or periodic increase in ambient noise levels in the project vicinity above levels disclosed in the Master EIR implementation of the Urban Area General Plan.	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>

Discussion:

- (1) The project consists of a rezone of 2.25 acres in the Baseline Developed Area from the Low Density Residential (R-1) Zone to Planned Development to allow for a 50-unit apartment complex. The subsequent development would be required to adhere to the City's noise ordinance.
- (2-4) The subsequent residential use would not be inconsistent the noise policies of the General Plan, nor result in ambient noise levels above those assumed by the General Plan for a residential use. Any increase in ambient noise levels would be construction-related and temporary in the process of developing the apartment complex after adoption of the rezone.

4. EFFECTS ON AGRICULTURAL LANDS

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on agricultural lands expected after application of mitigations / policies:

Direct Impacts

Effect: Between 1995 and 2025, development of the Urban Area General Plan may convert up to approximately 26,000 acres of farmland in various categories in the Planned Urbanizing Area to urban uses.

Effect: Approximately 1,200 acres of urban development along a 28.5-mile boundary 350 feet wide between urban and agricultural uses could be affected by continued agricultural operations, including noise, dust, and chemical overspray or drift.

Cumulative Impacts

Effect: Growth within Modesto's planning area would contribute considerably to the loss of agricultural land within Stanislaus County, accounting for the conversion of as much as approximately 26,000 acres of farmland in various categories in the Planned Urbanizing Area from 1995 to 2025.

b. Master EIR and/or New Mitigation Measures Pertinent to the Project

Agricultural land mitigation measures pertinent to the proposed project are found on pages V-4-6 to and V-4-8 of the Master EIR. All mitigation measures appropriate to the project and any new mitigation to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Applied to Project.

Discussion:

No mitigation measures regarding agricultural lands from the Master EIR are required. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-4.B of the Master EIR discloses the impacts resulting from the implementation of the Urban Area General Plan on agricultural lands. The following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not previously analyzed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
4. EFFECTS ON AGRICULTURAL LANDS				
1) The proposed project is inconsistent with the Urban Area General Plan’s policies relating to agricultural land.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
2) The proposed project will either directly or indirectly result in the development of land outside the 2008 Urban Area General Plan’s planning area boundary.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
3) The proposed project will conflict with existing zoning for agricultural use, or there is an existing Williamson Act contract on the project site.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
4) The proposed project will involve other changes in the existing environment not anticipated in the Master EIR which, due to their location or nature, could result in conversion of farmland to non-agricultural use.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Discussion:

- (1) The project is a semi-vacant infill area within the Baseline Developed Area that is not in agricultural production, and is completely surrounded by urbanized area consisting of residential uses including single- and multi-family housing, a convalescent hospital and an

elementary school. The project would therefore not be inconsistent with the General Plan's policies related to agricultural land.

- (2-4) The project site is not zoned for agricultural use, and no Williamson Act contract is in place on the property. The site is surrounded by urban area and would not cause the conversion of farmland to a non-agricultural use.

5. INCREASED DEMAND FOR LONG-TERM WATER SUPPLIES

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on long-term water supplies expected after application of mitigations / policies:

Direct Impacts

Effect: No residual significant direct impacts have been disclosed in the Master EIR.

Cumulative Impacts

Effect: Operational yields of the Modesto and Turlock subbasins, both of which underlie the City of Modesto, are unknown, although the City is participating in a study with the United States Geological Survey in order to quantify the operational yields of both subbasins. Groundwater withdrawals from both basins by the City, when combined with other users' withdrawals, may result in overdrafting both subbasins.

Effect: Despite available options, during drought years, significant water shortages are forecast for the San Joaquin River basin, which includes both the Modesto and Turlock subbasins, by 2020. Modesto would make a cumulatively considerable contribution to the cumulative impact on water supply under drought conditions.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Water supply mitigation measures pertinent to the proposed project are found on pages V-5-6 through V-5-12 of the Master EIR. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Measures Applied to Project.

Discussion:

No mitigation measures regarding water supply from the Master EIR are required. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-5.B of the Master EIR discloses impacts on long-term water supplies resulting from implementation of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
5. INCREASED DEMAND FOR LONG-TERM WATER SUPPLIES				
1) The proposed project is inconsistent with water supply policies in the Urban Area General Plan.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
2) Water demand for the proposed project will exceed estimates for similar projects or for development on the project site anticipated in the Urban Area General Plan or sufficient water supplies are not otherwise available to serve the project from existing entitlements and resources.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
3) The proposed project would deplete groundwater supplies to a greater degree than anticipated in the Urban Area General Plan or would interfere with groundwater recharge.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Discussion:

- (1) The project is consistent with the water supply policies in the General Plan.
- (2) The project was referred to Land Development Engineering Staff who indicated no concerns with water supply to the project. The proposed development will not exceed estimates or water supplies needed to serve other entitlements and resources.
- (3) The proposed project is consistent with the ground water demands assumed in the General Plan. The project would not have a significant effect on ground water recharge or depletion of long-term water supplies.

6. INCREASED DEMAND FOR SANITARY SEWER SERVICES

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on sanitary sewer services after application of mitigations / policies:

Direct Impacts

Effect: Development resulting from implementation of the Urban Area General Plan will require substantial new sewage treatment and disposal capacity, treatment plant improvements, sewer mains and collection lines, and pump stations. The Wastewater Master Plan anticipates the need for these facilities and its EIR evaluates the impact of developing those facilities. Potential impacts include degradation of water quality through erosion and chemical releases; localized flooding; and construction noise. All of these impacts are mitigated to a less-than-significant level.

Additional impacts that are not mitigated to a less-than-significant level include loss of farmland caused by construction of the Phase IA tertiary treatment facility at the Jennings Road Secondary Treatment Facility, an increase in pollutant loads from increased wastewater flows to the San Joaquin River, and an increase in noise and criteria air pollutants due to construction activities, including traffic.

Cumulative Impacts

Effect: No additional cumulative impacts were identified in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Sewer service mitigation measures pertinent to the proposed project are found on pages V-6-3 through V-6-8 of the Master EIR. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Measures Applied to Project.

Discussion:

No mitigation measures from the Master EIR are required. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-6.B of the Master EIR discloses impacts on the Increased Demand for Sanitary Sewer Service resulting from implementation of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
6. INCREASED DEMAND FOR SANITARY SEWER SERVICES				
1) The proposed project is inconsistent with wastewater policies in the Urban Area General Plan.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
2) The proposed project will generate sewage flows greater than those anticipated in the Urban Area General Plan for the project site.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
3) The proposed project will result in a determination by the wastewater treatment provider which serves or may serve the project that it has inadequate capacity to serve the project's projected demand in addition to the provider's existing commitments.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Discussion:

- (1) The project consists of a rezone of 2.25 acres in the Baseline Developed Area from the Low Density Residential (R-1) Zone to Planned Development to allow for a 50-unit apartment complex. The project would be consistent with the General Plan's policies relating to wastewater and conform to applicable City Zoning Codes and Standards.
- (2-3) The project would not generate sewage flows greater than estimates for a project of similar uses. The project was referred to Land Development Engineering, who indicated no concerns with the project.

7. LOSS OF SENSITIVE WILDLIFE AND PLANT HABITAT

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on sensitive wildlife and plant habitat expected after application of mitigations / policies:

Direct Impacts

Effect: No residual significant impacts on sensitive wildlife and plant habitat are expected to occur with the application of the policies contained in the Urban Area General Plan.

Cumulative Impacts

Effect: Implementation of the Urban Area General Plan will contribute to the cumulative impact of habitat loss in the San Joaquin Valley. Requiring denser development than has occurred in the past or that is expected in the future would minimize the City's contribution to the cumulative loss of habitat. Nonetheless, this is a significant and unavoidable impact.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Wildlife and plant habitat mitigation measures pertinent to the proposed project are found on pages V-7-17 through V-7-24 of the Master EIR. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Measures Applied to Project.

Discussion:

No mitigation measures from the Master EIR are required. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-7.B of the Master EIR discloses impacts on the Loss of Sensitive Wildlife and Plant Habitat resulting from implementation of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
7. LOSS OF SENSITIVE WILDLIFE AND PLANT HABITAT				
1) The project is inconsistent with the policies pertaining to the loss of sensitive wildlife and plant habitat contained in the Urban Area General Plan.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
2) Consultation with the California Department of Fish and Game or the U.S. Fish and Wildlife Service determines that the project would have a significant effect on a candidate, sensitive, or special status species in excess of the impact disclosed in the Master EIR.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
3) The proposed project would have a substantial adverse effect on federally protected wetlands as defined by Section 404 of the Clean Water Act through direct removal, filling, hydrological interruption, or other means, in excess of the impact disclosed in the Master EIR.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
4) The proposed project would substantially interfere with the movement of any native resident or migratory fish or wildlife species or with established native resident or migratory wildlife corridors, or impede the use of native wildlife nursery sites.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
5) Conflict with local policies or ordinances protecting biological resources, such as a tree preservation policy or ordinance.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
6) The proposed project would conflict with provisions of an adopted habitat conservation plan, natural community conservation plan, or other approved local, regional, or state habitat conservation plan.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Discussion:

- (1) The project consists of a rezone of 2.25 acres in the Baseline Developed Area from the Low Density Residential (R-1) Zone to Planned Development to allow for a 50-unit apartment complex. The project would not be inconsistent with General Plan policies pertaining to wildlife and plant habitat.
- (2-4) The project site is semi-vacant land with a single-family residence located within the Baseline Developed Area, and is completely surrounded by urban uses. It is not a biologically sensitive

site as defined by Figure V-7-1 of the MEIR. The California Department of Fish and Game and the U.S. Fish and Wildlife Service were consulted in the production of the MEIR.

- (5-6) The project is not in conflict with any local policies or ordinances protecting biological resources, nor is in conflict with any adopted habitat conservation plan.

8. DISTURBANCE OF ARCHAEOLOGICAL/HISTORICAL SITES

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on archaeological/historical sites expected after application of mitigations / policies:

Direct Impacts

Effect: Modification resulting in a substantial adverse change in the significance of a historic resource or the demolition of a listed or eligible historic resource.

Effect: The modification or demolition of a structure more than 50 years in age may be significant.

Effect: Discovery of archaeological resources, in areas outside of the riparian corridors, as a result of construction activities.

Effect: Construction in an area of high archaeological sensitivity.

Cumulative Impacts

Effect: No additional cumulative impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Archaeological or historic mitigation measures pertinent to the project being analyzed in this Initial Study are found on page V-8-16 through V-8-20 of the Master EIR. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Applied to Project:

Discussion:

No mitigation measures from the Master EIR are required. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-8.B of the MEIR discloses impacts on archaeological/historical resources resulting from implementation of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
8. DISTURBANCE OF ARCHAEOLOGICAL/HISTORICAL SITES				
1) The proposed project is inconsistent with the archaeological / historical resource policies in the Urban Area General Plan.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
2) The proposed project would demolish a building eligible for listing as a historic resource or remove a landmark from the Modesto inventory.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
3) The proposed project would modify or demolish a structure more than 50 years old.	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
4) The project would adversely affect a cultural resource that is either listed or eligible for listing in the California Register of Historical Resources.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
5) The project would adversely affect a Tribal Cultural Resource identified and/or defined by the applicable Tribe.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Discussion:

- (1) The project consists of a rezone of 2.25 acres in the Baseline Developed Area from the Low Density Residential (R-1) Zone to Planned Development to allow for a 50-unit apartment complex. The project would not be inconsistent with General Plan policies pertaining to archaeological or historic resources.
- (2-4) The project would demolish an existing single-family residence that according to County Assessor records was built in 1954. However, the residence is not listed as a local cultural resource nor is eligible for listing. The residence is not classified as a building of state or federal historic status nor is eligible for listing for such status.
- (5) The project does not conflict with local policies affecting biological resources.

9. INCREASED DEMAND FOR STORM DRAINAGE

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on storm drainage expected after application of mitigations / policies:

Direct Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR.

Cumulative Impacts

Effect: The population of Stanislaus County is projected to increase in a fashion similar to that of Modesto, resulting in additional urban development and associated increases in impervious surface area and associated increases in storm water runoff. Cumulative hydrologic impacts of storm water flows from Modesto urban areas and other areas of the County could occur due to the fixed capacity of MID and TID irrigation canals to convey drainage west to the San Joaquin River. If drainage channels in some areas prove insufficient to handle the increased drainage discharges, existing storm water runoff from urban and agricultural areas during large storm events would have to be interrupted until water levels receded to a point allowing the resumption of discharges to the channel. Ceasing discharges to drainage channels could cause inundation in and around the drainage conveyance pipeline systems, surface drainage channels, detention basins, and other urban areas. This cumulative impact is considered significant and unavoidable.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Storm Drainage mitigation measures pertinent to the project being analyzed in this Initial Study are found on pages V-9-4 through V-9-9. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Measures Applied to Project:

Discussion:

The appropriate mitigation to be applied to this project includes: SD-7 and SD-9 from the Master EIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-9.B of the MEIR discloses impacts on the demand for storm drainage resulting from development of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
9. INCREASED DEMAND FOR STORM DRAINAGE				
1) The proposed project is inconsistent with the storm drainage policies in the Urban Area General Plan.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
2) The proposed project would substantially increase the rate or amount of surface runoff in a manner that would result in flooding on- or offsite, as compared to impacts anticipated to result from	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
the Urban Area General Plan or create substantial unanticipated sources of polluted runoff.				
3) The proposed project does not utilize Low Impact Development strategies to reduce runoff from the site and increase infiltration, resulting in no net increase in runoff before and after development.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Discussion:

- (1) The project would not be inconsistent with the storm drainage policies of the General Plan.
- (2-3) The project site is a semi-vacant infill parcel. The project will be required to handle and treat storm water runoff on-site in accordance to City Standards.

10. FLOODING AND WATER QUALITY

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on flooding and water quality expected after application of mitigations / policies:

Direct Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR.

Cumulative Impacts

Effect: No residual significant cumulative impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Flooding and Water Quality mitigation measures pertinent to the project being analyzed in this Initial Study are found on pages V-10-6 through V-10-9 of the Master EIR. All mitigation measures appropriate to the project will be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Applied to Project:

Discussion:

The appropriate mitigation to be applied to this project includes: FWQ-12 and FWQ-13 from the Master EIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-10.B of the Master EIR provides analysis of Flooding and Water Quality impacts of development of the General Plan, the following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not previously analyzed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
10. FLOODING AND WATER QUALITY				
1) The proposed project is inconsistent with the flooding and water quality policies in the Urban Area General Plan.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
2) The proposed project does not comply with the regulatory requirements of the federal Clean Water Act or the State Porter-Cologne Act.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
3) The proposed project would place more housing within a 100-year flood hazard zone than assumed in the Urban Area General Plan.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
4) The proposed project would place structure within a 100-year flood hazard area so that they would impede or redirect floodwater or would substantially alter the existing on-site drainage pattern or a watercourse, in such a way as to cause flooding on- or off-site.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
5) The proposed project does not comply with Modesto's Guidance Manual for New Development Storm Water Quality Control Measures.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
6) The proposed project would violate water quality standards or waste discharge requirements.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
7) The proposed project would substantially alter the existing drainage pattern of the site or area or a watercourse in a manner that would result in substantial erosion or siltation on- or offsite in excess of the assumptions of the General Plan.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
8) The proposed project would create or contribute runoff, which would exceed the capacity of existing or planned storm water drainage systems or provide substantial additional sources of polluted runoff, not expected as part of General Plan implementation.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Discussion:

- (1) The proposed project is consistent with the flooding and water quality policies in the Urban Area General Plan.
- (2) The project would comply with the Federal Clean Water Act and the Porter Cologne Act requirements.
- (3-4) The project site is not within a 100-year flood hazard zone as established by the Federal Emergency Management Agency (FEMA).
- (5) The project will comply with the Guidance Manual for New Development Storm Water Quality Control Measures.
- (6) The project will not violate water quality standards or waste discharge requirements.
- (7) The project would not substantially alter the existing drainage pattern of the site, area or a watercourse in a manner that would result in erosion or siltation.
- (8) The development will be required to treat and store on-site storm water drainage. The project was referred to Land Development Engineering who indicated no concerns with the project creating or contributing to runoff in excess of what is expected as part of the General Plan's implementation.

11. INCREASED DEMAND FOR PARKS AND OPEN SPACE

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on parks and open space expected after application of mitigations / policies:

Direct Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR.

Cumulative Impacts

Effect: No residual significant cumulative impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Parks and open space mitigation measures pertinent to the proposed project are found on pages V-11-3 through V-11-9 of the Master EIR. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Applied to Project:

Discussion:

There are no applicable mitigation measures from the Master EIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-11.B of the MEIR discloses impacts of the Urban Area General Plan on parks and open space. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. Project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
11. INCREASED DEMAND FOR PARKS AND OPEN SPACE				
1) The proposed project is inconsistent with the parks and open space policies in the Urban Area General Plan.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
2) The proposed project would eliminate parks or open space.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
3) The proposed project would cause an increase in the use of existing neighborhood and regional parks or other recreational facilities such that substantial physical deterioration of the facility in question would occur or be accelerated or the proposed project would include recreational facilities or require the construction or expansion of recreational facilities which might have an adverse physical effect on the environment.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Discussion:

- (1) The project is consistent with the parks and open space policies in the General Plan.
- (2-3) The project will not impact parks or open space, or cause an increase in the use of existing parks. The project was referred to the Parks Planning Division of Parks, Recreation and Neighborhoods, who indicated no concerns with impact to existing parks.

12. INCREASED DEMAND FOR SCHOOLS

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on school facilities expected after application of mitigations / policies:

Direct Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR. By statute, the impact of new students is considered to be mitigated below a level of significance by payment of school impact fees and the exercise of any or all of the financing options set out in Government Code Section 65997.

Cumulative Impacts

Effect: Similar to direct impacts of implementation of the Urban Area General Plan, no residual significant direct impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Mitigation relies upon the implementation of the policies in place under the Modesto Urban Area General Plan. As long these policies are applied to all subsequent projects, no new mitigation is necessary. Further, payment of school impact fees and compliance with SB 50 is statutorily deemed to be full mitigation of school impacts (Government Code Section 65995).

The following schools mitigation measures on pages V-12-5 through V-12-7 of the Master EIR are pertinent to the proposed project. All mitigation measures appropriate to the project will be incorporated into or made conditions of approval of this project. Those measures are listed in Section V, Mitigation Applied to Project.

Discussion:

There are no applicable mitigation measures from the Master EIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-12.B of the Master EIR discloses impacts resulting from implementation of the Urban Area General Plan associated with increased demand for schools. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
12. INCREASED DEMAND FOR SCHOOLS				
1) The proposed project is inconsistent with the policies relating to schools in the Urban Area General Plan.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
2) The proposed project does not comply with SB 50/Proposition 1A funding provisions, or succeeding	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
measures which state that compliance results in less-than-significant impacts on schools.				

Discussion:

- (1) The project will not conflict with policies related to schools in the General Plan.
- (2) The project would not conflict with SB50/Proposition 1A funding provisions, or succeeding measures.

13. INCREASED DEMAND FOR POLICE SERVICES

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on police services expected after application of mitigations / policies:

Direct Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR.

Cumulative Impacts

Effect: No residual significant cumulative impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Police services mitigation measures pertinent to the proposed project are found on pages V-13-2 through V-13-5 of the Master EIR. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Measures Applied to Project.

Discussion:

There are no applicable mitigation measures from the Master EIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-13.B of the Master EIR discloses impacts on police services resulting from implementation of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
13. INCREASED DEMAND FOR POLICE SERVICES				
1) The proposed project is inconsistent with policies relating to police services in the Urban Area General Plan.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
2) The proposed project would result in the need for new or significantly altered facilities not considered as part of the Urban Area General Plan or Master EIR which could cause new significant environmental impacts in order to maintain acceptable service ratios, response times, or other performance objectives.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Discussion:

- (1) The project is consistent with the policies relating to police services in the General Plan.
- (2) The project would not result in the need for construction of new or significantly altered facilities which could cause new significant environmental impacts in order to maintain acceptable service ratios, response times or other performance objectives. The project was referred to the City Police Department, who indicated no concerns.

14. INCREASED DEMAND FOR FIRE SERVICES

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on fire services expected after application of mitigations / policies:

Direct Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR.

Cumulative Impacts

Effect: No residual significant cumulative impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Fire Services mitigation measure(s) pertinent to the project being analyzed in this Initial Study are found on pages V-14-4 through V-14-7 of the Master EIR. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Measures Applied to Project.

Discussion:

There are no applicable mitigation measures from the Master EIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-14.B of the Master EIR discloses impacts on fire services resulting from implementation of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
14. INCREASED DEMAND FOR FIRE SERVICES				
1) The proposed project is inconsistent with the fire service policies in the Urban Area General Plan.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
2) The proposed project would result in the need for new or significantly altered facilities not considered as part of the Urban Area General Plan or Master EIR which could cause new significant environmental impacts in order to maintain acceptable service ratios, response times, or other performance objectives.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
3) The proposed project, based upon substantial evidence, would cause the erosion or elimination of fire protection services in adjoining fire protection districts.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Discussion:

- (1) The rezone to Planned Development and subsequent development of the apartment complex is consistent with the fire service policies in the General Plan.
- (2) The project would not result in the need for construction of new or significantly altered facilities which could cause new significant environmental impacts in order to maintain acceptable service ratios, response times or other performance objectives.
- (3) The project would not cause the erosion or elimination of fire protection services. Development of the apartment complex will meet City Standards for emergency services access.

15. GENERATION OF SOLID WASTE

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on solid waste expected after application of mitigations / policies:

Direct Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR.

Cumulative Impacts

Effect: No residual significant cumulative impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Solid waste mitigation measures pertinent to the proposed project are found on pages V-15-4 through V-15-7 of the Master EIR. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Applied to Project.

Discussion:

There are no applicable mitigation measures from the Master EIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-15.B of the Master EIR discloses solid waste impacts resulting from implementation of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. Project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
15. GENERATION OF SOLID WASTE				
1) The project is inconsistent with the solid waste policies in the Urban Area General Plan.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
2) The County is unable to expand its solid waste disposal capacity, as expected, causing all new development to result in cumulative impacts on the	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
County's disposal capacity.				

Discussion:

- (1) The project is consistent with the solid waste policies in the General Plan.
- (2) The project would not cause an impact to the disposal capacity of solid waste facilities in the County.

16. GENERATION OF HAZARDOUS MATERIALS

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts regarding hazardous materials expected after application of mitigations / policies:

Direct Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR.

Cumulative Impacts

Effect: No residual significant cumulative impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Hazardous materials mitigation measures pertinent to the proposed project are found on pages V-16-8 through V-16-13 of the Master EIR. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Measures Applied to Project.

Discussion:

There are no applicable mitigation measures from the Master EIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-16.B of the Master EIR discloses impacts on hazardous materials resulting from implementation of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
16. GENERATION OF HAZARDOUS MATERIALS				
1) The project is inconsistent with the hazardous materials policies in the Urban Area General Plan.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
2) The proposed project would emit hazardous emissions or handle hazardous or acutely hazardous materials, substances, or waste within one-quarter mile of an existing or proposed school.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
3) The proposed project would be located on a site which is included on a list of hazardous materials sites compiled pursuant to Government Code Section 65962.5 and as a result, would create a significant hazard to the public or the environment.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
4) The proposed project would be constructed on a contaminated site not known to the State of California as of March 2008.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Discussion:

- (1) The project is consistent with the hazardous materials policies in the General Plan.
- (2) The project will comply with all applicable federal, state, and county standards and regulations relative to the handling, storage, disposal, and transport of hazardous or toxic materials or wastes. (No hazardous materials will be involved with this project).
- (3) The project is not located on a site which is included on a list of hazardous materials sites compiled pursuant to Government Code Section 65962.5 and as a result, would not create a significant hazard to the public or the environment.
- (4) The project site is not known to contain any contaminants.

17. GEOLOGY, SOILS, AND MINERAL RESOURCES

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts related to geology, soils, and mineral resources expected after application of mitigations / policies:

Direct Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR.

Cumulative Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Geology, soils, and mineral resource mitigation measures pertinent to the proposed project are found on pages V-17-9 and V-17-10 of the Master EIR. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of the proposed project are listed in Section V, Mitigation Measures Applied to Project.

Discussion:

There are no applicable mitigation measures from the Master EIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-17.B of the Master EIR discloses geology, soils, and mineral resource impacts resulting from implementation of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. Project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
17. GEOLOGY, SOILS, AND MINERAL RESOURCES				
1) The project is inconsistent with policies relating to geology, soils, and mineral resources contained in the Urban Area General Plan.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
2) The proposed project would expose people or structures to potential substantial adverse effects including the risk off loss, injury, or death involving fault rupture, strong seismic activity; location on an expansive soil; result in the loss of topsoil; location on soils incapable of adequately supporting the use of septic tanks or alternative wastewater disposal systems in areas where sewers are not available for the disposal of wastewater; result in the loss of known mineral resources that would be of value to the region and the state; or result in the loss of availability of a locally important mineral resource recovery site delineated on a local general plan, specific plan, or other land use plan.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Discussion:

- (1) The project is consistent with policies relating to geology, soils, and mineral resources in the General Plan.
- (2) The project site is not located on soil that is unstable, or that would become unstable as a result of the project. There are no known mineral resources of value to the region and the state on the property.

18. ENERGY

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts pertaining to energy expected after application of mitigations / policies:

Direct Impacts

Effect: Continued development in the Planned Urbanizing Area would have an impact on available energy supplies. Energy consumption likely would increase substantially by 2025 as a result of implementation of the Urban Area General Plan.

Cumulative Impacts

Effect: Implementation of the Urban Area General Plan will have a cumulatively considerable impact on energy consumption.

b. Master EIR and/or New Mitigation Measures Applied to the Project

The following energy mitigation measures pertinent to the proposed project are found on pages V-18-2 through V-18-8 in the Master EIR. All mitigation measures appropriate to the project will be incorporated into or made conditions of approval of this project. Those measures will be listed in Section V, Mitigation Applied to Project.

Discussion:

There are no applicable mitigation measures from the Master EIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-18.B of the Master EIR discloses impacts of implementing the Urban Area General Plan on energy resources. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
18. ENERGY				
1) The proposed project is inconsistent with policies relating to energy in the Urban Area General Plan.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
2) The proposed project would result in energy consumption during construction, operation, maintenance, or removal that is more wasteful, inefficient, and unnecessary than assumed in the Urban Area General Plan.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Discussion:

- (1) The project is consistent with the energy policies in the General Plan.
- (2) The project would not result in energy consumption during construction, operation, maintenance or removal that is more wasteful, inefficient and unnecessary than assumed in the General Plan.

19. EFFECTS ON VISUAL RESOURCES

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on visual resources expected after application of mitigations / policies:

Direct Impacts

Effect: New development in the Planned Urbanizing Area will occur in areas that are in agricultural production or are otherwise lightly developed, which could lead to the introduction of light and glare in areas that have little nighttime illumination.

Cumulative Impacts

Effect: No additional cumulative impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

The following visual resources mitigation measures pertinent to the proposed project are found on pages V-19-3 and V-19-4 in the Master EIR. All mitigation measures appropriate to the proposed project will be incorporated into or made conditions of approval of this project. Those measures will be listed in Section V, Mitigation Applied to Project.

Discussion:

There are no applicable mitigation measures from the Master EIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-18.B of the Master EIR discloses impacts of implementing the Urban Area General Plan on energy resources. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
19. EFFECTS ON VISUAL RESOURCES				
1) The proposed project is inconsistent with policies relating to visual resources in the Urban Area General Plan.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
2) The proposed project would degrade views from riverside areas and parks to a greater degree than assumed in the Urban Area General Plan.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
3) The proposed project would degrade views of riverside areas from public roadways and nearby properties to a greater degree than assumed in the Urban Area General Plan.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Discussion:

- (1) The project is consistent with the policies relating the visual resources in the General Plan.
- (2-3) The project would not impact views from riverside areas and parks, nor would degrade views of riverside areas and parks from public roadways.

20. LAND USE AND PLANNING

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts pertaining to land use and planning expected after application of mitigations / policies:

Direct Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR.

Cumulative Impacts

Effect: No residual significant cumulative impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

The following land use and planning mitigation measures pertinent to the proposed project are found on pages V-20-6 through V-20-17 in the Master EIR. All mitigation measures appropriate to the project will be incorporated into or made conditions of approval of this project. Those measures will be listed in Section V, Mitigation Applied to Project.

Discussion:

There are no applicable mitigation measures from the Master EIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-20.B of the Master EIR discloses impacts of implementing the Urban Area General Plan on land use and planning. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
20. LAND USE AND PLANNING				
1) The proposed project is inconsistent with land use and planning policies in the Urban Area General Plan.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
2) The proposed project contains elements that would physically divide an established community in a way not assumed in the Urban Area General Plan.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
3) The proposed project conflicts with a land use plan, policy or regulation established for the purpose of avoiding or mitigating an environmental impact by an agency that has jurisdiction over the proposed project.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
4) The proposed project conflicts with an applicable habitat conservation plan or natural community conservation plan.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Discussion:

- (1) The project would not be inconsistent with land use and planning policies in the General Plan.

- (2) The project would not divide an established community. The site is a 2.25 acre infill property surrounded by urban uses.
- (3) The project is consistent with the land use plan, policies and regulations of the City of Modesto designed to mitigate project impacts.
- (4) The project does not conflict with applicable habitat conservation plans or natural community conservation plans.

21. CLIMATE CHANGE

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts pertaining to climate change expected after application of mitigations / policies:

Direct Impacts

Effect: Impacts resulting from implementation of the Urban Area General Plan are not substantial enough to result in a significant direct impact on climate change, as disclosed in the Master EIR.

Cumulative Impacts

Effect: Implementation of the Urban Area General Plan will have a cumulatively considerable impact on climate change.

b. Master EIR and/or New Mitigation Measures Applied to the Project

The following climate change mitigation measures pertinent to the proposed project are found on pages V-21-7 through V-21-10 in the Master EIR. All mitigation measures appropriate to the project will be incorporated into or made conditions of approval of this project. Those measures will be listed in Section V, Mitigation Applied to Project.

Discussion:

There are no applicable mitigation measures from the Master EIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-18.B of the Master EIR discloses impacts of implementing the Urban Area General Plan on climate change. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
21. CLIMATE CHANGE				
1) The proposed project is inconsistent with policies relating to climate change in the Urban Area General Plan.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
2) The proposed project would result in average automobile trip lengths or CO ₂ emissions higher than those assumed in the Master EIR.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
3) The proposed project would conflict with the Sustainable Communities Strategy or Alternative Planning Strategy that the Air Resources Board has agreed will achieve the goals of AB 32.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Discussion:

- (1) The project is consistent with the policies relating to climate change in the Urban Area General Plan. The project would not have a significance effect on climate change.
- (2) The project would not affect automobile trip lengths or CO₂ emissions.
- (3) A Sustainable Communities Strategy has not yet been implemented by the ARB. Future development will be required to comply with the provisions of the Sustainable Communities Strategy once it is established.

V. MITIGATION MEASURES APPLIED TO THE PROPOSED PROJECT

If the Initial Study results in the determination that a Finding of Conformance can be adopted for the proposed project Section A below applies. If the Initial Study results in the determination that a Finding of Conformance cannot be adopted and a Mitigated Negative Declaration/EIR must be prepared for the project then Section B, below applies.

A. Master EIR Mitigation Measures Applied to the Project

Pursuant to Public Resources Code Section 21157.1(c), in order for a Finding of Conformance to be made, all appropriate mitigation measures from the Master EIR shall be incorporated into the proposed project. Urban Area General Plan Policies/Master EIR mitigation measures shall be made part of the proposed project prior to approval by means of conditions of project approval or incorporation into the appropriate document or plan.

All applicable and appropriate mitigation measures have been applied to the project (see mitigation measures listed below).

B. New or Additional Mitigation Measures or Alternatives Required

Where the project's effects would exceed the significance criteria for each environmental impact category, a mitigated negative declaration or Focused EIR must be prepared. Staff has reviewed the project against the significance criteria thresholds established in the Master EIR for all impact categories in this Initial Study.

A Mitigated Negative Declaration or Focused EIR shall be prepared for the project. The following additional project-specific mitigation measures listed below are necessary to reduce the identified new significant effect:

Traffic and Circulation:

N/A

Degradation of Air Quality:

AQ-42: All disturbed areas, including storage piles, which are not being actively utilized for construction purposes, shall be effectively stabilized of dust emissions using water, chemical stabilizer/suppressant, covered with a tarp or other suitable cover or vegetative ground cover.

AQ-43: All on-site unpaved roads and off-site unpaved access roads shall be effectively stabilized of dust emissions using water or chemical stabilizer/suppressant.

AQ-44: All land clearing, grubbing, scraping, excavation, land leveling, grading, cut & fill, and demolition activities shall be effectively controlled of fugitive dust emissions utilizing application of water or by presoaking.

AQ-46: When materials are transported off-site, all material shall be covered, or effectively wetted to limit visible dust emissions, and at least six inches of freeboard space from the top of the container shall be maintained.

AQ-47: All operations shall limit or expeditiously remove the accumulation of mud or dirt from adjacent public streets at the end of each workday. (the use of dry rotary brushes is expressly prohibited except where preceded or accompanied by sufficient wetting to limit the visible dust emissions.) (Use of blower devices is expressly forbidden.)

AQ-48: Following the addition of materials to, or the removal of materials from, the surface of outdoor storage piles, said piles shall be effectively stabilized of fugitive dust emissions utilizing sufficient water or chemical stabilizer/suppressant.

AQ-49: Within urban areas, track out shall be immediately removed when it extends 50 or more feet from the site and at the end of each workday.

AQ-50: Any site with 150 or more vehicle trips per day shall prevent carryout and track out.

The following measures are strongly encouraged at construction sites that are large in area, located near sensitive receptors, or which for any other reason warrant additional emissions reductions:

AQ-53: Install wheel washers for all exiting trucks, or wash off all trucks and equipment leaving the site; (General Plan Policy VII-H.2[vv])

AQ-54: Install wind breaks at windward side(s) of construction areas; (General Plan Policy VII-H.2[ww])

AQ-55: Suspend excavation and grading activity when winds exceed 20 mph (regardless of windspeed, an owner/operator must comply with Regulation VIII's 20 percent (20%) opacity limitation); (General Plan Policy VII-H.2[xx])

AQ-56: Limit the area subject to excavation, grading, and other construction activity at any one time. (General Plan Policy VII-H.2[yy])

Generation of Noise:

N-1: The City has also established a noise ordinance to control noise within the City. The City's noise ordinance (Modesto Municipal Code Section 4-9.101) prohibits the "loud and raucous discharge into the open air of the steam of any steam equipment or exhaust from any stationary internal-combustion engine."

N-2: Additionally, the noise ordinance prohibits the loud and raucous operation or use of any of the following before 7:00 a.m. or after 9:00 p.m. daily (except Saturday and Sunday and state or federal holidays, when the prohibited time shall be before 9:00 a.m. and after 9:00 p.m.):

A hammer, or any other device or implement used to pound or strike an object.

1. An impact wrench, or other tool or equipment powered by compressed air.
2. A hand-powered saw.
3. Any tool or piece of equipment powered by an internal-combustion engine such as, but not limited to, chain saw, backpack blower, and lawn mower.
4. Any electrically powered (whether by alternating current electricity or by direct current electricity) tool or piece of equipment used for cutting, drilling, or shaping wood, plastic, metal, or other materials or objects, such as, but not limited to, a saw, drill, lathe, or router.

5. Any of the following: heavy equipment (such as but not limited to bulldozer, steam shovel, road grader, back hoe), ground drilling and boring equipment (such as but not limited to derrick or dredge), hydraulic crane and boom equipment, portable power generator or pump, pavement equipment (such as but not limited to pneumatic hammer, pavement breaker, tamper, compacting equipment), piling equipment, vibrating roller, sand blaster, gunite machine, trencher, concrete truck, and hot kettle pump.

6. Any construction, demolition, excavation, erection, alteration, or repair activity. In the case of urgent necessity and in the interest of public health and safety, the Chief Building Official may issue a permit for exemption from these. Such period shall not exceed three (3) working days in length while the emergency continues but may be renewed for successive periods of three (3) days or less while the emergency continues. The Chief Building Official may limit such permit as to time of use and/or permitted action, depending upon the nature of the emergency and the type of action requested.

N-3: The project shall comply with the City's noise ordinance. Construction equipment and vehicles should be equipped with properly operating mufflers according to the manufacturers' recommendations. Air compressors and pneumatic equipment should be equipped with mufflers, and impact tools should be equipped with shrouds or shields. Equipment that is quieter than standard equipment should be utilized. Haul routes that affect the fewest number of people should be selected.

**MODESTO CITY COUNCIL
RESOLUTION NO. 2019-159**

**RESOLUTION ABANDONING 11TH STREET BETWEEN D STREET AND
MORTON BOULEVARD, 12TH STREET BETWEEN B STREET AND MORTON
BOULEVARD, AND B STREET BETWEEN 10TH AND 12TH STREETS
(STANISLAUS FOOD PRODUCTS)**

WHEREAS, a verified application by the Stanislaus Food Products requesting the abandonment (vacation) of 11th Street between D Street and Morton Boulevard, 12th Street between B Street and Morton Boulevard, and B Street between 10th and 12th Streets was received by the City of Modesto, a copy of which is **attached** hereto as **Exhibit A** and shown in **Exhibit B**, and incorporated herein by reference, and

WHEREAS, California Streets and Highways Code Section 8320 et seq. prescribes the procedures to vacate public right-of-way, and

WHEREAS, a title report was submitted with the vacation request which discloses that fee title of the street right-of-way is vested in Stanislaus Food Products, Beard Land and Investment Company, Modesto Terminal Company, and Modesto Interurban Railway, and

WHEREAS, the proposed vacation has been referred to affected City departments and local utility companies, and no objection to the proposed vacation has been received, and

WHEREAS, Government Code Section 65402(a) requires that prior to vacating a public right-of-way, the Planning Commission shall make a determination as to whether the vacation is consistent with the General Plan, and

WHEREAS, a hearing was held by the Planning Commission on March 4, 2019, in the Tenth Street Chambers, located at 1010 Tenth Street, Modesto, California, at which

hearing evidence both oral and documentary was received and considered regarding whether the proposed vacation conforms to the City's Urban Area General Plan, and

WHEREAS, by Planning Commission Resolution No. 2019-07, the Planning Commission rendered a report finding that the proposed vacation is in conformance with the Modesto Urban Area General Plan, and

WHEREAS, a duly noticed public hearing was held by the Council of the City of Modesto on Tuesday, April 9, 2019, at 5:30 p.m., in the Tenth Street Place Chambers located at 1010 Tenth Street, Modesto, California, and

WHEREAS, notices no more than 300 feet apart were posted along the line of the proposed right-of-way to be vacated for two successive weeks prior to the hearing, and notice was published in the Modesto Bee for two successive weeks prior to the hearing, per California Streets & Highways Code Sections 8323 and 8322, respectively, and,

WHEREAS, all things and acts necessary to be done as required by California Streets and Highways Code Sections 8300 through 8363: Public Streets, Highways and Service Easements Vacation Law, in order to vacate the subject right-of-way have been done and accomplished,

NOW, THEREFORE, BE IT RESOLVED that the Council of the City of Modesto finds and determines as follows:

1. The streets to be vacated are not necessary to serve present or future traffic needs in the area.
2. 11th, 12th, and B Streets are considered local streets and are not designated as Collector Streets or higher in the Circulation Element of the General Plan; therefore, the street vacation is in conformance with the General Plan.

BE IT FURTHER RESOLVED by the City Council hereby orders and declares the vacation of 11th Street between D Street and Morton Boulevard, 12th Street between B

Street and Morton Boulevard, and B Street between 10th and 12th Streets, as shown in

Exhibits below, subject to the following conditions:

- a. Construct a minimum six-foot high fence across the four openings of the vacated streets with signs identifying the closed road. The fence may include gates.
- b. Prior to recordation of the street vacation, public utility easements shall be reserved along the vacated streets, with the location and width of the easements as approved by City Engineer or designee and utility companies.

BE IT FURTHER RESOLVED that the project applicant shall indemnify, defend, and hold harmless the City of Modesto, its agents, officers, and employees from any and all claims, actions, or proceedings against the City of Modesto, its agents, officers, and employees to attack, set aside, void, or annul, any approval by the City of Modesto and its advisory agency, appeal board, or a legislative body concerning the street vacation (File No. ABD-17-003), and any related files. The City of Modesto shall promptly notify the applicant of any claim, action, or proceeding and shall cooperate fully in the defense. If the City fails to do so, the applicant shall not thereafter be responsible to defend, indemnify, or hold City harmless.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 9th day of April, 2019, by Councilmember Grewal, who moved its adoption, which motion being duly seconded by Councilmember Ah You, was upon roll call carried and the resolution adopted by the following votes:

AYES: Councilmembers: Ah You, Grewal, Kenoyer, Madrigal, Ridenour, Zoslocki, Mayor Brandvold

**MODESTO CITY COUNCIL
RESOLUTION NO. 2019-160**

RESOLUTION APPROVING THE SECOND AMENDMENT TO THE LAND EXCHANGE AGREEMENT BETWEEN THE CITY AND STANISLAUS FOOD PRODUCTS, AND AUTHORIZING THE CITY MANAGER, OR HIS DESIGNEE TO EXECUTE THE AMENDMENT

WHEREAS, the City is the fee owner of certain real property (the “**City Property**”), known as 11th Street between D Street and Morton Blvd., 12th Street between B Street and Morton Blvd., and B Street between 12th Street and 10th Street, located in the City; and

WHEREAS, Stanislaus Food Products (SFP) is the fee owner of certain real property (the “**Stanislaus Property,**”) located in the City, formerly known as a portion of 10th Street between B Street and D Street, and strips of land bordering 10th Street between B Street and Morton Blvd., and a strip of land from 11th Street to Morton Blvd. on both sides of 11th Street, and a strip of land along 9th and B Streets; and

WHEREAS, SFP owns the property adjacent to the City Property and desires to acquire ownership of the City Property with no restrictions in order to close 11th Street between D Street and Morton Blvd, 12th Street between B Street and Morton Blvd., and B Street between 12th Street and 10th Street, and to make permanent improvements that will benefit SFP; and

WHEREAS, the City desires to purchase the SFP Property for future public purposes; and

WHEREAS, the City and SFP have negotiated a land exchange agreement (the “**Land Exchange Agreement**”) that was approved by the City Council on October 10, 2017 by Resolution No. 2017-404; and

WHEREAS, the City and SFP desired the First Amendment to the land exchange agreement (the “Land Exchange Agreement”) to extend the time of compliance for certain conditions related to closing escrow that was approved by the City Council on October 23, 2018 by Resolution No. 2018-481; and

WHEREAS, the City and SFP now desire a Second Amendment to the Land Exchange Agreement to allow both parties an additional two (2) months to meet conditions related to closing escrow.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the Second Amendment to the Land Exchange Agreement between the City and Stanislaus Food Products, a copy of which is **attached** hereto as **Exhibit A**.

BE IT FURTHER RESOLVED, that the City Manager, or his designee, is hereby authorized to execute the Second Amendment to the Land Exchange Agreement, in a form approved by the City Attorney, and to take all other actions and execute all other documents that are necessary to carry out the intent of this Resolution and to exchange the properties, as set forth in the Land Exchange Agreement and the Second Amendment thereto.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 9th day of April, 2019, by Councilmember Grewal, who moved its adoption, which motion being duly seconded by Councilmember Ah You, was upon roll call carried and the resolution adopted by the following votes:

2nd Amendment to the Land Exchange Agreement between
the City of Modesto and Stanislaus Foods Products

**MODESTO CITY COUNCIL
RESOLUTION NO. 2019-161**

RESOLUTION FINDING THAT THE FOLLOWING SUBSEQUENT PROJECT IS WITHIN THE SCOPE OF THE PROJECT COVERED BY THE MODESTO URBAN AREA GENERAL PLAN MASTER ENVIRONMENTAL IMPACT REPORT (SCH NO. 2007072023): DEVELOPMENT AGREEMENT AND STREET ABANDONMENT REGARDING THE 10TH AND 11TH STREETS LAND EXCHANGE FOR STANISLAUS FOOD PRODUCTS AND CITY OF MODESTO

WHEREAS, on October 14, 2008, the City Council of the City of Modesto certified the Final Master Environmental Impact Report (“Master EIR”) (SCH No. 2007072023) for the Modesto Urban Area General Plan, and

WHEREAS, Stanislaus Food Products and City of Modesto has proposed the development agreement and street abandonment regarding the 10th and 11th Streets land exchange for Stanislaus Food Products and City of Modesto, and

WHEREAS, pursuant to Section 21157.1 of the Public Resources Code, the City of Modesto’s Community & Economic Development Department prepared an Environmental Assessment Initial Study EA/C&ED 2019-02 (“Initial Study”) which analyzed whether the subsequent project may cause any significant effect on the environment that was not examined in the Master EIR and whether the subsequent project was described in the Master EIR as being within the scope of the report, and

WHEREAS, in accordance with CEQA guidelines beginning on March 20, 2019, the City caused to be published a 20-day notice of the City’s intent to make a finding that the subsequent project conforms with the Master EIR, and

WHEREAS, said matter was considered by the City Council at a duly noticed public hearing which was held on April 9, 2017, at 5:30 p.m., in the Tenth Street Place Chambers located at 1010 Tenth Street, Modesto, California,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council has reviewed and considered the Initial Study prepared for the proposed development agreement and street abandonment regarding the 10th and 11th Streets land exchange for Stanislaus Food Products and City of Modesto, a copy of which is **attached** hereto as **Exhibit "A"**, and incorporated herein by reference, and based on substantial evidence in the Initial Study makes the following findings:

1. An Initial Study was prepared by the City of Modesto that analyzed whether the subsequent project may cause any significant effect on the environment that was not examined in the Master EIR and whether the subsequent project was described in the Master EIR as being within the scope of the report.
2. The subsequent project will have no additional significant effect on the environment, as defined in subdivision (d) of Section 21158 of the Public Resources Code, that was not identified in the Master EIR.
3. No new or additional mitigation measures or alternatives are required.
4. The subsequent project is within the scope of the project covered by the Master EIR.
5. All applicable policies, regulations, and mitigation measures identified in the Master EIR have been applied to the subsequent project or otherwise made conditions of approval of the subsequent project.
6. No substantial changes have occurred with respect to the circumstances under which the Master EIR was certified, and no new information, which was not known and could not have been known at the time that the Master EIR was certified as complete, has become available.

BE IT FURTHER RESOLVED by the Council of the City of Modesto that the Community & Economic Development Director is hereby authorized and directed to file a notice of approval or determination within five (5) business days with the Stanislaus County Clerk pursuant to Section 21152 of the Public Resources Code.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 9th day of April, 2019, by Councilmember Grewal, who moved its adoption, which motion being duly seconded by Councilmember Ah You, was upon roll call carried and the resolution adopted by the following votes:

(Intentional Blank Page)

City of Modesto

Master EIR Initial Study Environmental Checklist

I. PURPOSE

CEQA allows for the limited environmental review of subsequent projects under the City's Master Environmental Impact Report ("Master EIR" or "MEIR"). This Initial Study Environmental Checklist ("Initial Study") is used in determining whether the proposed development agreement and street abandonment regarding 10th and 11th Streets for Stanislaus Food Products is "within the scope" of the project analyzed in the Modesto Urban Area General Plan Master EIR (SCH# 2007072023) (Public Resources Code section 21157.1). When the Initial Study supports this conclusion, the City will issue a finding of conformance.

A subsequent project is "within the scope" of the Master EIR when:

1. it will have no additional significant effects on the environment that were not addressed as significant effects in the Master EIR; and
2. no new or additional mitigation measures or alternatives are required.

"Additional significant effects" means a project-specific effect that was not addressed as a significant effect in the Master EIR. [Public Resources Code Section 21158(d)]

The determination must be based on substantial evidence in the record. "Substantial evidence" means facts, reasonable assumptions predicated upon facts, or expert opinion based on facts. It does not include speculation or unsubstantiated opinion. (CEQA Guidelines Section 15384)

A traffic study (Appendix A) was completed to analyze the project impacts and determine if there are new additional effects not previously identified in the Master EIR or new required mitigation measures.

II. PROJECT DESCRIPTION

- A. Title: DEV-17-001, Development Agreement between Stanislaus Food Products and City of Modesto for the Land Exchange of 10th and 11th Streets between D Street and Morton Boulevard. ABD-17-003, Abandonment of Portions of 11th, 12th, and B Streets between D Street and Morton Boulevard.
- B. Address or Location: 10th and 11th Streets between D Street and Morton Boulevard, 12th Street between B Street and Morton Boulevard, and B Street between 10th and 12th Streets.
- C. Applicant: Stanislaus Food Products and City of Modesto
- D. City Contact Person: Paul Liu, Senior Planner

Project Manager: Paul Liu
Department: Community and Economic Development
Phone Number: (209) 577-5267
E-mail address: pliu@modestogov.com

- E. Current General Plan Designation(s): Redevelopment Planning District (RPD)
- F. Current Zoning Classification(s): Light Industrial (M-1)
- G. Surrounding Land Uses:
 - North: Industrial and Commercial
 - South: Tuolumne River Regional Park
 - East: Beard Brook Park
 - West: Industrial and Commercial
- H. Project Description, including the project type listed in Section II.C (Anticipated Future Projects) of the Master EIR (Attach additional maps/support materials as needed for complete record):

The development agreement is based on land exchange of streets between Stanislaus Food Products and the City of Modesto. Stanislaus Food Products would acquire 11th Street between D Street and Morton Boulevard, 12th Street between B Street and Morton Boulevard, and B Street between 10th and 12th Streets as shown on Exhibit A. The City of Modesto would acquire land from Stanislaus Food Products through dedication to allow construction of 10th Street from D Street to Morton Boulevard as shown on Exhibit B. The south end of 10th Street will curve to the east and intersect with 11th Street instead of continuing straight and intersect with Morton Boulevard. Portions of B and 9th Streets would also be provided to the City for some minor widening. The development agreement include terms that the City will agree to provide to SFP City services that allow and facilitate ongoing operations or "quiet enjoyment" and the right to further develop during the 15 years term of the agreement. SFD agrees to reimburse the City for processing the development agreement, land cost, police service, area traffic study, and improvements. The street abandonment portions of 11th Street, 12th Street, and B Street described above that would be acquired by Stanislaus Food Products.

The project deals with the area around Stanislaus Food Products existing tomato manufacturing and distribution facility in the southern downtown area north of Tuolumne River. The project would allow Stanislaus Food Products to consolidate properties and plant operations and increase overall efficiency. The project would allow the City to establish a direct connection from the downtown core to the Tuolumne River along 10th Street.

- I. Other Public Agencies Whose Approval is Required: None

III. FINDINGS/DETERMINATION (SELECT ONE ON THE BASIS OF THE ANALYSIS IN SECTION IV)

1. X **Within the Scope** - The project is within the scope of the Master EIR and no new environmental document or Public Resources Code Section 21081 findings are required. All of the following statements are found to be true:

- A. The subsequent project will have no additional significant effect on the environment, as defined in subdivision (d) of Section 21158 of the Public Resources Code, that was not identified in the Master EIR.
- B. No new or additional mitigation measures or alternatives are required.
- C. The subsequent project is within the scope of the project covered by the Master EIR.

- D. All applicable policies, regulations, and mitigation measures identified in the Master EIR have been applied to the subsequent project or otherwise made conditions of approval of the subsequent project.
- E. No substantial changes have occurred with respect to the circumstances under which the Master EIR was certified, and no new information, which was not known and could not have been known at the time that the Master EIR was certified as complete, has become available.

2. ___ Mitigated Negative Declaration Required - On the basis of the above determinations, the project is not within the scope of the Master EIR. A mitigated negative declaration will be prepared for the project. The following statements are all found to be true:

- A. The subsequent project is within the scope of the project covered by the Master EIR.
- B. All applicable policies, regulations, and mitigation measures identified in the Master EIR have been applied to the subsequent project or otherwise made conditions of approval of the subsequent project.
- C. The project will have one or more potential new significant effects on the environment that were not addressed as significant effects in the Master EIR. New or additional mitigation measures are being required of the project that will reduce the effects to a less-than-significant level.
- D. No substantial changes have occurred with respect to the circumstances under which the Master EIR was certified, and no new information, which was not known and could not have been known at the time that the Master EIR was certified as complete, has become available.

3. ___ Focused EIR Required- On the basis of the above determinations, the project is not within the scope of the Master EIR. A Focused EIR will be prepared for the project. All of the following statements are found to be true:

- A. The subsequent project is within the scope of the project covered by the Master EIR.
- B. All applicable policies, regulations, and mitigation measures identified in the Master EIR have been applied to the subsequent project or otherwise made conditions of approval of the subsequent project.
- C. The project will have one or more new significant effects on the environment that were not addressed as significant effects in the Master EIR. New or additional mitigation measures or alternatives are required as a result.
- D. No substantial changes have occurred with respect to the circumstances under which the Master EIR was certified, and no new information, which was not known and could not have been known at the time that the Master EIR was certified as complete, has become available.

Project Manager

Title

Date

4. Within the Scope Analysis of this Document:

The Master EIR allows projects to be found within the scope of the MEIR if certain criteria are met. If the following statements are found to be true for all 21 impact categories included in this Initial Study, then the proposed project is addressed by the MEIR analysis and is within the scope of the MEIR. Any "No" response must be discussed.

		YES	NO
(1)	The lead agency for subsequent projects shall be the City of Modesto or a responsible agency identified in the Master EIR.	<input checked="" type="checkbox"/>	<input type="checkbox"/>
(2)	City policies which reduce, avoid, or mitigate environmental effects will continue to be in effect and, therefore, would be applied to subsequent projects where appropriate. The policies are described in the list of policies in place and mitigation measures attached to the Initial Study template. Project impacts would be mitigated to a less-than-significant level using MEIR mitigations only.	<input checked="" type="checkbox"/>	<input type="checkbox"/>
(3)	Federal, State, regional, and Stanislaus County regulations do not change in a manner that is less restrictive on development than current law (i.e., would not offer the same level of protection assumed under the Master EIR).	<input checked="" type="checkbox"/>	<input type="checkbox"/>
(4)	No specific information concerning the known or potential presence of significant resources is identified in future reports, or through formal or informal input received from responsible or trustee agencies or other qualified sources.	<input checked="" type="checkbox"/>	<input type="checkbox"/>
(5)	The development will occur within the boundaries of the City's planning area as established in this Urban Area General Plan.	<input checked="" type="checkbox"/>	<input type="checkbox"/>
(6)	Development within the project will comply with all appropriate mitigation measures contained and enumerated in the 2008 General Plan Master EIR.	<input checked="" type="checkbox"/>	<input type="checkbox"/>

5. Currency of the Master EIR Document

The MEIR should be reviewed on a regular basis to determine its currency, and whether additional analysis/mitigation should be incorporated into the MEIR via a Supplemental or Subsequent EIR (CEQA Section 21157.6). Staff has reviewed Sections 1 through 21 of this document in light of the criteria listed below to determine whether the MEIR is current. The analysis contained within the Master EIR is current as long as the following circumstances have not changed. Any "no" response must be explained.

		YES	NO
(1)	Certification of the General Plan Master EIR occurred less than five years prior to the filing of the application for this subsequent project.	<input type="checkbox"/>	<input checked="" type="checkbox"/>
(2)	This project is described in the Master EIR and its approval will not affect the adequacy of the Master EIR for any subsequent project because the City can make the following findings:	<input checked="" type="checkbox"/>	<input type="checkbox"/>
(a)	No substantial changes have occurred with respect to the circumstances under which the Master EIR was certified.	<input checked="" type="checkbox"/>	<input type="checkbox"/>
(b)	No new information, which was not known and could not have been known at the time the Master EIR was certified as complete, has become available.	<input checked="" type="checkbox"/>	<input type="checkbox"/>
(c)	Policies remain in effect which require site-specific mitigation, and avoidance or other mitigation of impacts as a prerequisite to future development.	<input checked="" type="checkbox"/>	<input type="checkbox"/>

Discussion:

- (1) The General Plan Master EIR was certified on October 14, 2008, so more than five years has passed since the MEIR was certified. However, the analysis contained in the MEIR is still adequate for subsequent projects, as documented in the discussion below.
- (2) The project is consistent with the analysis contained in the MEIR. This is documented in the discussion of the individual issue areas of this initial study.
 - (2)(a) There have been no substantive changes to the General Plan since the MEIR was certified that would create additional significant environmental effects that were not analyzed by the MEIR.
 - (2)(b) There has been no new information that would affect the adequacy of the analysis contained in the MEIR.
 - (2)(c) All policies contained in the MEIR that require site-specific mitigation or avoidance of impacts remain in effect and will be applied to the project as appropriate.

IV. ENVIRONMENTAL ANALYSIS

This Initial Study, in accordance with Section 21157.1(b) of the Public Resources Code, discloses whether the proposed project may cause any project-specific significant effect on the environment that was not examined in the Final Master EIR (MEIR) for the General Plan and whether new or additional mitigation measures or alternatives may be required as a result. The Initial Study thereby documents whether or not the project is "within the scope" of the Master EIR.

Pursuant to Public Resources Code Section 21157.1, no new environmental document or findings are necessary for projects that are determined to be within the scope of the MEIR. Adoption of the findings specified in Section III.1, above after completion of the Initial Study fulfills the City's obligation in that situation.

All environmental effects cited reflect 2025 conditions resulting from the Urban Area General Plan, as identified in the Master EIR.

The environmental impact analysis in the Master EIR for the Urban Area General Plan is organized in twenty-one subject areas. The following analysis is based on the impact analyses contained in Chapter V of the Master EIR. For ease of reference, the sections are numbered in the same order as the analyses in Chapter V.

1. TRAFFIC AND CIRCULATION

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable traffic and circulation impacts expected after application of mitigations / policies:

Direct Impacts

Effect: Increased automobile traffic will result in roadway segments (see MEIR on Table 1-7, pages V-1-32 to V-1-34) operating at LOS D, Modesto's significance threshold for automobile traffic, or lower (LOS E or F).

Effect: The substantial increase in traffic relative to the existing load and capacity of the street system will cause, either individually or cumulatively, the violation of automobile service standards established by StanCOG's Congestion Management Plan for designated roads and highways.

Effect: A substantial increase in automobile vehicle miles traveled and automobile vehicle hours of travel and a decrease in average automobile vehicle speed (see MEIR Table 1-6, page V-1-31).

Cumulative Impacts

Effect: Potential for growth inducement or acceleration of development resulting from highway and local road projects.

Effect: Substantial increase in traffic in relation to the existing traffic load and capacity of the street system, including a violation, either individually or cumulatively, of an automobile LOS standard established by the Congestion Management Plan for designated roads and highways.

Effect: Increased demand for capacity-enhancing alterations to existing roads or automobile traffic reduction.

Other impact categories affected by Traffic and Circulation are addressed throughout this Initial Study (see also Section 2, Degradation of Air Quality; Section 3, Generation of Noise; Section 7 Loss of Sensitive Wildlife and Plant Habitat; Section 8, Disturbance of Archaeological/Historic Sites; Section 14 Increased Demand for Fire Services; Section 18, Energy; Section 19, Visual Resources; Section 20, Land Use and Planning, and Section 21, Climate Change).

b. Master EIR and/or New Mitigation Measures Applied to the Project

Traffic and Circulation mitigation measures pertinent to this project are found on MEIR pages V-1-9 through V-1-28. All mitigation measures appropriate to the project, including any new measures, will be incorporated into or made conditions of approval of this project and are listed in Section V, Mitigation Measures Applied to Project.

Discussion:

The appropriate mitigation to be applied to this project includes none from the MEIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-1.B of the Master EIR provides analysis of Traffic and Circulation impacts of development of the General Plan, the following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: A subsequent development project will have a new significant effect on the environment if it would exceed the following criteria:

1. TRAFFIC AND CIRCULATION	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
1) The proposed project exceeds traffic generation assumptions in the Master EIR for the site by 100 trips or more and City Engineering and Transportation staff has determined that the project would have additional potentially significant project-specific effects that are not avoided or reduced by the Master EIR's mitigation measures.	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
2) Exceed, either individually or cumulatively, a level of service standard established by the county congestion management agency for designated roads or highways?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
3) The proposed project would cause additional roadway segments in the General Plan area to exceed LOS D and/or cause additional violations of standards in the Congestion Management Plan, and/or cause an increase in automobile vehicle miles or vehicle hours of travel or a decrease in automobile travel speed, as compared to the impacts disclosed in the Master EIR.	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
4) The proposed project would cause emergency response times to exceed acceptable standards established by the Fire Department, as compared to impacts disclosed in the Master EIR (see Section 14, Increased Demand for Fire Services).	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
5) The proposed project would result in less parking than required by the Municipal Code or as determined by staff.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
6) The proposed project would conflict with adopted policies, plans, or programs that support alternative transportation, including, but not limited to the Regional Transportation Plan, the Sustainable Communities Strategy, the Bicycle Action Plan, etc.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
7) The proposed project would result in an increase in automobile vehicle miles traveled on a per capita basis, in excess of that considered in the Urban Area General Plan MEIR.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Discussion:

- (1-3) Traffic pattern in the south downtown area will change due to the closure of 11th Street and opening of 10th Street from D Street to Morton Boulevard.

A traffic study ("Traffic Impact Analysis for 11th Street – B Street Closure Project, Modesto CA", dated February 1, 2019 (Appendix A) has been prepared by KD Anderson & Associates (KDA). The study considered specific and cumulative traffic impacts associated with the project, and included existing traffic conditions and seasonal conditions. The study analyzed current traffic conditions based on daily traffic volumes a.m. and p.m. peak hour volumes. The study found at the B Street / 10th Street intersection an all-way stop would be adequate during off-peak season but could be problematic during harvest. However, the overall Level of Service at this intersection will be adequate, but could result in queues that extend back to 9th Street during harvest if trucks are concentrated into a short time period. The study concluded that immediate and cumulative traffic impacts associated with development of the project will not result in a significant impact, and that no further mitigation is required.

- (4) The project would not cause emergency response time to exceed acceptable standards.
- (5) Any new development resulting from the project would have to meet city parking requirements.
- (6) The project would not conflict with adopted policies, plans, or programs that support alternative transportation, including, but not limited to the Regional Transportation Plan, the Sustainable Communities Strategy, the Bicycle Action Plan. The project was referred to the Transportation Engineering and Design Division, who indicated no concerns.
- (7) Based on the findings of the above-mentioned traffic study, the proposed project would not result in a significant increase in automobile vehicle miles traveled (per capita) in excess of what was considered in the Urban Area General Plan.

2. DEGRADATION OF AIR QUALITY

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable air quality impacts expected after application of mitigations / policies:

Direct Impacts

Effect: Expected automobile traffic will result in increased operational emissions of reactive organic gases (ROG) and oxides of nitrogen (NO_x) (see MEIR Table 2-8, page V-2-27).

Effect: Expected automobile traffic will result in increased emissions of particulate matter 10 microns or less (PM₁₀) and 2.5 microns or less in diameter (PM_{2.5}) (see MEIR Table 2-8, page V-2-27).

Effect: Expected automobile traffic will result in increased carbon monoxide (CO) levels in the project area (see MEIR Table 2-7, page V-2-26, and Table 2-8, page V-2-27).

Cumulative Impacts

The Master EIR indicates the same impacts identified as direct impacts above will contribute to regional impacts on air quality for the criteria pollutants ROG, NO_x, PM₁₀, and PM_{2.5}.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Air quality mitigation measure(s) pertinent to the proposed project are found on pages V-2-13 through V-2-24 of the Master EIR. All mitigation measures appropriate to the project will be incorporated into or made conditions of approval of this project and are listed in Section V, Mitigation Measures Applied to Project.

Discussion:

The appropriate mitigation to be applied to this project includes AQ-42, AQ-43, AQ-44, and AQ-46 through AQ-56 from the MEIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-2.B of the Master EIR is the analysis of air quality impacts resulting from development of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not analyzed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

2. DEGRADATION OF AIR QUALITY	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
1) The proposed project exceeds the project-level emissions thresholds established for CO, ROG, NO _x , PM ₁₀ , and PM _{2.5} by the San Joaquin Valley Air Pollution Control District (SJVAPCD) and is not consistent with the development assumptions for the project site, as established in the Urban Area General Plan and Master EIR.	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
2) The proposed project does not incorporate the best management practices established by the SJVAPCD for CO, ROG, NO _x , PM ₁₀ , and PM _{2.5} .	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
3) The proposed project does not comply with the air quality policies in the Modesto Urban Area General Plan.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
4) The proposed project would expose sensitive receptors to pollutant concentrations in excess of those expected to occur as a result of implementation of the Urban Area General Plan.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
5) The proposed project would create objectionable odors affecting a substantial number of people.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Discussion:

- (1) The proposed project includes the closing the portion of 11th Street while opening 10th Street between D Street and Morton Boulevard. This Stanislaus Food Products to combine their lots into one larger site but no new developed included as part of this project. While the traffic pattern is slightly altered, the traffic study found there would not be any significant impact. Emissions from street construction-related activity will be addressed by mitigation measures provided in the Master EIR. Consequently, the proposed project would not have a significant effect on the ambient air quality.
- (2) There is no new development or other activity associated with the project that would affect air quality.
- (3) The project does not conflict with the air quality policies in the Urban Area General Plan.
- (4) The project would not result in pollutant concentrations in excess of those expected to occur as a result of the implementation of the Urban Area General Plan.
- (5) The proposed project will not produce objectionable odors.

3. GENERATION OF NOISE

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable noise impacts expected after application of mitigations / policies:

Direct Impacts

Effect: Future automobile traffic noise levels and roadway construction and maintenance activities resulting from development of the Urban Area General Plan will exceed the City's noise thresholds at various locations, but particularly in areas adjacent to heavily traveled roadways (see MEIR Table 3-3, page V-3-10, and Figure VII-2 and Table 3-6, pages V-3-18 and V-3-19).

Effect: Expected noise from airport operations and airport construction projects may expose up to 468 dwellings and three churches to noise levels of 65 dB CNEL and up to eight dwellings to noise levels of 70 dB CNEL.

Effect: Expose noise-sensitive land uses to noise from the construction of bicycle and transit projects.

Effect: Expose noise-sensitive land uses to noise from freight and passenger rail operations.

Cumulative Impacts

Effect: Traffic from development in the City of Modesto would, when combined with traffic from new development in the County and other cities, contribute to a cumulative increase in roadside noise levels on major roads and highways throughout Stanislaus County.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Noise policies and mitigation measures pertinent to the project being analyzed in this Initial Study are found on pages V-3-11 through V-3-15 of the Master EIR. All mitigation measures appropriate to the project will be incorporated into or made conditions of approval of this project and any new measures are listed in Section V, Mitigation Applied to Project.

Discussion:

The appropriate mitigation to be applied to this project includes N-1, N-2, and N-3 from the Master EIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-3.B of the MEIR discloses noise impacts resulting from development of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not analyzed in the Master EIR.

Significance Criteria: Determination of the proposed project’s effects are based on the following thresholds. Project-specific effects will be less than significant unless:

3. GENERATION OF NOISE	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
1) The proposed project will exceed the standards for noise level and hours of operation established by the Modesto noise ordinance.	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
2) The proposed project will not comply with the noise policies of, or otherwise be inconsistent with, the Modesto Urban Area General Plan.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
3) The proposed project will result in an increase in ambient noise levels in the project vicinity above those disclosed in the Master EIR.	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
4) The proposed project will result in a substantial temporary or periodic increase in ambient noise levels in the project vicinity above levels disclosed in the Master EIR implementation of the Urban Area General Plan.	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>

Discussion:

- (1-4) The project involves the abandonment and closure of 11th street and the dedication and opening of 10th Street. The project would not cause noise above levels already existing as part of the operations businesses in the vicinity. Street construction activities could potentially cause a temporary increase in noise levels; however, mitigation measure from the Master EIR would mitigate those impacts to a less than significant level.

4. EFFECTS ON AGRICULTURAL LANDS

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on agricultural lands expected after application of mitigations / policies:

Direct Impacts

Effect: Between 1995 and 2025, development of the Urban Area General Plan may convert up to approximately 26,000 acres of farmland in various categories in the Planned Urbanizing Area to urban uses.

Effect: Approximately 1,200 acres of urban development along a 28.5-mile boundary 350 feet wide between urban and agricultural uses could be affected by continued agricultural operations, including noise, dust, and chemical overspray or drift.

Cumulative Impacts

Effect: Growth within Modesto's planning area would contribute considerably to the loss of agricultural land within Stanislaus County, accounting for the conversion of as much as approximately 26,000 acres of farmland in various categories in the Planned Urbanizing Area from 1995 to 2025.

b. Master EIR and/or New Mitigation Measures Pertinent to the Project

Agricultural land mitigation measures pertinent to the proposed project are found on pages V-4-6 to and V-4-8 of the Master EIR. All mitigation measures appropriate to the project and any new mitigation to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Applied to Project.

Discussion:

The appropriate mitigation to be applied to this project includes none from the Master EIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-4.B of the Master EIR discloses the impacts resulting from the implementation of the Urban Area General Plan on agricultural lands. The following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not previously analyzed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

4. EFFECTS ON AGRICULTURAL LANDS	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
1) The proposed project is inconsistent with the Urban Area General Plan's policies relating to agricultural land.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
2) The proposed project will either directly or indirectly result in the development of land outside the 2008 Urban Area General Plan's planning area boundary.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
3) The proposed project will conflict with existing zoning for agricultural use, or there is an existing Williamson Act contract on the project site.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
4) The proposed project will involve other changes in the existing environment not anticipated in the Master EIR which, due to their location or nature, could result in conversion of farmland to non-agricultural use.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Discussion:

- (1-4) The project site and surrounding area is developed with urban uses and is located within the Baseline Developed Area of the General Plan. The site is not zoned for agricultural uses, nor is subject to a Williamson Act contract. The project would not cause the conversion of farmland to a non-agricultural use.

5. INCREASED DEMAND FOR LONG-TERM WATER SUPPLIES

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on long-term water supplies expected after application of mitigations / policies:

Direct Impacts

Effect: No residual significant direct impacts have been disclosed in the Master EIR.

Cumulative Impacts

Effect: Operational yields of the Modesto and Turlock subbasins, both of which underlie the City of Modesto, are unknown, although the City is participating in a study with the United States Geological Survey in order to quantify the operational yields of both subbasins. Groundwater withdrawals from both basins by the City, when combined with other users' withdrawals, may result in overdrafting both subbasins.

Effect: Despite available options, during drought years, significant water shortages are forecast for the San Joaquin River basin, which includes both the Modesto and Turlock subbasins, by 2020.

Modesto would make a cumulatively considerable contribution to the cumulative impact on water supply under drought conditions.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Water supply mitigation measures pertinent to the proposed project are found on pages V-5-6 through V-5-12 of the Master EIR. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Measures Applied to Project.

Discussion:

The appropriate mitigation to be applied to this project includes none from the Master EIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-5.B of the Master EIR discloses impacts on long-term water supplies resulting from implementation of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

5. INCREASED DEMAND FOR LONG-TERM WATER SUPPLIES	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
1) The proposed project is inconsistent with water supply policies in the Urban Area General Plan.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
2) Water demand for the proposed project will exceed estimates for similar projects or for development on the project site anticipated in the Urban Area General Plan or sufficient water supplies are not otherwise available to serve the project from existing entitlements and resources.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
3) The proposed project would deplete groundwater supplies to a greater degree than anticipated in the Urban Area General Plan or would interfere with groundwater recharge.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Discussion:

- (1) The project does not include any new development or changes to existing development that would have an effect on water supply, nor would be inconsistent with the Water Supply policies of the General Plan.

- (2) No new development or expansion of the existing businesses is proposed with this project. Water demand for the project will not be impacted.
- (3) The proposed project is consistent with the land uses and water demands assumed in the General Plan. The project would not have a significant effect on ground water recharge or depletion of long-term water supplies.

6. INCREASED DEMAND FOR SANITARY SEWER SERVICES

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on sanitary sewer services after application of mitigations / policies:

Direct Impacts

Effect: Development resulting from implementation of the Urban Area General Plan will require substantial new sewage treatment and disposal capacity, treatment plant improvements, sewer mains and collection lines, and pump stations. The Wastewater Master Plan anticipates the need for these facilities and its EIR evaluates the impact of developing those facilities. Potential impacts include degradation of water quality through erosion and chemical releases; localized flooding; and construction noise. All of these impacts are mitigated to a less-than-significant level.

Additional impacts that are not mitigated to a less-than-significant level include loss of farmland caused by construction of the Phase IA tertiary treatment facility at the Jennings Road Secondary Treatment Facility, an increase in pollutant loads from increased wastewater flows to the San Joaquin River, and an increase in noise and criteria air pollutants due to construction activities, including traffic.

Cumulative Impacts

Effect: No additional cumulative impacts were identified in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Sewer service mitigation measures pertinent to the proposed project are found on pages V-6-3 through V-6-8 of the Master EIR. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Measures Applied to Project.

Discussion:

The appropriate mitigation to be applied to this project includes none from the Master EIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-6.B of the Master EIR discloses impacts on the Increased Demand for Sanitary Sewer Service resulting from implementation of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

6. INCREASED DEMAND FOR SANITARY SEWER SERVICES	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
1) The proposed project is inconsistent with wastewater policies in the Urban Area General Plan.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
2) The proposed project will generate sewage flows greater than those anticipated in the Urban Area General Plan for the project site.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
3) The proposed project will result in a determination by the wastewater treatment provider which serves or may serve the project that it has inadequate capacity to serve the project's projected demand in addition to the provider's existing commitments.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Discussion:

- (1) The proposed project would not be inconsistent with the water supply policies in the General Plan.
- (2) The proposed project will not generate sewage flows greater than those anticipated in the Urban Area General Plan for the project site.
- (3) The proposal will not generate sewage flows. Existing sewer lines in the street portion to be abandoned will be protected with an easement.

7. LOSS OF SENSITIVE WILDLIFE AND PLANT HABITAT

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on sensitive wildlife and plant habitat expected after application of mitigations / policies:

Direct Impacts

Effect: No residual significant impacts on sensitive wildlife and plan habitat are expected to occur with the application of the policies contained in the Urban Area General Plan.

Cumulative Impacts

Effect: Implementation of the Urban Area General Plan will contribute to the cumulative impact of habitat loss in the San Joaquin Valley. Requiring denser development than has occurred in the past or that is expected in the future would minimize the City's contribution to the cumulative loss of habitat. Nonetheless, this is a significant and unavoidable impact.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Wildlife and plant habitat mitigation measures pertinent to the proposed project are found on pages V-7-17 through V-7-24 of the Master EIR. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Measures Applied to Project.

Discussion:

The appropriate mitigation to be applied to this project includes none from the Master EIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-7.B of the Master EIR discloses impacts on the Loss of Sensitive Wildlife and Plant Habitat resulting from implementation of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

7. LOSS OF SENSITIVE WILDLIFE AND PLANT HABITAT	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
1) The project is inconsistent with the policies pertaining to the loss of sensitive wildlife and plant habitat contained in the Urban Area General Plan.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
2) Consultation with the California Department of Fish and Game or the U.S. Fish and Wildlife Service determines that the project would have a significant effect on a candidate, sensitive, or special status species in excess of the impact disclosed in the Master EIR.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
3) The proposed project would have a substantial adverse effect on federally protected wetlands as defined by Section 404 of the Clean Water Act through direct removal, filling, hydrological interruption, or other means, in excess of the impact disclosed in the Master EIR.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
4) The proposed project would substantially interfere with the movement of any native resident or migratory fish or wildlife species or with established native resident or migratory wildlife corridors, or impede the use of native wildlife nursery sites.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
5) Conflict with local policies or ordinances	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

7. LOSS OF SENSITIVE WILDLIFE AND PLANT HABITAT	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
protecting biological resources, such as a tree preservation policy or ordinance.				
6) The proposed project would conflict with provisions of an adopted habitat conservation plan, natural community conservation plan, or other approved local, regional, or state habitat conservation plan.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Discussion:

- (1) The project is consistent with the General Plan policies related to the loss of sensitive wildlife and plant habitat.
- (2) The project site is not a biologically sensitive site as defined by Figures V-7-1, sheet 2, of the MEIR. The California Department of Fish and Game and the U.S. Fish and Wildlife Service were consulted in the production of the MEIR.
- (3) The site does not qualify as a federally protected wetland per Section 404 of the Clean Water Act.
- (4) The project site is not a biologically sensitive site as defined by Figures V-7-1, sheet 2, of the MEIR. The movement of fish or birds or other wildlife would not be effected by the project.
- (5) There is no conflict with any local policies or ordinances protecting biological resources.
- (6) There is no conflict with any adopted habitat conservation plan, natural community conservation plan, or other approved local, regional or state habitat conservation plan.

8. DISTURBANCE OF ARCHAEOLOGICAL/HISTORICAL SITES

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on archaeological/historical sites expected after application of mitigations / policies:

Direct Impacts

Effect: Modification resulting in a substantial adverse change in the significance of a historic resource or the demolition of a listed or eligible historic resource.

Effect: The modification or demolition of a structure more than 50 years in age may be significant.

Effect: Discovery of archaeological resources, in areas outside of the riparian corridors, as a result of construction activities.

Effect: Construction in an area of high archaeological sensitivity.

Cumulative Impacts

Effect: No additional cumulative impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Archaeological or historic mitigation measures pertinent to the project being analyzed in this Initial Study are found on page V-8-16 through V-8-20 of the Master EIR. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Applied to Project:

Discussion:

The appropriate mitigation to be applied to this project includes none from the Master EIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-8.B of the MEIR discloses impacts on archaeological/historical resources resulting from implementation of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

8. DISTURBANCE OF ARCHAEOLOGICAL/ HISTORICAL SITES	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
1) The proposed project is inconsistent with the archaeological / historical resource policies in the Urban Area General Plan.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
2) The proposed project would demolish a building eligible for listing as a historic resource or remove a landmark from the Modesto inventory.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
3) The proposed project would modify or demolish a structure more than 50 years old.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
4) The project would adversely affect a cultural resource that is either listed or eligible for listing in the California Register of Historical Resources.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
5) The project would adversely affect a Tribal Cultural Resource identified and/or defined by the applicable Tribe.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Discussion:

- (1) The proposed project is consistent with the archeological and historical resource policies in the General Plan.
- (2-3) The project proposes the abandonment of portions of 11th, 12th, and D Streets, to allow consolidation of property for Stanislaus Food Products. Street dedication will be provided to allow the construction of 10th Street from D Street to Morton Boulevard. No buildings are proposed to be demolished, and no City landmarks exist at the site.
- (4) The project would not affect a resource that is listed or eligible for listing in the California Register of Historic Resources.
- (5) The project does not conflict with local policies affecting cultural resources.

9. INCREASED DEMAND FOR STORM DRAINAGE

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on storm drainage expected after application of mitigations / policies:

Direct Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR.

Cumulative Impacts

Effect: The population of Stanislaus County is projected to increase in a fashion similar to that of Modesto, resulting in additional urban development and associated increases in impervious surface area and associated increases in storm water runoff. Cumulative hydrologic impacts of storm water flows from Modesto urban areas and other areas of the County could occur due to the fixed capacity of MID and TID irrigation canals to convey drainage west to the San Joaquin River. If drainage channels in some areas prove insufficient to handle the increased drainage discharges, existing storm water runoff from urban and agricultural areas during large storm events would have to be interrupted until water levels receded to a point allowing the resumption of discharges to the channel. Ceasing discharges to drainage channels could cause inundation in and around the drainage conveyance pipeline systems, surface drainage channels, detention basins, and other urban areas. This cumulative impact is considered significant and unavoidable.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Storm Drainage mitigation measures pertinent to the project being analyzed in this Initial Study are found on pages V-9-4 through V-9-9. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Measures Applied to Project:

Discussion:

The appropriate mitigation to be applied to this project includes none from the Master EIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-9.B of the MEIR discloses impacts on the demand for storm drainage resulting from development of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

9. INCREASED DEMAND FOR STORM DRAINAGE	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
1) The proposed project is inconsistent with the storm drainage policies in the Urban Area General Plan.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
2) The proposed project would substantially increase the rate or amount of surface runoff in a manner that would result in flooding on- or offsite, as compared to impacts anticipated to result from the Urban Area General Plan or create substantial unanticipated sources of polluted runoff.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
3) The proposed project does not utilize Low Impact Development strategies to reduce runoff from the site and increase infiltration, resulting in no net increase in runoff before and after development.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Discussion:

- (1) The proposed project is consistent with the storm drainage policies in the Urban Area General Plan.
- (2) The proposal will not contribute additional water runoff that would exceed the capacity of the storm drainage system.
- (3) The proposed project does not include any specified new development. The construction of 10th Street will comply with city standards regarding storm drainage and address low impact strategies.

10. FLOODING AND WATER QUALITY

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on flooding and water quality expected after application of mitigations / policies:

Direct Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR.

Cumulative Impacts

Effect: No residual significant cumulative impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Flooding and Water Quality mitigation measures pertinent to the project being analyzed in this Initial Study are found on pages V-10-6 through V-10-9 of the Master EIR. All mitigation measures appropriate to the project will be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Applied to Project:

Discussion:

The appropriate mitigation to be applied to this project includes FWQ-13 from the Master EIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-10.B of the Master EIR provides analysis of Flooding and Water Quality impacts of development of the General Plan, the following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not previously analyzed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

10. FLOODING AND WATER QUALITY	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
1) The proposed project is inconsistent with the flooding and water quality policies in the Urban Area General Plan.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
2) The proposed project does not comply with the regulatory requirements of the federal Clean Water Act or the State Porter-Cologne Act.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
3) The proposed project would place more housing within a 100-year flood hazard zone than assumed in the Urban Area General Plan.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
4) The proposed project would place structure within a 100-year flood hazard area so that they would impede or redirect floodwater or would substantially alter the existing on-site drainage	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

10. FLOODING AND WATER QUALITY	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
pattern or a watercourse, in such a way as to cause flooding on- or off-site.				
5) The proposed project does not comply with Modesto's Guidance Manual for New Development Storm Water Quality Control Measures.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
6) The proposed project would violate water quality standards or waste discharge requirements.	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
7) The proposed project would substantially alter the existing drainage pattern of the site or area or a watercourse in a manner that would result in substantial erosion or siltation on- or offsite in excess of the assumptions of the General Plan.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
8) The proposed project would create or contribute runoff, which would exceed the capacity of existing or planned storm water drainage systems or provide substantial additional sources of polluted runoff, not expected as part of General Plan implementation.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Discussion:

- (1) The project consists of existing roads in the southern portion of the downtown. Portions of 11th, 12th, and B Streets will be abandoned and closed to the public. 10th Street between D Street and Morton Boulevard will be improved and opened to the public. 10th Street improvements will comply with the flooding and water quality policies in the General Plan. No specified new development is included with this project.
- (2) The project would comply with the Federal Clean Water Act and the Porter Cologne Act requirements.
- (3-5) The project is not located within a 100-year flood plain. The site is an existing industrial uses with no new development proposed.
- (6) The project will not violate water quality standards or waste discharge requirements. Street construction will need to comply with water quality standards provided in the Master EIR.
- (7) The project would not substantially alter the existing drainage pattern of the site, area or a watercourse in a manner that would result in erosion or siltation. There is no new development associated with the proposed project.
- (8) The project will not contribute additional water runoff that would exceed the capacity of the storm drainage system or provide substantial additional sources of polluted runoff. There is no new development associated with the proposed project.

11. INCREASED DEMAND FOR PARKS AND OPEN SPACE

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on parks and open space expected after application of mitigations / policies:

Direct Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR.

Cumulative Impacts

Effect: No residual significant cumulative impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Parks and open space mitigation measures pertinent to the proposed project are found on pages V-11-3 through V-11-9 of the Master EIR. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Applied to Project:

Discussion:

The appropriate mitigation to be applied to this project includes none from the Master EIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-11.B of the MEIR discloses impacts of the Urban Area General Plan on parks and open space. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. Project-specific effects will be less than significant unless:

11. INCREASED DEMAND FOR PARKS AND	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
1) The proposed project is inconsistent with the parks and open space policies in the Urban Area General Plan.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
2) The proposed project would eliminate parks or open space.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
3) The proposed project would cause an increase in the use of existing neighborhood and regional parks or other recreational facilities such that substantial physical deterioration of the facility in question would occur or be accelerated or the proposed project would include recreational facilities or	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

11. INCREASED DEMAND FOR PARKS AND	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
require the construction or expansion of recreational facilities which might have an adverse physical effect on the environment.				

Discussion:

- (1) The project is consistent with the parks and open space policies in the General Plan.
- (2) The project will not impact parks or open space.
- (3) There is no development proposed as part of the project.

12. INCREASED DEMAND FOR SCHOOLS

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on school facilities expected after application of mitigations / policies:

Direct Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR. By statute, the impact of new students is considered to be mitigated below a level of significance by payment of school impact fees and the exercise of any or all of the financing options set out in Government Code Section 65997.

Cumulative Impacts

Effect: Similar to direct impacts of implementation of the Urban Area General Plan, no residual significant direct impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Mitigation relies upon the implementation of the policies in place under the Modesto Urban Area General Plan. As long these policies are applied to all subsequent projects, no new mitigation is necessary. Further, payment of school impact fees and compliance with SB 50 is statutorily deemed to be full mitigation of school impacts (Government Code Section 65995).

The following schools mitigation measures on pages V-12-5 through V-12-7 of the Master EIR are pertinent to the proposed project. All mitigation measures appropriate to the project will be incorporated into or made conditions of approval of this project. Those measures are listed in Section V, Mitigation Applied to Project.

Discussion:

The appropriate mitigation to be applied to this project includes none from the Master EIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-12.B of the Master EIR discloses impacts resulting from implementation of the Urban Area General Plan associated with increased demand for schools. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

12. INCREASED DEMAND FOR SCHOOLS	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
1) The proposed project is inconsistent with the policies relating to schools in the Urban Area General Plan.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
2) The proposed project does not comply with SB 50/Proposition 1A funding provisions, or succeeding measures which state that compliance results in less-than-significant impacts on schools.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Discussion:

- (1) The project would not conflict with the policies relating to school in the Urban Area General Plan.
- (2) There is no new development associated with the project. The project would not conflict with SB50/Proposition 1A funding provisions, or succeeding measures.

13. INCREASED DEMAND FOR POLICE SERVICES

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on police services expected after application of mitigations / policies:

Direct Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR.

Cumulative Impacts

Effect: No residual significant cumulative impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Police services mitigation measures pertinent to the proposed project are found on pages V-13-2 through V-13-5 of the Master EIR. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Measures Applied to Project.

Discussion:

The appropriate mitigation to be applied to this project includes none from the Master EIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-13.B of the Master EIR discloses impacts on police services resulting from implementation of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

13. INCREASED DEMAND FOR POLICE SERVICES	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
1) The proposed project is inconsistent with policies relating to police services in the Urban Area General Plan.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
2) The proposed project would result in the need for new or significantly altered facilities not considered as part of the Urban Area General Plan or Master EIR which could cause new significant environmental impacts in order to maintain acceptable service ratios, response times, or other performance objectives.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Discussion:

- (1) The project would not conflict with the policies relating to police services in the Urban Area General Plan.
- (2) The project would result in the closure of 12th Street and opening 10th Street from D Street to Morton Boulevard. This would not impact police services. The project would not result in the need for construction of new or significantly altered police facilities which could cause new significant environmental impacts in order to maintain acceptable service ratios, response times or other performance objectives.

14. INCREASED DEMAND FOR FIRE SERVICES

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on fire services expected after application of mitigations / policies:

Direct Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR.

Cumulative Impacts

Effect: No residual significant cumulative impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Fire Services mitigation measure(s) pertinent to the project being analyzed in this Initial Study are found on pages V-14-4 through V-14-7 of the Master EIR. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Measures Applied to Project.

Discussion:

The appropriate mitigation to be applied to this project includes none from the Master EIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-14.B of the Master EIR discloses impacts on fire services resulting from implementation of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

14. INCREASED DEMAND FOR FIRE SERVICES	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
1) The proposed project is inconsistent with the fire service policies in the Urban Area General Plan.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
2) The proposed project would result in the need for new or significantly altered facilities not considered as part of the Urban Area General Plan or Master EIR which could cause new significant environmental impacts in order to maintain acceptable service ratios, response times, or other	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

14. INCREASED DEMAND FOR FIRE SERVICES	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
performance objectives.				
3) The proposed project, based upon substantial evidence, would cause the erosion or elimination of fire protection services in adjoining fire protection districts.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Discussion:

- (1) The project is consistent with the fire service policies in the General Plan.
- (2) The project does not propose construction of new or significantly altered facilities which could cause new significant environmental impacts in order to maintain acceptable fire service ratios, response times or other performance objectives.
- (3) The project would not impact fire protection services in adjoining fire districts.

15. GENERATION OF SOLID WASTE

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on solid waste expected after application of mitigations / policies:

Direct Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR.

Cumulative Impacts

Effect: No residual significant cumulative impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Solid waste mitigation measures pertinent to the proposed project are found on pages V-15-4 through V-15-7 of the Master EIR. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Applied to Project.

Discussion:

The appropriate mitigation to be applied to this project includes none from the Master EIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-15.B of the Master EIR discloses solid waste impacts resulting from implementation of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. Project-specific effects will be less than significant unless:

15. GENERATION OF SOLID WASTE	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
1) The project is inconsistent with the solid waste policies in the Urban Area General Plan.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
2) The County is unable to expand its solid waste disposal capacity, as expected, causing all new development to result in cumulative impacts on the County's disposal capacity.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Discussion:

- (1) The project is consistent with the solid waste policies in the General Plan.
- (2) There is no new development proposed with the project.

16. GENERATION OF HAZARDOUS MATERIALS

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts regarding hazardous materials expected after application of mitigations / policies:

Direct Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR.

Cumulative Impacts

Effect: No residual significant cumulative impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Hazardous materials mitigation measures pertinent to the proposed project are found on pages V-16-8 through V-16-13 of the Master EIR. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Measures Applied to Project.

Discussion:

The appropriate mitigation to be applied to this project includes none from the Master EIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-16.B of the Master EIR discloses impacts on hazardous materials resulting from implementation of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

16. GENERATION OF HAZARDOUS MATERIALS	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
1) The project is inconsistent with the hazardous materials policies in the Urban Area General Plan.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
2) The proposed project would emit hazardous emissions or handle hazardous or acutely hazardous materials, substances, or waste within one-quarter mile of an existing or proposed school.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
3) The proposed project would be located on a site which is included on a list of hazardous materials sites compiled pursuant to Government Code Section 65962.5 and as a result, would create a significant hazard to the public or the environment.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
4) The proposed project would be constructed on a contaminated site not known to the State of California as of March 2008.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Discussion:

- (1) The project is consistent with the hazardous materials policies in the General Plan.
- (2) The project does not impact applicable federal, state, and county standards and regulations relative to the handling, storage, disposal, and transport of hazardous or toxic materials or wastes. No hazardous materials will be involved with this project.
- (3) The project is not located on a site included on a list of hazardous materials sites compiled pursuant to Government Code Section 65962.5 and as a result, would not create a significant hazard to the public or the environment.
- (4) The site is not known to contain any contaminants.

17. GEOLOGY, SOILS, AND MINERAL RESOURCES

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts related to geology, soils, and mineral resources expected after application of mitigations / policies:

Direct Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR.

Cumulative Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Geology, soils, and mineral resource mitigation measures pertinent to the proposed project are found on pages V-17-9 and V-17-10 of the Master EIR. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of the proposed project are listed in Section V, Mitigation Measures Applied to Project.

Discussion:

The appropriate mitigation to be applied to this project includes none from the Master EIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-17.B of the Master EIR discloses geology, soils, and mineral resource impacts resulting from implementation of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. Project-specific effects will be less than significant unless:

17. GEOLOGY, SOILS, AND MINERAL RESOURCES	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
1) The project is inconsistent with policies relating to geology, soils, and mineral resources contained in the Urban Area General Plan.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
2) The proposed project would expose people or structures to potential substantial adverse effects including the risk of loss, injury, or death involving fault rupture, strong seismic activity; location on an expansive soil; result in the loss of topsoil; location on soils incapable of adequately supporting the use	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

17. GEOLOGY, SOILS, AND MINERAL RESOURCES	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
of septic tanks or alternative wastewater disposal systems in areas where sewers are not available for the disposal of wastewater; result in the loss of known mineral resources that would be of value to the region and the state; or result in the loss of availability of a locally important mineral resource recovery site delineated on a local general plan, specific plan, or other land use plan.				

Discussion:

- (1) The project is consistent with policies relating to geology, soils, and mineral resources in the General Plan.
- (2) The project site is not located on soil that is unstable, or that would become unstable as a result of the project. There are no known mineral resources of value to the region and the state on the property.

18. ENERGY

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts pertaining to energy expected after application of mitigations / policies:

Direct Impacts

Effect: Continued development in the Planned Urbanizing Area would have an impact on available energy supplies. Energy consumption likely would increase substantially by 2025 as a result of implementation of the Urban Area General Plan.

Cumulative Impacts

Effect: Implementation of the Urban Area General Plan will have a cumulatively considerable impact on energy consumption.

b. Master EIR and/or New Mitigation Measures Applied to the Project

The following energy mitigation measures pertinent to the proposed project are found on pages V-18-2 through V-18-8 in the Master EIR. All mitigation measures appropriate to the project will be incorporated into or made conditions of approval of this project. Those measures will be listed in Section V, Mitigation Applied to Project.

Discussion:

The appropriate mitigation to be applied to this project includes none from the Master EIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-18.B of the Master EIR discloses impacts of implementing the Urban Area General Plan on energy resources. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

18. ENERGY	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
1) The proposed project is inconsistent with policies relating to energy in the Urban Area General Plan.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
2) The proposed project would result in energy consumption during construction, operation, maintenance, or removal that is more wasteful, inefficient, and unnecessary than assumed in the Urban Area General Plan.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Discussion:

- (1) The project is consistent with the energy policies in the General Plan.
- (2) The project would not result in energy consumption during construction, operation, maintenance or removal that is more wasteful, inefficient and unnecessary than assumed in the General Plan.

19. EFFECTS ON VISUAL RESOURCES

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on visual resources expected after application of mitigations / policies:

Direct Impacts

Effect: New development in the Planned Urbanizing Area will occur in areas that are in agricultural production or are otherwise lightly developed, which could lead to the introduction of light and glare in areas that have little nighttime illumination.

Cumulative Impacts

Effect: No additional cumulative impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

The following visual resources mitigation measures pertinent to the proposed project are found on pages V-19-3 and V-19-4 in the Master EIR. All mitigation measures appropriate to the proposed project will be incorporated into or made conditions of approval of this project. Those measures will be listed in Section V, Mitigation Applied to Project.

Discussion:

The appropriate mitigation to be applied to this project includes none from the Master EIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-18.B of the Master EIR discloses impacts of implementing the Urban Area General Plan on energy resources. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

19. EFFECTS ON VISUAL RESOURCES	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
1) The proposed project is inconsistent with policies relating to visual resources in the Urban Area General Plan.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
2) The proposed project would degrade views from riverside areas and parks to a greater degree than assumed in the Urban Area General Plan.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
3) The proposed project would degrade views of riverside areas from public roadways and nearby properties to a greater degree than assumed in the Urban Area General Plan.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Discussion:

- (1) The project is consistent with the policies relating the visual resources in the General Plan.
- (2) The project would not degrade views from riverside areas and parks to a greater degree than assumed in the Urban Area General Plan. Views to the Tuolumne Regional River Park and Beard Brook Park will remain the same.
- (3) There is no development associated with the project. Surrounding views will not be impacted by the project.

20. LAND USE AND PLANNING

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts pertaining to land use and planning expected after application of mitigations / policies:

Direct Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR.

Cumulative Impacts

Effect: No residual significant cumulative impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

The following land use and planning mitigation measures pertinent to the proposed project are found on pages V-20-6 through V-20-17 in the Master EIR. All mitigation measures appropriate to the project will be incorporated into or made conditions of approval of this project. Those measures will be listed in Section V, Mitigation Applied to Project.

Discussion:

The appropriate mitigation to be applied to this project includes none from the Master EIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-20.B of the Master EIR discloses impacts of implementing the Urban Area General Plan on land use and planning. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

20. LAND USE AND PLANNING	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
1) The proposed project is inconsistent with land use and planning policies in the Urban Area General Plan.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
2) The proposed project contains elements that would physically divide an established community in a way not assumed in the Urban Area General Plan.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
3) The proposed project conflicts with a land use	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

20. LAND USE AND PLANNING	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
plan, policy or regulation established for the purpose of avoiding or mitigating an environmental impact by an agency that has jurisdiction over the proposed project.				
4) The proposed project conflicts with an applicable habitat conservation plan or natural community conservation plan.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Discussion:

- (1) The project is consistent with the Industrial land use designations in the General Plan.
- (2) The abandonment of portions of 11th, 12th, and B Streets would allow Stanislaus Food Products to consolidate their properties and business operations. Access to Tuolumne River Regional Park would be from D Street would be provided opening 10th Street. This would not divide the downtown area as the City recognizes 10th Street as a better access corridor to the river. There is no development proposed by the project.
- (3) The project is consistent with the land use plan, policies and regulations of the City of Modesto designed to mitigate project impacts.
- (4) The project does not conflict with applicable habitat conservation plans or natural community conservation plans.

21. CLIMATE CHANGE

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts pertaining to climate change expected after application of mitigations / policies:

Direct Impacts

Effect: Impacts resulting from implementation of the Urban Area General Plan are not substantial enough to result in a significant direct impact on climate change, as disclosed in the Master EIR.

Cumulative Impacts

Effect: Implementation of the Urban Area General Plan will have a cumulatively considerable impact on climate change.

b. Master EIR and/or New Mitigation Measures Applied to the Project

The following climate change mitigation measures pertinent to the proposed project are found on pages V-21-7 through V-21-10 in the Master EIR. All mitigation measures appropriate to the project

will be incorporated into or made conditions of approval of this project. Those measures will be listed in Section V, Mitigation Applied to Project.

Discussion:

The appropriate mitigation to be applied to this project includes none from the Master EIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-18.B of the Master EIR discloses impacts of implementing the Urban Area General Plan on climate change. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

21. CLIMATE CHANGE	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
1) The proposed project is inconsistent with policies relating to climate change in the Urban Area General Plan.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
2) The proposed project would result in average automobile trip lengths or CO ₂ emissions higher than those assumed in the Master EIR.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
3) The proposed project would conflict with the Sustainable Communities Strategy or Alternative Planning Strategy that the Air Resources Board has agreed will achieve the goals of AB 32.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Discussion:

- 1) The project is consistent with the policies relating to climate change in the Urban Area General Plan. The project would not have a significance effect on climate change.
- (2) The project would change traffic to Morton Boulevard from 11th Street to 10th Street would not have a significant effect on automobile trip lengths or CO₂ emissions.
- (3) A Sustainable Communities Strategy has not yet been implemented by the ARB. Future development will be required to comply with the provisions of the Sustainable Communities Strategy once it is established.

V. MITIGATION MEASURES APPLIED TO THE PROPOSED PROJECT

If the Initial Study results in the determination that a Finding of Conformance can be adopted for the proposed project Section A below applies. If the Initial Study results in the determination that a Finding of Conformance cannot be adopted and a Mitigated Negative Declaration/EIR must be prepared for the project then Section B, below applies.

A. Master EIR Mitigation Measures Applied to the Project

Pursuant to Public Resources Code Section 21157.1(c), in order for a Finding of Conformance to be made, all appropriate mitigation measures from the Master EIR shall be incorporated into the proposed project. Urban Area General Plan Policies/Master EIR mitigation measures shall be made part of the proposed project prior to approval by means of conditions of project approval or incorporation into the appropriate document or plan.

All applicable and appropriate mitigation measures have been applied to the project (see mitigation measures listed below).

B. New or Additional Mitigation Measures or Alternatives Required

Where the project's effects would exceed the significance criteria for each environmental impact category, a mitigated negative declaration or Focused EIR must be prepared. Staff has reviewed the project against the significance criteria thresholds established in the Master EIR for all impact categories in this Initial Study.

A Mitigated Negative Declaration or Focused EIR shall be prepared for the project. The following additional project-specific mitigation measures listed below are necessary to reduce the identified new significant effect:

Traffic and Circulation:

N/A

Degradation of Air Quality:

AQ-42: All disturbed areas, including storage piles, which are not being actively utilized for construction purposes, shall be effectively stabilized of dust emissions using water, chemical stabilizer/suppressant, covered with a tarp or other suitable cover or vegetative ground cover.

AQ-43: All on-site unpaved roads and off-site unpaved access roads shall be effectively stabilized of dust emissions using water or chemical stabilizer/suppressant.

AQ-44: All land clearing, grubbing, scraping, excavation, land leveling, grading, cut & fill, and demolition activities shall be effectively controlled of fugitive dust emissions utilizing application of water or by presoaking.

AQ-46: When materials are transported off-site, all material shall be covered, or effectively wetted to limit visible dust emissions, and at least six inches of freeboard space from the top of the container shall be maintained.

AQ-47: All operations shall limit or expeditiously remove the accumulation of mud or dirt from adjacent public streets at the end of each workday. (the use of dry rotary brushes is expressly prohibited except where preceded or accompanied by sufficient wetting to limit the visible dust emissions.) (Use of blower devices is expressly forbidden.)

AQ-48: Following the addition of materials to, or the removal of materials from, the surface of outdoor storage piles, said piles shall be effectively stabilized of fugitive dust emissions utilizing sufficient water or chemical stabilizer/suppressant.

AQ-49: Within urban areas, track out shall be immediately removed when it extends 50 or more feet from the site and at the end of each workday.

AQ-50: Any site with 150 or more vehicle trips per day shall prevent carryout and track out.

The following measures should be implemented at construction sites when required to mitigate significant PM10 impacts (note, these measures are to be implemented in addition to Regulation VIII requirements):

AQ-51: Limit traffic speeds on unpaved roads to 15 mph; and

AQ-52: Install sandbags or other erosion control measures to prevent silt runoff to public roadways from sites with a slope greater than one percent (1%).

AQ-53: Install wheel washers for all exiting trucks, or wash off all trucks and equipment leaving the site.

AQ-54: Install wind breaks at windward side(s) of construction areas.

AQ-55: Suspend excavation and grading activity when winds exceed 20 mph. Regardless of windspeed, an owner/operator must comply with Regulation VIII's 20 percent (20%) opacity limitation.

AQ-56: Limit the area subject to excavation, grading and other construction activity at any one time.

Generation of Noise:

N-1: The City has also established a noise ordinance to control noise within the City. The City's noise ordinance (Modesto Municipal Code Section 4-9.101) prohibits the "loud and raucous discharge into the open air of the steam of any steam equipment or exhaust from any stationary internal combustion engine."

N-2: Additionally, the noise ordinance prohibits the loud and raucous operation or use of any of the following before 7:00 a.m. or after 9:00 p.m. daily (except Saturday and Sunday and state or federal holidays, when the prohibited time shall be before 9:00 a.m. and after 9:00 p.m.):
A hammer, or any other device or implement used to pound or strike an object.

1. An impact wrench, or other tool or equipment powered by compressed air.
2. A hand-powered saw.
3. Any tool or piece of equipment powered by an internal-combustion engine such as, but not limited to, chain saw, backpack blower, and lawn mower.

4. Any electrically powered (whether by alternating current electricity or by direct current electricity) tool or piece of equipment used for cutting, drilling, or shaping wood, plastic, metal, or other materials or objects, such as, but not limited to, a saw, drill, lathe, or router.
5. Any of the following: heavy equipment (such as but not limited to bulldozer, steam shovel, road grader, back hoe), ground drilling and boring equipment (such as but not limited to derrick or dredge), hydraulic crane and boom equipment, portable power generator or pump, pavement equipment (such as but not limited to pneumatic hammer, pavement breaker, tamper, compacting equipment), pile driving equipment, vibrating roller, sand blaster, gunite machine, trencher, concrete truck, and hot kettle pump.
6. Any construction, demolition, excavation, erection, alteration, or repair activity. In the case of urgent necessity and in the interest of public health and safety, the Chief Building Official may issue a permit for exemption from these. Such period shall not exceed three (3) working days in length while the emergency continues but may be renewed for successive periods of three (3) days or less while the emergency continues. The Chief Building Official may limit such permit as to time of use and/or permitted action, depending upon the nature of the emergency and the type of action requested.

N-3: The project shall comply with the City's noise ordinance. Construction equipment and vehicles should be equipped with properly operating mufflers according to the manufacturers' recommendations. Air compressors and pneumatic equipment should be equipped with mufflers, and impact tools should be equipped with shrouds or shields. Equipment that is quieter than standard equipment should be utilized. Haul routes that affect the fewest number of people should be selected.

Effects on Agricultural Lands:

N/A

Increased Demand for Long-Term Water Supplies:

N/A

Increased Demand for Sanitary Sewer Services:

N/A

Loss of Sensitive Wildlife and Plant Habitat:

N/A

Disturbance of Archaeological/Historic Sites:

N/A

Increased Demand for Storm Drainage:

N/A

Flooding and Water Quality:

FWQ-13: Construction activities shall comply with the requirements of the City's Storm Water Management Plan under its municipal NPDES Stormwater permit, and the State Water Resources Control Board's General Permit for Discharges of Storm Water Associated with Construction Activity.

Increased Demand for Parks and Open Space:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2019-162**

RESOLUTION APPROVING THE FILING OF AN APPLICATION WITH THE STANISLAUS LOCAL AGENCY FORMATION COMMISSION FOR THE MCHENRY CORALWOOD REORGANIZATION CONSISTING OF ANNEXATION TO THE CITY OF MODESTO AND SIMULTANEOUS DETACHMENT FROM THE STANISLAUS CONSOLIDATED FIRE PROTECTION DISTRICT OF APPROXIMATELY 12.7 ACRES LOCATED EAST OF MCHENRY AVENUE AND NORTH OF CORALWOOD ROAD (OWNER-INITIATED—INHABITED)

WHEREAS, the CTC Investors, LLC (“Applicant”) is the owner of approximately 11.7 acres of real property at 4024 McHenry Avenue, located east side of McHenry Avenue and north of Coralwood Road, and

WHEREAS, the City has received a request from the Applicant to initiate reorganization of the property at 4024 McHenry Avenue and adjacent right-of-way on McHenry Avenue, a total of 12.7 acres (“Property”), to annex the Property to the City of Modesto and simultaneously detach the Property from the Stanislaus Consolidated Fire Protection District under the Cortese-Knox-Hertzberg Local Reorganization Act of 2000, California Government Code Section 56000, et seq, and

WHEREAS, the Resolution of Application is proposed pursuant to the Cortese-Knox-Hertzberg Local Reorganization Act of 2000, California Government Code Section 56000, et seq, and

WHEREAS, the Property proposed for reorganization is inhabited as defined by Government Code Section 56046 (twelve or more registered voters), and a description of the boundaries of the subject Property is set forth in **Exhibits “A” and “B”, attached hereto and by this reference incorporated herein, and**

WHEREAS, the Property is an unincorporated island that meets the special criteria set forth in Government Code Section 56375.3 and qualifies for streamlined processing through Stanislaus Local Agency Formation Commission (“LAFCO”), and

WHEREAS, the Property proposed for reorganization is within Stanislaus County, is contiguous to the existing City limits, and is within the Sphere of Influence of the City of Modesto as adopted by LAFCO, and

WHEREAS, the property was rezoned to Specific Plan (P-SP) with a Regional Commercial designation as part of the Coffee Claretina Specific Plan adopted in 1998, and

WHEREAS, the proposed Property is not subject to a Williamson Act contract, and

WHEREAS, the proposed Property is covered by the North McHenry Corridor Agreement that addresses tax sharing entered into between the County of Stanislaus and City of Modesto which was approved on December 8, 1998, and

WHEREAS, the reorganization area received a Measure M advisory vote approval in November 2015, and

WHEREAS, the reasons for this proposed reorganization are as follows:

1. Staff received an application for the proposed reorganization from the Applicant;
2. The proposed reorganization is consistent with the Urban Area General Plan and can be serviced by City services;
3. The proposed reorganization will result in planned, orderly and efficient development of the area and provision for services; and

WHEREAS, pursuant to Government Code Section 56653, a plan for providing services is set forth in **Exhibit “C”**, attached hereto and by this reference incorporated herein, and

WHEREAS, on March 4, 2019, City of Modesto Planning Commission held a duly noticed public hearing in the Chambers, Tenth Street Place, 1010 Tenth Street, Modesto, California, at which time both oral and documentary evidence were received and considered, and

WHEREAS, after said public hearing, the City of Modesto Planning Commission adopted Resolution No. 2019-05, recommending to the City Council that they adopt the Resolution of Application for an reorganization to annex the Property to the City of Modesto and simultaneously detach the Property from the Stanislaus Consolidated Fire Protection District, and

WHEREAS, said matter was set for public hearing of the City Council to be held on April 9, 2019, in the Tenth Street Place Chambers located at 1010 10th Street, Modesto, California, at which date and time said duly noticed public hearing of the Council was held for the purpose of receiving public comment on the proposed annexation.

NOW, THEREFORE, the Council of the City of Modesto hereby finds and determines as follows:

1. The reorganization area is part of the Coffee Claratina Specific Plan approved in 1998 which provided a comprehensive plan consistent with the Modesto Urban Area General Plan Policy III.D. The requested reorganization implements the Coffee Claratina Specific Plan by annexing the last area of the Coffee Claratina Specific Plan into the City and is consistent with the General Plan.
2. The Property was rezoned to Specific Plan (P-SP) with a Regional Commercial designation as part of the Coffee Claratina Specific Plan adopted in 1998
3. The requested reorganization will result in an orderly and logical addition of land because it will extend the boundary of the City to eliminate an unincorporated island.

4. The Property is located within Stanislaus County, within the City's adopted Sphere of Influence, is contiguous to the existing City limits and can be most efficiently served with City services.
5. The Property proposed to be annexed to the City of Modesto is inhabited as defined by Government Code Section 56046 (twelve or more registered voters) and a description of the boundaries of the subject Property is set forth in **Exhibits "A" and "B", attached** hereto and by this reference incorporated herein.
6. The Property is an unincorporated island that meets the special criteria set forth in Government Code Section 56375.3 and qualifies for streamlined processing through LAFCO.
7. The Property is covered by the North McHenry Corridor Agreement for the sharing of property tax, sales tax, business and mill tax, and utility tax between the County of Stanislaus and City of Modesto which was approved December 8, 1998.

BE IT FURTHER RESOLVED by the Council of the City of Modesto that it hereby adopts this Resolution Authorizing Application for reorganization to annex the Property to the City of Modesto, and simultaneously detach of the Property from the Stanislaus Consolidated Fire Protection District.

BE IT FURTHER RESOLVED by the Council of the City of Modesto that this Resolution of Application includes annexation of the Property to the Modesto Sewer District No. 1.

BE IT FURTHER RESOLVED by the Council of the City of Modesto that, pursuant to Government Code section 56653, the City Council submit the Plan for Services as set forth in **Exhibit "C", attached** hereto and by this reference incorporated herein.

BE IT FURTHER RESOLVED that the project applicant shall indemnify, defend, and hold harmless the City of Modesto, its agents, officers, and employees from any and all claims, actions, or proceedings against the City of Modesto, its agents, officers, and employees to attack, set aside, void, or annul, any approval by the City of Modesto and

its advisory agency, appeal board, or a legislative body concerning the reorganization for the Property. The City of Modesto shall promptly notify the applicant of any claim, action, or proceeding.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 9th day of April, 2019, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Grewal, was upon roll call carried and the resolution adopted by the following votes:

AYES: Councilmembers: Ah You, Grewal, Kenoyer, Madrigal, Ridenour, Zoslocki, Mayor Brandvold

NOES: Councilmembers: None

ABSENT: Councilmembers: None

EXHIBIT "C"

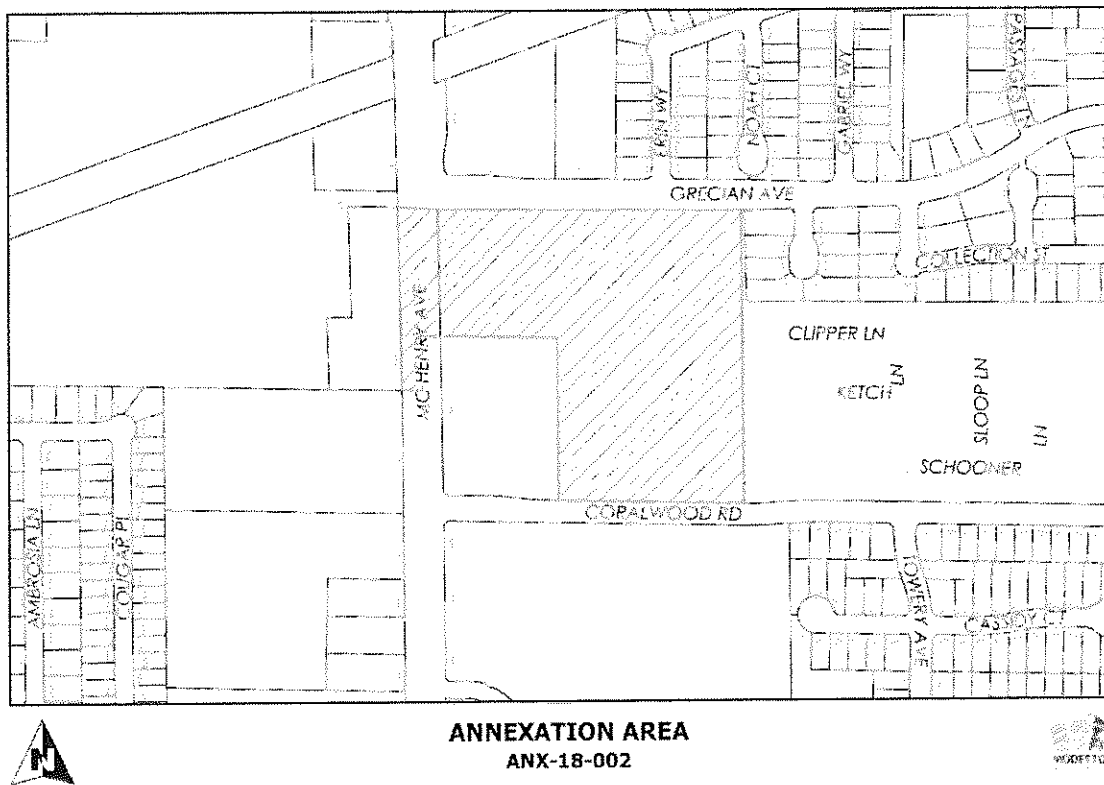

PLAN FOR SERVICES

MCHENRY CORALWOOD ANNEXATION TO THE CITY OF MODESTO

Background:

The McHenry Coralwood Annexation proposes to annex the Modesto Mobile Home Park located at 4024 McHenry Avenue. The annexation area consists of one parcel with 11.7 acres located on the east side of McHenry Avenue and north of Coralwood Road, as shown on the map below. This is an existing mobile home park with 150 spaces. Including adjacent street right-of-way, the annexation area is 12.7 acres total. The proposed annexation area was rezoned as Specific Plan (P-SP) as part of the Coffee Claratina Specific Plan adopted in 1998

The purpose of the annexation is to connect to city sewer because the private septic system is failing. The parcel is fully developed as a mobile home park and no new development is proposed.

Pursuant to Government Code Section 56653, the following Plan for Services to be extended to the affected territory has been prepared for the McHenry Coralwood Annexation to the City of Modesto:

A. Project Area and Service Agreements

1. Traffic and Circulation: The annexation area is bounded by City of Modesto jurisdiction to the north, east and south and is identified as an unincorporated island. No roadway dedication or improvements are required as a part of the annexation. Transit services are provided by the Modesto Area Express (MAX), which has a bus stop on McHenry Avenue adjacent to the site.
2. Waste Water Collection: Sewer service to the Modesto Mobile Home Park would be provided via the 8-inch sewer line along Coralwood Road that that will connect to a 10-inch sewer line on McHenry Avenue. The lines have adequate capacity to serve the site.
3. Water Delivery: Modesto Mobile Home Park is currently served by a private well and is not connected to the City water system. Future connection to the City water system would be to the existing 10-inch water main on Coralwood Road or the 10-inch water main on McHenry Avenue. There is adequate capacity in either of the two water mains.
4. Storm Water Drainage: Modesto Mobile Home Park addresses its onsite storm drainage with onsite dry wells. Offsite storm drainage drains to offsite catch basins.
5. Solid Waste Disposal: The annexation area is currently serviced by the Bertolotti Disposal Company but will change to Gilton after annexation. No change to the level of service already provided is anticipated.
6. Fire Protection: The annexation area will detach from the Stanislaus Consolidated Fire District and will be served by the City of Modesto Fire Department after annexation. Two stations are located less than two miles from the annexation area. Station No. 7 is located at 1800 Mable Avenue is approximately 1.9 miles east of the annexation area. Station No. 11 is located at 4225 Carver Road is approximately 1.75 miles to the west. No adverse impacts to staffing or response times would be anticipated with the annexation.
7. Police Protection: Upon annexation, the area will be served by the City of Modesto Police Department. The Police Department has not expressed any concerns with impacts to staffing or response times upon annexation.

B. Level and Range of Services

The City of Modesto is a full service provider of municipal services. The City will provide full services to the area upon annexation.

C. When Can Services Be Provided?

The services described above will be provided or available upon the effective date of annexation.

D. Improvements Required as a Condition of Annexation

No improvements are required as a condition of annexation.

E. How Will Services be Financed?

Services will be financed through applicable utility and service fees and permit fees provided by property, as well as by property tax revenues and general fund resources.

**MODESTO CITY COUNCIL
RESOLUTION NO. 2019-163**

RESOLUTION FINDING THAT THE FOLLOWING SUBSEQUENT PROJECT IS WITHIN THE SCOPE OF THE PROJECT COVERED BY THE MODESTO URBAN AREA GENERAL PLAN MASTER ENVIRONMENTAL IMPACT REPORT (SCH NO. 2007072023): MCHENRY CORALWOOD REORGANIZATION CONSISTING OF ANNEXATION TO THE CITY OF MODESTO AND SIMULTANEOUS DETACHMENT FROM THE STANISLAUS CONSOLIDATED FIRE PROTECTION DISTRICT OF APPROXIMATELY 12.7 ACRES LOCATED EAST OF MCHENRY AVENUE AND NORTH OF CORALWOOD ROAD

WHEREAS, on October 14, 2008, the City Council of the City of Modesto certified the Final Master Environmental Impact Report (“Master EIR”) (SCH No. 2007072023) for the Modesto Urban Area General Plan, and

WHEREAS, CTC Investors, LLC has proposed the McHenry Coralwood Reorganization consisting of annexation to the City of Modesto and simultaneous detachment from the Stanislaus Consolidated Fire Protection District of approximately 12.7 acres located east of McHenry Avenue and north of Coralwood Road, and

WHEREAS, pursuant to Section 21157.1 of the Public Resources Code, the City of Modesto’s Community & Economic Development Department prepared an Environmental Assessment Initial Study EA/C&ED 2019-09 (“Initial Study”) which analyzed whether the subsequent project may cause any significant effect on the environment that was not examined in the Master EIR and whether the subsequent project was described in the Master EIR as being within the scope of the report, and

WHEREAS, in accordance with CEQA guidelines beginning on March 20, 2019, the City caused to be published a 20-day notice of the City’s intent to make a finding that the subsequent project conforms with the Master EIR, and

WHEREAS, said matter was considered by the City Council at a duly noticed public hearing which was held on April 9, 2019, at 5:30 p.m., in the Tenth Street Place Chambers located at 1010 Tenth Street, Modesto, California.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council has reviewed and considered the Initial Study prepared for the proposed McHenry Coralwood Reorganization, a copy of which is **attached** hereto as **Exhibit “A”**, and incorporated herein by reference, and based on substantial evidence in the Initial Study makes the following findings:

1. An Initial Study was prepared by the City of Modesto that analyzed whether the subsequent project may cause any significant effect on the environment that was not examined in the Master EIR and whether the subsequent project was described in the Master EIR as being within the scope of the report.
2. The subsequent project will have no additional significant effect on the environment, as defined in subdivision (d) of Section 21158 of the Public Resources Code, that was not identified in the Master EIR.
3. No new or additional mitigation measures or alternatives are required.
4. The subsequent project is within the scope of the project covered by the Master EIR.
5. All applicable policies, regulations, and mitigation measures identified in the Master EIR have been applied to the subsequent project or otherwise made conditions of approval of the subsequent project.
6. No substantial changes have occurred with respect to the circumstances under which the Master EIR was certified, and no new information, which was not known and could not have been known at the time that the Master EIR was certified as complete, has become available.

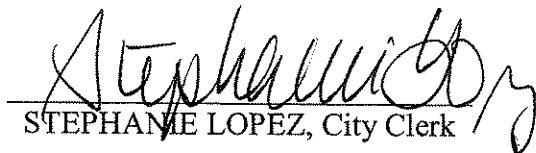

BE IT FURTHER RESOLVED by the Council of the City of Modesto that the Community & Economic Development Director is hereby authorized and directed to file a notice of approval or determination within five (5) business days with the Stanislaus County Clerk pursuant to Section 21152 of the Public Resources Code.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 9th day of April, 2019, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Grewal, was upon roll call carried and the resolution adopted by the following votes:

AYES: Councilmembers: Ah You, Grewal, Kenoyer, Madrigal, Ridenour, Zoslocki, Mayor Brandvold

(Intentional Blank Page)

City of Modesto

Master EIR Initial Study Environmental Checklist

I. PURPOSE

CEQA allows for the limited environmental review of subsequent projects under the City's Master Environmental Impact Report ("Master EIR" or "MEIR"). This Initial Study Environmental Checklist ("Initial Study") is used in determining whether McHenry Coralwood Annexation is "within the scope" of the project analyzed in the Modesto Urban Area General Plan Master EIR (SCH# 2007072023) (Public Resources Code section 21157.1). When the Initial Study supports this conclusion, the City will issue a finding of conformance.

A subsequent project is "within the scope" of the Master EIR when:

1. it will have no additional significant effects on the environment that were not addressed as significant effects in the Master EIR; and
2. no new or additional mitigation measures or alternatives are required.

"Additional significant effects" means a project-specific effect that was not addressed as a significant effect in the Master EIR. [Public Resources Code Section 21158(d)]

The determination must be based on substantial evidence in the record. "Substantial evidence" means facts, reasonable assumptions predicated upon facts, or expert opinion based on facts. It does not include speculation or unsubstantiated opinion. (CEQA Guidelines Section 15384)

II. PROJECT DESCRIPTION

- A. Title: McHenry Coralwood Annexation
- B. Address or Location: 4024 McHenry Avenue
- C. Applicant: Margot Roen
- D. City Contact Person: Paul Liu, Senior Planner

Project Manager: Paul Liu
Department: Community and Economic Development Department
Phone Number: 209 577 5282
E-mail address: pliu@modestogov.com

- E. Current General Plan Designation(s): Regional Commercial
- F. Current Zoning Classification(s): Prezone Specific Plan
- G. Surrounding Land Uses:
 - North: Commercial and residential
 - South: Commercial
 - East: Residential

West: Commercial

- H. Project Description, including the project type listed in Section II.C (Anticipated Future Projects) of the Master EIR (Attach additional maps/support materials as needed for complete record):

This is a proposal to annex approximately 12.7 acres into the City of Modesto and Modesto Municipal Sewer District No. 1 and simultaneously detach the area from the Stanislaus Consolidated Fire District. This site includes an 11.7 acre parcel located on the east side of McHenry Avenue and north of Coralwood Road plus approximately one acre of McHenry Avenue street right-of-way. The parcel has been occupied by the Modesto Mobile Home Park since 1963 with 150 existing spaces. The property was rezoned to Specific Plan (P-SP) with a Regional Commercial designation as part of the Coffee Claratina Specific Plan adopted in 1998. No new development is proposed. The main reason for annexation is to connect to City Sewer due to a failing private septic system.

- I. Other Public Agencies Whose Approval is Required:
Stanislaus County Local Agency Formation Commission

III. FINDINGS/DETERMINATION (SELECT ONE ON THE BASIS OF THE ANALYSIS IN SECTION IV)

1. **Within the Scope** - The project is within the scope of the Master EIR and no new environmental document or Public Resources Code Section 21081 findings are required. All of the following statements are found to be true:

- A. The subsequent project will have no additional significant effect on the environment, as defined in subdivision (d) of Section 21158 of the Public Resources Code, that was not identified in the Master EIR.
- B. No new or additional mitigation measures or alternatives are required.
- C. The subsequent project is within the scope of the project covered by the Master EIR.
- D. All applicable policies, regulations, and mitigation measures identified in the Master EIR have been applied to the subsequent project or otherwise made conditions of approval of the subsequent project.
- E. No substantial changes have occurred with respect to the circumstances under which the Master EIR was certified, and no new information, which was not known and could not have been known at the time that the Master EIR was certified as complete, has become available.

2. **Mitigated Negative Declaration Required** - On the basis of the above determinations, the project is not within the scope of the Master EIR. A mitigated negative declaration will be prepared for the project. The following statements are all found to be true:

- A. The subsequent project is within the scope of the project covered by the Master EIR.

- B. All applicable policies, regulations, and mitigation measures identified in the Master EIR have been applied to the subsequent project or otherwise made conditions of approval of the subsequent project.
- C. The project will have one or more potential new significant effects on the environment that were not addressed as significant effects in the Master EIR. New or additional mitigation measures are being required of the project that will reduce the effects to a less-than-significant level.
- D. No substantial changes have occurred with respect to the circumstances under which the Master EIR was certified, and no new information, which was not known and could not have been known at the time that the Master EIR was certified as complete, has become available.

3. Focused EIR Required- On the basis of the above determinations, the project is not within the scope of the Master EIR. A Focused EIR will be prepared for the project. All of the following statements are found to be true:

- A. The subsequent project is within the scope of the project covered by the Master EIR.
- B. All applicable policies, regulations, and mitigation measures identified in the Master EIR have been applied to the subsequent project or otherwise made conditions of approval of the subsequent project.
- C. The project will have one or more new significant effects on the environment that were not addressed as significant effects in the Master EIR. New or additional mitigation measures or alternatives are required as a result.
- D. No substantial changes have occurred with respect to the circumstances under which the Master EIR was certified, and no new information, which was not known and could not have been known at the time that the Master EIR was certified as complete, has become available.

Project Manager

Title

Date

4. Within the Scope Analysis of this Document:

The Master EIR allows projects to be found within the scope of the MEIR if certain criteria are met. If the following statements are found to be true for all 21 impact categories included in this Initial Study, then the proposed project is addressed by the MEIR analysis and is within the scope of the MEIR. Any "No" response must be discussed.

	YES	NO
(1) The lead agency for subsequent projects shall be the City of Modesto or a responsible agency identified in the Master EIR.	<input checked="" type="checkbox"/>	<input type="checkbox"/>
(2) City policies which reduce, avoid, or mitigate environmental effects will continue to be in effect and, therefore, would be applied to subsequent projects where appropriate. The policies are described in the list of policies in place and mitigation measures attached to the Initial Study template. Project impacts would be mitigated to a less-than-significant level using MEIR mitigations only.	<input checked="" type="checkbox"/>	<input type="checkbox"/>
(3) Federal, State, regional, and Stanislaus County regulations do not change in a manner that is less restrictive on development than current law (i.e., would not offer the same level of protection assumed under the Master EIR).	<input checked="" type="checkbox"/>	<input type="checkbox"/>
(4) No specific information concerning the known or potential presence of significant resources is identified in future reports, or through formal or informal input received from responsible or trustee agencies or other qualified sources.	<input checked="" type="checkbox"/>	<input type="checkbox"/>
(5) The development will occur within the boundaries of the City's planning area as established in this Urban Area General Plan.	<input checked="" type="checkbox"/>	<input type="checkbox"/>
(6) Development within the project will comply with all appropriate mitigation measures contained and enumerated in the 2008 General Plan Master EIR.	<input checked="" type="checkbox"/>	<input type="checkbox"/>

5. Currency of the Master EIR Document

The MEIR should be reviewed on a regular basis to determine its currency, and whether additional analysis/mitigation should be incorporated into the MEIR via a Supplemental or Subsequent EIR (CEQA Section 21157.6). Staff has reviewed Sections 1 through 21 of this document in light of the criteria listed below to determine whether the MEIR is current. The analysis contained within the Master EIR is current as long as the following circumstances have not changed. Any "no" response must be explained.

	YES	NO
(1) Certification of the General Plan Master EIR occurred less than five years prior to the filing of the application for this subsequent project.	<input type="checkbox"/>	<input checked="" type="checkbox"/>
(2) This project is described in the Master EIR and its approval will not affect the adequacy of the Master EIR for any subsequent project because the City can make the following findings:	<input checked="" type="checkbox"/>	<input type="checkbox"/>
(a) No substantial changes have occurred with respect to the circumstances under which the Master EIR was certified.	<input checked="" type="checkbox"/>	<input type="checkbox"/>
(b) No new information, which was not known and could not have been known at the time the Master EIR was certified as complete, has become available.	<input checked="" type="checkbox"/>	<input type="checkbox"/>
(c) Policies remain in effect which require site-specific mitigation, and avoidance or other mitigation of impacts as a prerequisite to future development.	<input checked="" type="checkbox"/>	<input type="checkbox"/>

Discussion:

- (1) The General Plan Master EIR was certified on October 14, 2008, so more than five years has passed since the MEIR was certified. However, the analysis contained in the MEIR is still adequate for subsequent projects, as documented in the discussion below.
- (2) The project is consistent with the analysis contained in the MEIR. This is documented in the discussion of the individual issue areas of this initial study.
 - (2)(a) There have been no substantive changes to the General Plan since the MEIR was certified that would create additional significant environmental effects that were not analyzed by the MEIR.
 - (2)(b) There has been no new information that would affect the adequacy of the analysis contained in the MEIR.
 - (2)(c) All policies contained in the MEIR that require site-specific mitigation or avoidance of impacts remain in effect and will be applied to the project as appropriate.

IV. ENVIRONMENTAL ANALYSIS

This Initial Study, in accordance with Section 21157.1(b) of the Public Resources Code, discloses whether the proposed project may cause any project-specific significant effect on the environment that was not examined in the Final Master EIR (MEIR) for the General Plan and whether new or additional mitigation measures or alternatives may be required as a result. The Initial Study thereby documents whether or not the project is "within the scope" of the Master EIR.

Pursuant to Public Resources Code Section 21157.1, no new environmental document or findings are necessary for projects that are determined to be within the scope of the MEIR. Adoption of the findings specified in Section III.1, above after completion of the Initial Study fulfills the City's obligation in that situation.

All environmental effects cited reflect 2025 conditions resulting from the Urban Area General Plan, as identified in the Master EIR.

The environmental impact analysis in the Master EIR for the Urban Area General Plan is organized in twenty-one subject areas. The following analysis is based on the impact analyses contained in Chapter V of the Master EIR. For ease of reference, the sections are numbered in the same order as the analyses in Chapter V.

1. TRAFFIC AND CIRCULATION

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable traffic and circulation impacts expected after application of mitigations / policies:

Direct Impacts

Effect: Increased automobile traffic will result in roadway segments (see MEIR on Table 1-7, pages V-1-32 to V-1-34) operating at LOS D, Modesto's significance threshold for automobile traffic, or lower (LOS E or F).

Effect: The substantial increase in traffic relative to the existing load and capacity of the street system will cause, either individually or cumulatively, the violation of automobile service standards established by StanCOG's Congestion Management Plan for designated roads and highways.

Effect: A substantial increase in automobile vehicle miles traveled and automobile vehicle hours of travel and a decrease in average automobile vehicle speed (see MEIR Table 1-6, page V-1-31).

Cumulative Impacts

Effect: Potential for growth inducement or acceleration of development resulting from highway and local road projects.

Effect: Substantial increase in traffic in relation to the existing traffic load and capacity of the street system, including a violation, either individually or cumulatively, of an automobile LOS standard established by the Congestion Management Plan for designated roads and highways.

Effect: Increased demand for capacity-enhancing alterations to existing roads or automobile traffic reduction.

Other impact categories affected by Traffic and Circulation are addressed throughout this Initial Study (see also Section 2, Degradation of Air Quality; Section 3, Generation of Noise; Section 7 Loss of Sensitive Wildlife and Plant Habitat; Section 8, Disturbance of Archaeological/Historic Sites; Section 14 Increased Demand for Fire Services; Section 18, Energy; Section 19, Visual Resources; Section 20, Land Use and Planning, and Section 21, Climate Change).

b. Master EIR and/or New Mitigation Measures Applied to the Project

Traffic and Circulation mitigation measures pertinent to this project are found on MEIR pages V-1-9 through V-1-28. All mitigation measures appropriate to the project, including any new measures, will be incorporated into or made conditions of approval of this project and are listed in Section V, Mitigation Measures Applied to Project.

Discussion:

The appropriate mitigation to be applied to this project includes none from the MEIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-1.B of the Master EIR provides analysis of Traffic and Circulation impacts of development of the General Plan, the following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: A subsequent development project will have a new significant effect on the environment if it would exceed the following criteria:

1. TRAFFIC AND CIRCULATION	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
1) The proposed project exceeds traffic generation assumptions in the Master EIR for the site by 100 trips or more and City Engineering and Transportation staff has determined that the project would have additional potentially significant project-specific effects that are not avoided or reduced by the Master EIR's mitigation measures.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
2) Exceed, either individually or cumulatively, a level of service standard established by the county congestion management agency for designated roads or highways?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
3) The proposed project would cause additional roadway segments in the General Plan area to exceed LOS D and/or cause additional violations of standards in the Congestion Management Plan, and/or cause an increase in automobile vehicle miles or vehicle hours of travel or a decrease in automobile travel speed, as compared to the impacts disclosed in the Master EIR.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
4) The proposed project would cause emergency response times to exceed acceptable standards established by the Fire Department, as compared to impacts disclosed in the Master EIR (see Section 14, Increased Demand for Fire Services).	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
5) The proposed project would result in less parking than required by the Municipal Code or as determined by staff.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
6) The proposed project would conflict with adopted policies, plans, or programs that support alternative transportation, including, but not limited to the Regional Transportation Plan, the Sustainable Communities Strategy, the Bicycle Action Plan, etc.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
7) The proposed project would result in an increase in automobile vehicle miles traveled on a per capita basis, in excess of that considered in the Urban Area General Plan MEIR.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Discussion:

- (1-3) The proposed project to annex an existing mobile home park into the City is for the purpose of connecting to City sewer. No new development is proposed. Therefore, there will be no increase in traffic.
- (4) Police and Fire Staff have reviewed the project and indicated no concerns with emergency access.
- (5) There will be no impact to parking because no change is proposed to the existing development.
- (6) The project would not conflict with adopted policies, plans, or programs that support alternative transportation, including, but not limited to the Regional Transportation Plan, the Sustainable Communities Strategy, the Bicycle Action Plan.
- (7) The project will not be any increase in vehicle miles traveled.

2. DEGRADATION OF AIR QUALITY

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable air quality impacts expected after application of mitigations / policies:

Direct Impacts

Effect: Expected automobile traffic will result in increased operational emissions of reactive organic gases (ROG) and oxides of nitrogen (NO_x) (see MEIR Table 2-8, page V-2-27).

Effect: Expected automobile traffic will result in increased emissions of particulate matter 10 microns or less (PM₁₀) and 2.5 microns or less in diameter (PM_{2.5}) (see MEIR Table 2-8, page V-2-27).

Effect: Expected automobile traffic will result in increased carbon monoxide (CO) levels in the project area (see MEIR Table 2-7, page V-2-26, and Table 2-8, page V-2-27).

Cumulative Impacts

The Master EIR indicates the same impacts identified as direct impacts above will contribute to regional impacts on air quality for the criteria pollutants ROG, NO_x, PM₁₀, and PM_{2.5}.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Air quality mitigation measure(s) pertinent to the proposed project are found on pages V-2-13 through V-2-24 of the Master EIR. All mitigation measures appropriate to the project will be incorporated into or made conditions of approval of this project and are listed in Section V, Mitigation Measures Applied to Project.

Discussion:

The appropriate mitigation to be applied to this project includes none from the MEIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-2.B of the Master EIR is the analysis of air quality impacts resulting from development of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not analyzed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

2. DEGRADATION OF AIR QUALITY	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
1) The proposed project exceeds the project-level emissions thresholds established for CO, ROG, NO _x , PM ₁₀ , and PM _{2.5} by the San Joaquin Valley Air Pollution Control District (SJVAPCD) and is not consistent with the development assumptions for the project site, as established in the Urban Area General Plan and Master EIR.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
2) The proposed project does not incorporate the best management practices established by the SJVAPCD for CO, ROG, NO _x , PM ₁₀ , and PM _{2.5} .	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
3) The proposed project does not comply with the air quality policies in the Modesto Urban Area General Plan.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
4) The proposed project would expose sensitive receptors to pollutant concentrations in excess of those expected to occur as a result of implementation of the Urban Area General Plan.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
5) The proposed project would create objectionable odors affecting a substantial number of people.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Discussion:

- (1) The proposal to annex the project site is consistent with the Urban Area General Plan policies. There is no development or change proposed that would increase traffic volumes and emissions.
- (2) There is no new development or other activity associated with the project that would affect air quality.
- (3) The project does not conflict with the air quality policies in the Urban Area General Plan.

- (4) The project would not result in pollutant concentrations in excess of those expected to occur as a result of the implementation of the Urban Area General Plan.
- (5) The project will not produce objectionable odors.

3. GENERATION OF NOISE

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable noise impacts expected after application of mitigations / policies:

Direct Impacts

Effect: Future automobile traffic noise levels and roadway construction and maintenance activities resulting from development of the Urban Area General Plan will exceed the City's noise thresholds at various locations, but particularly in areas adjacent to heavily traveled roadways (see MEIR Table 3-3, page V-3-10, and Figure VII-2 and Table 3-6, pages V-3-18 and V-3-19).

Effect: Expected noise from airport operations and airport construction projects may expose up to 468 dwellings and three churches to noise levels of 65 dB CNEL and up to eight dwellings to noise levels of 70 dB CNEL.

Effect: Expose noise-sensitive land uses to noise from the construction of bicycle and transit projects.

Effect: Expose noise-sensitive land uses to noise from freight and passenger rail operations.

Cumulative Impacts

Effect: Traffic from development in the City of Modesto would, when combined with traffic from new development in the County and other cities, contribute to a cumulative increase in roadside noise levels on major roads and highways throughout Stanislaus County.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Noise policies and mitigation measures pertinent to the project being analyzed in this Initial Study are found on pages V-3-11 through V-3-15 of the Master EIR. All mitigation measures appropriate to the project will be incorporated into or made conditions of approval of this project and any new measures are listed in Section V, Mitigation Applied to Project.

Discussion:

The appropriate mitigation to be applied to this project includes none from the Master EIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-3.B of the MEIR discloses noise impacts resulting from development of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not analyzed in the Master EIR.

Significance Criteria: Determination of the proposed project’s effects are based on the following thresholds. Project-specific effects will be less than significant unless:

3. GENERATION OF NOISE	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
1) The proposed project will exceed the standards for noise level and hours of operation established by the Modesto noise ordinance.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
2) The proposed project will not comply with the noise policies of, or otherwise be inconsistent with, the Modesto Urban Area General Plan.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
3) The proposed project will result in an increase in ambient noise levels in the project vicinity above those disclosed in the Master EIR.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
4) The proposed project will result in a substantial temporary or periodic increase in ambient noise levels in the project vicinity above levels disclosed in the Master EIR implementation of the Urban Area General Plan.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Discussion:

- (1-4) The project would not cause noise above levels already existing as part of the existing mobile home park.

4. EFFECTS ON AGRICULTURAL LANDS

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on agricultural lands expected after application of mitigations / policies:

Direct Impacts

Effect: Between 1995 and 2025, development of the Urban Area General Plan may convert up to approximately 26,000 acres of farmland in various categories in the Planned Urbanizing Area to urban uses.

Effect: Approximately 1,200 acres of urban development along a 28.5-mile boundary 350 feet wide between urban and agricultural uses could be affected by continued agricultural operations, including noise, dust, and chemical overspray or drift.

Cumulative Impacts

Effect: Growth within Modesto’s planning area would contribute considerably to the loss of agricultural land within Stanislaus County, accounting for the conversion of as much as approximately 26,000 acres of farmland in various categories in the Planned Urbanizing Area from 1995 to 2025.

b. Master EIR and/or New Mitigation Measures Pertinent to the Project

Agricultural land mitigation measures pertinent to the proposed project are found on pages V-4-6 to and V-4-8 of the Master EIR. All mitigation measures appropriate to the project and any new mitigation to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Applied to Project.

Discussion:

The appropriate mitigation to be applied to this project includes none from the Master EIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-4.B of the Master EIR discloses the impacts resulting from the implementation of the Urban Area General Plan on agricultural lands. The following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not previously analyzed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

4. EFFECTS ON AGRICULTURAL LANDS	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
1) The proposed project is inconsistent with the Urban Area General Plan’s policies relating to agricultural land.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
2) The proposed project will either directly or indirectly result in the development of land outside the 2008 Urban Area General Plan’s planning area boundary.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
3) The proposed project will conflict with existing zoning for agricultural use, or there is an existing Williamson Act contract on the project site.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
4) The proposed project will involve other changes in the existing environment not anticipated in the Master EIR which, due to their location or nature, could result in conversion of farmland to non-agricultural use.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Discussion:

- (1-4) The project site and surrounding area is developed with urban uses. The site is not zoned for agricultural uses, nor is subject to a Williamson Act contract. The project would not cause the conversion of farmland to a non-agricultural use.

5. INCREASED DEMAND FOR LONG-TERM WATER SUPPLIES

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on long-term water supplies expected after application of mitigations / policies:

Direct Impacts

Effect: No residual significant direct impacts have been disclosed in the Master EIR.

Cumulative Impacts

Effect: Operational yields of the Modesto and Turlock subbasins, both of which underlie the City of Modesto, are unknown, although the City is participating in a study with the United States Geological Survey in order to quantify the operational yields of both subbasins. Groundwater withdrawals from both basins by the City, when combined with other users' withdrawals, may result in overdrafting both subbasins.

Effect: Despite available options, during drought years, significant water shortages are forecast for the San Joaquin River basin, which includes both the Modesto and Turlock subbasins, by 2020. Modesto would make a cumulatively considerable contribution to the cumulative impact on water supply under drought conditions.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Water supply mitigation measures pertinent to the proposed project are found on pages V-5-6 through V-5-12 of the Master EIR. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Measures Applied to Project.

Discussion:

The appropriate mitigation to be applied to this project includes none from the Master EIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-5.B of the Master EIR discloses impacts on long-term water supplies resulting from implementation of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

5. INCREASED DEMAND FOR LONG-TERM WATER SUPPLIES	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
1) The proposed project is inconsistent with water supply policies in the Urban Area General Plan.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
2) Water demand for the proposed project will exceed estimates for similar projects or for development on the project site anticipated in the Urban Area General Plan or sufficient water supplies are not otherwise available to serve the project from existing entitlements and resources.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
3) The proposed project would deplete groundwater supplies to a greater degree than anticipated in the Urban Area General Plan or would interfere with groundwater recharge.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Discussion:

- (1) The project would be consistent with the Water Supply policies of the General Plan.
- (2) The existing mobile home park is presently served by a private water well and there has not been a request to connect to City water. When there is a request to connect to City water, there will be adequate capacity to serve the existing mobile home park. Water demand for the project will not exceed estimates anticipated in the General Plan.
- (3) The proposed project is consistent with the land uses and water demands assumed in the General Plan. The project would not have a significant effect on ground water recharge or depletion of long-term water supplies.

6. INCREASED DEMAND FOR SANITARY SEWER SERVICES

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on sanitary sewer services after application of mitigations / policies:

Direct Impacts

Effect: Development resulting from implementation of the Urban Area General Plan will require substantial new sewage treatment and disposal capacity, treatment plant improvements, sewer mains and collection lines, and pump stations. The Wastewater Master Plan anticipates the need for these facilities and its EIR evaluates the impact of developing those facilities. Potential impacts include degradation of water quality through erosion and chemical releases; localized flooding; and construction noise. All of these impacts are mitigated to a less-than-significant level.

Additional impacts that are not mitigated to a less-than-significant level include loss of farmland caused by construction of the Phase IA tertiary treatment facility at the Jennings Road Secondary Treatment Facility, an increase in pollutant loads from increased wastewater flows to the San Joaquin

River, and an increase in noise and criteria air pollutants due to construction activities, including traffic.

Cumulative Impacts

Effect: No additional cumulative impacts were identified in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Sewer service mitigation measures pertinent to the proposed project are found on pages V-6-3 through V-6-8 of the Master EIR. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Measures Applied to Project.

Discussion:

The appropriate mitigation to be applied to this project includes none from the Master EIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-6.B of the Master EIR discloses impacts on the Increased Demand for Sanitary Sewer Service resulting from implementation of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

6. INCREASED DEMAND FOR SANITARY SEWER SERVICES	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
1) The proposed project is inconsistent with wastewater policies in the Urban Area General Plan.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
2) The proposed project will generate sewage flows greater than those anticipated in the Urban Area General Plan for the project site.	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
3) The proposed project will result in a determination by the wastewater treatment provider which serves or may serve the project that it has inadequate capacity to serve the project's projected demand in addition to the provider's existing commitments.	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>

Discussion:

- (1) The proposed project would be consistent with the wastewater supply policies in the General Plan.
- (2-3) The mobile home park owner has requested connection to the City sewer system. The City sewer system has sufficient capacity to serve this property. Sewer connection can occur to an existing line on McHenry Avenue or Coralwood Road. The proposed project will not generate sewage flows greater than those anticipated in the Urban Area General Plan for the project site.

7. LOSS OF SENSITIVE WILDLIFE AND PLANT HABITAT

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on sensitive wildlife and plant habitat expected after application of mitigations / policies:

Direct Impacts

Effect: No residual significant impacts on sensitive wildlife and plant habitat are expected to occur with the application of the policies contained in the Urban Area General Plan.

Cumulative Impacts

Effect: Implementation of the Urban Area General Plan will contribute to the cumulative impact of habitat loss in the San Joaquin Valley. Requiring denser development than has occurred in the past or that is expected in the future would minimize the City's contribution to the cumulative loss of habitat. Nonetheless, this is a significant and unavoidable impact.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Wildlife and plant habitat mitigation measures pertinent to the proposed project are found on pages V-7-17 through V-7-24 of the Master EIR. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Measures Applied to Project.

Discussion:

The appropriate mitigation to be applied to this project includes none from the Master EIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-7.B of the Master EIR discloses impacts on the Loss of Sensitive Wildlife and Plant Habitat resulting from implementation of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

7. LOSS OF SENSITIVE WILDLIFE AND PLANT HABITAT	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
1) The project is inconsistent with the policies pertaining to the loss of sensitive wildlife and plant habitat contained in the Urban Area General Plan.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
2) Consultation with the California Department of Fish and Game or the U.S. Fish and Wildlife Service determines that the project would have a significant effect on a candidate, sensitive, or special status species in excess of the impact disclosed in the Master EIR.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
3) The proposed project would have a substantial adverse effect on federally protected wetlands as defined by Section 404 of the Clean Water Act through direct removal, filling, hydrological interruption, or other means, in excess of the impact disclosed in the Master EIR.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
4) The proposed project would substantially interfere with the movement of any native resident or migratory fish or wildlife species or with established native resident or migratory wildlife corridors, or impede the use of native wildlife nursery sites.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
5) Conflict with local policies or ordinances protecting biological resources, such as a tree preservation policy or ordinance.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
6) The proposed project would conflict with provisions of an adopted habitat conservation plan, natural community conservation plan, or other approved local, regional, or state habitat conservation plan.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Discussion:

- (1) The project is consistent with the General Plan policies related to the loss of sensitive wildlife and plant habitat. The site has been developed since 1963.
- (2) The project site is not a biologically sensitive site as defined by Figures V-7-1, sheet 2, of the MEIR. The California Department of Fish and Game and the U.S. Fish and Wildlife Service were consulted in the production of the MEIR.
- (3) The site does not qualify as a federally protected wetland per Section 404 of the Clean Water Act.
- (4) The project site is not a biologically sensitive site as defined by Figures V-7-1, sheet 2, of the MEIR. The movement of fish or birds or other wildlife would not be effected by the project.

- (5) There is no conflict with any local policies or ordinances protecting biological resources.
- (6) There is no conflict with any adopted habitat conservation plan, natural community conservation plan, or other approved local, regional or state habitat conservation plan.

8. DISTURBANCE OF ARCHAEOLOGICAL/HISTORICAL SITES

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on archaeological/historical sites expected after application of mitigations / policies:

Direct Impacts

Effect: Modification resulting in a substantial adverse change in the significance of a historic resource or the demolition of a listed or eligible historic resource.

Effect: The modification or demolition of a structure more than 50 years in age may be significant.

Effect: Discovery of archaeological resources, in areas outside of the riparian corridors, as a result of construction activities.

Effect: Construction in an area of high archaeological sensitivity.

Cumulative Impacts

Effect: No additional cumulative impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Archaeological or historic mitigation measures pertinent to the project being analyzed in this Initial Study are found on page V-8-16 through V-8-20 of the Master EIR. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Applied to Project:

Discussion:

The appropriate mitigation to be applied to this project includes none from the Master EIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-8.B of the MEIR discloses impacts on archaeological/historical resources resulting from implementation of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

8. DISTURBANCE OF ARCHAEOLOGICAL/ HISTORICAL SITES	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
1) The proposed project is inconsistent with the archaeological / historical resource policies in the Urban Area General Plan.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
2) The proposed project would demolish a building eligible for listing as a historic resource or remove a landmark from the Modesto inventory.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
3) The proposed project would modify or demolish a structure more than 50 years old.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
4) The project would adversely affect a cultural resource that is either listed or eligible for listing in the California Register of Historical Resources.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
5) The project would adversely affect a Tribal Cultural Resource identified and/or defined by the applicable Tribe.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Discussion:

- (1) The proposed project is consistent with the archeological and historical resource policies in the General Plan.
- (2-3) No buildings are proposed to be demolished, and no City landmarks exist at the site.
- (4) The project would not affect a resource that is listed or eligible for listing in the California Register of Historic Resources.
- (5) The project does not conflict with local policies affecting cultural resources.

9. INCREASED DEMAND FOR STORM DRAINAGE

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on storm drainage expected after application of mitigations / policies:

Direct Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR.

Cumulative Impacts

Effect: The population of Stanislaus County is projected to increase in a fashion similar to that of Modesto, resulting in additional urban development and associated increases in impervious surface

area and associated increases in storm water runoff. Cumulative hydrologic impacts of storm water flows from Modesto urban areas and other areas of the County could occur due to the fixed capacity of MID and TID irrigation canals to convey drainage west to the San Joaquin River. If drainage channels in some areas prove insufficient to handle the increased drainage discharges, existing storm water runoff from urban and agricultural areas during large storm events would have to be interrupted until water levels receded to a point allowing the resumption of discharges to the channel. Ceasing discharges to drainage channels could cause inundation in and around the drainage conveyance pipeline systems, surface drainage channels, detention basins, and other urban areas. This cumulative impact is considered significant and unavoidable.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Storm Drainage mitigation measures pertinent to the project being analyzed in this Initial Study are found on pages V-9-4 through V-9-9. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Measures Applied to Project:

Discussion:

The appropriate mitigation to be applied to this project includes none from the Master EIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-9.B of the MEIR discloses impacts on the demand for storm drainage resulting from development of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

9. INCREASED DEMAND FOR STORM DRAINAGE	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
1) The proposed project is inconsistent with the storm drainage policies in the Urban Area General Plan.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
2) The proposed project would substantially increase the rate or amount of surface runoff in a manner that would result in flooding on- or offsite, as compared to impacts anticipated to result from the Urban Area General Plan or create substantial unanticipated sources of polluted runoff.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
3) The proposed project does not utilize Low Impact Development strategies to reduce runoff from the site and increase infiltration, resulting in no net increase in runoff before and after development.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Discussion:

- (1) The proposed project is consistent with the storm drainage policies in the Urban Area General Plan.
- (2-3) The proposed project does not include any new development. The proposal will not contribute additional water runoff that would exceed the capacity of the storm drainage system.

10. FLOODING AND WATER QUALITY

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on flooding and water quality expected after application of mitigations / policies:

Direct Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR.

Cumulative Impacts

Effect: No residual significant cumulative impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Flooding and Water Quality mitigation measures pertinent to the project being analyzed in this Initial Study are found on pages V-10-6 through V-10-9 of the Master EIR. All mitigation measures appropriate to the project will be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Applied to Project:

Discussion:

The appropriate mitigation to be applied to this project includes none from the Master EIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-10.B of the Master EIR provides analysis of Flooding and Water Quality impacts of development of the General Plan, the following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not previously analyzed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

10. FLOODING AND WATER QUALITY	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
1) The proposed project is inconsistent with the flooding and water quality policies in the Urban Area General Plan.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
2) The proposed project does not comply with the regulatory requirements of the federal Clean Water Act or the State Porter-Cologne Act.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
3) The proposed project would place more housing within a 100-year flood hazard zone than assumed in the Urban Area General Plan.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
4) The proposed project would place structure within a 100-year flood hazard area so that they would impede or redirect floodwater or would substantially alter the existing on-site drainage pattern or a watercourse, in such a way as to cause flooding on- or off-site.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
5) The proposed project does not comply with Modesto's Guidance Manual for New Development Storm Water Quality Control Measures.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
6) The proposed project would violate water quality standards or waste discharge requirements.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
7) The proposed project would substantially alter the existing drainage pattern of the site or area or a watercourse in a manner that would result in substantial erosion or siltation on- or offsite in excess of the assumptions of the General Plan.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
8) The proposed project would create or contribute runoff, which would exceed the capacity of existing or planned storm water drainage systems or provide substantial additional sources of polluted runoff, not expected as part of General Plan implementation.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Discussion:

- (1) The proposed project is consistent with the flooding and water quality policies in the Urban Area General Plan. No new development is included with this project.
- (2) The project would comply with the Federal Clean Water Act and the Porter Cologne Act requirements.
- (3-5) The project is not located within a 100-year flood plain.
- (6) The project will not violate water quality standards or waste discharge requirements.
- (7) The project would not alter the existing drainage pattern of the site, area or a watercourse in a manner that would result in erosion or siltation.

- (8) The project will not contribute additional water runoff that would exceed the capacity of the storm drainage system or provide substantial additional sources of polluted runoff. There is no new development associated with the proposed project.

11. INCREASED DEMAND FOR PARKS AND OPEN SPACE

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on parks and open space expected after application of mitigations / policies:

Direct Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR.

Cumulative Impacts

Effect: No residual significant cumulative impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Parks and open space mitigation measures pertinent to the proposed project are found on pages V-11-3 through V-11-9 of the Master EIR. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Applied to Project:

Discussion:

The appropriate mitigation to be applied to this project includes none from the Master EIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-11.B of the MEIR discloses impacts of the Urban Area General Plan on parks and open space. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. Project-specific effects will be less than significant unless:

11. INCREASED DEMAND FOR PARKS AND	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
1) The proposed project is inconsistent with the parks and open space policies in the Urban Area General Plan.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
2) The proposed project would eliminate parks or open space.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
3) The proposed project would cause an increase in the use of existing neighborhood and regional parks or other recreational facilities such that substantial physical deterioration of the facility in question would occur or be accelerated or the proposed project would include recreational facilities or require the construction or expansion of recreational facilities which might have an adverse physical effect on the environment.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Discussion:

- (1) The project is consistent with the parks and open space policies in the General Plan.
- (2) The project will not impact parks or open space.
- (3) There is no development proposed as part of the project.

12. INCREASED DEMAND FOR SCHOOLS

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on school facilities expected after application of mitigations / policies:

Direct Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR. By statute, the impact of new students is considered to be mitigated below a level of significance by payment of school impact fees and the exercise of any or all of the financing options set out in Government Code Section 65997.

Cumulative Impacts

Effect: Similar to direct impacts of implementation of the Urban Area General Plan, no residual significant direct impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Mitigation relies upon the implementation of the policies in place under the Modesto Urban Area

General Plan. As long these policies are applied to all subsequent projects, no new mitigation is necessary. Further, payment of school impact fees and compliance with SB 50 is statutorily deemed to be full mitigation of school impacts (Government Code Section 65995).

The following schools mitigation measures on pages V-12-5 through V-12-7 of the Master EIR are pertinent to the proposed project. All mitigation measures appropriate to the project will be incorporated into or made conditions of approval of this project. Those measures are listed in Section V, Mitigation Applied to Project.

Discussion:

The appropriate mitigation to be applied to this project includes none from the Master EIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-12.B of the Master EIR discloses impacts resulting from implementation of the Urban Area General Plan associated with increased demand for schools. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

12. INCREASED DEMAND FOR SCHOOLS	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
1) The proposed project is inconsistent with the policies relating to schools in the Urban Area General Plan.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
2) The proposed project does not comply with SB 50/Proposition 1A funding provisions, or succeeding measures which state that compliance results in less-than-significant impacts on schools.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Discussion:

- (1) The project would not conflict with the policies relating to school in the Urban Area General Plan.
- (2) There is no new development associated with the project.

13. INCREASED DEMAND FOR POLICE SERVICES

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on police services expected after application of mitigations / policies:

Direct Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR.

Cumulative Impacts

Effect: No residual significant cumulative impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Police services mitigation measures pertinent to the proposed project are found on pages V-13-2 through V-13-5 of the Master EIR. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Measures Applied to Project.

Discussion:

The appropriate mitigation to be applied to this project includes none from the Master EIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-13.B of the Master EIR discloses impacts on police services resulting from implementation of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

13. INCREASED DEMAND FOR POLICE SERVICES	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
1) The proposed project is inconsistent with policies relating to police services in the Urban Area General Plan.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
2) The proposed project would result in the need for new or significantly altered facilities not considered as part of the Urban Area General Plan or Master EIR which could cause new significant environmental impacts in order to maintain acceptable service ratios, response times, or other performance objectives.	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>

Discussion:

- (1) The project would not conflict with the policies relating to police services in the Urban Area General Plan.

- (2) The proposed annexation was referred to the City Police Department, who indicated no concerns. The project would not result in the need for construction of new or significantly altered police facilities which could cause new significant environmental impacts in order to maintain acceptable service ratios, response times or other performance objectives.

14. INCREASED DEMAND FOR FIRE SERVICES

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on fire services expected after application of mitigations / policies:

Direct Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR.

Cumulative Impacts

Effect: No residual significant cumulative impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Fire Services mitigation measure(s) pertinent to the project being analyzed in this Initial Study are found on pages V-14-4 through V-14-7 of the Master EIR. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Measures Applied to Project.

Discussion:

The appropriate mitigation to be applied to this project includes none from the Master EIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-14.B of the Master EIR discloses impacts on fire services resulting from implementation of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

14. INCREASED DEMAND FOR FIRE SERVICES	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
1) The proposed project is inconsistent with the fire service policies in the Urban Area General Plan.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

14. INCREASED DEMAND FOR FIRE SERVICES	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
2) The proposed project would result in the need for new or significantly altered facilities not considered as part of the Urban Area General Plan or Master EIR which could cause new significant environmental impacts in order to maintain acceptable service ratios, response times, or other performance objectives.	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
3) The proposed project, based upon substantial evidence, would cause the erosion or elimination of fire protection services in adjoining fire protection districts.	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>

Discussion:

- (1) The project is consistent with the fire service policies in the General Plan.
- (2) The project does not propose construction of new or significantly altered facilities which could cause new significant environmental impacts in order to maintain acceptable fire service ratios, response times or other performance objectives. The project was referred to the Modesto Fire Department, who indicated no concerns regarding need for increased services or effects upon response times.
- (3) The Stanislaus Consolidated Fire Protection District has indicated there will be a loss in special assessment revenue with detachment from the District. No substantial evidence has been provided to show the District would have a significant erosion or elimination of fire service. The annexation to the City and detachment from the District would transfer the fire service responsibility to the City and reducing the service responsibility from the District.

15. GENERATION OF SOLID WASTE

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on solid waste expected after application of mitigations / policies:

Direct Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR.

Cumulative Impacts

Effect: No residual significant cumulative impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Solid waste mitigation measures pertinent to the proposed project are found on pages V-15-4 through V-15-7 of the Master EIR. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Applied to Project.

Discussion:

The appropriate mitigation to be applied to this project includes none from the Master EIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-15.B of the Master EIR discloses solid waste impacts resulting from implementation of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. Project-specific effects will be less than significant unless:

15. GENERATION OF SOLID WASTE	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
1) The project is inconsistent with the solid waste policies in the Urban Area General Plan.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
2) The County is unable to expand its solid waste disposal capacity, as expected, causing all new development to result in cumulative impacts on the County's disposal capacity.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Discussion:

- (1) The project is consistent with the solid waste policies in the General Plan.
- (2) There is no new development proposed with the project.

16. GENERATION OF HAZARDOUS MATERIALS

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts regarding hazardous materials expected after application of mitigations / policies:

Direct Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR.

Cumulative Impacts

Effect: No residual significant cumulative impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Hazardous materials mitigation measures pertinent to the proposed project are found on pages V-16-8 through V-16-13 of the Master EIR. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Measures Applied to Project.

Discussion:

The appropriate mitigation to be applied to this project includes none from the Master EIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-16.B of the Master EIR discloses impacts on hazardous materials resulting from implementation of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

16. GENERATION OF HAZARDOUS MATERIALS	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
1) The project is inconsistent with the hazardous materials policies in the Urban Area General Plan.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
2) The proposed project would emit hazardous emissions or handle hazardous or acutely hazardous materials, substances, or waste within one-quarter mile of an existing or proposed school.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
3) The proposed project would be located on a site which is included on a list of hazardous materials sites compiled pursuant to Government Code Section 65962.5 and as a result, would create a significant hazard to the public or the environment.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
4) The proposed project would be constructed on a contaminated site not known to the State of California as of March 2008.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Discussion:

- (1) The project is consistent with the hazardous materials policies in the General Plan.

- (2) The project does not impact applicable federal, state, and county standards and regulations relative to the handling, storage, disposal, and transport of hazardous or toxic materials or wastes. No hazardous materials will be involved with this project.
- (3) The project is not located on a site included on a list of hazardous materials sites compiled pursuant to Government Code Section 65962.5 and as a result, would not create a significant hazard to the public or the environment.
- (4) The site is not known to contain any contaminants.

17. GEOLOGY, SOILS, AND MINERAL RESOURCES

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts related to geology, soils, and mineral resources expected after application of mitigations / policies:

Direct Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR.

Cumulative Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Geology, soils, and mineral resource mitigation measures pertinent to the proposed project are found on pages V-17-9 and V-17-10 of the Master EIR. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of the proposed project are listed in Section V, Mitigation Measures Applied to Project.

Discussion:

The appropriate mitigation to be applied to this project includes none from the Master EIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-17.B of the Master EIR discloses geology, soils, and mineral resource impacts resulting from implementation of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. Project-specific effects will be less than significant unless:

17. GEOLOGY, SOILS, AND MINERAL RESOURCES	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
1) The project is inconsistent with policies relating to geology, soils, and mineral resources contained in the Urban Area General Plan.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
2) The proposed project would expose people or structures to potential substantial adverse effects including the risk of loss, injury, or death involving fault rupture, strong seismic activity; location on an expansive soil; result in the loss of topsoil; location on soils incapable of adequately supporting the use of septic tanks or alternative wastewater disposal systems in areas where sewers are not available for the disposal of wastewater; result in the loss of known mineral resources that would be of value to the region and the state; or result in the loss of availability of a locally important mineral resource recovery site delineated on a local general plan, specific plan, or other land use plan.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Discussion:

- (1) The project is consistent with policies relating to geology, soils, and mineral resources in the General Plan.
- (2) The project site is not located on soil that is unstable, or that would become unstable as a result of the project. There are no known mineral resources of value to the region and the state on the property.

18. ENERGY

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts pertaining to energy expected after application of mitigations / policies:

Direct Impacts

Effect: Continued development in the Planned Urbanizing Area would have an impact on available energy supplies. Energy consumption likely would increase substantially by 2025 as a result of implementation of the Urban Area General Plan.

Cumulative Impacts

Effect: Implementation of the Urban Area General Plan will have a cumulatively considerable impact on energy consumption.

b. Master EIR and/or New Mitigation Measures Applied to the Project

The following energy mitigation measures pertinent to the proposed project are found on pages V-18-2 through V-18-8 in the Master EIR. All mitigation measures appropriate to the project will be incorporated into or made conditions of approval of this project. Those measures will be listed in Section V, Mitigation Applied to Project.

Discussion:

The appropriate mitigation to be applied to this project includes none from the Master EIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-18.B of the Master EIR discloses impacts of implementing the Urban Area General Plan on energy resources. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

18. ENERGY	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
1) The proposed project is inconsistent with policies relating to energy in the Urban Area General Plan.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
2) The proposed project would result in energy consumption during construction, operation, maintenance, or removal that is more wasteful, inefficient, and unnecessary than assumed in the Urban Area General Plan.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Discussion:

- (1) The project is consistent with the energy policies in the General Plan.
- (2) The project would not result in energy consumption during construction, operation, maintenance or removal that is more wasteful, inefficient and unnecessary than assumed in the General Plan.

19. EFFECTS ON VISUAL RESOURCES

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on visual resources expected after application of mitigations / policies:

Direct Impacts

Effect: New development in the Planned Urbanizing Area will occur in areas that are in agricultural production or are otherwise lightly developed, which could lead to the introduction of light and glare in areas that have little nighttime illumination.

Cumulative Impacts

Effect: No additional cumulative impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

The following visual resources mitigation measures pertinent to the proposed project are found on pages V-19-3 and V-19-4 in the Master EIR. All mitigation measures appropriate to the proposed project will be incorporated into or made conditions of approval of this project. Those measures will be listed in Section V, Mitigation Applied to Project.

Discussion:

The appropriate mitigation to be applied to this project includes none from the Master EIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-18.B of the Master EIR discloses impacts of implementing the Urban Area General Plan on energy resources. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

19. EFFECTS ON VISUAL RESOURCES	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
1) The proposed project is inconsistent with policies relating to visual resources in the Urban Area General Plan.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
2) The proposed project would degrade views from riverside areas and parks to a greater degree than assumed in the Urban Area General Plan.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
3) The proposed project would degrade views of riverside areas from public roadways and nearby properties to a greater degree than assumed in the Urban Area General Plan.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Discussion:

- (1) The project is consistent with the policies relating the visual resources in the General Plan.

- (2) The project would not degrade views from riverside areas and parks to a greater degree than assumed in the Urban Area General Plan.
- (3) There is no development associated with the project.

20. LAND USE AND PLANNING

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts pertaining to land use and planning expected after application of mitigations / policies:

Direct Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR.

Cumulative Impacts

Effect: No residual significant cumulative impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

The following land use and planning mitigation measures pertinent to the proposed project are found on pages V-20-6 through V-20-17 in the Master EIR. All mitigation measures appropriate to the project will be incorporated into or made conditions of approval of this project. Those measures will be listed in Section V, Mitigation Applied to Project.

Discussion:

The appropriate mitigation to be applied to this project includes none from the Master EIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-20.B of the Master EIR discloses impacts of implementing the Urban Area General Plan on land use and planning. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

20. LAND USE AND PLANNING	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
1.) The proposed project is inconsistent with land use and planning policies in the Urban Area General Plan.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

20. LAND USE AND PLANNING	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
2) The proposed project contains elements that would physically divide an established community in a way not assumed in the Urban Area General Plan.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
3) The proposed project conflicts with a land use plan, policy or regulation established for the purpose of avoiding or mitigating an environmental impact by an agency that has jurisdiction over the proposed project.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
4) The proposed project conflicts with an applicable habitat conservation plan or natural community conservation plan.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Discussion:

- (1) The project site is designated for Regional Commercial on the General Plan and in the Coffee Claratina Specific Plan approved in 1998. The existing mobile home park was developed in 1963 and would be a legal non-conforming use upon annexation. As such, the project would be considered consistent land use regarding the Zoning and General Plan.
- (2) There is no development proposed by the project.
- (3) The project is consistent with the land use plan, policies and regulations of the City of Modesto designed to mitigate project impacts.
- (4) The project does not conflict with applicable habitat conservation plans or natural community conservation plans.

21. CLIMATE CHANGE

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts pertaining to climate change expected after application of mitigations / policies:

Direct Impacts

Effect: Impacts resulting from implementation of the Urban Area General Plan are not substantial enough to result in a significant direct impact on climate change, as disclosed in the Master EIR.

Cumulative Impacts

Effect: Implementation of the Urban Area General Plan will have a cumulatively considerable impact on climate change.

b. Master EIR and/or New Mitigation Measures Applied to the Project

The following climate change mitigation measures pertinent to the proposed project are found on pages V-21-7 through V-21-10 in the Master EIR. All mitigation measures appropriate to the project will be incorporated into or made conditions of approval of this project. Those measures will be listed in Section V, Mitigation Applied to Project.

Discussion:

The appropriate mitigation to be applied to this project includes none from the Master EIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-18.B of the Master EIR discloses impacts of implementing the Urban Area General Plan on climate change. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

21. CLIMATE CHANGE	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
1) The proposed project is inconsistent with policies relating to climate change in the Urban Area General Plan.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
2) The proposed project would result in average automobile trip lengths or CO ₂ emissions higher than those assumed in the Master EIR.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
3) The proposed project would conflict with the Sustainable Communities Strategy or Alternative Planning Strategy that the Air Resources Board has agreed will achieve the goals of AB 32.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Discussion:

- (1) The project is consistent with the policies relating to climate change in the Urban Area General Plan. The project would not have a significance effect on climate change.
- (2) The project does not include any new development and would not have an effect on automobile trip lengths or CO₂ emissions.
- (3) A Sustainable Communities Strategy has not yet been implemented by the ARB. Future development will be required to comply with the provisions of the Sustainable Communities Strategy once it is established.

V. MITIGATION MEASURES APPLIED TO THE PROPOSED PROJECT

If the Initial Study results in the determination that a Finding of Conformance can be adopted for the proposed project Section A below applies. If the Initial Study results in the determination that a Finding of Conformance cannot be adopted and a Mitigated Negative Declaration/EIR must be prepared for the project then Section B, below applies.

A. Master EIR Mitigation Measures Applied to the Project

Pursuant to Public Resources Code Section 21157.1(c), in order for a Finding of Conformance to be made, all appropriate mitigation measures from the Master EIR shall be incorporated into the proposed project. Urban Area General Plan Policies/Master EIR mitigation measures shall be made part of the proposed project prior to approval by means of conditions of project approval or incorporation into the appropriate document or plan.

All applicable and appropriate mitigation measures have been applied to the project (see mitigation measures listed below).

B. New or Additional Mitigation Measures or Alternatives Required

Where the project's effects would exceed the significance criteria for each environmental impact category, a mitigated negative declaration or Focused EIR must be prepared. Staff has reviewed the project against the significance criteria thresholds established in the Master EIR for all impact categories in this Initial Study.

A Mitigated Negative Declaration or Focused EIR shall be prepared for the project. The following additional project-specific mitigation measures listed below are necessary to reduce the identified new significant effect:

Traffic and Circulation:

N/A

Degradation of Air Quality:

N/A

Generation of Noise:

N/A

Effects on Agricultural Lands:

N/A

Increased Demand for Long-Term Water Supplies:

MODESTO CITY COUNCIL
RESOLUTION NO. 2019-164

RESOLUTION APPROVING A SUCCESSOR MEMORANDUM OF UNDERSTANDING (MOU) BETWEEN THE CITY OF MODESTO AND MODESTO CITY FIRE FIGHTERS ASSOCIATION (MCFFA) FOR A TERM OF JULY 1, 2018 TO JUNE 30, 2021, RESCINDING RESOLUTION NUMBER 2017-78 AND AUTHORIZING THE CITY MANAGER OR HIS DESIGNEE TO TAKE THE NECESSARY ADMINISTRATIVE ACTION TO IMPLEMENT THE AGREEMENT

WHEREAS, the current Memorandum of Understanding (MOU) between the City of Modesto (CITY) and the Modesto City Fire Fighters Association (MCFFA) expired on June 30, 2018, and

WHEREAS, representatives of the CITY and the MCFFA have met and conferred in good faith concerning wages, hours, terms and conditions of employment for employees in said bargaining unit, and

WHEREAS, the CITY and MCFFA have reached agreement on language changes for a successor MOU which shall be **attached** hereto and made a part hereof as **Exhibit “A”**, and

WHEREAS, the MOU provides some of the following terms:

ARTICLE 2. TERM. The term of the MOU shall be from July 1, 2018 to June 30, 2021.

ARTICLE 4. SALARY.

- a. Effective April 16, 2019 - Increase base salary ranges for all classes by 3.0% as shown in **attached Exhibits “B” through “D”**.
- b. Effective June 25, 2019 - Increase base salary ranges for all classes by 3.0% as shown in **attached Exhibits “E” through “G”**.

- c. Effective June 23, 2020 - Increase base salary ranges for all classes by 3.0% as shown in **attached Exhibits “H” through “J”**.

ARTICLE 11. EDUCATIONAL INCENTIVE PAY. Changes shown in **attached Exhibit “A”** to be effective June 30, 2018.

NEW ARTICLE. LONGEVITY INCENTIVE PAY. Changes shown in **attached Exhibit “A”** to be effective June 30, 2018.

ARTICLE 12. UNIFORMS AND UNIFORM ALLOWANCES. Employees shall receive a uniform allowance of \$100.00 per month, paid twice monthly at \$50.00.

ARTICLE 20. CAFETERIA PLAN. Effective the pay period that includes the PERs rate changes for calendar year, 2020 and 2021 the City shall increase the monthly rate increase to medical, dental and vision insurance premiums as described below. The City contribution for 2019 shall take effect the first full pay period following City Council approval of this agreement.

	2019	2020	2021
Employee only	\$776	\$791	\$807
Employee plus 1	\$1,158	\$1,181	\$1,205
Employee plus family	\$1,459	\$1,488	\$1,516

ARTICLE 21. RETIREE HEALTH INSURANCE. Effective July, 2017, MCFFA members and the City will each contribute \$75.00 per pay period towards the member’s account.

ARTICLE 30. HOLIDAYS. Proposed language change to Section a.2

- a. For employees assigned to fire suppression, there shall be 3 holiday boards, separate from vacation boards, for the purpose of selecting holiday time off.

ARTICLE 31. VACATION.

- a. Section j. Eliminate the language regarding current formula to determine the number of vacation boards. The number of vacation boards per work shift shall be 4 with the exception of all holidays listed in Article 30 where the available vacation boards shall be 5. This provision will take effect upon Council approval.

CHANGES AND REMAINING PROVISIONS. Other changes and remaining provisions of the July 1, 2013 through June 30, 2018 MOU and Letters of Agreements through June 30, 2018 between the CITY and MCFFA shall continue in the new MOU. The exact language of all provisions shall be set forth in the MOU between the CITY and MCFFA.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council hereby approves the successor Memorandum of Understanding between the City of Modesto and the Modesto City Fire Fighters Association, which covers a term from July 1, 2018 through June 30, 2021, **attached** hereto as **Exhibit "A"**, and upon execution of same, a copy of the MOU will be on file in the office of the City Clerk.

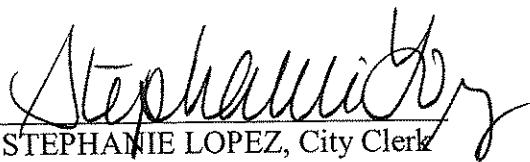

BE IT FURTHER RESOLVED by the Council of the City of Modesto that Resolution No. 2017-78 is hereby rescinded.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 9th day of April, 2019, by Councilmember Ridenour, who moved its adoption, which motion being duly seconded by Councilmember Madrigal, was upon roll call carried and the resolution adopted by the following votes:

AYES: Councilmembers: Ah You, Grewal, Kenoyer, Madrigal, Ridenour, Zoslocki, Mayor Brandvold

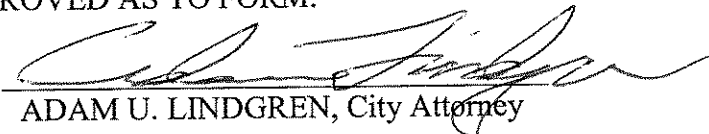

NOES: Councilmembers: None

ABSENT: Councilmembers: None

ATTEST: 
STEPHANIE LOPEZ, City Clerk

(SEAL)

APPROVED AS TO FORM:

By: 
ADAM U. LINDGREN, City Attorney

Clarified Tentative Agreement Between

City of Modesto

and

Modesto City Firefighters Association

March 19, 2019

Article 2. TERM OF MEMORANDUM

- a) The term of this Memorandum of Understanding shall be the period of July 1, 2018 through June 30, 2021, inclusive.
- b) The CITY and MCFFA agree to begin subsequent negotiations no later than January 15, 2021.

Article 4. SALARY RATES AND STEP ADVANCES

Section C:

Effective the first full pay period following adoption by the City Council, the salary ranges shall be adjusted upward by three percent (3.0%) as provided in Exhibit A of this Agreement. Effective June 25, 2019, the salary ranges shall be further adjusted upward by an additional three percent (3.0%) as provided in Exhibit B of this Agreement. Effective June 23, 2020, said ranges will be further adjusted upward an additional three percent (3.0%) as provided in Exhibit C of this Agreement.

Effective the first full pay period following adoption by the City Council, each employee shall contribute one percent (1.0%) of salary to an agreed upon Base as noted in the CalPERS Schedule of Amortization.

Article 11. EDUCATIONAL INCENTIVE PAY

EDUCATIONAL INCENTIVE PAY

- a) Effective July 1, 2018, employees shall be eligible for Educational Incentive Pay for designated certifications or degrees, as follows:
 - 1) Fire Science/Fire Officer 1%
 - 2) AA/AS 2%
 - 3) BA/BS 3.5%

b) Qualifying certificates and degrees:

- 1) Fire Science or Fire Technology certificate from a community college accredited by the Western Association of Schools and Colleges OR completion of Fire Officer Certification from the Office of the California State Fire Marshal.
- 2) Associates Degree in Fire Science, Fire Technology, or a related field, OR a Bachelor's Degree in Fire Science, Fire Management, Public Safety Administration or a related field. Fire Chief reserves the right to determine qualifying degrees.

Education incentives are not stackable or cumulative. Employees receive pay for the highest certification or degree earned.

(New Article) LONGEVITY INCENTIVE PAY

- a) Effective July 1, 2018, employees shall be eligible for Longevity Incentive Pay for the following years of service
 - a. 10 years of service 1.5%
 - b. 15 years of service 3%
 - c. 20 years of service 4%

Longevity incentives are not stackable or cumulative. Employees receive pay for the highest years of service for which they qualify.

Article 12. UNIFORMS AND UNIFORM ALLOWANCES

- a) All employees shall wear uniforms in accordance with the Fire Department's Rules and Regulations.
- b) The CITY shall purchase one pair of CalOSHA approved safety boots for each newly hired employee covered by the Agreement. The actual boot purchased shall be as agreed to by the CITY and MCFFA. Any replacement of the safety boots initially purchased by the CITY shall be at the sole expense of each employee.
- c) Employees shall receive a uniform allowance of \$100.00 per month, paid twice monthly at \$50.00. Newly hired employees shall receive an allowance prorated from the date of hire.

All employees are required to obtain a department approved "Class A" uniform within thirty (30) days of completing their Firefighter probationary period. Current employees who were eligible to retire (age 50) prior to January 1, 2005 were not required to purchase a "Class A" uniform.

Article 20. CAFETERIA PLAN

- a) All employees in regular positions budgeted for forty (40) hours or more per pay period shall be eligible to participate in the Cafeteria Plan described in this Article. Each such employee may select among the following options and specify what portion of the amount designated below will be applied. The cafeteria allowance amounts listed in (b) (1) below, include the required minimum health contribution, as set forth by Government Code Section 22825.
- b) Eligible employees shall be entitled to the following monthly allowances:

1) Total Allowance (monthly) – Health & Cafeteria Plan

	2019	2020*	2021*
Employee Only	\$776	\$791	\$807
Employee + 1	\$1,158	\$1181	\$1,205
Family	\$1,459	\$1,488	\$1,516
Opt Out	\$525	\$525	\$525

**The rates in 2020 and 2021 shall take effect in the pay period that includes PERS rate changes for the applicable calendar year. The City contribution for 2019 shall take effect the first full pay period following City Council approval of this agreement.*

- 2) The City's contribution and the employee deduction (if any) shall be processed for payment two (2) pay periods in advance of the dates listed above.
 - 3) The Opt Out allowance applies to employees who waive health, dental and vision coverage, or who waive health but continue to carry dental and vision coverage.
- c) The Cafeteria Plan shall include the following options:
 - 1) Health, Dental and Vision Insurance. This option provides a monthly allowance toward the combined total premium for the health, dental and vision insurance program provided by the CITY not to exceed the stated monthly maximum benefit of the Cafeteria Plan. All employees shall select this option at least to the level that provides for health, vision and dental coverage for the individual employee, provided that employees may request a waiver of the health coverage from the Human Resources Department. Such waiver shall only be granted if the employee shows proof of other health insurance coverage. Effective August 1, 2002, an employee who has waived health coverage may also elect to waive

dental and vision coverage, provided that the employee shows proof of other dental coverage. Dental and vision coverage may only be waived together, and may not be separately waived. Should an employee who has obtained a waiver to this provision lose such alternative coverage, the employee shall notify the Human Resources Department within five (5) work days and enroll in a CITY provided insurance program. The election to waive coverage may only be exercised during the City's open enrollment period or in coordination with spouse/registered domestic partner's open enrollment period, or within thirty (30) days of a qualifying life change event.

- 2) Additional Insurance Programs. This option provides a monthly allowance toward payment of premiums for additional insurance programs sponsored by MCFFA or the CITY.
- 3) Cash. That portion of the allowance not utilized for option (1) or (2) above shall be paid to the employee as cash. Such cash shall be subject to all applicable provisions of the tax code.

d) The CITY shall continue an IRS section 125 program for pre-tax deductions for the employee share of health, dental and vision insurance premiums for dependent care costs, and for unreimbursed medical expenses.

Article 21. RETIREE HEALTH INSURANCE

a) Retiree Medical Coverage

Employees may elect on a one-time basis at retirement to continue to participate in the dental and/or vision insurance program at their own cost. Upon the death of a retired employee, surviving dependents retain eligibility for continued participation in the dental and/or vision insurance programs.

Retired employees may continue to participate in the PERS Health Plans at their own cost, except that the CITY shall contribute toward their health premium an amount not to exceed the minimum employer contribution as designated in Government Code Section 22825. During calendar year 2016, the designated minimum employer contribution is \$125.00. Commencing January 1, 2017, the designated minimum employer contribution will be adjusted annually by the CalPERS Board of Administration.

b) MCFFA Retiree Medical Trust

Effective December 1, 2008, the City and MCFFA implemented a retiree health savings plan through the Central Valley Retiree Medical Trust (the "CVRMT"). Participation in the CVRMT is mandatory for all MCFFA members. Employees who separate from City service for any reason shall have all earned but unused vacation hours cashed out and will have the value of these hours deposited into the CVRMT on their behalf. Employees shall have no option to receive cash for these hours.

Any and all funds from a buyout, (golden handshake) shall be deposited into the CVRMT.

Effective July 1, 2017, MCFFA members and the City will each contribute seventy-five dollars (\$75.00) per pay period towards the member's account.

Article 30. HOLIDAYS

a) Fire Suppression Assignments

- 1) All employees assigned to fire suppression shall earn holiday time credit at the rate of one hundred thirty-two (132) hours per year, or one-half (1/2) of a twenty-four (24) hour shift per holiday. During the first two (2) years of employment, the holiday time credit may be used only as accrued. For those employees accruing holiday time, holiday credit in-lieu of Admissions Day shall be accrued in January. Thereafter, holiday time credit is advanced during the pay period in which January 1 falls. All holiday time credit shall be used, or cashed out, during the year in which it is accrued.
- 2) For employees assigned to fire suppression, there shall be three (3) holiday boards, separate from vacation boards, for the purpose of selecting holiday time off.
- 3) All employees assigned to fire suppression shall have the option to cash out holiday time at time and one-half pay. Holiday time may be cashed out at twelve (12) or more hours each pay period. Notification of the Fire Department timekeeper shall be no later than the Friday preceding the end of the pay period. Cash out shall be limited to the amount of holiday time the employee has in the account. In the event an employee terminates CITY service, pay for holiday time that has been cashed out in excess of holidays that have occurred to that point will be deducted from the employee's final compensation.

b) Non-shift Assignments

- 1) The following days shall be paid holidays for all employees working 40-hour non-shift assignments:
 - a) New Year's Day
 - b) Dr. Martin Luther King Jr. Day
 - c) Presidents' Day
 - d) Memorial Day
 - e) Independence Day
 - f) Labor Day
 - g) Veterans' Day
 - h) Thanksgiving Day
 - i) Day after Thanksgiving

j) Christmas Day

In addition, non-shift employees shall accrue eight (8) hours of holiday time during the pay period in which January 1 falls.

- 2) Holidays which fall on a Saturday shall be observed on the previous Friday. Holidays which fall on a Sunday shall be observed on the following Monday. When a non-shift employee is required to work on a holiday that falls within their regularly scheduled work week, they shall be paid eight (8) hours of regular holiday pay, plus time and one-half for hours actually worked on the holiday.
 - 3) For employees in long-term non-shift assignments (excludes temporary and modified duty assignments), a total of eighty-eight (88) hours of holiday time credit shall be advanced annually during the pay period in which January 1 falls. These employees in long-term non-shift assignments shall have the option to cashout holiday time at time and one-half pay.
 - 4) For those non-shift employees eligible for cashout of holiday time, the time may be cashed out at eight (8) or more hours per pay period. Notification of the Fire Department timekeeper shall be no later than the Friday preceding the end of the pay period. Cash out shall be limited to the amount of holiday time the employee has in the account. Employees who have cashed out holiday time shall either work the holiday(s) or take the holiday(s) off using their accrued vacation or CTO. In the event an employee terminates CITY service, pay for holiday time that has been cashed out in excess of holidays that have occurred to that point will be deducted from the employee's final compensation.
 - 5) All holiday time shall be taken as time off or cashed out during the year in which it is accrued.
- c) All other administrative policies and procedures shall be as contained in the Personnel Rules and Personnel Administrative Orders.

Article 31. VACATION

The number of vacation boards available per work shift shall be four (4) with the exception of all holidays listed in Article 30 where the available vacation boards shall be five (5).

**MODESTO CITY COUNCIL
RESOLUTION NO. 2019-165**

**RESOLUTION GRANTING SALARY CHANGES TO NON-SWORN
UNREPRESENTED MANAGEMENT AND CONFIDENTIAL EMPLOYEES
INCLUDING CHARTER OFFICERS AND EXECUTIVES AND
UNREPRESENTED SWORN FIRE EMPLOYEES, AS OF APRIL 16, 2019,
RESCINDING RESOLUTION NO. 2017-06, AND AUTHORIZING THE CITY
MANAGER OR HIS DESIGNEE TO TAKE THE NECESSARY
ADMINISTRATIVE ACTION TO IMPLEMENT THE CHANGES**

WHEREAS, on January 10, 2017, by Resolution No. 2017-06, Council approved Class Range Tables and salary schedule changes for unrepresented Management and Confidential employees, including Charter Officers and Executives, and

WHEREAS, the Council of the City of Modesto adopted an agreement with Modesto City Firefighters Association (MCFFA) on April 9, 2019 which included salary increases, and

WHEREAS, the City desires to approve a three percent (3.0%) base salary increase for all Unrepresented Sworn Fire employees effective April 16, 2019; followed by an additional three percent (3.0%) base salary increase for all Unrepresented Sworn Fire employees effective June 25, 2019 and an additional three (3.0%) base salary increase for all Unrepresented Sworn Fire employees effective June 23, 2020; and

WHEREAS, the City desires to maintain competitive position with the labor market.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto as follows:

1. SALARY RANGES, RATES AND EFFECTIVE DATES. For Unrepresented Fire employees, the City shall increase the salary schedule by three percent (3.0%) effective April 16, 2019 and for all Unrepresented Sworn Fire employees, inclusive of the

Fire Chief, the City shall increase the salary schedule three percent (3.0%) effective June 25, 2019; followed by an additional increase of three percent (3%) effective June 23, 2020. For Unrepresented Police Captains, the City shall increase the salary schedule by two percent (2.0%) effective January 10, 2017 and for all Unrepresented Police employees, inclusive of the Police Chief, the City shall increase the salary schedule by two and one half percent (2.5%) effective June 27, 2017; followed by an additional increase of three percent (3%) effective June 26, 2018. Effective August 20, 2019, the City shall increase base salary ranges for all classes by CPI-U Western Cities. The salary rates, salary ranges and salary steps as set forth in the following exhibits which are attached hereto and made a part hereof provide for amending the Police Captain from salary range 1624 to 1626 effective January 10, 2017. In addition, based on the results of the City's most recent labor market study, the salary range for each of the benchmark classes listed in Exhibit X, along with any related classes, shall increase in accordance with the schedule and is set forth in these Exhibits.

28. **Exhibit “A-7”** City of Modesto Schedule of Salary Ranges in City Service for FY 16/17, Effective June 28, 2018 – Management/Confidential Police Chief – Unrepresented.

2. CHARTER OFFICERS. The salaries for the positions of the Charter Officers shall be as follows effective March 1, 2016:

<u>TITLE</u>	<u>HOURLY</u>	<u>BI-WEEKLY</u>	<u>MONTHLY</u>
City Manager	103.68	8,294.40	18,040.32
City Attorney	78.75	6,299.88	13,702.24
City Clerk	53.13	4,250.40	9,244.62

3. USE OF CLASSES. The designated classes of positions may be used in any organizational unit of the City deemed proper by the City Manager.

4. POSITIONS. The City Council authorizes and directs the City Manager, within the limits of funds budgeted therefor, to appoint employees in such number and in such classes in each department as may be necessary to properly operate the department under the Charter, ordinances and resolutions adopted by the City Council, including, but not limited to, creating additional positions to replace employees who are on disability leave or other leaves of absence.

5. APPOINTMENTS AND SALARIES. The City Manager is hereby authorized to appoint, in accordance with the applicable provisions of the Modesto Municipal Code and Personnel Rules and within the limits of funds budgeted therefor, any person to a position in a class for which he is the appointing authority and for which the salary is hereby provided, to designate the definite salary rate or salary step at which such person is appointed, and the salary so designated is hereby fixed as the salary of such employee for the position.

6. SPECIAL SALARY RATES. The City Manager is further authorized, subject

to budgetary appropriation control by the City Council, to fix the salary range or rate for part-time, hourly or special positions in the Unclassified Service for which the City Manager is the appointing authority and which are not designated herein.

7. PART-TIME EMPLOYMENT. Employees appointed to any of the positions referred to herein who, with the approval of the City Manager, regularly work less hours per week than established for their class by rule 13.1 of the Personnel Rules, shall be paid in approximate proportion of the time worked.

8. REPEAL. Resolution No. 2017-06 is hereby rescinded effective April 9, 2019.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 9th day of April, 2019, by Councilmember Ridenour, who moved its adoption, which motion being duly seconded by Councilmember Madrigal, was upon roll call carried and the resolution adopted by the following votes:

AYES: Councilmembers: Ah You, Grewal, Kenoyer, Madrigal, Ridenour, Zoslocki, Mayor Brandvold

**MODESTO CITY COUNCIL
RESOLUTION NO. 2019-166**

**RESOLUTION RESCINDING RESOLUTION NO. 2017-07 TO UPDATE
BENEFIT OFFERINGS FOR UNREPRESENTED MANAGEMENT AND
SWORN FIRE EMPLOYEES; AND AUTHORIZING THE CITY MANAGER OR
HIS DESIGNEE TO TAKE THE NECESSARY ADMINISTRATIVE ACTION TO
IMPLEMENT THE CHANGES**

WHEREAS, on January 10, 2017, by Resolution No 2017-07, Council approved salary and benefit changes to Unrepresented Management and Confidential employees, including Charter Officers and Executives, and

WHEREAS, the City has historically implemented terms and conditions of employment for Unrepresented Fire Captains consistent with the terms and conditions of employment covering employees in the Modesto City Firefighters Association (MCFFA) bargaining unit.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto as follows:

SECTION 1. PROBATIONARY PERIOD. All original and promotional appointments to positions in the Classified Service shall be tentative and subject to a probationary period of one year from the date of appointment to the position. The purpose of the probationary period is to train, observe and evaluate the employee on conduct, performance, attitude, adaptability and job knowledge.

Time spent on any leave of absence, or time during which an employee is unable to perform the full range of duties due to injury or illness, whether or not job-related, shall not be considered as part of any probationary period, and such time will be added to the probationary period. Any further extension of probation will only be upon mutual agreement.

During the probationary period an employee may be released at any time without right of appeal. Written notice of release shall be furnished to the probationer. An employee released during or at the conclusion of probation following a promotion, shall be reinstated to the position previously held, at the former salary step, except if the reasons for release are cause for dismissal.

SECTION 2. COMPENSATORY TIME OFF CAP. Management and Confidential employees who are overtime-eligible shall be paid quarterly for all CTO over their established cap. For employees hired on or after December 6, 2005, the CTO cap shall be 100 hours. For employees hired before December 6, 2005, the cap shall be 160 hours.

SECTION 3. HOLIDAY CAP. Holiday time for unrepresented non-sworn employees may be accrued up to a maximum of 40 hours. When the employee reaches the 40 hour maximum, additional holiday time shall be compensated in cash at straight time rates on a quarterly basis.

SECTION 4. MANAGEMENT LEAVE. Commencing January 1, 2012, management employees in exempt regular positions shall be advanced 80 hours of Management Leave (Fire Battalion Chiefs on a 56-hour schedule shall be advanced 112 hours) January of each calendar year to be taken at the discretion of the employee and upon approval of City Manager, or designee, and shall be prorated for less than full-time employees. Management Leave will be forfeited if not used by the last pay period ending in December. An exempt employee hired after Management Leave has been advanced shall be eligible for a pro-rated portion of Leave.

In the event of separation from City employment of any person who has taken

Management Leave prior to the time all of said leave is earned, the employee shall be required to make full restitution to the City for that portion of leave taken but remaining unearned on the date of termination of employment. Employees separating from City service will be paid for earned Management Leave credit.

SECTION 5. MANAGEMENT LEAVE ANNUAL CASHOUT. The maximum number of hours available for cash out each December shall be 40 hours annually for Management employees. All employees may cash out Management Leave once annually during the pay period in which December 1 falls.

Effective December 2007, the maximum annual cash out shall be 80 hours for Executives and Charter Officers, and 60 hours for Police Captains, Fire Battalion Chiefs, Fire Division Chiefs, Deputy Directors, Assistant City Attorney and Deputy City Attorney I/II/III/Senior. For Fire Battalion Chiefs on a 56-hour schedule, the maximum cash out shall be 84 hours.

SECTION 6. MEDICAL LEAVES OF ABSENCE. Effective December 6, 2005, employees requesting an Authorized Medical Leave of Absence without pay, due to a medical incapacity to perform the duties of their position, must provide written medical verification of a long-term disability, illness or injury.

SECTION 7. CATASTROPHIC LEAVE. Effective December 6, 2005, employees requesting Catastrophic Leave donations must provide a written medical verification of long term illness or injury, or verification of a family member's illness or injury.

SECTION 8. NEGATIVE VACATION. Effective March 7, 2006, use of negative vacation will be permitted only for extenuating circumstances and will require

the approval of the City Manager, or designee.

SECTION 9. LEAVE CASHOUTS FOR SWORN FIRE MANAGEMENT EMPLOYEES. Sworn Fire Management employees in the classifications of Fire Battalion Chief, Fire Division Chief and Fire Chief working a 40 hour schedule shall be afforded the opportunity to cash out up to 61 hours of vacation leave per calendar year (at straight time rates) and up to 88 hours of holiday leave per calendar year (at time and one-half), effective July 1, 2003. Employees in the classification of Fire Battalion Chief working a 56 hour schedule shall be afforded the opportunity to cash out up to 72 hours of vacation leave per calendar year (at straight time rates) effective June 20, 2000, and up to 132 hours of holiday leave per calendar year (at time and one-half). Holiday leave may not be carried over year-to-year regardless of the schedule worked.

SECTION 10. SICK LEAVE. Non-sworn employees hired on or before December 31, 2010 shall have all accrued sick time transferred to a grandfathered sick leave bank effective the pay period ending October 22, 2012. Sworn employees hired on or before December 31, 2010 shall have all accrued sick time transferred to a grandfathered sick leave bank effective pay period ending August 25, 2014. For employees hired on or before December 31, 2010 and who promoted to an unrepresented management classification, employee's grandfathered accrued balance and regular sick accrued balance shall follow the employee. Employees who promote from MCFFA shall have their sick leave balance as of promotion date split between grandfathered sick leave and regular sick leave as follows:

- Grandfathered sick bank – Eligible for sick leave balance on the books as of September 8, 2015, reduced by hours previously converted to Deferred Compensation,

and up to the amount of hours in employee's sick leave bank upon promotion.

- Regular sick bank – remaining sick leave balance as of promotion date not grandfathered

When taking sick leave, employees with grandfathered sick leave banks shall utilize new sick leave accrued hours prior to utilizing hours from the grandfathered bank.

SECTION 11. SICK LEAVE CASHOUT FOR SWORN FIRE MANAGEMENT EMPLOYEES. Sworn Fire management employees who leave City service in good standing (other than retirement) after five (5) years of continuous service, shall be paid the first twenty-two hundred (2,200) hours of their current unused grandfathered sick leave, reduced by hours previously converted to Deferred Compensation, as follows: (1) Ninety (90%) percent of sick leave hours as of the date of the employee's initial promotion to a management classification shall be paid out at the current regular rate of pay (top step) for Fire Captain, and (2) In addition, twenty-five (25%) percent of the remaining sick leave hours accrued after promotion to a management classification shall be paid out at the employee's then current regular rate of pay.

SECTION 12. PROMOTION. Employees promoted on or after November 17, 2015, prior to an employee's promotion to an unrepresented management classification, all compensatory time off (CTO) and grandfathered compensatory time off (GCTO) shall be compensated in cash at the employee's then current regular rate of pay.

SECTION 13. MASTERS DEGREE INCENTIVE PAY. Effective June 29, 2004, employees who possess a Master's Degree or Juris Doctor from an accredited institution, shall be granted one and one half percent (1.5%) Masters Pay, subject to criteria as established by the City. Effective December 26, 2017, for Unrepresented

Sworn Police employees who possess a Master's Degree or who have obtained their certificate from either Command College or the Federal Bureau of Investigations National Academy shall be granted two and one half percent (2.5%) Masters Pay.

SECTION 14. REGISTRATION AND CERTIFICATION FEES. Effective July 1, 2003, when an employee is required by the City to obtain or renew a certificate, license or registration in order to carry out their assigned duties, except a California Class C Driver's License, the City will pay the fee for the actual certificate, license or registration, (and exam fee, if any).

SECTION 15. VEHICLE ALLOWANCE. Per Resolution No. 2001-271 effective July 1, 2001, the vehicle allowance for Executives and Charter Officers who receive an allowance, shall be \$400/month, and the City Manager is authorized to grant Deputy Directors either an assigned City vehicle or a vehicle allowance in the amount of \$300/month. The City Manager is also authorized to grant selected Management employees a vehicle allowance of \$100-\$200/month based on Department Director recommendation and an annual justification relating to extensive use of a personal vehicle while conducting City business. Effective May 27, 2008, per Resolution 2008-305, the vehicle allowance for Charter Officers is increased to a maximum of \$500/month.

SECTION 16. UNIFORM ALLOWANCES. Uniform allowances for unrepresented Management and Confidential employees who are required to wear a uniform, are as follows:

<u>Positions</u>	<u>Effective Date</u>	<u>Allowance</u>
Sworn Police	February 1, 2015	\$101.67

Sworn Fire Management April 16, 2019 \$100.00

SECTION 17. POST CERTIFICATION PAY. Effective September 6, 2016, Police Captains who provide evidence that they have received a Supervisory POST Certificate shall be eligible for one and eight tenths percent (1.8%) certification pay. Effective March 7, 2017, the same shall be eligible for an additional two percent (2.0%) certification pay for a total of ten percent (10%). Effective September 6, 2016, Police Captains who provide evidence that they have received a Management POST Certificate shall be eligible for two and three tenths percent (2.3%) certification pay. Effective December 27, 2016, Management POST Certificate pay shall be eight percent (8.0%). Effective March 7, 2017, Management POST Certificate pay shall be ten percent (10%). Effective September 6, 2016, Police Chief shall be eligible for five percent (5.0%) Executive POST pay. Effective January 10, 2016, Police Chief shall be eligible for an additional five percent (5.0%) Executive POST pay, for a total of ten percent (10%). These amounts are not cumulative and Captains receiving Management POST pay shall not also receive Supervisory POST pay. The maximum allowable POST pay is ten percent (10.0%).

SECTION 18. BONUS PAY FOR UNREPRESENTED POLICE CAPTAINS. City shall pay one thousand five hundred dollars (\$1,500) to any Sworn Police Captain in an active paid status as of pay period ending February 22, 2016. An additional one thousand dollars (\$1,000) will be paid on July 1, 2016 to Sworn Police Captains in an active paid status from February 23, 2016 through June 27, 2016. New City of Modesto employees appointed as Police Captains will receive a pro-rated amount based on time worked. Police Captains who separate prior to June 27, 2016 will not be eligible for the

one thousand dollars (\$1,000).

SECTION 19. ASSISTANT CHIEF OF POLICE ASSIGNMENT PAY.

Effective May 26, 1998, subject to the approval of the City Manager, the Police Chief may appoint employees currently employed by the Police Department in the classification of Police Captain to the assignment of Assistant Chief of Police. Such appointment may be made without competitive examination and shall continue at the will and pleasure of the Police Chief. The Police Chief may end the assignment at any time and such employee shall return to an assignment as Police Captain (unless removed due to dismissal) at a step no lower than the step the employee held at time of assignment. The total number of assignments shall be at the sole discretion of the City Manager.

SECTION 20. ASSISTANT CHIEF OF POLICE ASSIGNMENT PAY.

Effective May 26, 1998, subject to the approval of the City Manager, the Police Chief may appoint employees currently employed by the Police Department in the classification of Police Captain to the assignment of Assistant Chief of Police. Such appointment may be made without competitive examination and shall continue at the will and pleasure of the Police Chief. The Police Chief may end the assignment at any time and such employee shall return to an assignment as Police Captain (unless removed due to dismissal) at a step no lower than the step the employee held at time of assignment. The total number of assignments shall be at the sole discretion of the City Manager.

SECTION 21. EMERGENCY MEDICAL TECHNICIAN CERTIFICATION PAY. Sworn Fire Management employees in the classifications of Fire Battalion Chief and Fire Division Chief, who are certified as Emergency Medical Technicians (EMT-I), shall receive a five percent (5.0%) of the base salary for their classification. Effective

July 12, 2016, the five percent (5%) pay for EMT certification will be rolled into base salary for their classification.

SECTION 22. HAZARDOUS MATERIALS CERTIFICATION PAY. Effective July 1, 2003, one (1) Fire Department Battalion Chief or Division Chief shall be authorized five percent (5%) Haz Mat Pay, when certified as a Hazardous Materials Specialist and assigned to administer the City of Modesto's participation in the Regional Hazardous Materials Response Team. This pay replaced the annual Haz Mat Stipend.

SECTION 23. ALS PARAMEDIC PAY. Effective July 14, 2015, one (1) Fire Department Battalion Chief or Division Chief shall be authorized six percent (6%) ALS Paramedic pay, when assigned to the ALS Paramedic Program and have the required California State Paramedic License and all additional local required ALS certifications.

SECTION 24. FIRE CHIEF OFFICER SHIFT STIPEND. Effective December 2, 2014, Fire Battalion Chiefs and Fire Division Chiefs assigned to work extra shifts in order to maintain a consistent staffing of two (2) Battalion Chiefs to the extent possible, may receive a stipend of one thousand five hundred dollars (\$1,500) per 24-hour shift. Criteria for assignment to extra shifts with the stipend shall be at the discretion of the Fire Chief, who shall also determine when staffing at the level of one Battalion Chief is acceptable. The Fire Chief shall annually determine the maximum number of assignments available for stipend, subject to funds budgeted and the needs of the City. As FLSA Exempt management employees, Fire Battalion Chiefs and Fire Division Chiefs may be required to work both emergency and non-emergency assignments without additional compensation.

SECTION 25. MUTUAL AID ASSIGNMENT. Sworn Fire Management

employees in the classification of Fire Battalion Chief and Fire Division Chief shall receive a stipend when assigned to fill Strike Team and Task Force Leader assignments. Fire Battalion Chiefs assigned as Strike Team or Task Force Leader or Strike Team or Task Force Leader Trainee shall receive a stipend of \$1500 for a 24 hour period. Fire Division Chiefs assigned as Strike Team or Task Force Leader or Strike Team or Task Force Leader Trainee shall receive a stipend of \$1500 for a 24 hour period subject to the following conditions:

1. The assignment results from a request through the California Office of Emergency Services.
2. The assignment is subject to reimbursement through the "Cooperative Agreement for Local Government Fire Suppression."
3. Regularly scheduled work hours are not included and partial periods are prorated to the nearest hour.

The City Manager is authorized to adjust the stipend amount, from time to time, consistent with increases in overall Fire Management salaries and reimbursement rates.

SECTION 26. DEFERRED COMPENSATION 457 PLAN. The CITY shall continue to provide access to a 457 deferred compensation program authorized by the City Council for the voluntary participation of City employees. In addition, the CITY shall match on behalf of a participating employee in a regular position, one and one-half percent (1.5%) of an employee's regular rate of pay on a bi-weekly basis; provided, the employee is contributing at least one and one-half percent (1.5%). For such employees who have been continuously employed by the CITY for nine (9) or more years, the CITY shall contribute two and one-half percent (2.5%); provided the employee is contributing

at least two and one-half percent (2.5%). Effective January 1, 2006, this increase in the City's contribution shall be effective with the first pay period to begin in the month following completion of nine (9) years of service, provided that the employee has completed any required documents.

SECTION 27. DEFERRED COMPENSATION 401(a) MONEY PURCHASE PLANS. The 401(a) Money Purchase Plans shall provide for a City-paid contribution and equal mandatory employee contribution, effective January 1, 2006, of 5% for Charter Officers, 3% for Executives other than Charter Officers, and 2% for all other unrepresented Management and Confidential employees.

SECTION 28. HEALTH, DENTAL AND VISION BENEFITS. The City's contribution to health, dental and vision benefits for Unrepresented Management and Confidential employees, including Charter Officers and Executives, shall be a three-tier system as follows and the City contribution (excluding opt out) shall increase by four (4) percent annually as follows:

	Current	2017	2018	2019
Opt-out of City Medical Coverage	\$450.00	\$450.00	\$450.00	\$450.00
Employee only	\$621.00	\$645.00	\$670.00	\$700.00
Employee plus 1	\$858.00	\$900.00	\$930.00	\$965.00
Employee plus family	\$1214.00	\$1260.00	\$1310.00	\$1365.00

The City shall deposit into the employee's deferred compensation account any balance remaining from the above listed contributions not needed to pay for the employee's health, dental or vision premiums. Effective July 22, 2008, for employees enrolled in the

City-sponsored High Deductible Health Plan, any balance of said contributions shall be directed to the employee's Health Savings Account. Only in the event that an employee does not qualify for enrollment into a Health Savings Account, the City shall deposit any balance of the above contribution not needed to pay for the employee's combined premium into the employee's deferred compensation account.

Effective July 26, 2005, the City's contribution toward unrepresented employees with Family coverage shall not exceed the actual premium amount for the lowest cost health (HMO Plan), dental and vision plans offered by the City, regardless of the health plan selected by the employee or the contribution amounts listed above.

SECTION 29. DOMESTIC PARTNERS. Benefits applicable to spouses shall be extended to registered domestic partners, as required by law.

SECTION 30. RETIREE HEALTH INSURANCE. Employees who retire prior to December 31, 2015, may elect on a one-time basis at retirement to purchase health, dental and vision insurance under a City-authorized plan and are responsible for all cost.

Non-sworn employees hired **on or before December 31, 2010** and who retire from the City prior to October 23, 2012 after five (5) years of continuous service in good standing may, on a one-time basis, exercise the option to have ninety percent (90%) of their unused grandfathered sick leave applied by the City upon retirement to premiums for health, dental and vision insurance plans covered by the CITY at the rate of eight (8) hours equals one month of contribution. Said insurance contribution shall be provided in an amount up to that contributed to active employees subject to changes in the median priced health HMO plan for active employees, as needed to cover the cost of retiree health, dental and vision premium.

Non-sworn employees hired **on or before December 31, 2010** and who retire from the City between October 23, 2012 and December 31, 2014, after five (5) years of continuous service in good standing may, on a one-time basis, exercise the option to have ninety percent (90%) of their unused grandfathered sick leave applied by the City upon retirement to premiums for health, dental and vision insurance plans covered by the CITY at the rate of eight (8) hours equals one month of contribution. Said insurance contribution shall be provided as needed to cover the cost of retiree health, dental and vision premiums up to a monthly rate of \$621 for retiree without dependents and up to \$1,100 for retirees with dependent coverage.

Sworn employees hired **on or before December 31, 2010** and who retire from the City prior to January 1, 2015, after five (5) years of continuous service in good standing may, on a one-time basis, exercise the option to have ninety percent (90%) of their unused grandfathered sick leave applied by the City upon retirement to premiums for health, dental and vision insurance plans covered by the CITY at a rate of eight (8) hours equals one month of contribution (employees promoted on or after December 30, 2014 into a Fire Unrepresented position on a 56-hour schedule, shall have hours at retirement applied at a rate of twelve (12) hours equals one month of contribution). Said insurance shall be provided in an amount up to that contributed to active employees subject to changes in the median priced health HMO plan for active employees, as needed to cover the cost of retiree health, dental and vision premium.

For all Non-Sworn and Sworn employees hired on or before December 31, 2010 who retire from the City on or after January 1, 2015, the City will no longer offer retiree medical plans through City's group plans effective December 31, 2015, however, retirees

may elect on a one-time basis at retirement the option to purchase and maintain City's dental and vision plans at retiree's cost. For these employees who retire after five (5) continuous years of service in good standing may, on a one time basis, have ninety (90%) percent of their unused grandfathered sick leave converted to the City sponsored defined contribution retiree medical benefit plan at the rate of eight (8) hours equals one month of contribution (Fire Unrepresented position on a 56-hour schedule, shall have hours at retirement applied at a rate of twelve (12) hours equals one month of contribution) to purchase medical insurance. For each eight hours (or twelve hours) converted to the retiree medical program, the recipient shall be provided a monthly contribution under one of the following schedules:

<u>Non-Medicare Eligible Recipient</u>	<u>Medicare Eligible Recipient</u>
Retiree Only = \$500	Retiree Only = \$250
Retiree +1 Dep = \$1,000	Retiree +1 Dep = \$500
Retiree + Family = \$1,000	Retiree + Family = \$500

Combined contributions for Retirees

1 Non-Medicare + 1 Medicare coverage = \$750

Retiree only contribution for eligible recipients is allowable regardless of where the retiree acquires authorized and legitimate medical insurance coverage (i.e. through State Exchange, through individual insurance company, through a current employer, or through spouse employer). Retiree shall not be eligible to receive a contribution for dependent, spouse, or registered domestic partner under the Retiree + 1 or Retiree + Family levels if retiree's dependent, spouse, or registered domestic partner has medical insurance coverage through their current employer, is covered under Retiree's current

employer, or if Retiree does not purchase individual insurance for dependent. Upon retirement only, the City shall transfer contributions based on eligibility above into the City's sponsored Retiree Health Reimbursement Arrangement (HRA) for the individual. Employees will not be eligible for these contributions should they separate from City service prior to retirement. Contributions to eligible retirees will be made as follows:

Upon Retirement – initial contributions will be made for the months following loss of coverage with City through either December 31st or June 30th, whichever date is earlier. Contributions will be deposited no later than 30 days after retirement date. Ongoing Contribution – a semi-annual years' worth of contributions will be made on a semi-annual basis no later than Jan 31st (for months January – June) and July 31st (for months July - December) until exhaustion of sick leave conversion. To receive the semi-annual contribution, the retiree must provide the City with proof and cost of coverage by December 15th each year to receive a contribution for the following calendar year. Failure to provide proof of coverage will result in the retiree losing a City contribution for that calendar year, however, if the retiree provides proof of coverage before June 15th, the retiree will be eligible for the July contribution. Lose of contribution will not result in a reduction to the number of months the retiree is eligible to receive contributions in the future. If retiree has a status change during any calendar year that would change the monthly contribution, such as a marriage, divorce, death, birth, spouse or dependent loss of coverage, the City will reconcile the new amount the retiree is eligible for with the following semi-annual contribution. The change in status is presumed effective the 1st of the month following the month when the retiree provided notice to the City of the change in status. For example, if the retiree's status

changes from retiree only to retiree +1 on November 15, the City will provide an additional \$500 along with the total semi-annual contribution for the following calendar year to compensate the retiree for the change in status for the month of December in the previous calendar year. If the retiree's change in status results in monies owed to the City, the City will recoup the amount owed by deducting it from the following semi-annual contribution. However, in the event of a death of the retiree receiving a contribution for the retiree only level during the calendar year in which the contribution was already received, any remaining months of contribution will be deleted for subsequent calendar years, but the City will not endeavor to seek payments already made for the months following the retiree's death. In the event of the death of retiree participating in the contribution program, surviving qualified spouse will be eligible to receive a contribution for the following calendar year if the retiree would have been eligible to receive a contribution. If eligible, the contribution will be consistent with the eligibility criteria set above and continue until the exhaustion of the deceased retiree's sick leave bank, upon the death of the surviving spouse, upon the spouse and/or dependents coverage for other insurance through an employer, or upon voluntarily election to not continue with the contribution program.

For employees hired on or before December 31, 2010, the City shall contribute to a Defined Contribution retiree medical benefit plan for each eligible employee in the form of a deposit into a Health Reimbursement Arrangement (HRA). For non-sworn employees, effective July 2, 2013, the City shall contribute \$25.00 per month. For sworn employees, effective August 26, 2014 the City shall contribute \$25.00 per month. For a full time employee, this equates to a maximum of \$300 per year. Employees in

regular positions budgeted less than eighty (80) hours per pay period or job-shared positions, shall receive a pro-rated amount per month. Beginning January 1, 2015, the defined City contribution for non-sworn and sworn employees shall increase annually through January 1, 2019, by an additional \$10 per year, per employee each January. The defined City contribution shall be a maximum contribution of \$75 per month by January 2019. For all employees regardless of date of hire by January 1, 2019, the City will increase the City contribution to the City HRA by an additional ten dollars (\$10.00) monthly per employee effective January 1, 2017; followed by an additional increase of ten dollars (\$10.00) monthly per employee effective January 1, 2018; and followed by an additional increase of ten dollars (\$10.00) monthly per employee effective January 1, 2019. The contribution effective January 1, 2019 will be \$100.

For all unrepresented employees (sworn and non-sworn) hired on or after January 1, 2011, the City shall contribute to a Defined Contribution retiree medical benefit plan for each eligible employee in the form of a deposit into a Health Reimbursement Arrangement (HRA) account. An employee is eligible to receive a City HRA contribution upon completion of two full years. If an employee separates employment before meeting eligibility requirement, the employee shall receive no benefit. On the first pay period following completion of two full years of continuous City service, the CITY shall deposit \$2,400 into an HRA account established in the employee's name. Employees in regular positions budgeted less than eighty (80) hours per pay period or job-shared positions, shall receive a pro-rated lump sum contribution based on hours worked. After the initial contribution is made, the City shall contribute \$100 per month for each eligible full time employee. Employees in regular positions budgeted less than

eighty (80) hours per pay period or job-shared positions, shall receive a pro-rated amount per month. Employees hired on or after January 1, 2011 and subject to this defined contribution plan shall not be eligible for any sick leave conversion towards retiree medical premiums of any sort. The City's contribution under this section represents the entire contribution towards employee retiree medical.

SECTION 31. PAYCHECK ADVICES. All employees who are on direct deposit will no longer be receiving hard-copy pay advices for. Employees will now be able to utilize the Employee self-service tool available via Oracle under the CoM Employee Self Service responsibility to view their pay advices including their annual W-2s. For any employees who currently are still receiving a payroll pay check, they will continue to receive a hard copy check with their attached payroll remittance. Pay advices will be available anytime during payday Friday and payslips can be printed utilizing city computer workstation.

SECTION 32. EDUCATIONAL INCENTIVE PAY. Effective July 1, 2018, Sworn Fire Management employees in the classifications of Fire Battalion Chief, Fire Division Chief and Fire Chief shall be eligible for Educational Incentive Pay for designated certifications or degrees as follows:

- 1) Fire Science/Fire Officer 1%
- 2) AA/AS 2%
- 3) BA/BS 3.5%

Qualifying certificates and degrees:

- 1) Fire Science or Fire Technology certificate from a community college accredited by the Western Association of Schools and Colleges OR

completion of Fire Officer Certification from the Office of the California State Fire Marshal.

- 2) Associates Degree in Fire Science, Fire Technology, or a related field, OR a Bachelor's Degree in Fire Science, Fire Management, Public Safety Administration or a related field. Fire Chief reserves the right to determine qualifying degrees.

Education incentives are not stackable or cumulative. Employees receive pay for the highest certification or degree earned.

SECTION 33. LONGEVITY INCENTIVE PAY. Effective July 1, 2018, Sworn Fire Management employees in the classifications of Fire Battalion Chief, Fire Division Chief and Fire Chief shall be eligible for Longevity Incentive Pay for the following years of service:

- 1) 10 years of service 1.5%
- 2) 15 years of service 3%
- 3) 20 years of service 4%

Longevity incentives are not stackable or cumulative. Employees receive pay for the highest years of service for which they qualify.

BE IT FURTHER RESOLVED by the Council of the City of Modesto that Resolution No. 2017-07 is hereby rescinded.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 9th day of April, 2019, by Councilmember Ridenour, who moved its adoption, which motion being duly seconded by Councilmember Madrigal, was upon roll call carried and the resolution adopted by the following votes:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2019-168**

RESOLUTION APPROVING THE CITY OF MODESTO SPONSORSHIP OF THE 2019 CINCO DE MAYO PARADE, INCLUDING THE WAIVER OF CITY PERMIT FEES, POLICE OVERTIME COSTS, AND VEHICLE FEE EXPENSES INCURRED BY THE CITY OF MODESTO POLICE DEPARTMENT, AND AUTHORIZING THE CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE ANY DOCUMENTS NECESSARY RELATED TO THE SPONSORSHIP

WHEREAS, the annual Cinco de Mayo Parade on Crows Landing Road is a tradition for families living in the Crows Landing Road area as well as all residents of Modesto and Stanislaus County, and

WHEREAS, the Parade first started in 2003 through the efforts of local non-profit groups with approximately 20 entries and 3,000 spectators, and

WHEREAS, in 2010, the non-profit organization, South Modesto Businesses United, began managing the Cinco de Mayo Parade, expanding it to over 60 entries and 12,000+ spectators, and

WHEREAS, this event brings the community together to celebrate the history and culture of Mexico and also has a growing economic benefit to businesses located on Crows Landing Road, and

WHEREAS, there are additional economic benefits for all the businesses that provide goods and services for the parade itself; and

WHEREAS, staff is requesting City Council approval to sponsor the 2019 Cinco de Mayo Parade, and

WHEREAS, the sponsorship will include the waiver of City permit fees, Police Department overtime costs, and vehicle fee expenses to provide public safety coverage for this event, and

WHEREAS, Police Explorers and Police Volunteers will also be used, at no cost, to provide the necessary staffing needed for this event, and

WHEREAS, the total expense to the City of Modesto to sponsor the 2019 Cinco de Mayo Parade is approximately \$24,974.96.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the City of Modesto sponsorship for the 2019 Cinco de Mayo Parade including the waiver of City permit fees, overtime costs, and vehicle fee expenses incurred by the City of Modesto Police Department, for a total cost of approximately \$24,974.96.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to execute the necessary documents related to the sponsorship.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 23rd day of April, 2019, by Councilmember Kenoyer, who moved for its adoption, which motion being duly seconded by Councilmember Madrigal, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2019-169**

RESOLUTION APPROVING THE APPOINTMENT OF MAYOR TED BRANDVOLD AS THE VOTING MEMBER FOR THE CITY OF MODESTO ON THE STANISLAUS HOMELESS ALLIANCE, FOR A ONE-YEAR TERM, WITH A TERM EXPIRATION OF APRIL 30, 2020

WHEREAS, the City of Modesto is a member of the Stanislaus County Community System of Care (CSOC), and

WHEREAS, the CSOC recognizes the need for a new governance structure with the appropriate authority to plan, prioritize, and implement plans to address concerns related to communities experiencing homelessness, and

WHEREAS, in October 2018, a workgroup was formed between the City Managers of the cities within Stanislaus County, Focus on Prevention staff, and the existing CSOC leadership council to address the concerns related to the CSOC, and

WHEREAS, the workgroup has recommended the creation of a formal public/private governance structure to establish a single point of community leadership and oversight that will be formally known as the Stanislaus Homeless Alliance (SHA), and

WHEREAS, the bylaws of the SHA require the appointment of an elected official by the City Council to the SHA to serve as the voting member for the City, and

WHEREAS, in accordance with Municipal Code Section 601 "Powers and Duties of the Mayor," the Mayor of the City has the authority to appoint members of the City Council to the City's various committees, and

WHEREAS, the Mayor has recommended the appointment of himself to the Stanislaus Homeless Alliance to serve a one-year term, with a term expiration date of April 30, 2020.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the appointment of Mayor Ted Brandvold to serve as the voting member for a one-year term on the Stanislaus Homeless Alliance, with a term expiration of April 30, 2020.

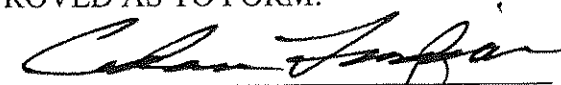

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 23rd day of April, 2019, by Councilmember Madrigal, who moved for its adoption, which motion being duly seconded by Councilmember Ah You, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2019-170**

RESOLUTION ACCEPTING FISCAL YEAR 2019-2020 ENGINEER'S REPORT FOR LANDSCAPE MAINTENANCE ASSESSMENT DISTRICT NO. 1 FOR DRY CREEK MEADOWS SUBDIVISIONS NOS. 1 -6; NOTICE OF INTENTION TO LEVY AND COLLECT ASSESSMENTS FOR LANDSCAPE MAINTENANCE ASSESSMENT DISTRICT NO. 1 FOR DRY CREEK MEADOWS SUBDIVISIONS NOS. 1 – 6 AND SETTING A PUBLIC HEARING ON JUNE 25, 2019 TO CONSIDER THE FISCAL YEAR 2019-20 LEVY AND COLLECTION OF ASSESSMENTS WITHIN LANDSCAPE MAINTENANCE ASSESSMENT DISTRICT NO. 1

WHEREAS, Resolution No. 88-935, adopted by the Council of the City of Modesto on December 13, 1988, initiated proceedings for the formation of Landscape Maintenance Assessment District No. 1 for the purpose of administering the maintenance of landscaping in the public right-of-way within the street medians and adjacent to the access control walls in Dry Creek Meadows Subdivisions Nos. 1-6, and

WHEREAS, said assessment district was formed in accordance with the Landscape and Lighting Act of 1972, (California Streets and Highways Code Sections 22500 through 22679), and

WHEREAS, Section 22623 of the California Streets and Highways Code requires the City Engineer, the person designated by this Council as Engineer of Work for Assessment District No. 1, to prepare and file an annual report, and

WHEREAS, the Engineer of Work, has prepared and filed said annual report with the City Clerk, and

WHEREAS, California Streets and Highways Code Section 22623 requires the legislative body (the City Council) to adopt a resolution of intention which shall include the following:

- a. Declaration of intention of the legislative body (the City Council) to levy and collect assessments within the assessment district for the fiscal year stated in the annual report.
- b. General description of the existing improvements and proposed improvements and any substantial changes proposed to be made in the existing improvements.
- c. Reference to the assessment district by its distinctive designation and indication of the general location of the district.
- d. Reference to said annual report, on file with the City Clerk, for a full and detailed description of the improvements, the boundaries of the assessment district and any zones therein, and the proposed assessments upon assessable lots and parcels of land within the district.
- e. Notice of the time, as fixed by the California Streets and Highways Code Section 22625, and the place for hearing by the legislative body (the City Council) on the levy of the proposed assessment.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto hereby accepts the Fiscal Year 2019-2020 Engineer's Report for Landscape Maintenance Assessment District No. 1 for Dry Creek Meadows Subdivisions Nos. 1 through 6, which is **attached** hereto and hereinafter incorporated by reference.

BE IT FURTHER RESOLVED that the City Council hereby finds as follows:

1. The City Council intends to levy and collect assessments within Landscape Maintenance Assessment District No. 1 during the fiscal year 2019-20.

2. There are no proposed new improvements or any substantial changes in existing improvements in Landscape Maintenance Assessment District No. 1 and that the existing improvements to be made in said assessment district are generally described as follows:

The City shall provide maintenance, in perpetuity, of landscaping and any and all improvements required for such maintenance including, but not limited to, landscape irrigation systems in the following locations:

- a. Street medians in Creekwood Drive
- b. Areas adjacent to the access control walls along Creekwood Drive
- c. Areas adjacent to the access control walls along Claus Road

3. Landscape Maintenance Assessment District No. 1 is located in the County of Stanislaus, within the City Limits of the City of Modesto and is more specifically located on the west side of Claus Road, between Modesto Irrigation District Lateral No. 2 and State Route 132 (Yosemite Boulevard).

4. Said annual report filed with the City Clerk and approved by the Council does provide a full and detailed description of the improvements, the boundaries of the assessment district and any zones therein, and the proposed assessments upon assessable lots and parcels of land within Landscape Maintenance Assessment District No. 1.

5. On Tuesday, the 25th day of June, 2019, at the hour of 5:30 p.m., the City Council will conduct a public hearing on the question of the levy of the proposed annual assessment. The hearing will be held at the meeting place of the City Council located in the Tenth Street Place Chambers located at 1010 10th Street, Modesto, California.

6. The City Clerk is authorized and directed to give the notice of hearing required by the Landscape and Lighting Act of 1972.

7. The levy and collection of assessments as set forth in this resolution are exempt from the procedural and substantive requirements of Proposition 218 pursuant to Article XIII, Section 5(a) of the California Constitution.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 23rd day of April, 2019, by Councilmember Kenoyer, who moved for its adoption, which motion being duly seconded by Councilmember Ah You, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Ah You, Kenoyer, Madrigal, Ridenour, Zoslocki, Mayor Brandvold

Landscape Maintenance Assessment District No. 1 (Dry Creek Meadows Subdivisions No. 1 - 6)

Date: 1/9/2019

**MODESTO CITY COUNCIL
RESOLUTION NO. 2019-171**

RESOLUTION ACCEPTING FISCAL YEAR 2019-2020 ENGINEER'S REPORT FOR LANDSCAPE MAINTENANCE ASSESSMENT DISTRICT NO. 2 FOR DRY CREEK MEADOWS SUBDIVISIONS NOS. 7-10, CREEKWOOD MEADOWS SUBDIVISION, AND YOSEMITE SUBDIVISION; OF INTENTION TO LEVY AND COLLECT ASSESSMENTS FOR LANDSCAPE MAINTENANCE ASSESSMENT DISTRICT NO. 2 FOR DRY CREEK MEADOWS SUBDIVISIONS NOS. 7-10, CREEKWOOD MEADOWS SUBDIVISION, AND YOSEMITE MEADOWS SUBDIVISION AND SETTING A PUBLIC HEARING ON JUNE 25, 2019 TO CONSIDER THE FISCAL YEAR 2019-20 LEVY AND COLLECTION OF ASSESSMENTS WITHIN LANDSCAPE MAINTENANCE ASSESSMENT DISTRICT NO. 2

WHEREAS, Resolution No. 89-460, adopted by the Council of the City of Modesto on April 4, 1989, initiated proceedings for the formation of Landscape Maintenance Assessment District No. 2 for the purpose of administering the maintenance of landscaping in the public right of way within the street medians and adjacent to the access control walls in Dry Creek Meadows Subdivisions Nos. 7-10, Creekwood Meadows Subdivision and Yosemite Meadows Subdivision Units Nos. 1 and 2, and

WHEREAS, said assessment district was formed in accordance with the Landscaping and Lighting Act of 1972, (California Streets and Highways Code Sections 22500 through 22679), and

WHEREAS, Section 22623 of the California Streets and Highways Code requires the Community Development Manager, the person designated by the Council as Engineer of Work for Assessment District No. 2, to prepare and file an annual report, and

WHEREAS, the City Engineer, said Engineer of Work, has prepared and filed said annual report with the City Clerk, and

WHEREAS, California Streets and Highways Code Section 22623 requires the Council to adopt a resolution of intention which shall include the following:

- a. Declaration of intention of the Council to levy and collect assessments within the assessment district for the fiscal year stated in said annual report.
- b. General description of the existing improvements and proposed improvements and any substantial changes proposed to be made in the existing improvements.
- c. Reference to the assessment district by its distinctive designation and indication of the general location of the district.
- d. Reference to said annual report, on file with the City Clerk, for a full and detailed description of the improvements, the boundaries of the assessment district and any zones therein, and the proposed assessments upon assessable lots and parcels of land within the district.
- e. Notice of the time, as fixed by California Streets and Highways Code Section 22625, and the place for hearing by the Council on the levy of the proposed assessment.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby accepts the Fiscal Year 2019-2020 Engineer's Report for Landscape Maintenance Assessment District No. 2 for Dry Creek Meadows subdivisions Nos. 7-10, Creekwood Meadows subdivision and Yosemite subdivision.

BE IT FURTHER RESOLVED that the Council hereby finds as follows:

1. The City Council intends to levy and collect assessments within Landscape Maintenance Assessment District No. 2 during the fiscal year 2019-2020.

2. There are no proposed new improvements or any substantial changes in the existing improvements within the existing Landscape Maintenance Assessment District No. 2, and the existing improvements to be made in said assessment district are generally described as follows:

The City shall provide maintenance, in perpetuity, of landscaping and any and all improvements required for such maintenance including, but not limited to, landscape irrigation systems in the following locations:

- a. Street medians in Creekwood Drive
- b. Areas adjacent to the access control walls along Creekwood Drive
- c. Areas adjacent to the access control walls along Claus Road

3. Landscape Maintenance Assessment District No. 2 is located in the County of Stanislaus, within the City limits of the City of Modesto, and is more specifically located on the northeast corner of Yosemite Boulevard and North McClure Road. District 2 is bounded by Yosemite Boulevard on the south, North McClure Road on the west, Yosemite Meadows Drive on the east, and Mechalys Way on the north.

4. Said annual report filed with the City Clerk and approved by the Council does provide a full and detailed description of the improvements, the boundaries of the assessment district and any zones therein, and the proposed assessments upon assessable lots and parcels of land within Landscape Maintenance Assessment District No. 2.

5. On Tuesday, the 25th day of June, 2019, at the hour of 5:30 p.m., the City Council will conduct a public hearing on the question of the levy of the proposed annual assessment. The hearing will be held at the meeting place of the City Council located in the Tenth Street Place Chambers located at 1010 10th Street, Modesto, California.

6. The City Clerk is authorized and directed to give the notice of hearing required by the Landscaping and Lighting Act of 1972.

7. The levy and collection of assessments as set forth in this resolution shall follow the procedural and substantive requirements of Proposition 218 pursuant to Article 13D, Section 5(a) of the California Constitution.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 23rd day of April, 2019, by Councilmember Kenoyer, who moved for its adoption, which motion being duly seconded by Councilmember Ah You, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Ah You, Kenoyer, Madrigal, Ridenour, Zoslocki, Mayor Brandvold

**MODESTO CITY COUNCIL
RESOLUTION NO. 2019-172**

**RESOLUTION ACCEPTING THE FISCAL YEAR 2019-20 ENGINEER'S
REPORT FOR THE SHACKELFORD LANDSCAPE AND LIGHTING
DISTRICT; NOTICE OF INTENTION TO LEVY AND COLLECT
ASSESSMENTS FOR THE SHACKELFORD LANDSCAPE AND LIGHTING
DISTRICT; AND SETTING A PUBLIC HEARING ON THE PROPOSED
ASSESSMENTS TO BE HELD ON JUNE 25, 2019 TO CONSIDER THE 2019-20
LEVY AND COLLECTION OF ASSESSMENTS WITHIN SHACKELFORD
LANDSCAPE AND LIGHTING DISTRICT**

WHEREAS, on June 29, 1999, the County of Stanislaus ("County") formed the Shackelford Landscape and Lighting District ("Shackelford LLD") for the purpose of administering the maintenance of seventy-seven (77) 200-watt high-pressure sodium streetlights, and

WHEREAS, the Shackelford LLD was formed in accordance with the Landscaping and Lighting Act of 1972 (Streets and Highways Code Sections 22500 through 22679), and

WHEREAS, the Shackelford LLD is comprised of approximately 153 acres, includes 495 lots with both residential and commercial development, and is bounded by Crows Landing on the west, E. Hatch Road on the south, Union Pacific Railroad on the east, and State Route 99 on the north, and

WHEREAS, on February 22, 2012, the Stanislaus County Local Agency Formation Commission ("LAFCO") approved the annexation of the Shackelford Area to the City of Modesto ("City"), and

WHEREAS, on April 24, 2012, the City Council approved the Shackelford Landscape and Lighting District Transfer Agreement between the County and City, and

WHEREAS, the City assumed full responsibility and administration of the Shackelford LLD on July 1, 2012, and

WHEREAS, Section 22623 of the California Streets and Highways Code requires the City Engineer, the person designated by this Council as Engineer of Work for the Shackelford LLD, to prepare and file an annual report, and

WHEREAS, the Engineer of Work has prepared and filed said annual report with the City Clerk, and

WHEREAS, California Streets and Highways Code Section 22623 requires the legislative body (the City Council) to adopt a resolution of intention which shall include the following:

- a. Declaration of intention of the legislative body (the City Council) to levy and collect assessments within the Shackelford LLD for the fiscal year stated in the annual report.
- b. General description of the existing improvements and proposed improvements and any substantial changes proposed to be made in the existing improvements.
- c. Reference to the assessment district by its distinctive designation and indication of the general location of the Shackelford LLD.
- d. Reference to said annual report, on file with the City Clerk, for a full and detailed description of the improvements, the boundaries of the Shackelford LLD and any zones therein, and the proposed assessments upon assessable lots and parcels of land within the Shackelford LLD.

- e. Notice of the time, as fixed by the California Streets and Highways Code Section 22625, and the place for hearing by the legislative body (the City Council) on the levy of the proposed assessment.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby accepts the Fiscal Year 2019-20 Engineer's Report for the Shackelford Landscape and Lighting District.

BE IT FURTHER RESOLVED that the City Council hereby finds the following:

1. The City Council intends to levy and collect assessments within the Shackelford LLD during the fiscal year 2019-20.
2. There are no proposed new improvements or any substantial changes in the existing improvements in the Shackelford LLD and the existing improvements to be made in the Shackelford LLD are generally described as follows:

The City shall provide maintenance, operation and servicing, in perpetuity, of streetlights and all improvements required for such maintenance including, but not limited to:

- a. Payment to local utility company for monthly power costs of energizing street lights in the Shackelford LLD.
- b. Payment to local utility company for maintenance of street lights in the Shackelford LLD that the utility company owns (usually those lights that are mounted on wooden poles).
- c. Maintenance provided by the City of Modesto for street lights in the Shackelford LLD that are owned by the City of Modesto (usually those lights that are mounted on steel poles).

3. The Shackelford LLD is located in the County of Stanislaus, within the City Limits of the City of Modesto and is more specifically located North of Hatch Road, South of State Highway 99, and East of Crows Landing Road.

4. Said annual report filed with the City Clerk and approved by the Council by motion does provide a full and detailed description of the improvements, the boundaries of the Shackelford LLD and any zones therein, and the proposed assessments upon assessable lots and parcels of land within the Shackelford LLD.

5. On Tuesday, the 25th day of June, 2019, at the hour of 5:30 p.m., the City Council will conduct a public hearing on the questions of the levy of the proposed annual assessment. The hearing will be held at the meeting place of the City Council located in the Tenth Street Place Chambers located at 1010 10th Street, Modesto, California.

6. The City Clerk is authorized and directed to give the notice of hearing required by the Landscape and Lighting Act of 1972.

The levy and collection of assessments as set forth in this resolution are exempt from the procedural and substantive requirements of Proposition 218 pursuant to Article XIII, Section 5(a) of the California Constitution.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 23rd day of April, 2019, by Councilmember Kenoyer, who moved for its adoption, which motion being duly seconded by Councilmember Madrigal, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2019-173**

RESOLUTION ACCEPTING A HOMELESS MANAGEMENT INFORMATION SYSTEM (HMIS) GRANT IN THE AMOUNT OF \$173,533 AND AUTHORIZING THE CITY MANAGER OR HIS DESIGNEE TO TAKE THE NECESSARY STEPS TO IMPLEMENT THE PROVISIONS OF THIS RESOLUTION

WHEREAS, HMIS is a requirement by HUD which enables the network of homeless service providers to collect uniform client information over time including the size, characteristics, and needs of the homeless population, and

WHEREAS, the system meets Federal requirements, collaborates, and enhances homeless prevention services delivery, and

WHEREAS, the City was awarded \$173,533 from the U.S. Department of Housing and Urban Development to support the HMIS, and

WHEREAS, the award includes funding for salary and benefits, oversight, computer software, training, and licenses for the client management software, and

WHEREAS, Administrative Directive 7.2 Grant Management states grant award acceptance requires Council approval based on the award requiring local match funding, and

WHEREAS, the grant requires a 25% match that will come from fees for additional reporting support and user licenses for agencies that request them, and

WHEREAS, HMIS Support Fee: \$1,200 (per year, excluding non-profits, for under 2 activities), HMIS Support Fee: \$2,400 (per year, excluding non-profits, for over 2 activities), Additional User License: \$930.00 (per user per year, does not apply for non-profits that are voluntarily adding non-mandated data).

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby accepts the Homeless Management Information Systems Grant in the amount of \$173,533.

BE IT FURTHER RESOLVED that the City Manager or his designee, is hereby authorized to take the necessary steps to implement the provisions of this resolution.

**RESOLUTION ACCEPTING THE CONTINUUM OF CARE PLANNING
GRANT IN THE AMOUNT OF \$102,947 AND AUTHORIZING THE CITY
MANAGER OR HIS DESIGNEE TO TAKE THE NECESSARY STEPS TO
IMPLEMENT THE PROVISIONS OF THIS RESOLUTION**

WHEREAS, as the Collaborative Applicant, the City is responsible to collect and submit the required Continuum of Care application information for all projects the StanCSOC selects for funding, and

WHEREAS, this responsibility extends to providing on-going monitoring activities and technical assistance to the non-profit organizations receiving Continuum of Care funds, and

WHEREAS, the City is the administration and oversight of the Homeless Management Information System (HMIS) for StanCSOC, and

WHEREAS, as the Collaborative Applicant for a Continuum of Care, the City is eligible to apply for a Planning Grant to help offset costs incurred in this roll, and

WHEREAS, the City was awarded \$102,947 from the U.S. Department of Housing and Urban Development to support the Planning Grant and award includes funding for salary and benefits, in order to assist with coordination, project evaluation, monitoring, and compliance of the COC program awarded participants, and

WHEREAS, Administrative Directive 7.2 Grant Management states grant award acceptance requires Council approval based on the award requiring local match funding, and

WHEREAS, this award does require a 25% match that is documented through costs paid by Focus on Prevention to the consultation firm, Home Base that manages the regional NOFA process.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby accepts the Continuum of Care Planning Grant in the amount of \$102,947.

BE IT FURTHER RESOLVED that the City Manager or his designee, is hereby authorized to take the necessary steps to implement the provisions of this resolution.

RESOLUTION NO. 2019-176**

**RESOLUTION APPROVING THE NEW PUBLIC ROAD CONNECTION TO
STATE ROUTE 132 AT NEEDHAM STREET AND THE KANSAS AVENUE
EXTENSION AT APPROXIMATE POST MILE (PM) R14.4**

WHEREAS, the purpose of the State Route (SR) 132 West Freeway/Expressway - Phase 1 Project is to improve regional and interregional circulation, relieve traffic congestion along existing SR132, and enhance safety and operations for the existing and proposed transportation network, and

WHEREAS, Phase 1 of the Project is approximately four miles in length and will replace the existing 2-lane highway segment of SR132 along Maze Boulevard from SR99 to Dakota Avenue, and

WHEREAS, the City is the lead agency responsible for the implementation of Phase 1 of the Project, and

WHEREAS, the SR132 West Freeway/Expressway – Phase 1 Project supports the City’s strategic commitment to expand alternative modes of travel and improve transportation flow, and

WHEREAS, the connection will provide direct access to the City of Modesto east of SR 99 using the existing Needham Street crossing overhead of the Union Pacific Railroad (UPRR), and

WHEREAS, the proposed New Public Road Connection will allow vehicles to utilize the only existing UPRR grade separated crossing for circulation around and into the City and Downtown Modesto east of SR 99, and

WHEREAS, the proposed New Public Road Connection is consistent with the stated purpose and need of the SR 99/SR 132 West Freeway Project-

that of minimizing traffic congestion and truck traffic in Downtown Modesto,
and

WHEREAS, a New Public Road Connection is recommended to support the regional circulation plan, to capitalize on the existing Needham Street grade separation investment, and to minimize vehicle miles travelled by utilizing the safe grade separated Needham Street, and

WHEREAS, the SR 132/Needham Street New Public Road Connection designation is a mandate requirement of the California Transportation Commission (CTC).

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the New Public Road Connection to State Route 132 from Needham Street and Kansas Avenue Extension at approximate Post Mile (PM) R14.4.

RESOLUTION NO. 2019-179**

RESOLUTION APPROVING THE PLANS AND SPECIFICATIONS FOR THE WYLIE FLOYD CARVER STREET IMPROVEMENTS PROJECT, ACCEPTING THE BID, AND AWARDING A CONTRACT TO AMERICAN PAVEMENT SYSTEMS, INC. OF MODESTO, CALIFORNIA, IN THE AMOUNT OF \$1,595,915, AND AUTHORIZING THE CITY MANAGER, OR HIS DESIGNEE TO EXECUTE THE AGREEMENT

WHEREAS, plans and specifications have been prepared for the Wylie Floyd Carver Street Improvements project, and City staff recommends approval by the City Council, and

WHEREAS, the bids received for the Wylie Floyd Carver Street Improvements Project were publicly opened at 11:00 a.m. on March 26, 2019, and later tabulated by the Director of Community and Economic Development for the consideration of Council, and

WHEREAS, the Director of Community and Economic Development has recommended that the bid of \$1,595,915 received from American Pavement Systems, Inc., of Modesto, CA be accepted as the lowest responsible and responsive bid and the contract be awarded to American Pavement Systems, Inc., and

WHEREAS, Modesto Municipal Code Section 8-3.203 generally requires all purchases, which meet or exceed \$50,000 for material, equipment or contractual services to follow the formal bid procedures. An award of \$1,595,915 and agreement for Construction for Community and Economic Development Department to use American Pavement Systems, Inc., Modesto, CA, conforms to the Modesto Municipal Code because the City complied with the formal bid procedures and American Pavement Systems, Inc. was the lowest responsive and responsible bidder, and

WHEREAS, City staff and the City Manager recommend awarding the contract to American Pavement Systems, Inc. of Modesto, California.

NOW, THEREFORE BE IT RESOLVED, by the Council of the City of Modesto that it hereby approves the plans and specifications for the Wylie Floyd Carver Street Improvements project, accepts the bid of American Pavement Systems, Inc. of Modesto, CA, in the amount of \$1,595,915, and awards American Pavement Systems, Inc. the contract for the Wylie Floyd Carver Street Improvements project.

BE IT FURTHER RESOLVED, that the City Manager, or his designee, is hereby authorized to execute the contract, in a form approved by the City Attorney.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 23rd day of April, 2019, by Councilmember Kenoyer, who moved for its adoption, which motion being duly seconded by Councilmember Madrigal, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION NO. 2019-180**

**RESOLUTION AMENDING THE FISCAL YEAR 2018-2019 CAPITAL
IMPROVEMENT PROGRAM (CIP) BUDGET FOR PROJECT #101038 AND
INCREASING THE MEASURE L ROAD TAX FUND TRANSFER IN THE
AMOUNT OF \$400,000, FOR THE WYLIE FLOYD CARVER STREET
IMPROVEMENTS PROJECT**

WHEREAS, the Wylie Floyd Carver Street Improvements project will rehabilitate deteriorated pavement with an asphalt rubber chip seal within the street limits of Wylie Drive from Oakdale Road to Brighton Avenue, Floyd Avenue from McHenry Avenue to Orchard Park Way, and Carver Road from 9th Street to Pelandale Avenue, and

WHEREAS, in November 2016, the voters of Stanislaus County approved the county wide, 25-year, half-cent sales tax increase known as Measure L, and

WHEREAS, on July 5, 2017, by Resolution No. 2017-269, Council approved a list of projects including the Lakewood Neighborhood Street Improvements project to be funded with Measure L tax proceeds in Fiscal Year 2017-18, and

WHEREAS, on September 4, 2018, by Resolution No. 2018-380, Council approved an amendment to the list of project funded with Measure L proceeds of which allocated an additional \$1,700,000 to the Wylie Floyd Carver Street Improvements project, and

WHEREAS, bids were opened March 26, 2019 with the lowest bidder 6.12% below the engineer's estimate, and

WHEREAS, the Measure L funds in FY 2018-19 for the local streets and roads category have not been allocated and are available to use, and

WHEREAS, on February 28, 2019 staff recommended to the Citizens Transportation Sales Tax Commission the allocation of \$400,000 of the \$1,658,925

Measure L funds available for FY 2018-19 to fund the additional costs for the Wylie Floyd Carver Street Improvements project, and

WHEREAS, the Fiscal Year 2018-19 Capital Improvement Program Budget for Project #101038 – Wylie Floyd Carver Street Improvements must be amended by \$400,000 with a transfer from Measure L Road Tax fund and allocation of funds to the projects expense budget.

NOW, THEREFORE, BE IT RESOLVED, by the Council of the City of Modesto that it hereby amends the Fiscal Year 2018-2019 Capital Improvement Program (CIP) Budget for project #101038 and increasing the Measure L Road Tax fund transfer in the amount of \$400,000, for the Wylie Floyd Carver Street Improvements Project.

APPROVE CHANGE ORDERS UP TO THE CUMULATIVE AMOUNT OF
\$159,592 (10% OF THE ORIGINAL CONTRACT PRICE) FOR THE WYLIE
FLOYD CARVER STREET IMPROVEMENTS PROJECT**

WHEREAS, the Wylie Floyd Carver Street Improvements project bids were publicly opened on March 26, 2019, and American Pavement Systems, Inc., of Modesto California was the apparent low bidder with the amount of \$1,595,915, and

WHEREAS, the contingency cost for the Wylie Floyd Carver Street Improvements project is estimated to be \$159,592, or 10% of the original contract price, an amount which exceeds the Director's authority for the project as enacted by Council Resolution No. 94-443 on July 19, 1994, and

WHEREAS, City staff is requesting authorization to increase the contract change order budget to 10% due to a requirement to have the project constructed while local schools are out for summer break, and

WHEREAS, the Director of Utilities shall have authority to approve change orders up to the cumulative amount of \$159,592.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby authorizes the Director of Utilities to approve change orders up to the cumulative amount of \$159,592 (10% of the original contract price).

RESOLUTION NO. 2019-182**

RESOLUTION APPROVING THE AWARD OF BID FOR THE MODESTO POLICE DEPARTMENT (MPD) RECORDS UNIT OFFICE REMODEL TO WARDEN'S OFFICE INC., MODESTO, CA, FOR A ONE-TIME PURCHASE AND INSTALLATION OF OFFICE FURNITURE WITH AN ESTIMATED COST NOT TO EXCEED \$86,803, AND AUTHORIZING THE PURCHASING MANAGER, OR HER DESIGNEE, TO EXECUTE THE PURCHASE ORDER

WHEREAS, staff assigned to the Records Unit do not have assigned workstations and must rotate workstations, based on their assigned duties of the day, each shift, and

WHEREAS, it is imperative that the workstations are adjustable to accommodate their various users in order to be ergonomically correct and comfortable for staff during their ten and a half hour shifts, and

WHEREAS, the Records Unit area hasn't been updated since the move into the Police Administration building approximately 17 years ago, and

WHEREAS, the Police Department will be moving towards electronic field reporting, this will greatly reduce and/or eliminate paper police reports that take longer to reach the Records, and

WHEREAS, on November 20, 2018 Bids were formally opened in the City Clerk's Office, and

WHEREAS, nineteen vendors downloaded the Request for Bids (RFB), two vendors responded, one of which was a local vendor, and

WHEREAS, one apparent low bidder was considered non-responsive because it did not meet the minimum specifications as required in the RFB, and

WHEREAS, staff recommends the award of bid for the procurement and installation of office furniture for the MPD Records Unit Office Remodel to Warden's Office Inc., Modesto, CA for the estimated cost not to exceed \$86,803.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the purchase of office furniture for the MPD Records Unit Office Remodel to Warden's Office Inc., Modesto, CA for the estimated cost not to exceed \$86,803.

BE IT FURTHER RESOLVED, that the Purchasing Manager, or her designee, is hereby authorized to execute the purchase order.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 23rd day of April, 2019, by Councilmember Kenoyer, who moved for its adoption, which motion being duly seconded by Councilmember Madrigal, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2019-183**

RESOLUTION APPROVING A PURCHASING AGREEMENT WITH DS SERVICES OF AMERICA, INC., ATLANTA, GA AND NESTLE WATERS NORTH AMERICA, FOR BOTTLED WATER SERVICES, FOR A TWO-YEAR AGREEMENT WITH THREE ONE-YEAR EXTENSION OPTIONS, FOR AN ANNUAL COST NOT TO EXCEED \$80,000 AND \$20,000, RESPECTIVELY, FOR A TOTAL COMBINED ANNUAL COST NOT TO EXCEED \$100,000 AND A TOTAL COMBINED FIVE YEAR COST NOT TO EXCEED \$500,000, PROVIDING THE ABILITY TO TRANSFER FUNDS BETWEEN THE TWO PURCHASING AGREEMENTS IF NEEDED, AND AUTHORIZING THE PURCHASING MANAGER, OR HER DESIGNEE, TO EXECUTE THE PURCHASE AGREEMENTS

WHEREAS, bottled water is utilized by all departments for City projects where clean, cool water is not readily accessible for consumption, and

WHEREAS, per the California Division of Occupational Safety and Health, better known as Cal/OSHA T8CCR 3395, employees shall have access to potable drinking water that requires it to be fresh, pure, suitably cool, and provided free of charge, and

WHEREAS, the Purchasing Division issued RFB No. 1819-05, for Bottled Water Service, and posted on PlanetBids via the City's Website on October 31, 2018, and

WHEREAS, bids were formally opened in the City Clerk's Office on November 20, 2018, and

WHEREAS, four vendors downloaded the RFB; three vendors responded, one of which was a local vendor, and

WHEREAS, all three vendors are responsive and responsible bidders, and

WHEREAS, for the 5-gallon bottled water service, Nestle Waters North America would provide an approximate cost difference of \$7,444 from the next lowest vendor for the first year, and a five year cost difference of approximately \$19,679 for the life of the agreement, and

WHEREAS, for the case quantities of 16.9 Fl. Oz. bottles of water, DS Services of America would provide an approximate cost difference of \$11,760 from the next lowest vendor for the first year, and a five year cost difference of approximately \$58,803 for the life of the agreement, and

WHEREAS, Modesto Municipal Code Section 8-3.203 generally requires all purchases, which meet or exceed \$50,000 for material, equipment or contractual services to follow formal bid procedures; the award of RFB No. 1819-05 and agreements for bottled water service for Citywide use to DS Services of America, Atlanta, GA., and Nestle Waters North America, Livermore, CA., conforms to the Modesto Municipal Code because the City complied with the formal bid procedures and both DS Services of America and Nestle Waters North America were the lowest responsive and responsible bidders.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves a purchasing agreement with DS Services of America, Inc., Atlanta, GA and Nestle Waters North America, for bottled water services, for a two-year agreement with three one-year extension options, for an annual cost not to exceed \$80,000 and \$20,000, respectively, for a total combined annual cost not to exceed \$100,000 and a total combined five year cost not to exceed \$500,000, providing the ability to transfer funds between the two purchasing agreements if needed.

BE IT FURTHER RESOLVED, that the Purchasing Manager, or her designee, is hereby authorized to execute the purchasing agreements.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 23rd day of April, 2019, by Councilmember Kenoyer, who moved for its adoption, which motion being duly seconded by Councilmember Madrigal, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2019-184**

RESOLUTION APPROVING THE FIRST AMENDMENT INCREASING THE AGREEMENT AMOUNT WITH ELAVON INC., ATLANTA, GA FOR MERCHANT SERVICES BY \$340,792 FROM \$1,984,255 TO A NEW TOTAL AMOUNT OF \$2,325,047; AND EXTENDING THE TERM OF THE AGREEMENT FROM MAY 31, 2019 TO MAY 31, 2021; AND AUTHORIZING THE CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE THE AMENDMENT

WHEREAS, the City of Modesto currently uses a merchant services provider, Elavon, Inc., to manage the processing of electronic payment transactions for debit card, credit card, and e-check payments, and

WHEREAS, on April 28, 2015 by Resolution 2015-126, Council approved the procurement of merchant services by “assessing the terms” of a competitively bid, State of California, Department of General Services (DSG) Merchant Service Agreement (MSA) with Elavon Inc., Atlanta, GA at an anticipated annual cost of \$396,851 and over five years of \$1,984,255, through a two year agreement with three one year extensions, and

WHEREAS, the term of the current agreement is due to expire May 31, 2019, and

WHEREAS, the City continues to have a need for a payment gateway for merchant services for credit card, debit card, and e-check payments such as parking, transit, taxes, permits, event rentals and utility walk-in and utility phone payments, and

WHEREAS, the City was able to find a cooperative purchasing agreement that it will be able to piggyback off of from the State of California, and

WHEREAS, this agreement, if awarded, will allow the City to contract with Elavon, Inc. to be the payment gateway for merchant services while allowing the City to benefit from the volume pricing, and

WHEREAS, Modesto Municipal Code Section 8-3.203 generally requires all purchase, which meet or exceed \$50,000 for material, equipment or contractual services to be formally bid; However, exceptions to the formal bidding process are granted in MMC 8-3.202(d) which encourages the Purchasing Manager to join with the State of California and other units of government in cooperative purchasing plans when the best cost savings interest of the City would be served; Elavon meets the requirement under this MMC due to their recent, mutually agreed upon, continued term for up to 24 months beyond the MSA expiration date of May 31, 2019 with the State of California, Department of General Services (DGS) Master Services Agreement (MSA).

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the First Amendment increasing the agreement amount with Elavon Inc., Atlanta, GA for merchant services by \$340,792 from \$1,984,255 to a new total amount of \$2,325,047; and extending the term of the agreement from May 31, 2019 to May 31, 2021.

BE IT FURTHER RESOLVED, the City Manager, or his designee, is authorized to execute the amendment.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 23rd day of April, 2019, by Councilmember Kenoyer, who moved for its adoption, which motion being duly seconded by Councilmember Madrigal, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION NO. 2019-185**

**RESOLUTION AMENDING THE POSITION ALLOCATION PLAN TO
ELIMINATE ONE SENIOR ADMINISTRATIVE OFFICE ASSISTANT
(CONFIDENTIAL) AND ONE FIRE CAPTAIN AND CREATING ONE
BATTALION CHIEF IN THE MODESTO FIRE DEPARTMENT**

WHEREAS, a Position Allocation for the City of Modesto was adopted by Modesto City Council on July 10, 2018, by resolution 2018-283, and

WHEREAS, classification studies are conducted to ensure that a classification system is equitable and consistent within an organization and that positions are correctly classified, and

WHEREAS, per Personnel Administrative Order 2.2-87-12, a classification study may be conducted in response to a reclassification request, to develop/revise a classification specification, or to assist in a reorganization, and

WHEREAS, classification studies were conducted by Human Resources to determine appropriate classification, and

WHEREAS, position changes will be effective the pay period in which April 23, 2019 falls, (Pay Period beginning April 16, 2019).

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves amending the Position Allocation Plan for Fiscal Year 2018-19 for various departments as follows:

1. Eliminate one (1) Senior Administrative Office Assistant (Confidential) and one (1) Fire Captain and create one (1) Battalion Chief in the Modesto Fire Department.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 23rd day of April, 2019, by Councilmember Kenoyer, who moved for its adoption, which motion being duly seconded by Councilmember Madrigal, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION NO. 2019-186**

RESOLUTION APPROVING THE FIRST AMENDMENT INCREASING THE AGREEMENT AMOUNT WITH HVS CONVENTION, SPORTS, AND ENTERTAINMENT FACILITIES CONSULTING, FOR A HOTEL FEASIBILITY STUDY BY \$10,000 FROM 49,300 TO A NEW AMOUNT OF \$59,300; AND AUTHORIZING THE CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE THE AGREEMENT

WHEREAS, on October 24, 2018, the City entered into an agreement (Agreement) with HVS Convention, Sports, and Entertainment Facilities Consulting (Consultant), for a Hotel Feasibility Study, and

WHEREAS, the City and Consultant desire to amend the Agreement to include additional funding for additional services and expenses related to the hotel market study, and

WHEREAS, the Amended Agreement would increase the total compensation to Consultant by \$10,000 from \$49,300 to \$59,300, and

WHEREAS, funding for the increase is budgeted in the Fiscal Year 2018-2019 Operating Budget for the Modesto Centre Plaza (Community Center Operations Fund).

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the First Amendment to the Agreement with HVS Convention, Sports, and Entertainment Facilities Consulting, for a Hotel Feasibility Study, by \$10,000 from \$49,300 to a new total amount of \$59,300.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to execute the First Amendment to the Agreement, in a form approved by the City Attorney.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 23rd day of April, 2019, by Councilmember Kenoyer, who moved for its adoption, which motion being duly seconded by Councilmember Madrigal, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2019-187**

**RESOLUTION ADOPTING A LIST OF PROJECTS TO BE FUNDED WITH
ROAD REPAIR AND ACCOUNTABILITY ACT TAX PROCEEDS IN FISCAL
YEAR 2019-20**

WHEREAS, Senate Bill 1 (SB 1), the Road Repair and Accountability Act of 2017 (Chapter 5, Statutes of 2017) was passed by the Legislation and Signed into law by the Governor in April 2017 to address the significant multi-modal transportation funding shortfalls statewide, and

WHEREAS, SB 1 includes accountability and transparency provisions that will ensure the residents of our City are aware of the projects proposed for funding in our community and which projects have been completed each fiscal year, and

WHEREAS, the City must adopt by resolution a list of projects proposed to receive fiscal year funding from the Road Maintenance and Rehabilitation Account (RMRA), created by SB 1, which must include description and the location of each proposed project, a proposed schedule for projects completion, and the estimated useful life of the improvement, and

WHEREAS, the City will receive an estimated \$3,571,000 in RMRA funding in Fiscal Year 2019-20 from SB 1, and

WHEREAS, this is the third year in which the City is receiving SB 1 funding and will enable the City to continue essential road maintenance and rehabilitation projects, safety improvements, and increasing access and mobility options for traveling public that would not have otherwise been possible without SB 1 funding, and

WHEREAS, the City has conducted a robust public process to ensure public input, Community outreach meetings and calls received from citizens regarding

conditions of streets in their neighborhoods were considered in evaluating and developing a list for improvements, and

WHEREAS, the City used a Pavement Management System to develop the SB 1 project list to ensure revenues are being used on the high priority and cost effective projects that also meet the community's priorities for the transportation investment, and

WHEREAS, the funding from SB 1 will help the City maintain and rehabilitate streets that have been targeted for improvements and add active transportation infrastructure throughout the City this year and similar projects into the future. Targeted areas will include 269 low volume residential streets, which include following areas; Pine Tree, Creekwood, Lincoln Oak, Mable, Norwegian, Rumble and Veneman Areas for FY 2019-20. The city's Slurry Seal Program will preserve and increase street life by five to seven years ensuring smoother and safer pavement conditions for vehicle travel, and

WHEREAS, the 2018 California Statewide Local Streets and Roads Needs Assessment found that the City's streets are in fair/good condition and this revenue will help us increase the overall quality of our street and road system and over the next decade will bring our streets into an excellent/good condition, and

WHEREAS, the SB 1 project list and overall investment in our local streets and road infrastructure with a focus on basic maintenance and safety, investing in complete streets infrastructure and using cutting-edge technology, materials and practices, will have significant positive co-benefits statewide.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto, that it hereby adopts the list of projects (**Attachment A**) for Fiscal Year 2019-20 and funding by SB1: Road Repair and Accountability Act of 2017.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 23rd day of April, 2019, by Councilmember Kenoyer, who moved for its adoption, which motion being duly seconded by Councilmember Madrigal, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION NO. 2019-188**

RESOLUTION APPROVING THE 2019 TITLE VI PROGRAM UPDATE, AND AUTHORIZING THE TRANSIT MANAGER TO FILE THE PLAN WITH THE FEDERAL TRANSIT ADMINISTRATION (FTA) AND TAKE ANY NECESSARY SUBSEQUENT ACTIONS REQUIRED TO RECEIVE FTA APPROVAL OF THE PLAN

WHEREAS, the City of Modesto operates fixed route and American Disabilities Act (ADA) Paratransit service for the Modesto urban area, and

WHEREAS, as a recipient of Federal Transit Administration (FTA) funds the City is required to ensure that transit programs do not discriminate on the basis of race, color, and national origin pursuant to the requirements of Title VI of the Civil Rights Act of 1964, as amended, and

WHEREAS, the FTA issued Circular FTA C 4702.1B, effective October 1, 2012, setting forth requirements and guidelines for Title VI compliance for its grantees, and

WHEREAS, the FTA requires the City of Modesto Transit to submit a Title VI program every three years as a condition of receiving ongoing federal funds, and

WHEREAS, FTA requires that the program must be approved by the Council of the City of Modesto prior to submission to FTA, and

WHEREAS, **attached** hereto as **Exhibit A** is the 2019 Title VI Program Update prepared by City staff in compliance with the regulations promulgated by the FTA to implement Title VI of the Civil Rights Act of 1964, as amended.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the City of Modesto Transit Services 2019 Title VI Program Update **attached** hereto as **Exhibit A**.

BE IT FURTHER RESOLVED that the City Council authorizes the Transit Manager to submit the Title VI Program Update to the FTA.

BE IT FURTHER RESOLVED that the City Council authorizes the Transit Manager to take any other steps necessary to give effect to this Resolution, including responding to any follow-up inquiries from the FTA.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 23rd day of April, 2019, by Councilmember Kenoyer, who moved for its adoption, which motion being duly seconded by Councilmember Madrigal, was upon roll call carried and the resolution adopted by the following vote:

CITY OF MODESTO TRANSIT

2019 Title VI Program Update

INTRODUCTION

This City of Modesto Transit Title VI Program Report provides the policies, procedures, and data analysis to comply with guidelines issued by the Federal Transit Administration of the United States Department of Transportation to implement Title VI of the 1964 Civil Rights Act. A federal statute, Title VI, provides that “no person shall, on the grounds of race, color, or national origin, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving federal financial assistance.” In addition, Presidential Executive Order 13166, implemented in 2000, requires recipients of federal funds to take reasonable steps to address the needs of individuals who have limited-English proficiency in order to ensure no discrimination occurs based upon national origin.

Since 1972, the Federal Transit Administration (FTA) has required applicants for and recipients of Federal assistance to provide assessments of compliance as part of the grant approval process. The FTA has the responsibility to ensure that federally services and benefits are distributed in a non-discriminatory manner consistent with Title VI including as related to Environmental Justice and access for individuals who have Limited English Proficiency. This update conforms to the FTA’s Title VI Circular 4702.1B, effective October 2012.

As a federal grant recipient, City of Modesto Transit is required to maintain an implementation plan for nondiscrimination transit programs and provide to FTA information on its compliance. City of Modesto Transit submits a Title VI Plan Update and compliance report to the FTA Region 9 office every three years to highlight Modesto Transit’s efforts to support and comply with all aspects of Title VI. This program update covers the period from March 31st, 2015 through March 31st, 2018.

City of Modesto Transit, as required under Circular 4702.1B, has included the following information in this program report:

1. Discussion and attachments pertaining to general Title VI requirements.
 - a. Title VI Notice to Public
 - b. Title VI Complaint Procedures
 - c. List of Investigations, Complaints, or Lawsuits
 - d. Public Participation Plan
 - e. Language Assistance Plan
 - f. Membership of Non-elected Committees
 - g. Sub-recipient Monitoring
 - h. Construction Projects

2. Discussion and attachments pertaining to Title VI requirements for transit operators.
 - a. Service Standards and Policies
 - b. Demographic and Service Profile
 - c. Demographic Ridership and Travel Patterns
 - d. Monitoring Program Results
 - e. Public Engagement for Policy Development
 - f. Title VI Equity Analyses

3. Governing Board Approval

MODESTO TRANSIT BACKGROUND

The City of Modesto's transit service was initially known as the Modesto Motor Bus Service and was operated by a private owner. Ridership on the service peaked during World War II when automobiles and gasoline were in short supply. Ridership and the service's profitability began a steady decline after the war due primarily to the popularity of the automobile.

The City first became involved with public transit in an attempt to maintain the profitability of the private transit company. By 1968 the buses used by the company were old and undependable and due to their advanced age required a high level of expensive maintenance. The City obtained a federal grant to purchase four new 1968 buses which it turned over to the private company to replace its aging fleet. The new buses reduced operating expenses and attracted new riders and thus enabled the company to continue in business.

By 1973 the company owner, who did everything himself from maintaining buses to dispatching and driving, decided that the business could no longer continue profitably. No buyers were interested in acquiring the business and it was about to shut down.

The City determined that it was important for the community to have public transit service continue and decided to operate it as a public service, ultimately changing the name to Intracity Transit. At the time the City acquired the service it was carrying a few hundred thousand riders per year. The service now carries the name Modesto Area Express (MAX), which was adopted by the City in 1990. The City of Modesto operates both Modesto Area Express (MAX) and Modesto Dial-A-Ride (MADAR), which currently serve the City of Modesto, and portions of other areas outside the city limits.

MAX provides 17 urban bus routes on Mondays through Fridays, beginning as early as 5:45 a.m. and ending generally at 8:00 p.m. One route (Route 21) operates on 15-minute headway. Twelve routes operate on 30-minute headways, while all others operate on one-hour headways. Between Routes 22 and 23, 15-minute service is provided along McHenry Ave. On Saturdays, MAX operates 15 routes, ten of which operate on 30-minute headways, while the others operate on one-hour headways. Twelve MAX routes are provided on Sundays, with all routes operating on one-hour headways. In addition to the urban routes, MAX provides weekday morning and evening commuter routes to and from the Dublin/Pleasanton Bay Area Rapid Transit (BART) Station and Manteca/Lathrop Altamont Commuter Express (ACE) train station.

The Modesto Dial-A-Ride system operates as a senior/disabled, paratransit service to satisfy the Americans with Disabilities Act (ADA) for the City of Modesto transit system. MADAR functions as the ADA complementary paratransit service from 4:45 a.m. to 11:00 p.m., Monday through Friday, and 7:15 a.m. to 9:00 p.m. on Saturdays, and 8:45 a.m. to 8:15 p.m. on Sunday. As shown in the table above, the majority of MAX routes connect to the downtown Modesto Transportation Center. This Center provides a connection point to other regional and interregional transit services such as StaRT, Greyhound, Taxi, and the Modesto Area Express

Commuter buses to BART and ACE. The Transit Center is also designed to accommodate a future passenger ACE rail stop in Modesto.

Apart from the transit connections offered at the Modesto Transportation Center, transfers to other regional transit services are offered at other locations within the MAX system's routes. MAX Route 25 and MADAR provide transit service to the Amtrak station on Held Drive. Transfers to StaRT and eTrans (City of Escalon) bus service are available from MAX drivers after paying a fare or providing a valid pass. At Hatch Road and Herndon Road in Ceres, transfers between MAX and Ceres Area Transit are provided. In addition, a twice a week connection is provided with MAX at the Vintage Faire Mall with the Ripon Blossom Express.

TITLE VI

Program Objectives

Modesto Transit's Title VI Program goals are:

- Ensuring that the level and quality of public transportation service is provided in a nondiscriminatory manner;
- Promoting full and fair participation in public transportation decision-making without regard to race, color, or national origin;
- Ensuring meaningful access to transit-related programs and activities by persons with limited English proficiency

PUBLIC NOTIFICATION PROCESS

Modesto Transit does not discriminate against any person with respect to any federally-assisted transit program or service. Modesto Transit provides information regarding its Title VI obligations to the public using a variety of methods. Information, including references to FTA circulars, the Transit Title VI program, and the Title VI complaint procedure, is available on the Modesto Transit website and at the Modesto Transit office. It is also provided to staff, citizens, consultants, and contracted transit providers. The required Notice of Non-Discrimination Policy (**Appendix A**) is posted at the MAX office, at the Transit office, on the website, in the MAX Ride Guide, and in the Modesto Area Dial-A-Ride Consumer Guide. It is also included in all contracts, Memorandums of Understanding, public meetings, and bid advertisements.

COMPLAINTS

Modesto Transit has a complaint process in place. The Title VI Complaint Procedures and Complaints are filed through GoModesto!, an intuitive, multi-lingual, on-the-go reporting tool allowing residents of Modesto to report issues and receive progress notifications through the conclusion of the investigative process. Individuals can access GoModesto! at the city's and MAX website. that allows available in English and in Spanish and can be accessed on the website, MAX office, and at the Modesto Transit office. Copies of these documents are located in **Appendix B**.

Title VI complaints are made to the administrative offices of Modesto Transit. All individuals making a Title VI complaint shall be notified in writing of the protections and due process procedures available to them as provided by Title VI. All Title VI complaints are recorded in a special Title VI file. Following the filing of a complaint, Modesto Transit will conduct an investigation and ensure that all necessary follow-up actions are conducted. As required by the FTA, the Title VI complaint file includes the date of the complaint, the date(s) of the

investigation, summary of the allegation, current status of the investigation, and actions, legal or administrative, taken as a result of the complaint.

Due to the absence of any Title VI complaints, local state or federal agency investigations, or lawsuits during the preceding reporting period, no list is included in this document.

PUBLIC PARTICIPATION

Modesto Transit relies upon StanCOG's Public Participation Plan (**Appendix C**) for ensuring compliance with FTA requirements for a locally developed public participation process to consider public comment before raising a fare or carrying out a major change in transportation service.

Modesto Transit recognizes the importance of participating in a wide variety of public meetings and workshops to share information about transit programs, activities, and services in order to collect information from users of Modesto Transit services. A summary of Outreach Activities performed in this reporting is attached as **Appendix D**.

It is through these conversations that transit staff receives input regarding transit issues and concerns from disadvantaged citizens, including senior citizens, minorities, low-income, and persons with physical or cognitive disabilities. All Modesto Transit-sponsored meetings or activities are conducted in ADA accessible locations and have ready access to public transit services (fixed-route and paratransit).

Information on public outreach meetings is widely disseminated on the website, at the Transit Center, on the buses, through social service agencies to maximize awareness that all transit users and interested citizens are welcomed as part of the decision making process.

Regular meetings are held with local agency representatives and riders as well, to ensure that information on the paratransit system is widely disseminated, and that rider concerns and questions are addressed. A rider and agency representatives committee, which meets regularly, is provided information on the fare structure and is used as a consultative body when making fare decisions. Paratransit riders are offered periodic opportunities to evaluate and comment on the City's paratransit system through customer surveys and comment forms.

In accordance with the Public Participation Plan, Modesto Transit had a substantial outreach program before and after service changes were implemented in January 2018 impacting both fixed route and ADA paratransit service.

To ensure the consideration of many points of view in considering the impacts of the route changes, Modesto Transit staff brought the issue to regional agency meetings, Staff also conducted discussion with local social service agencies to attempt to mitigate the impact on

clients and prepare for changes. Transit also held an Open House for the public to answer questions and provide information about why the change was needed.

Since this was the first fare increase since 2008, Transit staff anticipated more questions from riders. To assist in providing information and to provide another avenue to gather rider comments on the proposed change, Transit staff held several table days at the Transit Center at which staff members were available to take written comments, record verbal comments (if needed), and answer questions. Flyers at the Transportation Center, in the buses, and at City hall provided information on the proposed changes and also notified the public that comments could be made by mail or on the website. Flyers also included a phone line for more information.

All of these activities occurred before the fare increase was brought to City Council for a formal Public Hearing.

LANGUAGE ASSISTANCE PLAN

Consistent with Title VI, DOT's implementing regulations, and Executive Order 13166, Modesto Transit takes reasonable steps to ensure meaningful access to benefits, services, information, and other important transit activities for individuals who are limited-English proficient (LEP).

To provide meaningful access to Modesto Transit programs and services for persons who have limited English proficiency, a LEP plan was developed (**Appendix E**). This plan is a training tool and guide for transit staff members on how to recognize a person who may need language assistance and how to provide that assistance.

Local demographic data reveal a need to provide language assistance within the Spanish-speaking community. It is the goal of Modesto Transit's LEP program and plan to provide bilingual English/Spanish editions of all public transit information materials. During this reporting period, the remaining critical information documents for MAX and MADAR, except for the limited text portions on the MAX system map, have been translated into Spanish. In addition, any service change notices are posted on the website, at key transit sites, and are prominently displayed in all buses in both English and Spanish.

Both MAX and MADAR operations have customer services staff members who are bilingual and are trained to assist persons with limited English language proficiency. In recognition of the level of support needed, MADAR and MAX operations staff have bilingual supervisors and customer service representatives to assist Spanish speaking riders. Modesto Transit has also worked with other City divisions to procure LanguageLine phone support which can provide real time translation support for over 200 languages.

Modesto Transit also continues to conduct outreach to LEP populations in the neighborhoods in which they live. Through the MAX Pass Outlet Program, Modesto Transit contracts with a variety of community-based organizations and small businesses to provide similar access to bus

passes throughout the MAX service area. This program provides an additional opportunity to obtain written and verbal information about MAX services, as well as opportunities to purchase MAX passes in the language most common to the neighborhood.

COMMITTEE MEMBERSHIP

Title 49 CFR Section 21.5(b)(1)(vii) states that the recipient of a federal transit grant may not, on the grounds of race, color, or national origin, deny a person the opportunity to participate as a member of a planning, advisory, or similar body which is an integral part of a program.

Modesto Transit's only advisory body is the Modesto Transit ADA Advisory Committee. All meetings are announced to local agencies, community groups, advocacy organizations, and MADAR riders and are open to the public.

No table of committee member racial breakdown is included in this report since Modesto Transit has no committees for which it appoints members.

SUBRECIPIENTS

Modesto Transit had two subrecipients during this reporting period, the County of Stanislaus and the City of Ripon. The City of Modesto and the City of Ripon entered into a Memorandum of Understanding (MOU) regarding FTA Section 5307 funded activities for the Modesto Urbanized Area (**Appendix F**) which terminated in 2017 when the grant period concluded and Ripon was incorporated into the San Joaquin Council of Governments region, out of the Stanislaus County COG. With this reassignment, Stanislaus County remains as a subrecipient of 5307 funds.

During this review period, the Ripon Blossom Express began providing a deviated route service with two morning runs and two afternoon runs on Tuesdays and on Thursdays. The service is focused on connecting Ripon citizens with medical centers and shopping in North Modesto. Since Ripon provides a very small, limited service, Modesto Transit's monitoring has been generally informal through email and phone support as Ripon staffs have worked through the initial implementation of their service. Modesto Transit staff also ensures submission of annual certifications and assurances.

Modesto Transit does an annual compliance review of Stanislaus Regional Transit's. The documentation required from as part of this review is in

CONSTRUCTED FACILITIES

During the preceding reporting period Modesto Transit has not constructed any facilities.

STANDARDS AND POLICIES

In addition to the above general reporting requirements, FTA Circular 4702.1B requires providers of fixed route public transportation to submit additional information specific to fixed route service. Since Modesto Transit does NOT operate fifty or more fixed route vehicles in peak service, it is subject only to the requirements for system-wide standards and policies.

Title 40 CFR Section 21.5(b)(2) specifies that a recipient shall not utilize criteria or methods of administration which have the effect of subjecting persons to discrimination because of their race, color, or national origin. In addition, Appendix C to 49 CFR Part 21 establishes that no person or group of persons shall be discriminated against with regard to routing, scheduling, or quality of service on the basis of race, color, or national origin. Frequency of service, age and quality of vehicles assigned to routes, quality of stations serving different routes, and locations of routes may not be determined on the basis of race, color, or national origin.

Modesto Transit has adopted the following service standards and policies in compliance with these regulations:

Vehicle Load Standard

Peak

The average of all loads during the peak operating period should not exceed each bus's achievable capacity. Peak loads are:

<u>Bus Type</u>	<u>Passenger Capacity</u>
Low Floor 35'	67
Low Floor 40'	80
Standard 35'	50
Standard 40'	63

Off Peak

The average loads during off peak hours should not exceed the number of seats in the bus. Seating capacities are:

<u>Bus Type</u>	<u>Seats</u>
Low Floor 35'	30
Low Floor 40'	36
Standard 35'	33
Standard 40'	41

Vehicle Headway Standard

The standard headway for weekday service is 30 minutes during the entire service day. Routes that average fewer than 25 passengers per vehicle service hour will be operated with hourly headways unless special conditions warrant more frequent service.

Scheduling involves the consideration of a number of factors including: ridership productivity, transit/pedestrian friendly streets, density of transit-dependent population and activities, relationship to the City's general plan and the StanCOG regional transportation plan, relationship to major transportation developments, land use connectivity, and transportation demand management.

On-Time Performance Standard

Eighty-five (85) percent of vehicles will complete their established runs no more than eight (8) minutes late and without departing any mid-route bus stops more than three (3) minutes early.

Service Availability Standard

Transit routes will be distributed so that 90% of all residents live within ¼ mile of a bus route.

Vehicle Assignment Policy

Buses will be assigned to routes so that each group of buses of the same age will be evenly distributed across the service area. Low Floor buses will be deployed on high ridership routes to facilitate expeditious boarding and alighting.

Transit Amenities Policy

Installation of Transit amenities along bus routes are based on:

1. The number of passengers boarding at bus stops along each route.
2. The availability of sidewalk space or property behind the sidewalks that could accommodate amenities.
3. The physical capabilities of passengers anticipated to use the amenities, e.g. stops used frequently by disproportionately large numbers of seniors or passengers with disabilities are more likely to receive amenities.
4. The distribution of boardings during the hours service is provided. Stops that board large numbers of passengers once or twice each day and few during the remainder of the day will be less likely to receive amenities than stops with fewer boardings distributed more evenly throughout the day.

Appendices

MAX's Non-Discrimination Statement

Modesto Area Express (**MAX**) is committed to a policy of non-discrimination in program services pursuant to the requirements of Title VI of the Civil Rights Act of 1964. Any person who believes that he or she has been subjected to discrimination under Title VI on the basis of race, color or national origin may file a complaint with **MAX**.

To receive additional information on **MAX's** non-discrimination obligations, or to file a complaint, please call the **MAX** administrative office at 209.577.5295 or write to:

City of Modesto Transit Division
P.O. Box 642,
Modesto, CA 95353.

Modesto Area Express (MAX) se compromete a una norma de no discriminación en sus programas de servicio de acuerdo a los requisitos del Artículo VI del Acto Derechos Civiles de 1964. Cualquier persona que crea que ha sido discriminada bajo el Artículo VI basado en raza, color, u origen nacional puede asentar una demanda con MAX.

Para recibir más información acerca de las obligaciones de no discriminación de MAX o para archivar una demanda, favor de llamar al 209.577.5295 o escriba a:

City of Modesto Transit
P.O. Box 642
Modesto CA 95353

Complaint Procedures

City of Modesto Transit Civil Rights Complaint Procedure

The City of Modesto operates its transit services without regard to race, color, and national origin in accordance with Title VI of the Civil Rights Act. Any person who believes he or she has been aggrieved by an unlawful discriminatory practice under Title VI may file a complaint with the City of Modesto Transit Section. Any such complaint must be in writing and filed with the Modesto Transit within 180 days following the date of the alleged discriminatory occurrence.

City of Modesto Transit Title VI Complaints forms are available at the office of the City of Modesto Transit Section located at 1010 10th St. Modesto, CA 95354 and online at www.modestoareaexpress.com. Completed forms should be mailed to:

City of Modesto Transit
P.O. Box 642
Modesto, CA 95353

Verbal complaints will be accepted and transcribed by the Title VI Coordinator for any complainant unable to complete the form. Verbal complaints may be filed in person at 1010 10th St or by phone 209-577-5201. Complainants may also file a Title VI complaint online via the City's GoModesto! cloud-based, online reporting system. Both the ModestoAreaExpress and City of Modesto websites have links directing individuals to the GoModesto! portal.

A complainant may file a complaint directly with the United States Department of Transportation and/or the California Department of Transportation. If a complaint is filed with the City of Modesto Transit and an external entity simultaneously, the external complaint may supersede the complaint to the City of Modesto Transit and the internal complaint procedures will be suspended pending the external entity's findings.

Within 15 business days of receipt of a formal complaint, the Title VI Program Coordinator will send the complainant an acknowledgement letter and begin an investigation (unless the complaint is filed with an external entity first or simultaneously). The investigation will address complaints filed against transit service offered by the City of Modesto and will include discussion(s) of the complaint with all affected parties. City of Modesto Transit will provide appropriate assistance to complainants who have difficulty with disabilities, or who are limited in their ability to communicate in English. Failure of the complainant to provide requested information within 15 business days of the date of the Modesto Transit's information request letter may result in the administrative closure of the complaint. The complainant may be represented by a representative of his or her choosing and may bring witnesses and present testimony and evidence in the course of the investigation.

The investigation will be conducted and completed within 60 days of the receipt of the formal complaint. City of Modesto Transit will send a letter to the address provided by the complainant stating the final decision of the Transit Manager by the end of the 60-day time

limit. The complainant shall be notified of his/her right to appeal the decision. Appeals may be made to the California and/or United States department of transportation.

For more information on how to file a complaint, contact the Title VI Coordinator by any of the following methods:

By Phone: (209) 577-5201

By Mail: City of Modesto Transit,
P.O. Box 642
Modesto, CA 95353

E-mail: transit@modestogov.com

Título VI Procedimientos Para Quejas

La Sección de Tránsito de la Ciudad de Modesto opera sus programas sin distinción de raza, color, religión, género, orientación sexual, origen nacional, estado civil, edad o discapacidad de conformidad con el título VI de la ley de derechos civiles, o de otras leyes aplicables. Modesto Declaración de política de tránsito

Título VI de la ley de derechos civiles de 1964 declara que:

Ninguna persona en los Estados Unidos, por motivos de raza, color u origen nacional, se excluirá de la participación en, ser negado los beneficios de o ser objeto de discriminación bajo ningún programa o actividad que reciba asistencia financiera Federal.

Modesto Tránsito se compromete a cumplir con los requisitos del Título VI en todas sus actividades y programas financiados por el Gobierno Federal.

Haciendo una Queja bajo la ley de Título VI

Cualquier persona que cree que él o ella ha sido perjudicada por una práctica discriminatoria ilegal bajo el título VI puede presentar una queja con la ciudad. Cualquier queja debe ser por escrito y presentada con la ciudad dentro de los 180 días siguientes a la fecha de la supuesta ocurrencia discriminatoria. Para obtener información sobre cómo presentar una queja, comuníquese con la Sección de Tránsito de la Ciudad de Modesto por cualquiera de los siguientes métodos:

Correo: City of Modesto Transit Section
P.O. Box 642
Modesto, CA 95353

Teléfono: (209) 577-5201
FAX: (209) 571-5521
Correo electrónico: transit@modestogov.com

Title VI Complaint Form

The City of Modesto is committed to ensuring that no person is excluded from participation in or denied the benefits of its services on the basis of race, color, national origin pursuant to Title VI of the Civil Rights Act of 1964, as amended. Title VI complaints must be filed within 180 days from the date of the alleged discrimination. It is best to file a complaint as close to the date of the event as possible.

The following information is necessary to assist us in processing your complaint. If you require assistance in completing this form, please contact Angela Swanson, Title VI Coordinator, by calling (209) 577-5201. The completed form must be returned to: **City of Modesto, Title VI Coordinator, P. O. Box 642, Modesto, CA 95353** or filed at the City of Modesto, 1010 10th Street, Suite 4500, Modesto CA.

Community Outreach Activities 2016-19	

Executive Summary

In order to carry out its mission of connecting communities with safe, reliable, and sustainable service to its fullest potential, the City of Modesto Transit Department is committed to engaging all members of the community – informing riders, residents, community partners, agencies and businesses about changes in service or fares, and providing opportunities to participate in meaningful decision-making about plans and projects that may affect their lives or livelihoods.

Public engagement efforts for the City of Modesto Transit Staff recognize the diversity within the greater Modesto service area and among riders. This Public Participation Plan (PPP) was created to identify effective methods of engaging with communities regardless of race, color, national origin, ability to speak English, or income status, as protected by Title VI of the Civil Rights Act and associated regulations. As clarified in the Federal Transit Administration (FTA) circular 4702.1B, Title VI of the Civil Rights Act of 1964 prohibits discrimination on the basis of race, color, or national origin in programs and activities receiving federal financial assistance. Further, Executive Order 12898 and FTA circular 4703.1 provide that environmental justice for low income populations should be part of the mission of federally funded programs. Under these mandates, transit operators must take reasonable steps to ensure all persons have access to participate in their activities and programs. Additionally, under Executive Order 13166, public engagement activities must be made accessible to persons who have limited English proficiency.

The plan formalizes the City of Modesto Transit's public engagement policies designed to encourage partnerships with Modesto's diverse communities, ensuring that their concerns are heard and their contributions are included along with those of the greater population. The plan provides the roadmap staff will use to advance that goal, along with identification of key contacts 2016-2019, and the recent history of public engagement activities carried out by Transit Staff.

Introduction

As part of its Title VI Program, City of Modesto Transit is committed to sponsoring vigorous public participation processes by enhancing its strategies for engaging minority and Limited English Proficient (LEP) individuals in the decision-making. Public participation and community involvement are vital to the growth and development of the transit services which serve the City of Modesto.

In order to carry out its mission of connecting communities with safe, reliable and sustainable service to its fullest potential the Transit Staff is committed to engaging all members of the community – informing riders, residents and businesses about changes in services or fares, and providing opportunities to participate in meaningful decision-making about projects and plans, including facilities, routes, service hours and fares, that may affect their live or livelihoods. This plan provides detailed guidelines for community outreach and communication during various transit planning stages to ensure the public is appropriately and adequately represented.

Transit is committed to ensuring it serves the Modesto community fairly, consistently and in the most cost-efficient and appropriate manner within available resources. Through conversation and collaboration with riders, prospective riders, and the larger surrounding community, Transit will be able to assess the quality of its service, measure potential impacts to the community from Transit initiatives or proposed initiatives, and ensure that it is providing valuable services to the residents and visitors of greater Modesto.

The plan formalizes the City of Modesto Transit's public engagement policies designed to encourage partnerships with Modesto's diverse communities, ensuring that their concerns are heard and their contributions are included along with those of the greater population. The plan provides the roadmap staff will use to advance that goal, along with identification of key contacts 2016-2019, and the recent history of public engagement activities carried out by Transit Staff. The PPP is designed to be a living document that will be updated regularly to incorporate new data and best practices as identified through activities and experiences from the field.

The PPP is guided by the following principles:

- That Transit decisions consider the Interests and concerns of affected people and entities;
- That the full range of opportunities for participation is made known and communicated broadly through the City of Modesto; and
- That community input received through public engagement processes is considered and incorporated to the extent possible.

These principles form the basis of the City of Modesto Transit's public engagement policies and procedures.

Modesto Transit

The City of Modesto operates both Modesto Area Express (MAX) and Modesto Dial-A-Ride (MADAR), which currently serve the City of Modesto, and portions of other areas outside the city limits.

MAX provides 17 urban bus routes on Mondays through Fridays, beginning as early as 5:45 a.m. and ending generally at 8:00 p.m. One route (Route 21) operates on 15-minute headway. Twelve routes operate on 30-minute headways, while all others operate on one-hour headways. Between Routes 22 and 23, 15-minute service is provided along McHenry Ave. On Saturdays, MAX operates 15 routes, ten of which operate on 30-minute headways, while the others operate on one-hour headways. Twelve MAX routes are provided on Sundays, with all routes operating on one-hour headways. In addition to the urban routes, MAX provides weekday morning and evening commuter routes to and from the Dublin/Pleasanton Bay Area Rapid Transit (BART) Station and Manteca/Lathrop Altamont Commuter Express (ACE) train station. The majority of MAX routes connect to the downtown Modesto Transportation Center. This Center provides a connection point to other regional and interregional transit services such as StaRT, Greyhound, Taxi, and the Modesto Area Express Commuter buses to BART and ACE. The Center is also designed to accommodate a future passenger ACE rail stop in Modesto.

The Modesto Dial-A-Ride system operates as a senior/disabled, paratransit service to satisfy the Americans with Disabilities Act (ADA) for the City of Modesto transit system. MADAR functions as the ADA complementary paratransit service from 4:45 a.m. to 11:00 p.m., Monday through Friday, and 7:15 a.m. to 9:00 p.m. on Saturdays, and 8:45 a.m. to 8:15 p.m. on Sunday.

The City of Modesto is committed to serving its populace in the most efficient and cost effective manner possible. The City strives to provide valuable transit services to residents and visitors to the community, employing a planning philosophy which includes:

- Frequent and convenient service
- Safe and clean vehicles
- Safe and clean boarding and alighting environments
- Easily understandable time schedule
- Easy access to information
- Communication and collaboration with riders, prospective riders, and the community at large to provide improved mobility and quality of life to residents

Approach to Public Participation

The public participation process should be considered at the earliest stages of any City of Modesto Transit project that may impact the surrounding community, its riders, and potential riders. As projects vary in time and size, the public participation process may vary for each, as well as the extent of public participation. The following outlines tools and strategies to ensure that public input is invited and all foreseeable impacts to the community are considered.

Public participation and comments are vital pieces to any prospective change in the transit system. The City values the input of community members as potential changes are discussed. City of Modesto Transit has developed three levels of projects to establish the appropriate minimum public participation requirements. At the beginning of any project, staff will identify into which category that project falls and develop a participation plan accordingly. At any time during its process, the project may be reclassified to a higher level, if Transit staff deems appropriate. The levels are as follows:

Level One

Routine service, route and any short-term projects whose impact on current MAX and MADAR riders and potential riders needs to be identified during planning stages. Examples of projects include:

- Minor route and service changes
- Routine rider surveys
- Changes to fare media

All fare increases (excluding short-term fare changes for specific events or promotions) shall follow outreach methods previously discussed.

Level Two

Service changes will follow outreach methods when there is any change in service which directly affects:

- 25 percent or more reduction of the number of transit revenue vehicle miles of a route computed on a daily basis for the day of the week for which the change is made.

Major fare or service changes that meet the following thresholds:

- 25 percent or more reduction of the number of transit revenue vehicle miles of a route computed on a daily basis for the day of the week for which the change is made.
- Elimination of any route

Subrecipient oversight for FTA 5307 grants

Level Three

Longer term or larger scale projects are those whose impact on current MAX and MADAR riders and potential riders needs to be identified during planning stages. These may include:

- Major service changes
- Short and Long Range Transportation Plans,
- Comprehensive Operational Analysis,
- Coordination plans
- Facility or yard construction projects

Public Participation Tools

City of Modesto Transit employs a wide array of marketing and communications tools and strategies that to inform and engage the public in the planning and development phases of service and fare changes, studies, and activities. These tools have been developed over time with the goal of reaching diverse audiences across a variety of mediums when and where they are most receptive to the information. Key information is developed in Spanish and English.

Traditional Media

Traditional media is one means to reach a large audience through newspaper, radio and television. There are two ways to tap into these resources: paid advertising and unpaid editorial coverage. Paid advertising provides a guaranteed line of communication to an identified audience with maximum message control.

- Press releases
- Media Advisory
- Print display ads, classified ads, legal notices
- Radio spots, sponsorships, live remotes, and advertorials
- Television spots on local public access channels

Digital Communications

The Internet has had a significant impact on how City of Modesto Transit communicates directly with its riders and community. The ability to disseminate a specific, controlled message through a website or email message has revolutionized how stakeholders are informed and engaged. It is also a constantly changing and evolving world, providing new tactics regularly.

- *ModestoAreaExpress.com* provides detailed information about current service, upcoming service changes, long- and short-term planning projects, city council agendas and staff reports, and other initiatives.

- *Social media*: information can be shared with riders in real time using digital channels such as Twitter, Facebook, and LinkedIn. Social media provide another avenue for customer service as well a way to drive people to the website for detailed information.

Printed Materials

Printed pieces, or collateral, are created to support almost every marketing or communication effort the District undertakes. Information is presented in three languages with directions on how to access additional language support.

- Brochures
- Signage (includes signs at bus stops, posters at shelters, ad cards that run along the interior of the bus.)
- Maps, schedules, and timetables
- Direct mail and door hangers

Public Meetings

In-person workshops and meetings serve a variety of roles, from fulfilling legal obligations in the case of public hearings, to fostering in-depth discussion and opportunities for input in the case of public workshops. These meetings function best when serving as venues for open discussion of proposals, challenges, and issues facing a particular community or set of stakeholders.

- Public meetings at various times and locations across the city service area to solicit community input, and to share information about projects, studies, and proposed changes.
- Public hearings in communities where projects or plans are under consideration. This includes placing notices within a specific timeline in newspapers or publications that serve non-English speaking populations with a goal of maximizing visibility and community participation.
- In-house presentations or joining existing meetings to reach community members where they are already gathered.
- Provide meetings at locations accessible for persons with disabilities, and close to public transportation for people who work non-traditional times.
- Provide interpreters and use interpretation equipment for non-English speaking people when warranted.

Community Engagement

Many other public, private, and non-profit organizations conduct activities related to the services provided by City of Modesto Transit. When and where possible, Transit staff works with these

organizations to gather input, provide information, or raise awareness about MAX and MADAR services.

- Partnerships with community based organizations (CBOs), local governments, social service agencies, and faith-based organizations, including organizations that serve non-English speaking populations.
- Field and respond to inquiries from community, government, and business leaders.
- Participation in community events, including fairs, festivals, and parades.
- Inclusion of bilingual staff when possible and appropriate.
- Distribution of marketing materials (including translations) and meeting notices on buses and through CBOs, social service partners, and other public agencies.

Telephone Information

Many customers rely upon the telephone for trip planning, information about upcoming changes or projects, and to relay complaints and compliments.

- Use of dedicated customer service telephone numbers to provide information and an opportunity for public to comment on relevant issues.
- Over-the-phone interpretation services easily accessed by Customer Call Center and local District staff to provide immediate support in the customer's own language.

Surveys

Surveys play a crucial role to collect data about riders, the service, and impacts of specific projects. They also can measure changes over time.

- Printed and online surveys of rider demographics and travel characteristics to comply with Title VI and Environmental Justice requirements, and to understand customer transit behavior.
- Surveys and focus groups to understand the needs of customers and the opinions of the community at large, including customer satisfaction.
- Surveys in various languages and in additional languages upon request.

Conclusion

The City of Modesto Transit Department is committed to engaging the public engagement in public transportation issues, making use of multiple outreach techniques and creative targeted engagement activities. Through its work with community partners, the City will continually improve the identification and implementation of strategies that remove barriers to access and participation for all community members.

Appendix A

Community Outreach Partners

As part of the community participation process, Transit Staff work with many community organizations, social service agencies, local governments, and business. A list of many of the organizations that have supported and/or participated in outreach processes over the past three years follows.

Modesto Transit ADA Advisory Committee	MOVE
Alzheimer's Association	Modesto City Schools—Special Education
Advancing Vibrant Communities	Modesto Senior Citizens Center
Aging & Veterans Services	Social Services Transit Advisory Committee
Alegre Home Care	National Express Transit
Alzheimer/Dementia Support Center, Inc.	Optimal Hospice Care
American Cancer Society	Pacifica Senior Living
Area Agency on Aging	PANC
County of Stanislaus, BHRS	Parkinsons Support Group
California Department of Rehabilitation	Paramount Court Senior Living
California Health Collaborative	Program Coordinating Committee
California Rural Legal Assistance	Project Sentinel
Casa de Modesto	Ralston Tower Apartments
Catholic Charities	Rehabilitation Center Emanuel Medical Center
Center for Human Services	ResCare Home Care
CalFRESH	Robertson Community Center
CVOC	RSVP Retired Senior Volunteers
Ceres Area Transit	Salvation Army
Dale Commons	Samaritan Village
Disability Resource Agency for Independent Living	Satellite Dialysis Center
Doctors Medical Center-	Senior Access Teams
Downtown Improvement District	Senior Service Center
EA Family Services	Society for Disabilities
English Oaks Nursing & Rehab Center Generations Health Care	Stanislaus Council of Governments (StanCOG)
Escalon Transit	Stanislaus County Dept of Veteran's Affairs
First Five of California	Stanislaus County Mental Health Department
Golden Valley Health Center	Stanislaus County Probation
Gospel Mission	Stanislaus Regional Transit (StaRT)
Health Plan of San Joaquin	Stanislaus County Library
Health Services Agency	Stanislaus Elder Abuse Prevention Alliance (SEAPA)
Healthy Aging Association	Stanislaus Special Olympics
Howard Training Center	Storer Transit Systems
Health Services Agency, Stanislaus County	The Park at Modesto
Interfaith Ministries	Turlock Transit
Modesto Chamber of Commerce	United Cerebral Palsy

Modesto City Schools—Special Education	United Way
Modesto Institute for Continued Learning (MIDL)	Valley Mountain Regional Center
Modesto Junior College	Vision Impaired Person Support
Modesto Kidney Center	Windsor Post-Acute Healthcare Center of Modesto

Appendix B

Community Outreach Activities 2016-2019

This is a table that describes all the campaigns and activities that had a public engagement component between 2016 and 2019: what the events were, the population targeted, how many people participated, and outcomes.

2016				
Date	Group	Location	# Contacts	Details
06/21/16	General Public/Riders	Graceada Park	120	Dump the Pump Event

Community Outreach Efforts

Summary of Outreach Efforts

Event	Date	Populations Represented	Items of Discussion	Outcome
StancoG Citizens Advisory Committee- monthly meetings open to the public	monthly	Local government representatives and area residents	Agendas include transit funding decisions, impact of local projects, and transit service changes.	Forum provides opportunity for additional community oversight of decisions, presentation of more planning detail, and opportunity to address coordination issues across projects.
StancoG Social Services Transportation Advisory Council- monthly meetings, open for public comment, which connect transportation planning staff, transit providers, and area social services.	monthly	Local government representatives, social service agency staff, advocacy group staff, and area residents	Agendas include public comment, transit impact on social programs, transit performance and policy changes, and discussion of funding opportunities.	Forum provides opportunity to discuss change impacts with local social services, coordinate changes with other transit providers, coordinate projects with other agencies, and address service issues.
Modesto Transit ADA Advisory Meeting - open meeting generally held twice per year. Meeting is promoted on board MAX and MADAR buses and letters sent to social service agencies, advocacy groups, and all individuals requesting notification. Notices are also posted in City Hall. Meetings have initial topics to address and are open to any area of concern brought up in the meeting.	11/7/2018	Attendees included representatives of social service agencies, disabled passengers, and low income passengers	Topics included Transit Administrative staff changes, MAX Secret Rider Program for additional compliance oversight, and Travel Training opportunities.	Forum provides for regular flow of information between transit staff, community service providers, and transit passengers concerned about ADA issues.
Table at the Transit Center- the TC sees approximately 10,00 visitors each day. Many of these individuals are unable or unwilling to make any additional trips to events apart from their normal, known destinations. Providing a day of transit planning staff at the TC to discuss planned or potential changes ensures these program consumers are aware of changes and their opportunities to be part of the process.	11/13/2018	All bus passengers with origins, destinations, or transfers at the downtown, T6 and E1 populations attending include Hispanics, African Americans, and low income individuals.	Primary topics are the proposed fare increase for summer of 2014, a proposed new express route to assist travelers on the heaviest route get downtown faster, and minor schedule changes on Routes 22,28, and 32.	Many passengers objected to the fare increase but were more supportive upon learning that it was necessary for the system to meet fare recovery standards required to maintain eligibility for state funding. Passengers also did not want to consider the service cuts that would have been the alternative to fare increases. All table visitors were encouraged to attend the Open House the following week and the Public Hearing in December.
Open House - Transit planning staff hosted a drop in open house at the City Administration building on the second floor next to where many customers come to pay their water bill.	11/19/2013	Attendees included representatives of social service agencies, disabled passengers, and low income passengers.	Primary topics are the proposed fare increase for summer of 2014, a proposed new express route to assist travelers on the heaviest route get downtown faster, and minor schedule changes on Routes 22,28, and 32.	No written comments were received. Many attendees objected to the fare increase but were more supportive upon learning that it was necessary for the system to meet fare recovery standards required to maintain eligibility for state funding. Passengers also did not want to consider the service cuts that would have been the alternative to fare increases.
Unmet Transit Needs- Modesto Public Hearing- hearing to receive potential unmet transit needs from the public.	12/12/2018 12/14/18	Attendees included representatives of social service agencies, local advocacy groups, disabled passengers, and low income passengers.	Concerns raised were: 1) there were various areas within the urbanized area with bus service but without sidewalks or shade at stops, and 2) A neighborhood near the edge of the service area complained that the nearest bus stop was 1/2 mile away and requested closer service.	By the Unmet Transit Needs Assessment process definition neither of these issues were determined to be an unmet need reasonable to meet. For the first issue, street and sidewalk infrastructure is beyond the ability of the transit operator to address. However, in the two years subsequent to this complaint Transit staff worked with local groups to prioritize bus pads and accessible paths in many of the unincorporated areas within the service boundaries to improve access and service conditions. For the second issue, the neighborhood was found to be within approximately 1/2 mile of two bus stops along route 42 and therefore not requiring any additional service.
Modesto Transit ADA Advisory Meeting - open meeting generally held twice per year. Meeting is promoted on board MAX and MADAR buses and letters sent to social service agencies, advocacy groups, and all individuals requesting notification. Notices are also posted in City Hall. Meetings have initial topics to address and are open to any area of concern brought up in the meeting.	1/24/2019	Attendees included representatives of social service agencies, disabled passengers, and low income passengers.	Topics included discussion of the MAX ADA assessment report, review of the MADAR No Show policy, and summer 2014 fare increases.	Forum provides for regular flow of information between transit staff, community service providers, and transit passengers concerned about ADA issues.

<p>Modesto TransR ADA Advisory Meeting - open meeting generally held twice per year. Meeting is promoted on board MAX and MADAR buses and letters sent to social service agencies, advocacy groups, and all individuals requesting notification. Notices are also posted in City Hall. Meetings have initial topics to address and are open to any area of concern brought up in the meeting.</p>	6/16/2015	Attendees included representatives of social service agencies, disabled passengers, and low income passengers.	Topics included wheelchair securement on new buses, recent changes to ADA discussion, review of MADAR pick up and drop off policies	Forum provides for regular flow of information between transit staff, community service providers, and transit passengers concerned about ADA issues.
<p>Unmet Transit Needs- Modesto Public Hearing- hearing to receive potential unmet transit needs from the public.</p>	10/21/2015	Attendees included representatives of social service agencies, local advocacy groups, disabled passengers, and low income passengers.	Public Hearing comments were: 1) MADAR is too expensive for senior on fixed incomes; and 2) more services are needed for seniors to make social trips. Comments in other venues of the assessment were: 1) too many passengers have to wait because the bike racks are full; 2) not enough transit service before 7 am when the VA shuttle leaves the TC; 3) it's too hard to use MADAR for grocery shopping because of the bag limit; 4) MADAR should provide same day service for emergencies; 5) Buses from Empire to Modesto do not accommodate students taking NJC classes; 6) MAX route 39 should run until 10 pm; 6) the Airport neighborhood should have buses more frequently than 30 minutes; 7) McHenry Ave buses are too full and should have more service; 8) Transit buses should have seatbelts; 9) the MAX stop on Tenaya is "on-call" only and should be on every run; 10) More benches and shelters should be put the Airport Neighborhood; 11) Bus stops should be moved away from locations where property owners don't like people waiting in front of their homes; 12) MADAR should let the general public ride when they need to; 13) MAX should run until 11 pm; 13) Bus drivers should assist passengers with loading bikes onto the bike racks; and 14) MADAR should provide more same day rides.	By the Unmet Transit Needs Assessment process definition neither of these issues were determined to be an unmet need reasonable to meet. The service comments that are within the scope and purpose of the transit programs, as well as within the regulatory framework of public transit, are noted for future adjustments if supported by ridership demand and available funding. Comment #7 helped to shape the new route 23 to begin service in July of 2016.
<p>Public Hearing - Formal public hearing at Council meeting to consider route and schedule changes</p>	12/8/2015	There were no public comments offered on the topic	Topic was proposed route changes for summer of 2016: the elimination of route 21 RX, an increase in service frequency on Route 21 to every 15 minutes, and a new Route 23 which would make it easier to travel up McHenry and reach Walmart. The combination of existing route 22 and the new route 23 would provide 15 minute service on the most heavily travelled segment of McHenry.	No comments were made by the public. Council approved the changes as the 21RX elimination would pay for the route 21 service increase and the new route 23 would be supported by a new state LCTOP grant.
<p>Modesto Transit ADA Advisory Meeting - open meeting generally held twice per year. Meeting is promoted on board MAX and MADAR buses and letters sent to social service agencies, advocacy groups, and all individuals requesting notification. Notices are also posted in City Hall. Meetings have initial topics to address and are open to any area of concern brought up in the meeting.</p>	2/9/2016	Attendees included representatives of social service agencies, disabled passengers, and low income passengers.	Topics included paratransit eligibility study, MADAR on time performance, and TC bay changes	Forum provides for regular flow of information between transit staff, community service providers, and transit passengers concerned about ADA issues.
<p>Earth Day in the Park- Approximately 15,000 people each year attend this large community event focused on personal practices that can help sustain healthy communities and a healthy planet. Transit staff host a booth promoting MAX buses over the use of personal cars and have a MAX bus onsite for people to tour and build a comfort level with the workings of a transit bus.</p>	4/26/2016	All local groups and ethnicities represented in this large community event. T6 and E1 populations attending include Hispanics, African Americans, and low income individuals.	Primary topics are basic transit use topics - how to plan a ride, how to locate stops, how to ride the bus. Those new to the idea of transit are encouraged to practicing boarding and disembarking the bus on site. This year staff also promoted the new route starting in the summer.	Staff handed out Ride Guides and trip planner brochures and guided members of the public in how to get questions answered, how to find a bus stop, and how to be part of future planning.
<p>Family Cycling Festival- Approximately 3,000 people attended this large community event. Because the event activities are free and children receive a free bicycle helmet fitted by local nurses this event is heavily attended by families with limited resources.</p>	5/21/2016	All local groups and ethnicities represented in this large community event. T6 and E1 populations attending include Hispanics, African Americans, and low income individuals.	Primary topics are basic transit use topics - how to plan a ride, how to locate stops, how to ride the bus. Those new to the idea of transit are encouraged to practicing boarding and disembarking the bus on site. This year staff also promoted the new route starting in the summer.	Staff handed out Ride Guides and trip planner brochures and guided members of the public in how to get questions answered, how to find a bus stop, and how to be part of future planning. Since this was a bike focused event, many individuals were also able to learn more about the bike racks on the MAX buses and how to use them.

Limited English Proficiency Plan

Introduction

This Limited English Proficiency (LEP) Plan was developed during the process of preparing the City of Modesto Title VI Program to ensure that MAX services are accessible to limited English proficient individuals. Language for LEP individuals can be a barrier to accessing important benefits or services, understanding and exercising important rights, complying with applicable responsibilities, or understanding other information provided by federally funded programs and activities. As a recipient of FTA funds, Modesto Transit is obligated to reduce language barriers that can preclude meaningful access by LEP persons to transit services.

Title VI of the 1964 Civil Right Act is one of two federal mandates that guarantee the provision of meaningful access to federally-funded services for LEP individuals:

- Title VI of the 1964 Civil Right Act prohibits federally-funded agencies from discriminating against individuals based on race, color, and national origin and includes meaningful access to LEP customers.
- President's Executive Order 13166, "Improving Access to Services for Persons with Limited English Proficiency" (August 11, 2000): Instructs federal agencies to improve access to services by mandating that any federally conducted or assisted programs of activities (e.g. recipients of federal funding) must provide meaningful access to LEP customers.

MAX's Title VI Program was prepared in the spring of 2013 in accordance with FTA Circular 4702.1B, Title VI Requirements and Guidelines for Federal Transit Administration Recipients, October 1, 2012.

Factor Analysis

In order to ensure meaningful access to programs and services, the City of Modesto Transit has used information obtained through Four Factor Analysis to determine the specific language services that are appropriate to provide. The analysis reveals how the agency can improve communication with Limited English Proficient (LEP) individuals. Individuals who do not speak English as their primary language and who have a limited ability to read, write, speak, or understand English, can be Limited English Proficient (LEP) and, therefore, are entitled to language assistance under Executive Order 13166 and Title VI of the Civil Rights Act of 1964.

This LEP Plan was developed to help identify reasonable steps for providing language assistance to persons with limited English proficiency who wish to access services provided. As defined by Executive Order 13166, LEP persons are those who do not speak English as their primary language and have limited ability to read, speak, write, or understand English. This plan outlines how to identify a person who may need language assistance, the ways in which assistance may be provided, staff training that may be required, and how to notify LEP persons that assistance is available. In order to prepare this plan, the City of Modesto Transit used the four-factor LEP analysis which considers the following factors:

1. The number or proportion of LEP persons in the service area who may be served by MAX
2. The frequency with which LEP persons come in contact with MAX services.
3. The nature and importance of services provided by MAX to the LEP population.
4. The interpretation services available to MAX and the overall cost to provide LEP assistance.

A summary of the results of the four-factor analysis follows.

FACTOR 1:

The number or proportion of LEP persons eligible to be served or likely to be encountered by a program, activity, or service of the recipient or grantee.

Transit staff reviewed the American Community Survey Five-Year Estimate for language spoken at home and determined that among the 212,175 persons comprising the city's population, 65.8% speak English at home while 26.3% of residents Spanish at home with an additional 7.9% of residents speaking another language at home. Among those speaking a language other than English and Spanish at home, 55.9%, some 8,574 individuals, identified themselves as speaking English "well" while 44.1% or 6,777 individuals speak English "less than well". This subgroup accounts for 3.2% of the overall population in the service area.

Spanish is one language group that meets the threshold specified by the Department of Transportation's Safe Harbor Provision of over 5% or 1,000 individuals (whichever is less). Safe Harbor stipulates that a recipient of federal funding provides written translation of vital documents of reach eligible language group that constitutes 5% or 1,000 persons, whichever is less, of the total population of persons eligible to be served or likely to be affected or encountered, then such action will be considered strong evidence of compliance with the recipient's written obligations. As a result, key documents necessary for LEP individuals to successfully access MAX services are translated into Spanish as noted in Table 2.

Modesto transit relied upon educational demographics data from California Department of Education's *DataQuest* portal, of the school districts in the service area. The following table summarizing that research shows that Modesto City Elementary School District and Modesto City High School District identify LEP Populations that speak 17 languages at home. Of those languages there is only a numerically significant demand for language support services in our Spanish speaking LEP population.

**Table 1
English Learner Students Not Fluent English Proficient**

	Modesto City Elementary School District	Modesto City High School District	Total
Spanish	5,188	1,278	6,466
Khmer	126	32	158
Arabic	80	50	130
Hindi	33	15	48
Lao	31	9	40
Farsi (Persian)	39	16	55
Hmong	15	4	19
Vietnamese	13	12	25
Pashto	17	20	37
Punjabi	7	12	19
Filipino (Pilipino or Tagalog)	6	6	12
Assyrian	12	27	39
Cantonese	4	0	4
Portuguese	6	0	6
Mandarin	5	6	11
Russian	4	7	11

FACTOR 2:

The frequency with which LEP persons come in contact with SRTA services.

Modesto Transit staff reviewed the frequency with which transit centers and office staff have, or could have, contact with LEP persons. This includes documenting phone inquiries, emails, or office visits. Modesto Transit serves LEP persons daily through MAX fixed route and MADAR paratransit services. MAX customer service receives multiple requests daily for service information in Spanish both at the customer service windows and on the phone. Similarly, MADAR receives multiple daily information and reservation calls from passengers requiring support in Spanish. MADAR estimates 5% of the reservations are made in Spanish only conversations.

FACTOR 3:

The nature and importance of services provided by SRTA to the LEP population.

Modesto Transit provides important transit services to the public through its fixed route and paratransit services. Modesto Transit is the primary resource for transit dependent individuals for daily life tasks such as medical appointments, shopping, and commuting to school and work.

FACTOR 4:

The resources available and overall costs to provide LEP assistance.

Modesto Transit currently provides almost all information in Spanish, including the Ride Guide, applications, information brochures, and all route or schedule changes. Both MAX and MADAR have bilingual staff providing verbal assistance to LEP individuals who may also have limited reading skills in their native language. Modesto Transit utilizes City staffing for document translation services and consolidates printing orders whenever possible.

Modesto Transit is committed to making its services and programs available to LEP persons and recognizes the need to continue providing language services in Modesto. Modesto Transit is committed to continuing the following practices:

- Providing customer services staff members who are bi-lingual and are trained to assist persons with limited English language proficiency
- Providing bi-lingual supervisors and customer service representatives to assist Spanish speaking riders
- Providing the MAX Pass Outlet Program, which utilizes a variety of community-based organizations and small businesses to provide similar access to bus passes throughout the MAX service area. This program provides an additional opportunity to obtain written and verbal information about MAX services, as well as opportunities to purchase MAX passes in the language most common to the neighborhood.
- In addition, Modesto Transit works with community organizations to determine other areas of need and coordinate with other agencies to reach any additional LEP populations.
- To support infrequent language supports needs other than Spanish, Modesto Transit has arranged for LanguageLine services which are able to provide real time phone translation services in over 200 languages.

**MODESTO CITY COUNCIL
RESOLUTION NO. 2019-**

**RESOLUTION APPROVING
THE CITY OF MODESTO TRANSIT SERVICES
2019 TITLE VI PROGRAM UPDATE**

WHEREAS, the City of Modesto operates fixed route and ADA Paratransit service for the Modesto urban area, and

WHEREAS, as a recipient of Federal Transit Administration (FTA) funds the City is required to ensure that transit programs do not discriminate on the basis of race, color, and national origin pursuant to the requirements of Title VI of the Civil Rights Act of 1964, as amended, and

WHEREAS, the FTA issued Circular FTA C 4702.1B, effective October 1, 2012, setting forth requirements and guidelines for Title VI compliance for its grantees; and

WHEREAS, the FTA requires the City of Modesto Transit to submit a Title VI program every three years as a condition of receiving ongoing federal funds, and

WHEREAS, FTA requires that the program must be approved by the Council of the City of Modesto prior to submission to FTA, and

WHEREAS, attached hereto as **Exhibit A** is the 2019 Title VI Program Update prepared by City staff in compliance with the regulations promulgated by the FTA to implement Title VI of the Civil Rights Act of 1964, as amended,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the City of Modesto Transit Services 2019 Title VI Program Update attached hereto as **Exhibit A**.

BE IT FURTHER RESOLVED that the City Council authorizes the Transit Manager to submit the Title VI Program Update to the FTA; and

BE IT FURTHER RESOLVED that the City Council authorizes the Transit Manager to take any other steps necessary to give effect to this Resolution, including responding to any follow-up inquiries from the Federal Transit Administration.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 9th day of April, 2019, by Councilmember ?, who moved its adoption, which motion being duly seconded by Councilmember ?, was upon roll call carried and the resolution adopted by the following vote:

Executive Summary

In order to carry out its mission of connecting communities with safe, reliable, and sustainable service to its fullest potential, the City of Modesto Transit Department is committed to engaging all members of the community – informing riders, residents, community partners, agencies and businesses about changes in service or fares, and providing opportunities to participate in meaningful decision-making about plans and projects that may affect their lives or livelihoods.

Public engagement efforts for the City of Modesto Transit Staff recognize the diversity within the greater Modesto service area and among riders. This Public Participation Plan (PPP) was created to identify effective methods of engaging with communities regardless of race, color, national origin, ability to speak English, or income status, as protected by Title VI of the Civil Rights Act and associated regulations. As clarified in the Federal Transit Administration (FTA) circular 4702.1B, Title VI of the Civil Rights Act of 1964 prohibits discrimination on the basis of race, color, or national origin in programs and activities receiving federal financial assistance. Further, Executive Order 12898 and FTA circular 4703.1 provide that environmental justice for low income populations should be part of the mission of federally funded programs. Under these mandates, transit operators must take reasonable steps to ensure all persons have access to participate in their activities and programs. Additionally, under Executive Order 13166, public engagement activities must be made accessible to persons who have limited English proficiency.

The plan formalizes the City of Modesto Transit's public engagement policies designed to encourage partnerships with Modesto's diverse communities, ensuring that their concerns are heard and their contributions are included along with those of the greater population. The plan provides the roadmap staff will use to advance that goal, along with identification of key contacts 2016-2019, and the recent history of public engagement activities carried out by Transit Staff.

Introduction

As part of its Title VI Program, City of Modesto Transit is committed to sponsoring vigorous public participation processes by enhancing its strategies for engaging minority and Limited English Proficient (LEP) individuals in the decision-making. Public participation and community involvement are vital to the growth and development of the transit services which serve the City of Modesto.

In order to carry out its mission of connecting communities with safe, reliable and sustainable service to its fullest potential the Transit Staff is committed to engaging all members of the community – informing riders, residents and businesses about changes in services or fares, and providing opportunities to participate in meaningful decision-making about projects and plans, including facilities, routes, service hours and fares, that may affect their live or livelihoods. This plan provides detailed guidelines for community outreach and communication during various transit planning stages to ensure the public is appropriately and adequately represented.

Transit is committed to ensuring it serves the Modesto community fairly, consistently and in the most cost-efficient and appropriate manner within available resources. Through conversation and collaboration with riders, prospective riders, and the larger surrounding community, Transit will be able to assess the quality of its service, measure potential impacts to the community from Transit initiatives or proposed initiatives, and ensure that it is providing valuable services to the residents and visitors of greater Modesto.

The plan formalizes the City of Modesto Transit's public engagement policies designed to encourage partnerships with Modesto's diverse communities, ensuring that their concerns are heard and their contributions are included along with those of the greater population. The plan provides the roadmap staff will use to advance that goal, along with identification of key contacts 2016-2019, and the recent history of public engagement activities carried out by Transit Staff. The PPP is designed to be a living document that will be updated regularly to incorporate new data and best practices as identified through activities and experiences from the field.

The PPP is guided by the following principles:

- That Transit decisions consider the Interests and concerns of affected people and entities;
- That the full range of opportunities for participation is made known and communicated broadly through the City of Modesto; and
- That community input received through public engagement processes is considered and incorporated to the extent possible.

These principles form the basis of the City of Modesto Transit's public engagement policies and procedures.

Modesto Transit

The City of Modesto operates both Modesto Area Express (MAX) and Modesto Dial-A-Ride (MADAR), which currently serve the City of Modesto, and portions of other areas outside the city limits.

MAX provides 17 urban bus routes on Mondays through Fridays, beginning as early as 5:45 a.m. and ending generally at 8:00 p.m. One route (Route 21) operates on 15-minute headway. Twelve routes operate on 30-minute headways, while all others operate on one-hour headways. Between Routes 22 and 23, 15-minute service is provided along McHenry Ave. On Saturdays, MAX operates 15 routes, ten of which operate on 30-minute headways, while the others operate on one-hour headways. Twelve MAX routes are provided on Sundays, with all routes operating on one-hour headways. In addition to the urban routes, MAX provides weekday morning and evening commuter routes to and from the Dublin/Pleasanton Bay Area Rapid Transit (BART) Station and Manteca/Lathrop Altamont Commuter Express (ACE) train station. The majority of MAX routes connect to the downtown Modesto Transportation Center. This Center provides a connection point to other regional and interregional transit services such as StaRT, Greyhound, Taxi, and the Modesto Area Express Commuter buses to BART and ACE. The Center is also designed to accommodate a future passenger ACE rail stop in Modesto.

The Modesto Dial-A-Ride system operates as a senior/disabled, paratransit service to satisfy the Americans with Disabilities Act (ADA) for the City of Modesto transit system. MADAR functions as the ADA complementary paratransit service from 4:45 a.m. to 11:00 p.m., Monday through Friday, and 7:15 a.m. to 9:00 p.m. on Saturdays, and 8:45 a.m. to 8:15 p.m. on Sunday.

The City of Modesto is committed to serving its populace in the most efficient and cost effective manner possible. The City strives to provide valuable transit services to residents and visitors to the community, employing a planning philosophy which includes:

- Frequent and convenient service
- Safe and clean vehicles
- Safe and clean boarding and alighting environments
- Easily understandable time schedule
- Easy access to information
- Communication and collaboration with riders, prospective riders, and the community at large to provide improved mobility and quality of life to residents

Approach to Public Participation

The public participation process should be considered at the earliest stages of any City of Modesto Transit project that may impact the surrounding community, its riders, and potential riders. As projects vary in time and size, the public participation process may vary for each, as well as the extent of public participation. The following outlines tools and strategies to ensure that public input is invited and all foreseeable impacts to the community are considered.

Public participation and comments are vital pieces to any prospective change in the transit system. The City values the input of community members as potential changes are discussed. City of Modesto Transit has developed three levels of projects to establish the appropriate minimum public participation requirements. At the beginning of any project, staff will identify into which category that project falls and develop a participation plan accordingly. At any time during its process, the project may be reclassified to a higher level, if Transit staff deems appropriate. The levels are as follows:

Level One

Routine service, route and any short-term projects whose impact on current MAX and MADAR riders and potential riders needs to be identified during planning stages. Examples of projects include:

- Minor route and service changes
- Routine rider surveys
- Changes to fare media

All fare increases (excluding short-term fare changes for specific events or promotions) shall follow outreach methods previously discussed.

Level Two

Service changes will follow outreach methods when there is any change in service which directly affects:

- 25 percent or more reduction of the number of transit revenue vehicle miles of a route computed on a daily basis for the day of the week for which the change is made.

Major fare or service changes that meet the following thresholds:

- 25 percent or more reduction of the number of transit revenue vehicle miles of a route computed on a daily basis for the day of the week for which the change is made.
- Elimination of any route

Subrecipient oversight for FTA 5307 grants

Level Three

Longer term or larger scale projects are those whose impact on current MAX and MADAR riders and potential riders needs to be identified during planning stages. These may include:

- Major service changes
- Short and Long Range Transportation Plans,
- Comprehensive Operational Analysis,
- Coordination plans
- Facility or yard construction projects

Public Participation Tools

City of Modesto Transit employs a wide array of marketing and communications tools and strategies that to inform and engage the public in the planning and development phases of service and fare changes, studies, and activities. These tools have been developed over time with the goal of reaching diverse audiences across a variety of mediums when and where they are most receptive to the information. Key information is developed in Spanish and English.

Traditional Media

Traditional media is one means to reach a large audience through newspaper, radio and television. There are two ways to tap into these resources: paid advertising and unpaid editorial coverage. Paid advertising provides a guaranteed line of communication to an identified audience with maximum message control.

- Press releases
- Media Advisory
- Print display ads, classified ads, legal notices
- Radio spots, sponsorships, live remotes, and advertorials
- Television spots on local public access channels

Digital Communications

The Internet has had a significant impact on how City of Modesto Transit communicates directly with its riders and community. The ability to disseminate a specific, controlled message through a website or email message has revolutionized how stakeholders are informed and engaged. It is also a constantly changing and evolving world, providing new tactics regularly.

- *ModestoAreaExpress.com* provides detailed information about current service, upcoming service changes, long- and short-term planning projects, city council agendas and staff reports, and other initiatives.

- *Social media*: information can be shared with riders in real time using digital channels such as Twitter, Facebook, and LinkedIn. Social media provide another avenue for customer service as well a way to drive people to the website for detailed information.

Printed Materials

Printed pieces, or collateral, are created to support almost every marketing or communication effort the District undertakes. Information is presented in three languages with directions on how to access additional language support.

- Brochures
- Signage (includes signs at bus stops, posters at shelters, ad cards that run along the interior of the bus.)
- Maps, schedules, and timetables
- Direct mail and door hangers

Public Meetings

In-person workshops and meetings serve a variety of roles, from fulfilling legal obligations in the case of public hearings, to fostering in-depth discussion and opportunities for input in the case of public workshops. These meetings function best when serving as venues for open discussion of proposals, challenges, and issues facing a particular community or set of stakeholders.

- Public meetings at various times and locations across the city service area to solicit community input, and to share information about projects, studies, and proposed changes.
- Public hearings in communities where projects or plans are under consideration. This includes placing notices within a specific timeline in newspapers or publications that serve non-English speaking populations with a goal of maximizing visibility and community participation.
- In-house presentations or joining existing meetings to reach community members where they are already gathered.
- Provide meetings at locations accessible for persons with disabilities, and close to public transportation for people who work non-traditional times.
- Provide interpreters and use interpretation equipment for non-English speaking people when warranted.

Community Engagement

Many other public, private, and non-profit organizations conduct activities related to the services provided by City of Modesto Transit. When and where possible, Transit staff works with these

organizations to gather input, provide information, or raise awareness about MAX and MADAR services.

- Partnerships with community based organizations (CBOs), local governments, social service agencies, and faith-based organizations, including organizations that serve non-English speaking populations.
- Field and respond to inquiries from community, government, and business leaders.
- Participation in community events, including fairs, festivals, and parades.
- Inclusion of bilingual staff when possible and appropriate.
- Distribution of marketing materials (including translations) and meeting notices on buses and through CBOs, social service partners, and other public agencies.

Telephone Information

Many customers rely upon the telephone for trip planning, information about upcoming changes or projects, and to relay complaints and compliments.

- Use of dedicated customer service telephone numbers to provide information and an opportunity for public to comment on relevant issues.
- Over-the-phone interpretation services easily accessed by Customer Call Center and local District staff to provide immediate support in the customer's own language.

Surveys

Surveys play a crucial role to collect data about riders, the service, and impacts of specific projects. They also can measure changes over time.

- Printed and online surveys of rider demographics and travel characteristics to comply with Title VI and Environmental Justice requirements, and to understand customer transit behavior.
- Surveys and focus groups to understand the needs of customers and the opinions of the community at large, including customer satisfaction.
- Surveys in various languages and in additional languages upon request.

Conclusion

The City of Modesto Transit Department is committed to engaging the public engagement in public transportation issues, making use of multiple outreach techniques and creative targeted engagement activities. Through its work with community partners, the City will continually improve the identification and implementation of strategies that remove barriers to access and participation for all community members.

Appendix A

Community Outreach Partners

As part of the community participation process, Transit Staff work with many community organizations, social service agencies, local governments, and business. A list of many of the organizations that have supported and/or participated in outreach processes over the past three years follows.

Modesto Transit ADA Advisory Committee	MOVE
Alzheimer's Association	Modesto City Schools—Special Education
Advancing Vibrant Communities	Modesto Senior Citizens Center
Aging & Veterans Services	Social Services Transit Advisory Committee
Alegre Home Care	National Express Transit
Alzheimer/Dementia Support Center, Inc.	Optimal Hospice Care
American Cancer Society	Pacifica Senior Living
Area Agency on Aging	PANC
County of Stanislaus, BHRS	Parkinsons Support Group
California Department of Rehabilitation	Paramount Court Senior Living
California Health Collaborative	Program Coordinating Committee
California Rural Legal Assistance	Project Sentinel
Casa de Modesto	Ralston Tower Apartments
Catholic Charities	Rehabilitation Center Emanuel Medical Center
Center for Human Services	ResCare Home Care
CalFRESH	Robertson Community Center
CVOC	RSVP Retired Senior Volunteers
Ceres Area Transit	Salvation Army
Dale Commons	Samaritan Village
Disability Resource Agency for Independent Living	Satellite Dialysis Center
Doctors Medical Center-	Senior Access Teams
Downtown Improvement District	Senior Service Center
EA Family Services	Society for Disabilities
English Oaks Nursing & Rehab Center Generations Health Care	Stanislaus Council of Governments (StanCOG)
Escalon Transit	Stanislaus County Dept of Veteran's Affairs
First Five of California	Stanislaus County Mental Health Department
Golden Valley Health Center	Stanislaus County Probation
Gospel Mission	Stanislaus Regional Transit (StaRT)
Health Plan of San Joaquin	Stanislaus County Library
Health Services Agency	Stanislaus Elder Abuse Prevention Alliance (SEAPA)
Healthy Aging Association	Stanislaus Special Olympics
Howard Training Center	Storer Transit Systems
Health Services Agency, Stanislaus County	The Park at Modesto
Interfaith Ministries	Turlock Transit
Modesto Chamber of Commerce	United Cerebral Palsy

Modesto City Schools—Special Education	United Way

City of Ripon

MEMORANDUM OF UNDERSTANDING
between the
CITY OF MODESTO
and the
CITY OF RIPON

**“Regarding the Coordination of Ongoing Federal Transportation Administration (FTA)
Section 5307 Funded Activities for the Modesto Urbanized Area”**

This Memorandum of Understanding (MOU) is entered into between the City of Modesto, hereinafter referred to as “Modesto” and the City of Ripon, hereinafter referred to as “Ripon”, this 22 day of September, 2009.

This MOU is made with reference to the following recitals:

1. The Stanislaus Council of Governments (StanCOG) has been designated by the Federal Transit Administration (FTA) to receive Section 5307 federal transit funds, which are made available to the Modesto Urbanized Area.
2. The San Joaquin Council of Governments (SJCOG) is the Metropolitan Planning Organization for the San Joaquin County region.
3. SJCOG and StanCOG entered into an MOU March 15, 2004 to define the roles and responsibilities of the two Metropolitan Planning Organizations in the transit planning and programming of federal funds for the Modesto Urbanized Area. This MOU between SJCOG and StanCOG is attached to this MOU as Attachment A.
4. Modesto, as designated by the U.S. Census Bureau, is the major population center in the federally defined Modesto Urbanized Area. Modesto is currently the designated applicant for FTA Section 5307 funds within the Modesto Urbanized Area.
5. Located in San Joaquin County, Ripon is included in the Modesto Urbanized Area, as designated by the U.S. Census Bureau. Ripon has current and future eligible activities for FTA Section 5307 federal transit funds that have and will be included in the StanCOG and SJCOG transit planning and programming documents.
6. Modesto and Ripon must enter into an MOU to define roles and responsibilities of the two cities in the FTA Section 5307 grant application and grant management process to ensure the smooth and equitable distribution of funds and ensure compliance with all federal grant regulations and requirements.
7. Ripon and Modesto mutually agree that the responsibilities outlined in this MOU foster healthy collaboration for the purpose of transit planning and programming federal funds within the Modesto Urbanized Area.

NOW, THEREFORE, in consideration of the mutual covenants, promises, and agreements herein contained, the parties hereto mutually agree as follows:

SECTION 1: Purpose

1.1 Purpose

The purpose of this MOU is to set forth the basic structure for FTA Section 5307 grant application and administration in the Modesto Urbanized Area. This MOU builds upon an existing MOU between SJCOG and StanCOG. The existing MOU between SJCOG and StanCOG is attached to this MOU as Attachment A.

SECTION 2: Cooperative Relationship

2.1 Communication

Modesto and Ripon shall rely upon a cooperative relationship to facilitate the application for and administration of FTA Section 5307 funds. A critical component of this relationship involves open and productive communication, which leads to setting transit project priorities and following all federal funding requirements.

The Modesto Transit Manager and the Ripon City Engineer are the primary individuals responsible for ensuring implementation of the provisions of this MOU.

SECTION 3: FTA Section 5307 Requirements

3.1 Grantee Role

Modesto, as the grantee, will review proposed projects to help ensure that all FTA supported activities in which Ripon engages comply with all applicable Federal regulations, Grant Agreements and FTA circulars. Ripon shall cooperate with Modesto to provide supporting documents, data and other information as may be reasonably requested by Modesto to ensure said compliance.

Modesto, will make a good faith effort to provide Ripon an annual allocation amount reflecting estimated Ripon's funding share, including related methodology and technical calculations that were used to identify the allocation figure. Ripon shall review the allocation and provide comments to Modesto within thirty days on the methodology and calculation.

Within 30 calendar days of publication of the apportionments in the Federal Register, Modesto will calculate and furnish Ripon with their allocation amount. Modesto will track the amount of the Modesto Urbanized Area's total apportionment, the cumulative amount of said apportionment that is allocated to Ripon, and the cumulative amount of Ripon's allocation that has been obligated by the

FTA in approved grants. Modesto will provide Ripon with a report on these amounts within 30 days of Ripon's request for information

3.2 Annual Certifications and Assurances

Modesto shall annually submit Certifications and Assurances to the FTA that detail the federal requirements with which it must comply to be eligible to receive federal transit assistance. The annual submission of these Certifications and Assurances is required by Federal law prior to the submission of any grant application.

Federal regulations require that Modesto, as a grant applicant, secure sufficient documentation from subrecipients such as Ripon to ensure the subrecipient's compliance with all the requirements included in the Certifications and Assurances. To ensure that Ripon is aware of all federal regulations, Ripon shall submit to Modesto, within thirty (30) days of Modesto's request, a signed copy of the FTA's Annual Certifications and Assurances. Ripon shall comply with all requirements set forth in the annual Certifications and Assurances.

3.3 Civil Rights Requirements

Modesto and Ripon agree to comply with all applicable civil rights statutes and implementing regulations including, but not limited to, the following: non discrimination in Federal Public Transportation Programs; non discrimination following the requirements of Title VI of the Civil Rights Act of 1964; Equal Employment Opportunity; non discrimination on the basis of sex; non discrimination on the basis of age; non discrimination on the basis of disability; and, Disadvantaged Business Enterprise.

3.4 Federal Transportation Improvement Program

SJCOG is responsible for the periodic development, adoption, and amendment of a Federal Transportation Improvement Program (FTIP) for San Joaquin County. Federally funded projects are programmed by SJCOG on behalf of Ripon to provide for Ripon's receipt of federal funds through the FTIP. Ripon will be responsible to ensure that its Federal Section 5307 projects are programmed into SJCOG's FTIP in addition to being included in the StanCOG FTIP as an information item only. Ripon shall request the inclusion of its projects in the triennial FTIP's prepared by StanCOG and SJCOG.

The SJCOG FTIP will be prepared and coordinated with StanCOG per the MOU between SJCOG and StanCOG. Ripon shall be eligible to receive FTA funding only for projects that are included in said FTIP's when properly adopted by both SJCOG and StanCOG, in accordance with regulations promulgated by the U.S. Department of Transportation, and approved by the FTA. Projects not included in both the SJCOG and StanCOG FTIP's will not be included in Modesto's Section 5307 grant application.

3.5 Annual Review and Request for Funding

Modesto and Ripon shall meet annually for the purpose of reviewing the transit needs in the Modesto Urbanized Area and defining the apportionment amounts for eligible transit activities in Ripon. The meeting shall be held after the FTA publishes the annual apportionments in the Federal Register.

Requests submitted to Modesto by October 1st will be included in an application that Modesto will submit to the FTA by June 30th of the following year. Said written notification shall include copies of the SJCOG and StanCOG FTIP's as approved by Caltrans, the FHWA and the FTA. Ripon shall notify Modesto in writing if it has an FTA eligible project that it desires Modesto to include in its annual Section 5307 grant application.

In the event that application requests are filed after October 1st, Modesto will amend its annual grant application to include Ripon's FTA eligible project, if time permits.

If Ripon does not submit a project annually, Ripon's annual apportionment shall be carried over automatically into the next year and the next year(s), if applicable. The apportionment balance shall be cumulatively tracked by Modesto. Ripon's annual apportionments will not be expended by Modesto without Ripon's express written approval. Ripon will be able to submit an eligible project based upon its cumulative unexpended apportionment balance. Modesto will provide Ripon the cumulative balance within thirty (30) calendar days of Ripon's request.

All parties agree that Ripon's share of the Modesto Urbanized Area's annual Section 5307 allocation shall be based on the percentage of the population (according to the most recent federal census) of the Modesto Urbanized Area that resides within San Joaquin County. This percentage shall be applied to the portion of the Modesto Urbanized Area's Section 5307 apportionment that is calculated on population alone and the portion that is calculated using population multiplied by population density. The remainder of the apportionment shall be distributed to Modesto. Ripon shall not receive any portion of the FTA Section 5307 apportionment that is determined, in whole or in part, on the basis of bus revenue miles or other data obtained through the National Transit Database process, unless Ripon submits NTD reporting data as specified in Section 4.3 of this MOU.

SECTION 4: Grant Application and Management

4.1 Federal Transit Administration Section 5307 Funding Application

Modesto shall complete the application for Section 5307 funding for the Modesto Urbanized Area and include funding requested by Ripon in the manner prescribed in Sections 3.4 and 3.5 of this MOU. Modesto shall submit the application to the Federal Transit Administration for processing.

Ripon shall provide Modesto with project information on a timely basis to ensure that grant application deadlines are met. This information shall include a project description, budget and budget detail, project milestones and environmental findings. Modesto may submit the annual

application without funding for Ripon if it does not receive the necessary project information within thirty (30) calendar days of notifying Ripon in writing of the deadline for receipt of project information.

After the grant has been approved by the FTA, StanCOG has completed the Supplemental Agreement approval and Modesto has executed the grant, Modesto will notify Ripon of the final approval of FTA grant funding. A flow chart detailing the grant application process is attached to the MOU as Attachment B.

4.2 Federal Transit Administration Section 5307 Grant Reporting Requirements

Financial Status Reports (FSR) and Milestone Progress Reports (MPR) are due to the FTA within 30 days after the end of each quarter. These reports are used by the FTA to determine if the purposes of the grant are being achieved, if the project is progressing on time and within budget, if the grantee is demonstrating competence in executing the project, if the project meets program requirements and if any future problems are anticipated. The FTA may withhold payment for failure to submit FSR or MPR reports on time.

The FSR is to provide a current, complete and accurate financial picture of the grant on an accrual basis as specified in FTA Circular 5010.1D, as that circular may be subsequently updated or amended.

The MPR is the narrative portion of the quarterly report. Information in the MPR includes status reports and progress on the milestones included in the grant application. FTA Circular 5010.1D describes the MPR.

Modesto will combine the information on Modesto's projects with Ripon's projects for these quarterly reports. To meet the quarterly reporting deadline, by the 10th day of the month following the end of each quarter Ripon will provide Modesto with the finance and milestone information needed for Modesto to properly complete the reports.

4.3 Federal Transit Administration National Transit Database (NTD) Reporting

If Ripon does not receive a waiver from the FTA for NTD reporting, Ripon will submit NTD reports that have been compiled in the manner prescribed by the FTA. If Ripon desires to receive FTA funding based on services provided, or any factor other than population and population density, Ripon must submit NTD information to the FTA. This would require Ripon to provide adequate and properly trained staff resources to collect and compile the information. In addition, a Ripon staff member would need to regularly attend FTA training on NTD reporting. If Ripon submits NTD reports, hard copies of the reports will be sent to Modesto.

FTA grantees and sub recipients are required by law to submit monthly and annual NTD reports to the FTA. There are three types of NTD reports; annual, monthly and safety and security incidents. The largest of the three is the annual report, which includes information on transit operations including ridership, miles, hours and vehicles with details on actual expenditures. The FTA uses this information to calculate the Modesto Urbanized Area's annual apportionment. Data collection

methodologies and reporting procedures are highly technical and annual training is required to complete the reports accurately.

During an FTA Triennial Review, Modesto is required to provide the NTD reporting identification number for all sub recipients of FTA Section 5207 funds. As a sub recipient, Ripon shall provide Modesto with a copy of its NTD reports that includes Ripon's reporting identification number or a letter from the FTA waiving the requirement.

Modesto will not be available to assist in the collection and assimilation of NTD data for Ripon. Modesto will not be able to enter into its NTD database information on Ripon's behalf. It shall be Ripon's responsibility to accurately collect and enter information into the NTD reporting system.

Section 5: Reimbursements for Grant Activities

Thirty days after Modesto's submission of the Quarterly reports to the FTA, Ripon will submit a detailed expense report and invoice based on the FSR (Section 4.2, Reports) to Modesto for reimbursement. The expense report will be submitted by the first day of March, June, September and December following any quarter in which Ripon has incurred reimbursable expenses. Modesto will reimburse Ripon for eligible activities within 30 days after the receipt of the expense invoice. Ripon will maintain all original invoices for a period of ten years for future FTA audits and reviews.

Ripon shall reimburse Modesto for fully allocated labor expenses for activities related to FTA grants that benefit Ripon. To receive reimbursement for routine activities constituting less than 20 hours of labor, Modesto shall submit an invoice to Ripon within 30 days of the end of each six-month period in which costs were incurred. To receive reimbursement for activities beyond the routine activities, or in excess of 20 hours of labor, Modesto shall provide Ripon with written notice of the labor expenditures prior to undertaking the non-routine activities. Any invoice submitted by Modesto to Ripon shall list labor hours by employee, the fully allocated expense rate per labor hour and the cost by employee and a total for all Modesto employees and must be approved, in writing, by the Ripon City Engineer. Ripon shall remit payment to Modesto within 30 days of receipt of said invoice. FTA funds may not be used for this payment.

Section 6: Errors and Omissions

Ripon and Modesto agree that neither party shall hold the other responsible for errors, omissions or other negligence that might result in the loss of funding or a delay in receiving funding.

Section 7: MOU Amendment

This MOU may be amended by the written consent of both parties.

Section 8: MOU Termination

Either party upon thirty days written notification to the other may terminate this MOU.

Section 9: Authorization of MOU

IN WITNESS WHEREOF, the City of Modesto, a municipal corporation, has authorized the execution of this MOU in duplicate by its City Manager and attestation by its City Clerk under authority of Resolution No. 2009- 449, adopted by the Council of the City of Modesto on the 22 day of September, 2009.

Fred Cavanah, Transit Manager
City of Modesto
1010 10th Street, Suite 4500
Modesto, CA 95354

Dear Fred:

Please find enclosed the executed and signed original of the Memorandum of Understanding (MOU) between the City of Modesto and Stanislaus County.

Per your request, I am forwarding one copy of the fully executed MOU to the City. I would like to take this opportunity to thank you and your staff for your assistance throughout this process and very much appreciates your help.

Should you have any questions or concerns, please feel free to call me and may do so at 209-525-7560.

Sincerely,

Eunice Lovi
Transit Manager

MEMORANDUM OF UNDERSTANDING
between the
CITY OF MODESTO
and
STANISLAUS COUNTY

Two Party Subrecipient Agreement
Regarding the Coordination of Federal Transportation Administration (FTA)
Section 5307 Funded Activities in the Modesto Urbanized Area

This Memorandum of Understanding (MOU) is entered into between the City of Modesto, hereinafter referred to as "Modesto" and Stanislaus County, hereinafter referred to as "the County", this 25 day of November, 2014.

This MOU is made with reference to the following recitals:

1. The Stanislaus Council of Governments (StanCOG) has been designated by the Federal Transit Administration (FTA) to receive Section 5307 federal transit funds, which they make available to transit operators in the Modesto Urbanized Area through the Federal Transportation Improvement Program (FTIP) planning process.
2. Modesto, as designated by the U.S. Census Bureau, is the major population center in the federally defined Modesto Urbanized Area. Modesto is the designated applicant and recipient of all FTA Section 5307 funds within the Modesto Urbanized Area.
3. The FTA requested that Modesto work with other public transit operators in the Modesto Urbanized Area to develop subrecipient relationships as needed to accomplish public transit goals within the Modesto Urbanized Area.
4. Also located in the Modesto Urbanized Area (as designated by the U.S. Census Bureau) are the cities of Riverbank, Oakdale and Hughson and unincorporated areas including the community of Keyes that are served by the Stanislaus County Public Works Transit Division a.k.a. Stanislaus Regional Transit.
5. As an urbanized area transit provider, Stanislaus County has current and future activities eligible for FTA Section 5307 federal transit funds that have and/or will be included in the FTIP adopted by StanCOG.
6. Modesto and Stanislaus County must enter into an MOU to define roles and responsibilities of the two entities in the FTA Section 5307 grant application and grant management process to ensure the smooth and equitable distribution of funds and ensure compliance with all federal grant regulations and requirements.

NOW, THEREFORE, in consideration of the mutual covenants, promises, and agreements herein contained, the parties hereto mutually agree as follows:

SECTION 1: Purpose

1.1 General Scope of Agreement

The purpose of this MOU is to identify the roles and responsibilities for Modesto as the grant recipient and the County as the subrecipient for FTA Section 5307 grant funds received by the City of Modesto in accordance with P.L. 112-141, Moving Ahead for Progress in the 21st Century (MAP-21).

SECTION 2: Terms

2.1 Term

The term of this MOU shall be commensurate with activities necessary to procure the Section 5307 funds specified in Paragraph 2.2 and terminate when either party exercises its right to terminate under Section 8 of this agreement.

2.2 Funding Covered by this MOU

This agreement addresses FTA 5307 funds apportioned to the Modesto Urbanized Area by the FTA as authorized by MAP 21 for Federal Fiscal Years 2012-13 and 2013-14 as published in the Federal Register. Additional apportionments made to the Modesto Urbanized Area under MAP 21 for FY 2014-15 and future years will be addressed under this MOU unless terminated pursuant to Section 8 of this agreement.

SECTION 3: FTA Section 5307 Requirements

3.1 Responsibilities of the City of Modesto (Recipient) and Stanislaus County (Subrecipient)

Modesto, as the FTA recipient, is required to ensure that all supported activities in which the County engages as the subrecipient comply with all regulations, Grant Agreements, circulars and other guidance issued by federal regulatory agencies. The County shall cooperate with Modesto to provide supporting documents, data and other information as may be reasonably requested by Modesto to ensure said compliance. In addition to the items below, the County shall comply with all the terms in Exhibit A, Federal Contract Clauses.

3.2 Certifications and Assurances

Modesto annually submits Certifications and Assurances to the FTA that detail the federal requirements with which it must comply to be eligible to receive federal transit assistance. The annual submission of these Certifications and Assurances are required by Federal law prior to the submission of any grant application.

Federal regulations require that Modesto, as a grant applicant, secure sufficient documentation from subrecipients such as the County to ensure the subrecipient's compliance with all the requirements included in the Certifications and Assurances. To ensure it is prepared to comply with all federal regulations the County shall submit to Modesto within thirty (30) days of the date first written above, a signed copy of the Certifications and Assurances for FTA grant and cooperative agreements most recently published in the Federal Register. Subsequent to the initial submittal, the county shall annually submit to Modesto, within thirty (30) days of publication in the Federal Register, a signed copy of the FTA's Certifications and Assurances. The County shall comply with all requirements set forth in the annual Certifications and Assurances.

3.3 Federal Certifications

Federal Certifications:

The County shall complete and submit the following federally required forms included in Exhibit B within thirty (30) days of approval of the MOU by the Modesto City Council.

Form 1

A signed Certification of Primary Participant Regarding Debarment, Suspension, and Other Responsibility Matters.

A signed form must be submitted if the subrecipient will receive \$100,000 or more in payment for their participation in this MOU.

Form 2

A signed Certification of Lower-Tier Participants Regarding Debarment, Suspension, and Other Ineligibility and Voluntary Exclusion.

FTA requires third party contractors to submit this certificate to the grantee for any subrecipient doing work valued at \$100,000 or more. The County shall be responsible to obtain complete forms from its contractors and submit them to Modesto. This form must be completed and submitted for each contractor expected to receive \$100,000 or more for their participation during the term of this MOU.

Form 3

A signed Certification of Restrictions on Lobbying

FTA requires that each subrecipient submit this certification to Modesto. Any subcontractor doing work valued at more than \$100,000 during the term of the contract is required to submit a certification to Modesto. The County shall be responsible to obtain complete forms from its subcontractors and submit them to Modesto prior to receiving FTA 5307 funds.

Form 4

A signed Disclosure of Lobbying Activities.

The Disclosure Statement must be submitted by the County or subcontractor whose participation exceeds \$100,000 and who is involved in lobbying activities. The County

shall be responsible to obtain complete forms from its subcontractors and submit them to Modesto prior to receiving FTA 5307 funds.

Form 5

A signed Certification Regarding Non-Discrimination of Persons with Disabilities.

Form 6

A signed Equal Opportunity Employment Certification.

3.4 Civil Rights Requirements

Modesto and the County shall comply with all applicable civil rights statutes and implementing regulations including, but not limited to, the following: non discrimination in Federal Public Transportation Programs; non discrimination following the requirements of Title VI of the Civil Rights Act of 1964; Equal Employment Opportunity (EEO); non discrimination on the basis of sex; non discrimination on the basis of age; non discrimination on the basis of disability; and, Disadvantaged Business Enterprise (DBE). As the grantee, Modesto will monitor the County (subrecipient) to ensure compliance with all civil rights regulations and reporting requirements. The County shall provide Modesto with their EEO, Title VI and DBE plans, reports and analysis according to federal requirements

3.5 Drug and Alcohol Program

Modesto and the County will follow the requirements of 49 CFR Part 655 to have a drug and alcohol testing policy detailing the provisions of their drug and alcohol programs. These programs shall include all of the provisions as defined by 49 CFR 655.15. Modesto will monitor the County to ensure compliance with this regulation and reporting requirements. The county shall provide Modesto with its Drug and Alcohol plan and reports according to federal requirements.

3.6 Americans with Disabilities Act Requirements

Titles II and III of the Americans with Disabilities Act of 1990 (ADA) provide that as an FTA grantee, Modesto shall not discriminate against an individual with a disability in connection with the provision of transportation service. The law sets forth specific requirements for vehicle and facility accessibility and the provision of service, including complementary paratransit service. Each public entity operating a fixed route system must provide complementary paratransit to individuals with disabilities that is comparable to the level of service provided to individuals without disabilities who use the fixed route system.

Modesto will monitor the County to ensure that the County provides ADA complementary paratransit service in compliance with the DOT ADA requirements including, but not limited to, hours of paratransit service, eligibility determinations, service criteria, service capacity, and no-show policies. The County shall provide Modesto with its FTA approved Paratransit Service Plan and monthly reports from its operations contractor documentation to demonstrate compliance.

3.7 Federal Transportation Improvement Program

The Stanislaus Council of Governments, StanCOG, is responsible for the periodic development, adoption, and amendment of a Federal Transportation Improvement Program (FTIP) for Stanislaus County. The FTIP is, in part, the plan and approval for the allocation of FTA Section 5307 funds to transit operators in the Modesto Urbanized area. Federally funded transit projects must be programmed in the FTIP by StanCOG on behalf of Modesto and the County to provide for both parties receipt of federal funds. The County will be responsible to ensure that the County's FTA Section 5307 projects, as agreed upon by both parties are programmed into the FTIP.

3.8 Funding Level

Modesto and the County have met for the purpose of reviewing the transit needs in the Modesto Urbanized Area and defining the apportionment amounts for eligible transit activities in the County's area of service. The allocation amount negotiated by Modesto and the County was based upon population in each service area and ridership numbers and is consistent with Table 3 A in the FTA FY 2013 and FY 2014 Apportionments, Allocations and Program Information as published in the Federal Register. Per these negotiations, the funds will be used to cover the County's Capital Cost of Contracting with the maximum allocation to the County of \$683,777 for FY 2013 and \$490,169 for FY 2014. The negotiations were conducted with the approval and oversight of StanCOG. Funding amounts for additional years are subject to negotiations between the City, County and StanCOG.

SECTION 4: Grant Application and Management

4.1 Federal Transit Administration Section 5307 Funding Application

Modesto will complete the application for Section 5307 funding for the Modesto Urbanized Area and include funding requested by the County in the manner prescribed in Sections 3.7 and 3.8 of this MOU. Modesto will submit the application to the Federal Transit Administration for processing.

The County shall provide Modesto with project information on a timely basis to ensure that grant application deadlines are met. This information shall include a project description, budget and budget detail, project milestones and environmental findings. Modesto may submit the annual application without funding for the County if it does not receive the necessary project information within fifteen (15) business days of notifying the County in writing of the deadline for receipt of project information.

After the grant has been approved by the FTA, StanCOG has completed the Supplemental Agreement approval and Modesto has executed the grant, Modesto will notify the County of the final approval of FTA grant funding. A flow chart detailing the grant application process is attached to the MOU as Exhibit C.

4.2 Federal Transit Administration Section 5307 Grant Reporting Requirements

Financial Status Reports (FSR) and Milestone Progress Reports (MPR) are due to the FTA within 30 days after the end of each quarter ("Quarterly Report"). These reports are used by the FTA to determine if the purposes of the grant are being achieved, if the project is progressing on time and within budget, if the grantee is demonstrating competence in executing the project, if the project meets program requirements and if any future problems are anticipated. The FTA may withhold payment for failure to submit FSR or MPR reports on time.

The FSR is to provide a current, complete and accurate financial picture of the grant on an accrual basis as specified in FTA Circular 5010.1D, as that circular may be subsequently updated or amended.

The MPR is the narrative portion of the Quarterly Report. Information in the MPR includes status reports and progress on the milestones included in the grant application. FTA Circular 5010.1D describes the MPR.

Modesto will combine the information on Modesto's projects with the County's projects for these quarterly reports. To meet the quarterly reporting deadline, the County shall provide by the 10th day of the month following the end of each quarter the milestone information needed for Modesto to properly complete the milestone report. The FSR will be submitted based on the detailed expense reports submitted by the County in February, May, August and November as described in Section 5. Upon completion and submittal of the FSR and MPR, Modesto shall provide copies to the County.

4.3 Federal Transit Administration National Transit Database (NTD) Reporting

FTA grantees and subrecipients are required by law to submit monthly and annual NTD reports to the FTA. Annual and monthly reports on transit operations including ridership, miles, hours and vehicles, with details on actual expenditures, are required. The FTA uses this information to calculate the Modesto Urbanized Area's annual apportionment. Data collection methodologies and reporting procedures are highly technical and annual training is required to complete the reports accurately.

During each FTA Triennial Review, Modesto is required to provide the NTD reporting identification number for all subrecipients of FTA Section 5307 funds. As a subrecipient, the County shall provide Modesto with a final copy of its NTD report that includes the County's reporting identification number.

Modesto will not be available to assist in the collection and assimilation of NTD data for the County. Modesto will not enter into its NTD database information on the County's behalf nor will it assist in resolving discrepancies that may be discovered by the FTA's NTD contractor. It shall be the County's responsibility to accurately collect and enter information into the NTD reporting system. The County as a Small Urban System Transit Provider in a large urbanized

area may request approval from FTA to qualify for a Small Systems Waiver. The County shall cooperate with the FTA and its NTD contractor to resolve any data discrepancies.

Section 5: Reimbursements for Grant Activities

The County shall submit a detailed expense report to Modesto for reimbursement on a quarterly basis within sixty (60) days following the end of the federal quarter. These expense reports shall be submitted by the end of February, May, August and November following any quarter in which the County has incurred reimbursable expenses. Modesto will reimburse the County for eligible expenses within thirty (30) days after the receipt of the expense reports. The County shall maintain all original invoices for a period of six (6) years for future FTA audits and reviews.

Section 6: Errors and Omissions

Modesto and the County agree that neither party shall hold the other responsible for errors, omissions or other negligence that might result in the loss of funding or a delay in receiving funding.

Section 7: MOU Amendment

This MOU may be amended by the written consent of both parties.

Section 8: MOU Termination

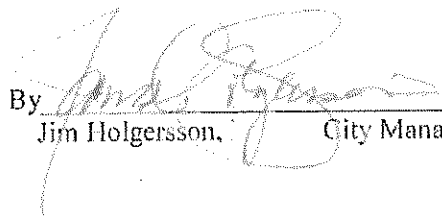

Either party upon thirty (30) days written notification to the other may terminate this MOU.

Section 9: Authorization of MOU

By signature, we agree that the responsibilities outlined in this MOU foster healthy collaboration for the purpose of transit planning and programming federal funds within the Modesto Urbanized Area.

Exhibit A

Federal Contract Clauses

The following extract is taken from the Federal Transit Administration Best Practices Procurement Manual, Appendix A.1, "Governing Documents." Fund recipients and subrecipients are directed to this manual for the full text of these contract clauses. The manual can be found on-line at:

http://www.fta.dot.gov/funding/thirdpartyprocurement/grants_financing_6037.html

1. DISADVANTAGE BUSINESS ENTERPRISE (DBE)

A. This Agreement is subject to the requirements of Title 49, Code of Federal Regulations, Part 26, *Participation by Disadvantaged Business Enterprises in Department of Transportation Financial Assistance Programs*.

B. FTA grant recipients shall not discriminate on the basis of race, color, national origin, or sex in the performance of this Agreement. Recipients shall carry out applicable requirements of 49 CFR Part 26 in the award and administration of this FTA-assisted contract. Failure by Recipients to carry out these requirements is a material breach of this Agreement, which may result in the termination of this Agreement or such other remedy as Modesto deems appropriate. Each subcontract recipients signs with any subcontractor must include the assurance in this paragraph (*see* 49 CFR 26.13(b)).

C. Recipients shall report its DBE participation obtained through race-neutral means throughout the period of performance.

D. Recipients shall pay any the subcontractor not later than 10 days of receipt of each progress payment in accordance with the provisions in Section 7108.5 of

the California Business and Professions Code concerning prompt payment to subcontractors. The 10 days is applicable unless a longer period is agreed to in writing. Any delay or postponement of payment over 30 days may take place only for good cause and with Modesto's prior written approval. Any violation of Section 7108.5 shall subject the violating contractor or subcontractor to the penalties, sanction, and other remedies of that section. This requirement shall not be construed to limit or impair any contractual, administrative, or judicial remedies otherwise available to the contractor or subcontractor in the event of a dispute involving late payment or nonpayment by the recipients, deficient subcontract performance, or noncompliance by a subcontractor.

E. Recipients shall promptly notify Modesto whenever a DBE subcontractor performing work related to this Agreement is terminated or fails to complete its work, and shall make good faith efforts to engage another DBE subcontractor to perform at least the same amount of work. Recipients may not terminate any DBE subcontractor and perform that work through its own forces or those of an affiliate without prior written consent of both parties.

2. **CIVIL RIGHTS.** The following requirements apply to the Agreement:

A. **Nondiscrimination** - In accordance with Title VI of the Civil Rights Act, as amended, 42 U.S.C. § 2000d, section 303 of the Age Discrimination Act of 1975, as amended, 42 U.S.C. § 6102, section 202 of the Americans with Disabilities Act of 1990, 42 U.S.C. § 12132, and Federal transit law at 49 U.S.C. § 5332, recipients agree that it will not discriminate against any employee or applicant for

employment because of race, color, creed, national origin, sex, age, or disability. In addition, recipients agree to comply with applicable Federal implementing regulations and other implementing requirements FTA may issue.

B. Equal Employment Opportunity - The following equal employment opportunity requirements apply to the Agreement:

1. Race, Color, Creed, National Origin, Sex - In accordance with Title VII of the Civil Rights Act, as amended, 42 U.S.C. § 2000e, and Federal transit laws at 49 U.S.C. § 5332, recipients agree to comply with all applicable equal employment opportunity requirements of U.S. Department of Labor (U.S. DOL) regulations, "Office of Federal Contract Compliance Programs, Equal Employment Opportunity, Department of Labor," 41 C.F.R. Parts 60 et seq., (which implement Executive Order No. 11246, "Equal Employment Opportunity," as amended by Executive Order No. 11375, "Amending Executive Order 11246 Relating to Equal Employment Opportunity," 42 U.S.C. § 2000e note), and with any applicable Federal statutes, executive orders, regulations, and Federal policies that may in the future affect construction activities undertaken in the course of the Project. Recipients agree to take affirmative action to ensure that applicants are employed, and that employees are treated during employment, without regard to their race, color, creed, national origin, sex, or age. Such action shall include, but not be limited to, the following: employment, upgrading, demotion or transfer, recruitment or recruitment advertising, layoff or termination; rates of pay or other forms of

compensation; and selection for training, including apprenticeship. In addition, recipients agree to comply with any implementing requirements FTA may issue.

2. Age - In accordance with section 4 of the Age Discrimination in Employment Act of 1967, as amended, 29 U.S.C. § § 623 and Federal transit law at 49 U.S.C. § 5332, recipients agree to refrain from discrimination against present and prospective employees for reason of age. In addition, recipients agree to comply with any implementing requirements FTA may issue.

3. Disabilities - In accordance with section 102 of the Americans with Disabilities Act, as amended, 42 U.S.C. § 12112, recipients agree that it will comply with the requirements of U.S. Equal Employment Opportunity Commission, "Regulations to Implement the Equal Employment Provisions of the Americans with Disabilities Act," 29 C.F.R. Part 1630, pertaining to employment of persons with disabilities. In addition, recipients agree to comply with any implementing requirements FTA may issue.

C. Recipients also agree to include these requirements in each subcontract financed in whole or in part with Federal assistance provided by FTA, modified only if necessary to identify the affected parties.

3. ENVIRONMENT.

- A. Energy Conservation- Recipients agree to comply with mandatory standards and policies relating to energy efficiency which are contained in the state energy conservation plan issued in compliance with the Energy Policy and Conservation Act.
- B. Clean Water- Recipients agree to comply with all applicable standards, orders or regulations issued pursuant to the Federal Water Pollution Control Act, as amended, 33 U.S.C. 1251 *et seq.* Recipients agree to report each violation and understands and agrees to report each violation as required to assure notification to FTA and the appropriate EPA Regional Office. Recipients also agrees to include these requirements in each subcontract exceeding \$100,000 financed in whole or in part with Federal assistance provided by FTA.
- C. Clean Air- Recipients agree to comply with all applicable standards, orders or regulations issued pursuant to the Clean Air Act, as amended, 42 U.S.C. §§ 7401 *et seq.* Recipients agree to report each violation and understands and agrees to report each violation as required to assure notification to FTA and the appropriate EPA Regional Office. Recipients also agrees to include these requirements in each subcontract exceeding \$100,000 financed in whole or in part with Federal assistance provided by FTA.
- D. Recycled Products- Recipients agree to comply with all the requirements of Section 6002 of the Resource Conservation and Recovery Act (RCRA), as amended (42 U.S.C. 6962), including but not limited to the regulatory provisions of 40 CFR Part 247, and Executive Order 12873, as they apply to the procurement of the items designated in Subpart B of 40 CFR Part 247.

4. **LOBBYING.** Byrd Anti-Lobbying Amendment, 31 U.S.C. 1352, as amended by the Lobbying Disclosure Act of 1995, P.L. 104-65 [to be codified at 2 U.S.C. § 1601, et seq.] – Recipients shall file the certification required by 49 CFR part 20, "New Restrictions on Lobbying." Each tier certifies to the tier above that it will not and has not used Federal appropriated funds to pay any person or organization for influencing or attempting to influence an officer or employee of any agency, a member of Congress, officer or employee of Congress, or an employee of a member of Congress in connection with obtaining any Federal contract, grant or any other award covered by 31 U.S.C. 1352. Each tier shall also disclose the name of any registrant under the Lobbying Disclosure Act of 1995 who has made lobbying contacts on its behalf with non-Federal funds with respect to that Federal contract, grant or award covered by 31 U.S.C. 1352. Such disclosures shall be forwarded from tier to tier up to recipients.

5. **CONTRACT WORK HOURS AND SAFETY STANDARDS ACT.**

A. **Overtime Requirements.** No recipients or subcontractor contracting for any part of the contract work which may require or involve the employment of laborers or mechanics shall require or permit any such laborer or mechanic in any work week in which he or she is employed on such to work in excess of forty (40) hours in such work week unless such laborer or mechanic receives compensation at a rate not less than one and a half (1 1/2) times the basic rate of pay for all hours worked in excess of forty (40) hours in such workweek.

B. Violation: Liability for Unpaid Wages, Liquidated Damages. In the event of any violation of the clauses set forth in paragraph A of this section recipients and any subcontractor responsible therefore shall be liable for the unpaid wages. In addition, such recipients and subcontractor shall be liable to the United States for liquidated damages. Such liquidated damages shall be computed with respect to each individual laborer or mechanic, including watchmen and guards, employed in violation of the clause set forth in paragraph A of this section, in the sum of ten dollars (\$10) for each calendar day on which such individual was required or permitted to work in excess of the standard work week of forty (40) hours without payment of the overtime wages required by the clause set forth in paragraph A of this section.

C. Withholding for Unpaid Wages and Liquidated Damages. Recipients shall upon its own action or upon written request of an authorized representative of the Department of Labor withhold or cause to be withheld, from any money payable on account of work performed by contractor or subcontractor under any such contract or any other Federal contract with the same prime the contractor, or any other Federally-assisted contract subject to the Contract Work Hours and Safety Standards Act, which is held by the same prime contractor, such sums as may be determined to be necessary to satisfy any liabilities of such contractor or subcontractor for unpaid wages and liquidated damages as provided in the clause set forth in paragraph B of this section.

D. Subcontracts. Recipients or subcontractor shall insert in any subcontracts the clauses set forth in this section and also a clause requiring the contractor to

include these clauses in any subcontractor or lower tier subcontractor with the clauses set forth in this section. Recipients shall be responsible for compliance by any subcontractor or lower tier subcontractor with the clauses set forth in paragraphs A through D of this section.

6. **PROHIBITED INTEREST.** No official, officer, or employee during his or her tenure or one (1) year thereafter shall have any interest, direct or indirect, in this Agreement or the proceeds thereof.

7. **INTEREST OF MEMBERS OF, OR DELEGATES TO, CONGRESS.** In accordance with U.S.C. Section 431, no member of, or delegate to, the Congress of the United States shall be admitted to a share or part of this Agreement or to any benefit arising therefrom.

8. **GOVERNMENT-WIDE DEBARMENT AND SUSPENSION.** This Agreement is a covered transaction for purposes of 49 CFR Part 29. As such, recipients are required to verify that contractors, its principals, as defined at 49 CFR 29.995, or affiliates, as defined at 49 CFR 29.905, are excluded or disqualified as defined at 49 CFR 29.940 and 29.945. Recipients are required to comply with 49 CFR 29, Subpart C and must include the requirement to comply with 49 CFR 29, Subpart C in any lower tier covered transaction it enters into.

9. **CARGO PREFERENCE.** Use of United States-Flag Vessels - Recipients agree:

- A. To use privately owned United States-Flag commercial vessels to ship at least 50 percent of the gross tonnage (computed separately for dry bulk carriers, dry cargo liners, and tankers) involved, whenever shipping any equipment, material, or commodities pursuant to the Agreement to the extent such vessels are available at fair and reasonable rates for United States-Flag commercial vessels;
- B. To furnish within 20 working days following the date of loading for shipments originating within the United States or within 30 working days following the date of loading for shipments originating outside the United States, a legible copy of a rated, "on-board" commercial ocean bill-of-lading in English for each shipment of cargo to the Division of National Cargo, Office of Market Development, Maritime Administration, Washington, DC 20590 and to recipient, and;
- C. To include these requirements in all subcontracts issued pursuant to this Agreement when the subcontract may involve the transport of equipment, material, or commodities by ocean vessel.

10. **FEDERAL GRANT CONDITIONS.** This Agreement is subject to a financial assistance contract between both parties and the United States Department of Transportation (DOT), Federal Transit Administration (FTA). Recipients and DOT agree to comply with all terms and conditions respectively required of them by reason of that contract. If FTA requires any change to this Agreement to comply with its requirements, both parties agree to amend this Agreement as required by FTA. If such changes cause an increase or decrease in the work to be performed by recipients or in the time for such

performance, then the compensation to be paid to recipients and time of performance shall be equitably adjusted.

11. NO FEDERAL GOVERNMENT OBLIGATIONS TO THIRD PARTIES.

Recipients acknowledge and agree that, notwithstanding any concurrence by the Federal Government in or approval of the solicitation or award of the underlying Agreement, absent the express written consent by the Federal Government, the Federal Government is not a party to this Agreement and shall not be subject to any obligations or liabilities to recipients, or any other party (whether or not a party to that Agreement) pertaining to any matter resulting from the underlying Agreement. Recipients agree to include the above clause in each subcontract financed in whole or in part with Federal assistance provided by FTA.

12. FALSE OR FRAUDULENT STATEMENTS OR CLAIMS.

A. Recipients recognize that the requirements of the Program Fraud Civil Remedies Act of 1986, as amended, apply to its actions pertaining to this Agreement. Accordingly, recipients certify or affirms the truthfulness and accuracy of any statement it has made, it makes, or it may make pertaining to the actions covered by this Agreement. In addition to other penalties that may be applicable, recipients also acknowledges that if it makes a false, fictitious, or fraudulent claim, statement, submission, or certification, the Federal Government reserves the right to impose the penalties of the Program Fraud Civil Remedies

Act of 1986, as amended, on recipients to the extent the Federal Government deems appropriate.

B. Recipients also acknowledges that if it makes, or causes to be made, a false, fictitious, or fraudulent claim, statement, submission, or certification to the Federal Government under a contract connected with a project that is financed in whole or in part with Federal assistance originally awarded by FTA under the authority of 49 U.S.C. § 5307, the Government reserves the right to impose the penalties of 18 U.S.C. § 1001 and 49 U.S.C. § 5307(n)(1) on recipients, to the extent the Federal Government deems appropriate.

C. Recipients agree to include the above two clauses in each subcontract financed in whole or in part with Federal assistance provided by FTA.

13. **ACCESS TO RECORDS AND REPORTS.** The following access to records requirements apply to this Agreement:

A. Recipients agree to provide the FTA Administrator, the Comptroller General of the United States or any of their authorized representatives access to any books, documents, papers and records of recipients which are directly pertinent to this Agreement for the purposes of making audits, examinations, excerpts and transcriptions. Recipients also agrees, pursuant to 49 C.F.R. 633.17 to provide the FTA Administrator or his authorized representatives including any PMO contractor access to contractor's records and sites pertaining to a major capital project, defined at 49 U.S.C. 5302(a)1, which is receiving federal financial assistance through the programs described at 49 U.S.C. 5307, 5309 or 5311.

B. Recipients agree to permit any of the foregoing parties to reproduce by any means whatsoever or to copy excerpts and transcriptions as reasonably needed.

C. Recipients agree to maintain all books, records, accounts and reports required under this Agreement for a period of not less than three years after the date of termination or expiration of this Agreement, except in the event of litigation or settlement of claims arising from the performance of this Agreement, in which case recipients agree to maintain same until both recipients, the FTA Administrator, the Comptroller General, or any of their duly authorized representatives, have disposed of all such litigation, appeals, claims or exceptions related thereto. Reference 49 CFR 18.39(i)(11).

D. FTA does not require the inclusion of these requirements in subcontracts.

14. **FEDERAL CHANGES.** Recipients shall at all times comply with all applicable FTA regulations, policies, procedures and directives, including without limitation those listed directly or by reference in the Master Agreement between Modesto and FTA, as they may be amended or promulgated from time to time during the term of this Agreement. Recipients' failure to so comply shall constitute a material breach of this Agreement.

15. **TRANSIT EMPLOYEE PROTECTIVE AGREEMENTS.** Recipients agree to comply with applicable transit employee protective requirements as follows:

A. General Transit Employee Protective Requirements - To the extent that FTA determines that transit operations are involved, recipients agree to carry out the transit operations work on the underlying Agreement in compliance with terms and conditions determined by the U.S. Secretary of Labor to be fair and equitable to protect the interests of employees employed under this Agreement and to meet the employee protective requirements of 49 U.S.C. A 5333(b), and U.S. DOL guidelines at 29 C.F.R. Part 215, and any amendments thereto. These terms and conditions are identified in the letter of certification from the U.S. DOL to FTA applicable to the FTA recipient's project from which Federal assistance is provided to support work on the underlying Agreement. Recipients agree to carry out that work in compliance with the conditions stated in that U.S. DOL letter. The requirements of this subsection (1), however, do not apply to any contract financed with Federal assistance provided by FTA either for projects for elderly individuals and individuals with disabilities authorized by 49 U.S.C. § 5310(a)(2), or for projects for nonurbanized areas authorized by 49 U.S.C. § 5311. Alternate provisions for those projects are set forth in subsections (B) and (C) of this clause.

B. Transit Employee Protective Requirements for Projects Authorized by 49 U.S.C. § 5310(a)(2) for Elderly Individuals and Individuals with Disabilities - If the Agreement involves transit operations financed in whole or in part with Federal assistance authorized by 49 U.S.C. § 5310(a)(2), and if the U.S. Secretary of Transportation has determined or determines in the future that the employee protective requirements of 49 U.S.C. § 5333(b) are necessary or appropriate for which work is performed on the underlying Agreement, recipient agrees to carry

out the Project in compliance with the terms and conditions determined by the U.S. Secretary of Labor to meet the requirements of 49 U.S.C. § 5333(b), U.S. DOL guidelines at 29 C.F.R. Part 215, and any amendments thereto. These terms and conditions are identified in the U.S. DOL's letter of certification to FTA, the date of which is set forth in the Grant Agreement or Cooperative Agreement with the state. Recipients agree to perform transit operations in connection with the underlying Agreement in compliance with the conditions stated in that U.S. DOL letter.

C. Transit Employee Protective Requirements for Projects Authorized by 49 U.S.C. § 5311 in Nonurbanized Areas - If the Agreement involves transit operations financed in whole or in part with Federal assistance authorized by 49 U.S.C. § 5311, recipients agree to comply with the terms and conditions of the Special Warranty for the Nonurbanized Area Program agreed to by the U.S. Secretaries of Transportation and Labor, dated May 31, 1979, and the procedures implemented by U.S. DOL or any revision thereto.

Recipients also agree to include any applicable requirements in each subcontract involving transit operations financed in whole or in part with Federal assistance provided by FTA.

16. DRUG AND ALCOHOL TESTING. Recipients agree to establish a drug and alcohol testing program that complies with C.F.R. Part 655, produce any documentation necessary to establish its compliance with Part 655, and permit any authorized representative of the United States Department of Transportation or its operating

administrations, the State Oversight Agency of California, or recipients to inspect the facilities and records associated with the implementation of the drug and alcohol testing program as required under 49 C.F.R. Part 655 and review the testing process. Recipients agree further to certify annually its compliance with Part 655 before March 1 of each year and to submit the Management Information System (MIS) reports before March 1 of each year to Modesto's Transit Division. To certify compliance recipients shall use the "Substance Abuse Certifications" in the "Annual List of Certifications and Assurances for Federal Transit Administration Grants and Cooperative Agreements," which is published annually in the Federal Register.

17. **FLY AMERICA.** Recipients agree to comply with 49 U.S.C. 40118 (the "Fly America" Act) in accordance with the General Services Administration's regulations at 41 CFR Part 301-10, which provide that recipients and subrecipients of Federal funds and their the contractors are required to use U.S. Flag air carriers for U.S Government-financed international air travel and transportation of their personal effects or property, to the extent such service is available, unless travel by foreign air carrier is a matter of necessity, as defined by the Fly America Act. Recipients shall submit, if a foreign air carrier was used, an appropriate certification or memorandum adequately explaining why service by a U.S. flag air carrier was not available or why it was necessary to use a foreign air carrier and shall, in any event, provide a certificate of compliance with the Fly America requirements. Recipients agree to include the requirements of this section in all subcontracts that may involve international air transportation.

18. **CHARTER SERVICE OPERATIONS.** Recipients agree that while performing work in connection with this Agreement it will not engage in charter service operations, except as permitted by 49 U.S.C. § 5323(d) and FTA regulations, "Charter Service," 49 C.F.R. Part 604, and any amendments thereto that may be issued. Any applicable charter service agreement required by these regulations is incorporated by reference and made part of this Agreement.

19. **SCHOOL BUS OPERATIONS.** Recipients agree that neither it nor any subcontractor performing work in connection with this Agreement will engage in school bus operations for the transportation of student or school personnel exclusively in competition with private school bus operators, except as permitted by 49 U.S.C. § 5323(f) and FTA regulations, "School Bus Operations," 49 C.F.R. Part 605, and any amendments thereto that may be issued. Any applicable school bus agreement required by these regulations is incorporated by reference and made part of this Agreement.

20. **FEDERAL, STATE, AND LOCAL LAWS.** Recipients warrants and covenants that it shall fully and completely comply with all applicable Federal, State, and local laws and ordinances, and all lawful orders, rules, and regulations issued by any authority of competent jurisdiction in all aspects of its performance of this Agreement.

21. **DISPUTE RESOLUTION CLAUSE.** All claims, controversies or disputes arising out of or relating to this Agreement, or the breach, termination, enforcement, interpretation or validity of the Agreement, including the determination of the scope or

applicability of this clause shall be determined by binding arbitration in Modesto, California, by one (1) arbitrator. The American Arbitration Association shall administer the arbitration under its Rules then in effect, subject to the modifications of those rules contained in this clause. This Agreement to Arbitrate shall be specifically enforceable under the prevailing law of any court having jurisdiction, and the award rendered by the arbitrator may be entered in any court having jurisdiction. The appropriate venue for any arbitration under this clause shall be in Stanislaus County, California.

This clause is not intended to and does not waive the claim filing requirements found at California Government Code Section 900 et seq. In the event that a timely and legally sufficient claim is filed by recipient and the claim is rejected in whole or in part, this clause shall result in the conclusive, final and binding resolution of all the issues presented in the claim. Claims rejected shall be submitted by recipients to arbitration pursuant to the Rules of the American Arbitration Association within ninety (90) days after mailing of the written rejection to recipients. Otherwise, the claim or claims shall be deemed finally waived in their entirety.

The "fast track" rules of the American Arbitration Association shall apply to any claim or counterclaim less than ONE HUNDRED FIFTY THOUSAND AND 00/100 (\$150,000.00) DOLLARS. In arbitrations not proceeding under the "fast track" rules, the arbitrator shall have the power to order that depositions be taken and other discovery be made. Both recipients shall have the right, upon written notice, to take no more than three (3) depositions of the other as a matter of right.

Whether or not recipients may be engaged in interstate commerce, any controversy or dispute mentioned above shall be determined by and the parties shall be

bound by the substantive law of the State of California, and not the Federal Arbitration Act at 9 U.S.C. Section 1 et seq.

The arbitrator may grant any remedy or relief deemed just and equitable under the circumstances, whether or not such relief could be awarded in a court of law. The arbitrator shall be empowered to award monetary sanctions against a party. The arbitrator shall, in the written award, allocate all the costs of the arbitration, including the fees of the arbitrator and the reasonable attorney fees of the prevailing party, against the party who did not prevail. The prevailing party shall be the party in whose favor the majority of the central issues in the case are resolved.

Notwithstanding anything in this clause to the contrary, the arbitrator shall have no power to award punitive damages or other damages not measured by the party's actual damages (excluding litigation cost and fees) against any party. This limitation of the arbitrator's powers under this Agreement shall not operate as an exclusion of the issue of punitive damages from this Agreement to Arbitrate sufficient to vest jurisdiction in a court with respect to that issue.

Recipients shall include in all subcontracts, if any, a clause whereby the subcontractor consents to being joined in arbitration between Modesto and the County involving the work of subcontractor to be joined. Recipient's failure to do so shall be a breach of Agreement.

The parties to any contract of which this clause is made a part by reference or otherwise shall, and hereby do, waive any rights provided by Title 9.2 of the California Code of Civil Procedure, Section 1296. The arbitrator's award shall be deemed final, conclusive and binding to the fullest extent allowed by California law.

22. **BUY AMERICA.** Recipients agree to comply with 49 U.S.C. 5323(j) and 49 C.F.R. Part 661, which provide that Federal funds may not be obligated unless steel, iron, and manufactured products used in FTA-funded projects are produced in the United States, unless a waiver has been granted by FTA or the product is subject to a general waiver. General waivers are listed in 49 C.F.R. 661.7, and include microcomputer equipment and software. Separate requirements for rolling stock are set out at 49 U.S.C. 5323(j)(2)(C) and 49 C.F.R. 661.11. Rolling stock purchased by recipients shall be assembled in the United States and have a 60 percent domestic content.

23. **BUS TESTING CERTIFICATION.** Recipients agree to comply with 49 U.S.C. A 5323(c) and FTA's implementing regulation at 49 CFR Part 665 and shall perform the following:

A. A manufacturer of a new bus model or a bus produced with a major change in components or configuration shall provide a copy of the final test report to the recipient at a point in the procurement process specified by the recipient which will be prior to the recipient's final acceptance of the first vehicle.

B. A manufacturer who releases a report under subparagraph A above shall provide notice to the operator of the testing facility that the report is available to the public.

C. If the manufacturer represents that the vehicle was previously tested, the vehicle being sold should have the identical configuration and major components as the vehicle in the test report, which must be provided to the recipient prior to

recipient's final acceptance of the first vehicle. If the configuration or components are not identical, the manufacturer shall provide a description of the change and the manufacturer's basis for concluding that it is not a major change requiring additional testing.

D. If the manufacturer represents that the vehicle is "grandfathered" (has been used in mass transit service in the United States before October 1, 1988, and is currently being produced without a major change in configuration or components), the manufacturer shall provide the name and address of the recipient of such a vehicle and the details of that vehicle's configuration and major components.

24. **SAFETY PLAN.** Recipients shall develop a safety plan that includes performance targets, strategies, and staff training in compliance with safety performance criteria under development by FTA at such time as said criteria are made available by the FTA.

25. **INCORPORATION OF FEDERAL TRANSIT ADMINISTRATION TERMS.** The preceding provisions include, in part, certain Standard Terms and Conditions required by DOT, whether or not expressly set forth in the preceding Agreement provisions. All contractual provisions required by DOT, as set forth in FTA Circular 4220.1F, are hereby incorporated by reference. Anything to the contrary herein notwithstanding, all FTA mandated terms shall be deemed to control in the event of a conflict with other provisions contained in this Agreement. Recipients shall not perform

any act, fail to perform any act, or refuse to comply with any requests which would cause recipients to be in violation of the FTA terms and conditions.

Exhibit B

Required Federal Certifications

**CERTIFICATION OF PRIMARY PARTICIPANT
REGARDING DEBARMENT, SUSPENSION, & OTHER RESPONSIBILITY MATTERS**

The Primary Participant (applicant for an FTA grant or cooperative agreement, or potential contractor for a third party contract) County of Stanislaus certifies to the best of its knowledge and belief, that it and its principals:

1. Are not presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from covered transactions by any Federal department or agency;
2. Have not within a three-year period preceding this proposal been convicted of or had a civil judgment rendered against them for commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public transaction; violation of Federal or State antitrust statutes or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, or receiving stolen property;
3. Are not presently indicted for or otherwise criminally or civilly charged by a governmental entity (Federal, State, or local) with commission of any of the offenses enumerated in paragraph (2) of this certification; and,
4. Have not within a three-year period preceding this application/proposal had one or more public transactions (Federal, State or local) terminated for cause or default.

(If the primary participant (applicant for an FTA grant, or cooperative agreement, or potential third party contractor) is unable to certify to any of the statements in this certification, the participant shall attach an explanation to this certification.)

THE PRIMARY PARTICIPANT (APPLICANT FOR AN FTA GRANT OR COOPERATIVE AGREEMENT, OR POTENTIAL CONTRACTOR FOR A THIRD PARTY CONTRACT), Rance Lovi, CERTIFIES OR AFFIRMS THE TRUTHFULLNESS AND ACCURACY OF THE CONTENTS OF THE STATEMENTS SUBMITTED ON OR WITH THIS CERTIFICATION AND UNDERSTANDS THAT THE PROVISIONS OF 31 U.S.C. SECTIONS 3801 ET SEQ. ARE APPLICABLE THERETO.

Rance Lovi, Transit Manager
Signature & Title of Authorized Official

The undersigned chief legal counsel for the County of Stanislaus Hereby certifies that the Transit Manager has authority under State and local law to comply with the subject assurances and that the certification above has been legally made.

NON-DISCRIMINATION OF PERSONS WITH DISABILITIES

Policy Statement

In compliance with Section 51.55, Office of Revenue Sharing, Department of the Treasury, it is the policy of the CITY that it will not aid or perpetuate discrimination against a qualified individual with a disability by funding an agency, organization, or person that discriminates on the basis of disability in providing any aid, benefit or service to beneficiaries of the program or activity.

The CITY is committed to providing access to all CITY services, programs and meetings open to the public with disabilities.

In this regard, the City and all its Contractors and Subcontractors will take all reasonable steps in accordance with GRS Section 51.55 to ensure that individuals with disabilities have the maximum opportunity for the same level of aid, benefit or service as any other individual.

Certification

Each agency, organization, or person seeking a bid, contract or agreement with the CITY of Modesto shall sign a certification of compliance with Section 504 of the Rehabilitation Act of 1973 as incorporated in the Revenue Sharing Act.

CERTIFICATION OF BIDDER REGARDING
NON-DISCRIMINATION OF PERSONS WITH DISABILITIES

The bidder hereby certifies that he/she is in compliance with Section 504 of the Rehabilitation Act of 1973 as incorporated in the Revenue Sharing Act, through applicable administrative requirements promulgated in response thereto, and in any other applicable Federal laws and regulations relating to discrimination of and participation by individuals with disabilities.

**MODESTO CITY COUNCIL
RESOLUTION NO. 2019-189**

RESOLUTION APPROVING AN INCREASE OF THE DIRECTOR OF UTILITIES AUTHORITY TO ISSUE CHANGE ORDERS ON THE TUOLUMNE RIVER SHEET PILE AND DAM DEBRIS REMOVAL PROJECT FROM 20 PERCENT (\$193,652) TO 52 PERCENT (\$503,760) OF THE ORIGINAL CONSTRUCTION CONTRACT PRICE OF \$968,260 WITH INNOVATIVE CONSTRUCTION SOLUTIONS OF DUBLIN, CA

WHEREAS, on June 12, 2018, by Resolution No. 2018-226, Council awarded a construction contract to Innovative Construction Solutions of Dublin, CA in an amount not to exceed \$968,260 for the Tuolumne River Sheet Pile and Dam Debris Removal Project, and

WHEREAS, on June 12, 2018, by Resolution No. 2018-227, Council authorized an increase in the Director's authority to issue change orders for the Tuolumne River Sheet Pile and Dam Debris Removal Project from 10 percent (\$96,826) to 20 percent (\$193,652) of the construction contract amount, and

WHEREAS, additional change order work not included in the original bid needed to be added to the project to allow completion of the project, and

WHEREAS, the administrative and field inspection costs associated with ensuring the additional change order work conforms to the City's standards of construction and quality, and

WHEREAS, the City's "Change Order Approval Policy" enacted by Council Resolution No. 94-443 on July 19, 1994, established a contract change order authority for construction contracts.

NOW, THEREFORE BE IT RESOLVED by the Council of the City of Modesto that it hereby authorizes an increase in Director's Authority to issue change orders for the Tuolumne River Sheet Pile and Dam Debris Removal Project from 20 percent (\$193,652) to 52 percent (\$503,760).

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 23rd day of April, 2019, by Councilmember Kenoyer, who moved for its adoption, which motion being duly seconded by Councilmember Madrigal, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Ah You, Grewal, Kenoyer, Madrigal, Ridenour, Zoslocki, Mayor Brandvold

**MODESTO CITY COUNCIL
RESOLUTION NO. 2019-190**

RESOLUTION APPROVING AN INCREASE OF THE DIRECTOR OF UTILITIES AUTHORITY TO ISSUE CHANGE ORDERS ON THE TUOLUMNE RIVER REGIONAL PARK (TRRP) GATEWAY PARCEL – PHASE 2 PROJECT FROM 10 PERCENT (\$206,774) TO 15.2 PERCENT (\$315,188) OF THE ORIGINAL CONSTRUCTION CONTRACT PRICE OF \$2,067,738 WITH EMPIRE LANDSCAPING, INC. OF DAVIS, CA

WHEREAS, the City Council, on February 2, 2016, by Resolution No. 2016-41, awarded a \$2,067,738 contract to Empire Landscaping, Inc. for the construction of the Tuolumne River Regional Park (TRRP) Gateway Parcel – Phase 2 Project, and

WHEREAS, the original amount authorized to the Director of Utilities to issue change orders was 10 percent (\$206,774) of the contract amount, and

WHEREAS, additional change order work not included in the original bid needed to be added to the project to allow completion of the project, and

WHEREAS, the administrative and field inspection costs associated with ensuring the additional change order work conforms to the City's standards of construction and quality.

NOW, THEREFORE BE IT RESOLVED by the Council of the City of Modesto that it hereby approves an increase in Director's Authority to issue change orders for the Tuolumne River Regional Park (TRRP) Gateway Parcel – Phase 2 Project from 10 percent (\$206,774) to 15.2 percent (\$315,188).

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 23rd day of April, 2019, by Councilmember Kenoyer, who moved for its adoption, which motion being duly seconded by Councilmember Madrigal, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2019-191**

**RESOLUTION AMENDING THE FISCAL YEAR 2018-19 CAPITAL
IMPROVEMENT PROGRAM BUDGET AND APPROPRIATING A TRANSFER
IN THE AMOUNT OF \$60,000 FROM LTF – NON-MOTORIZED FUND 1520 IN
ORDER TO FULLY FUND PROJECT #100599 - TUOLUMNE RIVER
REGIONAL PARK (TRRP) GATEWAY – PHASE 2 AS OUTLINED IN
ATTACHMENT A**

WHEREAS, on February 2, 2016, by Resolution No. 2016-41 Council awarded a construction contract to Empire Landscaping Inc. of Davis, CA in an amount not to exceed \$2,067,738, and

WHEREAS, a change order policy is utilized for each construction contract awarded by the City, and

WHEREAS, if after the contract is executed, a change in the original scope of work is determined necessary by staff, the policy authorized the Director to approve a change order up to a cumulative amount of the original contract, and

WHEREAS, in most cases, the budgeted amount set by the policy and specific requests by resolution are typically sufficient, however, as it relates to the TRRP Gateway Phase 2 project, anticipated change order costs will exceed the authority allowed by policy, and

WHEREAS, staff has negotiated the change order work, but estimates are above the approved contingency limit set by Council at 10 percent or (\$206,774), and

WHEREAS, the anticipated cost for the change order work is estimated to be 15.2 percent or (\$315,188), and

WHEREAS, the total anticipated expenditures will be increased by \$108,414 for change orders and staff costs, and

WHEREAS, staff has reviewed all funding sources for the project and has determined that an additional \$60,000 in budget is needed to fund construction, contingency, construction administration, and design support, and

WHEREAS, staff determined that there available Non-Motorized LTF funds available in Virginia Corridor Phase 7 Project #100813 that can be reduced to allow for additional funding from Fund 1520 for Project #100599 – TRRP Gateway Phase 2, and

WHEREAS, certain budgetary transactions are necessary as outlined in **Attachment A** in order to reduce project #100813 - Virginia Corridor Phase 7 and fully fund project #100599 - TRRP Gateway Phase 2.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves amending the Fiscal Year 2018-2019 Capital Improvement Program Budget for projects #100813 and #100599 and appropriating a transfer from LTF Non-Motorized Fund to fully fund the TRRP Gateway Phase 2 project in the amount of \$60,000 as outlined in **Attachment A**.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to implement the provisions of this resolution.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 23rd day of April, 2019, by Councilmember Kenoyer, who moved for its adoption, which motion being duly seconded by Councilmember Madrigal, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2019-192**

RESOLUTION APPROVING AN INCREASE OF THE DIRECTOR OF UTILITIES AUTHORITY TO ISSUE CHANGE ORDERS ON THE DEL RIO TANK NO. 14, WELL NO. 68, AND PUMP STATION PROJECT FROM 8 PERCENT (\$600,687) TO 35 PERCENT (\$2,628,793) OF THE ORIGINAL CONSTRUCTION CONTRACT PRICE OF \$7,510,835 WITH MOUNTAIN CASCADE INC., OF LIVERMORE, CA, AND INCREASING STAFF BUDGET FROM \$312,913 TO \$450,542

WHEREAS, on October 2, 2018, by Resolution No. 2018-432, Council approved a contract with Mountain Cascade Inc. (MCI) of Livermore, CA in the amount of \$7,510,835 to construct the Del Rio Tank No.14, Well No. 68 & Pump Station Project, and

WHEREAS, the original amount authorized to the Director of Utilities to issue change orders was 8 percent (\$600,867), and

WHEREAS, additional change order work not included in the original bid needed to be added to the project to allow completion of the project, and

WHEREAS, the administrative and field inspection costs associated with ensuring the additional change order work conforms to the City's standards of construction and quality.

NOW, THEREFORE BE IT RESOLVED by the Council of the City of Modesto that it hereby approves an increase in Director's Authority to issue change orders for the Del Rio Tank No. 14, Well No. 68, and Pump Station Project 8 percent (\$600,687) to 35 percent (\$2,628,793) and increase staff budget from \$312,913 to \$450,542.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 23rd day of April, 2019, by Councilmember Kenoyer, who moved for its adoption, which motion being duly seconded by Councilmember Madrigal, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Ah You, Grewal, Kenoyer, Madrigal, Ridenour, Zoslocki, Mayor Brandvold

**MODESTO CITY COUNCIL
RESOLUTION NO. 2019-193**

RESOLUTION AMENDING THE FISCAL YEAR 2018-19 CAPITAL IMPROVEMENT PROGRAM BUDGET IN THE AMOUNT OF \$435,149 TO BE TRANSFERRED INTO THE PROJECT FROM WATER FUND CIP IN ORDER TO FULLY FUND THE CONSTRUCTION, CONTINGENCY, CONSTRUCTION ADMINISTRATION, AND DESIGN SUPPORT DURING CONSTRUCTION FOR THE DEL RIO TANK NO. 14, WELL NO. 68, AND PUMP STATION PROJECT

WHEREAS, certain budgetary transactions are necessary in the amount of **\$435,149**, in order to fund construction, contingency, construction administration, design support during construction plus City staff support for the Del Rio Tank No. 14, Well No. 68, and Pump Station Project, and

WHEREAS, the Fiscal Year 2018-2019 Capital Improvement Program Budget must be amended as shown in **Exhibit A**, which is incorporated by reference herein.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the amendment of the Fiscal Year 2018-2019 Capital Improvement Program Budget as shown in **Exhibit A**, **attached** hereto.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to implement the provisions of this resolution.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 23rd day of April, 2019, by Councilmember Kenoyer, who moved for its adoption, which motion being duly seconded by Councilmember Madrigal, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Ah You, Grewal, Kenoyer, Madrigal, Ridenour, Zoslocki, Mayor Brandvold

EXHIBIT A

The purpose of this action is to amend the budget of Capital Improvement Program Project 100473 – Del Rio Water Tank in the amount of \$435,149 to cover expenses associated with the Mountain Cascade Construction Contract and the required City staff time related to administering/managing the project.

**MODESTO CITY COUNCIL
RESOLUTION NO. 2019-194**

RESOLUTION APPROVING A NEGATIVE DECLARATION FOR A GENERAL PLAN AMENDMENT TO CHANGE THE LAND USE DESIGNATION FROM R (RESIDENTIAL) TO C (COMMERCIAL) FOR APPROXIMATELY 10.6 ACRES OF LAND SOUTH OF PELANDALE AVENUE AND WEST OF McHENRY AVENUE

WHEREAS, on March 5, 2019, the City Council of the City of Modesto certified the Final Master Environmental Impact Report (“Master EIR”) (SCH No. 2014042081) for the Modesto Urban Area General Plan, and

WHEREAS, Douglas Family Trust has proposed a general plan amendment to change the designation from R (Residential) to C (Commercial) for approximately 10.6 acres of land south of Pelandale Avenue and west of McHenry Avenue, and

WHEREAS, pursuant to Section 21157.1 of the Public Resources Code, the City of Modesto’s Community & Economic Development Department prepared a Negative Declaration EA/C&ED 2017-22 which analyzed whether the subsequent project may cause any significant effect on the environment, and

WHEREAS, in accordance with the CEQA Guidelines the 30-day public review period for the proposed Negative Declaration began on January 22, 2018, and ended on February 22, 2018, and

WHEREAS, the City received public comments on the Negative Declaration that did not warrant any amendments to the Negative Declaration and did not affect the document’s conclusion that the proposed project would have no significant impacts on the environment, and

WHEREAS, said matter was considered by the Planning Commission of the City of Modesto at a duly noticed public hearing which was held on March 18, 2019, and

wherein the Planning Commission considered the Negative Declaration and recommended the City Council adopt the Negative Declaration, and

WHEREAS, said matter was considered by the City Council at a duly noticed public hearing which was held on April 23, 2019, at 5:30 p.m., in the Tenth Street Place Chambers located at 1010 Tenth Street, Modesto, California.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council has reviewed and considered the Negative Declaration prepared for the proposed general plan amendment, a copy of which is **attached** hereto as **Exhibit "A"**, and incorporated herein by reference, and based on substantial evidence in the Negative Declaration makes the following findings:

1. The Negative Declaration prepared for the proposed project shows there is no substantial evidence, in light of the whole record before the City, that the project may have significant environmental effects, and
2. The Negative Declaration, Environmental Assessment No. EA/C&ED 2017-22 reflects the independent judgment of the lead agency.

BE IT FURTHER RESOLVED by the Council of the City of Modesto that the Community & Economic Development Director is hereby authorized and directed to file a notice of determination within five (5) business days with the Stanislaus County Clerk pursuant to Section 21152 of the Public Resources Code.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 23rd day of April, 2019, by Councilmember Ridenour, who moved for its adoption, which motion being duly seconded by Councilmember Kenoyer, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Ah You, Kenoyer, Madrigal, Ridenour, Zoslocki, Mayor Brandvold

NOES: Councilmembers: None

ABSENT: Councilmembers: Grewal

January 17, 2018

CEQA Environmental Checklist

PROJECT DESCRIPTION AND BACKGROUND

Project Title: GPA-17-002, Wells Avenue General Plan Amendment
General Plan Amendment to change the general plan designation of approximately 12.3 acres of land from Residential (R) to Commercial (C).

Lead agency name and address:
City of Modesto, 1010 10th Street, Modesto, CA 95354

Contact person and phone number:
Cindy van Empel, Senior Planner, 209 577 5267

Project Location:
418 Wells Avenue; Modesto, Stanislaus County, CA
Assessor's Parcel Numbers 046-005-002 (0.98 acres) and 046-005-003 (6.71 acres) and portions of 046-009-008, 046-005-022 and -023 for a total of approximately 12.3 acres.

Project applicant's name and address:
Douglas Family Trust, 490 Moore Road, Woodside, CA 94062

General plan description:
The project site is currently designated by the General Plan as Residential (R).

Zoning:
The site is located in unincorporated Stanislaus County within Modesto's Sphere of Influence, as shown on **Figure 1**, Vicinity Map, and is being rezoned Planned Development (P-D) with the use restricted to mini-storage and recreational vehicle parking.

Description of project (Describe the whole action involved, including but not limited to later phases of the project, and any secondary, support, or off-site features necessary for its implementation.):
Amendment of the Land Use Element of the City of Modesto's General Plan from Residential (R) to Commercial (C), for approximately 12.3 acres of land, as shown on **Figure 2**.

The County of Stanislaus is processing a zone change on the subject site that would restrict development to a mini-storage and recreational vehicle storage facility. Any modifications to that zoning would require additional environmental review. There are no plans to annex the subject site to the City of Modesto; all development approvals on the property are expected to occur under the jurisdiction of the County of Stanislaus.

Surrounding land uses and setting (briefly describe the project's surroundings):
NORTH: There is a mini-storage facility adjacent to the north of the subject site and a light industrial office park farther north across Pelandale Expressway.
SOUTH: A mobile home park lies adjacent to the south of the subject site and detached houses are located approximately 300 feet south of the site.
WEST: Property immediately to the west is vacant land designated Residential. Approximately 1,000 feet to the west of the site are detached houses.

EAST: Adjacent to the east is property that is currently vacant, but which will soon be occupied by a new car dealership. Farther east, across McHenry Avenue, is an existing auto dealership.

Other public agencies whose approval is required (e.g. permits, financial approval, or participation agreements):
None.

Proposed General Plan Amendment from
Residential (R) to Commercial (C)

ENVIRONMENTAL FACTORS POTENTIALLY AFFECTED:

The environmental factors checked below would be potentially affected by this project. Please see the checklist beginning on page 5 for additional information.

<input type="checkbox"/>	Aesthetics	<input type="checkbox"/>	Agriculture and Forestry	<input type="checkbox"/>	Air Quality
<input type="checkbox"/>	Biological Resources	<input type="checkbox"/>	Cultural Resources	<input type="checkbox"/>	Geology/Soils
<input checked="" type="checkbox"/>	Greenhouse Gas Emissions	<input type="checkbox"/>	Hazards and Hazardous Materials	<input type="checkbox"/>	Hydrology/Water Quality
<input checked="" type="checkbox"/>	Land Use/Planning	<input type="checkbox"/>	Mineral Resources	<input type="checkbox"/>	Noise
<input type="checkbox"/>	Population/Housing	<input type="checkbox"/>	Public Services	<input type="checkbox"/>	Recreation
<input type="checkbox"/>	Transportation/Traffic	<input type="checkbox"/>	Utilities/Service Systems	<input type="checkbox"/>	Mandatory Findings of Significance

DETERMINATION:

On the basis of this initial evaluation:

<input checked="" type="checkbox"/>	I find that the proposed project COULD NOT have a significant effect on the environment, and a NEGATIVE DECLARATION will be prepared.
<input type="checkbox"/>	I find that although the proposed project could have a significant effect on the environment, there will not be a significant effect in this case because revisions in the project have been made by or agreed to by the project proponent. A MITIGATED NEGATIVE DECLARATION will be prepared.
<input type="checkbox"/>	I find that the proposed project MAY have a significant effect on the environment, and an ENVIRONMENTAL IMPACT REPORT is required.
<input type="checkbox"/>	I find that the proposed project MAY have a "potentially significant impact" or "potentially significant unless mitigated" impact on the environment, but at least one effect 1) has been adequately analyzed in an earlier document pursuant to applicable legal standards, and 2) has been addressed by mitigation measures based on the earlier analysis as described on attached sheets. An ENVIRONMENTAL IMPACT REPORT is required but it must analyze only the effects that remain to be addressed.
<input type="checkbox"/>	I find that although the proposed project could have a significant effect on the environment, because all potentially significant effects (a) have been analyzed adequately in an earlier EIR or NEGATIVE DECLARATION pursuant to applicable standards, and (b) have been avoided or mitigated pursuant to that earlier EIR or NEGATIVE DECLARATION, including revisions or mitigation measures that are imposed upon the proposed project, nothing further is required.

Signature: *Cynthia van Empel*

Date: 1/17/18

Printed Name: Cynthia van Empel

EVALUATION OF ENVIRONMENTAL IMPACTS:

- 1) A brief explanation is required for all answers except "No Impact" answers that are adequately supported by the information sources a lead agency cites in the parentheses following each question. A "No Impact" answer is adequately supported if the referenced information sources show that the impact simply does not apply to projects like the one involved (e.g., the project falls outside a fault rupture zone). A "No Impact" answer should be explained where it is based on project-specific factors as well as general standards (e.g., the project will not expose sensitive receptors to pollutants, based on a project-specific screening analysis).
- 2) All answers must take account of the whole action involved, including off-site as well as on-site, cumulative as well as project-level, indirect as well as direct, and construction as well as operational impacts.
- 3) Once the lead agency has determined that a particular physical impact may occur, then the checklist answers must indicate whether the impact is potentially significant, less than significant with mitigation, or less than significant. "Potentially Significant Impact" is appropriate if there is substantial evidence that an effect may be significant. If there are one or more "Potentially Significant Impact" entries when the determination is made, an EIR is required.
- 4) "Negative Declaration: Less Than Significant With Mitigation Incorporated" applies where the incorporation of mitigation measures has reduced an effect from "Potentially Significant Impact" to a "Less Than Significant Impact." The lead agency must describe the mitigation measures, and briefly explain how they reduce the effect to a less than significant level (mitigation measures from "Earlier Analyses," as described in (5) below, may be cross-referenced).
- 5) Earlier analyses may be used where, pursuant to the tiering program EIR, or other CEQA process, an effect has been adequately analyzed in an earlier EIR or negative declaration. Section 15063(c)(3)(D). In this case, a brief discussion should identify the following:
 - a. **Earlier Analysis Used.** Identify and state where they are available for review.
 - b. **Impacts Adequately Addressed.** Identify which effects from the above checklist were within the scope of and adequately analyzed in an earlier document pursuant to applicable legal standards, and state whether such effects were addressed by mitigation measures based on the earlier analysis.
 - c. **Mitigation Measures.** For effects that are "Less than Significant with Mitigation Measures Incorporated," describe the mitigation measure which were incorporated or refined from the earlier document and the extent to which they address site-specific conditions for the project.
- 6) Lead agencies are encouraged to incorporate into the checklist references to information sources for potential impacts (e.g., general plans, zoning ordinances). Reference to a previously prepared or outside document should, where appropriate, include a reference to the page or pages where the statement is substantiated.
- 7) Supporting Information Sources: A source list should be attached, and other sources used or individuals contacted should be cited in the discussion.
- 8) The explanation of each issue should identify:
 - a. the significance criteria or threshold, if any, used to evaluate each question; and
 - b. the mitigation measure identified, if any, to reduce the impact to less and significance

The proposed project is the redevelopment of a commercial site within the Baseline Developed Area that is consistent with the 2008 Urban Area General Plan. This Negative Declaration references and uses information from the 2008 Urban Area General Plan MEIR (SCH#2007072023).

	Potentially Significant Impact	Less Than Significant with Mitigation	Less Than Significant Impact	No Impact
--	--------------------------------	---------------------------------------	------------------------------	-----------

I. AESTHETICS: Would the project:

a) Have a substantial adverse effect on a scenic vista	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
b) Substantially damage scenic resources, including, but not limited to, trees, rock outcroppings, and historic buildings within a state scenic highway	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
c) Substantially degrade the existing visual character or quality of the site and its surroundings?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
d) Create a new source of substantial light or glare which would adversely affect day or nighttime views in the area?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Discussion

- a) There are no scenic vistas in the vicinity of the proposed general plan amendment
- b) There are no state scenic highways within the planning area.
- c) The site is an undeveloped area within Modesto's Sphere of Influence, which has been expected to develop for some years. Development facilitated by this general plan amendment would be similar to development adjacent to the subject site and in the area, which is partially developed. Therefore no significant impact will occur on the visual character of the area.
- d) The project site is undeveloped, but is expected to be developed with urban uses, which will create light and glare consistent with urban development. As a result, impacts related to substantial new sources of light and glare are considered less than significant.

Resource

See pages V-19-1 to V-19-9 in the 2008 Modesto Urban Area General Plan Master EIR (MEIR)

Potentially Significant Impact	Less Than Significant with Mitigation	Less Than Significant Impact	No Impact
--------------------------------	---------------------------------------	------------------------------	-----------

II. AGRICULTURE AND FOREST RESOURCES: In determining whether impacts to agricultural resources are significant environmental effects, lead agencies may refer to the California Agricultural Land Evaluation and Site Assessment Model (1997) prepared by the California Dept. of Conservation as an optional model to use in assessing impacts on agriculture and farmland. In determining whether impacts to forest resources, including timberland, are significant environmental effects, lead agencies may refer to information compiled by the California Department of Forestry and Fire Protection regarding the state's inventory of forest land, including the Forest and Range Assessment Project and the Forest Legacy Assessment Project; and the forest carbon measurement methodology provided in Forest Protocols adopted by the California Air Resources Board. Would the project:

- | | | | | |
|--|--------------------------|--------------------------|--------------------------|-------------------------------------|
| a) Convert Prime Farmland, Unique Farmland, or Farmland of Statewide Importance (Farmland), as shown on the maps prepared pursuant to the Farmland Mapping and Monitoring Program of the California Resources Agency, to non-agricultural use? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| b) Conflict with existing zoning for agricultural use, or a Williamson Act contract? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| c) Conflict with existing zoning for, or cause rezoning of, forest land (as defined in Public Resources Code section 12220(g)), timberland (as defined by Public Resources Code section 4526), or timberland zoned Timberland Production (as defined by Government Code section 51104(g))? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| d) Result in the loss of forest land or conversion of forest land to non-forest use? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| e) Involve other changes in the existing environment which, due to their location or nature, could result in conversion of Farmland, to non-agricultural use or conversion of forest land to non-forest use? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |

Discussion

- a) The project site is currently vacant and is designated Residential. No conversion of farmland to urban uses would occur.
- b) The site is not used for agricultural purposes and there is no Williamson Act contract.
- c) There is no forest land on the project site or anywhere within Modesto's Sphere of Influence.
- d) See Item c above.
- e) See Items a, b, and c above.

Resource

See pages V-4-1 to V-4-13 in the MEIR.

	Potentially Significant Impact	Less Than Significant with Mitigation	Less Than Significant Impact	No Impact
--	--------------------------------	---------------------------------------	------------------------------	-----------

III. AIR QUALITY: Where available, the significance criteria established by the applicable air quality management or air pollution control district may be relied upon to make the following determinations. Would the project:

- | | | | | |
|---|--------------------------|--------------------------|--------------------------|-------------------------------------|
| a) Conflict with or obstruct implementation of the applicable air quality plan? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| b) Violate any air quality standard or contribute substantially to an existing or projected air quality violation? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| c) Result in a cumulatively considerable net increase of any criteria pollutant for which the project region is non-attainment under an applicable federal or state ambient air quality standard (including releasing emissions which exceed quantitative thresholds for ozone precursors)? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| d) Expose sensitive receptors to substantial pollutant concentrations? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| e) Create objectionable odors affecting a substantial number of people? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |

Discussion

- a) The proposed general plan amendment affects a relatively small amount of land, 7.69 acres. The general plan shows approximately 1512 acres of land designated for Commercial use. If adopted, this project would increase that to approximately 1525 acres of Commercial property, an increase of approximately 0.8 percent, which is not considered a substantial change. This change would not be expected to conflict with or obstruct the implementation of any air quality plan.
- b) The County of Stanislaus is processing a zone change on the project site to restrict development to mini-storage and associated recreational vehicle storage. Any changes to that zone will require additional environmental review. Mini-storage would have a negligible effect on air quality because it is a low traffic generator. It is the responsibility of the County to solicit comments from other responsible agencies, such as the San Joaquin Valley Air Pollution District, to determine which air quality regulations, if any, must be applied to the project.
- c) See Item b above.
- d) See Item b above.
- e) Changing the land use designation from Residential to Commercial would result in no objectionable odors.

Resource

See pages V-2-1 to V-2-29 in the MEIR.

	Potentially Significant Impact	Less Than Significant with Mitigation	Less Than Significant Impact	No Impact
--	--------------------------------	---------------------------------------	------------------------------	-----------

IV. BIOLOGICAL RESOURCES: Would the project:

a) Have a substantial adverse effect, either directly or through habitat modifications, on any species identified as a candidate, sensitive, or special status species in local or regional plans, policies, or regulations, or by the California Department of Fish and Game or U.S. Fish and Wildlife Service?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
b) Have a substantial adverse effect on any riparian habitat or other sensitive natural community identified in local or regional plans, policies, regulations or by the California Department of Fish and Game or US Fish and Wildlife Service?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
c) Have a substantial adverse effect on federally protected wetlands as defined by Section 404 of the Clean Water Act (including, but not limited to, marsh, vernal pool, coastal, etc.) through direct removal, filling, hydrological interruption, or other means?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
d) Interfere substantially with the movement of any native resident or migratory fish or wildlife species or with established native resident or migratory wildlife corridors, or impede the use of native wildlife nursery sites?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
e) Conflict with any local policies or ordinances protecting biological resources such as a tree preservation policy or ordinance?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
f) Conflict with the provisions of an adopted Habitat Conservation Plan, Natural Community Conservation Plan, or other approved local regional or state habitat conservation plan?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Discussion

- a) The project site is not a biologically sensitive site as defined by Figures V-7-1 of the MEIR. The California Department of Fish and Game and the U.S. Fish and Wildlife Service were consulted in the production of the MEIR.
- b) See Item a above
- c) The site does not qualify as a federally protected wetland per Section 404 of the Clean Water Act.
- d) The movement of fish or birds or other wildlife would not be affected by the project.
- e) There is no conflict with any local policies or ordinances protecting biological resources.
- f) There is no conflict with any adopted habitat conservation plan, natural community conservation plan, or other approved local regional or state habitat conservation plan.

Resource

See pages V-7-1 to V-7-31 in the MEIR

	Potentially Significant Impact	Less Than Significant with Mitigation	Less Than Significant Impact	No Impact
--	--------------------------------	---------------------------------------	------------------------------	-----------

V. CULTURAL RESOURCES: Would the project:

- | | | | | |
|---|--------------------------|--------------------------|--------------------------|-------------------------------------|
| a) Cause a substantial adverse change in the significance of a historical resource as defined in §15064.5? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| b) Cause a substantial adverse change in the significance of an archaeological resource pursuant to §15064.5? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| c) Directly or indirectly destroy a unique paleontological resource or site or unique geologic feature? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| d) Disturb any human remains, including those interred outside of formal cemeteries? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |

Discussion

- a) The project is consistent with the historical resource policies in the General Plan.
- b) The project is consistent with the archaeological resource policies in the General Plan. The project was referred to the Native American Tribes for consultation and no concerns were indicated.
- c) The proposed project would not affect a unique paleontological resource or site or a unique geologic feature.
- d) The proposed project is not expected to disturb any human remains.

Resource

See pages V-8-1 to V-8-25 in the MEIR.

	Potentially Significant Impact	Less Than Significant with Mitigation	Less Than Significant Impact	No Impact
--	--------------------------------	---------------------------------------	------------------------------	-----------

VI. GEOLOGY AND SOILS: Would the project:

a) Expose people or structures to potential substantial adverse effects, including the risk of loss, injury, or death involving:	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
i) Rupture of a known earthquake fault, as delineated on the most recent Alquist-Priolo Earthquake Fault Zoning Map issued by the State Geologist for the area or based on other substantial evidence of a known fault? Refer to Division of Mines and Geology Special Publication 42?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
ii) Strong seismic ground shaking?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
iii) Seismic-related ground failure, including liquefaction?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
iv) Landslides?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
b) Result in substantial soil erosion or the loss of topsoil?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
c) Be located on a geologic unit or soil that is unstable, or that would become unstable as a result of the project, and potentially result in on- or off-site landslide, lateral spreading, subsidence, liquefaction or collapse?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
d) Be located on expansive soil, as defined in Table 18-1-B of the Uniform Building Code (1994), creating substantial risks to life or property?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
e) Have soils incapable of adequately supporting the use of septic tanks or alternative waste water disposal systems where sewers are not available for the disposal of waste water?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Discussion

- a) No faults known to be active or zoned as active by the State of California under the Alquist-Priolo Act are within the Modesto planning area. The risk of fault rupture in Modesto is considered low and related impacts are identified as less than significant. The site is flat and thus has no potential to slide or to be affected by landslides.
- b) The erosion hazard for soils in the Modesto planning area is generally considered slight. Activities required for construction have the potential to cause accelerated soil erosion. Standard City requirements are sufficient to avoid such erosion.
- c) The project would not be located on soil that is unstable, or that would become unstable as a result of the project.
- d) Information about the engineering properties of soils in Modesto is not readily available, but where soils are clay-rich, there may be some potential for expansive soils. Impacts related to the location of new development expansive soils would be assessed through the City's development review process and mitigated through conformance with the most recent UBC Standards.
- e) City sewer is available for this project.

Resource

See pages V-17-1 to V-17-16 in the MEIR.

	Potentially Significant Impact	Less Than Significant with Mitigation	Less Than Significant Impact	No Impact
--	--------------------------------	---------------------------------------	------------------------------	-----------

VII. GREENHOUSE GAS EMISSIONS: Would the project:

- | | | | | |
|--|--------------------------|--------------------------|-------------------------------------|-------------------------------------|
| a) Generate greenhouse gas emissions, either directly or indirectly, that may have a significant impact on the environment? | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> | <input type="checkbox"/> |
| b) Conflict with an applicable plan, policy or regulation adopted for the purpose of reducing the emissions of greenhouse gases? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |

Discussion

- a) The General Plan Master EIR addresses potential climate change impacts due to development and other activities associated with the Urban Area General Plan (UAGP). The Master EIR determined that buildout of the UAGP would make a cumulatively considerable contribution to global climate change. The UAGP nonetheless authorizes development that will contribute to global climate change through the production of greenhouse gases. The Master EIR states the projected rate of growth of vehicle miles traveled (VMT) will increase the City's contribution to global climate change as the City develops. Development under the general plan is expected to generate approximately 1,096,226.4 metric tons per year above 2005 emissions. The City Council adopted a Statement of Overriding Considerations in 2008, finding that the benefits of the UAGP outweighed the City's increased contribution to global climate change.
- b) The proposed project would not conflict with any applicable plan adopted for the purpose of reducing emissions of greenhouse gases

Resource

See pages V-21-1 to V-21-17 in the MEIR

	Potentially Significant Impact	Less Than Significant with Mitigation	Less Than Significant Impact	No Impact
--	--------------------------------	---------------------------------------	------------------------------	-----------

VIII. HAZARDS AND HAZARDOUS MATERIALS: Would the project:

- | | | | | |
|--|--------------------------|--------------------------|--------------------------|-------------------------------------|
| a) Create a significant hazard to the public or the environment through the routine transport, use, or disposal of hazardous materials? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| b) Create a significant hazard to the public or the environment through reasonably foreseeable upset and accident conditions involving the release of hazardous materials into the environment? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| c) Emit hazardous emissions or handle hazardous or acutely hazardous materials, substances, or waste within one-quarter mile of an existing or proposed school? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| d) Be located on a site which is included on a list of hazardous materials sites compiled pursuant to Government Code Section 65962.5 and, as a result, would it create a significant hazard to the public or the environment? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| e) For a project located within an airport land use plan or, where such a plan has not been adopted, within two miles of a public airport or public use airport, would the project result in a safety hazard for people residing or working in the project area? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| f) For a project within the vicinity of a private airstrip, would the project result in a safety hazard for people residing or working in the project area? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| g) Impair implementation of or physically interfere with an adopted emergency response plan or emergency evacuation plan? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| h) Expose people or structures to a significant risk of loss, injury or death involving wildland fires, including where wildlands are adjacent to urbanized areas or where residences are intermixed with wildlands? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |

Discussion

- a) No impact would be expected to result from the redesignation of the property from Residential to Commercial; any impacts would be related to development of the project site. Should the subject property, which lies outside the corporate limits of the City of Modesto, be developed as a result of the proposed general plan amendment prior to its annexation to the City, the County of Stanislaus would be responsible for ensuring compliance with applicable federal, state, and local regulations pertaining to the handling, storage, disposal, and transport of hazardous or toxic materials or wastes
- b) See Item a above.
- c) See Item a above.
- d) The proposed site is not on the list of hazardous materials site.
- e) The site is more than two miles from an airport.
- f) The site is not within the vicinity of a private airstrip.
- g) The proposed project would not interfere with any emergency response plan or evacuation plan
- h) No wild land is within the vicinity of the project site or within Modesto's Sphere of Influence.

Resource

See pages V-21-1 to V-21-19 in the MEIR

Potentially Significant Impact	Less Than Significant with Mitigation	Less Than Significant Impact	No Impact
--------------------------------	---------------------------------------	------------------------------	-----------

IX. HYDROLOGY AND WATER QUALITY: Would the project:

- | | | | | |
|---|--------------------------|--------------------------|--------------------------|-------------------------------------|
| a) Violate any water quality standards or waste discharge requirements? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| b) Substantially deplete groundwater supplies or interfere substantially with groundwater recharge such that there would be a net deficit in aquifer volume or a lowering of the local groundwater table level (e.g., the production rate of pre-existing nearby wells would drop to a level which would not support existing land uses or planned uses for which permits have been granted)? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| c) Substantially alter the existing drainage pattern of the site or area, including through the alteration of the course of a stream or river, in a manner which would result in substantial erosion or siltation on- or off-site? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| d) Substantially alter the existing drainage pattern of the site or area, including through the alteration of the course of a stream or river, or substantially increase the rate or amount of surface runoff in a manner which would result in flooding on- or off-site? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| e) Create or contribute runoff water which would exceed the capacity of existing or planned stormwater drainage systems or provide substantial additional sources of polluted runoff? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| f) Otherwise substantially degrade water quality? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| g) Place housing within a 100-year flood hazard area as mapped on a federal Flood Hazard Boundary or Flood Insurance Rate Map or the 200-year flood hazard area or other flood hazard delineation map? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| h) Place within a 100-year flood hazard area structures which would impede or redirect flood flows? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| i) Expose people or structures to a significant risk of loss, injury or death involving flooding, including flooding as a result of the failure of a levee or dam? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| j) Inundation by seiche, tsunami, or mudflow? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |

Discussion

- a) The general plan amendment from Residential to Commercial would not cause a violation of any standards. Development that may occur as a result of the general plan amendment would be required by the County of Stanislaus to comply with water quality standards and waste discharge requirements.
- b) Redesignating the project site from Residential to Commercial would have no direct effect on groundwater supplies or recharge. The amount of groundwater used and recharge ability are affected by the characteristics of development. However, water needs for development of a mini-storage facility, to which development on the site would be restricted, would be negligible and considerably less than residential development allowed under the existing residential general plan designation. Groundwater recharge would be affected by the amount of impervious surface on the site and by the manner in which runoff will be handled, which are details regulated by the County of Stanislaus, for development under its jurisdiction. No impacts are expected to occur as a result of the redesignation of the project site from Residential to Commercial.
- c) In its undeveloped state, stormwater is allowed to stand on the site and infiltrate the soil and shallow groundwater naturally. Commercial sites typically have a higher percentage of pavement than do residential sites, so the amount of runoff would be expected to increase as compared to development that would occur with the Residential designation. Stanislaus County will require that storm water be retained on the site and allowed to percolate into the soil, in accordance with the City of Modesto's standards.
- d) Any development that occurs will fall under the jurisdiction of the County of Stanislaus and will be subject to County regulations and oversight. Redesignating the property from Residential to Commercial would have no direct impact on site drainage or runoff.
- e) The project drainage and runoff would be required to meet storm water drainage standards and requirements and would not be expected to result in substantial polluted runoff.
- f) See Item b above.
- g) The project is not located within a 100-year floodplain or a 200-year floodplain and no related impacts would occur.
- h) See Item g above.
- i) See Item g above.
- j) The City of Modesto is not subject to risks related to seiche or tsunamis. Modesto is inland about 80 miles from the Pacific Ocean and has no large water bodies within its boundaries or nearby. The project site and the surrounding area is relatively flat is not subject to mudslides.

Resource

See pages V-9-1 to V-9-13 and V-10-1 to V-10-15 in the MEIR.

	Potentially Significant Impact	Less Than Significant with Mitigation	Less Than Significant Impact	No Impact
--	--------------------------------	---------------------------------------	------------------------------	-----------

X. LAND USE AND PLANNING: Would the project:

- | | | | | |
|---|--------------------------|--------------------------|--------------------------|-------------------------------------|
| a) Physically divide an established community? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| b) Conflict with any applicable land use plan, policy, or regulation of an agency with jurisdiction over the project (including, but not limited to the general plan, specific plan, local coastal program, or zoning ordinance) adopted for the purpose of avoiding or mitigating an environmental effect? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| c) Conflict with any applicable habitat conservation plan or natural community conservation plan? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |

Discussion

- a) Development of Commercial uses on the subject site would not physically divide an established community. The project site lies near the edge of a residential area to the south that is physically separated from the site by the Hetch Hetchy pipeline right of way. To the north is an industrial area, on the north side of Peanale Avenue. The site is northwest of an existing mobile home park that has no connections for cars, bicycles, or pedestrians to areas on the far side of the subject site.
- b) The project does not conflict with the land use plan, policies and regulations of the City of Modesto designed to mitigate environmental impacts. However, the project is a general plan amendment that would increase the Commercial-designated land in the area and reduce the Residential-designated land in the area. An earlier proposal for residential development on the subject site would have resulted in the construction of market-rate, detached single family houses. There is no shortage of land for development of this type of housing in the general plan area.
- c) The project does not conflict with applicable habitat conservation plans or natural community conservation plans, as there are none in Modesto or its Sphere of Influence.

Resource

See pages V-20-1 to V-20-21 in the MEIR

	Potentially Significant Impact	Less Than Significant with Mitigation	Less Than Significant Impact	No Impact
--	--------------------------------	---------------------------------------	------------------------------	-----------

XI. MINERAL RESOURCES: Would the project:

- | | | | | |
|---|--------------------------|--------------------------|--------------------------|-------------------------------------|
| a) Result in the loss of availability of a known mineral resource that would be of value to the region and the residents of the state? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| b) Result in the loss of availability of a locally-important mineral resource recovery site delineated on a local general plan, specific plan or other land use plan? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |

Discussion

- a) The site is in an urban area and there are no known mineral resources in the urban area.
- b) The site is not identified on any plan as a location with mineral resources.

	Potentially Significant Impact	Less Than Significant with Mitigation	Less Than Significant Impact	No Impact
--	--------------------------------	---------------------------------------	------------------------------	-----------

XII. NOISE: Would the project result in:

- | | | | | |
|---|--------------------------|--------------------------|--------------------------|-------------------------------------|
| a) Exposure of persons to or generation of noise levels in excess of standards established in the local general plan or noise ordinance, or applicable standards of other agencies? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| b) Exposure of persons to or generation of excessive groundborne vibration or groundborne noise levels? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| c) A substantial permanent increase in ambient noise levels in the project vicinity above levels existing without the project? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| d) A substantial temporary or periodic increase in ambient noise levels in the project vicinity above levels existing without the project? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| e) For a project located within an airport land use plan or, where such a plan has not been adopted, within two miles of a public airport or public use airport, would the project expose people residing or working in the project area to excessive noise levels? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| f) For a project within the vicinity of a private airstrip, would the project expose people residing or working in the project area to excessive noise levels? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |

Discussion

- a) The County of Stanislaus, which has jurisdiction over the subject site, is processing an application to rezone the site such that the use would be restricted to mini-storage and recreational vehicle storage. Activity at such a facility is quiet and most mini-storage facilities are walled for security, further decreasing the amount of noise that might be audible from nearby residences. Any change to the rezone that restricts development on the site to mini-storage and recreational vehicle storage would require additional environmental review.
- b) See Item a above.
- c) See Item a above.
- d) See Item a above.
- e) The project site is outside the area affected by the Modesto City-County Airport land use plan and would have no effect on people residing in the area affected by the airport land use plan.
- f) The project is not within the vicinity of a private airstrip.

Resource

See pages V-3-1 to V-3-23 in the MEIR

	Potential Significant Impact	Less Than Significant with Mitigation	Less Than Significant Impact	No Impact
--	------------------------------------	--	------------------------------------	--------------

XIII. POPULATION AND HOUSING: Would the project:

- | | | | | |
|---|--------------------------|--------------------------|--------------------------|-------------------------------------|
| a) Induce substantial population growth in an area, either directly (for example, by proposing new homes and businesses) or indirectly (for example, through extension of roads or other infrastructure)? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| b) Displace substantial numbers of existing housing, necessitating the construction of replacement housing elsewhere? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| c) Displace substantial numbers of people, necessitating the construction of replacement housing elsewhere? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |

Discussion

- a) The project site is vacant with urban development nearby. Changing the land use designation on the 12.3-acre site from Residential to Commercial will not displace existing housing, but will reduce the sites available for new market rate housing in Modesto. The 2015 – 2023 Housing Element of Modesto's general plan shows there is adequate land available for market-rate housing to serve the City's needs.
- b) The project site is vacant, therefore no residential development will be displaced
- c) See Item b above.

Potentially Significant Impact	Less Than Significant with Mitigation	Less Than Significant Impact	No Impact
--------------------------------	---------------------------------------	------------------------------	-----------

XIV. PUBLIC SERVICES:

a) Would the project result in substantial adverse physical impacts associated with the provision of new or physically altered governmental facilities, need for new or physically altered governmental facilities, the construction of which could cause significant environmental impacts, in order to maintain acceptable service ratios, response times or other performance objectives for any of the public services:	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
Fire protection?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
Police protection?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
Schools?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
Parks?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
Other public facilities?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Discussion

a) The proposed general plan amendment from Residential to Commercial would not result in the need for construction of new or significantly altered police and fire facilities. The County of Stanislaus is processing a zone change for the subject site that would restrict development to mini-storage and recreational vehicle storage. This use would result in no significant change in the need for fire, police, schools, parks, or other facilities, as compared to residential development that could occur under the existing Residential designation. In fact, impacts on facilities like schools and parks would be less if the site is developed as a mini-storage facility than if it is residential, because mini-storage does not increase the use of such public services. Comments were solicited from Modesto City Schools, which had no concerns with redesignating the site to Commercial.

Resource

See pages V-11-1 to V-11-12, V-12-1 to V-12-11, V-13-1 to V-13-8, and V-14-1 to V-14-11 in the MEIR

	Potentially Significant Impact	Less Than Significant with Mitigation	Less Than Significant Impact	No Impact
--	--------------------------------	---------------------------------------	------------------------------	-----------

XV. RECREATION:

a) Would the project increase the use of existing neighborhood and regional parks or other recreational facilities such that substantial physical deterioration of the facility would occur or be accelerated?

b) Does the project include recreational facilities or require the construction or expansion of recreational facilities which might have an adverse physical effect on the environment?

Discussion

- a) The redesignation of the site from Residential to Commercial would eliminate any potential impacts on recreation facilities.
- b) See Item a above.

Resource

See pages V-11-1 to V-11-12 in the MEIR

	Potentially Significant Impact	Less Than Significant with Mitigation	Less Than Significant Impact	No Impact
--	--------------------------------	---------------------------------------	------------------------------	-----------

XVI. TRANSPORTATION/TRAFFIC: Would the project:

a) Conflict with an applicable plan, ordinance or policy establishing measures of effectiveness for the performance of the circulation system, taking into account all modes of transportation including mass transit and non-motorized travel and relevant components of the circulation system, including but not limited to intersections, streets, highways and freeways, pedestrian and bicycle paths, and mass transit?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
b) Conflict with an applicable congestion management program, including, but not limited to level of service standards and travel demand measures, or other standards established by the county congestion management agency for designated roads or highways?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
c) Result in a change in air traffic patterns, including either an increase in traffic levels or a change in location that results in substantial safety risks?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
d) Substantially increase hazards due to a design feature (e.g., sharp curves or dangerous intersections) or incompatible uses (e.g., farm equipment)?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
e) Result in inadequate emergency access?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
f) Conflict with adopted policies, plans or programs regarding public transit, bicycle, or pedestrian facilities, or otherwise decrease the performance or safety of such facilities?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Discussion

- a) The proposed general plan amendment from Residential to Commercial and rezoning by the County of Stanislaus to restrict development to mini-storage and recreational vehicle parking would result in no impact on circulation policies.

The existing Residential designation would generate approximately 0.77 AM peak hour trips per dwelling unit and approximately 1.02 PM peak hour trips per dwelling unit for single family detached development. If the property were developed with apartments, approximately 0.55 AM peak hour trips per dwelling unit and approximately 0.67 PM peak hour trips per dwelling unit would be generated.

Of the 12.3 acres proposed for redesignation, 7.69 acres are vacant. This property could be developed with 30 single family detached houses (R-1 zone) up to 219 apartments (R-3 zone). This would result in approximately 23 AM peak hour trips or 30 PM peak hour trips for single-family detached dwellings and approximately 120 AM peak hour trips or 146 PM peak hour trips for apartments.

By comparison, mini-storage is most heavily utilized during the weekend, while peak hour traffic occurs during weekdays. Mini-storage generates approximately 0.18 trips per 1,000 square feet of rentable area in the AM peak hour and 0.22 trips per 1,000 square feet of rentable area in the PM peak hour. Assuming that approximately 80,000 square feet of rentable area were constructed under the Commercial designation, development might result in approximately 14 AM peak hour trips and 17 peak hour trips. This is about two-thirds of the traffic expected to occur with single family residential development and about 12 percent of the traffic expected to occur with apartments. Therefore, peak hour traffic associated with the project would be less than that associated with the existing general plan designation.

- b) Mini-storage generates less traffic than does residential development. The general plan amendment would not generate more than 100 peak hour trips in excess of what was evaluated by the General Plan Master EIR, the threshold for a traffic study. Any change to the zoning would require further environmental review.
- c) See item a above.
- d) The project would not impact air traffic patterns. It is more than two miles from the nearest airport (threshold for analysis in VIII Hazards and Hazardous Materials) and would have no effect on aircraft activity in or around the airport.
- e) There would be no increase in traffic hazards associated with changing the land use designation from Residential to Commercial.
- f) The Fire Department reviewed the project and did not identify any problems with emergency access.
- g) The project would not conflict with any alternative transportation plan.

Resource

See pages V-1-1 to V-1-36 in the MEIR

	Potentially Significant Impact	Less Than Significant with Mitigation	Less Than Significant Impact	No Impact
--	--------------------------------	---------------------------------------	------------------------------	-----------

XVII. UTILITIES AND SERVICE SYSTEMS: Would the project:

- | | | | | |
|---|--------------------------|--------------------------|--------------------------|-------------------------------------|
| a) Exceed wastewater treatment requirements of the applicable Regional Water Quality Control Board? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| b) Require or result in the construction of new water or wastewater treatment facilities or expansion of existing facilities, the construction of which could cause significant environmental effects? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| c) Require or result in the construction of new storm water drainage facilities or expansion of existing facilities, the construction of which could cause significant environmental effects? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| d) Have sufficient water supplies available to serve the project from existing entitlements and resources, or are new or expanded entitlements needed? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| e) Result in a determination by the wastewater treatment provider which serves or may serve the project that it has adequate capacity to serve the project's projected demand in addition to the provider's existing commitments? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| f) Be served by a landfill with sufficient permitted capacity to accommodate the project's solid waste disposal needs? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| g) Comply with federal, state, and local statutes and regulations related to solid waste? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |

Discussion

a-g) The project is a general plan amendment on a site that lies outside the City's corporate limits. Any entitlement on the site that may be received and processed by the County will be referred to City staff for comment. Utilities and services outside the corporate limits of Modesto are typically provided by the governing jurisdiction. However, there is a 10-inch water line located in Pelandale Avenue that would provide service to the site. A septic system would be used to address wastewater needs. Stanislaus County will require storm drainage be retained on the site, in accordance with the City of Modesto's standards.

Any new development that occurs within the corporate limits of Modesto will be required to comply with all applicable federal, state, and local regulations and policies, including those related to wastewater, water supply, solid waste, and storm water. Additionally, the San Francisco Public Utilities Commission has indicated that all proposals involving the development or use of its right of way are subject to the agency's project review process.

Resource

See pages V-5-1 to V-5-16, V-6-1 to V-6-12, V-9-1 to V-9-12, and V-15-1 to V-15-10 in the M&IR

Potentially Significant Impact	Less Than Significant with Mitigation	Less Than Significant Impact	No Impact
--------------------------------	---------------------------------------	------------------------------	-----------

XVIII. MANDATORY FINDINGS OF SIGNIFICANCE

- | | | | | |
|--|--------------------------|--------------------------|--------------------------|-------------------------------------|
| a) Does the project have the potential to degrade the quality of the environment, substantially reduce the habitat of a fish or wildlife species, cause a fish or wildlife population to drop below self-sustaining levels, threaten to eliminate a plant or animal community, substantially reduce the number or restrict the range of a rare or endangered plant or animal or eliminate important examples of the major periods of California history or prehistory? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| b) Does the project have impacts that are individually limited, but cumulatively considerable? ("Cumulatively considerable" means that the incremental effects of a project are considerable when viewed in connection with the effects of past projects, the effects of other current projects, and the effects of probable future projects)? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| c) Does the project have environmental effects which will cause substantial adverse effects on human beings, either directly or indirectly? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |

Discussion

- a) As discussed in Section IV Biological Resources the project would not impact any wildlife habitat
- b) The project would not result in any significant cumulative impact beyond those identified in the General Plan Master EIR.
- c) This document identifies that the project would have some environmental impact. Impacts resulting from the existing Residential land use designation such as impacts on the use of recreational facilities, schools, and on water supplies, would be reduced by changing the designation to Commercial. Impacts that might occur from the change to Commercial, such as those to traffic and air quality, would be minimal due to the County having rezoned the subject site to restrict development to mini-storage and recreational vehicle storage, which has a very small impact on the environment. Any change to this zone would result in the need for further environmental review. Therefore, the impacts that may result from this project are less than significant.

**MODESTO CITY COUNCIL
RESOLUTION NO. 2019-195**

**RESOLUTION APPROVING AN AMENDMENT TO THE LAND USE
DIAGRAM OF THE MODESTO URBAN AREA GENERAL PLAN TO CHANGE
THE DESIGNATION FROM R (RESIDENTIAL) TO C (COMMERCIAL) FOR
APPROXIMATELY 10.6 ACRES OF LAND LOCATED SOUTH OF
PELANDALE AVENUE AND WEST OF McHENRY AVENUE**

WHEREAS, on March 5, 2019, the City Council of the City of Modesto certified the Final Master Environmental Impact Report (“Master EIR”) (SCH No. 2014042081) for the Modesto Urban Area General Plan, and

WHEREAS, a new General Plan for the City of Modesto entitled “City of Modesto Urban Area General Plan”, as recommended by the Modesto City Planning Commission, was adopted by the Council of the City of Modesto by Resolution No. 95-409 on August 15, 1995, and

WHEREAS, said General Plan has been amended by Modesto City Council Resolution Nos. 95-584, 96-20, 96-338, 96-639, 97-3, 97-137, 97-158, 98-293, 99-162, 99-564, 2000-303, 2000-633, 2001-47, 2001-476, 2002-154, 2002-526, 2003-101, 2003-122, 2004-233, 2005-70, 2007-066, 2007-599, 2008-142, 2008-583, 2009-419, 2011-253, 2011-254, 2011-435, 2012-430, 2014-17, 2014-422, 2015-262, 2016-34, 2017-21, and 2019-109, copies of which are on file in the office of the City Clerk, and

WHEREAS, Government Code Section 65358 permits the amendment of general plans by the legislative body, and

WHEREAS, Douglas Family Trust has applied for an amendment to the Modesto Urban Area General Plan to change the designation from R (Residential) to C (Commercial) for approximately 10.6 acres of land south of Pelandale Avenue and west of McHenry Avenue, and

WHEREAS, the Community & Economic Development Department has analyzed the proposed amendment and concluded that there would be no significant impacts on the environment, and a Negative Declaration has been prepared for the proposed project, and

WHEREAS, on March 18, 2019, the Planning Commission held a duly noticed public hearing in the Tenth Street Place Chambers located at 1010 Tenth Street, Modesto, California, relating to this proposed amendment to the Modesto Urban Area General Plan to change the designation on approximately 10.6 acres of land from R (Residential) to C (Commercial), and

WHEREAS, after said public hearing, the Planning Commission adopted Resolution No. 2019-09, recommending to the City Council an amendment to the Modesto Urban Area General Plan to change the designation on approximately 10.6 acres of land from R (Residential) to C (Commercial), and

WHEREAS, said matter was set for a public hearing of the City Council to be held on April 23, 2019, in the Tenth Street Place Chambers located at 1010 Tenth Street, Modesto, California, at which date and time said duly noticed public hearing of the Council was held for the purpose of receiving public comment on the proposed amendment to the Modesto Urban Area General Plan to change the designation on approximately 10.6 acres of land from R (Residential) to C (Commercial).

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby finds and determines that the proposed amendment to the Modesto Urban General Plan to as described in **Exhibit "A"**, **attached** hereto and incorporated herein by reference, is necessary to facilitate future commercial development of property identified

as Assessor's Parcel Numbers 046-005-002 and 046-005-003, and portions of 046-009-008, 046-005-022 and 046-009-023..

BE IT FURTHER RESOLVED by the Council of the City of Modesto that it hereby adopts the proposed amendment to the Urban Area General Plan as described in **Exhibit "A"**, attached hereto and incorporated herein by reference.

BE IT FURTHER RESOLVED by the Council of the City of Modesto that the Community and Economic Development Department Director is hereby authorized and directed to forward certified copies of this resolution and said amendment to the Urban Area General Plan to the Board of Supervisors, and file a Notice of Determination within five (5) business days with the Stanislaus County Clerk pursuant to Section 21152 of the Public Resources Code.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 23rd day of April, 2019, by Councilmember Ridenour, who moved for its adoption, which motion being duly seconded by Councilmember Kenoyer, was upon roll call carried and the resolution adopted by the following vote:

CURRENT GENERAL PLAN LAND USE

PROPOSED GENERAL PLAN LAND USE

Proposed General Plan Amendment from Residential (R) to Commercial (C)

**MODESTO CITY COUNCIL
RESOLUTION NO. 2019-196**

**RESOLUTION APPROVING THE SPECIFIC PLAN REIMBURSEMENT FEE
FOR THE TIVOLI SPECIFIC PLAN AREA**

WHEREAS, on June 24, 2008 the Tivoli Specific Plan was adopted by the Modesto City Council by Ordinance 3479-C.S., and

WHEREAS, the Tivoli Specific Plan outlines a plan for the development of approximately 454 unincorporated acres located north of Sylvan Avenue, east of Oakdale Road, and west of Roselle, with the northern boundary to be the future expansion of Claratina Avenue from Oakdale Road to Roselle Avenue, and

WHEREAS, in October 1998 the City Council adopted a Specific Plan Reimbursement Fee Ordinance – Modesto Municipal Code Section 10.9.1101 – 10.9.1104, and

WHEREAS, the preparation of the Tivoli Specific Plan, preparation of a Facilities Master Plan, Infrastructure Finance Plan, and for the formation of a Community Facilities District was funded by Russell A. Newman, Professional Law Corporation, Tom Trombetta, an Individual and Sherry Trombetta, an Individual (“Applicant”), and

WHEREAS, Government Code Section 65456 allows the City Council, by resolution, to fix a specific plan fee to reimburse persons, including the City, for the cost of preparation, adoption, and administration of any Specific Plan that was prepared pursuant to state law requirements, and

WHEREAS, the repayment for expenses incurred in the connection with the project was outlined in the Amended Advanced Funding Agreement for the Tivoli Specific Plan Area by and between the City and the Applicant relating to advances made

and to be made by the Applicant to the City, and providing for the potential reimbursement to the Applicant if and when certain funds from the Tivoli CFD become available, and

WHEREAS, pursuant to Modesto Municipal Code Section 10.9.1102(a) of the Modesto Municipal Code, that the following three findings were made:

Finding No. 1:

That the cost for which the Specific Plan Fee is being assessed are reasonable and were necessarily incurred in the preparation, adoption and administration of the Specific Plan, including Environmental Review.

Analysis:

Total costs to be included in the fee include; Labor costs (city staff time), Printing costs, Mailing costs, and Environmental Review (EIR). The total amount is \$2,661,494.50.

Finding No. 2:

That the Specific Plan fee defrays but does not exceed the actual cost of the services and/or expenses incurred in the preparation, adoption and administration of the Specific Plan.

Analysis:

The proposed fee would reimburse the total amount of \$2,661,494.50 which does not exceed the costs of services.

Finding No. 3:

That the Specific Plan fee is being fairly prorated among the parcels included in the Specific Plan based on the relative benefit that each parcel has derived from

the Specific Plan based upon the savings resulting from reducing the cost of documenting environmental consequences and advocating changed land uses which may be authorized pursuant to the Specific Plan.

Analysis:

All thirty-five parcels receive direct benefit from the Specific Plan preparation and EIR; therefore, the costs have been prorated based on the net acreage of each property.

WHEREAS, pursuant to Modesto Municipal Code Section 10.9.1102(b), this resolution contains the following:

- (1) An itemized list, together with a specific description, of the costs for which the Specific Plan fees are being assessed and the total amount of the assessment
- (2) A description of the specific parcels of land which are benefitted and against which the fees are assessed
- (3) A statement indicating the amount of the total assessment that is allocated against each parcel of property in the Specific Plan area and the method of allocation, including any exemptions or credits against the assessment

NOW, THEREFORE, BE IT by the Council of the City of Modesto that it hereby sets the proposed Specific Plan Reimbursement Fee for the Tivoli Specific Plan Area pursuant to the City's Specific Plan Reimbursement Ordinance.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 23rd day of April, 2019, by Councilmember Zoslocki, who moved for its adoption, which motion being duly seconded by Councilmember Ridenour, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Ah You, Kenoyer, Madrigal, Ridenour, Zoslocki, Mayor Brandvold

NOES: Councilmembers: None

**MODESTO CITY COUNCIL
RESOLUTION NO. 2019-197**

**RESOLUTION APPROVING A VOLUNTARY LAND DEDICATION
PROGRAM FOR THE TIVOLI SPECIFIC PLAN AREA**

WHEREAS, the City Council of the City of Modesto previously adopted the Tivoli Specific Plan in 2008, which covers approximately 454 acres of unincorporated Stanislaus County, adjacent to the north-eastern boundary of the City of Modesto (the “Specific Plan Area”); and

WHEREAS, the Tivoli Specific Plan is a comprehensive planning documents for the development of the Specific Plan Area for its eventual annexation in the City of Modesto; and

WHEREAS, development of the Specific Plan Area will require the provision of public infrastructure and services, and the Tivoli Specific Plan includes plans to insure that public infrastructure is constructed in a timely and logical manner prior to or concurrent with development; and

WHEREAS, the Tivoli Specific Plan, and other related facilities plans, quantify the right-of-way or other public lands necessary to construct the “backbone” infrastructure for the Specific Plan Area; and

WHEREAS, property owners in the Specific Plan Area will be required to offer for dedication to the City certain lands for such infrastructure; and

WHEREAS, rising land values have triggered the need to consider and evaluate alternative methods for the City obtaining the public land needed to develop the Specific Plan Area, and the Tivoli Specific Plan anticipates the creation of a Volunteer Land Dedication Program (“VLDP”); and

WHEREAS, the City retained Economic & Planning Systems, Inc. to prepare the Tivoli Specific Plan Public Land Equalization Fee Program and Volunteer Land Dedication Plan (the “Plan”); and

WHEREAS, the purpose of the Land Equalization Fee Program is to equalize payment among property owners in the Specific Plan Area so that each owner has the same proportionate obligation to provide land for the backbone public infrastructure serving the Specific Plan Area and to provide the required nexus findings for the City to implement the Public Land Equalization Fee (“LEFP”); and

WHEREAS, property owners in the Specific Plan Area will be required to pay the LEFP prior to the development of their property; and

WHEREAS, the Plan identifies the total developable acreage in the Specific Plan Area and the amount of acreage necessary for the public infrastructure; and

WHEREAS, the Plan provides that the amount of the LEFP will be determined based on the value of the land required for the public infrastructure using a 3-year rolling average of land appraisals, and the initial appraisal will not be completed until the year in which the first final small lot map is anticipated to be recorded in the Specific Plan Area; and

WHEREAS, it is important to insure that public infrastructure is constructed in a timely and logical manner, and not piecemeal as individual properties develop and are required to pay the LEFP; and

WHEREAS, the purpose of the VLDP is to calculate the acreage that each property owner who develops property in Specific Plan Area is required to contribute for the public infrastructure serving the Specific Plan Area, and incentivize property owners

to dedicate such acreage to the City at the earliest possible date to insure the infrastructure is construed in a timely manner; and

WHEREAS, the VDLP analyzes gross developable acreage and the amount of land needed to develop the public infrastructure for the Specific Plan Area, creates a fair share contribution percentage, and provides a mechanism for equalizing the dedication responsibilities across the Specific Plan Area; and

WHEREAS, under the proposed VLDP, property owners who, on or before the last business day in 2019, offer the City an irrevocable offer of dedication of property on which the public infrastructure can be developed will receive fee credits that can be used to offset requirements under the Land Equalization Fee Program; and

WHEREAS, participation in the VLDP is entirely voluntary, and the opportunity to participate in the VLDP will be available to all property owners within the Specific Plan Area, subject to the requirements of the VLDP; and

WHEREAS, the City Council desires to adopt the Plan, including the VLDP, in order to insure that public infrastructure for the Specific Plan Area is constructed in a timely and logical manner prior to or concurrent with development, and that each property owner has the same proportionate obligation to provide land for the backbone public infrastructure serving the Specific Plan Area; and

WHEREAS, the City Council held a duly noticed public hearing to consider adoption of the VLDP on April 23, 2019, at which time all interested persons had the opportunity to be heard.

NOW, THEREFORE, BE IT RESOLVED the City Council of the City of Modesto does hereby adopts a Voluntary Land Dedication Program:

1. ADOPTION OF PLAN. The Modesto Tivoli Specific Plan Public Land Equalization Fee Program and Volunteer Land Dedication Plan, **attached** hereto as **Exhibit A**, is hereby adopted. The City Council finds that this plan is consistent with the Tivoli Specific Plan, and necessary to administer and implement the Tivoli Specific Plan. There is a reasonable relationship and nexus between the Land Equalization Fee Program and the City's need to acquire land on which public facilities will be constructed to serve the new residential and nonresidential development in the Specific Plan Area. The City Council finds and declares that the nexus findings set forth in Section 5 of the Plan are true and accurate, and hereby adopts such findings in accordance with the requirements of Government Code section 66000 et seq.

2. CALIFORNIA ENVIRONMENTAL QUALITY ACT ("CEQA"). This proposed Resolution is exempt from California Environmental Quality Act ("CEQA") pursuant to CEQA Guidelines section 15061(b)(3) of the State CEQA Guidelines. Specifically, this Resolution will not result in a direct or reasonably foreseeable indirect physical change in the environment because it does not authorize the construction of any new large structures or other physical changes resulting in impacts to the environment. Although the Resolution anticipates the development of certain public infrastructure facilities, it does not authorize such facilities, and additional action by the City is necessary before such public infrastructure facilities are approved.

3. SEVERABILITY. If any provision of this Resolution or the application thereof to any person or circumstance is held invalid, such invalidity shall not affect other

provisions or applications of this Resolution which can be given effect without the invalid provision or application, and to this end the provisions of this Resolution are severable. This City Council declares that it would have adopted this Resolution irrespective of the invalidity of any particular portion thereof and intends that the invalid portions should be severed and the balance of the Resolution be enforced.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 23rd day of April, 2019, by Councilmember Ridenour, who moved for its adoption, which motion being duly seconded by Councilmember Zoslocki, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Ah You, Kenoyer, Madrigal, Ridenour, Zoslocki, Mayor Brandvold

NOES: Councilmembers: None

1. EXECUTIVE SUMMARY

Introduction

Economic & Planning Systems, Inc. (EPS) has prepared this Public Land Equalization Fee Program and Voluntary Land Dedication Plan at the request of the City of Modesto (City) and various property owners in the Tivoli Specific Plan (Specific Plan or Specific Plan Area). This document provides the required nexus findings for the City to implement the Public Land Equalization Fee (Fee, Fee Program, or LEFP).

Fee Program Overview

Purpose

The Fee is the mechanism identified in this Nexus Study to equalize payments among owners in the Specific Plan for their proportionate share of the Public Land requirement (as defined in this document). The purpose of the Fee is to ensure each developer pays the same proportionate obligation to the Public Land Requirement, subject to the procedures outlined in this Nexus Study.

Definitions

To aid in the understanding and administration of the Specific Plan Fee Program and Voluntary Land Dedication Plan, this document uses the following defined terms:

"Administration Fee" means the administration component of the Fee that will be collected to cover the City's cost of administering the Fee Program.

"City" means the City of Modesto.

"County" means the County of Stanislaus.

"Dedication" means the offer of Public Land to the City, through an Irrevocable Offer of Dedication (IOD), for Public Land required as a condition of development for properties within the boundaries of the Specific Plan.

"Developable Acreage" means land within the boundaries of the Specific Plan on which private development may take place and is composed of the gross acres of land area net of any land that would be required for major roadways and other public uses such as parks, open space, detention basins, sewer lift stations, etc.

"Fee" means the Public Land Equalization Fee.

"Fee Program or LEFP" means the City of Modesto Tivoli Specific Plan Public Land Equalization Fee Program.

"Fee Program Appraisal" means an appraisal of Public Land valuation prepared by an appraiser licensed by the State of California with the MAI designation. A Fee Program Appraisal will be commissioned by the City.

"Fee Program Reimbursement" means a cash reimbursement that would be owed to a property owner from Fee Program revenues only. Fee Program Reimbursement may be effectuated when a property owner has an executed Fee Program Reimbursement Agreement with the City and when Fee Program revenues are available.

"IOD" means Irrevocable Offer of Dedication, where a property owner would grant the offer of dedication to the City for Public Land.

"LEFP Fee Credits" means the fee credits that may be used to offset a property owner's Public Land obligation to the Fee Program. LEFP Fee Credits may be earned when a property owner offers the City an IOD for Public Land and has an executed LEFP Fee Credit Agreement with the City.

"Nexus Study" means this Fee Program Nexus Study as may be amended periodically by the City.

"Off-Site Land" means for any property owner, land that is not within the ownership of such property owner regardless of whether it is within or outside the Specific Plan Area boundaries.

"Public Land" means land identified by the City, through the Specific Plan entitlement and subsequent processing of additional entitlements for private development, required by the City to accommodate roadways or other public facilities required for all new private development within the Specific Plan Area boundaries. Most, if not all, Public Land is anticipated to be within the Specific Plan Area boundaries. As determined by the City, Public Land also may be outside the Specific Plan Area boundaries.

"Public Land Requirement" means a property owner's proportional obligation to Public Land as determined through this Nexus Study.

"Specific Plan or Specific Plan Area" means the Tivoli Specific Plan. In this document, the term Specific Plan generally is used to refer to the physical area of the Specific Plan in which the City has entitled land uses for potential future development. In some circumstances, the document also may refer to the actual Specific Plan document that was approved by the City.

"VLDP" means the Fee Program Voluntary Land Dedication Plan. As described herein, the Voluntary Land Dedication Plan is voluntary for any Specific Plan property owner, and property owners may elect to participate in the Voluntary Land Dedication Plan through the final business day of calendar year 2019.

VLDP Overview

Property owners within the boundaries of the Specific Plan Area recognize that for development to occur, the City will require dedication of several Public Land areas needed for roadways and other public facilities, such as drainage basin land. To facilitate orderly development and to provide an incentive for any Specific Plan property owner who wishes to participate, the City has elected to implement the VLDP as part of the Public Facility Fee Program.

The purpose of the VLDP would be to incentivize Specific Plan property owners to dedicate (offer an IOD to the City) Public Land on their respective property at the earliest possible date. Participation in the VLDP is entirely voluntary, and the opportunity to participate in the VLDP will be available to all Specific Plan property owners who execute an IOD and deliver the same to the City and enter into a VLDP Fee Credit Agreement with the City on or before the last business day in calendar year **2019**. IODs which are executed and delivered to the City after this time period shall NOT be eligible for LEFP Fee Credits; however, such Public Land dedications would be eligible for reimbursement from the Fee Program, subject to the prioritizations of reimbursements described in this document.

Fee Program Administration

The City will administer the Fee Program, and the cost of City Fee Program administration should be covered by the Administrative portion of the fee. City administration will entail ongoing monitoring of the Fee Program, including updates and adjustments to the Fee Program as may be required. The City will also administer preparation of the annual appraisal used for the Public Land value. As part of its administrative duties, the City will conduct annual and 5-year Fee Program reviews consistent with the requirements of California Government Code Section 66000 et seq.

2. SPECIFIC PLAN LAND USES

Project Land Uses

The Specific Plan includes a combination of planned residential and nonresidential development on approximately 345 developable acres.

Table 1 summarizes the Specific Plan land uses. Residential land uses are anticipated to comprise approximately 264 acres with residential densities ranging between 2.5 units per acre and 21 units per acre. The project is entitled for a minimum of 1,855 and a maximum of 3,241 single-family dwelling units. Because the exact unit count does not change the fees calculated in this analysis, this analysis is based on the assumption approximately 2,500 residential units may be completed.

Nonresidential uses comprise approximately 82 developable acres with 80.5 acres zoned for a mix of neighborhood-serving, regional-serving, and general commercial uses and 1.6 acres zoned for professional office.

The Specific Plan also included approximately 23 acres of already developed existing residential land uses along with approximately 6 acres of neighborhood commercial uses and 0.8 acres of professional office. Please refer to **Figures 1, 2, and 3** for the Specific Plan context, land uses, and the planned street hierarchy.

Developable Acreage of Specific Plan Land Uses

The term "Developable Acreage" refers to the land on which private development may take place and is composed of the gross acres of land area net of any land that would be required for major roadways and other public uses such as parks, open space, detention basins, sewer lift stations, etc. Developable Acreage, as defined in this report, is important as it is the basis on which the proportional obligation to Specific Plan Public Land is apportioned. **Table A-1** in **Appendix A**, includes each parcel within the boundaries of the Specific Plan by Stanislaus County Assessor's Parcel, excluding the existing uses, and the estimated developable acres for each parcel.

Table A-1 also calculates each Assessor's Parcel's percentage of total estimated Developable Acreage within the boundaries of the Specific Plan, again excluding existing uses.

**Table 1
Tivoli Specific Plan Public Land Equalization Fee Program
Specific Plan Summary**

Land Use	Developable Acres [1]	Units per Acre	Total Units [2]	F.A.R.	Total Building Sq. Ft.
Residential					
Very Low Density Residential	10.0	2.5	25	-	-
Low Density Residential	165.2	6.0	991	-	-
Medium Density Residential	46.3	13.0	602	-	-
Medium High Density Residential	42.0	21.0	882	-	-
Subtotal - Residential	263.5	-	2,500	-	-
Non-Residential					
Commercial [3]	80.5	-	-	0.29	1,004,186
Professional Office [4]	1.6	-	-	0.30	21,363
Subtotal - Non-Residential	82.1	-	-	-	1,025,549
Total	345.6	-	2,500	-	1,025,549

land use

Source: Tivoli Specific Plan.

[1] Acreage excludes the acreage of local roads and other public uses.

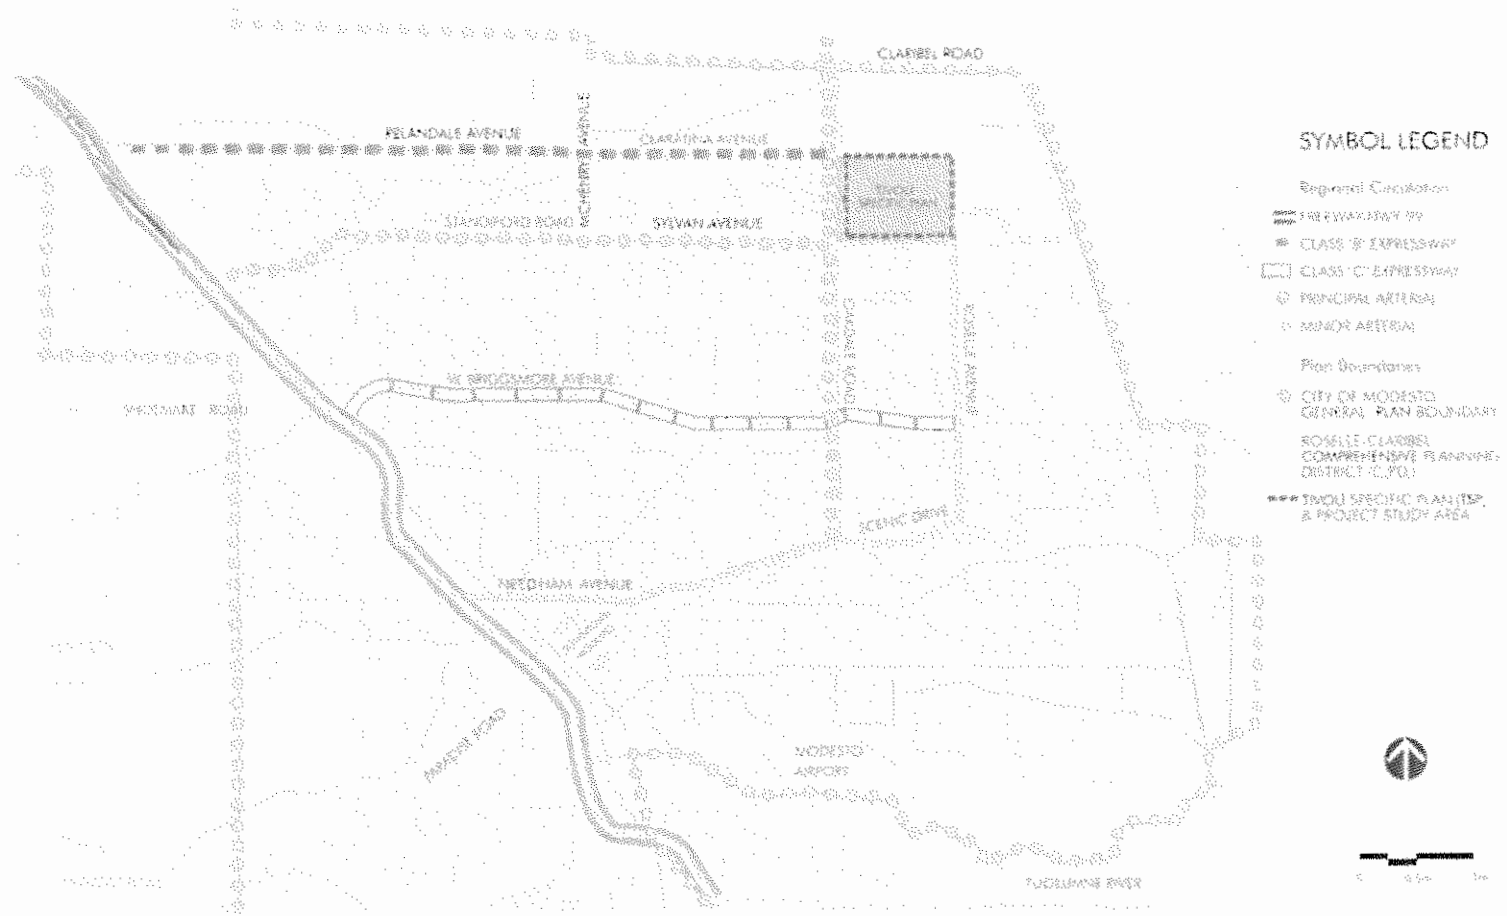

[2] The Specific Plan allows for a minimum of 1,855 and a maximum of 3,241 units in total.

An estimated 2,500 units were assumed for this analysis.

[3] The acreage, building square feet, and employment figures do not include 6.0 acres of existing neighborhood commercial development.

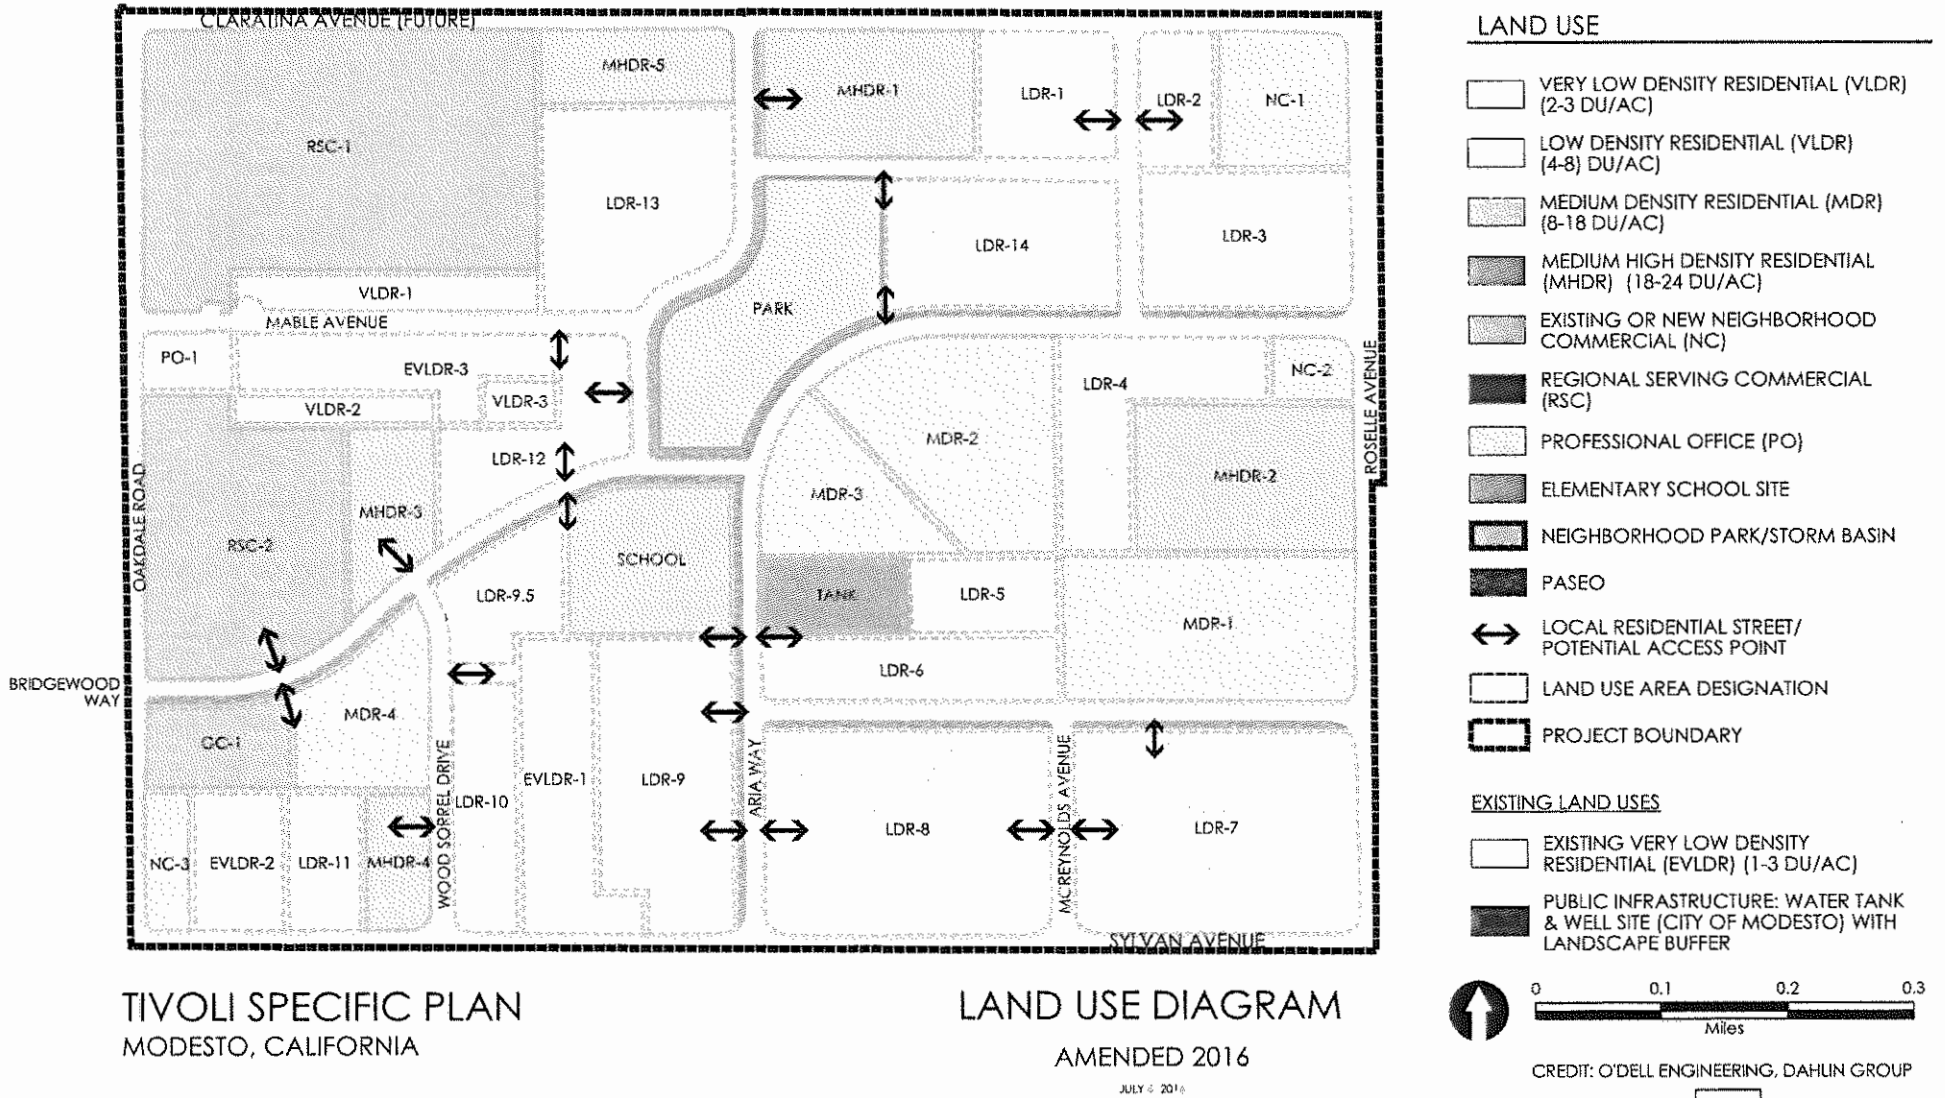

[4] The acreage, building square feet, and employment figures do not include 10,000 square feet of existing professional office development.

3. PUBLIC LAND EQUALIZATION FEE PROGRAM

Purpose

As a condition of Specific Plan approval, the City has or will require Specific Plan property owners to offer for dedication to the City certain lands for roadways or other public facilities. Throughout this document, these lands will be defined as "Public Land" or "Public Lands." **Table B-1** in **Appendix B** contains the land areas within the boundaries of the Specific Plan identified as Public Land. **Map 1** illustrates the Public Land areas included in the Fee Program. Specifically, the Specific Plan document identified the following areas as being Public Land for purposes of this study:

- Roadway right of way.
- Drainage basin/park land.

The Fee is the mechanism included in this study to equalize payments among owners in the Specific Plan for their proportionate share of the Public Land requirement. The City also has indicated that the number of Public Land acres will not change with a reduction in the number of units that might be entitled or developed in the Specific Plan Area, nor will offers to dedicate additional Public Land be credited against an owner's Public Land requirement. The purpose of the Fee is to ensure each developer pays the same proportionate obligation to the Public Land Requirement subject to the procedures outlined in this Nexus Study.

Public Land Definition, Requirement, and Determination

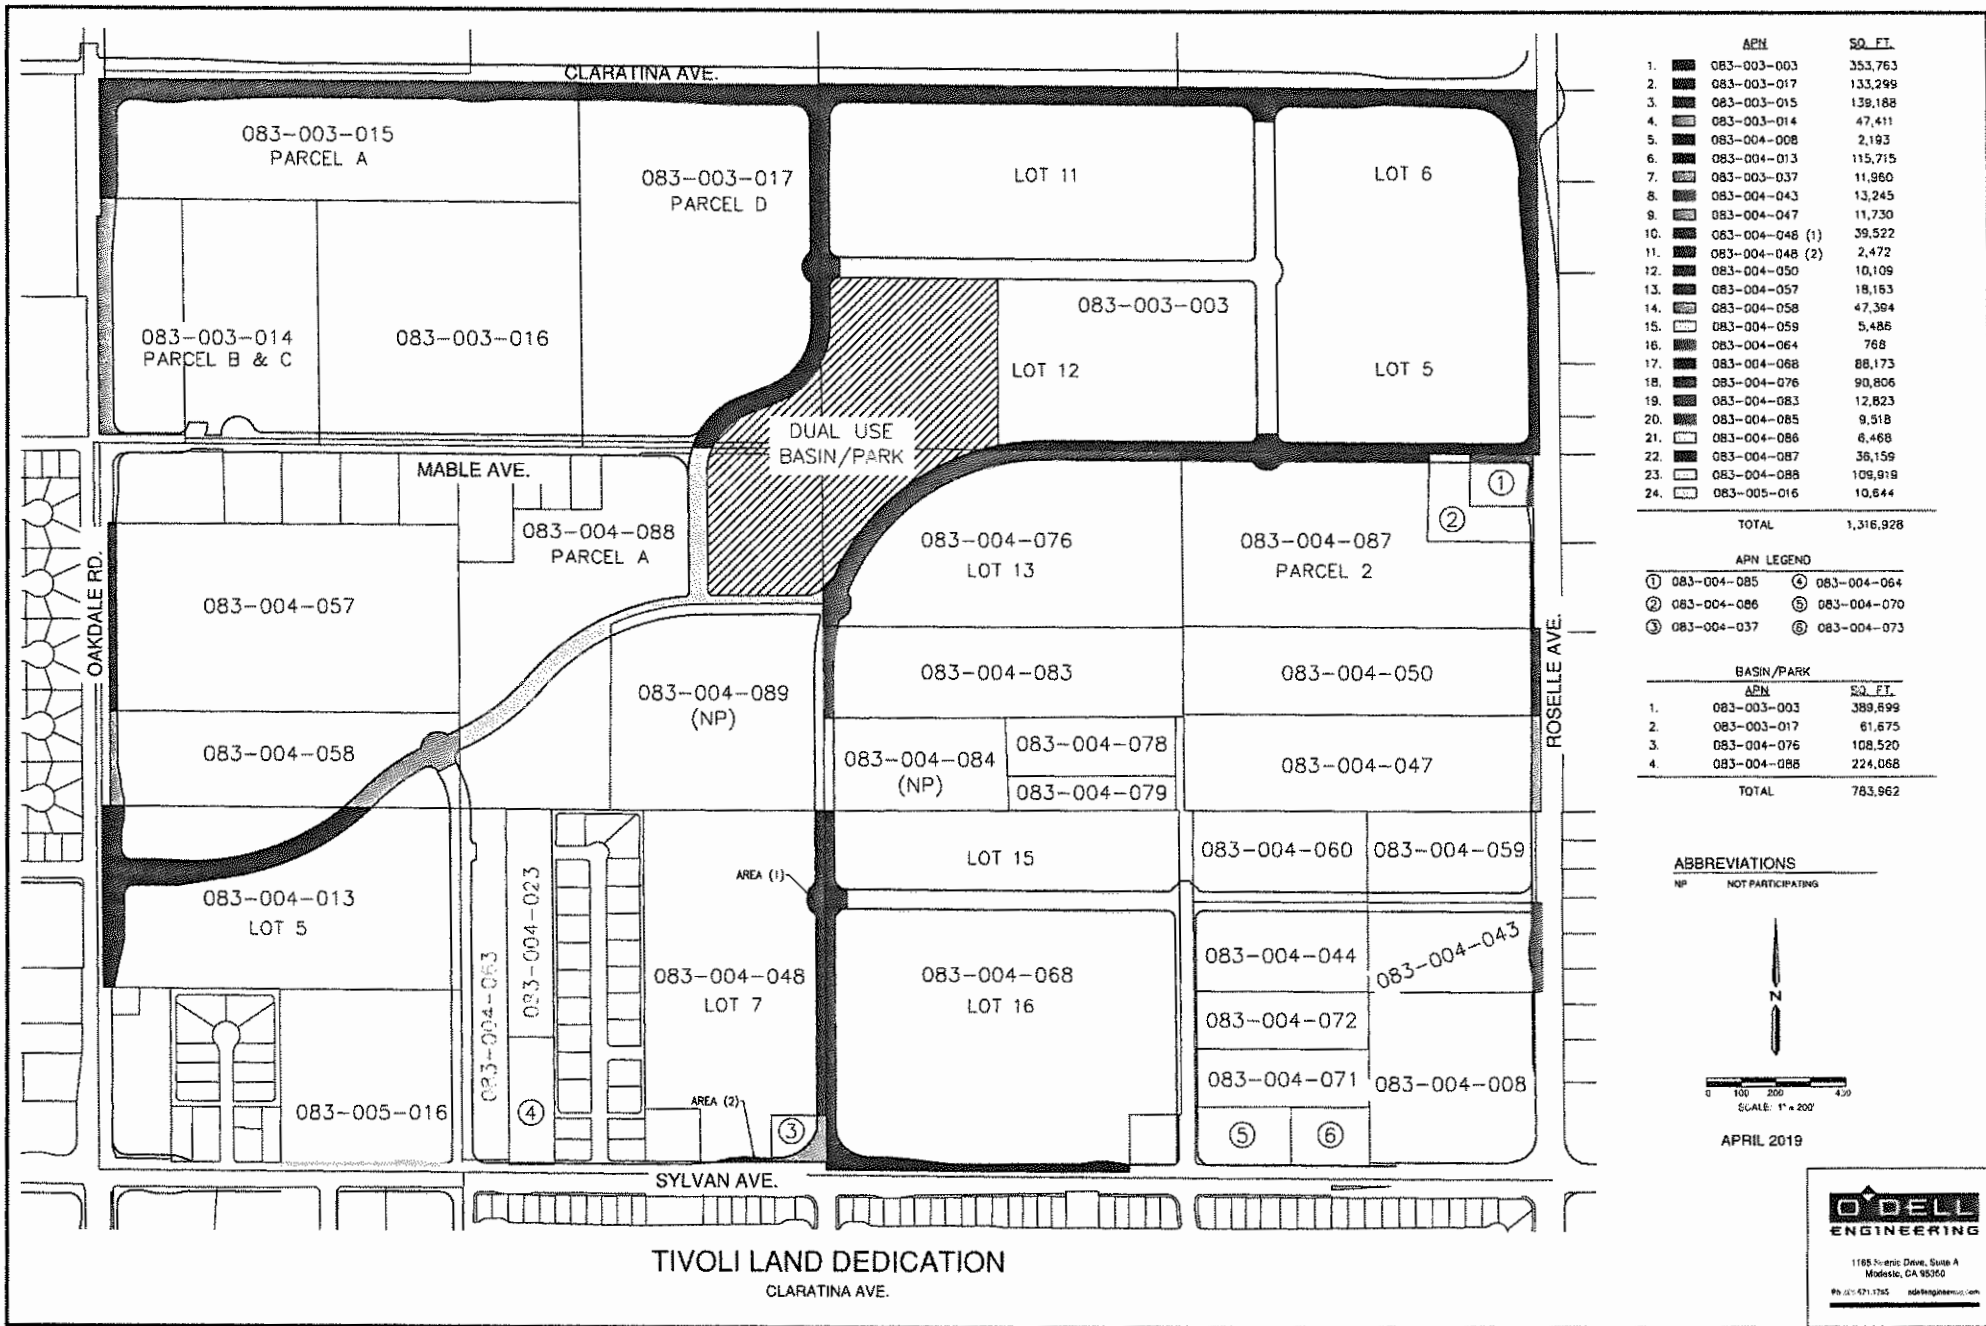

Public Land Definition

Measurements and calculation of Public Land shall be based on land square footage, rounded to the nearest land square foot. Once determined in land square footage, such measurements will be converted to acres, rounded to the **nearest one-thousandth of an acre**. **Table 2** shows the Public Land by facility. Developable Acreage for a developable parcel will be measured by the physical acreage of the parcel excluding all areas associated with major backbone roadways and other backbone infrastructure and public facilities (e.g., parks and open space). A developable parcel's Developable Acreage will include acreage associated with any internal subdivision roads. For purposes of the Fee, net acreage and land square footage shall equal the area measured from the property line where a public facility abuts a private property parcel and measured from the back of the curb where a street is adjacent to a public facility.

Public Land Dedication to City

For any Specific Plan property owner, the City has required the property owners to provide IODs for all Public Land identified in this Nexus Study that is to be provided to the City as a condition of Specific Plan approval. The City will require IODs be provided to the City no later than before

a final small lot map would be considered by the City Council for single-family residential properties. For multifamily or nonresidential properties, an IOD shall be offered to the City prior to the issuance of the first building permit for a multifamily or nonresidential use on a parcel. A copy of the City's IOD form is included as **Appendix C** to this document.

As described in detail in the next chapter, this Nexus Study includes a VLDP through which property owners may offer the City IODs before the development triggers identified above. Although unknown at this time, the City also may require one or more property owners to offer an IOD for Public Land that may be physically located outside of the Specific Plan Area. In such circumstances, this Nexus Study should be updated to include any additional Off-Site Land that may be required for development in the Specific Plan.

Public Land Requirement

This Nexus Study identifies the Public Land Requirement factor based on the total amount of Public Land required as compared to the total amount of Developable Acreage in the Specific Plan Area. **Table 3** provides the Public Land required for all Specific Plan development that is used to calculate the Public Land Requirement factor, as described below. As the Community Development Department processes small lot tentative maps, final small lot subdivision maps, design review applications, or final development plan review, the amount of Developable Acreage or Public Land may need to be refined. In such circumstances, the Director of Community and Economic Development may request the Fee Program be updated to reflect updated information.

Public Land Requirement Allocation

The total amount of required Public Land is allocated to all developable Specific Plan land uses based on each developable parcel's Developable Acreage. In this manner, each Developable Acre that may accommodate private residential or nonresidential development is equally allocated its proportionate share of the Specific Plan Public Land Requirement. **Table B-1** in **Appendix B** shows the Public Land Requirement for each property owner by County Assessor's Parcel at the time this Nexus Study was prepared. Each County Assessor's Parcel is shown in **Map 1** in **Appendix B**. Assignment of the Public Land required by Assessor's Parcel will make administration of the Fee easier.

Final Determination of Public Land Requirement Shall Be Done at Small Lot Tentative Subdivision Map for Single-Family Development and at Design Review for Multifamily or Nonresidential Development

Using the methods described above, as a condition of approval on a small lot tentative subdivision map, such tentative map shall include assignment of the Public Land Requirement for the property owner's Assessor's Parcels included in such tentative map. Determination of the Public Land Requirement for multifamily or nonresidential development projects shall be completed and included in the conditions of approval on a final development plan for a multifamily or nonresidential project.

Determination of LEFP Fee Credit—Public Land Dedicated to the City

Under certain circumstances, the City may grant credits against the Fee. Circumstances under which fee credits would be granted involve the VLDP as described in **Chapter 4**.

Valuation of Public Land

The value of Public Land will be determined by a Fee Program Appraisal completed by a certified appraiser chosen by the City. As described below, the Public Land valuation will use a 3-year rolling average value, which will help to mitigate for the potential to have significant land value variations resulting from year-to-year changes in the real estate market. The Fee Program Appraisal shall be completed to determine the weighted average value per net acre of all vacant residential land in the Specific Plan, assuming the property was otherwise developable as residential and had an approved final small lot subdivision map for the land use called out in the existing Specific Plan document. The weighted average value will take account of varying vacant residential land use densities and shall not include or be based on the value of any nonresidential development. The appraised value would take into consideration all required adjustments for applicable Specific Plan-wide Community Facilities District (CFD) and Assessment District obligations, as well as development impact fees and other development cost burdens.

The initial Fee Program Appraisal shall be completed in the year in which the first final small lot map is anticipated to be recorded in the Specific Plan Area. The cost of the initial appraisal and anticipated annual Fee Administration for the year in which the VLDP IODs are granted or the year in which the first final small lot map is recorded shall be advanced by one or more property owners, whichever is earlier. Any such advanced costs would be creditable against the Administration Fee component, as defined in this Nexus Study.

Thereafter, the appraisal may be updated, or a new appraisal may be prepared, as deemed appropriate by the City, to arrive at the Public Land valuation for that given calendar year. The resulting weighted average unit value, expressed per net acre, for that calendar year then would be averaged with the estimates from the prior 2 years to generate a 3-year average land value. For LEFP Fee Credits or for final small lot maps recorded within 1 to 2 years of recordation of the first final small lot map in the Specific Plan Area, the Public Land valuation will be based on an average of available land valuation data. In other words, if an appraisal has been completed for 2 consecutive years at the time a final small lot map is recorded, the valuation will be based on the average of those 2 years. If data for only 1 year are available, that appraisal value will be the basis for the Public Land valuation. Please see **Table 4** for an example of this rolling average concept. Any property owner in the Specific Plan Area requesting review and adjustment of the Fee, other than a request to the City to perform the annual adjustment as provided above, shall be responsible for the costs, including appraisal costs by a certified appraiser chosen by the City and staff time associated with review and adjustment of such fee, and such costs shall be paid to the City before commencement of the work. This Nexus Study includes a placeholder Public Land valuation of **\$150,000** per acre.

LEFP Fee

Based on the Public Land Requirement Factor and placeholder Public Land valuation, the table below shows the LEFP Fee (in 2019 \$). The LEFP Fee will be updated once the Public Land valuation is established with the first appraisal.

LEFP Fee per Developable Acre (2019 \$)

Item	Formula	Amount
Public Land Requirement Factor per Developable Acre	<i>a</i>	0.1159
PLACEHOLDER Public Land Value	<i>b</i>	\$150,000
LEFP Fee per Developable Acre (2019 \$)	$c = a \times b$	\$17,391.93

LEFPfee

Table 4

[1] PLACEHOLDER VALUE FOR EXAMPLE PURPOSES ONLY.

4. VOLUNTEER LAND DEDICATION PLAN

Property owners in the Specific Plan Area recognize that for development to occur, the City will require dedication of several Public Land areas needed for roadways and other public facilities, such as drainage basin land. To facilitate orderly development and to provide an incentive for any Specific Plan property owner who wishes to participate, the City has elected to implement the VLDP as part of the Public Facility Fee Program.

VLDP

The purpose of the VLDP would be to incentivize Specific Plan property owners to dedicate (offer an IOD to the City) Public Land on their respective property at the earliest possible date. Participation in the VLDP is entirely voluntary, and the opportunity to participate in the VLDP will be available to all Specific Plan property owners who execute an IOD and deliver the same to the City and enter into a VLDP Fee Credit Agreement with the City on or before the last business day in calendar year **2019**. IODs which are executed and delivered to the City after this time period shall NOT be eligible for LEFP Fee Credits; however, such Public Land dedications would be eligible for reimbursement from the Fee Program, subject to the prioritizations of reimbursements described in this document.

LEFP Fee Credits for IODs through the VLDP

The incentive for a property owner to participate in the VLDP is that Public Land dedicated through the VLDP will be eligible to be used as a fee credit against the Fee. LEFP Fee Credits will be personal to the property owner that earned the fee credits through IOD of Public Land to the City. LEFP Fee Credits may be used against the Fee, may be transferred, or may be sold. LEFP Fee Credits are created when a property owner has an executed LEFP Fee Credit Agreement with the City. Please refer to **Appendix D** for the LEFP Fee Credit/Reimbursement Agreement Template.

Valuation of LEFP Fee Credits

As described in the prior chapter, an annual appraisal will be completed for the LEFP, and the resulting land value will be used to update the 3-year rolling average land value. The valuation of land offered via IOD through the VLDP will be established at the time the IOD is granted and a LEFP Fee Credit Agreement is executed between the property owner and the City. As described below, the value of LEFP Fee Credits will be adjusted to keep pace with land value changes until such time as the LEFP Fee Credits are used to offset the Fee.

LEFP Fee Credits Applied to the Fee

When LEFP Fee Credits are being applied to offset the Fee, the calendar month in which the LEFP Fee Credits were earned is immaterial. Any lawful owner of LEFP Fee Credits may apply such LEFP Fee Credits to offset the Fee. LEFP Fee Credits may be applied on a final small lot map by final small lot map basis, until such LEFP Fee Credits are exhausted. Payment of the Fee will begin with the first final small lot map for which LEFP Fee Credits are not available or will not

provide enough credits for the entire final small lot map. LEFP Fee Credits also may be used to offset the Fee for multifamily or nonresidential development projects. For these properties, LEFP Fee Credits must be applied when the payment is triggered for these property types.

Unused LEFP Fee Credits

Any unused LEFP Fee Credits earned through the VLDP shall have a priority for reimbursement from Fee revenues as compared to Fee Program-owed reimbursements earned after the VLDP has ended. Reimbursement priority for unused LEFP Fee Credits will be established using the calendar month in which the LEFP Fee Credits were earned through an executed LEFP Fee Credit agreement with the City. As an example, a LEFP Fee Credit agreement executed in February 2019 would have priority over a LEFP Fee Credit agreement executed in May 2019. Any LEFP Fee Credit agreements executed in the same calendar month shall have equal priority, and reimbursements in such cases shall be made prorata to the owner of each agreement based on the percentage of Public Land dedicated in one agreement as compared to all other agreements with the same calendar month priority. For example, if two agreements had the same calendar month priority and one agreement dedicated 2 acres of land and the second agreement dedicated 3 acres of land, then reimbursements would be 40 percent to the first agreement and 60 percent to the second agreement.

Adjustments to LEFP Fee Credits

Each year, the City will update the value of any outstanding, unused LEFP Fee Credits using the percentage change in appraised value, either the single year as compared to the prior year in the case of the first two appraisal updates, and by the 3-year rolling average when enough years have passed. For example, in year 2, if the land value has increased by 3 percent, then the City would adjust outstanding LEFP Fee Credits from the prior year by 3 percent. In the fifth year of the program, the updated appraisal in year 5 would result in an updated 3-year rolling average appraisal for that year. That 3-year rolling average, in year 5, would be compared to the 3-year rolling average in year 4 to derive the percentage adjustment to outstanding LEFP Fee Credits.

In this manner, the value of outstanding LEFP Fee Credits will keep in lock step with the latest land valuation and the Fee.

LEFP Fee Credit Examples

By way of illustrating how the LEFP Fee Credits would be implemented and administered, this section provides examples of how a property owner may use LEFP Fee Credits. For simplicity and consistency, all examples are based on the assumption of a single-family developer as the property owner and developer. The chart below shows the amount of Public Land that has been accepted by the City (via IOD) for purposes of the examples illustrated below and indicates whether the Public Land dedication has created LEFP Fee Credits.

Item	Example			
	#1	#2	#3	#4
Dedicated Public Land (acreage)	2.000	1.000	2.000	1.000
Public Land Valuation [1]	\$300,000	\$150,000	\$300,000	\$150,000
LEFP Fee Credits through VLDP?	YES	YES	NO	NO

[1] Based on PLACEHOLDER valuation of \$150,000 per acre.

Also, for purposes of these examples, the Administration Fee is assumed to be a flat rate of \$5,000. This amount is a placeholder for example purposes and will be updated by the City.

Example #1—VLDP Participant Where VLDP Credits Exceed Public Land Requirement

Table 5 illustrates the circumstance where a property has LEFP Fee Credits and the acreage in LEFP Fee Credits exceeds the Public Land Requirement for the property owner. In Example #1, the property owner is assumed to possess 2.0 acres (\$300,000 in 2019 \$) of LEFP Fee Credits. This example is based on the assumption the property owner would be developing their property in two separate final small lot subdivision maps of equal size (approximately 4.32 acres each). For final map #1, the property owner is required to pay, or use LEFP Fee Credits, for their Public Land Requirement of 0.5 acres (\$75,000) with the first final map. In this example, the property owner applies \$75,000 of LEFP Fee Credits against the obligation, and the only fee due for final map #1 is the Administration Fee.

Similarly, for the second final map of equal size, the property owner has a remaining LEFP Fee Credit balance of \$225,000 (original \$300,000 less \$75,000 used) and uses another \$75,000 to offset the Public Land Requirement for final map #2. Again, the only fee due for final map #2 is the Administration Fee. At the end of this example, the property owner still possesses \$150,000 of LEFP Fee Credits that can be used on other property, sold to another property owner, or reimbursed through this program in the applicable priority order.

Example #2—VLDP Participant where Public Land Requirement Exceeds LEFP Fee Credits

Table 6 illustrates the circumstance where a property has LEFP Fee Credits, and the Public Land Requirement for this property owner exceeds their LEFP Fee Credits. In Example #2, the property owner is assumed to possess \$150,000 of LEFP Fee Credits. This example is based on the assumption the property owner would be developing their property in three separate final small lot subdivision maps of equal size (approximately 4.32 acres each). For final map #1, the property owner is required to pay, or use LEFP Fee Credits, for their Public Land Requirement of \$75,000 with the first final map. In this example, the property owner applies \$75,000 of LEFP Fee Credits against the obligation, and the only fee due for final map #1 is the Administration Fee.

			<i>Ending Balance</i>			
Total			\$0	\$75,000	\$15,000	\$90,000

exp2

Source: Tivoli Specific Plan

[1] The only way to use offset the LEFP is through credits obtained through a LEFP Fee Credit Agreement or acquisition of LEFP Fee Credits.

Assumes Public Land Dedication of: 1.00 acres resulting in \$150,000 = Public Land Value

[2] Placeholder public land value for example purposes only until the first appraisal is completed.

[3] Administrative fee will be a flat rate per final map of \$5,000.00

Similarly, for the second final map of equal size, the property owner has a remaining LEFP Fee Credit balance of \$75,000 (original \$150,000 less \$75,000 used) and uses another \$75,000 to offset the Public Land Requirement for final map #2. Again, the only fee due for final map #2 is the Administration Fee.

Finally, for the third final map, the property owner is out of LEFP Fee Credits. Consequently, the \$75,000 Public Land Requirement for this third final map would be required to be paid. The example shows \$75,000 (0.5 acres multiplied by the placeholder Public Land Value to derive the Fee of \$75,000 due). That amount with the applicable Administration Fee would be due for this third final map. At the end of this example, the property owner no longer has any LEFP Fee Credits.

Examples Where No LEFP Fee Credits Exist

Because participation in the VLDP portion of this Fee Program is not mandatory, there may be circumstances where a property owner does not have any LEFP Fee Credits. The following two examples are provided to illustrate these circumstances.

Example #3—Non-VLDP Participant Where Public Land Dedication Exceeds Public Land Requirement

Table 7 illustrates Example #3. For ease of understanding, this example uses the same acreage assumptions as Example #1. The difference between the two examples is the lack of LEFP Fee Credits. Before the property owner could obtain final map #1, the property owner would be required to pay \$75,000 in Public Land Requirement for that final map, plus the Administration Fee. Before the property owner could obtain final map #2, the property owner would be required to pay \$75,000 in Public Land Requirement for that final map, plus the Administration Fee. In this example, the total payments by the property owner would equal \$160,000 for both final maps.

Then, subject to the reimbursement priority described in this Fee Program, the property owner would be in line to receive a future reimbursement for the value of the 2 acres of Public Land they dedicated as required by the City (\$300,000 in this example).

Example #4—Non-VLDP Participant Where Public Land Requirement Exceeds Public Land Dedication

Table 8 illustrates Example #4. For ease of understanding, this example uses the same acreage assumptions as Example #2. The difference between the two examples is the lack of LEFP Fee Credits. Before the property owner could obtain final map #1, the property owner would be required to pay \$75,000 in Public Land Requirement for that final map, plus the Administration Fee. Before the property owner could obtain final map #2, the property owner would be required to pay \$75,000 in Public Land Requirement for that final map, plus the Administration Fee. Before the property owner could obtain final map #3, the property owner would be required to pay \$75,000 in Public Land Requirement for that final map, plus the Administration Fee. In this example, the total payments by the property owner would equal \$240,000 for the three final maps.

Table 7

Future Public Land Equalization Fee Program Reimbursement						
Public Land Dedicated	1.000 acres					
Public Land Value [2]	\$150,000					
Fee Program Reimbursement [4]	\$150,000					

exp4

Source: Tivoli Specific Plan

[1] LEFP Fee Credits are not available in this example.

[2] Placeholder public land value for example purposes only until the first appraisal is completed.

[3] Administrative fee will be a flat rate per final map of \$5,000.00

[4] Subject to adjustment as the Public Land Value is updated and subject to reimbursement priority as described in the Fee Program.

Then, subject to the reimbursement priority described in this Fee Program, the property owner would be in line to receive a future reimbursement for the value of the 1 acre of Public Land they dedicated as required by the City (\$150,000 in this example).

No Other Fee Credits

The intent of the Fee Program and VLDP is that fee credits would be earned only through the VLDP. Once the VLDP period has expired, there are no other means of earning fee credits to offset the Fee, with one exception. The only exception is that the City will consider granting fee credits to any Specific Plan property owner who must acquire Off-Site Land that is outside such owner's ownership interests. In such circumstances, when such Off-Site Land is acquired and dedicated to the City, the City may permit fee credits for that land to offset the Fee.

5. NEXUS FINDINGS

Authority

This report has been prepared to establish the Fee Program in accordance with the procedural guidelines established in Assembly Bill (AB) 1600, which is codified in California Government Code Section 66000 et. seq. This code section sets forth the procedural requirements for establishing and collecting development impact fees. The procedures require that a "reasonable relationship or nexus must exist between a governmental exaction and the purpose of the condition."¹ Specifically, each local agency imposing a fee must:

- Identify the purpose of the fee.
- Identify how the fee is to be used.
- Determine how a reasonable relationship exists between the fee's use and the type of development project on which the fee is imposed.
- Determine how a reasonable relationship exists between the need for the public facility and the type of development project on which the fee is imposed.
- Demonstrate a reasonable relationship between the amount of the fee and the cost of the public facility or portion of the public facility attributable to the development on which the fee is imposed.

Summary of Nexus Findings

The development impact fee to be collected for each land use is calculated based on the proportionate share of the total facility use each land use represents. With this approach, the following findings are made regarding each Fee Program component.

Public Land Equalization Fee

Purpose of Fee

The purpose of the Fee is to fund the acquisition of land on which City public facilities (roadways and storm drainage detention basins/park facilities) would be constructed to serve new residential and nonresidential development in the Specific Plan Area. Public land on which new public facilities would be constructed was identified in the Specific Plan document for the Specific Plan Area.

¹ *Public Needs & Private Dollars* (July 1993), William Abbott, Marian E. Moe, and Marilee Hanson, page 109.

Use of Fees

The Fee will be used to fund land acquisition of Public Land required by the City for new development in the Specific Plan Area.

Reasonable Relationship Between Use of Fees and Type of Development

The development of new residential and nonresidential land uses in the Specific Plan Area will generate additional demand for Public Land on which public facilities will be constructed. The proposed Fee will be used to acquire land for public facilities at the levels required to meet the demand created by new residential and nonresidential development.

A reasonable relationship therefore exists between the use of the Fee and the residential and nonresidential development on which the Fee is imposed because the Fee will be used to fund acquisition of land on which new public facilities will be constructed.

Reasonable Relationship Between Need for Facility and Type of Project

Each new residential and nonresidential development project will add to the incremental need for City public facilities, and each new project will benefit from the new public facility capacity in proportion to their estimated use of such facilities.

A reasonable relationship therefore exists between the need for new City Public Land and new residential and nonresidential projects on which the Fee is imposed because the specific Public Lands are necessary to accommodate new Specific Plan residents and employees that will use facilities constructed on the Public Lands.

Reasonable Relationship Between Amount of Fees and Cost of or Portion of Facility Attributed to Development on Which Fee Is Imposed

Construction of the new public facilities (on Public Land) will serve new residential and nonresidential development in the Specific Plan Area. The cost of the land to be funded by new Specific Plan development is allocated to all benefiting developable acres proportionally such that each new developable acre of land in the Specific Plan Area demands Public Land proportionally to another developable acre of land. The result is a maximum justifiable fee for each new residential unit or for each 1,000 square feet of new nonresidential development that reflects the relative impact toward the costs of Public Land.

A reasonable relationship therefore exists between the amount of the Fee and the cost of acquiring Public Land attributed to the residential and nonresidential development on which the Fee is imposed because the cost is calculated based on the demand generated by all new Developable Acreage, both residential and nonresidential, proportionally for all new developable acres in the Specific Plan Area.

Administration Fee Component

The Administration Fee component of the Fee helps offset City costs associated with Fee Program administration and implementation, consisting of credit and reimbursement agreement negotiations and implementation, credit and reimbursement tracking, annual reporting

requirements, periodic updates to the Nexus Study, and other related costs. Collection and implementation of the Fee is reliant on funding from the Administration Fee component.

Fee Program administration costs also may include City-advanced or other party-advanced costs that may have been provided to establish the LEFP, to fund the initial appraisal, and to fund the LEFP Fee Credit Agreements. Once established, the Administration Fee component will be collected as a flat fee with the processing of each final small lot map or would be due before issuance of a building permit in the case of multifamily or nonresidential development. Costs for the Administration Fee component therefore are based on the Fee, and associated nexus findings for the Administration Fee are established by the nexus findings for it as outlined above.

6. PUBLIC LAND EQUALIZATION FEE ADMINISTRATION

The proposed Fee is anticipated to be adopted by the City through a fee ordinance approved by the City Council authorizing collection of the Fee. The Fee is anticipated to become effective 60 days after City approval of the fee ordinance.

Dedication of Required Public Land

The City shall require all Specific Plan owners offer an IOD for required Public Land before recordation of a final small lot subdivision map for single-family development and before issuance of the first building permit for multifamily and nonresidential development on a parcel. If the IOD is offered within the time period of the VLDP and the City and property owner enter into a LEFP Fee Credit agreement, the dedication of land would create LEFP Fee Credits that may be used to offset the Fee.

Reimbursement for Dedicated Public Land

If the land dedication does not result in LEFP Fee Credits, the property owner would be eligible to receive reimbursement for the Public Land dedicated. The value of reimbursement will be documented in a Fee Program Reimbursement Agreement executed between the property owner and the City. The Fee Program Reimbursement Agreement would document the value of the Public Land reimbursement by multiplying the amount of Public Land dedicated, as measured to the nearest thousandth of an acre, by the applicable Public Land value for the calendar year in which the Public Land dedication is accepted by the City and the Fee Program Reimbursement Agreement is executed. Please refer to **Appendix E** for a copy of the LEFP Reimbursement Agreement Template.

Fee Program reimbursements are an obligation of the Fee Program only and will be paid for by City collection of Fee Program revenues, when available. Fee Program reimbursements are not an obligation of the City's General Fund or any other operating or reserve funds.

Fee Program reimbursements will be paid semi-annually by the City in September and in February, based on Fee Program revenues collected from January 1 through June 30 of the prior one-half of a City Fiscal Year and between July 1 and December 31 of the prior calendar (first half of a fiscal year). For example, Fee Program reimbursements paid in September 2022 would be based on Fee Program revenues collected by the City between January 1, 2021, and June 30, 2022.

Adjustments to the Reimbursement Amount

Each year, the City will update the value of any outstanding reimbursements using the percentage change in appraised value, either the single year as compared to the prior year in the case of the first two appraisal updates, and by the 3-year rolling average when enough years have passed. For example, in year 2 if the land value has increased by 3 percent, then the City would adjust outstanding reimbursement amounts from the prior year by 3 percent. In the fifth

year of the program, the updated appraisal in year 5 would result in an updated 3-year rolling average appraisal for that year. That 3-year rolling average, in year 5, would be compared to the 3-year rolling average in year 4 to derive the percentage adjustment to outstanding Public Land reimbursement amounts.

In this manner, the value of outstanding Public Land reimbursements will keep in lock step with the latest land valuation and the Fee.

Reimbursement Priority

Reimbursements will be paid to property owners who have an executed agreement with the City entitling them to reimbursements. Reimbursements shall be subject to the following priority order. Each of these priority orders is described in more detail with examples below:

1. Unused LEFP Fee Credits
2. Fee Program Reimbursements

Unused LEFP Fee Credits

A property owner who is holding unused LEFP Fee Credits may elect to receive, but is not required to receive, Fee Program reimbursements when such reimbursements may be available from the Fee Program. When Fee Program revenues are available for reimbursements, the City will offer first right of refusal for Fee Program reimbursement to each holder of unused LEFP Fee Credits to accept reimbursement to retire unused LEFP Fee Credits. Such offers to holders of unused LEFP Fee Credits shall be based on the priority order of LEFP Fee Credit holders. For example, the holder of LEFP Fee Credits with the oldest calendar month agreement shall be offered reimbursement first, followed by the second oldest calendar month, etc.

As described earlier, any unused LEFP Fee Credits earned through the VLDP shall have a priority for reimbursement from Fee revenues as compared to Fee Program reimbursements earned after the VLDP has ended or otherwise not eligible for LEFP Fee Credits. Reimbursement priority for unused LEFP Fee Credits will be established using the calendar month in which the LEFP Fee Credits were earned through an executed LEFP Fee Credit agreement with the City. As an example, a LEFP Fee Credit agreement executed in February 2019 would have priority over a LEFP Fee Credit agreement executed in May 2019. Any LEFP Fee Credit agreements executed in the same calendar month shall have equal priority, and reimbursements in such cases shall be made prorata to the owner of each agreement based on the percentage of Public Land dedicated in one agreement as compared to all other agreements with the same calendar month priority. For example, if two agreements had the same calendar month priority and one agreement dedicated 2 acres of land and the second agreement dedicated 3 acres of land, then reimbursements would be 40 percent to the first agreement and 60 percent to the second agreement.

Fee Program Reimbursements

Fee Program reimbursements would be generated when a property owner offers Public Land for dedication to the City (through an IOD) and has obtained an executed Fee Program Reimbursement Agreement between the property owner and the City **AFTER** the VLDP has ended. Also, at any time, Fee Program reimbursements would be earned if a property owner

offered one or more IODs that were executed and delivered to the City to satisfy a condition of approval on a tentative subdivision map or prior to building permit, for multifamily and nonresidential uses. In such circumstances, when documented in an executed Fee Program Reimbursement Agreement, these Public Land dedications shall also only be eligible for Fee Program reimbursements and would **NOT** be eligible for LEFP Fee Credits for those dedications.

Priority order for Fee Program reimbursements shall be established using the calendar month in which the Fee Program reimbursement was earned through an executed Fee Program Reimbursement Agreement with the City. As an example, a Fee Program Reimbursement Agreement executed in February 2019 would have priority over a Fee Program Reimbursement Agreement executed in May 2019. Any Fee Program Reimbursement Agreements executed in the same calendar month shall have equal priority, and reimbursements in such cases shall be made prorata to the owner of each agreement based on the percentage of Public Land dedicated in one agreement as compared to all other agreements with the same calendar month priority. For example, if two agreements had the same calendar month priority and one agreement dedicated 2 acres of land and the second agreement dedicated 3 acres of land, then reimbursements would be 40 percent to the first agreement and 60 percent to the second agreement.

Fee Payment Basis and Fee Calculation

The Fee shall be collected on a per Developable Acreage basis as described in this Nexus Study.

Fee Calculation

For any given final small lot map for single-family residential development or before building permit for multifamily or nonresidential development, the Fee shall be calculated using the following steps:

1. Identify the Developable Acreage associated with the final small lot map pending City Council consideration or the Developable Acreage associated with the parcel or parcels on which a multifamily or nonresidential project may proceed with a building permit.
2. Multiply the Developable Acreage identified in Step 1 above by the Public Land Requirement Factor in this Nexus Study to identify the Public Land Requirement for the subject property. The Public Land Requirement shall be expressed on an acreage basis with the acres rounded to the nearest thousandth of an acre.
3. Multiply the Public Land Requirement by the then-applicable Public Land Value per acre to derive the Fee for the subject property.
4. Where LEFP Fee Credits may be used, subtract from the Fee determined in Step 3 any LEFP Fee Credits applicable for use by the property owner. If LEFP Fee Credits do not apply, then proceed to Step 6.
5. If the Fee exceeds available LEFP Fee Credits, collect the Fee at the applicable triggers as described below.

6. The amount calculated in either Step 3, Step 4, or Step 5 as appropriate, shall be payable before recordation of the final small lot map for single-family development and shall be payable at issuance of the first building permit for development on a multifamily or nonresidential parcel. Although the first building permit on a multifamily or nonresidential parcel may not represent use of the entire parcel, full payment for that multifamily or nonresidential parcel's obligation will be due at issuance of the first building permit on such parcel.
7. The Fee shall be payable to the City. The City shall use payments for reimbursement for acquisition of Public Land from dedication by Specific Plan property owners. Payments for outstanding reimbursements will be subject to priority order as described in this Nexus Study.

Timing of the Fee

The Fee shall be due before recordation of each final small lot map, subject to available LEFP Fee Credits that may be available via participation in the VLDP feature of this program (conditions for LEFP Fee Credits are described in more detail in **Chapter 5**). Any property owner who has dedicated Specific Plan Public Land to the City while the VLDP is valid or otherwise has acquired LEFP Fee Credits may subsequently use LEFP Fee Credits, on a final small lot map by final small lot map basis, until such LEFP Fee Credits are exhausted. Payment of the Fee will begin with the first final small lot map for which LEFP Fee Credits are not available or will not provide credits for the entire Developable Acreage in the final small lot map. The Fee shall be owed only for those units included in each final small lot map and shall not be paid in advance for any units included in a future final small lot map.

For multifamily or nonresidential development, the Fee shall be payable at issuance of the first building permit for a building on a multifamily or nonresidential parcel. As an example, a 10-acre nonresidential parcel may have a first building permit for a building that will occupy only 4 acres of the entire 10-acre parcel. In this circumstance, at issuance of that first building permit, the Fee for the entire 10-acre nonresidential parcel shall be payable.

Fee Requirement

Because the Fee is allocated to all developable properties on a Developable Acreage basis and because the Fee will be collected based on acreage, there shall be no consideration given to whether a parcel of land is yielding greater or fewer planned residential units or nonresidential building square feet as compared to that permitted through the Specific Plan entitlement. The City will determine a property owner's Fee by first applying the Public Land dedication factor to the Developable Acres in a development project's final small lot subdivision map.

Administration Fee

The Administration Fee constitutes an additional amount of the total costs to be collected by the City (currently shown as a placeholder of \$5,000 per final small lot map). The Administration Fee will be collected to fund the administration, oversight, implementation, and updates of the

Fee Program. The Administration Fee will include adequate funding to cover all City costs, including those of outside consultants, to form and administer the Fee Program.

The Administration Fee shall be paid at the same time as the Fee is due. LEFP Fee Credits may not be applied to offset the Administration Fee.

The only circumstance where a property owner may be entitled to a reimbursement from or credit against the Administration Fee is if that property owner advance-funded the appraisal costs for the Fee or otherwise advance-funded early Fee Program costs before adequate Administration Fee revenue had been collected by the City. In such cases, the amount of cost eligible for reimbursement shall be identified in a separate Administration Fee Reimbursement Agreement.

Finally, adjustments to the Administration Fee may be made as determined by the City, subject to the approval of the Finance Director, to provide continued and ongoing administration of the Fee Program.

Fee Program Adjustments, Updates, and Reviews

The Fee will be subject to annual adjustments as the updated Public Land appraisal is completed. In addition, the Fee is subject to the need for periodic updates and a 5-year review requirement. The purpose of each update is described in this section.

Periodic Fee Updates

After Fee adoption, the Fee would be subject to periodic updates based on changes in the amount of Public Land required or other changes in the data on which the Fee is based. During periodic updates, the City will analyze these items:

- Changes in the number of Developable Acres in the Specific Plan Area.
- Changes in the amount of Public Land required by the City for the Specific Plan Area.
- Changes in other funding sources, if applicable to Public Land acquisition costs.
- Changes in the cost to update or administer the fee.

Five-Year Review

Fees will be collected from new development in the Specific Plan Area immediately; use of these funds, however, may need to wait until a sufficient fund balance can be accrued. According to Government Code Section 66006, the City is required to deposit, invest, account for, and expend the fees in a prescribed manner. The fifth fiscal year following the first deposit into the fee account or fund, and every 5 years thereafter, the City is required to make all the following findings with respect to that portion of the account or fund remaining unexpended:

- Identify the purpose for which the fee is to be put.
- Demonstrate a reasonable relationship between the fee and the purpose for which it is charged.

- Identify all sources and amounts of funding anticipated to complete financing of incomplete facility improvements.
- Designate the approximate dates on which the funding referred to in the above paragraph is expected to be deposited in the appropriate account or fund.

The City must refund the unexpended or uncommitted revenue portion of the Fee for which a need could not be demonstrated in the above findings, unless the administrative costs exceed the amount of the refund.

Annual Reporting

The Mitigation Fee Act requires that a fee-collecting entity account for every fee they collect under its terms. Funds collected for each capital facility or service shall be deposited in separate accounts and not commingled with any other funds for other impact fees. While funds are accruing for individual capital facilities, the entity must keep track of each fund and provide an annual report. If the entity fails to accurately account for the collected fees, the entity can be required to refund the fees.

Within 180 days after the last day of the fiscal year, the City must make available the following information:

- A brief description of the type of fee in each account or fund.
- The amount of the fee.
- The beginning and ending balance of the account or fund.
- The amount of fees collected and the interest earned.
- An identification of each public improvement on which fees were expended and the amount of each expenditure.
- An identification of the approximate date by which the construction of the public improvement will commence.
- A description of any interfund transfer or loan and the public improvement on which the transferred funds will be expended.
- The amount of refunds made and any allocation of unexpended fees that are not refunded.

At the next regularly scheduled public meeting no fewer than 15 days after making the above information available to the public, the City must review the information provided.

Voluntary Land Dedication Plan
Credit/Reimbursement Agreement Template

**CITY OF MODESTO
TIVOLI SPECIFIC PLAN
VOLUNTARY LAND DEDICATION PLAN
CREDIT/REIMBURSEMENT AGREEMENT**

(LANDOWNER NAME)

This Credit/Reimbursement Agreement (the "Agreement") is entered into by and between the City of Modesto, (hereinafter the "**City**") and _____, a _____, and/or its successors in interest, (hereinafter the "Landowner") as of the ____ day of _____ 20__ (the "**Effective Date**").

RECITALS

WHEREAS, Landowner is the underlying owner of or has legal interest in certain real property under development within the City, known as _____ ("**Project**"), as shown in Figure "A," attached hereto and incorporated herein by this reference; and

WHEREAS, Landowner, or its successor in interest will at some date in the future, be developing the Project; and

WHEREAS, on _____, 20__, the City Council of the City adopted Ordinance No. _____ et seq relating to the City of Modesto Tivoli Specific Plan Voluntary Land Dedication Plan (the "**VLDP**"); and set forth policies associated with fee credits and reimbursements within the VLDP boundaries; and

WHEREAS, pursuant to the terms and conditions of the VLDP, Landowner has agreed to dedicate, and has dedicated to the City certain real property (the "**Public Land**") located in the City of Modesto, in advance of the date that Landowner would have otherwise been required to dedicate the Public Land as a condition of development of the Project. The Public Land is described on **Exhibit B** attached hereto and made apart hereof. The form of Landowner's Irrevocable Offer of Dedication of the Public Land is attached hereto as **Exhibit B-1**; and

WHEREAS, City and Landowner have agreed that the value of the Public Land is \$ _____ (the "**Public Land Value**"); and

WHEREAS, City and Landowner desire to enter into an agreement to provide for allowable credits and/or reimbursements by the City to Landowner in return for said dedication of the Public Land; and

WHEREAS, this Agreement will not apportion the credits granted herein to any particular real property. Such apportionment shall be accomplished at Landowner's discretion as described herein;

NOW, THEREFORE, in consideration of the mutual promises contained herein, City and Landowner agree as follows:

SECTION 1. DEFINITIONS / RECITALS

All capitalized terms not otherwise defined herein, shall have the meaning described thereto in the VLDP. The Recitals above are incorporated into this Agreement by reference.

SECTION 2. REIMBURSEMENT/CREDIT OF THE PUBLIC LAND VALUE

In consideration of the dedication by Landowner of the Public Land, City shall reimburse or credit Landowner for the Public Land Value, with funds collected within the City of Modesto Tivoli Specific Plan Public Land Equalization Fee Program adopted by City on _____ by Ordinance No. _____ (the "LEFP"), in accordance with the terms hereof.

SECTION 3. ALLOWABLE FEE CREDIT/REIMBURSEMENT

In consideration of the dedication to the City of the Public Land, City shall credit Landowner for the full amount of the Public Land Value against LEFP fees. All or any portion of the LEFP Fee Credits may be converted to an equivalent amount of Fee Reimbursements at any time at the election of Landowner, provided, that once converted to Fee Reimbursements, said conversion shall be irrevocable (Fee Reimbursements may not be converted back to Fee Credits). The amount of such LEFP Fee Credits, as described in Section 4, and Fee Reimbursement, as described in Sections 4 and 5, are set forth on **Exhibit C** attached hereto and made a part hereof. The LEFP Fee Credits hereunder shall be available upon full execution of this Agreement. Fee Reimbursements shall be payable to Landowner as provided below.

SECTION 4. LIMITATION ON AND ANNUAL ADJUSTMENTS

On each Annual Adjustment date after the Effective Date, the amount of the LEFP Fee Credits and the Fee Reimbursements shall be adjusted to reflect any change in the Public Land Value pursuant to Section(s) _____ of the VLDP and Section(s) _____ of the LEFP in effect as of the Effective Date.

SECTION 5. FEE REIMBURSEMENTS

If, pursuant to Section 4 above, Landowner is owed a Fee Reimbursement for any portion of the Public Land Value, the priority of payment of such reimbursement shall be made as provided in the LEFP in effect on the Effective Date. Section _____ of the LEFP, as of the Effective Date, provides for priority payment of the Fee Reimbursement to Landowner.

The Fee Reimbursement, if any, shall be paid by the City as fee revenues are collected within the LEFP area. Payments shall be made by the City at least semi-annually as funds become available.

The amount of such Fee Reimbursement shall be adjusted in accordance with Section 4 above.

The obligation arising from this Agreement is not a debt of the City, nor a legal or equitable pledge, charge, lien, or encumbrance, upon any of its property, or upon any of its income, receipts, or revenues, and is payable only from the LEFP fees deposited in the LEFP account.

SECTION 6.. APPLICATION OF LEFP FEE CREDITS

LEFP Fee Credits provided pursuant to this Agreement are personal to Landowner and are not limited to the Project. LEFP Fee Credits may be applied by Landowner to any property located in the LEFP area, upon request of the Landowner, in accordance with the form attached hereto as **Exhibit "D"**. Such LEFP Fee Credits shall only apply to the LEFP fees within the LEFP area.

SECTION 7. TRANSFER OF FEE CREDITS/REIMBURSEMENTS

LEFP Fee Credits/Fee Reimbursements granted to Landowner pursuant to this Agreement may be transferred to other owners, builders, or Landowners. To effect such a transfer, Landowner shall submit a completed form to the City in substantially the same format as set forth in **Exhibit "E"** that will (i) reference this Agreement; (ii) identify the Landowner and assignee if LEFP Fee Credits or Fee Reimbursements are being assigned to a builder or other party; and (iii) identify the LEFP Fee Credit or Fee Reimbursement balance before and after the transfer. The form must be signed by the Landowner, its Assignee, and the City, and an executed copy of the form shall be kept on file. The parties acknowledge that, Fee Reimbursements may not be converted to be used as LEFP Fee Credits by the Assignee of such Fee Reimbursements.

SECTION 8. BINDING ON SUCCESSORS AND ASSIGNS

Each and every provision of this Agreement shall be binding upon and shall inure to the benefit of the respective successors and assigns of the parties hereto, in the same manner as if such parties had been expressly named herein.

SECTION 9. ATTORNEY'S FEES

If any suit, action or proceeding in law or equity is brought to enforce the provisions of this Agreement, the prevailing party shall be entitled to reasonable costs and attorneys' fees.

SECTION 10. AUTHORITY TO ENTER INTO AGREEMENT

Landowner and City certify that they are legally empowered to enter into this Agreement.

SECTION 11. NOTICES

Any notices, requests, demands or other communications required or permitted to be given under this Agreement shall be in writing and shall be deemed to have been duly given on the date of service if served personally (FedEx and similar services, each of which is hereinafter called an "Express Courier," shall be considered to be personal service) or by telephone facsimile or other electronic transmission (provided that the sender of a telephone facsimile or other electronic transmission has received confirmation of successful transmission by the sending fax machine), and upon receipt, if mailed to the party to whom notice is to be given, by first-class mail, registered or certified, postage prepaid, return receipt requested, and properly addressed as follows:

(a) If to City:
City of Modesto

With a copy to:

(b) If to Landowner:

Either party may change its mailing address at any time by giving written notice of such changes to the other party in the manner provided herein.

SECTION 12.. TERM

The term of this Agreement shall start on the day and year duly executed by all parties and shall remain in effect until all the terms and conditions contained in this Agreement have been satisfied.

SECTION 13. SEVERABILITY

If any provision of this Agreement shall be held to be invalid, illegal or unenforceable, the validity, legality and enforceability of the remaining portions hereof shall not in any way be affected or impaired thereby.

SECTION 14. CONFLICTS

This Agreement is intended to implement and be consistent with the requirements of VLDP and the LEFP. Therefore, in the event of any conflicts between the VLDP or the LEFP and this Agreement, the requirements of the VLDP and LEFP shall prevail and control.

SECTION 15. EXHIBITS

The Exhibits attached hereto are hereby incorporated herein by this reference. In the event of any conflict between this Agreement and its Exhibits, the provisions of this Agreement shall govern.

SECTION 16. ENTIRE AGREEMENT

This Agreement constitutes the entire understanding of the parties regarding the subject matter hereof. The Agreement may be amended only by writing executed by both parties.

IN WITNESS WHEREOF, the City of Modesto has authorized the execution of this Agreement in duplicate by its City Manager and attestation by its City Clerk under authority of Resolution No. ____-____, adopted by the City Council of the City on the ____ day of _____, 20____, and LANDOWNER has caused this Agreement to be executed.

Public Land Equalization Fee Program
Reimbursement Agreement Template

**CITY OF MODESTO
TIVOLI SPECIFIC PLAN
PUBLIC LAND EQUALIZATION FEE PROGRAM
REIMBURSEMENT AGREEMENT**

(LANDOWNER NAME)

This Reimbursement Agreement (the "Agreement") is entered into by and between the City of Modesto, (hereinafter the "City") and _____, a _____, and/or its successors in interest, (hereinafter the "Landowner") as of the ____ day of _____ 20__ (the "Effective Date").

RECITALS

WHEREAS, Landowner is the underlying owner of or has legal interest in certain real property under development within the City, known as _____ ("____") (the "Project"), as shown in Figure "A," attached hereto and incorporated herein by this reference; and

WHEREAS, Landowner or its successors-in-interest, will be developing the Project; and

WHEREAS, on _____, 20__, the City Council of the City adopted Ordinance No. _____ et seq relating to the City of Modesto Tivoli Specific Plan Public Land Equalization Fee Program (the "LEFP"); and set forth policies associated with fee reimbursements within the LEFP boundaries; and

WHEREAS, pursuant to the terms and conditions of the LEFP, Landowner has dedicated to the City certain real property (the "Public Land") located in the City of Modesto, required to dedicated as a condition of development of the Project. The Public Land is described on **Exhibit B** attached hereto and made apart hereof. The form of Landowner's Irrevocable Offer of Dedication of the Public Land is attached hereto as **Exhibit B-1**; and

WHEREAS, City and Landowner have agreed that the value of the Public Land is \$_____ (the "Public Land Value"); and

WHEREAS, City and Landowner desire to enter into an agreement to provide for allowable reimbursements by the City to Landowner pursuant to the LEFP in return for said dedication of the Public Land; and

NOW, THEREFORE, in consideration of the mutual promises contained herein, City and Landowner agree as follows:

SECTION 1. DEFINITIONS / RECITALS

All capitalized terms not otherwise defined herein, shall have the meaning described thereto in the LEFP. The Recitals above are incorporated into this Agreement by reference.

SECTION 2. REIMBURSEMENT/CREDIT OF THE PUBLIC LAND VALUE

City shall reimburse Landowner for the Public Land Value, with funds collected within the LEFP in accordance with the terms hereof.

SECTION 3. ALLOWABLE REIMBURSEMENT

City shall reimburse Landowner for the full amount of the Public Land Value ("Reimbursement"). The amount of such Reimbursement, as described in Section 4 is set forth on **Exhibit C** attached hereto and made a part hereof. Reimbursement shall be payable to Landowner as provided below.

SECTION 4. ANNUAL ADJUSTMENTS TO FEE CREDITS

On each Annual Adjustment date after the Effective Date, the amount of the Reimbursement shall be adjusted pursuant to the provisions of the LEFP in effect as of the Effective Date.

SECTION 5. FEE REIMBURSEMENTS

The priority of payment of such Reimbursement shall be made as provided in the LEFP in effect on the Effective Date. Landowner acknowledges that other landowners within the Tivoli Specific Plan boundaries may have priority of reimbursement over that of Landowner.

The Reimbursement, if any, shall be paid by the City as fee revenues are collected within the LEFP area subject to priority reimbursement obligations as provided therein. Payments shall be made by the City at least semi-annually as funds become available.

The amount of such Reimbursement shall be adjusted in accordance with Section 4 above.

The obligation arising from this Agreement is not a debt of the City, nor a legal or equitable pledge, charge, lien, or encumbrance, upon any of its property, or upon any of its income, receipts, or revenues, and is payable only from the LEFP fees deposited in the LEFP account.

SECTION 6. TRANSFER OF REIMBURSEMENT

Reimbursement granted to Landowner pursuant to this Agreement may be transferred to other owners, builders, or Landowners. To effect such a transfer, Landowner shall submit a completed form to the City in substantially the same format as set forth in **Exhibit "D"** that will (i) reference this Agreement; (ii) identify the Landowner and assignee if Reimbursement is being assigned to a builder or other party; and (iii) identify the Reimbursement balance before and after the transfer. The form must be signed by the Landowner, its Assignee, and the City, and an executed copy of the form shall be kept on file.

BINDING ON SUCCESSORS AND ASSIGNS

Each and every provision of this Agreement shall be binding upon and shall inure to the benefit of the respective successors and assigns of the parties hereto, in the same manner as if such parties had been expressly named herein.

SECTION 8. ATTORNEY'S FEES

If any suit, action or proceeding in law or equity is brought to enforce the provisions of this Agreement, the prevailing party shall be entitled to reasonable costs and attorneys' fees.

SECTION 9. AUTHORITY TO ENTER INTO AGREEMENT

Landowner and City certify that they are legally empowered to enter into this Agreement.

SECTION 10. NOTICES

Any notices, requests, demands or other communications required or permitted to be given under this Agreement shall be in writing and shall be deemed to have been duly given on the date of service if served personally (FedEx and similar services, each of which is hereinafter called an "Express Courier," shall be considered to be personal service) or by telephone facsimile or other electronic transmission (provided that the sender of a telephone facsimile or other electronic transmission has received confirmation of successful transmission by the sending fax machine), and upon receipt, if mailed to the party to whom notice is to be given, by first-class mail, registered or certified, postage prepaid, return receipt requested, and properly addressed as follows:

(a) If to City:

City of Modesto

With a copy to:

(b) If to Landowner:

Either party may change its mailing address at any time by giving written notice of such changes to the other party in the manner provided herein.

SECTION 11.. TERM

The term of this Agreement shall start on the day and year duly executed by all parties and shall remain in effect until all the terms and conditions contained in this Agreement have been satisfied.

SECTION 12. SEVERABILITY

If any provision of this Agreement shall be held to be invalid, illegal or unenforceable, the validity, legality and enforceability of the remaining portions hereof shall not in any way be affected or impaired thereby.

SECTION 13. CONFLICTS

This Agreement is intended to implement and be consistent with the requirements of the LEFP. Therefore, in the event of any conflicts between the LEFP and this Agreement, the requirements of the LEFP shall prevail and control.

SECTION 14. EXHIBITS

The Exhibits attached hereto are hereby incorporated herein by this reference. In the event of any conflict between this Agreement and its Exhibits, the provisions of this Agreement shall govern.

SECTION 15. ENTIRE AGREEMENT

This Agreement constitutes the entire understanding of the parties regarding the subject matter hereof. The Agreement may be amended only by writing executed by both parties.

IN WITNESS WHEREOF, the City of Modesto has authorized the execution of this Agreement in duplicate by its City Manager and attestation by its City Clerk under authority of Resolution No. __-__, adopted by the City Council of the City on the ____ day of _____, 20__, and LANDOWNER has caused this Agreement to be executed.

**MODESTO CITY COUNCIL
RESOLUTION NO. 2019-198**

RESOLUTION APPROVING THE 2019 STATE AND FEDERAL LEGISLATIVE PLATFORM, AND AUTHORIZING THE CITY MANAGER, OR HIS DESIGNEE, TO CARRY OUT THE NECESSARY STEPS TO HELP THE CITY ACHIEVE THE PRIORITIES IDENTIFIED IN THE PLATFORM

WHEREAS, the State and Federal Government allocate several million dollars for cities for programs and support with policy adoption on an annual basis, and

WHEREAS, best practices show that cities and organizations alike need to proactively engage with legislature by taking positions, providing testimony, monitoring legislation, and employing strategic advocacy to receive favorable legislation or funding, and

WHEREAS, the City has not previously had a Legislative Platform since 2008, which was adopted by the Modesto City Council by Resolution 2008-001, and

WHEREAS, in light of increasing local obligations with issues such as homelessness, public pensions, housing development, and increasing expectations from residents, cities are actively seeking additional support from the State and Federal government to help meet these obligations, and

WHEREAS, the City intends to update the Legislative Platform to educate and inform the State and Federal Government of the legislative priorities for the City to help ensure the City is proactively tackling some of its most pressing issues.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the 2019 State and Federal Legislative Platform for the City of Modesto.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 23rd day of April, 2019, by Councilmember Madrigal, who moved for its adoption, which motion being duly seconded by Councilmember Ah You, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Ah You, Kenoyer, Madrigal, Ridenour, Zoslocki, Mayor Brandvold

**MODESTO CITY COUNCIL
RESOLUTION NO. 2019-199**

RESOLUTION APPROVING THE APPOINTMENT OF SAVANNAH WILLIAMS TO THE CITIZEN'S HOUSING AND COMMUNITY DEVELOPMENT COMMITTEE WITH A TERM EXPIRATION OF JANUARY 1, 2023

WHEREAS, Section 1102 of the Charter of the City of Modesto authorizes the City Council to appoint members to various Boards and Commissions, and

WHEREAS, Savannah Williams meets the requirements of the position and is willing to serve on the Citizens Housing and Community Development Committee, and

WHEREAS, the Appointments Committee met on April 11, 2019, and recommended appointment of Savannah Williams to the Citizens Housing and Community Development Committee.

NOW, THEREFORE, BE IT HEREBY RESOLVED by the Council of the City of Modesto as follows:

1. Savannah Williams is hereby appointed to the Modesto Citizens Housing and Community Development Committee with a term expiration of January 1, 2023.
2. The City Clerk is hereby directed to transmit a copy of this resolution to the appointed member of the Modesto Citizens Housing and Community Development Committee.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 7th day of May, 2019, by Councilmember Madrigal, who moved its adoption, which motion being duly seconded by Councilmember Ah You, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION NO. 2019-200**

**RESOLUTION APPROVING THE APPOINTMENT OF RACHEL HERNANDEZ
TO THE CITIZEN'S HOUSING AND COMMUNITY DEVELOPMENT
COMMITTEE WITH A TERM EXPIRATION OF JANUARY 1, 2023**

WHEREAS, Section 1102 of the Charter of the City of Modesto authorizes the City Council to appoint members to various Boards and Commissions, and

WHEREAS, Rachel Hernandez meets the requirements of the position and is willing to serve on the Citizens Housing and Community Development Committee, and

WHEREAS, the Appointments Committee met on April 11, 2019, and recommended appointment of Rachel Hernandez to the Citizens Housing and Community Development Committee.

NOW, THEREFORE, BE IT HEREBY RESOLVED by the Council of the City of Modesto as follows:

1. Rachel Hernandez is hereby appointed to the Modesto Citizens Housing and Community Development Committee with a term expiration of January 1, 2023.

2. The City Clerk is hereby directed to transmit a copy of this resolution to the appointed member of the Modesto Citizens Housing and Community Development Committee.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 7th day of May, 2019, by Councilmember Madrigal, who moved its adoption, which motion being duly seconded by Councilmember Ah You, was upon roll call carried and the resolution adopted by the following vote:

**FIRST AMENDMENT TO THE AMENDED AND RESTATED BYLAWS OF
MODESTO CONVENTION AND VISITORS BUREAU, INC.
A California Nonprofit Mutual Benefit Corporation**

**ARTICLE 1
NAME**

The name of this corporation is: Modesto Convention and Visitors Bureau, Inc., (the "Corporation").

**ARTICLE 2
PURPOSE**

The Corporation is a nonprofit mutual benefit corporation organized under the Nonprofit Mutual Benefit Corporation Law of California and shall be operated exclusively for non-profit trade or business development purposes within the meaning of Section 501(c)(6) of the Internal Revenue Code of 1986, as amended, and as set forth in the Articles of Incorporation. The specific purposes for which this Corporation was formed are: (1) To attract visitors to the area by promoting and marketing Modesto as a convention, sports, tourism, and leisure travel destination; (2) to provide coordination and leadership for the community and the visitor industry on matters relating to convention activity and tourism; (3) to gather community information designed to convey to opinion leaders and the public at large the status of the visitor industry; and (4) to work with local governmental agencies, private enterprise and other interested parties to structure suitable financing plans for the Corporation, and to implement those plans.

The Corporation shall be non-profit and non-partisan and shall neither participate in nor lend its support to the election of any candidate for public office.

**ARTICLE 3
PRINCIPAL OFFICE**

The principal office of the Corporation shall be located in the City of Modesto.

**ARTICLE 4
MEMBERSHIP**

The Board may provide for a manner in which individuals or businesses may become members of the Corporation, including the imposition of dues for such memberships. Any such program for membership shall be adopted by the Board by

resolution and shall not create "members" as that term is defined in California Corporations Code section 5056.

**ARTICLE 5
DIRECTORS**

Section 1. Initial Appointments to the Board of Directors.

The Board of Directors at the time of the adoption of these Bylaws consists of the City Council members of the City of Modesto. Subsequent to the adoption of these bylaws, that Board of Directors may appoint an entirely new Board, these appointments are referred to herein as the initial appointments to the Board of Directors, and shall consist of seven members who shall meet the qualifications and serve for a term as set forth below:

a. Qualifications. Each initial appointment to the Board of Directors shall be a resident of the City of Modesto or Stanislaus County, or an employee of a business located in the City of Modesto or its metropolitan area, however, at least a majority of the appointees must be residents of the City of Modesto. The appointments shall be selected so that the composition of the Board meets the following:

i. Three Board members shall represent a major entertainment, restaurant, sports venue, or retail business or attraction in the City of Modesto and reside in Stanislaus County.

ii. Two Board members shall represent the lodging industry within the City of Modesto and shall reside in Stanislaus County.

iii. Two Board members shall be residents of the City of Modesto and may or may not be directly associated with the tourism, hospitality or entertainment industries, but shall have demonstrated an interest in the City.

b. Term. Three of the initial appointees to the Board of Directors shall serve until the January 1, following the date of their appointment and the remaining four shall serve until the following January 1. The term to be served by each initial appointee shall be determined by the Board of Directors making the appointment at the time of each such appointment. All subsequently appointed Board members shall meet the qualifications and serve on the Board as provided in the Sections below.

Section 2. Board of Directors – Appointment and Composition.

Appointments to the Board of Directors which are made after the initial appointments to the Board pursuant to Section 1., above, shall be made by a majority of the Board members. The Board of Directors shall consist of a minimum of seven (7) and a maximum of nine (9) Directors, as determined from time to time by the Board of Directors. No reduction in the number of Directors shall have the effect of removing a Director before his or her term expires.

Section 3. Qualifications.

Each Director shall be a resident of Stanislaus County, and shall be an owner or employee of a business located in the City of Modesto.

At least 50% of the Board members shall represent the hospitality industry including entertainment, attractions, food and beverage establishments, travel industry professionals, convention and meeting clients, and transportation representatives.

Section 4. Term of Office.

The term of office shall be set as of the first of January. Directors will be appointed for a term of two years and may serve a maximum of three consecutive terms. A director who has been appointed to fill an unexpired term of another director may, upon completion of that appointed term, serve three full, additional, two-year terms. Board members who have served three consecutive terms are eligible for re-appointment to the Board after a one year absence from the Board.

Section 5 Vacancies.

A vacancy on the Board shall exist on the occurrence of the following:

- a. The resignation of any Director
- b. The removal of any Director pursuant to Section 16, below
- c. The Director no longer meets the qualifications set forth in these Bylaws.

In the event of a vacancy, a replacement shall be appointed by a majority of the directors to serve the remainder of the term of the vacating Director.

Section 6. General Powers.

Subject to the provisions and limitations of the California Nonprofit Mutual Benefit Corporation Law, and any other applicable laws, the Corporation's activities shall

be governed and managed, and all corporate powers shall be exercised by or under the Board's direction.

Section 7. Appointment of Chief Executive Officer.

The Board has the power to appoint and remove, at the pleasure of the Board, the Chief Executive Officer (CEO), and to approve the compensation range and describe the powers and duties for that position.

Section 8. Contracts.

The Board may authorize any officer or officers to enter into any contract or execute and deliver any instrument on behalf of the Corporation and such authority may be general or confined to a specific instance.

Section 9. Loans.

No loans shall be contracted on behalf of the Corporation and no evidence of indebtedness shall be issued in its name unless authorized by resolution of the Corporation. The Corporation shall not lend any money or property to, or guarantee the obligation of, any Director or Officer of the Corporation.

Section 10. Payment of Monies.

All checks, drafts, and other orders of payment of money issued in the name of the Corporation within budget shall be signed by such officer or officers, agent or agents, and in such manner as shall be determined by resolution of the Board.

Section 11. Deposits.

All funds of the Corporation shall be deposited from time to time to the credit of the Corporation in such depositories as the Board may direct by resolution.

Section 12. Meetings.

The Board shall hold regular quarterly meetings in January, April, July, and October. The specific dates, times and location of these meetings shall be established from time to time by resolution of the Board. The agenda for each regular quarterly meeting shall include a fiscal report for the preceding quarter.

The Board may hold adjourned regular meetings at such additional times as may be designated by the Board.

Special meetings may be called by the Chair of the Board, or at the request of a third of the Directors.

Section 13. Compensation.

The Board of Directors may establish a fee to be paid to directors for attendance at meetings. The amount of such fee shall not exceed \$50.00 per meeting with a maximum of \$50.00 per month, regardless of the number of meetings attended during the month, without the written approval of The City of Modesto. No director shall receive any other form of salary or compensation from the Corporation.

Section 14. Agendas and Notice of Meetings.

Agendas for, and Notices of, regular and special meetings shall be prepared and given in the manner required by the Brown Act, found at California Government Code Section 54950 et seq.

Section 15. Quorum and Voting.

A majority of Directors shall constitute a quorum for the transaction of business. The act of a majority of the Directors present at a meeting at which a quorum is present shall be the act of the Board of Directors unless the act of a greater number is required by statute, the Articles of Incorporation, or these Bylaws, in which case the act of such greater number shall be required to constitute the act of the Board. If a quorum is not present at any meeting, the Directors present may adjourn the meeting from time to time until a quorum shall be present.

Section 16. Resignations and Removals.

a. Resignation. Any Member of the Board may resign from the Board or a committee at any time by giving notice to the Chair of the Board or the chair of the committee.

b. Removal. If any Member of the Board does not attend two consecutive meetings of the Board without the prior consent of the Chair of the Board, the Chair may remove such Member from his or her position on the Board subject to approval of a majority of the members of the Board of Directors. The Board of Directors may remove any member of any committee at any time with or without cause.

**ARTICLE 6
OFFICERS**

Section 1. Officers.

The officers of the Corporation shall be the Chair of the Board, the Vice-Chair of the Board, and the CEO. The Board may also appoint such other officers as the business of the Corporation may require.

Section 2. Election.

All officers, except the CEO, shall be elected by the Board from their own number and shall hold office for two years or until the end of their term, if their term ends prior to the expiration of two years and they are not reappointed to the Board.

Section 3. Positions and Responsibilities.

a. The Chair of the Board. The Chair of the Board shall: Preside at all meetings of the Directors; annually recommend to the Board of Directors a slate of committee chairpersons for appointment by the Board; and, perform such other duties as the Board of Directors shall from time to time designate. The Chair shall serve as an ex-officio member of all committees.

b. Vice-Chair.

The Vice-Chair of the Board shall, in the absence of the Chair, or in the event of his or her death, inability or refusal to act, assume the duties of the Chair. The Vice-Chair shall also perform such other duties as may be assigned by the Board of Directors.

c. Chief Executive Officer (CEO).

The CEO shall have general charge of the business of the Corporation and shall perform all duties delegated him or her by the Board of Directors.

**ARTICLE 7
COMMITTEES**

Section 1. The Executive Committee.

The Executive Committee will be comprised of the CEO, the Chair and Vice-Chair of the Board, two other members of the Board who are elected to the Executive Committee by majority vote of the Board and one member who is appointed by the City

of Modesto. The two members who are selected by the majority vote of the Board shall serve on the Committee for two years or until the end of their term on the Board, if their term ends prior to the expiration of two years and they are not reappointed to the Board. The term of the City appointee shall be determined by the City. The City appointee to the Committee shall be a non-voting member of the Committee but shall be entitled to participate fully in all Committee discussion.

The Executive Committee shall perform all duties delegated to it by the Board.

Section 2. Formation of Additional Committees.

The Board may establish other standing or ad hoc committees, in addition to the Executive Committee, as it determines from time to time, by resolution of the Board. The Chair of each such committee shall be selected by a majority of the Board. Committee members shall be appointed by a majority of the Board unless such appointment has been delegated by the Board to the Chair.

**ARTICLE 8
FISCAL YEAR**

The fiscal year of the Corporation shall be the calendar year July 1 through June 30.

**ARTICLE 9
RECORDS AND REPORTS**

Section 1. Records.

The Corporation shall keep adequate and correct books and records of accounts and minutes of the proceedings of the Board and committees. The minutes shall be placed in the minute book of the Corporation with copies sent to the City of Modesto upon approval of minutes by the Board. The Articles of Incorporation and Bylaws of the Corporation, with amendments to current dates, shall also be maintained at the principal office of the Corporation.

Section 2. Budget, Business Plan and Marketing Plan.

No later than June 1 of each year, the Corporation shall provide the City of Modesto with a proposed written Budget, Business and Marketing Plan for the next fiscal year.

Section 3. Annual Report.

The Board shall cause an annual report to be prepared at the end of each fiscal year. The report shall contain all of the information required by California Corporations Code Section 8321.

**ARTICLE 10
LIABILITY AND INDEMNIFICATION**

Section 1. Liability.

To the fullest extent allowed by law, there shall be no monetary liability and no cause of action for damages shall arise against any nonpaid Director, including a nonpaid Director who is serving as a nonpaid Officer or committee member of the Corporation.

Section 2. Contracts with Directors and Officers.

No Director of this Corporation, nor any person or entity in which a Director has a material financial interest, shall be interested directly or indirectly, in any contract of other transaction with the Corporation, unless the material facts regarding the Director's financial interest are fully disclosed to the Board before consideration of the contract or transaction, are noted in the minutes, and are approved in good faith by a majority of the Board by a vote sufficient for that purpose without the vote of the interested Director.

Section 3. Indemnity.

To the fullest extent permitted by law, the Corporation shall indemnify the Directors and Officers, employees and other persons described in California Corporations Code Section 7237(a), including persons formerly occupying any such positions, against all expenses, judgments, fines, settlements, and other amounts actually and reasonable incurred by them in connection with any proceeding, as that term is used that section. For purposes of this Section, "expenses" shall have the meaning set forth in Section 7237.

On written request to the Board by any person seeking indemnification under Corporations Code Section 7237, the Board shall promptly decide under Section 7237(e) whether the applicable standard of conduct has been met and, if so, the Board shall authorize indemnification.

Section 4. Insurance.

The corporation shall have the right to purchase and maintain insurance to the fullest extent permitted by law on behalf of its Directors, Officers, employees and other

EXHIBIT "A"

agents, to cover any liability asserted against or incurred by any Director, Officer, employee or agents in such capacity or arising from their status as such.

**ARTICLE 11
AMENDMENTS**

These bylaws may be amended at any meeting of the Board by a vote of a majority of the Board, except that any provision of the Bylaws which provides a requirement that the Corporation give a notice to, or obtain permission for an action from, the City of Modesto, may not be amended without the prior written approval of the City of Modesto.

3080139.1

**MODESTO CITY COUNCIL
RESOLUTION NO. 2019-202**

RESOLUTION APPOINTING DENISE CROSBY, THOMAS LOPES, RODNEY CORDOVA, PERVEZ KHAN, BEHZAD (BERT) TABRIZI, LEE LUNDRIGAN, VICKEY CHU-HERMIS, CHRIS MURPHY, AND ATHINODOROS (THEO) CHRONIS TO THE MODESTO CONVENTION AND VISITORS BUREAU BOARD OF DIRECTORS

WHEREAS, the City has worked to restore the Convention and Visitors Bureau (CVB) as an independent agency, and

WHEREAS, in June 2018, by Resolution No. 2018-189, the Mayor and City Council were named as the Interim Board of Directors (BOD) of the CVB, and

WHEREAS, in December 2018, by Resolution NO. 2018-534, Council adopted the Amended and Restated Bylaws for the CVB, and

WHEREAS, on May 7, 2019, by Resolution No. 2019-201, Council adopted the First Amendment to the Amended and Restated Bylaws for the CVB (CVB Bylaws), and

WHEREAS, the CVB Bylaws define the eligibility requirements for the CVB BOD, and

WHEREAS, the BOD shall consist of a minimum of seven and a maximum of nine Directors, and

WHEREAS, Directors shall be a resident of the City of Modesto, Stanislaus County or an employee of a business located in the City of Modesto or its metropolitan area, with a majority of the appointees residing in Modesto, and

WHEREAS, at least 50% of the BOD shall represent the hospitality industry including entertainment, attractions, food and beverage establishments, travel industry professionals, convention and meeting clients, and transportation representatives, and

WHEREAS, the minimum BOD shall be composed of three members representing a major entertainment, restaurant, sports venue, retail business, or attraction; three members representing the lodging industry; and three members representing residents of City of Modesto who may or may not be directly associated with the tourism, hospitality or entertainment industries, but shall have demonstrated an interest in the City, and

WHEREAS, Directors will be appointed to serve until January 1, 2020 or the following January 1st, and may serve a total of three two-year terms, and

WHEREAS, on April 11, 2019, the Appointments Committee (Committee) recommended making appointments for nine Directors, and

WHEREAS, the Committee recommended the appointments of Denise Crosby, Rodney Cordova, Behzad (Bert) Tabrizi, Vickey Chu-Hermis, and Anthinodoros (Theo) Chronis to the CVB BOD for the term of May 8, 2019 to January 1, 2021, and

WHEREAS, the Committee recommended the appointments of Thomas Lopes, Pervez Khan, Lee Lundrigan, and Chris Murphy to the CVB BOD for the term of May 8, 2019 and to January 1, 2020.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby appoints Denise Crosby, Rodney Cordova, Behzad (Bert) Tabrizi, Vickey Chu-Hermis, and Anthinodoros (Theo) Chronis to the Modesto Convention and Visitors Bureau Board of Directors for the term of May 8, 2019 to January 1, 2021.

BE IT FURTHER RESOLVED that it hereby appoints Thomas Lopes, Pervez Khan, Lee Lundrigan, and Chris Murphy to the Modesto Convention and Visitors Bureau Board of Directors for the term of May 8, 2019 to January 1, 2020.

BE IT FURTHER RESOLVED that these appointments are made concurrently with the Council's adoption of the 2019 Amended and Restated Bylaws for the Convention and Visitors Bureau on May 7, 2019.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 7th day of May, 2019, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Ah You, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Ah You, Kenoyer, Madrigal, Ridenour, Zoslocki, Mayor Brandvold

**MODESTO CITY COUNCIL
RESOLUTION NO. 2019-203**

**RESOLUTION AMENDING THE FISCAL YEAR 2018-2019 ANNUAL
OPERATING AND CAPITAL IMPROVEMENT FUND BUDGETS**

WHEREAS, a financial analysis has been completed and it has been determined that a budget adjustment is required to the Annual and Capital Improvement Budgets of the City of Modesto for Fiscal Year 2018-19.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves amending the Fiscal Year 2018-19 Annual Operating and Capital Improvement budget as shown in **Exhibit A**, which is **attached** hereto and incorporated by reference herein.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to take the necessary steps to implement the provisions of this resolution.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 7th day of May, 2019, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Ah You, was upon roll call carried and the resolution adopted by the following votes:

AYES: Councilmembers: Ah You, Grewal, Kenoyer, Madrigal, Ridenour, Zoslocki, Mayor Brandvold

EXHIBIT A

FISCAL YEAR 2018-19

COMMUNITY & ECONOMIC DEVELOPMENT

A budget adjustment is necessary to recognize unbudgeted revenue in the amount of \$85,000 from the Federal Highway Administration (DOT) for Project #100586 – 7th Street Bridge at Tuolumne River and amend the Eng/Design/Administration expense task. Additionally, the Local Match expense task in the project is being increased by \$155,100 for the City's portion of match with Stanislaus County on the project. This increase in expense budget will be taken from Streets Capital Facility Fee Fund (3410) reserves.

HUMAN RESOURCES

A budget adjustment in the amount of \$64,000 is needed to increase the "Interfund Charges - Service Credit Labor Charges" (45004) revenue account and increase the "Budget Only – Salary Adjustment – Increase" (51400) and "Budget Only – Benefit Adjustment – Increase" (51900) expense accounts by \$64,000 to fully fund the Safety Officer position in the Insurance Administration Fund (5310), as approved by Council on July 10th, 2018 (Reso 2018-283). The Safety Officer position is half funded by the Insurance Administration Fund and half funded via direct charge agreements with public works and the utility funds. The item approved by Council on July 10th, 2018 did not include a fiscal resolution to allow the necessary \$64,000 budget adjustments to fully fund the Safety Officer position or recoup half of the position's expense from public works and the utility funds.

A budget adjustment in the amount of \$500,000 is needed in the Workers Compensation Fund (5320) to cover unbudgeted claim payments for the remainder of FY2018-19. The funds for this increase will come from the Workers Compensation Fund Reserves.

HUMAN RESOURCES (CONT.)

A budget adjustment in the amount of \$113,928 is needed to establish a transfer from the various funds listed in the table below to the Health (5360) Dental (5350) EAP (5380) and Vision (5390) Insurance Funds to account for previously uncollected employer dental, medical, EAP and vision contributions for periods of the time when an employee was on protected leave, from calendar year 2012 through June 2018.

Fund	Amount
0100 - General Fund	\$ 49,610
1700 - Surface Transportation Fund	\$ 5,814
3220 - Infrastructure Financing Program Administration	\$ 184
4100 - Water Fund	\$ 30,619
4210 - Sewer Operations Fund	\$ 4,491
4480 - Storm Drainage Fund	\$ 1,242
4540 - Bus Fixed Route Max Operations Fund	\$ 8,467
4890 - Compost Fund	\$ 510
4891 - Solid Waste Fund	\$ 3,135
4892 - Green Waste Fund	\$ 3,930
5310 - Insurance - Administration Fund	\$ 1,395
5400 - Fleet Management Fund	\$ 2,927
5520 - Employee Benefits Administration Fund	\$ 1,558
5800 - P/R Building Services Fund	\$ 46
Grand Total	\$ 113,928

POLICE DEPARTMENT

A budget adjustment is necessary to 1) recognize \$50,000 in unbudgeted revenue in the Citation Processing Cost Center (19440) in the Parking Fines account within the Modesto Police Department, and reallocate \$26,000 to the Services City Forces Non Labor expense account for increased costs related to a Direct Charge Agreement between the Finance Department and the Modesto Police Department; 2) Increase the Finance Department Citation Processing Cost Center (12450) Interfund – Admin Cost Non-Labor Direct Charge Agreement revenue and Criminal Justice Mandatory Fees expense account by \$26,000. The increase in expense and revenue is a result of an increase in Parking Citation issuances.

PUBLIC WORKS

A budget adjustment is necessary to increase the Fleet Management Fund (5400) revenue (vehicle and equipment maintenance-Interfund account) and expense (professional services account) budget by \$193,665 due to the increase in City vehicle and equipment rentals. As part of the new rental policy and to allow for more appropriate tracking of rentals, all expenses related to equipment and vehicle rentals are incurred within the Fleet Management Fund and are offset with revenue collected through the Fleet monthly O&M billing.

**MODESTO CITY COUNCIL
RESOLUTION NO. 2019-204**

**RESOLUTION APPROVING THE PLANS AND SPECIFICATIONS FOR THE
CLAUS ROAD PAVEMENT REHABILITATION – PHASE II PROJECT,
ACCEPTING THE BID, AND AWARDING A CONTRACT TO DSS COMPANY,
DBA KNIFE RIVER CONSTRUCTION, OF STOCKTON, CALIFORNIA, IN
THE AMOUNT OF \$1,036,423 AND AUTHORIZING THE CITY MANAGER, OR
HIS DESIGNEE TO EXECUTE THE AGREEMENT**

WHEREAS, plans and specifications have been prepared for the Claus Road Pavement Rehabilitation – Phase II project, and City staff recommends approval by the City Council, and

WHEREAS, the bids received for the Claus Road Pavement Rehabilitation – Phase II Project were publicly opened at 11:00 a.m. on April 2, 2019, and later tabulated by the Director of Community and Economic Development for the consideration of Council, and

WHEREAS, the Director of Community and Economic Development has recommended that the bid of \$1,036,423 received from DSS Company, dba Knife River Construction, of Stockton, CA be accepted as the lowest responsible and responsive bid and the contract be awarded to DSS Company, dba Knife River Construction, and

WHEREAS, Modesto Municipal Code Section 8-3.203 generally requires all purchases, which meet or exceed \$50,000 for material, equipment or contractual services to follow the formal bid procedures. An award of \$1,036,423 and agreement for construction for Community and Economic Development Department to use DSS Company, dba Knife River Construction, Stockton, CA, conforms to the Modesto Municipal Code because the City complied with the formal bid procedures and DSS Company, dba Knife River Construction, was the lowest responsive bidder.

NOW, THEREFORE BE IT RESOLVED, by the Council of the City of Modesto that it hereby approves the plans and specifications for the Claus Road Pavement Rehabilitation – Phase II project, accepts the bid of DSS Company, dba Knife River Construction, of Stockton, CA, in the amount of \$1,036,423 and awards DSS Company, dba Knife River Construction the contract for the Claus Road Pavement Rehabilitation – Phase II project.

BE IT FURTHER RESOLVED, that the City Manager, or his designee, is hereby authorized to execute the contract, in a form approved by the City Attorney.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 7th day of May, 2019, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Ah You, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2019-205**

RESOLUTION AUTHORIZING THE DIRECTOR OF UTILITIES TO APPROVE CHANGE ORDERS UP TO THE CUMULATIVE AMOUNT OF \$103,643 (10% OF THE ORIGINAL CONTRACT PRICE) FOR THE CLAUS ROAD PAVEMENT REHABILITATION – PHASE II PROJECT

WHEREAS, the Claus Road Pavement Rehabilitation – Phase II project bids were publicly opened on April 2, 2019, and DSS Company, dba Knife River Construction, of Stockton California was the apparent low bidder with the amount of \$1,036,423, and

WHEREAS, the contingency cost for the Claus Road Pavement Rehabilitation – Phase II project is estimated to be \$103,643 10% of the original contract price, an amount which exceeds the Director’s authority for the project as enacted by Council Resolution No. 94-443 on July 19, 1994.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby authorizes the Director of Utilities to approve change orders up to the cumulative amount of \$103,643 (10% of the original contract price).

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 7th day of May, 2019, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Ah You, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION NO. 2019-206**

**RESOLUTION APPROVING AN AMENDED AND RESTATED
MEMORANDUM OF AGREEMENT WITH STANISLAUS COUNTY FOR THE
PRELIMINARY ENGINEERING AND FINAL DESIGN PHASE OF THE 7TH
STREET BRIDGE PROJECT IN AN AMOUNT NOT TO EXCEED \$344,500 AND
AUTHORIZING THE CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE
THE MEMORANDUM OF AGREEMENT**

WHEREAS, the 7th Street Bridge at the Tuolumne River was built in 1916 and has a sufficiency rating of 2 on a scale of 1 of 100, with 100 being the best, and

WHEREAS, the bridge is listed as Structurally Deficient on the Caltrans Structures Maintenance and Investigation Local Bridge List, and

WHEREAS, the bridge requires reconstruction or replacement to meet standards for seismic events, and

WHEREAS, on April 5, 2011, by Resolution No. 2011-113, Council approved a Memorandum of Agreement (MOA) to facilitate the cooperation between the City of Modesto and Stanislaus County for the construction of the 7th Street Bridge, and

WHEREAS, the MOA obligated the parties to split costs for project planning throughout the Preliminary Engineering Phase (50% City and 50% County) with the intent to create a separate MOA for the Right-of-Way and Utility Relocation Phase and the Construction Phase of the project, and

WHEREAS, Preliminary Engineering is anticipated to be completed by July 2019 and Stanislaus County desires to move forward with developing project Plans, Specifications and Estimates (PS&E), and

WHEREAS, although not clearly indicated, it has been determined that the intent of the MOA was to include PS&E in the future.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the Amended and Restated Memorandum of Agreement with

Stanislaus County for the Preliminary Engineering and Final Design Phase of the 7th Street Bridge Project in an amount not to exceed \$344,500.

BE IT FURTHER RESOLVED, that the City Manager, or his designee, is hereby authorized to execute the Amended and Restated Memorandum of Agreement.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 7th day of May, 2019, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Ah You, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION NO. 2019-207**

**RESOLUTION APPROVING THE INSTALLATION OF A FIXED,
PERMANENT COMMUNITY IDENTIFIER SIGN WITH THE
CONSTRUCTION CONTRACT FOR THE SR-132 FREEWAY/EXPRESSWAY
PHASE 1 PROJECT AND AUTHORIZING THE CITY MANAGER, OR HIS
DESIGNEE, TO EXECUTE ALL DOCUMENTS AND COOPERATIVE
AGREEMENTS NECESSARY FOR THIS INSTALLATION AND
MAINTENANCE**

WHEREAS, the purpose of the State Route (SR) 132 West Freeway/Expressway - Phase 1 Project (PROJECT) is to improve regional and interregional circulation, relieve traffic congestion along existing SR132, and enhance safety and operations for the existing and proposed transportation network, and

WHEREAS, Phase 1 of the PROJECT is approximately four miles in length and will replace the existing 2-lane highway segment of SR132 along Maze Boulevard from SR99 to Dakota Avenue, and

WHEREAS, the Community Identifier resides on State of California property and within State of California right of way of the PROJECT, and

WHEREAS, the Community Identifier resides within the jurisdiction of lands of the County of Stanislaus within the State of California, and

WHEREAS, the City of Modesto will perform the maintenance of the Community Identifier on behalf of the County per a future SR-132 Freeway Maintenance Agreement between Caltrans and Stanislaus County, and

WHEREAS, the Community Identifier Sign was presented to the public at community meetings held on September 27, 2018 and November 8, 2018, and

WHEREAS, the proposed lifespan of the Project is 100 years, and

WHEREAS, the City of Modesto agrees to ensure maintenance of the Community Identifier, including timely graffiti removal/repair and removal (or restoration) at the end of its life span.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the installation of a fixed, permanent Community Identifier Sign with the construction contract for the State Route 132 Freeway/Expressway Phase 1 Project.

BE IT FURTHER RESOLVED, that the City Manager, or his designee, is hereby authorized to execute all documents and cooperative agreements necessary for this installation and maintenance.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 7th day of May, 2019, by Councilmember Kenoyer, who moved for its adoption, which motion being duly seconded by Councilmember Ah You, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2019-208**

RESOLUTION APPROVING THE SECOND AMENDMENT INCREASING THE AGREEMENT AMOUNT WITH DOKKEN ENGINEERING, FOR PROFESSIONAL DESIGN SERVICES FOR THE STATE ROUTE 132 WEST FREEWAY/EXPRESSWAY - PHASE 1 PROJECT BY \$144,422 FROM \$7,344,096 TO A TOTAL AMOUNT OF \$7,488,518, AND AUTHORIZING THE CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE THE SECOND AMENDMENT

WHEREAS, the purpose of the State Route 132 West Freeway/Expressway - Phase 1 Project is to improve regional and interregional circulation, relieve traffic congestion along existing State Route 132, and enhance safety and operations for the existing and proposed transportation network, and

WHEREAS, on May 2, 2017, by Resolution No. 2017-174, Council approved an agreement with Dokken Engineering for professional design services in the amount of \$6,400,000, plus \$600,000 for additional services, for a total contract amount of \$7,000,000, and

WHEREAS, on January 22, 2019, by Resolution No. 2019-01, Council approved a First Amendment to the agreement with Dokken in the amount of \$344,096, for a total contract amount of \$7,488,518, and

WHEREAS, on April 16, 2019, Dokken Engineering submitted to the City a budget augmentation for additional tasks in the amount of \$144,422, for a total contract amount of \$7,488,518, and

WHEREAS, these additional needs are described by task as follows:

Task 7.1: Bid Support (Hourly)

Task 17.1: Preparation and Caltrans Approval of Paleo Plan (Hourly)

Task 18.1: Bird Nesting Surveys for Tree Removals (Hourly)

- Task 19.1: Foundation Investigation for 2 MID Poles (Hourly)
- Task 20.1: On-Site Electrical Modifications (Hourly)
- Task 20.2: Site Visit (Hourly)
- Task 20.3: Building Demolition Sheet (Hourly)
- Task 21.1: Coordination/Administration (Hourly)
- Task 22.1: Revise Custom Design of 54" Sewer Vaults (Hourly)
- Task 23.1: Fairy Shrimp Identification and Documentation (Hourly)
- Task 23.2: Raptor and Burrowing Owl Survey (Pre-construction) (Hourly)
- Task 24.1: Prepare Freeway Agreement Exhibit for SR-99 (Hourly)

WHEREAS, as Dokken Engineering has nearly completed the previously identified scope of services, a Second Amendment to the Dokken Engineering Agreement is needed to increase the contract by a total of \$144,422.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the Second Amendment increasing the agreement amount with Dokken Engineering, for professional design services for the State Route 132 West Freeway/Expressway - Phase 1 Project by \$144,422 from \$7,344,096 to a total amount of \$7,488,518.

BE IT FURTHER RESOLVED, that the City Manager, or his designee, is authorized to execute the Second Amendment, in a form approved by the City Attorney.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 7th day of May, 2019, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Ah You, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION NO. 2019-209**

RESOLUTION AMENDING THE FISCAL YEAR 2018-2019 CAPITAL IMPROVEMENT PROGRAM (CIP) BUDGET, PROJECT #100614 IN THE AMOUNT OF \$144,422 FOR THE STATE ROUTE 132 WEST FREEWAY / EXPRESSWAY - PHASE 1 PROJECT AND APPROPRIATION OF FUNDS FROM THE STREETS CAPITAL FACILITY FEES FUND RESERVES, AND AUTHORIZING THE CITY MANAGER, OR HIS DESIGNEE TO IMPLEMENT THE PROVISIONS OF THIS RESOLUTION

WHEREAS, the purpose of the State Route 132 West Freeway/Expressway - Phase 1 Project is to improve regional and interregional circulation, relieve traffic congestion along existing State Route 132, and enhance safety and operations for the existing and proposed transportation network, and

WHEREAS, on May 2, 2017, by Resolution No. 2017-175, Council authorized the appropriation of \$4,000,000 in Streets Capital Facility Fees reserve funds to the State Route 132 West Expressway Project, and

WHEREAS, on May 2, 2017, by Resolution No. 2017-174, Council approved an agreement with Dokken Engineering for professional design services in the amount of \$6,400,000, plus \$600,000 for additional services, for a total contract amount of \$7,000,000, and

WHEREAS, on January 22, 2019, by Resolution No. 2019-01, Council approved a First Amendment to the agreement with Dokken in the amount of \$344,096, for a total contract amount of \$7,344,096, and

WHEREAS, on April 16, 2019, Dokken Engineering submitted to the City a budget augmentation for additional tasks in the amount of \$144,422, for a total contract amount of \$7,488,518, and

WHEREAS, as Dokken Engineering has nearly completed the previously identified scope of services, a Second Amendment to the Dokken Engineering Agreement is needed to increase the contract by a total of \$144,422, and

WHEREAS, the Fiscal Year 2018-2019 Capital Improvement Program Budget needs to be amended by \$144,422 for the State Route 132 West Freeway/Expressway - Phase 1 Project and funds need to be appropriated from the Streets Capital Facility Fees reserve funds.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby amends the Fiscal Year 2018-2019 Capital Improvement Program (CIP) Budget, project #100614 in the amount of \$144,422 for the State Route 132 West Freeway/Expressway - Phase 1 Project and appropriation of funds from the Streets Capital Facility Fees fund reserves.

BE IT FURTHER RESOLVED, that the City Manager, or his designee, is authorized to implement the provisions of this resolution.

RESOLUTION NO. 2019-210**

RESOLUTION APPROVING AN AGREEMENT WITH FLEET TIRE INC. DBA BRANNON TIRE, STOCKTON, CA FOR A TWO YEAR AGREEMENT WITH THREE ONE-YEAR EXTENSION OPTIONS FOR AN ANNUAL COST NOT TO EXCEED \$88,920 AND A TOTAL AMOUNT NOT TO EXCEED \$444,600 AND AUTHORIZING THE CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE THE AGREEMENT

WHEREAS, Council approved a purchasing agreement with Brannon Tires, Stockton, CA for the furnishing of tire recapping, flat repairs, tire mounting and balancing for the City's Fleet of Vehicles; and

WHEREAS, and due to changes in the market conditions and continuous increasing prices for services and labor Brannon Tire officially notified the Purchasing Division that they would be terminating Agreement #84247 effective November 15, 2018; and

WHEREAS, Public Works, Fleet Division has an ongoing need for an hourly tire service for heavy and light duty work that current Fleet staff is unable to perform; and

WHEREAS, On March 26, 2019 Bids were formally opened with the City Clerk's Office; and

WHEREAS, seven vendors downloaded the RFB, two vendors responded, one of which was a local vendor; and

WHEREAS, one vendor was considered non-responsive for not returning mandatory forms as outlined in the RFB, and

WHEREAS, Modesto Municipal Code Section 8-3.203 generally requires all purchases, which meet or exceed \$50,000 for material, equipment or contractual services to follow formal bid procedures; and

WHEREAS, the award of RFB 1819-30 for On-Site Tire Technician conforms to the Modesto Municipal Code because the City complied with the formal bid procedures and Fleet Tire Inc. dba Brannon Tire was the lowest responsive and responsible bidder.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the award of bid and agreement for an On-Site Tire Technician to Fleet Tire Inc., dba Brannon Tire, Stockton, CA for a two year agreement with three one-year extension options for an annual cost not to exceed \$88,920 and a total amount not to exceed \$444,600 over five years.

BE IT FURTHER RESOLVED, the City Manager, or his designee, to execute an agreement, in a form approved by the City Attorney.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 7th day of May, 2019, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Ah You, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION APPROVING THE PURCHASE OF ONE 3/4 TON PICKUP TRUCK WITH SPECIFIC CONFIGURATIONS TO TOWNE FORD, REDWOOD CITY, CA FOR A TOTAL AMOUNT NOT TO EXCEED \$28,974 AND TWO ¾ TON PICKUP TRUCKS WITH SPECIFIC CONFIGURATIONS TO AMERICAN CHEVROLET, MODESTO, CA FOR A TOTAL AMOUNT NOT TO EXCEED \$65,746, AND AUTHORIZING THE PURCHASING MANAGER, OR HER DESIGNEE, TO ISSUE THE PURCHASE ORDER

WHEREAS, all three 3/4 ton pickup truck replacements will be used by the Wastewater Division; and

WHEREAS, replacement units are essential in maintaining current operations, facilities and/or services assigned to various departments; and

WHEREAS, on January 29, 2019 the Purchasing Division issued RFB 1819-358 for the purchase of three ¾ ton pickup trucks with specific configurations on the City's website; and

WHEREAS, on February 26, 2019 bids were formally opened in the City Clerk's Office; and

WHEREAS, eleven companies downloaded the RFB, two vendors responded, one of which was a local vendor; and

WHEREAS, both bids were responsive and responsible; and

WHEREAS, under the two specific configurations for this bid the first vehicle configuration for one ¾ ton regular cab long bed pickup one bidder responded and was lowest bidder; and

WHEREAS, the second vehicle configuration for two ¾ ton extended cab short bed pickup one bidder responded and lowest bidder; and

WHEREAS, based on overall lowest responsive and responsible bids staff recommends awarding one ¾ ton regular cab long bed pickup to Towne Ford, Redwood City, CA; and

WHEREAS, based on overall lowest responsive and responsible bids staff recommends awarding two ¾ ton extended cab short bed pickups to American Chevrolet, Modesto, CA; and

WHEREAS, sufficient funds for three ¾ ton pickup trucks have been encumbered in the Fleet Replacement Fund: 5409.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the award of bid for the purchase of one ¾ ton pickup truck to Towne Ford, Redwood City, CA and two ¾ ton pickup trucks to American Chevrolet, Modesto, CA.

BE IT FURTHER RESOLVED, that the Purchasing Manager or her designee is hereby authorized to issue a purchase order for an estimated total cost \$94,720.

**MODESTO CITY COUNCIL
RESOLUTION NO. 2019-212**

RESOLUTION APPROVING A ONE-TIME PURCHASE WITH MUNICIPAL MAINTENANCE EQUIPMENT (MME), SACRAMENTO, CA BY UTILIZING “PIGGYBACKING” UNDER THE COMPETITIVE BID PROCESS WITH NATIONAL JOINT POWERS ALLIANCE (NJPA), FOR SEWER VACUUM, HYDRO-EXCAVATION, AND STREET SWEEPER EQUIPMENT WITH RELATED ACCESSORIES AND SUPPLIES FOR A TOTAL AMOUNT NOT TO EXCEED \$455,917, AND AUTHORIZING THE PURCHASING MANAGER, OR HER DESIGNEE, TO ISSUE THE PURCHASE ORDER

WHEREAS, sewer vacuum, hydro-excavation and street sweeper equipment with related accessories and supplies are replacement units and will be used by the Water Construction Division; and

WHEREAS, replacement units are essential in maintaining current operations, facilities and/or services assigned to various departments; and

WHEREAS, the hydro-excavator has the capacity to clean up large water leaks in emergency situations and is used to excavate around buried utilities such; and

WHEREAS, in reviewing the National Joint Powers Alliance (NJPA)/Sourcewell Request for Proposals (RFP) for Sewer Vacuum, Hydro-Excavation and Street Sweeper Equipment with Related Accessories and Supplies; and

WHEREAS, on December 21, 2017 thirty proposals were formally opened; and

WHEREAS, thirteen vendors were awarded contracts; and

WHEREAS, Modesto Municipal Code authorizes entities to rely on terms that have already been competitively bid “piggybacking” in certain situations; based on the review of the bidding process for National Joint Powers Alliance (NJPA)/Sourcewell, the City will “piggybacking” on their bid; and

WHEREAS, the Purchasing Manager has determined, pursuant to Section 8-3.204(d) of the MMC, that the process other than the formal bid procedure set forth in

Section 8-3.201 will result in a procurement for the City at the lowest possible cost commensurate with the desired quality; and

WHEREAS, sufficient funds for Vac-Con Combination Sewer and Storm Drain Cleaner have been encumbered in the Fleet Replacement Fund 5409.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the purchase agreement with Municipal Maintenance Equipment (MME) Sacramento, CA for the purchase of one Vac-Con Hydro-Excavation Combination Sewer and Storm Drain Cleaner.

BE IT FURTHER RESOLVED, that the Purchasing Manager or her designee is hereby authorized to issue a purchase order for an estimated cost of \$455,917

**MODESTO CITY COUNCIL
RESOLUTION NO. 2019-213**

**RESOLUTION OF THE CITY COUNCIL OF THE CITY OF MODESTO
DECLARING ITS INTENTION TO ESTABLISH THE MODESTO TOURISM
MARKETING DISTRICT (MTMD) AND FIXING THE TIME AND PLACE OF A
PUBLIC MEETING AND A PUBLIC HEARING THEREON AND GIVING
NOTICE THEREOF**

WHEREAS, the Property and Business Improvement Law of 1994, Streets and Highways Code § 36600 et seq., authorizes the City to establish business improvement districts for the purposes of promoting tourism; and

WHEREAS, Modesto Convention and Visitors Bureau, lodging business owners, and representatives from the City of Modesto have met to consider the formation of the MTMD; and

WHEREAS, the Modesto Convention and Visitors Bureau has drafted a Management District Plan (Plan) which sets forth the proposed boundary of the MTMD, a service plan and budget, and a proposed means of governance; and

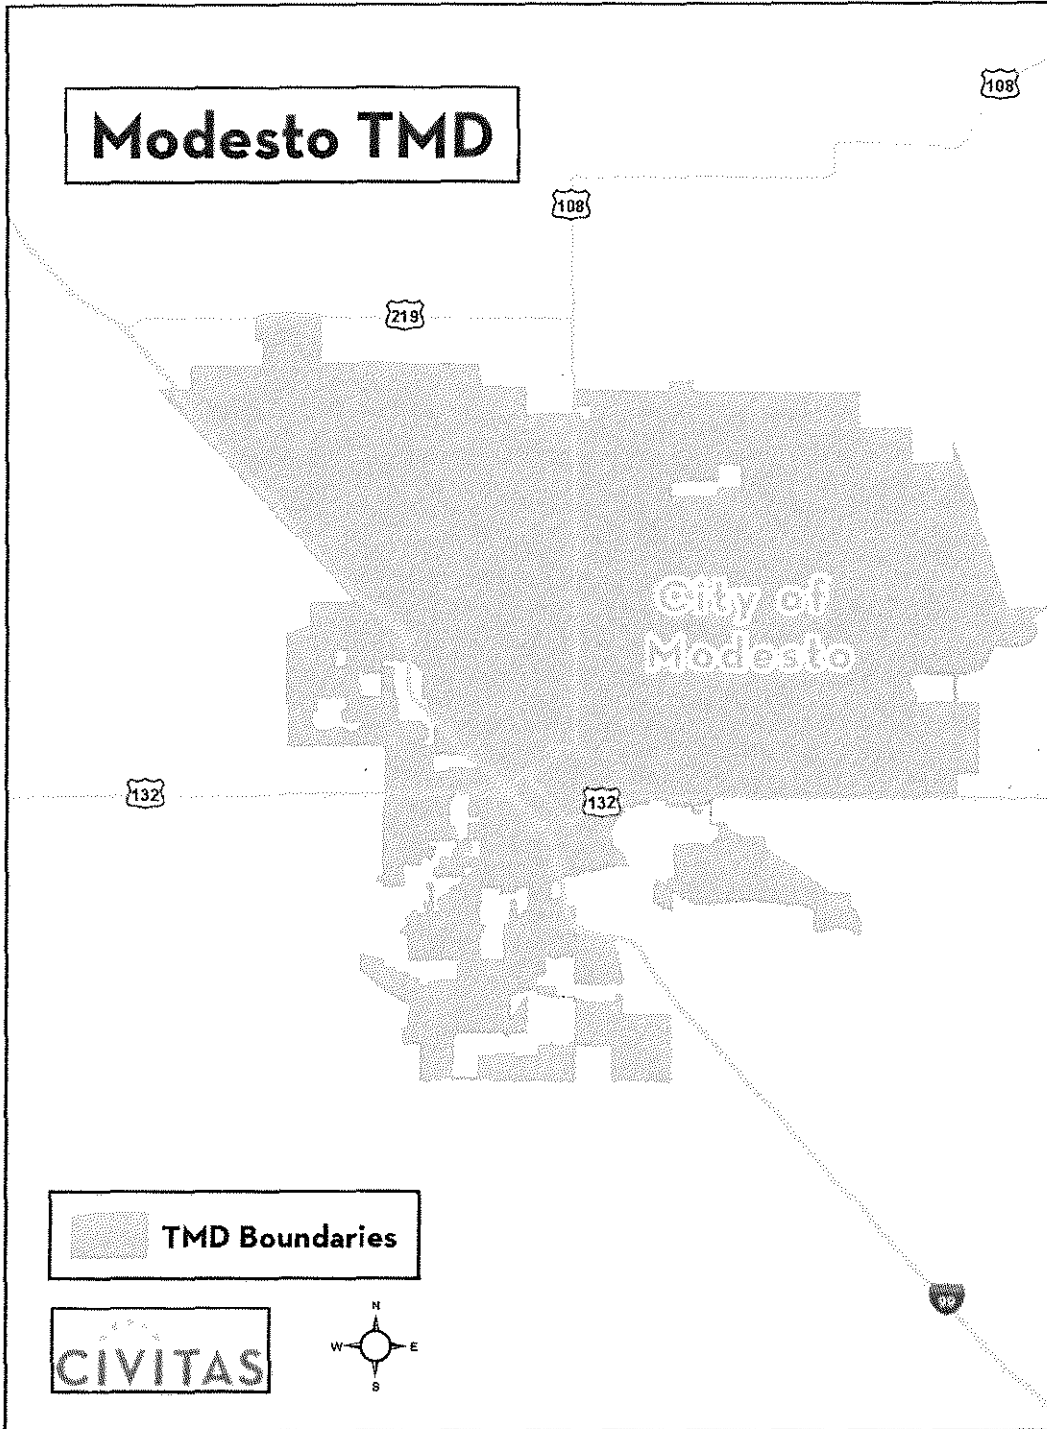

WHEREAS, lodging business who will pay more than fifty percent (50%) of the assessment under the MTMD have petitioned the City Council to establish the MTMD.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that:

1. The recitals set forth herein are true and correct.
2. The City Council finds that lodging businesses that will pay more than fifty percent (50%) of the assessment proposed in the Plan have signed and submitted petitions in support of the formation of the MTMD. The City Council accepts the petitions and adopts this Resolution of Intention to establish the MTMD and to levy an assessment on certain lodging businesses within the MTMD boundaries in accordance with the Property and Business Improvement District Law of 1994.

3. The City Council finds that the Plan satisfies all requirements of Streets and Highways Code §36622.
4. The City Council declares its intention to establish the MTMD and to levy and collect assessments on lodging businesses within the MTMD boundaries pursuant to the Property and Business Improvement District Law of 1994.
5. The MTMD shall include all lodging businesses located within the boundaries of City of Modesto, as shown in the map **attached** as **Exhibit A**.
6. The name of the district shall be Modesto Tourism Marketing District (MTMD).
7. The annual assessment rate is one percent (1%) of gross short-term room rental revenue. Based on the benefit received, assessments will not be collected on: stays of more than twenty-seven (27) consecutive days; stays by any officer or employee of a foreign government who is exempt by reason of express provision of federal law or international treaty; stays by any officer or employee of the United States Government, or of a federal credit union, or of a state, county, city or other domestic public entity who pays rent in the discharge of official government business; stays by any officer or employee of a bank or insurance company who pays rent in the discharge of official bank or insurance company business; and stays pursuant to contracts executed prior to August 1, 2019. During the four (4) years and eleven (11) month term, the total assessment rate may be increased by the Owners' Association up to a maximum of two percent (2%) of gross short-term rental revenue. The increase in any year shall not exceed one-half of one percent (0.50%) of gross room rental revenue.
8. The assessments levied for the MTMD shall be applied toward sales and marketing programs to market assessed lodging businesses in Modesto as tourist, meeting, and event destinations, as described in the Plan. Funds remaining at the end of any year may be used in subsequent years in which MTMD assessments are levied as long as they are used consistent with the requirements of this resolution and the Plan.
9. The proposed MTMD will have a four (4) year and eleven (11) month term, beginning August 1, 2019 through June 30, 2024, unless renewed pursuant to Streets and Highways Code §36660.
10. Bonds shall not be issued.
11. The time and place for the public meeting to hear testimony on establishing the MTMD and levying assessments are set for June 11, 2019,

EXHIBIT A
District Boundaries

at 5:30 PM, or as soon thereafter as the matter may be heard, at the Council Chambers located at 1010 10th Street, Modesto CA 95354.

12. The time and place for the public hearing to establish the MTMD and the levy of assessments are set for June 25, 2019, at 5:30 PM, or as soon thereafter as the matter may be heard, at the Council Chambers located at 1010 10th Street, Modesto CA 95354. The City Clerk is directed to provide written notice to the lodging businesses subject to assessment of the date and time of the meeting and hearing, and to provide that notice as required by Streets and Highways Code § 36623, no later than May 8, 2019.
13. At the public meeting and hearing the testimony of all interested persons for or against the establishment of the MTMD may be received. If at the conclusion of the public hearing, there are of record written protests by the owners of the lodging businesses within the proposed MTMD that will pay more than fifty percent (50%) of the estimated total assessment of the entire MTMD, no further proceedings to establish the MTMD shall occur for a period of one (1) year.
14. The complete Plan is on file with the City Clerk and may be reviewed upon request.
15. This resolution shall take effect immediately upon its adoption by the City Council.

The foregoing resolution was introduced and adopted at a regular meeting of the City Council held on the 7th day of May, 2019, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Madrigal, was upon roll call carried and the resolution adopted by the following vote.

**MODESTO CITY COUNCIL
RESOLUTION NO. 2019-214**

RESOLUTION APPROVING MODESTO AREA EXPRESS (MAX) FARE CHANGES TO THE HALF FARE FOR SENIORS/DISABLED AND OTHERS TO PROMOTE HIGH RIDERSHIP ON PUBLIC TRANSPORTATION, AND AUTHORIZING THE CITY MANAGER, OR HIS DESIGNEE, TO IMPLEMENT THE CHANGES

WHEREAS, Transit Division staff frequently receive comments and suggestions from bus riders regarding the cost of the Modesto Area Express (MAX) bus system being a barrier to using MAX, and

WHEREAS, many bus riders rely on MAX and are eligible for the discounted senior/disabled pass program required by the Federal Transit Administration (FTA), and

WHEREAS, the FTA requires a half fare for seniors, disabled, and Medicare cardholders, and

WHEREAS, this fare change will provide people an incentive for using the bus more often, thus increasing ridership, and

WHEREAS, MAX extends this half fare to the 31-Day pass, but not to the 1-Day or the 7-Day Pass, and

WHEREAS, other categories should be added to the half fare discount, including veterans and youth (ages 5-18), and

WHEREAS, it is common in the transit industry to have youth in the half fare category with senior and disabled riders.

NOW, THEREFORE BE IT RESOLVED, by the Council of the City of Modesto that it hereby approves the fare change as shown on **Attachment A**.

BE IT FURTHER RESOLVED, that the City Manager, or his designee, is hereby authorized to implement the fare changes of this resolution.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 7th day of May, 2019, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Ah You, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2019-215**

RESOLUTION APPROVING THE IMPLEMENTATION OF A NEW MODESTO AREA EXPRESS (MAX) COMMUTER ROUTE TO SACRAMENTO, CA, AND AUTHORIZING THE CITY MANAGER, OR HIS DESIGNEE, TO IMPLEMENT THE ROUTE

WHEREAS, the Amtrak service did not perform at performance levels satisfactory to Amtrak, and will be discontinued leaving a gap in service, and

WHEREAS, Modesto Area Express (MAX) can start operating a new route to Sacramento using a MAX commuter bus, and

WHEREAS, the service would be similar to the buses used for the commuter service to Bay Area Rapid Transit (BART) and Altamont Commuter Express (ACE), and

WHEREAS, the Transit Division has received some inquiries to operate a route that provides service between Modesto, Stockton and Sacramento to replace the service being stopped by Amtrak, and

WHEREAS, the Transit Division is still reviewing possible stops in Stockton and Sacramento, but plan to start operating the new route on January 1, 2020.

NOW, THEREFORE BE IT RESOLVED, by the Council of the City of Modesto that it hereby approves the implementation of a new MAX commuter route to Sacramento, CA.

BE IT FURTHER RESOLVED, that the City Manager, or his designee, is hereby authorized to implement the new route.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 7th day of May, 2019, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Ah You, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2019-216**

RESOLUTION APPROVING THE SUBMISSION OF THE TRANSPORTATION DEVELOPMENT ACT (TDA) TRANSIT CLAIM TO THE STANISLAUS COUNCIL OF GOVERNMENTS (STANCOG) FOR FISCAL YEAR 2019-20 IN THE AMOUNT OF \$13,529,650, AND A REGIONAL TRANSIT CLAIM IN THE AMOUNT OF \$839,769

WHEREAS, the greatest portion of the City's funding for the Transit Service Program is made available under the Transportation Development Act (TDA), which includes Local Transportation Fund (LTF) funds and State Transit Assistance (STA) funds, and

WHEREAS, the Stanislaus Council of Governments (StanCOG) has informed the Finance Department that TDA funds have been apportioned by the State to StanCOG for allocation to public transit agencies pursuant to Article 4 of Chapter 4 of the California Public Utilities Code (PUC), and

WHEREAS, the City has prepared its TDA claim for Fiscal Year 2019-20 pursuant to these sections of the California PUC, and

WHEREAS, the City's Transit TDA Claim for Fiscal Year 2019-20 is \$13,529,650, and

WHEREAS, the City's Transit TDA Claim for Fiscal Year 2019-20 for Regional Projects is \$839,769, and

WHEREAS, the total Transit Operating Budget for Fiscal Year 2018-2019 is \$20,848,610, and

WHEREAS, Council action authorizing submission of the Claim is required by StanCOG pursuant to Section 99233.11 of the California PUC before any TDA funding can be released to the City.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves submission of the TDA transit claim for Fiscal Year 2018-2019 to StanCOG in the amount of \$13,529,650 and a Regional Transit Claim for \$839,769.

**MODESTO CITY COUNCIL
RESOLUTION NO. 2019-217**

RESOLUTION APPROVING ADJUSTMENTS TO VARIOUS AIRPORT RATES AND FEES FOR SPECIFIC ACTIVITIES AND SERVICES AT THE MODESTO CITY-COUNTY AIRPORT (AIRPORT), EFFECTIVE JULY 1, 2019, AND RESCINDING RESOLUTION NO. 2017-451

WHEREAS, the Modesto City-County Airport (Airport) is an enterprise fund and is expected to be self-supporting. The Airport has based its computing of fair market values from the National Consumer Price Index (CPI) for all Urban Consumers, West Urban Area published by the U.S. Department of Labor, Bureau of Labor Statistics, and

WHEREAS, the CPI revealed a deficiency in Airport Rates and Fees at Modesto City-County Airport thus the implementation of the increase to Airport rates and fees, and

WHEREAS, adjusting Airport Rates and Fees will increase revenue that will allow the airport to recover growing operational expenses and address deferred maintenance items.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves adjustments to various Airport Rates and Fees for specific activities and services at the Modesto City-County Airport as noted in **Attachment A**, attached hereto.

BE IT FURTHER RESOLVED that Resolution 2017-451 shall be rescinded on July 1, 2019 at 12 am.

BE IT FURTHER RESOLVED that this resolution shall go into effect and be in full force and operation on July 1, 2019.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 7th day of May, 2019, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Ah You was upon roll call carried and the resolution adopted by the following vote:

Large Modified Box Hangar
(electricity provided) \$412.40 per month
Hangar K Unit 1

Modesto City-County Airport Rates & Fees
Effective July 1, 2019

Attachment A

Extra Large T-Hangars (Electricity provided) Hangar I Units 1-8 Hangar K Unit 7	\$489.20 per month
Storage Units	
Hangar G Storage Unit	\$50.95 per month
Hangar H Storage Unit	\$50.95 per month
Hangar I Storage Unit	\$133.95 per month
Hangar J Storage Unit	\$50.95 per month
Hangar L Storage Unit	\$50.95 per month

All T-Hangars leased under Section 1 subparagraphs (a) with no electricity which later have electricity installed will increase to the electricity provided rate with corresponding T-Hangar size.

(b) Corporate Executive Commercial Box Hangars

Hangar 1	\$1,771.81 per month
Hangar 2	\$1,442.99 per month
Hangar 3	\$791.62 per month
Hangar 4	\$1,348.43 per month
Hangar 5	\$1,341.60 per month
Hangar 6	\$785.69 per month
Hangar 7	\$89.77 per month (ground lease)

(c) Portable Hangars and Ground Lease

Portable Hangars 1-14	\$72.49 per month
Ground Lease - Developed (per sq. ft.)	\$.059 per month
Ground Lease – Undeveloped (per sq. ft.)	\$.027 per month

A five percent (5%) discount will be made in any of the above rental charges when a year's lease is entered into and the year's rental charges are paid in advance.

SECTION 2. AIRPORT KEYS

- (a) Two (2) hangar keys and one (1) gate proximity card are included in initial lease
- (b) \$45.00 for each additional proximity card
- (c) \$45.00 for each additional hangar key

SECTION 3. TIE-DOWN FEES. Tie-down charges and fees at the Modesto City-County Airport/Harry Sham Field are hereby established as follows, payable in advance:

- (a) Aircraft less than 12,500 lbs. maximum certificated gross landing weight
 - Permanent \$47.82 per month
 - Transient \$7.88 per day
- (b) Aircraft greater than 12,501 lbs. maximum certificated gross landing weight
 - Permanent \$80.68 per month
 - Transient \$15.63 per day

A five-percent (5%) discount will be made in the rental charges set forth in Section 1 subparagraphs (a), (b), and (c), when a year's lease is entered into and the year's rental charges are paid in advance.

A volume discount may be given to Fixed Base Operators (FBO) that operate flight schools for light single and multi-engine aircraft (less than 12,500 lbs. of maximum certificated gross landing weight) for tie-down spaces as set forth in subsections (a) and (b) above. For every

two tail-in spaces the FBO agrees to lease, one taxi-in tie-down may be leased for the same price as a tail-in tie-down.

Overnight tie-down of aircraft belonging to or in the custody or possession of a lessee at the Modesto City-County Airport/Harry Sham Field shall be subject to the normal tie-down charge as specified by this section.

SECTION 4. OFFICE SPACE. The monthly charge for office space(s) at the Modesto City-County Airport/Harry Sham Field are hereby established as follows:

Old Administration Building Utilities furnished by Airport	\$1.00 per sq. ft.
Office Building(s) 1 & 2 Utilities furnished by Tenant	\$1.00 per sq. ft.

SECTION 5. TEMPORARY USE OF AIRPORT PASSENGER TERMINAL.

Organization and service providers desiring to temporarily use the passenger terminal will be charged a daily rate:

(a) Ticket counter	\$1.00 per sq. ft.
(b) Other areas	\$1.00 per sq. ft.

SECTION 6. AIRCRAFT CARRYING PASSENGERS AND/OR CARGO FOR HIRE.

Aircraft landing at the Modesto City-County Airport/Harry Sham Field shall pay a landing fee as follows:

- (a) All aircraft weighing less than 12,500 lbs. maximum certificated gross landing weight - \$0.00 per landing
- (b) All aircraft weighing greater than 12,501 lbs. maximum certificated gross landing weight - \$1.13 per 1,000 pounds per landing

- (c) All transient aircraft owned and operated by individuals, companies, and corporations carrying their own products shall not be charged for the first two (2) trips per calendar months. All other trips for the same calendar month shall be charged at the same rates applied to nonscheduled aircraft carrying cargo for hire.
- (d) No landing fee shall be charged for any aircraft, which lands at the airport due to any mechanical or other emergency, except weather, provided that such emergency is reported to the Airport Control Tower prior to landing.

SECTION 7. PASSENGER FACILITY CHARGE (PFC). Commercial air carrying passengers excluding "frequent flyers" or similar airline bonus award enplaning at Modesto City-County Airport/Harry Sham Field shall pay a PFC as approved by Federal Aviation Regulations (FAR) Part 158.

- (a) Enplaned passenger by airline - \$4.63 per ticketed passenger

SECTION 8. ADVERTISEMENT CALLBOARD. Firms wishing to advertise in the airport passenger terminal shall have an approved agreement with the City of Modesto. A monthly charge shall be assessed for the use of the advertisement callboard as follows

<u>Display Size</u>	<u>Display Only</u>	<u>Display & Telephone</u>
7.5" x 9.5"	\$20.00	\$30.00
7.5" x 21"	\$40.00	\$60.00
19" x 21"	\$50.00	\$70.00

SECTION 9. MODESTO CITY-COUNTY AIRPORT BASED COMMERCIAL SERVICES Any person engaging in a commercial enterprise based at the Modesto City-County Airport/Harry Sham Field shall pay to the City a fee equivalent to the City Business License Fees set forth in Chapter 1 of Title 6 of the Modesto Municipal Code, except that a minimum fee of \$100 will be paid for each aircraft sold, for the privilege of engaging in business in the City of Modesto and on the Airport. Said sum shall be payable at the time and in the manner provided for in Chapter 1 of Title 6 of the Modesto Municipal Code.

SECTION 10. FUEL FLOWAGE FEES. A fuel flowage fee of seven cents (\$.07357) per gallon of fuel sold or dispensed on the Airport shall be collected for the City of Modesto by the fuel vendors, except that reduced fuel flowage fees collected from scheduled air carriers can be negotiated for volume purchases.

SECTION 12. TEMPORARILY BASED COMMERCIAL SERVICES. Any person engaging in a commercial enterprise, temporarily based at the Modesto City-County Airport/Harry Sham Field, shall pay to the City a license fee in the sum of two hundred and no/100ths (\$200.00) dollars, payable in advance.

Each such operator shall also pay to the City as a minimum an additional sum of ninety and no/100ths (\$90.00) dollars per month, or any portion thereof, payable in advance, for the privilege of using the Airport and its facilities.

SECTION 12. OFF-AIRPORT CAR RENTAL OPERATOR FEE. Off-airport operators picking up customers at the Modesto City-County Airport/Harry Sham Field will pay to the City of Modesto ten percent (10%) of gross receipt for each vehicle rental. Additionally, the operators will be assessed a parking fee at the same rate on-airport car rental operators are charged for vehicles left in the public parking area overnight.

SECTION 13. MOTOR VEHICLE STORAGE CHARGES. Any person who parks a motor vehicle in Terminal Building Parking Lots at the Modesto City-County Airport/Harry Sham Field shall pay seven and no/100ths (\$7.00) dollars per day or forty-two and no/110ths (\$42.00) dollars per week.

SECTION 14. PENALTIES. A five percent (5%) per month penalty charge shall be made on any of the charges and fees established by this resolution when such charges and fees

are not paid within thirty (30) days after they are due and payable. No penalties will be collected on the PFC.

SECTION 15. ADJUSTMENT OF RENTS, FEES AND CHARGES.

Rates and fees for the Airport may be adjusted from time to time by Resolution of the City Council.

For other than fair market value adjustments, said rents, fees, and charges shall be adjusted in the following manner: The base for computing the adjustment is the National Consumer Price Index for All Urban Consumers, West Urban Area, published by the United States Department of Labor, Bureau of Labor Statistics ("Index"), with a base year of 1982 – 1984 = 100 ("Beginning Index"). In no case shall the minimum rents, fees and charges be less than existing approved and adopted rents, fees and charges.

**MODESTO CITY COUNCIL
RESOLUTION NO. 2019-218**

RESOLUTION APPROVING THE CITY OF MODESTO SPONSORSHIP OF THE 21ST ANNUAL 2019 NORTH MODESTO KIWANIS GRAFFITI PARADE AND CAR SHOW, INCLUDING A WAIVER OF CITY PERMIT FEES, POLICE DEPARTMENT OVERTIME AND VEHICLE COSTS, STREETS DIVISION LABOR AND EQUIPMENT COSTS ESTIMATED TO BE \$65,027, AND AUTHORIZING THE CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE ANY DOCUMENTS NECESSARY RELATED TO THE SPONSORSHIP

WHEREAS, the 21st Annual 2019 North Modesto Kiwanis Graffiti Parade and Car Show is a Modesto tradition, and

WHEREAS, the North Modesto Kiwanis have sponsored this event for the past 20 years, and

WHEREAS, in 2018 there were 1200 classic cars and 20,000 spectators that raised over \$130,000 for support of local children charities through scholarships, grants, and multiple funding programs, and

WHEREAS, this annual event draws participants and spectators from miles around that benefit Modesto lodging, restaurants, and entertainment venues, and

WHEREAS, the sponsorship will include the waiver of City permit fees, Police Department overtime and vehicle costs, and Street Division labor and equipment costs, and

WHEREAS, the estimated expense to the City of Modesto to sponsor the 21st Annual 2019 North Modesto Kiwanis Graffiti Parade and Car Show is approximately \$65,027.

NOW THEREFORE, BE IT RESOLVED by Council of the City of Modesto that it hereby approves the City of Modesto sponsorship of the 21st Annual 2019 North Modesto Kiwanis Graffiti Parade and Car Show including waiver of City permit fees,

Police Department overtime and vehicle costs, and Streets Division labor and equipment estimated at \$65,027.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to execute the necessary documents related to the sponsorship.

The forgoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 7th day of May, 2019, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by councilmember Ah You, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2019-219**

RESOLUTION APPROVING THE PLANS AND SPECIFICATIONS, ACCEPTING THE BID, AND APPROVING A CONSTRUCTION CONTRACT WITH UNITED PAVEMENT MAINTENANCE, INC. OF HUGHSON, CA FOR THE PROJECT TITLED, "BUS TURNOUT S.R. 132/MAZE BOULEVARD" IN THE AMOUNT OF \$74,000, PLUS \$6,000, IF NEEDED, FOR AN AGREEMENT TOTAL NOT TO EXCEED \$80,000, AND AUTHORIZING THE CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE THE AGREEMENT

WHEREAS, the Bus Turnout S.R. 132/Maze Boulevard Project installs a new bus turnout by Franklin Elementary School, on Modesto Area Express (MAX) Route 26, a heavily used bus stop that will give passengers a platform to board and alight the bus, and

WHEREAS, construction of this project relocated an existing stop near the Modesto Irrigation District (MID) canal and meet current Americans with Disabilities Act (ADA) standards at the new location, and

WHEREAS, on March 12, 2019, the project was advertised for bids, and

WHEREAS, on April 2, 2019 , bids were publicly opened pursuant to Modesto Municipal Code Section 8-3.403 and later tabulated by the Director of Public Works for the consideration of Council, and

WHEREAS, the Director of Finance and the City Manager have recommended that the bid of \$74,000 received from United Pavement Maintenance, Inc. of Hughson, CA, be accepted and awarded as the lowest responsive and responsible bid.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the plans and specifications, accepting the bid, and approving a construction contract with United Pavement Maintenance, Inc. of Hughson, CA for the

project titled, "Bus Turnout S.R. 132/Maze Boulevard" in the amount of \$74,000, plus \$6,000, if needed, for an agreement total not to exceed \$80,000.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to execute the contract, in a form approved by the City Attorney.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 7th day of May, 2019, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Ah You, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2019-220**

RESOLUTION ACCEPTING THE NEW TRAFFIC SIGNALS 2013 AT BELLHARBOUR AND FLOYD AT MILLBROOK AND PRESCOTT AT MT. VERNON PROJECT AS COMPLETE, AUTHORIZING ALL NECESSARY STEPS TO FILE WITH THE COUNTY RECORDER, RELEASING SECURITIES, AND RELEASING PAYMENTS TOTALING \$917,910 TO TIM PAXIN'S PACIFIC EXCAVATION, INC., OF ELK GROVE, CA

WHEREAS, in April 2010, City staff applied for and received Congestion Mitigation and Air Quality (CMAQ) funds to construct a new traffic signal at the following three intersections in the City: Roselle Avenue at Belharbour Drive, Floyd Avenue at Millbrook Avenue, and Prescott Road at Mount Vernon Drive, and

WHEREAS, construction of this project installed new traffic signals, including LED Street lighting at the intersections, and meets current Americans with Disabilities Act (ADA) standards, and

WHEREAS, the Capital Improvement Project (CIP) Task force has reviewed and approved the Prescott Road at Mount Vernon Drive traffic signal installation, and

WHEREAS, on December 8, 2015, Council approved by Resolution 2015-465 the installation of the traffic signals at Roselle Avenue at Belharbour Drive, Floyd Avenue at Millbrook Avenue, and Prescott Road at Mount Vernon Drive, and

WHEREAS, the Village I Specific Plan and Facilities Master Plans called for traffic signals on Floyd Avenue at Millbrook Avenue and on Roselle Avenue at Belharbour Drive, and

WHEREAS, staff worked with Stanislaus Council of Governments (StanCOG) and on May 8, 2017, additional CMAQ funds of \$174,000 were added to the project to help

offset anticipated increases in construction costs. There were no other CMAQ funds available at that time, and

WHEREAS, in addition, on July 6, 2017 Council obligated \$160,000 of Measure L funds for this project. An additional \$100,000 of CFD Village One No. 2 funds was needed to help fund the traffic signals constructed at Roselle Avenue at Belharbour Drive, and

WHEREAS, bids were advertised July 17, 2017, and

WHEREAS, four bids were publicly opened on August 15, 2017, pursuant to Modesto Municipal Code section 8-3.403 and Charter Section 1307, Tim Paxin's Pacific Excavation, Inc., of Elk Grove, CA was the apparent low bidder.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the New Traffic Signals 2013 project is hereby accepted as complete from said contractor Tim Paxin's Pacific Excavation, Inc. of Elk Grove, CA, and that the City Clerk is authorized to complete all necessary steps to file with the County Recorder, release securities and authorize payments totaling \$917,910.

**MODESTO CITY COUNCIL
RESOLUTION NO. 2019-222**

**RESOLUTION APPROVING A MEMORANDUM OF UNDERSTANDING
BETWEEN THE CITY OF MODESTO, UTILITIES DEPARTMENT AND THE
COUNTY OF STANISLAUS, DEPARTMENT OF ENVIRONMENTAL
RESOURCES, REGARDING ONSITE WASTEWATER TREATMENT
SYSTEMS**

WHEREAS, the State of California adopted Assembly Bill 885 on September 27, 2000, which required the California State Water Resources Control Board (Board) to adopt specific regulations or standards for the permitting and operation of onsite wastewater treatment systems (OWTS), commonly known as septic systems, and

WHEREAS, on June 19, 2012, the Board adopted the Water Quality Control Plan for Siting, Design, Operation, and Maintenance of Onsite Wastewater Treatment Systems (OWTS Policy) which became effective May 13, 2013, and

WHEREAS, the OWTS Policy establishes low-risk siting and design requirements for septic systems and authorizes local agencies to submit a Local Agency Management Program (LAMP) to the Board for approval of alternate methods of siting and design to achieve the same purpose, and

WHEREAS, the County of Stanislaus (County), Department of Environmental Resources (DER) operates a program for the approval of the siting, design, operation, and maintenance of OWTS for individual residences within its Environmental Health Division and has adequate staffing and technical knowledge to meet the requirements of the OWTS Policy, and

WHEREAS, OWTS Policy Section 4.3 identifies Central Valley Regional Water Quality Control Board (Central Valley Board) as the designated Regional Board for the County, for purposes of reviewing and, if appropriate, approving new LAMPs and the

County submitted a LAMP to the Central Valley Board, which was approved on June 9, 2017, and was granted a conditional waiver of waste discharge requirements, and

WHEREAS, on March 14, 2017, the Stanislaus County Board of Supervisors approved amendments of Stanislaus County Code Sections 16.10.030 and 20.56.170, implementing the requirements of the LAMP, and

WHEREAS, the Stanislaus County Board of Supervisors delegated authority to the Director of DER to enter into agreements with local jurisdictions to provide services under the LAMP, and

WHEREAS, the Memorandum of Understanding (MOU) with Stanislaus County for OWTS will allow the City to avoid the lengthy and costly process of developing and obtaining Central Valley Board approval of a LAMP, and

WHEREAS, the City's responsibility will be to provide information to the County on properties within the City that have OWTS, location of all nearby City wells, and information concerning the installation of a new well or abandonment of an existing well and the City will notify the County of any new building with an OWTS when a certification of occupancy is issued, and

WHEREAS, the County will be responsible for all regulatory oversight, reporting, permitting, inspections, and approvals of installation or destruction of the OWTS, and

WHEREAS, the City may terminate this MOU, with or without cause, upon ninety days with written notice.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves a Memorandum of Understanding between the city of Modesto, Utilities Department and the County of Stanislaus, Department of Environmental Resources, regarding Onsite Wastewater Treatment Systems.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 7th day of May, 2019, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Ah You, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2019-223**

RESOLUTION APPROVING THE AWARD OF BID AND AGREEMENT FOR TRANSPORTATION OF WASTEWATER GRIT TO BERTOLOTTI MODESTO DISPOSAL INC., CERES, CA, FOR A TWO-YEAR AGREEMENT WITH THREE ONE-YEAR EXTENSION OPTIONS, FOR AN ANNUAL COST NOT TO EXCEED \$45,000 AND A TOTAL AMOUNT NOT TO EXCEED \$245,250 OVER FIVE YEARS, AND AUTHORIZING THE CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE THE AGREEMENT

WHEREAS, the City uses Republic Services, Inc., Forward Landfill (Forward), to dispose of Wastewater Screening and Grit, and

WHEREAS, Forward is located in Manteca, CA, and is the closest landfill to the City that is approved by the Central Valley Regional Water Quality Control Board to accept wastewater solids and the City must contract with a trucking company to move the City owned bins filled with the grit to Forward; the City currently uses Bertolotti Modesto Disposal Inc., and

WHEREAS, on November 13, 2018, the Purchasing Division issued RFB No.17189-38RB for Transportation of Wastewater Grit on the City's website; prospective bidders were notified online of the bid opportunity and six companies chose to download the RFB document, however, no companies responded with a bid, and

WHEREAS, Purchasing reached out to the prospective bidders, including PSC Industrial Outsourcing, and requested quotes for the Transportation of Wastewater Grit and two vendors were still interested in bidding, but after multiple attempts, only one bid was received, and

WHEREAS, staff recommends the award of bid to Bertolotti Modesto Disposal Inc., Ceres, CA, for the furnishing of Transportation of Wastewater Grit for the Wastewater Division, and

WHEREAS, Wastewater averages two bins a week to be transported; with the cost at \$406 per bin, staff is requesting a two-year agreement with three one-year extension options at the sole discretion of the City, and

WHEREAS, in anticipation of increases in CPI and fuel for years three, four and five, an increase of 5% per year has been included; Therefore, years one and two will be \$45,000 each and years three, four and five will be for \$51,750 each, making a not to exceed cost of \$245,250 over five years, and

WHEREAS, Modesto Municipal Code Section 8-3.203 generally requires all purchases, which meet or exceed \$50,000 for material, equipment or contractual services to follow the formal bid procedures, and

WHEREAS, exceptions to the formal bidding process are granted in MMC 8-3.204(c) "Where the Purchasing Manager, in his or her discretion, determines that calling for bids on a competitive basis as set forth in Section 8-3.203 is undesirable due to exigent circumstances, and

WHEREAS, additionally MMC 8-3.204(d) states "Where the Purchasing Manager, in his or her discretion, determines that a process other than the formal bid procedure set for in Section 8-3.203 will result in procurement for the City at the lowest possible cost commensurate with the desired quality."

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the award of bid and agreement for Transportation of Wastewater Grit to Bertolotti Modesto Disposal Inc., Ceres, CA for a two-year agreement with three one-year extension options, for an annual cost not to exceed \$45,000 and a total amount not to exceed \$245,250 over five years.

BE IT FURTHER RESOLVED, that the City Manager, or his designee, is hereby authorized to execute the agreement, in a form approved by the City Attorney.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 7th day of May, 2019, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Ah You, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2019-224**

RESOLUTION APPROVING A REIMBURSEMENT AGREEMENT AMONG BANK OF THE WEST, THE CITY OF MODESTO AND MODESTO PUBLIC FINANCING AUTHORITY, AND A RELATED FEE LETTER AGREEMENT; A SUPPLEMENT TO AN OFFICIAL STATEMENT; A REMARKETING AND INTEREST SERVICES AGREEMENT BY AND BETWEEN MODESTO PUBLIC FINANCE AUTHORITY AND RAYMOND JAMES AND ASSOCIATES, INC.; AND AUTHORIZING CERTAIN OTHER ACTIONS RELATED TO AUTHORITY'S LEASE REVENUE REFUNDING BONDS, SERIES 2008

WHEREAS, the City of Modesto is a charter city and municipal corporation duly organized and existing under and by virtue of the Constitution and laws of the State of California (the "City"); and

WHEREAS, the Modesto Public Financing Authority (the "Authority") is authorized under the Marks-Roos Local Bond Pooling Act of 1985, constituting Article 4, Chapter 5, Division 7, Title 1 (commencing with Section 6584) of the California Government Code, as amended (the "Act"), to lease and/or purchase real property and to issue bonds for the financing and refinancing of public capital improvements whenever there are significant public benefits; and

WHEREAS, the Authority previously issued its \$65,170,000 original aggregate principal amount of Modesto Public Financing Authority Lease Revenue Refunding Bonds Series 2008 (the "2008 Bonds"), of which approximately \$50,915,000 remain outstanding as of September 1, 2019; and

WHEREAS, Bank of America, N.A., as the initial Credit Facility Provider ("BofA") issued its Irrevocable Transferable Letter of Credit dated August 28, 2008 (the "Initial Credit Facility") to provide credit support for the 2008 Bonds; and

WHEREAS, subsequently, on various occasions, the City requested BofA to extend the Stated Expiration Date of the Initial Credit Facility, and BofA agreed, most recently extending the Stated Expiration Date to June 22, 2019; and

WHEREAS, following a competitive solicitation and upon the advice of its municipal financial advisor, Public Financial Management, the City has determined that it is in its best interest to replace the Initial Credit Facility with a new letter of credit (the "Replacement Credit Facility") provided by Bank of the West (the "BotW"); and

WHEREAS, in connection with the issuance of the Replacement Credit Facility, the City, the Authority and BotW will enter into a Reimbursement Agreement (the "Reimbursement Agreement") and related Fee Letter Agreement (the "Fee Letter"); and

WHEREAS, the City and the Authority will prepare a supplement to the Official Statement for the 2008 Bonds describing certain material information regarding BotW and the substitution of the Replacement of Credit Facility (the "Supplement to Official Statement"); and

WHEREAS, in connection with the delivery of the Replacement of Credit Facility, the City has also determined, to facilitate the remarketing of the Bonds in the most cost-effective manner and upon the advice of its municipal financial advisor, to replace Merrill Lynch/BofA as dealer and remarketing agent for the Bonds and to appoint Raymond James & Associates Inc. as the new remarketing agent and to enter into a new Remarketing and Interest Services Agreement (substantially identical to the agreement with BofA) with Raymond James & Associates Inc.; and

WHEREAS, all acts, conditions and things required by the laws of the State of California to exist, to have happened and to have been performed precedent to and in

connection with the consummation of the transactions authorized hereby do exist, have happened and have been performed in regular and due time, form and manner as required by law, and the City is now duly authorized and empowered, pursuant to each and every requirement of law, to consummate such transactions for the purpose, in the manner and upon the terms herein provided.

NOW, THEREFORE, BE IT RESOLVED by the City Council of the City of Modesto, as follows:

1. Findings. The City Council hereby specifically finds and determines that the actions authorized hereby constitute and are with respect to the public affairs of the City and that the statements, findings and determinations of the City set forth above and in the preambles of the documents approved herein are true and correct and that the consummation of the transactions contemplated therein shall result in significant public benefits to the City.

2. Approval of the Reimbursement Agreement and Fee Letter. The Reimbursement Agreement and related Fee Letter proposed to be executed and entered into by the City, in the forms presented at this meeting and on file with the City Clerk, are hereby approved, and each of the City Manager and the Finance Director, acting singly, is hereby authorized and directed, for and in the name and on behalf of the City, to execute and deliver the Reimbursement Agreement and Fee Letter in substantially said forms, with such changes therein as such officer executing the Reimbursement Agreement and Fee Letter may require or approve, such approval to be conclusively evidenced by the execution and delivery thereof.

3. Approval of the Supplement to Official Statement. The Supplement to Official Statement proposed to be executed and delivered by the City, in the form presented at this meeting and on file with the City Clerk, is hereby approved, and each of the City Manager and the Finance Director, acting singly, is hereby authorized and directed, for and in the name and on behalf of the City, to execute and deliver the Supplement to Official Statement in substantially said form, with such changes therein as such officer executing the Supplement to Official Statement may require or approve, such approval to be conclusively evidenced by the execution and delivery thereof.

4. Approval of the Remarketing and Interest Services Agreement. The Remarketing and Interest Services Agreement proposed to be executed and entered into by the Authority with Raymond James & Associates, Inc., in the form presented at this meeting and on file with the City Clerk, is hereby approved, in substantially said forms, with such changes therein as such officer of the Authority executing the Agreement may require or approve, such approval to be conclusively evidenced by the execution and delivery thereof.

5. Attestations. The City Clerk is hereby authorized and directed to attest the signature of the City Manager and the Finance Director and to affix and attest the seal of the City, as may be required or appropriate in connection with the documents approved by this Resolution.

6. Other Actions. The officers of the City are hereby authorized and directed, jointly and severally, to do any and all things and to execute and deliver any and all documents which they may deem necessary or desirable in order to consummate the transactions authorized hereby and to carry out, give effect to and comply with the terms

and intent of this Resolution, the Reimbursement Agreement, the Fee Letter, the Supplement to Official Statement and the Remarketing and Interest Services Agreement, and all such actions heretofore taken by such officers are hereby ratified, confirmed and approved.

7. Effective Date. This Resolution shall take effect immediately upon its passage.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 7th day of May, 2019, by Councilmember Grewal, who moved its adoption, which motion being duly seconded by Councilmember Zoslocki, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2019-225**

RESOLUTION APPROVING THE AWARD OF PROPOSAL AND AGREEMENT FOR BANKING SERVICES TO BANK OF THE WEST, MONTEREY PARK, CA, FOR A FOUR-YEAR AGREEMENT WITH THREE ONE-YEAR EXTENSION OPTIONS, FOR AN ANNUAL COST NOT TO EXCEED \$30,691 AND A TOTAL AMOUNT NOT TO EXCEED \$213,374 OVER SEVEN YEARS; AND AUTHORIZING THE CITY MANAGER OR HIS DESIGNEE, TO EXECUTE THE AGREEMENT

WHEREAS, on July 2, 2013, by Resolution 2013-247, Council awarded the banking services agreement to Bank of America based on its determination that the City's financial needs are best served by a full-service financial institution that provides day-to-day banking services in addition to a Direct Pay Letter of Credit (LOC) for its General Fund Lease Revenue Bonds, Series 2008 (Series 2008 Bonds), and

WHEREAS, the existing banking services agreement is for a two (2) year term and three (3) one-year extension options and the City exercised all three (3) one-year extension options and the Agreement is scheduled to expire on July 31, 2018, and

WHEREAS, on July 10, 2018 by Resolution 2018-276, the Council approved an amendment increasing the agreement amount with Bank of America Merrill Lynch, for the banking services by \$51,034 from \$460,000 to \$511,034, and extending the term of the agreement from July 31, 2018 to June 30, 2019 to align the Letter of Credit termination date to the end of June 2019 in anticipation of a future Request for Proposal (RFP) for both of these services, and

WHEREAS, on November 9, 2018, the Purchasing Division issued RFP 1819-21 for Banking Services and Letter of Credit through PlanetBids, and

WHEREAS, on December 11, 2018, the proposals were formally opened in the City Clerk's office, and

WHEREAS, five companies choose to respond, one of which was a local vendor,
and

WHEREAS, the RFP categories were based on government banking experience,
quality of customer service, ability to support product and service, financial strength in
the banking market, and overall cost, and

WHEREAS, based on this evaluation review, it was determined by the committee
that Bank of the West was ranked the highest overall.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto
that it hereby approves the award of proposal and agreement for banking services to Bank
of the West, Monterey Park, CA, for a four-year agreement with three one-year extension
options, for an annual cost not to exceed \$30,691 and a total amount not to exceed
\$213,374 over seven years.

BE IT FURTHER RESOLVED, that the City Manager, or his designee, is hereby
authorized to execute the agreement, in a form approved by the City Attorney.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 7th day of May, 2019, by Councilmember Grewal, who moved its adoption, which motion being duly seconded by Councilmember Zoslocki, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2019-226**

RESOLUTION APPROVING A SECOND AMENDMENT INCREASING THE AGREEMENT AMOUNT WITH BANK OF AMERICA MERRILL LYNCH FOR BANKING SERVICES BY \$28,200 FROM \$511,034 TO \$539,234, AND EXTENDING THE TERM OF THE AGREEMENT FROM JUNE 30, 2019 TO DECEMBER 31, 2019; AND AUTHORIZING THE CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE THE AMENDMENT

WHEREAS, on July 2, 2013, by Resolution 2013-247, Council awarded the banking services agreement to Bank of America based on its determination that the City's financial needs are best served by a full-service financial institution that provides day-to-day banking services in addition to a Direct Pay Letter of Credit (LOC) for its General Fund Lease Revenue Bonds, Series 2008 (Series 2008 Bonds), and

WHEREAS, the existing banking services agreement is for a two (2) year term and three (3) one-year extension options and the City exercised all three (3) one-year extension options and the Agreement is scheduled to expire on July 31, 2018, and

WHEREAS, on July 10, 2018 by Resolution 2018-276, the Council approved an amendment increasing the agreement amount with Bank of America Merrill Lynch, for the banking services by \$51,034 from \$460,000 to \$511,034, and extending the term of the agreement from July 31, 2018 to June 30, 2019 to align the Letter of Credit termination date to the end of June 2019 in anticipation of a future Request for Proposal (RFP) for both of these services, and

WHEREAS, on June 7, 2016 by Resolution 2016-243, the City approved a 3-year extension of the Letter of Credit for the Series 2008 Bonds at 60 basis points (0.60%) and a reduction in banking pricing modification by around 21% with Bank of America, and

WHEREAS, staff will be recommending awarding the proposal for a new banking services agreement to Bank of the West for Council to approve in May 2019; and the anticipated award date to bank of the West and the termination date of the current banking contract does not provide sufficient time for the transition of the many banking services.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves a second amendment increasing the agreement amount with Bank of America Merrill Lynch for banking services by \$28,200 from \$511,034 to \$539,234, and extending the term of the agreement from June 30, 2019 to December 31, 2019.

BE IT FURTHER RESOLVED, that the City Manager, or his designee, is hereby authorized to execute the amendment, in a form approved by the City Attorney.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 7th day of May, 2019, by Councilmember Grewal, who moved its adoption, which motion being duly seconded by Councilmember Zoslocki, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2019-227**

RESOLUTION APPROVING THE AWARD OF PROPOSAL AND AGREEMENT FOR CITYWIDE REGULATORY SAFETY TRAINING AND CONSULTATION TO DU-ALL SAFETY, FREMONT, CALIFORNIA, FOR A ONE-YEAR AGREEMENT WITH ONE ONE-YEAR EXTENSION OPTION, FOR AN ANNUAL COST NOT TO EXCEED \$311,859 AND A TOTAL AMOUNT NOT TO EXCEED \$623,718 OVER TWO YEARS, AUTHORIZING THE DIRECTOR OF FINANCE OR DESIGNEE TO APPROVE ADDITIONAL TRAINING AS NEEDED WITHIN THE NOT TO EXCEED AMOUNT, AUTHORIZING THE CITY MANAGER, OR HIS DESIGNEE TO EXECUTE THE AGREEMENT; AND APPROVING THE TERMINATION OF THE AGREEMENT WITH YORK SERVICES EFFECTIVE APRIL 20, 2019

WHEREAS, the City recognizes the right of all employees to a safe workplace and values the importance of education and training for all staff to ensure safe work practices are understood and adhered to, and to aid in recognizing and mitigating hazards in the workplace, and

WHEREAS, through an extensive and on-going safety needs assessment, the City has identified the need for citywide safety training and consultation services to achieve and maintain compliance with Federal, State, and local regulations, and

WHEREAS, the Purchasing Division issued Request for Proposals (RFP) 1718-13 for Safety Training and Consultant Services, and

WHEREAS, a selection committee comprised of staff representing pertinent divisions for citywide safety needs reviewed all proposals and vendor presentations, and

WHEREAS, the selection committee chose York (formerly Bickmore) as the City's new Safety Consultant/Training Provider, and

WHEREAS, on January 22, 2019, by Resolution No. 2019-07, Council approved award of a contract for safety consultation and training services to York Risk Services, Sacramento, California, for an amount not to exceed \$85,120 annually, and

WHEREAS, it became evident during interactions with the vendor that York's training staff did not meet the expectations of City Risk Management or operations staff, and

WHEREAS, the selection committee reconvened and determined it is in the best interest of the City and its employees to terminate the agreement and re-award to the 2nd place vendor, Du-All Safety, and

WHEREAS, Du-All has demonstrated expertise in the areas of Risk Management and Safety and a solid understanding of the City's organizational structure and program gaps, and

WHEREAS, Du-All Safety will provide mandatory safety training, prepare and update written safety programs and provide additional guidance and consultation, and

WHEREAS, this agreement will authorize the necessary funds and authorities to provide continuous, ongoing mandatory training.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the award of proposal and agreement for citywide regulatory safety training and consultation to Du-All Safety, Fremont, California, for a one year agreement with one one-year extension option, for an annual cost not to exceed \$311,859 and a total amount not to exceed \$623,718 over two years.

BE IT FURTHER RESOLVED that the Director of Finance is hereby authorized to approve additional training as needed within the not to exceed amount.

BE IT FURTHER RESOLVED that the City Manager, or designee, is hereby authorized to execute the contract, in a form approved by the City Attorney.

BE IT FURTHER RESOLVED that the agreement between City of Modesto and York Services is terminated effective April 20, 2019.

The foregoing resolution was adopted at a regular meeting of the Council of the City of Modesto held on the 7th day of May, 2019, by Councilmember Ridenour, who moved its adoption, which motion being duly seconded by Councilmember Grewal, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2019-228**

**RESOLUTION ACCEPTING THE “FEASIBILITY STUDY – PROPOSED
CONVENTION CENTER HOTEL” BY HVS CONVENTION, SPORTS, AND
ENTERTAINMENT AND FACILITIES CONSULTING, AND AUTHORIZING
STAFF TO PROCEED WITH THE NEXT STEPS**

WHEREAS, the 2006 Redevelopment Master Plan (Plan) provided updated goals and implementation strategies for the redevelopment project area, and

WHEREAS, the Plan identified that development should support the vision for downtown as the “commercial and cultural heart of the city” and prioritization of land use and economic development goals to attract new development, and

WHEREAS, the Plan identified target areas and catalyst and opportunity sites for development, and

WHEREAS, one catalyst site, identified for potential development of a new hotel with ground floor commercial and retail space, is the surface parking lot adjacent to the Modesto Centre Plaza (MCP), and

WHEREAS, the site is owned by the Redevelopment Successor Agency, which, prior to its dissolution in 2012, supported the downtown hotel concept, and

WHEREAS, in August 2018, the City issued an informal Request for Proposals (RFP) for a lodging and market study to explore the feasibility of an additional hotel adjacent to MCP, and

WHEREAS, on October 24, 2018, by City Manager authority, the City retained HVS Convention, Entertainment, Sports, and Facilities Consulting (HVS) to conduct the lodging and market study, and

WHEREAS, on January 22, 2019, HVS submitted the “Feasibility Study – Proposed Convention Center Hotel” (Study) to the City, and

WHEREAS, the Study, based on the hotel market and a feasibility analysis, concluded that a 200-room select service hotel with minimum function space and limited food service would be the most viable due to the subject property size, development costs, and steadily growing demand for this product in the larger area hotel market, and

WHEREAS, based on the findings, development of the proposed hotel are projected to yield \$8.6 million in new direct spending, 106 new full-time jobs, and \$1.2 million in annual tax revenue in a stable year, and

WHEREAS, the Study identified the following practical next steps to determine whether the proposed hotel can be developed including 1) Project Management, 2) Site Parameters, Valuation and Parking, and 3) Solicitation of Development Partner, and

WHEREAS, on April 12, 2019, the Economic Development Committee unanimously recommended forwarding the Study to Council and proceeding with the next steps.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby accepts the “Feasibility Study – Proposed Convention Center Hotel” by HVS Convention, Entertainment, Sports, and Facilities Consulting, and authorizing staff to proceed with the next steps.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 7th day of May, 2019, by Councilmember Ah You, who moved its adoption, which motion being duly seconded by Councilmember Madrigal, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2019-229**

RESOLUTION APPROVING AN AGREEMENT WITH OPTICOS DESIGN, INC., TO PREPARE A DOWNTOWN MASTER PLAN, IN THE AMOUNT OF \$210,000, AND AUTHORIZING THE CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE THE AGREEMENT

WHEREAS, on September 4, 2018, by Resolution No. 2018-380, Council established a list of projects to be funded with Measure L tax proceeds in Fiscal Year 2018-2019, and

WHEREAS, the established list of projects allocated \$210,000 for the Downtown Master Plan project, and

WHEREAS, staff distributed a Request for Proposals in late 2018, which resulted in eleven (11) responsive proposals being submitted and the top five (5) firms being interviewed, and

WHEREAS, after interviews with the top five consulting firms based on review of the proposals received, the consultant selection committee unanimously determined that Opticos Design, Inc., was the best qualified firm to prepare the Downtown Master Plan, and

WHEREAS, Modesto Municipal Code Section 8-3.203 generally requires all purchases, which meet or exceed \$50,000 for material, equipment or contractual services to follow the formal bid procedures. An award of RFP 1819-24 and agreement for preparing the Downtown Master Plan for the Community and Economic Development Department to Opticos Design, Inc., of Berkeley, California, conforms to the Modesto Municipal Code because the City complied with the formal bid procedures and Opticos Design, Inc., was the highest scoring proposer.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the Agreement with Opticos Design, Inc., for the preparation of the Downtown Master Plan and related project work, in an amount not to exceed \$210,000 for the identified scope of services.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to execute the Agreement, in a form approved by the City Attorney.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 14th day of May, 2019, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Madrigal, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2019-230**

RESOLUTION APPROVING AN AGREEMENT WITH CLARK PEST CONTROL INC., MODESTO CA, BY UTILIZING THE COMPETITIVE BID PROCESS WITH STANISLAUS COUNTY GENERAL SERVICES AGENCY, FOR THE PURCHASE OF CITY-WIDE PEST CONTROL SERVICES, FOR A FIVE-YEAR AGREEMENT WITH TWO ONE-YEAR EXTENSION OPTIONS, FOR AN ANNUAL COST NOT TO EXCEED \$42,630 PER YEAR FOR ROUTINE PEST SERVICE IN YEARS ONE AND TWO AND \$10,000 PER YEAR FOR SITE ADDITIONS, SITE REMOVALS, EXTRA SERVICES, OR SERVICE CHANGES, AS AUTHORIZED BY THE DIRECTOR OF FINANCE OR HER DESIGNEE, WITH ANY COST INCREASES IN YEARS THREE THROUGH FIVE NOT TO EXCEED 2% PER YEAR AND REQUIRING NEGOTIATION WITH THE PURCHASING DIVISION, FOR A TOTAL AMOUNT NOT TO EXCEED \$269,550 OVER FIVE YEARS, AND AUTHORIZING THE CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE THE AGREEMENT

WHEREAS, the City owns, operates and manages a variety of public access facilities throughout the City that require pest control services, and

WHEREAS, Stanislaus County recently completed a competitive RFP process for pest control services, and

WHEREAS, based on being ranked highest in total evaluation criteria the Stanislaus County Board of Supervisors approved Board Action No. 2018-0388, authorizing the award of a Master Agreement to Clark Pest Control, Inc., and

WHEREAS, by accessing the terms or “piggybacking,” City staff recommends the award of contract for the furnishing of pest control services for City-wide use to Clark Pest Control, Inc., Modesto, CA, and

WHEREAS, Modesto Municipal Code Section (MMC), Section 8-3.203, generally requires all purchases which meet or exceed \$50,000 for material, equipment or contractual services to be formally bid. Section MMC 8-3.204(d) is available where the Purchasing Manager, in his/her discretion, determines that a process other than the formal

bid procedure set for in Section 8-3.203 will result in procurement for the City at the lowest possible cost commensurate with the desired quality. In addition, MMC 8-3.202(h) encourages the Purchasing Manager to join with the State of California and other units of government in cooperative purchasing plans when the best cost savings interest of the City would be served, and

WHEREAS, the furnishing of pest control services for City-wide use conforms by accessing the terms of a competitively bid Master Agreement from Stanislaus County, Board Action No. 2018-0388, to Clark Pest Control Inc., Modesto CA.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves an agreement with Clark Pest Control Inc., Modesto CA, by utilizing the competitive bid process with Stanislaus County General Services Agency, for the purchase of city-wide pest control services, for a five-year agreement with two one-year extension options, for an annual cost not to exceed \$42,630 per year for routine pest service in Years 1 and 2 and \$10,000 per year for site additions, site removals, extra services, or service changes, as authorized by the Director of Finance or her designee, with any cost increases in Years 3-5 not to exceed 2% per year and requiring negotiation with the Purchasing Division, for a total amount not to exceed \$269,550 over five years.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to execute the agreement, in a form approved by the City Attorney.

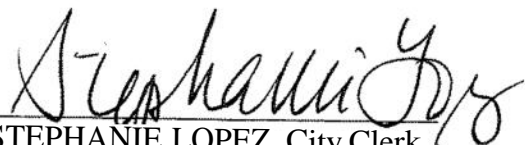

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 14th day of May, 2019, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Madrigal, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION NO. 2019-231**

RESOLUTION CANCELLING ALL PROPOSALS RECEIVED FOR REQUEST FOR PROPOSALS NO. 1819-20 FOR MODESTO AREA DIAL-A-RIDE OPERATIONS; AND AUTHORIZING THE CITY MANAGER, OR HIS DESIGNEE, TO REISSUE A RFP AT A FUTURE DATE, WITH AN AMENDED SCOPE OF SERVICES

WHEREAS, the proposals received for the Modesto Area Dial-A-Ride operations were opened at 11:00 a.m. on February 5, 2019, and

WHEREAS, the City only received two proposals for the project, where staff acknowledges several other companies that could have provided a proposal on the project, and

WHEREAS, the Federal Transit Administration (FTA) expects full and open competition for transit operations contracts and more than two proposers, and

WHEREAS, the Transit Division staff determined that it would be in the best interest of the City to cancel the request for proposals and re-advertise the project with revised specifications.

NOW THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby authorizes staff to cancel all proposals received for Request for Proposals No. 1819-20 for Modesto Area Dial-A-Ride operations; and authorizing the City Manager, or his designee, to reissue a RFP at a future date, with an amended Scope of Services.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 14th day of May, 2019, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Madrigal, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2019-232**

**RESOLUTION APPROVING AN INCREASE TO THE PURCHASING
AGREEMENT WITH STORER TRANSIT SYSTEMS FOR MODESTO AREA
DIAL-A-RIDE OPERATIONS BY \$3,643,138 FROM \$16,171,515 TO \$19,814,653,
FOR A NEW TOTAL AMOUNT OF \$19,814,653 AND EXTENDING THE TERM
OF THE AGREEMENT FROM JUNE 28, 2019 TO JUNE 30, 2020**

WHEREAS, the City is in the final year of a five year contract with Storer Transit Systems (Storer) to operate Modesto Area Dial-A-Ride (MADAR) through June 28, 2019, and

WHEREAS, the City issued a Request for Proposal (RFP) on October 25, 2018, soliciting firms to provide a turnkey operation of the MADAR American Disabilities Act (ADA) paratransit service, and

WHEREAS, the proposals received for the MADAR operations were opened at 11:00 a.m. on February 5, 2019, and

WHEREAS, the City only received two proposals for the project, where staff acknowledges several other companies that could have provided a proposal on the project, and

WHEREAS, the Federal Transit Administration (FTA) expects full and open competition for transit operations contracts and more than two proposers, and

WHEREAS, the Transit Division staff determined that it would be in the best interest of the City to cancel the request for proposals and re-advertise the project with revised specifications, and

WHEREAS, the City wishes to continue providing MADAR service to the citizens and visitors of Modesto, and

WHEREAS, the existing agreement with Storer allows for a one year extension,

which accommodate the time staff requires to review the operation, make adjustments and re-advertise the solicitation.

NOW THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby authorizes an increase to the agreement with Storer Transit Systems for Modesto Area Dial-A-Ride operations by \$3,643,138 from \$16,171,515 to \$19,814,653, for a new total amount of \$19,814,653 and extending the term of the agreement from June 28, 2019 to June 30, 2020.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 14th day of May, 2019, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Madrigal, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2019-234**

RESOLUTION ACCEPTING THE GRAYSON REPLACEMENT WELL 274 AS COMPLETE, AUTHORIZING ALL NECESSARY STEPS TO FILE WITH THE COUNTY RECORDER, RELEASING SECURITIES, AND RELEASING PAYMENTS TOTALING \$413,811 TO MAGGIORA BROS. DRILLING, INC. OF WATSONVILLE, CA

WHEREAS, the Grayson water service area was acquired from the Del Este Water Company in 1995 as part of the overall acquisition of Del Este's water system, and

WHEREAS, the City now operates and maintains Well 274, Well 295 and Tank 9 in the outlying service area of Grayson. Elevated nitrate concentrations have been a problem at Well 274, and

WHEREAS, the water required treatment for nitrate removal at the Well 295/Tank 9 site, and

WHEREAS, a feasibility study addressing nitrate concentrations in Well 274 was completed in January 2015, and recommended a replacement well due to the age and relative shallow depth of the existing well originally constructed in 1967, and

WHEREAS, on November 24, 2015, by Resolution 2015-454, Council accepted a 9,945 square foot site from Stanislaus County expanding the Well 274 site to accommodate drilling a replacement well, and

WHEREAS, on March 22, 2016, by Resolution 2016-116, Council approved an agreement with Kleinfelder, Inc. to provide a geophysical investigation of the site, and

WHEREAS, the geophysical investigation results determined that a production zone of approximately 270-340 feet below ground surface (bgs) could potentially produce

400-500 gallons per minute (gpm), which would be sufficient to meet water supply demands in the Grayson community per the 2010 Water System Engineer's Report, and

WHEREAS, on January 10, 2017, by Resolution 2017-18, the Council approved a hydrogeological and design services agreement with Hazen-Sawyer, Inc. (Hazen) for the Well 274 site, and

WHEREAS, after final design of the below-ground well drilling and casing portion of the project was complete; bids were advertised on November 28, 2017, and

WHEREAS, one bid was publicly opened on December 19, 2017 pursuant to Modesto Municipal Code section 8-3.403 and Charter Section 1307, Maggiora Bros Drilling, Inc., of Watsonville, California was the apparent low bidder.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Replacement Well 274 project is hereby accepted as complete from said contractor, Maggiora Brothers Drilling Inc. of Watsonville, California, and that the City Clerk is authorized to complete all necessary steps to file the appropriate notices and documents with the County Recorder, release securities and authorize payments totaling \$413,811, as is authorized.

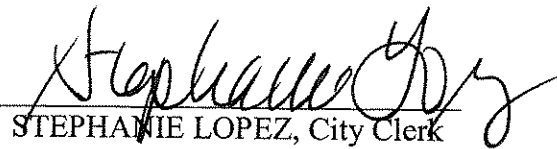

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 14th day of May, 2019, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Madrigal, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2019-235**

RESOLUTION APPROVING AN AGREEMENT WITH HAZEN AND SAWYER, SAN FRANCISCO, CA, FOR WASTEWATER TREATMENT CORROSION EVALUATION AND PROCESS OPTIMIZATION IN THE AMOUNT OF \$69,850 FOR THE IDENTIFIED SCOPE OF SERVICES, PLUS \$6,985 IN ADDITIONAL SERVICES, IF NEEDED, FOR A TOTAL NOT TO EXCEED AMOUNT OF \$76,835 AND AUTHORIZING THE CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE THE AGREEMENT

WHEREAS, shortly following the startup of Phase 2 tertiary treatment process at the Jennings Treatment Plant (Jennings Plant), maintenance and operations staff began noticing corrosion on equipment, pipe and fittings downstream of the tertiary process, and

WHEREAS, a failure occurred on a utility pump that, upon inspection, revealed extreme corrosion of the pump, and

WHEREAS, initially, staff issued a Request for Proposals for a caustic soda facility to address corrosion issues, and

WHEREAS, staff received three proposals from firms on the prequalified list of consultants to provide wastewater engineering services, and

WHEREAS, staff concluded that prior to initiating a design project, additional analysis should be conducted to determine the cause of the corrosion issues, and

WHEREAS, to determine the correct long term solution to this problem, staff is recommending that a whole plant study be conducted to include a detailed analysis of water quality, evaluation of the wastewater treatment process and the optimization.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves an agreement with Hazen and Sawyer, San Francisco, CA, for Wastewater Treatment Corrosion Evaluation and Process Optimization in the amount

\$69,850 for the identified scope of services, plus \$6,985 in additional services if needed, for an agreement total of \$76,835.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to execute the contract, in a form approved by the City Attorney.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 14th day of May, 2019, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Madrigal, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION NO. 2019-236**

**RESOLUTION APPROVING AN AMENDMENT TO THE MODESTO URBAN
AREA GENERAL PLAN TO ELIMINATE THE REQUIREMENT TO PREPARE
A SPECIFIC PLAN FOR THE PELANDALE / MCHENRY COMPREHENSIVE
PLANNING DISTRICT AND RELATED TEXT AMENDMENTS**

WHEREAS, on March 5, 2019, by Resolution 2019-109 , Council of the City of Modesto certified the Final Master Environmental Impact Report (“Master EIR”) (SCH No. 2014042081) for the Modesto Urban Area General Plan, and

WHEREAS, a new General Plan for the City of Modesto entitled “City of Modesto Urban Area General Plan”, as recommended by the Modesto City Planning Commission, was adopted by the Council of the City of Modesto by Resolution No. 95-409 on August 15, 1995, and

WHEREAS, said General Plan has been amended by Modesto City Council Resolution Nos. 95-584, 96-20, 96-338, 96-639, 97-3, 97-137, 97-158, 98-293, 99-162, 99-564, 2000-303, 2000-633, 2001-47, 2001-476, 2002-154, 2002-526, 2003-101, 2003-122, 2004-233, 2005-70, 2007-066, 2007-599, 2008-142, 2008-583, 2009-419, 2011-253, 2011-254, 2011-435, 2012-430, 2014-17, 2014-422, 2015-262, 2016-34, 2017-21, and 2019-109 copies of which are on file in the office of the City Clerk, and

WHEREAS, Government Code Section 65358 permits the amendment of General Plans by the legislative body, and

WHEREAS, Tesoro Homes and Calandev, LLC, have applied for an amendment to the General Plan to eliminate the requirement to prepare a specific plan for the Pelandale / McHenry Comprehensive Planning District and related text amendments, and

WHEREAS, the Community & Economic Development Department has analyzed the proposed amendment and concluded that it is within the scope of the General Plan Master EIR, and

WHEREAS, a Final Master Environmental Impact Report was prepared for the Urban Area General Plan Update (SCH No. 2014042081) which analyzed the potential environmental effects of the proposed Project, and

WHEREAS, on April 15, 2019, the Planning Commission held a duly noticed public hearing in the Tenth Street Place Chambers located at 1010 Tenth Street, Modesto, California, relating to this proposed amendment to the Modesto Urban Area General Plan to eliminate the requirement to prepare a specific plan for the Pelandale / McHenry Comprehensive Planning District and related text amendments, and

WHEREAS, after said public hearing, the Planning Commission adopted Resolution No. 2019-12, recommending to the City Council an amendment to the Modesto Urban Area General Plan to eliminate the requirement to prepare a specific plan for the Pelandale / McHenry Comprehensive Planning District and related text amendments, and

WHEREAS, said matter was set for a public hearing of the City Council to be held on May 14, 2019, in the Tenth Street Place Chambers located at 1010 Tenth Street, Modesto, California, at which date and time said duly noticed public hearing of the Council was held for the purpose of receiving public comment on the proposed amendment to the Modesto Urban Area General Plan to eliminate the requirement to prepare a specific plan for the Pelandale / McHenry Comprehensive Planning District and related text amendments.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby finds and determines as follows:

1. The Pelandale / McHenry Comprehensive Planning District is small and there is a limited area remaining for development because much of it has already been developed. There is no need for a specific plan or infrastructure master plan because there is no centralized storm water drainage basin and most of the sewer and water lines are built or planned.

BE IT FURTHER RESOLVED by the Council of the City of Modesto that it hereby finds and determines that the proposed amendment to the Modesto Urban General Plan to as described in **Exhibit “A”, attached** hereto and incorporated herein by reference, is approved for the reasons cited above.

BE IT FURTHER RESOLVED by the Council of the City of Modesto that it hereby adopts the proposed amendment to the Urban Area General Plan as described in **Exhibit “A”, attached** hereto and incorporated herein by reference.

BE IT FURTHER RESOLVED by the Council of the City of Modesto that the Community and Economic Development Department Director is hereby authorized and directed to forward certified copies of this resolution and said amendment to the Urban Area General Plan to the Board of Supervisors.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 14th day of May, 2019, by Councilmember Ridenour, who moved its adoption, which motion being duly seconded by Councilmember Madrigal, was upon roll call carried and the resolution adopted by the following vote:

EXHIBIT A

**MODESTO CITY COUNCIL
RESOLUTION NO. 2019-237**

RESOLUTION APPROVING A DEVELOPMENT PLAN FOR PLANNED DEVELOPMENT ZONE, P-D(607)

WHEREAS, a verified application for an amendment to Sections 5-3-9 and 8-3-9 of the Zoning Map was filed by Tesoro Homes and Calandev, LLC, on November 19, 2018, to prezone property in the unincorporated area west of McHenry Avenue and south of Pelandale Avenue to Planned Development zone, P-P-D(607), in order to allow for the annexation of said property, to provide for the subsequent development of single family residences in a gated subdivision on said properties, property located west of McHenry Avenue and south of Pelandale Avenue, described as follows:

Prezone to P-P-D(607)

All that portion of the Southwest ¼ of the Southeast ¼ of Section 5, Township 3 South, Range 9 East, and a portion of the Northwest ¼ of the Southeast ¼ of Section 5, Township 3 South, Range 9 East, Mount Diablo Meridian, being more particularly described as follows:

BEGINNING at the southwest corner of Lot “A” as shown on that map filed in Volume 52 of Parcel Maps at Page 18, Stanislaus County Records, thence commencing the following ten courses:

1. South 88° 44’ 29” East, a distance of 182.2 feet, thence;
2. A Tangent Curve with a radius of 5067.5 feet, arc length of 588.27 feet, and chord bearing South 85° 24’ 57” East, said curve being along the northerly Right-of-Way line of Pelandale Avenue and the southern lot line of the Remainder parcel as shown on that map filed in Volume 49 of Parcel Maps at Page 88, Stanislaus County Records, thence;
3. South 0° 38’ 19” West, a distance of 118.99 feet to a point at the north corner of Lot “A” as shown on that map filed in Volume 33 of Maps at Page 17, Stanislaus County Records, thence;
4. South 1° 11’ 49” East, a distance of 184.23 feet to a point at the southeast corner of aforementioned Lot “A” thence;
5. South 88° 48’ 11” East, a distance of 215.08 feet, thence;
6. South 1° 31’ 0” East a distance of 1186.82 feet, thence;
7. North 88° 48’ 26” West, a distance of 524.89 feet, thence;

8. South 70° 11' 8" West, a distance of 535.66 feet, thence;
9. North 1° 5' 32" West, a distance of 1725.34 feet, thence;
10. South 83° 31' 18" East, a distance of 60.54 feet to the Point of Beginning.

Containing 35.19 Acres, more or less.

WHEREAS, after a public hearing held on April 15, 2019, in the Tenth Street Place Chambers located at 1010 Tenth Street, Modesto, California, it was found and determined by the Planning Commission, by its Resolution No. 2019-13, that rezoning of the property as requested will not be detrimental to the public health, safety or welfare because the prezone of unincorporated area to Planned Development (P-P-D(607)) would provide for development that is compatible with adjacent residential and storage uses, the requested zone change will result in an orderly planned use of land because it would facilitate the development of a gated single family residential development that is compatible with adjacent residential and storage uses, and the requested zone change is in accordance with the community objectives as set forth in the Modesto Urban Area General Plan and any applicable specific plans(s) because the allowed use of the Planned Development (P-P-D(607)) Zone is consistent with the site's General Plan Land Use Designation of Residential, and

WHEREAS, said matter was set for a public hearing of the City Council to be held on May 14, 2019, in the Tenth Street Place Chambers located at 1010 Tenth Street, Modesto, California, at which date and time said duly noticed public hearing was held, and

WHEREAS, after said public hearing the Council found and determined that the application of Tesoro Homes and Calandev, LLC, for a Planned Development Zone will not be detrimental to the public health, safety or welfare, will result in an orderly planned

use of land, and is in accordance with the community objectives as set forth in the Modesto Urban Area General Plan and any applicable specific plans(s) for the reasons set forth in Planning Commission Resolution No. 2019-13 and quoted above, and

WHEREAS, the Council has introduced Ordinance No. 3695-C.S. on the 14th day of May, 2019, rezoning the above-described property, to Planned Development Zone, P-D(607).

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto as follows:

1. DEVELOPMENT PLAN. Following annexation, but prior to development, the Applicants shall apply for and receive Planning Commission approval for a Planned Development amendment, to satisfy the requirements of Title 10, Chapter 7, Sections 101 – 109 of the Modesto Municipal Code.

2. COMPLIANCE WITH CODE PROVISIONS, ETC. In all other respects said planned development shall be accomplished in accordance with and in strict adherence to the provisions of Article 1 of Chapter 7 of Title 10 of the Modesto Municipal Code relating to Planned Development Zones and other applicable City laws, rules, regulations and procedures.

3. EFFECTIVE DATE. This resolution shall not become effective unless and until the ordinance reclassifying the above-described property to Planned Development Zone, P-D(607), becomes effective.

BE IT FURTHER RESOLVED that the conditions of project approval set forth herein include certain fees, dedication requirements, reservations requirements, and other exactions, and that pursuant to Government Code Section 66020(d)(1), these conditions

constitute written notice of a statement of the amount of such fees, and a description of the dedications, reservations, and other exactions.

BE IT FURTHER RESOLVED that the applicant is hereby further notified that the ninety (90) days approval period in which a protest of these fees, dedications, reservations, and other exactions, pursuant to Government Code Section 66020(a) can be filed, begins on May 14, 2019, and that if a protest is not filed within this ninety (90)-day period complying with all of the requirements of Section 66020, the applicant will be legally barred from later challenging such exactions.

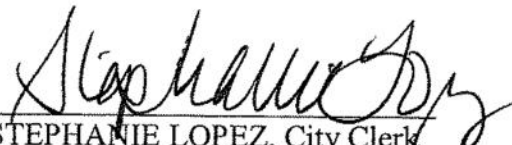

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 14th day of May, 2019, by Councilmember Ridenour, who moved its adoption, which motion being duly seconded by Councilmember Madrigal, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2019-238**

RESOLUTION APPROVING THE FILING OF AN APPLICATION WITH THE STANISLAUS LOCAL AGENCY FORMATION COMMISSION FOR THE WELLS AVENUE RESIDENTIAL REORGANIZATION CONSISTING OF ANNEXATION TO THE CITY OF MODESTO AND SIMULTANEOUS DETACHMENT FROM THE SALIDA FIRE PROTECTION DISTRICT OF APPROXIMATELY 35.19 ACRES LOCATED WEST OF MCHENRY AVENUE AND SOUTH OF PELANDALE AVENUE (TESORO HOMES AND CALANDEV, LLC—UNINHABITED)

WHEREAS, Tesoro Homes and Calandev, LLC (“Applicants”), are the owners of approximately 24 acres of real property, located west of McHenry Avenue and south of Pelandale Avenue and the remaining approximately 11.2 acres of real property are owned by public agencies (“Property”), and

WHEREAS, the City has received a request from the Applicants to initiate reorganization of the Property and adjacent right-of-way on Pelandale Avenue, a total of approximately 35.19 acres, for annexation to the City of Modesto and simultaneous detachment from the Salida Fire Protection District under the Cortese-Knox-Hertzberg Local Reorganization Act of 2000, California Government Code Section 56000, et seq., and

WHEREAS, the Resolution of Application is proposed pursuant to the Cortese-Knox-Hertzberg Local Reorganization Act of 2000, California Government Code Section 56000, et seq, and

WHEREAS, the Property proposed for reorganization is uninhabited as defined by Government Code Section 56079.5 (fewer than twelve registered voters), and a description of the boundaries of the subject Property is set forth in **Exhibits “A” and “B”, attached** hereto and by this reference incorporated herein, and

WHEREAS, the Property proposed for reorganization is within Stanislaus County, is contiguous to the existing City limits, and is within the Sphere of Influence of the City of Modesto as adopted by LAFCO, and

WHEREAS, the property has been rezoned to Planned Development (P-P-D(607)) with a Residential land use designation, and

WHEREAS, the proposed Property is not subject to a Williamson Act contract, and

WHEREAS, the proposed Property is covered by the North McHenry Corridor Agreement that address tax sharing entered into between the County of Stanislaus and City of Modesto which was approved on December 8, 1998, and

WHEREAS, the reorganization area received a Measure M advisory vote approval in November 1999, and

WHEREAS, the reasons for this proposed reorganization are as follows:

1. The proposed reorganization is consistent with the Urban Area General Plan and can be serviced by City services;
2. The proposed reorganization will result in planned, orderly and efficient development of the area and provision for services; and

WHEREAS, pursuant to Government Code Section 56653, a plan for providing services is set forth in **Exhibit “C”, attached** hereto and by this reference incorporated herein, and

WHEREAS, on April 15, 2019, City of Modesto Planning Commission held a duly noticed public hearing in the Chambers, Tenth Street Place, 1010 Tenth Street, Modesto, California, at which time both oral and documentary evidence were received and considered, and

WHEREAS, after said public hearing, the City of Modesto Planning Commission adopted Resolution No. 2019-14, recommending to the City Council that it adopt the Resolution of Application for an reorganization to annex the Property to the City of Modesto and simultaneously detach the Property from the Salida Fire Protection District, and

WHEREAS, said matter was set for public hearing of the City Council to be held on May 14, 2019, in the Tenth Street Place Chambers located at 1010 10th Street, Modesto, California, at which date and time said duly noticed public hearing of the Council was held for the purpose of receiving public comment on the proposed annexation.

NOW, THEREFORE, the Council of the City of Modesto hereby finds and determines as follows:

1. The Property has been rezoned to Planned Development (P-P-D(607)) with a Residential land use designation.
2. The requested reorganization will result in an orderly and logical addition of land because would facilitate the development of a gated single family residential development that is compatible with adjacent residential and storage uses.
3. The Property is located within Stanislaus County, within the City's adopted Sphere of Influence, is contiguous to the existing City limits and can be most efficiently served with City services.
4. The Property proposed to be annexed to the City of Modesto is uninhabited as defined by Government Code Section 56079.5 (fewer than twelve registered voters) and a description of the boundaries of the subject Property is set forth in **Exhibits "A" and "B", attached** hereto and by this reference incorporated herein.
5. The Property is covered by the North McHenry Corridor Agreement for the sharing of property tax, sales tax, business and mill tax, and utility tax between the County of Stanislaus and City of Modesto which was approved December 8, 1998.

BE IT FURTHER RESOLVED by the Council of the City of Modesto that it hereby adopts this Resolution Authorizing Application for reorganization to annex the

Property to the City of Modesto, and simultaneously detach of the Property from the Stanislaus Consolidated Fire Protection District.

BE IT FURTHER RESOLVED by the Council of the City of Modesto that this Resolution of Application includes annexation of the Property to the Modesto Sewer District No. 1.

BE IT FURTHER RESOLVED by the Council of the City of Modesto that, pursuant to Government Code section 56653, the City Council submit the Plan for Services as set forth in **Exhibit “C”**, **attached** hereto and by this reference incorporated herein.

BE IT FURTHER RESOLVED that the project applicant shall indemnify, defend, and hold harmless the City of Modesto, its agents, officers, and employees from any and all claims, actions, or proceedings against the City of Modesto, its agents, officers, and employees to attack, set aside, void, or annul, any approval by the City of Modesto and its advisory agency, appeal board, or a legislative body concerning the reorganization for the Property. The City of Modesto shall promptly notify the applicant of any claim, action, or proceeding.

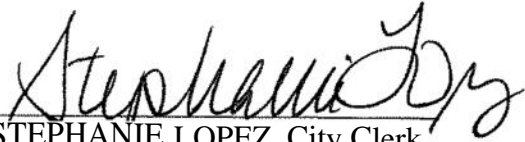

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 14th day of May, 2019, by Councilmember Ridenour, who moved its adoption, which motion being duly seconded by Councilmember Madrigal, was upon roll call carried and the resolution adopted by the following vote:

PLAN FOR SERVICES

WELLS AVENUE RESIDENTIAL REORGANIZATION TO THE CITY OF MODESTO

Background:

The Wells Avenue Residential Annexation area consists of seven parcels located west of McHenry Avenue and south of Pelandale Avenue. Four of the parcels are publicly owned, with the remaining three parcels to be developed, totaling approximately 24 acres. Including adjacent street right-of-way, the annexation area is 35.2 acres total. The proposed annexation area was rezoned as Planned Development (P-P-D).

The purpose of the annexation is to allow residential development on the privately owned parcels. Although the project proponent is not ready to develop the site at this time, the eventual proposal is expected to consist of a gated, single family detached subdivision with a drainage basin and open space.
