Community Workshops on Modesto Tuolumne River Regional Park Master Plan

Modesto, CA, October 14, 2024 - The City of Modesto will be holding community engagement sessions to discuss the upcoming Tuolumne River Regional Park (T.R.R.P.) Master Plan Update. The updated T.R.R.P. Master Plan will serve as the City's blueprint for future decisions regarding park development on the Tuolumne River park which include future park design, park amenities, resource conservation, and other topics. We are excited to announce an upcoming round of community workshops. During this phase of engagement, we are asking the community to share their ideas about the future of the Tuolumne River Regional Park and tell us what they want to see. The city will host a workshop in three locations within the communities which reside near the park. Spanish interpretation will be provided at all workshops. Workshop dates and locations are below.
