## Fee Facts

### *Time and Materials Fees*

#### Multiple Entitlement Applications

When multiple entitlement applications are filed for the same project and one or more of the applications is a time and materials fee, then the entire project shall be treated as a time and materials project for fee purposes.

#### Deposited Funds

When deposited funds drop below 50% of the initial deposit amount, then additional funds shall be required to be deposited in an amount to be determined by the Director. This requirement may be waived by the Director if it is determined that additional funds are not needed to complete the entitlements, or the entitlements are inactive.

## Project Completion

Once the project is completed, withdrawn, or returned, the applicant shall be returned the balance of any remaining unused funds.

## ***Concurrent Processing***

When two or more entitlement applications related to a single development proposal on the same parcel are submitted simultaneously, the application fees shall be the highest fee plus half of the fees for the remaining applications (exclusive of California Environmental Quality Act processing fees).

## ***Refunds (Non Time and Materials Fees)***

### Application Withdrawn Before Complete

If an application is withdrawn or returned before it is deemed complete or within two weeks of submittal, whichever occurs first, then the applicant shall be entitled to a full refund.

### Application Withdrawn After Complete

If an application is withdrawn or returned after the initial period described above, but no later than six months after submittal and prior to scheduling for a hearing or an administrative decision, then the applicant shall be refunded half of the application fees submitted.

### After Submittal

After six months from application submittal, or once an application has been scheduled for a public hearing or administrative decision, whichever occurs first, no refunds shall be given.

### Fee Non-Existent

Authority to determine fee when no fee exists: If an application is made for an entitlement where no fee has been established, then the Director shall determine the appropriate fee based on the adopted fees for similar entitlements requiring a similar process or amount of staff time.
