About Landmarks and Historic Properties

Is my property a landmark?

For a property to be considered a landmark, it must be listed on Modesto's List of Historic Resources or be included in Modesto's Historic Resources Inventory and determined to meet the designation criteria for historic landmarks by the Landmark Preservation Commission. These properties are determined to be Eligible Historical Resources. Any area and neighborhood surveyed in accordance with the standards established by the California Office of Historic Preservation and determined to meet the designation criteria for historic district by the Landmark Preservation Commission is determined to be an Eligible Historic District. To find out if your property is on the list, please contact the Planning Division.

Can I have my property designated a landmark?

Any property or structure that meets the criteria in the Landmark Preservation Ordinance (Title 9, Chapter 10, of the Modesto Municipal Code) can be designated a Modesto Landmark. The City has already conducted a Historic Resources Inventory and many of those properties are on the City's List of Eligible Historic Resources. Some research on many of these properties has already been conducted. If a property is not on the City's List of Eligible Historic Resources, it may still be designated if it meets the designation criteria, once the property is surveyed.

Can I have my neighborhood designated?

Any neighborhood that meets the criteria in the Landmark Preservation Ordinance (Title 9, Chapter 10, of the Modesto Municipal Code) can be designated a Modesto Historic District. Properties that contribute to the significance of the neighborhood are considered contributing structures and are treated just like a landmark. Newer structures and those that do not contribute to the significance of the neighborhood are considered non-contributing structures. These properties have more flexibility with alterations, but are not eligible for preservation incentives. In order for a neighborhood to be designated, a majority of the properties in the proposed district must be contributing structures.

What is the designation process?

Complete and submit an application with the material identified in the submittal requirements to the Planning Division for review. The Planning Division will research the property with assistance of the McHenry Museum and County Library, to determine the historic significance of the property. A staff report will be prepared and presented to the Landmark Preservation Commission. The Landmark Preservation Commission will hold a public hearing to consider applications for demolition and make a recommendation to City Council. The City Council will then hold a public hearing and decide whether to designate the property a Modesto Landmark. Applications to alter or renovate will only be considered by the Landmark Preservation Commission, which will determine whether the change is appropriate.

Modesto's Municipal Code (Title 9, Chapter 10) includes these definitions of historic significance:

- (a) Significance: The quality of the information, example, interest or meaning represented by the site for understanding and appreciating the past, development or culture.
- (b) Historic Significance: Associated with activities, processes, events, trends or persons of importance to the community, state or nation.
- (c) Architectural Significance: Possessing distinctive characteristics of a style, place, period, method or materials of construction, builder or architect.
- (d) Cultural Significance: A significant setting of manmade or natural features (including significant trees or other plant life located thereon), or a combination, possessing meaning primarily by long association or identification with the community and/or its citizens.
- (e) Archaeological Significance: A setting possessing the potential to reveal information important to historic or prehistoric studies.
- (f) Engineering Significance: A work demonstrating a technology, design or method characteristic of a historic period or activity.
- (g) Modesto Landmark Preservation Site: An area, district, building, structure or object, which has been designated for preservation for reasons of its significance by the City Council.
